DATE 12/9 20 20 POINT OF ORIGIN Williston

The property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.

Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns

Subject: RE: DMROAG Invoice 2021 - 1

There's not much for verification. I can verify we got that many tickets as they mention but that's about it. It's just a flat fee per ticket that we get because we have an polygon over an area where an excavator is doing work. So each time we get alerted it's a flat fee. Those fees are how the one call system is funded. I have each ticket saved as a row in the following spreadsheet on the S drive: S:\PipelineProgram\One Call Tickets There were 22 in January, 2021 as stated on the invoice.

The only other item would be whether or not the ticket pertains to a polygon created for a well that was confiscated as part of the well confiscation program versus just a regular complaint. But I believe we're already over budget on using those federal funds so I'm guessing this is going to come out elsewhere, right?

							$ -	$ 4,777.10	$ 286.00

Bid Total	$ 25,497.96		
Budget Total		$ 114,757.40	
Completed Total			$ 147,986.65

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors, subcontractors, and materials.
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site reclamation work.
- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their future use, or buried on site per their direction.

Mr. VanderBusch,

I would like to think that this is the final invoice, but occasionally we have vendors that we call and ask for all their invoices, and then they send them to you, and sometimes a month later they find another one that they overlooked, but this should be all of them or pretty dang close to all of our costs to invoice out.

Please let me know if you have any questions?

Thanks,
Bart

Fencing as need per Landowner requirements will be cost plus 10%	-	-				$ -	$ -	$ -	$ -
							$ -	$ 6,668.85	$ -

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors,
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site
- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their

Subject: RE: U.S. SiteWork invoice for Erickson B 1 Well Site Reclamation

Here is the note I received back.

Correct, several invoices would have been processed for multiple job sites. I did my best to highlight the line items in which that particular jobs costs where coming from.

Cody VanderBusch

Sent: Monday, February 8, 2021 2:33 PM
To: Vanderbusch, Cody W. <cwvanderbusch@nd.gov>
Subject: RE: U.S. SiteWork invoice for Erickson B 1 Well Site Reclamation

Invoice copies total far more than summary, so has to be partial amounts for this job site.

Product Disposal	-	-		Barrels	Graham & Sons	$ 35.00	15%	$ 40.25	$ -	$ -	$ -
Fencing as need per Landowner requirements will be cost plus 10%	-	-						$ -	$ -	$ -	$ -
									$ -	$ -	$ -

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors, subcontractors, and materials.
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site reclamation work.
- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their future use, or buried on site per their direction.

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors,

- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.

- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site

- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their

Subject: U.S. SiteWork invoice for Garrison IV State 1 Well Site Reclamation

***** **CAUTION:** This email originated from an outside source. Do not click links or open attachments unless you know they are safe. *****

Mr. VanderBusch,

I would like to think that this is the final invoice, but occasionally we have vendors that we call and ask for all their invoices, and then they send them to you, and sometimes a month later they find another one that they overlooked, but this should be all of them or pretty dang close to all of our costs to invoice out.

Please let me know if you have any questions?

Thanks,
Bart

Fencing as need per Landowner requirements will be cost plus 10%						$ -	$ -	$ -
							$ 7,636.00	$ -

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors,
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site
- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their

Fencing as need per Landowner requirements will be cost plus 10%						$ -	$ -	$ -
							$ 7,636.00	$ -

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors,
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site
- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their

Subject: Re: Alturas Water Gathering System Invoice PR202003

***** **CAUTION:** This email originated from an outside source. Do not click links or open attachments unless you know they are safe. *****

Good Afternoon Cody,

We are sending a revised invoice # PR202003 after realizing that we missed to include a couple of invoices in the final copy - we hope that the 10-day grace period for revisions is still in place. Please find the attached revised Invoice PR202003 Alturas Water Gathering System for period 12.01.2020 -12.30.2020 from NESET Consulting. We apologize for the inconvenience.

Exhibit A
201864 - NDIC Dobias State Unit 1

U.S. SITEWORK

Initial Site Survey - Soil Testing - Drone Survey Imagery Pre & Post									
Description	**Bid Qty**	**Budget Qty**	**Completed Qty**	**Unit**	**Contractor**	**Unit Price**	**Bid Total**	**Budget Total**	**Completed Total**
Lab Testing - Soil Samples	1.00	1.00	-	EA	Golder	$ 172.50	$ 172.50	$ 172.50	$ -
Lab Testing - PID Test on Any GRO/DRO Stained Soil	1.00	1.00	-	EA	Golder	$ 172.50	$ 172.50	$ 172.50	$ -

							$ -	$ 6,889.65	$ -

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors, subcontractors, and materials.
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site future use, or buried on site per their direction.

Product Disposal	-	5.00		Barrels	Graham & Sons	$ 40.25	$ -	$ 201.25	$ -
Fencing as need per Landowner requirements will be cost plus 10%	-	-				$ -	$ -	$ -	$ -
							$ -	$ 6,513.60	$ -

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors, subcontractors, and materials.
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site reclamation work.
- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their future use, or buried on site per their direction.

Product Disposal	-	7.00		Barrels	Graham & Sons	$ 40.25	$ -	$ 281.75	$ -
Fencing as need per Landowner requirements will be cost plus 10%	-	-				$ -	$ -	$ -	$ -
							$ -	$ 6,579.15	$ -

Clarifications, and Notes:

- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their future use, or buried on site per their direction.
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site reclamation work.
- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors, subcontractors, and materials.

Bid Total	$ 27,168.54		
Budget Total		$ 207,910.13	
Completed Total			$ 46,520.36

Fencing as need per Landowner requirements will be cost plus 10%	-	-				$ -	$ -	$ -	$ -
							$ -	$ 4,750.65	$ -

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors, subcontractors, and materials.
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site reclamation work.
- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their future use or buried on site per their direction.

Fencing as need per Landowner requirements will be cost plus 10%	-	-				$ -	$ -	$ -	$ -
							$ -	$ 9,128.70	$ -

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors, subcontractors, and materials.
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site reclamation work.
- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their future use, or buried on site per their direct

							$ -	$ -	$ -

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors, subcontractors, and materials.
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site reclamation work.
- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their future use, or buried on site per their direct

Fencing as need per Landowner requirements will be cost plus 10%	-	-				$ -	$ -	$ -	$ -
							$ -	$ 4,777.10	$ -

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors, subcontractors, and materials.
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site reclamation work.
- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their future use, or buried on site per their direct

Fencing as need per Landowner requirements will be cost plus 10%	-	-				$ -	$ -	$ -	$ -
							$ -	$ 4,777.10	$ -

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors, subcontractors, and materials.
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site reclamation work.
- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their future use, or buried on site per their directio

Fencing as need per Landowner requirements will be cost plus 10%	-	-				$ -	$ -	$ -	$ -
							$ -	$ 6,406.65	$ -

Clarifications, and Notes:

- All costs not shown and not forecasted or projected will be handled on a cost plus basis with 10% mark up added to vendors, subcontractors, and materials.
- U.S. SiteWork equipment and labor cost sheet is attached for additional unforecasted work that might be needed by the project.
- Unforecasted cost adds will be dicussed with the NDIC prior to authorization, and implementation into the site reclamation work.
- It is generally assumed that the Landowners will want the surface aggregate, or will be ok with it stockpiled on site for their future use, or buried on site per their directio

HAM'S WELL SERVICE
PO BOX 223
WESTHOPE, ND 58793
PHONE: (701) 245-6628

Cody –

Ham's Well Service had (2) Frac tanks rented from Nuverra per request of North Plains Consulting Services while we did P&A work for them on the state projects. They were transferred from 16 different locations for North Plains Consulting Services throughout the duration of these state projects.

The attached invoice 68961 for $14,320.38 is for tank cleaning charges, disposal fees, and hauling charges acquired for North Plains Consulting Services projects.

The tanks were released after the completion of the last well for North Plains Consulting Services on 12/29/2020, but they still required extensive cleaning at the end due to paraffin, oils, solids, etc.

I was dependent on Nuverra for a final cost. This process took some time, and I didn't receive the full billing until the end of January.

After the completion of each well, the (2) tanks were sucked out, but not extensively cleaned until they were released. Craig with Nuverra had Hydrovac, Vac Truck, and Steamer use on both tanks. The material was disposed at Secure and the tanks were hauled to their Watford City location to steam out.

I appreciate your time in this matter. This project was great for our company and employees. If there is anything I can do for you in the future, don't hesitate to call.

Sincerely,

Shane Bryans
Ham's Well Service

Subject: RE: Invoice 68961 - Donald Peterson 1-28

Shane and Keilah,

I'm sorry about the delay in getting back to you. We have been very busy with legislative session going on right now.

I've reviewed the second set of invoices you sent, but I still can't justify the payment requested. I can see on the new invoices where the dates were changed (in a few cases it is obvious that the date was whited out and a new date typed in), but the hand written bill of lading still pulls the weight it had in the beginning. In order for this to hold up under an audit, we will need a written statement from Nuvera on when the work actually took place and why the dates on the bill of ladings were wrong.

I'm sorry to be a stickler on this, but I have to be able to account for the payments to both state and federal auditors.

Shane,

Because North Plains Consulting's contract ended on December 30, 2020, any work done after that date cannot be paid for from this project. Attached is the invoice with notes on what qualified for payment. The rest of the bill will have to go to the company that rented your tanks. If you have further questions, feel free to contact me at my number below.

Sincerely,

Robyn Loumer

To: Vanderbusch, Cody W. <cwvanderbusch@nd.gov>; Schmidt, Donna R. <donnarschmidt@nd.gov>
Subject: Wisco Invoices

Hello all,

Attached are 2 invoices received 4/7/2021. I will put the originals in Donna's office.

Thanks,
-Evan
