TO: Rhonda Michelanka

The following is a breakdown of our reclamation plan for Stead 44-14 2

Stead 44-14 2

1. Remove concrete, wire and piping down to 3ft
2. Remove impacted soil and dispose of at Clean harbors landfill
3. Blade up gravel from pad and lease road and remove from site.
4. blade lease road and pad to existing grade of fields adding topsoil as needed to reach a minimum of 6 inches.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

NOTES:
1. UNDERGROUND UTILITIES HAVE NOT BEEN LOCATED OR SHOWN. CONTRACTOR SHALL CONTACT NORTH DAKOTA ONE CALL PRIOR TO CONSTRUCTION.
2. CONTOURS SHOWN WERE DERIVED FROM PUBLIC LIDAR DATA OBTAINED FROM THE STATE OF NORTH DAKOTA WEBSITE AND ADJUSTED TO GROUND ELEVATIONS OBTAINED THROUGH GPS OBSERVATIONS.
3. IMAGERY SHOWN IS FROM A DRONE FLIGHT (SEPTEMBER, 2020).
4. EARTHWORK QUANTITIES SHOWN ARE APPROXIMATE AND ONLY COMPARE THE FINISHED RECLAIM GRADE TO THE EXISTING GRADE WITH NO SHRINKAGE FACTOR APPLIED AND DO NOT ACCOUNT FOR EXCESS REMOVAL OF AGGREGATE, CONCRETE, CONTAMINATED SOILS, TOPSOIL, CUTTINGS, ETC.

Note: Assuming 6" Topsoil Depth across the entire construction limit area, the approximate topsoil volume would be 2,700 cy.

Re: Well Reclamation Operations

Wellsite: Stead 44-14 -2

Dear Landowner:

You are receiving this letter to inform you that the reclamation of the wellsite on your property has been completed in accordance with the rules and regulations of the North Dakota Industrial Commission (NDIC). This work was completed in a manner to avoid and/or minimize crop damage.

If you have any questions or concerns, submit those to the department through a written letter. Please submit all written requests to:

NDIC Oil and Gas Division
Attn: Cody VanderBusch
600 E. Blvd Ave – Dept 405
Bismarck, ND 58505-0840

We are proud to have been a partner in returning this land to its natural condition and hope for its prosperity in your future.

Sincerely,

Please acknowledge receipt of this letter below.

Landowner: Leonda Michalenko

Re: Well Reclamation Operations

Wellsite: Koehler 31-23 1

Dear Landowner:

You are receiving this letter to inform you that the reclamation of the wellsite on your property has been completed in accordance with the rules and regulations of the North Dakota Industrial Commission (NDIC). This work was completed in a manner to avoid and/or minimize crop damage.

If you have any questions or concerns, submit those to the department through a written letter. Please submit all written requests to:

NDIC Oil and Gas Division
Attn: Cody VanderBusch
600 E. Blvd Ave – Dept 405
Bismarck, ND 58505-0840

We are proud to have been a partner in returning this land to its natural condition and hope for its prosperity in your future.

Sincerely,

Please acknowledge receipt of this letter below.

Landowner: Donald Kenny

TO: Rhonda Michelanka

The following is a breakdown of our reclamation plan for Stead-Koehler 1h

1. Clean residue out of oil tanks
2. Disassemble piping and cap below grade.
3. Remove and recycle scrap metal and tanks
4. Check areas for contamination and remove from site to clean harbors.
5. Blade up gravel and remove from site.
6. Blade area level to surrounding conditions adding topsoil as needed.
7. Blade gravel up from lease road and remove from site. then blade road down to existing level of surrounding fields.
8. Fiberglass tank will be sent to land fill after cleaning.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

The Waste Generator of Waste Generator's Authorized Representative, certifies the above described waste is properly classified and is not a hazardous waste, and the information given is true and complete. They have read the instructions on the application form and understand their responsibilities. Based on a program of representative sampling and analysis the waste stream is not a hazardous waste according to Environment Waste Control Regulations. Specifically, the Generator has determined that the waste is not "Flammable", "Corrosive", "Reactive", "Toxic", or "listed" as defined in the above-referenced regulations, and assume all environmental, transportation and disposal liabilities if this waste is later determined to be a hazardous waste.

TO: Adam Braun

The following is a breakdown of our reclamation plan for Kearney4-25 LT4

1. Clean residue out of oil tanks
2. Disassemble piping and cap below grade.
3. Remove and recycle scrap metal and tanks
4. Check areas for contamination and remove from site to clean harbors.
5. Blade up gravel and remove from site.
6. Blade area level to surrounding conditions adding topsoil as needed.
7. Blade gravel up from lease road and remove from site. then blade road down to existing level of surrounding fields.
8. Fiberglass tank will be sent to land fill after cleaning.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

SUNDRY NOTICES AND REPORTS ON WELLS - FORM 4
SFN 5749

1. Approval shall be obtained prior to perforating or recompleting a well in a reservoir other than the reservoir in which the well is currently completed, prior to plug back of a well, prior to temporary abandonment of a well, prior to abandonment of a well, prior to reclamation of a well site, and prior to reclamation of a reserve pit. Please refer to Section 43-02-03-16 of the North Dakota Administrative Code (NDAC) regarding recompleting a well in a reservoir other than the reservoir in which the well is currently completed or plugging back of a well, to Section 43-02-03-55 NDAC regarding temporary abandonment of a well, to Section 43-02-03-33 or Section 43-02-05-08 NDAC regarding abandonment of wells, and to Section 43-02-03-34.1 NDAC regarding reclamation.

2. Upon the completion of any remedial work, or attempted remedial work such as plugging back, drilling deeper, acidizing, shooting, formation fracturing, squeezing operations, setting liner, fishing operations, repair work, perforating, reperforating, or other similar operations not specifically covered herein, a report on the operation shall be filed on a Sundry Notice - Form 4 (SFN 5749) with the Director. The report shall present a detailed account of all work done and the date of such work; the daily production of oil, gas, and water both prior to and after the operation; the shots per foot, size, and depth of perforations; the quantity of sand, crude, chemical, or other materials employed in the operation; and any other pertinent information or operations which affect the original status of the well and are not specifically covered herein. Please refer to Section 43-02-03-31 NDAC.

3. Upon the initial installation of pumping equipment, or change in type or depth of pumping equipment designed to increase productivity in a well, the operator shall file a Sundry Notice - Form 4 (SFN 5749) of such installation. The notice shall include all pertinent information on the pump and the operation thereof including the date of such installation, and the daily production of the well prior to and after the pump has been installed. Please refer to Section 43-02-03-31 NDAC.

4. The well file number, well name and number, well location, field, pool, and county shall coincide with the official records on file with the Commission.

5. The original of this report shall be filed with the Industrial Commission of North Dakota, Oil and Gas Division, 600 East Boulevard, Dept. 405, Bismarck, ND 58505-0840.

TO: Ron Stead

The following is a breakdown of our reclamation plan for stead 24-14 4 SWD.

1. Clean residue out in oil tanks
2. Disassemble piping and cap below grand.
3. Remove and recycle scrap metal and tanks
4. Check areas for contamination and remove from site to clean harbors.
5. Blade up gravel and remove from site.
6. Blade area level to surrounding conditions adding topsoil as needed.
7. Blade gravel up from lease road and remove from site. then blade road down to existing level of surrounding fields.
8. Fiberglass tank will be sent to land fill after cleaning.

Note: this pad is heavily contaminated with produced water. Area inside pad will be dug down until ec readings are under 250 or 4 feet whichever comes first. Then a clay cap will be placed over the excavation up to 6 inches below surrounding grade, then topped off with no less than 6 inches of topsoil.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

I am signing below to indicate that I have received this document and have been given notice of the planned plugging and reclamation operations on my land. I am not agreeing that the scope of work described will fully reclaim my land, and my signature should not be construed as any kind of waiver, laches, acquiescence, or the basis for any estoppel

DETAILS OF WORK

1. Clean residue out in oil tanks
2. dissassemble piping and cap below grade.
3. Remove and recycle scrap metal and tanks
4. Check areas for contamination and remove from site to clean harbors.
5. Blade up gravel and remove from site.
6. Blade area level to surrounding conditions adding topsoil as needed.
7. Blade gravel up from lease road and remove from site. then blade road down to level of surrounding fields.
8. Fiberglass tank will be sent to land fill after cleaning.

Note: this pad is heavily contaminated with produced water. Area inside pad will be dug down untill ec readings are under 250 or 4 feet which ever comes first. Then a clay cap will be placed over the excavation up to 6 inches below surrounding grade, then topped off with no less than 6 inches of topsoil per Time and Material rates.

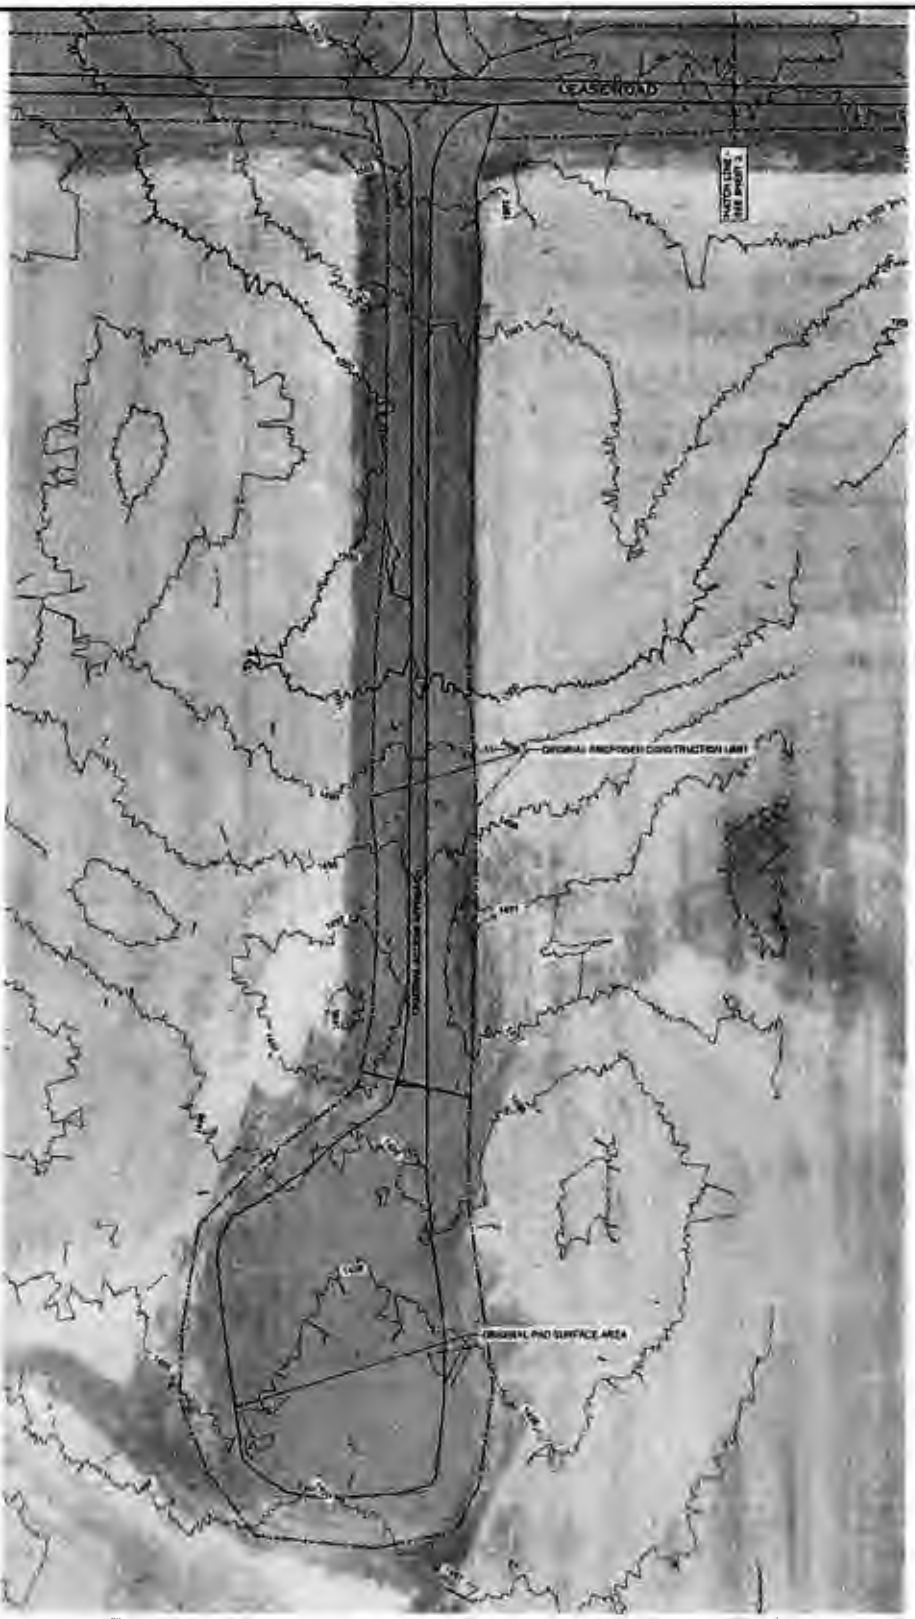
SUNDRY NOTICES AND REPORTS ON WELLS - FORM 4
SFN 5749



1. Approval shall be obtained prior to perforating or recompleting a well in a reservoir other than the reservoir in which the well is currently completed, prior to plug back of a well, prior to temporary abandonment of a well, prior to abandonment of a well, prior to reclamation of a well site, and prior to reclamation of a reserve pit. Please refer to Section 43-02-03-16 of the North Dakota Administrative Code (NDAC) regarding recompleting a well in a reservoir other than the reservoir in which the well is currently completed or plugging back of a well, to Section 43-02-03-55 NDAC regarding temporary abandonment of a well, to Section 43-02-03-33 or Section 43-02-05-08 NDAC regarding abandonment of wells, and to Section 43-02-03-34.1 NDAC regarding reclamation.

2. Upon the completion of any remedial work, or attempted remedial work such as plugging back, drilling deeper, acidizing, shooting, formation fracturing, squeezing operations, setting liner, fishing operations, repair work, perforating, reperforating, or other similar operations not specifically covered herein, a report on the operation shall be filed on a Sundry Notice - Form 4 (SFN 5749) with the Director. The report shall present a detailed account of all work done and the date of such work; the daily production of oil, gas, and water both prior to and after the operation; the shots per foot, size, and depth of perforations; the quantity of sand, crude, chemical, or other materials employed in the operation; and any other pertinent information or operations which affect the original status of the well and are not specifically covered herein. Please refer to Section 43-02-03-31 NDAC.

3. Upon the initial installation of pumping equipment, or change in type or depth of pumping equipment designed to increase productivity in a well, the operator shall file a Sundry Notice - Form 4 (SFN 5749) of such installation. The notice shall include all pertinent information on the pump and the operation thereof including the date of such installation, and the daily production of the well prior to and after the pump has been installed. Please refer to Section 43-02-03-31 NDAC.

4. The well file number, well name and number, well location, field, pool, and county shall coincide with the official records on file with the Commission.

5. The original of this report shall be filed with the Industrial Commission of North Dakota, Oil and Gas Division, 600 East Boulevard, Dept. 405, Bismarck, ND 58505-0840.

Re: Well Reclamation Operations

Wellsite: Strand 6 wcl

Dear Landowner:

You are receiving this letter to inform you that the reclamation of the wellsite on your property has been completed in accordance with the rules and regulations of the North Dakota Industrial Commission (NDIC). This work was completed in a manner to avoid and/or minimize crop damage.

If you have any questions or concerns, submit those to the department through a written letter. Please submit all written requests to:

NDIC Oil and Gas Division
Attn: Cody VanderBusch
600 E. Blvd Ave – Dept 405
Bismarck, ND 58505-0840

We are proud to have been a partner in returning this land to its natural condition and hope for its prosperity in your future.

Sincerely,

Please acknowledge receipt of this letter below.

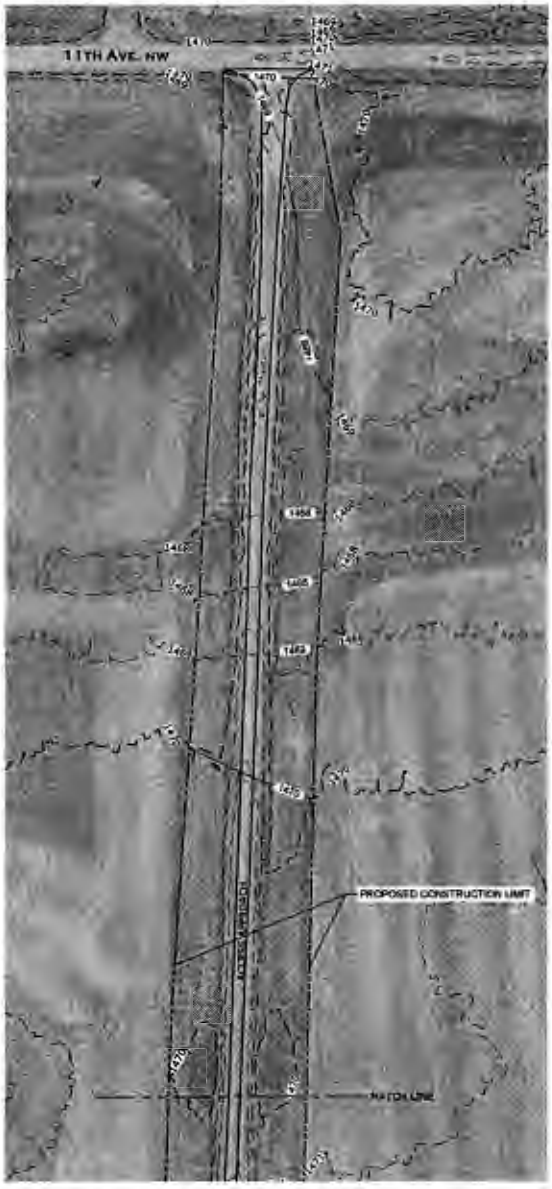
TO: Gerald Henry



The following is a breakdown of our reclamation plan for Newburg Spearfish Charles G715

1. Remove concrete, wire and piping down to 3ft
2. Remove impacted soil and dispose of at Clean harbors landfill
3. Blade up gravel from pad and lease road and remove from site.
4. blade lease road and pad to existing grade of fields adding topsoil as needed to reach a minimum of 6 inches.
5. Seed with state approved Seed if needed.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

Gerald Henry
Landowner

SITE DATA	
PROPOSED CONST. LIMIT AREA:	±5.63 AC.
PAD SURFACE AREA:	±18,790 SF.
APPROACH SURFACE AREA:	±20,660 SF.

APPROXIMATE EARTHWORK QUANTITIES

PAD		ACCESS APPROACH	
EXCAVATION :	130 C.Y.	EXCAVATION:	3,870 C.Y.
FILL:	100 C.Y.	FILL:	840 C.Y.

Note: Assuming 6" Topsoil Depth across the entire construction limit area, the approximate topsoil volume would be 3,850 c.y.

NOTES:
1. UNDERGROUND UTILITIES HAVE NOT BEEN LOCATED OR SHOWN. CONTRACTOR SHALL CONTACT NORTH DAKOTA ONE CALL PRIOR TO CONSTRUCTION.
2. CONTOURS SHOWN WERE DERIVED FROM PUBLIC LIDAR DATA OBTAINED FROM THE STATE OF NORTH DAKOTA WEBSITE AND ADJUSTED TO GROUND ELEVATIONS OBTAINED THROUGH GPS OBSERVATIONS.
3. IMAGERY SHOWN IS FROM A DRONE FLIGHT (OCTOBER, 2020).
4. EARTHWORK QUANTITIES SHOWN ARE APPROXIMATE AND ONLY COMPARE THE FINISHED RECLAIM GRADE TO THE EXISTING GRADE WITH NO SHRINKAGE FACTOR APPLIED AND DO NOT ACCOUNT FOR EXCESS REMOVAL OF AGGREGATE, CONCRETE, CONTAMINATED SOILS, TOPSOIL, CUTTINGS, ETC.

You are receiving this letter to inform you that the reclamation of the wellsite on your property has been completed in accordance with the rules and regulations of the North Dakota Industrial Commission (NDIC). The work was completed in a manner to avoid and/or minimize crop damage.

If you have any questions or concerns, submit those to the department through a written letter. Please submit all written requests to:

NDIC Oil and Gas Division
Attn: Cody VanderBusch
600 E. Blvd Ave – Dept 405
Bismarck, ND 58505-0840

Please sign below and return this letter to lori@teraflexgroup.com, or to Teraflex Group, LLC, PO Box 10482, Williston, ND 58803 to complete this process.

We are proud to have been a partner in returning this land to its natural condition and hope for his prosperity in your future.

Gerald Henry

Cody,

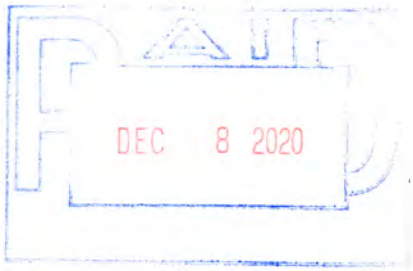
As discussed yesterday, please delete any previous emails with invoices attached. Here are the invoices for Bid Package 2 showing the bid + extra costs, split by location.

We will follow up separately with the Ruth Vedquam invoice.



Thank you,
Whitney

Company Rep	GL	AFE / CC	State	Location
			ND	Demars 2

Field Ticket	Description
10001893	**10/13/2020** Drove to location. Talked to RadPros about tasks to be completed for the day. When Damon from Basin arrived, completed walk around identifying tasks needed to be completed. Once permission was granted to dig on farmers land, called Basin to bring out backhoe and exposed pipe at the corner of the lease. road. Dug out around pipe, moved down line exposing pipe for cut after line is flushed. Watched RadPros backfill and compact dirt on Demars 1x, Demars 2, Lodoen, Wright and Lyle pad. Cleaned up work area and returned to hotel.
10001921	**10/14/2020** Drove to location. Waited for hot oiler and Vac truck to arrive. Once on location, assisted hot oiler setting up and laying out hoses. Hooked Hot oiler up to valve on flow line. Moved down to other end of flow line. Cut pipe, used pipe threader to thread end of pipe and installed 2 inch valve. Hooked vac truck up to flow line and began flush line. Vac truck was not receiving any fluids and the line by the hot oiler had blown out. Shut down hot oiler, had vac truck pull any fluids in pipe out and sent trucks back to yard. Once roustabout crew arrived, began exposing flow line. Found swedge halfway down the line converting from 2 7/8 to 2 inch. Cut pipe and determined pipe was plugged. Continued digging and exposing pipe. Once all pipe was exposed, pulled flow line out of trench and staged on east side of trench. Went back down to where flow line was cut by edge of road, inserted plug, concrete, plug and capped with more concrete. Taped the end of the pipe, took pictures with measurements and wrote down coordinates, Backfilled trench. Cleaned up work area and returned to hotel.
10001952	**10/15/2020** Drove to location. Met with roustabout crew and lined out tasks to be completed. Unloaded skid steer from trailer. Began cutting flow line and loading onto trailer. Once all pipe was cut up, loaded onto trailer and hauled to Basin Services yard. After hauling two loads of pipe, used skid steer to backfill trench and layout top soil. Once tope soil was laid out, cleaned up work area and returned to Watford Yard. Basin Services: 2 Roustabouts - 6hrs Roustabout truck - 6hrs Gooseneck trailer - 6hrs Skid Steer Backhoe
10002243	**10/14/2020** Basin Services Invoices to assist in the Demars 2 flow line removal.

Drove to location. Waited for hot oiler and Vac truck to arrive. Once on location, assisted hot oiler setting up and laying out hoses. Hooked Hot oiler up to valve on flow line. Moved down to other end of flow line. Cut pipe, used pipe threader to thread end of pipe and installed 2 inch valve. Hooked vac truck up to flow line and began flush line. Vac truck was not receiving any fluids and the line by the hot oiler had blown out. Shut down hot oiler, had vac truck pull any fluids in pipe out and sent trucks back to yard. Once roustabout crew arrived, began exposing flow line. Found swedge halfway down the line converting from 2 7/8 to 2 inch. Cut pipe and determined pipe was plugged. Continued digging and exposing pipe. Once all pipe was exposed, pulled flow line out of trench and staged on east side of trench. Went back down to where flow line was cut by edge of road, inserted plug, concrete, plug and capped with more concrete. Taped the end of the pipe, took pictures with measurements and wrote down coordinates, Backfilled trench. Cleaned up work area and returned to hotel.

Description

Drove to location. Met with roustabout crew and lined out tasks to be completed. Unloaded skid steer from trailer. Began cutting flow line and loading onto trailer. Once all pipe was cut up, loaded onto trailer and hauled to Basin Services yard. After hauling two loads of pipe, used skid steer to backfill trench and layout top soil. Once tope soil was laid out, cleaned up work area and returned to Watford Yard.

Cody,

As discussed yesterday, please delete any previous emails with invoices attached. Here are the invoices for Bid Package 2 showing the bid + extra costs, split by location.

We will follow up separately with the Ruth Vedquam invoice.

Thank you,
Whitney

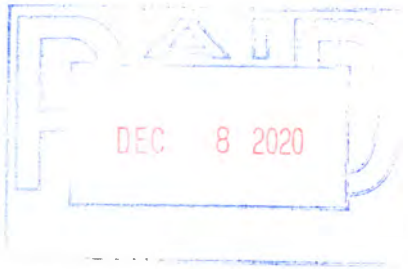
CAUTION: This email originated from an outside source. Do not click links or open attachments unless you know they are safe.

Cody,

As discussed yesterday, please delete any previous emails with invoices attached. Here are the invoices for Bid Package 2 showing the bid + extra costs, split by location.

We will follow up separately with the Ruth Vedquam invoice.



Thank you,
Whitney

DETAILS OF WORK

1)Notified Land Owner
2)Performed pre-reclaim aerial imagery per reclamation requirements.
3)Performed soil sampling per reclamation requirements to determine soil to be removed.
4)Cleaned tank battery and flushed flowline with freshwater. Capped flowlines and submitted pictures to Lance Johnson.
5)Tore down tank battery, hauled off all ancillary production equipment to approved facilities.
6)Hauled off rods and trash/scrap off to scrap facility
7)Removed all lease aggregate. Hauled all contaminated aggregate to approved disposal facility.
8)Hauled in topsoil and spread per NDIC reclamation requirements.
9)Performed post reclaim aerial imagery per reclamation requirements.

Cody,

See attachments pertaining to the Reclaim of the Fargo 31-15(NDIC File #12277). Per our discussion, I'll get all the raw data for aerials on a jump drive and mail to you.

Let me know if you need anything else.

Thanks

DETAILS OF WORK

1)Notified Land Owner
2)Performed pre-reclaim aerial imagery per reclamation requirements.
3)Performed soil sampling per reclamation requirements to determine soil to be removed.
4)Cleaned tank battery and flushed flowline with freshwater. Capped flowlines and submitted pictures to Lance Johnson.
5)Tore down tank battery, hauled off all ancillary production equipment to approved facilities.
6)Hauled off rods and trash/scrap off to scrap facility
7)Removed all lease aggregate. Hauled all contaminated aggregate to approved disposal facility.
8)Hauled in topsoil and spread per NDIC reclamation requirements.
9)Spread grass seed per NDIC reclamation requirements to blend into surroundings
10)Performed post reclaim aerial imagery per reclamation requirements.

Subject: Helmers 9-31 Reclaim Final and Invoice

CAUTION: This email originated from an outside source. Do not click links or open attachments unless you know they are safe.

Cody,

See attachments pertaining to the Reclaim of the Helmers 9-31(NDIC File #5625). Per our discussion, I'll get all the raw data for aerials on a jump drive and mail to you.

Let me know if you need anything else.

Thanks

Rory Haman

Hi Cody,

Melissa and I recalculated the invoice and broke it down in an excel sheet - please see attached. We are still getting the same $ amount. Could you please let us know the variance or the total amount you are coming up? We will fix the invoice asap as soon as we figure out where the variance is coming from, thank you!

Best Regards,

TO: Gerald Henry

The following is a breakdown of our reclamation plan for Newburg Spearfish Charles I711

1. Remove concrete, wire and piping down to 3ft
2. Remove impacted soil and dispose of at Clean harbors landfill
3. Blade up gravel from pad and lease road and remove from site.
4. blade lease road and pad to existing grade of fields adding topsoil as needed to reach a minimum of 6 inches.
5. Seed with state approved Seed if needed.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

Re: Well Reclamation Operations

Wellsite: Newburg-Spearfish-Charles Unit H-719, Newburg-Spearfish-Charles Unit L-710 Newburg-Spearfish-Charles Unit I-711, NSCU J-706, Newburg-Spearfish-Charles Unit G-715, Newburg-Spearfish-Charles Unit E-719

Owner: Gerald Henry
1068 95th St NW
Westhope, ND 58793
701-263-1366

You are receiving this letter to inform you that the reclamation of the wellsite on your property has been completed in accordance with the rules and regulations of the North Dakota Industrial Commission (NDIC). The work was completed in a manner to avoid and/or minimize crop damage.

If you have any questions or concerns, submit those to the department through a written letter. Please submit all written requests to:

NDIC Oil and Gas Division
Attn: Cody VanderBusch
600 E. Blvd Ave – Dept 405
Bismarck, ND 58505-0840

Please sign below and return this letter to lori@teraflexgroup.com, or to Teraflex Group, LLC, PO Box 10482, Williston, ND 58803 to complete this process.

We are proud to have been a partner in returning this land to its natural condition and hope for his prosperity in your future.

Gerald Henry

TO: Gerald Henry

The following is a breakdown of our reclamation plan for Newburg Spearfish Charles I711

1. Remove concrete, wire and piping down to 3ft
2. Remove impacted soil and dispose of at Clean harbors landfill
3. Blade up gravel from pad and lease road and remove from site.
4. blade lease road and pad to existing grade of fields adding topsoil as needed to reach a minimum of 6 inches.
5. Seed with state approved Seed if needed.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

SITE DATA	
PROPOSED CONST. LIMIT AREA:	±1.04 AC.
PAD SURFACE AREA:	±16,030 SF.
APPROACH SURFACE AREA:	±7,520 SF.

APPROXIMATE EARTHWORK QUANTITIES

PAD		ACCESS APPROACH	
EXCAVATION :	100 C.Y.	EXCAVATION:	670 C.Y.
FILL:	40 C.Y.	FILL:	10 C.Y.

Note: Assuming 6" Topsoil Depth across the entire construction limit area, the approximate topsoil volume would be 840 c.y.

NOTES:
1. UNDERGROUND UTILITIES HAVE NOT BEEN LOCATED OR SHOWN. CONTRACTOR SHALL CONTACT NORTH DAKOTA ONE CALL PRIOR TO CONSTRUCTION.
2. CONTOURS SHOWN WERE DERIVED FROM PUBLIC LIDAR DATA OBTAINED FROM THE STATE OF NORTH DAKOTA WEBSITE AND ADJUSTED TO GROUND ELEVATIONS OBTAINED THROUGH GPS OBSERVATIONS.
3. IMAGERY SHOWN IS FROM A DRONE FLIGHT (OCTOBER, 2020).
4. EARTHWORK QUANTITIES SHOWN ARE APPROXIMATE AND ONLY COMPARE THE FINISHED RECLAIM GRADE TO THE EXISTING GRADE WITH NO SHRINKAGE FACTOR APPLIED AND DO NOT ACCOUNT FOR EXCESS REMOVAL OF AGGREGATE, CONCRETE, CONTAMINATED SOILS, TOPSOIL, CUTTINGS, ETC.

You are receiving this letter to inform you that the reclamation of the wellsite on your property has been completed in accordance with the rules and regulations of the North Dakota Industrial Commission (NDIC). The work was completed in a manner to avoid and/or minimize crop damage.

If you have any questions or concerns, submit those to the department through a written letter. Please submit all written requests to:

NDIC Oil and Gas Division
Attn: Cody VanderBusch
600 E. Blvd Ave – Dept 405
Bismarck, ND 58505-0840

Please sign below and return this letter to lori@teraflexgroup.com, or to Teraflex Group, LLC, PO Box 10482, Williston, ND 58803 to complete this process.

We are proud to have been a partner in returning this land to its natural condition and hope for his prosperity in your future.

Gerald Henry

Subject: FW: invoices for 20156
Attachments: TFG 113020-20156-2 NSCU I-711-4.pdf

Follow Up Flag: Follow up
Flag Status: Flagged

There was some confusion on some the invoices so this one was short $1230.

Thanks

Cody VanderBusch

CAUTION: This email originated from an outside source. Do not click links or open attachments unless you know they are safe.

Hi Cody,

I just wanted to touch base with you on the payment for this invoice. It was paid by the first invoice, not the corrected invoice with pier diem and admin time.

It was short $1230.00.

Thank you,

Lori A. Friddle

TO: Gerald Henry

The following is a breakdown of our reclamation plan for Newburg Spearfish Charles L710

1. Remove concrete, wire and piping down to 3ft
2. Remove impacted soil and dispose of at Clean harbors landfill
3. Blade up gravel from pad and lease road and remove from site.
4. blade lease road and pad to existing grade of fields adding topsoil as needed to reach a minimum of 6 inches.
5. Seed with state approved Seed if needed.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

Landowner

SITE DATA	
PROPOSED CONST. LIMIT AREA:	±0.20 AC.
PAD SURFACE AREA:	±11,000 SF.

APPROXIMATE EARTHWORK QUANTITIES	
PAD	
EXCAVATION :	90 C.Y.
FILL:	10 C.Y.

Note: Assuming 6" Topsoil Depth across the entire construction limit area, the approximate topsoil volume would be 200 c.y.

NOTES:
1. UNDERGROUND UTILITIES HAVE NOT BEEN LOCATED OR SHOWN. CONTRACTOR SHALL CONTACT NORTH DAKOTA ONE CALL PRIOR TO CONSTRUCTION.
2. CONTOURS SHOWN WERE DERIVED FROM PUBLIC LIDAR DATA OBTAINED FROM THE STATE OF NORTH DAKOTA WEBSITE AND ADJUSTED TO GROUND ELEVATIONS OBTAINED THROUGH GPS OBSERVATIONS.
3. IMAGERY SHOWN IS FROM A DRONE FLIGHT (OCTOBER, 2020).
4. EARTHWORK QUANTITIES SHOWN ARE APPROXIMATE AND ONLY COMPARE THE FINISHED RECLAIM GRADE TO THE EXISTING GRADE WITH NO SHRINKAGE FACTOR APPLIED AND DO NOT ACCOUNT FOR EXCESS REMOVAL OF AGGREGATE, CONCRETE, CONTAMINATED SOILS, TOPSOIL, CUTTINGS, ETC.

701-263-1366

You are receiving this letter to inform you that the reclamation of the wellsite on your property has been completed in accordance with the rules and regulations of the North Dakota Industrial Commission (NDIC). The work was completed in a manner to avoid and/or minimize crop damage.

If you have any questions or concerns, submit those to the department through a written letter. Please submit all written requests to:

NDIC Oil and Gas Division
Attn: Cody VanderBusch
600 E. Blvd Ave – Dept 405
Bismarck, ND 58505-0840

Please sign below and return this letter to lori@teraflexgroup.com, or to Teraflex Group, LLC, PO Box 10482, Williston, ND 58803 to complete this process.

We are proud to have been a partner in returning this land to its natural condition and hope for his prosperity in your future.

Gerald Henry

TO: Shelene Campbell

The following is a breakdown of our reclamation plan for Antler Midale Unit 11-30

1. Disassemble piping and cap below grade.
2. Remove and recycle scrap metal and tanks
3. Check areas for contamination and remove from site to clean harbors.
4. Blade up gravel and remove from site.
5. Blade area level to surrounding conditions adding topsoil as needed.
6. Blade gravel up from lease road and remove from site. then blade road down to existing level of surrounding fields.
7. Fiberglass tank will be sent to land fill after cleaning.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

TO: Lynette Pederson – Tennyson Family Trust

The following is a breakdown of our reclamation plan for:

1. Disassemble piping and cap below grade.
2. Remove and recycle scrap metal.
3. Check areas for contamination and remove from site to clean facilities.
4. Blade up gravel and remove from site.
5. Blade area level to surrounding conditions adding topsoil as needed.
6. Blade gravel up from lease road and remove from site, then blade road down to existing level of surrounding fields.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gehlsen 828-558-1111.

TO: GLENN NERMYR

The following is a breakdown of our reclamation plan for NSCU 0712

1. Remove concrete, wire and piping down to 3ft
2. Remove impacted soil and dispose of at Clean harbors landfill
3. Blade up gravel from pad and lease road and remove from site.
4. blade lease road and pad to existing grade of fields adding topsoil as needed to reach a minimum of 6 inches.
5. Seed with state approved Seed if needed.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

Glenn A. Nermyr
Landowner

SITE DATA	
PROPOSED CONST. LIMIT AREA:	±1.97 AC.
PAD SURFACE AREA:	±16,650 SF.
APPROACH SURFACE AREA:	±9,950 SF.

APPROXIMATE EARTHWORK QUANTITIES			
PAD		ACCESS APPROACH	
EXCAVATION :	110 C.Y.	EXCAVATION:	940 C.Y.
FILL:	70 C.Y.	FILL:	330 C.Y.

Note: Assuming 6" Topsoil Depth across the entire construction limit area, the appreximate topsoil volume would be 1,590 c.y.

NOTES:
1. UNDERGROUND UTILITIES HAVE NOT BEEN LOCATED OR SHOWN. CONTRACTOR SHALL CONTACT NORTH DAKOTA ONE CALL PRIOR TO CONSTRUCTION.
2. CONTOURS SHOWN WERE DERIVED FROM PUBLIC LIDAR DATA OBTAINED FROM THE STATE OF NORTH DAKOTA WEBSITE AND ADJUSTED TO GROUND ELEVATIONS OBTAINED THROUGH GPS OBSERVATIONS.
3. IMAGERY SHOWN IS FROM A DRONE FLIGHT (OCTOBER, 2020).
4. EARTHWORK QUANTITIES SHOWN ARE APPROXIMATE AND ONLY COMPARE THE FINISHED RECLAIM GRADE TO THE EXISTING GRADE WITH NO SHRINKAGE FACTOR APPLIED AND DO NOT ACCOUNT FOR EXCESS REMOVAL OF AGGREGATE, CONCRETE, CONTAMINATED SOILS, TOPSOIL, CUTTINGS, ETC.

TO: Lynette Pederson – Tennyson Family Trust

The following is a breakdown of our reclamation plan for:

1. Disassemble piping and cap below grade.
2. Remove and recycle scrap metal.
3. Check areas for contamination and remove from site to clean facilities.
4. Blade up gravel and remove from site.
5. Blade area level to surrounding conditions adding topsoil as needed.
6. Blade gravel up from lease road and remove from site, then blade road down to existing level of surrounding fields.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

TO: Gerald Henry

The following is a breakdown of our reclamation plan for NSCU J 706

1. Remove concrete, wire and piping down to 3ft
2. Remove impacted soil and dispose of at Clean harbors landfill
3. Blade up gravel from pad and lease road and remove from site.
4. blade lease road and pad to existing grade of fields adding topsoil as needed to reach a minimum of 6 inches.
5. Seed with state approved Seed if needed.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

701-263-1366

You are receiving this letter to inform you that the reclamation of the wellsite on your property has been completed in accordance with the rules and regulations of the North Dakota Industrial Commission (NDIC). The work was completed in a manner to avoid and/or minimize crop damage.

If you have any questions or concerns, submit those to the department through a written letter. Please submit all written requests to:

NDIC Oil and Gas Division
Attn: Cody VanderBusch
600 E. Blvd Ave – Dept 405
Bismarck, ND 58505-0840

Please sign below and return this letter to lori@teraflexgroup.com, or to Teraflex Group, LLC, PO Box 10482, Williston, ND 58803 to complete this process.

We are proud to have been a partner in returning this land to its natural condition and hope for his prosperity in your future.

Gerald Henry

TO: Lynette Pederson – Tennyson Family Trust

The following is a breakdown of our reclamation plan for:

1. Disassemble piping and cap below grade.
2. Remove and recycle scrap metal
3. Check areas for contamination and remove from site to clean harbor.
4. Blade up gravel and remove from site.
5. Blade area level to surrounding conditions adding topsoil as needed.
6. Blade gravel up from lease road and remove from site, then blade road down to existing level of surrounding fields.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-508-5111.

Cody,

I've reattached all documents you should need for the Brandt Goodman 1-9.

Let me know if you need anything else.

Thanks

Rory

ND Solid Waste Transporter Permit # WH-

WASTE STREAM INFORMATION

Brief Description of Process that Produced the Waste:
Hvac out the Treater and Tanks for NDIC Reclaim work

Waste Disposal Location: [✓] Prairie Disposal Landfill [✓] Prairie Disposal Treatment Plant [ ] Chimney Butte Landfill [ ] Sinkky Butte Landfill

Physical Description of the Waste:
SOLID [X] LIQUID [ ] LIQUID W/ SOLID RESIDUALS [ ] SLUDGE [✓]

My signature certifies that all information contained herein is true and accurate, and the material described is properly identified, labeled and prepared as indicated. I certify that this waste to the best of my knowledge has not been diluted to reduce TENORM levels. I certify this waste does not contain any regulated radioactive materials, and that all known suspected hazards have been disclosed, and the waste is not a regulated hazardous waste as defined by federal, state or local authority. I also certify that all samples used for analysis of waste are representative of the materials described herein. I understand that all wastes may undergo inspection upon arrival at the facility and may be refused if the delivered material does not conform to the description herein. Notification will be provided immediately if there is a change in the composition or process generating this waste stream, prior to offering the waste for management by this facility.

WASTE STREAM INFORMATION

Brief Description of Process that Produced the Waste:
Hvac out the Treater and Tanks for NDIC Reclaim work

Waste Disposal Location: [✓] Prairie Disposal Landfill [✓] Prairie Disposal Treatment Plant [ ] Chimney Butte Landfill [ ] Smoky Butte Landfill

Physical Description of the Waste:
SOLID [ ] LIQUID [ ] LIQUID W/ SOLID RESIDUALS [ ] SLUDGE [✓]

My signature certifies that all information contained herein is true and accurate, and the material described is properly identified, labeled and prepared as indicated. I certify that this waste to the best of my knowledge has not been diluted to reduce TENORM levels. I certify this waste does not contain any regulated radioactive materials, and that all known suspected hazards have been disclosed, and the waste is not a regulated hazardous waste as defined by federal, state or local authority. I also certify that all samples used for analysis of waste are representative of the materials described herein. I understand that all wastes may undergo inspection upon arrival at the facility and may be refused if the delivered material does not conform to the description herein. Notification will be provided immediately if there is a change in the composition or process generating this waste stream, prior to offering the waste for management by this facility.

WASTE STREAM INFORMATION

Brief Description of Process that Produced the Waste:
Hvac out the Treater and Tanks for NDIC Reclaim work

Waste Disposal Location: ☑ Prairie Disposal Landfill ☑ Prairie Disposal Treatment Plant ☐ Chimney Butte Landfill ☐ Smoky Butte Landfill

Physical Description of the Waste:
SOLID ☑ LIQUID ☑ LIQUID W/ SOLID RESIDUALS ☐ SLUDGE ☐

My signature certifies that all information contained herein is true and accurate, and the material described is properly identified, labeled and prepared as indicated. I certify that this waste to the best of my knowledge has not been diluted to reduce TENORM levels. I certify this waste does not contain any regulated radioactive materials, and that all known suspected hazards have been disclosed, and the waste is not a regulated hazardous waste as defined by federal, state or local authority. I also certify that all samples used for analysis of waste are representative of the materials described herein. I understand that all wastes may undergo inspection upon arrival at the facility and may be refused if the delivered material does not conform to the description herein. Notification will be provided immediately if there is a change in the composition or process generating this waste stream, prior to offering the waste for management by this facility.

WASTE STREAM INFORMATION

Brief Description of Process that Produced the Waste:
Hvac out the Treater and Tanks for NDIC Reclaim work

Waste Disposal Location: ☑ Prairie Disposal Landfill ☑ Prairie Disposal Treatment Plant ☐ Chimney Butte Landfill ☐ Smoky Butte Landfill

Physical Description of the Waste:
SOLID ☐ LIQUID ☐ LIQUID W/ SOLID RESIDUALS ☑ SLUDGE ☑

My signature certifies that all information contained herein is true and accurate, and the material described is properly identified, labeled and prepared as indicated. I certify that this waste to the best of my knowledge has not been diluted to reduce TENORM levels. I certify this waste does not contain any regulated radioactive materials and that all known suspected hazards have been disclosed, and the waste is not a regulated hazardous waste as defined by federal, state or local authority. I also certify that all samples used for analysis of waste are representative of the materials described herein. I understand that all loads may undergo inspection upon arrival at the facility and may be refused if the delivered material does not conform to the description herein. Notification will be provided immediately if there is a change in the composition or process generating this waste stream, prior to offering the waste for management by this facility.

WASTE STREAM INFORMATION

***Brief Description of Process that Produced the Waste*:**
Hvac out the Treater and Tanks for NDIC Reclaim work

Waste Disposal Location: ☑ Prairie Disposal Landfill ☑ Prairie Disposal Treatment Plant ☐ Chimney Butte Landfill ☐ Smoky Butte Landfill

***Physical Description of the Waste*:**
SOLID ☑ LIQUID ☐ LIQUID W/ SOLID RESIDUALS ☐ SLUDGE ☐

My signature certifies that all information contained herein is true and accurate, and the material described is properly identified, labeled and prepared as indicated. I certify that this waste to the best of my knowledge has not been diluted to reduce TENORM levels. I certify this waste does not contain any regulated radioactive materials, and that all known suspected hazards have been disclosed, and the waste is not a regulated hazardous waste as defined by federal, state or local authority. I also certify that all samples used for analysis of waste are representative of the materials described herein. I understand that all wastes may undergo inspection upon arrival at the facility and may be refused if the delivered material does not conform to the description herein. Notification will be provided immediately if there is a change in the composition or process generating this waste stream, prior to offering the waste for management by this facility.

***** **CAUTION:** This email originated from an outside source. Do not click links or open attachments unless you know they are safe. *****

Cody,

At the following link you will find the Final invoice and reclamation summary for the NE Foothills Unit Doe 3 and the central tank battery associated with the Doe 2 and Doe 3. The file size is too large to attach to an email.

Cody,

Here is what I have:

- 10/30/20 lists 6 hours of trucking which is listed on page 14. 6 Hours at $145 adds to $870 as the invoice states
- 11/2/20 lists 14 hours of trucking which is listed on page 14. 14 hours at $145 adds to $2,030 which matches the invoice. With an additional 4 hours of SM trucking listed on page 7. 4 hours at $145 adds to $580 which matches the invoice
- 11/3/20 lists 10 hours of trucking which is listed on page 14. 10 hours at $145 adds to $1,450 which matches the invoice
- 11/7/20 lists 35.25 hours of trucking which is listed on page 14. 35.25 hours at $145 adds to $5,111.25 which matches the invoice.
- 11/9/20 lists 9.5 hours of trucking which is listed on page 14. 9.5 hours at $145 adds to $1,377.50 which matches the invoice.

WASTE STREAM INFORMATION

Brief Description of Process that Produced the Waste:
Hvac out the Treater and Tanks for NDIC Reclaim work

Waste Disposal Location: ☑ Prairie Disposal Landfill ☑ Prairie Disposal Treatment Plant ☐ Chimney Butte Landfill ☐ Smoky Butte Landfill

Physical Description of the Waste:
SOLID ☒ LIQUID ☐ LIQUID W/ SOLID RESIDUALS ☐ SLUDGE ☑

By signature certifies that all information contained herein is true and accurate, and the material described is properly identified, labeled and prepared as indicated. I certify that this waste to the best of my knowledge has not been diluted to reduce TENORM levels. I certify this waste does not contain any regulated radioactive materials, and that all known suspected hazards have been disclosed, and the waste is not a regulated hazardous waste as defined by federal, state or local authority. I also certify that all samples used for analysis of waste are representative of the materials described herein. I understand that all wastes may undergo inspection upon arrival at the facility and may be refused if the delivered material does not conform to the description herein. Notification will be provided immediately if there is a change in the composition or process generating this waste stream, prior to offering the waste for management by this facility.

Hey Cody,

Here is what I found:

- 11/4/20 We have two separate entries one for 4.5 which is SM trucking listed on page 6 of the invoice and 14 hours listed on page 14 of the invoice. The amounts are accurate on the invoice.
- 11/5/20 We have two separate entries one for 8 hours which is SM trucking listed on page 7 and 14 hours listed on page 14. The quantities and amount match the invoice.
- 11/11/20 We have 3.25 hours of third party trucking listed on page 14. The quantities and amount match the invoice
- 11/12/20 We have two separate entries one for 12.5 which is SM trucking listed on page 10 of the invoice and 102 hours listed on page 14 of the invoice. The amounts are accurate on the invoice.
- 11/13/20 We have two separate entries one for 8 which is SM trucking listed on page 11 of the invoice and 133.5 hours listed on page 14 of the invoice. The amounts are accurate on the invoice.

WASTE STREAM INFORMATION

Brief Description of Process that Produced the Waste:
Hvac out the Treater and Tanks for NDIC Reclaim work

Waste Disposal Location: ☑ Prairie Disposal Landfill ☑ Prairie Disposal Treatment Plant ☐ Chimney Butte Landfill ☐ Smoky Butte Landfill

Physical Description of the Waste:
SOLID ☑ LIQUID ☐ LIQUID W/ SOLID RESIDUALS ☐ SLUDGE ☐

My signature certifies that all information contained herein is true and accurate, and the material described is properly identified, labeled and prepared as indicated. I certify that this waste to the best of my knowledge has not been diluted to reduce TENORM levels. I certify this waste does not contain any regulated radioactive materials, and that all known suspected hazards have been disclosed, and the waste is not a regulated hazardous waste as defined by federal, state or local authority. I also certify that all samples used for analysis of waste are representative of the materials described herein. I understand that all wastes may undergo inspection upon arrival at the facility and may be refused if the delivered material does not conform to the description herein. Notification will be provided immediately if there is a change in the composition or process generating this waste stream, prior to offering the waste for management by this facility.

WASTE STREAM INFORMATION

Brief Description of Process that Produced the Waste:

Hvac out the Treater and Tanks for NDIC Reclaim work

Waste Disposal Location: ☑ Prairie Disposal Landfill ☑ Prairie Disposal Treatment Plant ☐ Chimney Butte Landfill ☐ Smoky Butte Landfill

Physical Description of the Waste:

SOLID ☑ LIQUID ☐ LIQUID W/ SOLID RESIDUALS ☐ SLUDGE ☐

My signature certifies that all information contained herein is true and accurate, and the material described is properly identified, labeled and prepared as indicated. I certify that this waste to the best of my knowledge has not been diluted to reduce TENORM levels. I certify this waste does not contain any regulated radioactive materials, and that all known suspected hazards have been disclosed, and the waste is not a regulated hazardous waste as defined by federal, state or local authority. I also certify that all samples used for analysis of waste are representative of the materials described herein. I understand that all wastes may undergo inspection upon arrival at the facility and may be refused if the delivered material does not conform to the description herein. Notification will be provided immediately if there is a change in the composition or process generating this waste stream, prior to offering the waste for management by this facility.

WASTE STREAM INFORMATION

Brief Description of Process that Produced the Waste:
Hvac out the Treater and Tanks for NDIC Reclaim work

Waste Disposal Location: ☑ Prairie Disposal Landfill ☑ Prairie Disposal Treatment Plant ☐ Chimney Butte Landfill ☐ Smoky Butte Landfill

Physical Description of the Waste:
SOLID ☒ LIQUID ☐ LIQUID W/ SOLID RESIDUALS ☐ SLUDGE ☑

My signature certifies that all information contained herein is true and accurate, and the material described is properly identified, labeled and prepared as indicated. I certify that this waste to the best of my knowledge has not been diluted to reduce TENORM levels. I certify this waste does not contain any regulated radioactive materials, and that all known suspected hazards have been disclosed, and the waste is not a regulated hazardous waste as defined by federal, state or local authority. I also certify that all samples used for analysis of waste are representative of the materials described herein. I understand that all wastes may undergo inspection upon arrival at the facility and may be refused if the delivered material does not conform to the description herein. Notification will be provided immediately if there is a change in the composition or process generating this waste stream, prior to offering the waste for management by this facility.

WASTE STREAM INFORMATION

Brief Description of Process that Produced the Waste:
Hvac out the Treater and Tanks for NDIC Reclaim work

Waste Disposal Location: ☑ Prairie Disposal Landfill ☑ Prairie Disposal Treatment Plant ☐ Chimney Butte Landfill ☐ Smoky Butte Landfill

Physical Description of the Waste:
SOLID ☑ LIQUID ☑ LIQUID W/ SOLID RESIDUALS ☐ SLUDGE ☐

My signature certifies that all information contained herein is true and accurate, and the material described is properly identified, labeled and prepared as indicated. I certify that this waste to the best of my knowledge has not been diluted to reduce TENORM levels. I certify this waste does not contain any regulated radioactive materials, and that all known suspected hazards have been disclosed, and the waste is not a regulated hazardous waste as defined by federal, state or local authority. I also certify that all samples used for analysis of waste are representative of the materials described herein. I understand that all wastes may undergo inspection upon arrival at the facility and may be refused if the delivered material does not conform to the description herein. Notification will be provided immediately if there is a change in the composition or process generating this waste stream, prior to offering the waste for management by this facility.

***** **CAUTION:** This email originated from an outside source. Do not click links or open attachments unless you know they are safe. *****

Hey Cody,

Here is what I found:

- For 11/3 my trucking on the invoice is $1,015.00 (I'm not sure where that $1,765 is coming from) but on page 16 of the invoice we have 7 hours of trucking. Which at a rate of $145 per hour adds up to $1,015.00
- For 11/7 we have 5 hours of trucking listed on page 16 which accounts for the $725 charge
- According to the invoice we have two trucking quantities for that day (One is SM and the other is third party). The Invoice correctly states that we have 6.5 hours of SM trucking (which is backed up by page 10). The 35 hours is from page 16. I'm not sure where the totals listed below are coming from. Because they do not match what my invoice totals.
- For 11/11 We have 6.5 hours of SM (Backed up by page 11 of the invoice) and 69.75 hours of third party trucking (Backed up by page 16). The total is 76.25 hours for a total of $11,056.25
- For 11/12 we have 11.5 hours listed on page 16 of the invoice which accounts for the $,1667.50

Once we can get this one figured out, I'll continue on the rest of them!

You are receiving this letter to inform you that the reclamation of the wellsite on your property has been completed in accordance with the rules and regulations of the North Dakota Industrial Commission (NDIC). The work was completed in a manner to avoid and/or minimize crop damage.

If you have any questions or concerns, submit those to the department through a written letter. Please submit all written requests to:

NDIC Oil and Gas Division
Attn: Cody VanderBusch
600 E. Blvd Ave – Dept 405
Bismarck, ND 58505-0840

Please sign below and return this letter to lori@teraflexgroup.com, or to Teraflex Group, LLC, PO Box 10482, Williston, ND 58803 to complete this process.

We are proud to have been a partner in returning this land to its natural condition and hope for his prosperity in your future.

Gerald Henry

CAUTION: This email originated from an outside source. Do not click links or open attachments unless you know they are safe.

Cody,

Please see attached invoices for Pkg 11 reclamation pads.

There are (2) revised invoices with small amounts due on those. And (2) invoices for pads that we are billing for contract work and t&m work.

Thank you,

Kimberly Howell

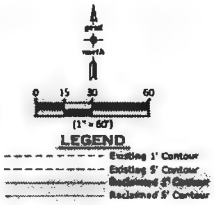
TO: Shane Feland



The following is a breakdown of our reclamation plan for E M Davis 1 and MM 32-24 H1

1. Disassemble piping and cap below grade.
2. Remove and recycle scrap metal
3. Check areas for contamination and remove from site to clean harbors.
4. Blade up gravel and remove from site.
5. Blade area level to surrounding conditions adding topsoil as needed.
6. Blade gravel up from lease road and remove from site. then blade road down to existing level of surrounding fields.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

You are receiving this letter to inform you that the reclamation of the wellsite on your property has been completed in accordance with the rules and regulations of the North Dakota Industrial Commission (NDIC). The work was completed in a manner to avoid and/or minimize crop damage.

If you have any questions or concerns, submit those to the department through a written letter. Please submit all written requests to:

NDIC Oil and Gas Division
Attn: Cody VanderBusch
600 E. Blvd Ave – Dept 405
Bismarck, ND 58505-0840

Please sign below and return this letter to lori@teraflexgroup.com, or to Teraflex Group, LLC, PO Box 10482, Williston, ND 58803 to complete this process.

We are proud to have been a partner in returning this land to its natural condition and hope for his prosperity in your future.

TO: Gerald Henry

The following is a breakdown of our reclamation plan for Newburg Spearfish Charles I711

1. Remove concrete, wire and piping down to 3ft
2. Remove impacted soil and dispose of at Clean harbors landfill
3. Blade up gravel from pad and lease road and remove from site.
4. blade lease road and pad to existing grade of fields adding topsoil as needed to reach a minimum of 6 inches.
5. Seed with state approved Seed if needed.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

701-263-1366

You are receiving this letter to inform you that the reclamation of the wellsite on your property has been completed in accordance with the rules and regulations of the North Dakota Industrial Commission (NDIC). The work was completed in a manner to avoid and/or minimize crop damage.

If you have any questions or concerns, submit those to the department through a written letter. Please submit all written requests to:

NDIC Oil and Gas Division
Attn: Cody VanderBusch
600 E. Blvd Ave – Dept 405
Bismarck, ND 58505-0840

Please sign below and return this letter to lori@teraflexgroup.com, or to Teraflex Group, LLC, PO Box 10482, Williston, ND 58803 to complete this process.

We are proud to have been a partner in returning this land to its natural condition and hope for his prosperity in your future.

Gerald Henry

CAUTION: This email originated from an outside source. Do not click links or open attachments unless you know they are safe.

Cody,

Please see attached invoices for Pkg 11 reclamation pads.

There are (2) revised invoices with small amounts due on those. And (2) invoices for pads that we are billing for contract work and t&m work.

Thank you,

Kimberly Howell

TO: Foss and Torgeson Living Trust: Debra Torgeson, Thomas Torgeson, Marlo Foss, Candace Foss

The following is a breakdown of our reclamation plan for

1. Disassemble piping and cap below grade.
2. Remove and recycle scrap metal
3. Check areas for contamination and remove from site to clean harbors.
4. Blade up gravel and remove from site.
5. Blade area level to surrounding conditions adding topsoil as needed.
6. Blade gravel up from lease road and remove from site. then blade road down to existing level of surrounding fields.

This work is being done for the State of North Dakota Industrial Commission. If you have any concerns or questions, please feel free to call Chuck Gohl at 828-558-1111.

You are receiving this letter to inform you that the reclamation of the wellsite on your property has been completed in accordance with the rules and regulations of the North Dakota Industrial Commission (NDIC). The work was completed in a manner to avoid and/or minimize crop damage.

If you have any questions or concerns, submit those to the department through a written letter. Please submit all written requests to:

NDIC Oil and Gas Division
Attn: Cody VanderBusch
600 E. Blvd Ave – Dept 405
Bismarck, ND 58505-0840

Please sign below and return this letter to lori@teraflexgroup.com, or to Teraflex Group, LLC, PO Box 10482, Williston, ND 58803 to complete this process.

We are proud to have been a partner in returning this land to its natural condition and hope for his prosperity in your future.

Subject: Reclamation Pkg 11 - Invoices

CAUTION: This email originated from an outside source. Do not click links or open attachments unless you know they are safe.

Cody,

Please see attached invoices for Pkg 11 reclamation pads.

There are (2) revised invoices with small amounts due on those. And (2) invoices for pads that we are billing for contract work and t&m work.

Thank you,

Kimberly Howell

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

Subject: FW: NDIC Bid Package 15 - Invoice Set 1

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

Subject: FW: NDIC Bid Package 15 - Invoice Set 1

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.

These are under my user file on the s drive.

Some of these wells are not on the spread sheet as we just flushed the lines.
