

The North Dakota Department of Mineral Resources (DMR) has contracted AG Witt, LLC to assist DMR in the management of an Orphaned Well Plugging and Reclamation project. The project will be achieved from funds received through the Infrastructure Investment and Jobs Act. The \$25 million award will be used, per the Initial Grant, and has several federal requirements that must be met.

AG Witt will provide guidance based on their prior experience administrating these types of federal grants. They will assist DMR in monitoring the progress of work, conduct tracking of funds spent, and the training of contractors on the project. This will ensure DMR can carry out the Orphan Well Plugging and Reclamation project as effectively as possible. For questions, please contact the Department of Mineral Resources at 701.328.8020.
