## RIGHT OF WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that we the undersigned, (Whether one or more) John Scheidt and Gladys M. Scheidt (joint tenants, and not as tenants in common, with full rights of survivorship) (unmarried) (husband and wife), for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver-Mercer Electric Corporation, Inc. a cooperative corporation, (hereinafter called the "Cooperative"), whose post office address is Hazen, North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the County of Mercer, State of North Dakota, and more particularly described as follows:

A tract of land approximately \_\_\_\_\_ acres in area, located \_\_\_\_\_ miles in a \_\_\_\_\_ direction from the town of \_\_\_\_\_, and further described as being in common tenancy in SE 1/4 Section 12, Township 142 Range 88 joint tenancy in SW 1/4 Section 12, Township 142 Range 88 and NE 1/4 Section 14, Township 142 Range 88

and to construct, operate and maintain on the above described lands, and/or in or upon all streets, roads or highways abutting said lands, an electric transmission or distribution line or system, and to cut and trim trees and shrubbery that may interfere with or threaten to endanger the operation and maintenance of said line or system.

The undersigned agree that all poles, wires, and other facilities, including any main service entrance equipment, installed on the above-described lands at the Cooperative's expense shall remain the property of the Cooperative, removable at the option of the Cooperative, upon termination of service to or on said lands.

The undersigned covenant that they are the owners of the above-described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

IN WITNESS WHEREOF, the undersigned have set their hands and seals,

this 22 day of April, 1949.

Signed, sealed and delivered in the presence of

# RIGHT-OF-WAY EASEMENT

Gladys Sched

(hereinafter called the "Grantor")

(unmarried) (husband and wife) for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver-Mercer Electric Cooperative, Inc., (hereinafter called "Grantee") whose post office address is Hazen, North Dakota, 58545, and to its successors or assigns, an easement for 99 years, situated in the County of Mercer, State of North Dakota, and more particularly described as follows:

TWN 142 Rge 88  
SEC 14 NE1/4

to construct, reconstruct, relocate, rephase, remove, repair, operate and maintain on or under the above described lands, and/or in, upon or under all streets, roads or highways abutting said lands, an electric distribution line or system; to cut, trim eradicate and control the growth by chemical means, machinery or otherwise, of trees and shrubbery located within 15 feet of the center of line of said line system, or that may interfere with or threaten to endanger the operation and maintenance of said line or system (indicating any control of the growth of other vegetation in the right-of-way which may incidentally and necessarily result from the means of control employed); and to license, permit or otherwise agree to the joint use or occupancy of the line or system by any other person, association or corporation, for electrification or communication purposes.

The undersigned Grantor agrees that all poles, wires, cables and other facilities including any main service entrance equipment installed on or below the above described lands at the Grantee's expense shall remain the property of Grantee, removable at its option upon termination of service to or on said lands.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches or lines of the Grantor, caused by the Grantee in the installation, repair, maintenance, reconstruction or removal of said electric properties and appurtenances, shall be promptly repaired, replaced or paid for by the Grantee, provided a claim therefore is presented to the Grantee at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, then the Grantor and Grantee shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

The undersigned Grantor covenants and agrees that no barrier of trees, shrubs, etc., and no structure or building shall be placed over underground conduits and electric lines and no construction shall be maintained or placed beneath over-the-ground electric lines and associated structures without the express written consent of the Grantee.

This Easement also includes a right-of-access to and from said real estate and Grantee's right-of-way for the purpose of connecting or reconnecting any part of the Grantee's system to or from said property with said system or to or from any other property on or coming on said system.

This Easement includes such additional rights of use and occupancy as shall be necessary for the use, maintenance, and operation of Grantee's system on said right-of-way, including but not limited to, anchors, guy wires, supporting poles or structures and the like as they were originally constructed or may thereafter be constructed.

The overall operating height of vehicles and equipment known to cultivate or traverse lands within the easement is less than \_\_\_\_\_ feet.

Dated this 3rd day of July, 19 90.

West River Telephone Right-of-Way Easement

KNOW ALL MEN BY THESE PRESENT, that we the undersigned, (whether one or more) Gladys M Scheidt, Grantor(s), do hereby grant and convey unto West River Telecommunications Cooperative, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, reconstruct, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, surface testing terminals, repeaters, repeater housings and markers, and other appurtenances, upon and over the land which the undersigned owns or in which the undersigned has any interest in the County of Mercer, State of North Dakota, and more particularly described as follows:

S/2SE/4 2 142 88  
NE/4 14 142 88

This easement is to cover this line only. Any additional future new lines will require a new easement.

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots brush and other obstructions from the surface and subsurface of said strip of land and within seven feet thereof. The boundary of said strip shall be a line parallel to and 25 feet either side of the first cable laid, which cable shall have its location indicated by surface markers set at intervals on the land of the undersigned or on adjacent lands. The undersigned for himself, his heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described premises at the Cooperative's expense, shall remain the property of the Cooperative, removable at the option of the Cooperative.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

Access is hereby granted for a state or federal historical survey of the cable route, should one be required, unless checked. Access denied ☐

IN WITNESS WHEREOF, this instrument has been executed by the undersigned this the 29<sup>th</sup> day of June, 1993.

## RIGHT-OF-WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that we the undersigned, (whether one or more)

Ieland Erickson  
(unmarried) (husband and wife) for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver-Mercer Electric a cooperative corporation (hereinafter called the "Cooperative") whose post office address is Hazen, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the County of Mercer, State of North Dakota, and more particularly described as follows:

SE $\frac{1}{4}$  Sec. 27, Twp. 143, Rge. 88

and to construct, operate and maintain an electric transmission and/or distribution line or system on or under the above-described lands and/or in, upon or under all streets, roads or highways abutting said lands; to inspect and make such repairs, changes, alterations, improvements, removals from, substitutions and additions to its facilities as Cooperative may from time to time deem advisable, including, by way of example and not by way of limitation, the right to increase or decrease the number of conduits, wires, cables, handholes, manholes, connection boxes, transformers and transformer enclosures; to cut, trim and control the growth by chemical means, machinery or otherwise of trees and shrubbery located within \_\_\_\_\_ feet of the center line of said line or system, or that may interfere with or threaten to endanger the operation and maintenance of said line or system (including any control of the growth of other vegetation in the right-of-way which may incidentally and necessarily result from the means of control employed); to keep the easement clear of all buildings, structures or other obstructions; and to license, permit or otherwise agree to the joint use or occupancy of the lines, system or, if any of said system is placed underground, of the trench and related underground facilities, by any other person, association or corporation.

The undersigned agree that all poles, wires and other facilities including any main service entrance equipment, installed in, upon or under the above-described lands at the Cooperative's expense shall remain the property of the Cooperative, removable at the option of the Cooperative.

**The undersigned covenant that they are the owners of the above-described lands.**

RIGHT OF WAY EASEMENT

THIS AGREEMENT made and entered into this 19<sup>th</sup> day of June, 2014, between James Kusler, hereinafter called "Owner" (whether one or more) and **ROUGH RIDER ELECTRIC COOPERATIVE, INC.**, whose post office address is 800 Highway Drive, Hazen, North Dakota 58545-4737, hereinafter called "COOPERATIVE".

WITNESSETH that for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Owner grants unto Cooperative, its successors and assigns, for a term of 99 years from the date hereof, an easement to construct, reconstruct, operate and maintain an electric distribution system, overhead, underground or both including all poles, guys, anchors wires, surface terminals, and all accessories and appurtenances necessary or desirable in connection therewith, under, over, upon and across lands of Owner and/or in or upon all streets, roads or highways abutting said lands situated in Mercer County, North Dakota, and more particularly described as follows, to-wit:

A strip of land 20 feet in width, the same being 10 feet on each side of a centerline described as follows.

**Township 143 North Range 88 West**

**S1/2SE1/4 of Section 27**

The facilities erected hereunder shall remain the property of the Cooperative. Cooperative shall have the right to inspect, rebuild, remove, repair, improve and make such changes, alterations, substitutions and additions in and to its facilities as Cooperative may from time to time deem advisable, including the right to increase or decrease the size or capacity of its system, together with necessary accessories and appurtenances; the right to increase or decrease the size of the facilities and equipment situated upon the premises; the right to permit or otherwise agree to the joint use or occupancy of the overhead lines or the trench and related underground facilities by other persons, associations or corporations; and the right to at any time use the property described above to extend lines and facilities to serve the property of persons other than the Owner.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches, or lines of the Owner, caused by the Cooperative in the installation, repair maintenance, reconstruction or removal of said electrical properties and appurtenances, shall be promptly repaired, replaced or paid for by the Cooperative, provided a claim therefore is presented to the Cooperative at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Cooperative and the Owner shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

Cooperative shall at all times have the right to keep the easement clear of all buildings, structures or other obstructions, trees, shrubbery, undergrowth and roots.

Owner, his successors and assigns, may use the land within the easement for any purpose not inconsistent with the rights granted, provided such use does not interfere with or endanger the Cooperative's facilities or the rights granted under this easement.

For the purpose of constructing, inspecting, maintaining or operating its facilities, Cooperative shall have the right of ingress to and egress from the easement over the lands of Owner adjacent to the easement and lying between public or private roads and the easement, such right to be exercised in such manner as shall occasion the least practicable damage and inconvenience to Owner.

Owner covenants that he is seized of and has the right to convey the said easement, rights and privileges; that Cooperative shall have quiet and peaceable possession, use and enjoyment of the aforesaid easement, rights and privileges, and that Owner shall execute such further assurances thereof as may be requested by the Cooperative.

**ALL PERSONS TAKE NOTICE:**

In consideration of one dollar (\$1.00) and other good and valuable consideration JOHNELLE J. KUSLER 1884  
HILLCREST AVENUE ST. PAUL, MN 55116 hereinafter referred to as Grantor, does hereby grant, bargain, sell, transfer and convey to the Southwest Water Authority, hereinafter referred to as the Grantee, its successor and assigns, a perpetual easement with right to erect, construct, install and lay, and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines, connections, valves and all other appurtenant facilities used in connection with the construction, operation and maintenance of the Southwest Pipeline Project, over, above, across and through the land of the Grantor, situated in MERCER County, State of North Dakota, said land being described as follows: E1/2 NE1/4 LESS R/W SECTION 12 TOWNSHIP 142 RANGE 88 & SE1/4 SECTION 27 TOWNSHIP 143 RANGE 88 (the tract that contains 3.35 acres, more or less), together with the right of ingress and egress over the adjacent lands of the Grantor, successors and assigns for the purposes of this easement.

1. The permanent easement will be thirty (30) feet in width, fifteen (15) feet on each side of the center line of the pipeline as constructed, with an additional ten (10) feet of temporary right-of-way for a total construction easement width of forty (40) feet, twenty (20) feet on each side of the center line.
2. The Grantee covenants to maintain the easement in good repair so that no unreasonable damage will result from its use to the adjacent land of the Grantor, successors and assigns. The Grantor will receive compensation for damages to growing crops caused by the construction or operation. The Grantor will report any damages within three (3) years of the construction of the project.

The grant and other provisions of this easement shall constitute a covenant running with the land for the benefit of the Grantee, its successors and assigns.

IN WITNESS WHEREOF, the Grantor has executed this instrument this 23<sup>rd</sup> day of May, 2015.

Faye Swenson (hereinafter called the "Grantor") (unmarried) (husband and wife) for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Roughrider Electric Cooperative, Inc. (hereinafter called "Grantee") whose post office address is Hazen, North Dakota 58545, and to its successors or assigns, an easement for 99 years, situated in the County of Oliver, State of North Dakota, and more particularly described as follows:

TOWNSHIP 142 NORTH, RANGE 87 WEST  
Section 21 NE 1/4

To construct, reconstruct, relocate, rephase, remove, repair, operate and maintain on or under the above described lands, and/or in, upon or under all streets, roads or highways abutting said lands, an electric distribution line or system; to cut, trim eradicate and control the growth by chemical means, machinery or otherwise, or trees and shrubbery located within -15- feet of the center of said line system, or that may interfere with or threaten to endanger the operation and maintenance of said line system (indicating any control of the growth of other vegetation in the right-of-way which may incidentally and necessarily result from the means of control employed); and to license, permit or otherwise agree to the joint use or occupancy of the line or system by any other person, association or corporation, for electrification or communication purposes.

The undersigned Grantor agrees that all poles, wires, cables and other facilities including any main service entrance equipment installed on or below the above described lands at the Grantee's expense shall remain the property of Grantee, removable at its option upon termination of service to or on said lands.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches or lines of the Grantor, caused by the Grantee in the installation, repair, maintenance, reconstruction or removal of said electric properties and appurtenances, shall be promptly repaired, replaced or paid for by the Grantee, provided a claim therefore is presented to the Grantee at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Grantor and Grantee shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

The undersigned Grantor covenants and agrees that no barrier of trees, shrubs, etc., and no structure or building shall be placed over underground conduits and electric lines and no construction shall be maintained or placed beneath over-the-ground electric lines and associated structures without the express written consent of the Grantee.

This Easement also includes a right-of-access to and from said real estate and Grantee's right-of-way for the purpose of connecting or reconnecting any part of the Grantee's system to or from said property with said system or to or from any other property on or coming on said system.

This Easement includes such additional rights of use and occupancy as shall be necessary for the use, maintenance, and operation of Grantee's system on said right-of-way, including but not limited to, anchors, guy wires, supporting poles or structures and the like as they were originally constructed or may thereafter be constructed.

The overall operating height of vehicles and equipment known to cultivate or traverse lands within the easement is less than \_\_\_\_\_ feet.

Dated this 1 day of July, 2008.

***West River Telecommunications Right-of-Way Easement***

We the undersigned, (whether one or more) ***Donna M. Smith***, Grantor(s), do hereby grant and convey unto ***West River Telecommunications Cooperative***, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O. Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, repair, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, and other appurtenances, upon, over and under the land which the undersigned owns or in which the undersigned has any interest in the County of ***Oliver***, State of ***North Dakota***, and more particularly described as follows:

*W sec*  
NE/4 Sec. 22 T142N R87W
*E sec*  
NW/4 Sec. 21 T142N R87W

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots, brush and other obstructions from the surface and subsurface of said strip of land. The boundary of said strip shall be a line parallel to and 10 feet either side of the first cable laid on the land of the undersigned. The undersigned for Grantor(s), their heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described land, shall remain the property of the Cooperative, removable at the option of the Cooperative. The undersigned agrees to this easement with the understanding the Grantor(s), their heirs, executors, administrators, successors, and assigns, may continue to have access to and use of the easement area in any manner consistent with the rights herein granted to the Cooperative, and that the Cooperative will restore the said strip to as near as reasonable to the pre-constructed condition, and that the Cooperative will erect no buildings on said strip.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

RIGHT-OF-WAY EASEMENT

Location Number

(1)

TO YTHUOD

KNOW ALL MEN BY THESE PRESENTS, that the undersigned Norman Smith *Angie Marie* for a good and valuable consideration, the receipt whereof is hereby acknowledged, does hereby grant unto the *Oliver-Mercer Electric Cooperative, Inc.* a corporation, whose post office address is Hazen, N. Dak. North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the county of *Oliver*, State of North Dakota and more particularly described as follows:

NW 1/4

*Sec. 22, T22N, R42W, S21E, P42-87*

*County of Oliver, State of North Dakota*

and to place, construct, operate, repair, maintain, relocate and replace thereon and in or upon all streets, roads or highways abutting said lands an electric transmission or distribution line or system, and to cut and trim trees and shrubbery to the extent necessary to keep them clear of said electric line or system and to cut down from time to time all dead, weak, leaning or dangerous trees that are tall enough to strike the wires in falling.

In granting this easement it is understood that at pole locations, only a single pole and arrangement will be used, and that the location of the pole will be such as to form the least possible interference to farm operations, so long as it does not materially increase the cost of construction.

The undersigned covenants that he is the owner of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

It is further understood that, whenever necessary, words in this instrument in the singular shall be construed to read in the plural and that words used in the masculine gender shall be construed to read in the feminine.

IN WITNESS WHEREOF, the undersigned has set his hand and seal this 26th day of June, 1946

at 11:59 o'clock A M.,  
and recorded as document No. 56785  
in book FF of Map page 619-621  
H. Walker  
County Recorder Deputy 16

### **ALL PERSONS TAKE NOTICE:**

That the undersigned, Jule Silbernagel and Faye Swenson, as tenants in common, called the Grantor, being the owner of, or having an interest in, land situated in the County of Oliver, State of North Dakota, more fully described below, in consideration of One and No/100 Dollars (\$1.00) and other valuable consideration, does hereby grant, convey, and warrant to the State of North Dakota, acting by and through the North Dakota State Water Commission, a state agency and public corporation, with its principal office at 900 East Boulevard Ave., Bismarck, North Dakota 58505, called the Grantee, and to its successors and assigns, the right, privilege, and easement to construct, maintain, operate, inspect, repair, alter, replace, change the size of or remove a pipeline, and appurtenances thereto, for the transportation of water under, across, and through:

#### Parcel H-OL-141

A 40 foot wide strip of land 20 feet wide on each side of the pipeline centerline lying within the SE1/4 Section 15, Township 142 North, Range 87 West of the 5th P.M.

Said tract contains 2.42 acres, more or less.

#### Temporary Construction Easement

An additional 20 feet of temporary right-of-way lying adjacent to the above described tract for a total construction easement width of 60 feet.

Said tract contains 1.21 acres, more or less.

together with the right to utilize additional land for a period up to three years from the date of this easement, adjacent to the above described tract, for purposes of temporary working space during initial construction of the pipeline, and the right of ingress to and egress from said strip of land across the adjacent lands of the Grantor, for the purposes specified above at the will of the Grantee.

### **THE GRANTOR AND THE GRANTEE FURTHER AGREE:**

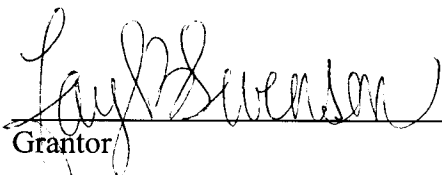

- Use of right-of-way by Grantor.** Grantor reserves the right to use the surface of the easement strip provided, however, that Grantor, without prior approval of Grantee, shall neither construct nor permit to be constructed any building, structure, or other improvement upon the easement strip which would interfere with Grantee's exercise of the rights conveyed by this pipeline easement, including access to the easement strip.
- Appurtenances.** The Grantee shall have the right to install and construct necessary appurtenances upon the surface of the easement strip. Prior to construction, the Grantee will notify the Grantor of the approximate location of such appurtenances if any, to be located on the easement strip, and shall pay to the Grantor the sum of \$500 for each appurtenance located at a distance of more than 5 feet from a field boundary or fence line. Such payments shall be paid prior to construction.
- Damages.** The Grantee will pay to Grantor or Grantor's tenants, as their respective interests may appear, for damages caused by the operations or activities of the Grantee; provided, however, that the Grantee shall have the right, without liability for damages, to clear, and keep cleared, all trees, brush, and other obstructions from the easement strip that may, in the Grantee's judgment, interfere with the rights and privileges of the Grantee under this pipeline easement.

If the amount of any damage which Grantor may sustain as a result of Grantee's exercise of rights hereunder cannot be mutually agreed upon, such damages shall be ascertained and

determined by three (3) disinterested person; one to be appointed by the Grantor, one by Grantee, and a third by the two so appointed, and the award of such three persons shall be final and conclusive.

4. **Restoration of surface.** The Grantee will restore the surface of the construction area to its original contour as nearly as practicable.
5. **Topsoil segregation.** When excavating the pipeline trench with a backhoe/trackhoe, the Grantee will remove the topsoil separately during the construction of the pipeline for the full width of the pipe trench to a depth of twelve (12) inches or the actual topsoil depth, whichever is less, and to be replaced at the top of the backfill over the pipe trench.
6. **Assignment and covenant by parties.** The rights of either party may be assigned in whole or in part. The terms and provisions of this easement shall constitute covenants running with the land and shall be binding upon, and inure to the benefit of, the parties hereto, their successors, assigns, personal representatives, and heirs.
7. **Grantor's title.** Grantor warrants that he is the owner of, or has an interest in, the land described in this easement, and that he has full right and authority to enter into and deliver this easement. This instrument may be executed in counterparts and each counterpart shall constitute a separate agreement between the parties thereto. Any payments pursuant to this pipeline easement shall be in proportion to the Grantor's interest in the undivided fee simple estate.
8. **Entire agreement.** This instrument contains the entire agreement of the parties and there are no other, or different, agreements or understandings between the Grantor and the Grantee, or its agents. The Grantor, in executing this pipeline easement, has not relied upon any promises, inducements, or representatives of the Grantee, or its agents, except as are set forth herein.
9. **Term of easement.** The term of this easement shall be as long as it is needed by the Grantee, or its assigns, and until a release of this easement is recorded, but shall not exceed ninety-nine (99) years pursuant to NDCC §47-05-02.1.
10. **Tenants.** The Grantor represents that the land described in this easement is (not rented) (rented to) John Smith.

Dated this 21<sup>st</sup> day of February, 20 11.

## RIGHT-OF-WAY EASEMENT

### ALL PERSONS TAKE NOTICE:

In consideration of one dollar (\$1.00) and other good and valuable consideration MILDA K. HEDBLOM 1801 SUMMIT AVENUE ST. PAUL, MN 55105 hereinafter referred to as Grantor, does hereby grant, bargain, sell, transfer and convey to the Southwest Water Authority, hereinafter referred to as the Grantee, its successor and assigns, a perpetual easement with right to erect, construct, install and lay, and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines, connections, valves and all other appurtenant facilities used in connection with the construction, operation and maintenance of the Southwest Pipeline Project, over, above, across and through the land of the Grantor, situated in Oliver County, State of North Dakota, said land being described as follows: NW1/4 SECTION 7 TOWNSHIP 142 RANGE 87 (the tract that contains 1.59 acres more or less), together with the right of ingress and egress over the adjacent lands of the Grantor, successors and assigns for the purposes of this easement.

1. The permanent easement will be thirty (30) feet in width, fifteen (15) feet on each side of the center line of the pipeline as constructed, with an additional ten (10) feet of temporary right-of-way for a total construction easement width of forty (40) feet, twenty (20) feet on each side of the center line.
2. The Grantee covenants to maintain the easement in good repair so that no unreasonable damage will result from its use to the adjacent land of the Grantor, successors and assigns. The Grantor will receive compensation for damages to growing crops caused by the construction or operation. The Grantor will report any damages within three (3) years of the construction of the project.

The grant and other provisions of this easement shall constitute a covenant running with the land for the benefit of the Grantee, its successors and assigns.

IN WITNESS WHEREOF, the Grantor has executed this instrument this 23 day of May, 2015.

## WATER WELL AND WATER TANK EASEMENT

THIS INDENTURE, made and entered into this 31<sup>st</sup> day of May, 2022, by and between **JOHNELL J. KUSLER**, as personal representative of the Estate of **James O. Kusler**, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116, **JOHNELL J. KUSLER**, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116, AND **MILDA L. HEDBLOM, a/k/a MILDA K. HEDBLOM**, whose post office address is 1801 Summit Avenue, St. Paul, Minnesota 55105, hereafter "**Party of the First Part**"; and **TRENT T. MARTIN and DAWN MARTIN**, husband and wife, whose post office address is 1943 62<sup>ND</sup> Avenue SW, Beulah, North Dakota 58523, hereafter "**Party of the Second Part**".

WITNESSETH, that the Party of the First Part owns the following described parcel of land located in Oliver County, North Dakota, to-wit:

See Exhibit A attached hereto and incorporated herein by reference.

That the Party of the Second Part owns the following described parcel of land located in Oliver County, North Dakota, to-wit:

See Exhibit B attached hereto and incorporated herein by reference.

SOLEM LAW OFFICE

e-mail: beulaw@westriv.com

That the said Party of the Second Part for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged by the Party of the Second Part, does by these presents grant and convey until the Party of the First Part for their use and benefit upon the parcel of land identified and described in Exhibit A attached hereto and incorporated herein by reference, a Water Well and Water Tank Easement allowing the Party of the First Part, their successors and assigns, access to and use of existing water wells and water tanks located upon the above described parcel of land owned by the Party of the Second Part and described in Exhibit B, attached hereto and incorporated herein by reference. The Party of the First Part may, in the future, add one additional waterline from the existing water wells located on the Party of the Second Part's property described in Exhibit B, which said waterline may extend onto the Party of the First Part's property described in Exhibit A. The Party of the First Part, and their successors and assigns, may use this one future additional waterline for livestock purposes only and this waterline may not be used to service a residence or be sold to another party to be used to service a residence.

This Easement shall be binding and obligatory upon the heirs, administrators, personal representatives, survivors, and assigns of the parties hereto, and this easement shall continue for a term of ninety-nine (99) years or for such longer period of time as may be allowed by state law. It is further understood that the Party of the First Part shall be under no obligation to maintain any existing water wells and water tanks owned by the Party of the Second Party. Any new additional waterline to be established as herein provided by the Party

## **CORRECTED** **RECIPROCAL ACCESS EASEMENT**

THIS INDENTURE, made and entered into this 31<sup>st</sup> day of May, 2022, by and between **JOHNELL J. KUSLER, as personal representative of the Estate of James O. Kusler**, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116, **JOHNELL J. KUSLER**, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116, AND **MILDA L. HEDBLOM, a/k/a MILDA K. HEDBLOM**, whose post office address is 1801 Summit Avenue, St. Paul, Minnesota 55105, hereafter "Party of the First Part"; and **TRENT T. MARTIN and DAWN MARTIN**, husband and wife, whose post office address is 1943 62<sup>ND</sup> Avenue SW, Beulah, North Dakota 58523, hereafter "Party of the Second Part".

WITNESSETH, that the said Party of the First Part and the said Party of the Second Part, for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged by each party, due by these presents grant and convey unto each other, their heirs, successors, and assigns for their use a Reciprocal Access Easement for purposes of ingress and egress allowing each party, their heirs, successors, and assigns to cross the land of each other specifically identified herein on

existing roads and trails.

The Party of the First Part owns the following described parcel of land located in Oliver County, North Dakota, to-wit:

See Exhibit A attached hereto and incorporated herein by reference.

The Party of the Second Part owns the following described parcel of land located in Oliver County, North Dakota, to-wit:

See Exhibit B attached hereto and incorporated herein by reference.

It is understood that this Reciprocal Access Agreement is being granted by the parties herein to each other for ingress and egress access purposes allowing each party to cross the land of the other to access their own parcels and that this Reciprocal Access Easement shall be binding and obligatory upon the heirs, administrators, personal representatives, survivors, and assigns of the parties hereto, and shall continue for a term of ninety-nine (99) years or for such longer time as may be allowed by state law. It is further understood that neither party is obligated to the other to maintain the trails and roads located upon the parcels described herein.

IN WITNESS WHEREOF, the said parties have hereunto set their hands and seals the day and year first above written.

WITNESS, the hands of the Parties of the First Part:

## RIGHT OF WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that we the undersigned, (Whether one or more) John Scheidt and Gladys M. Scheidt (joint tenants, and not as tenants in common, with full rights of survivorship) (unmarried) (husband and wife), for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver-Mercer Electric Corporation, Inc. a cooperative corporation, (hereinafter called the "Cooperative"), whose post office address is Hazen, North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the County of Mercer, State of North Dakota, and more particularly described as follows:

A tract of land approximately \_\_\_\_\_ acres in area, located \_\_\_\_\_ miles in a \_\_\_\_\_ direction from the town of \_\_\_\_\_, and further described as being in common tenancy in SE 1/4 Section 12, Township 142 Range 88 joint tenancy in SW 1/4 Section 12, Township 142 Range 88 and NE 1/4 Section 14, Township 142 Range 88

and to construct, operate and maintain on the above described lands, and/or in or upon all streets, roads or highways abutting said lands, an electric transmission or distribution line or system, and to cut and trim trees and shrubbery that may interfere with or threaten to endanger the operation and maintenance of said line or system.

The undersigned agree that all poles, wires, and other facilities, including any main service entrance equipment, installed on the above-described lands at the Cooperative's expense shall remain the property of the Cooperative, removable at the option of the Cooperative, upon termination of service to or on said lands.

The undersigned covenant that they are the owners of the above-described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

IN WITNESS WHEREOF, the undersigned have set their hands and seals,

this 22 day of April, 1949.

Signed, sealed and delivered in the presence of

Les Gatz

John Scheidt (L.S.)  
Gladys M. Scheidt (L.S.)

# RIGHT-OF-WAY EASEMENT

Gladys Sched

(hereinafter called the "Grantor")

(unmarried) (husband and wife) for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver-Mercer Electric Cooperative, Inc., (hereinafter called "Grantee") whose post office address is Hazen, North Dakota, 58545, and to its successors or assigns, an easement for 99 years, situated in the County of Mercer, State of North Dakota, and more particularly described as follows:

TWN 142 Rge 88  
SEC 14 NE1/4

to construct, reconstruct, relocate, rephase, remove, repair, operate and maintain on or under the above described lands, and/or in, upon or under all streets, roads or highways abutting said lands, an electric distribution line or system; to cut, trim eradicate and control the growth by chemical means, machinery or otherwise, of trees and shrubbery located within 15 feet of the center of line of said line system, or that may interfere with or threaten to endanger the operation and maintenance of said line or system (indicating any control of the growth of other vegetation in the right-of-way which may incidentally and necessarily result from the means of control employed); and to license, permit or otherwise agree to the joint use or occupancy of the line or system by any other person, association or corporation, for electrification or communication purposes.

The undersigned Grantor agrees that all poles, wires, cables and other facilities including any main service entrance equipment installed on or below the above described lands at the Grantee's expense shall remain the property of Grantee, removable at its option upon termination of service to or on said lands.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches or lines of the Grantor, caused by the Grantee in the installation, repair, maintenance, reconstruction or removal of said electric properties and appurtenances, shall be promptly repaired, replaced or paid for by the Grantee, provided a claim therefore is presented to the Grantee at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, then the Grantor and Grantee shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

The undersigned Grantor covenants and agrees that no barrier of trees, shrubs, etc., and no structure or building shall be placed over underground conduits and electric lines and no construction shall be maintained or placed beneath over-the-ground electric lines and associated structures without the express written consent of the Grantee.

This Easement also includes a right-of-access to and from said real estate and Grantee's right-of-way for the purpose of connecting or reconnecting any part of the Grantee's system to or from said property with said system or to or from any other property on or coming on said system.

This Easement includes such additional rights of use and occupancy as shall be necessary for the use, maintenance, and operation of Grantee's system on said right-of-way, including but not limited to, anchors, guy wires, supporting poles or structures and the like as they were originally constructed or may thereafter be constructed.

The overall operating height of vehicles and equipment known to cultivate or traverse lands within the easement is less than \_\_\_\_\_ feet.

Dated this 3rd day of July, 19 90.

West River Telephone Right-of-Way Easement

KNOW ALL MEN BY THESE PRESENT, that we the undersigned, (whether one or more) Gladys M Scheidt, Grantor(s), do hereby grant and convey unto West River Telecommunications Cooperative, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, reconstruct, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, surface testing terminals, repeaters, repeater housings and markers, and other appurtenances, upon and over the land which the undersigned owns or in which the undersigned has any interest in the County of Mercer, State of North Dakota, and more particularly described as follows:

S/2SE/4 2 142 88  
NE/4 14 142 88

This easement is to cover this line only. Any additional future new lines will require a new easement.

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots brush and other obstructions from the surface and subsurface of said strip of land and within seven feet thereof. The boundary of said strip shall be a line parallel to and 25 feet either side of the first cable laid, which cable shall have its location indicated by surface markers set at intervals on the land of the undersigned or on adjacent lands. The undersigned for himself, his heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described premises at the Cooperative's expense, shall remain the property of the Cooperative, removable at the option of the Cooperative.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

Access is hereby granted for a state or federal historical survey of the cable route, should one be required, unless checked. Access denied ☐

IN WITNESS WHEREOF, this instrument has been executed by the undersigned this the 29<sup>th</sup> day of June, 1993.

RIGHT OF WAY EASEMENT

THIS AGREEMENT made and entered into this 19<sup>th</sup> day of June, 2014, between James Kusler, hereinafter called "Owner" (whether one or more) and **ROUGH RIDER ELECTRIC COOPERATIVE, INC.**, whose post office address is 800 Highway Drive, Hazen, North Dakota 58545-4737, hereinafter called "COOPERATIVE".

WITNESSETH that for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Owner grants unto Cooperative, its successors and assigns, for a term of 99 years from the date hereof, an easement to construct, reconstruct, operate and maintain an electric distribution system, overhead, underground or both including all poles, guys, anchors wires, surface terminals, and all accessories and appurtenances necessary or desirable in connection therewith, under, over, upon and across lands of Owner and/or in or upon all streets, roads or highways abutting said lands situated in Mercer County, North Dakota, and more particularly described as follows, to-wit:

A strip of land 20 feet in width, the same being 10 feet on each side of a centerline described as follows.

**Township 143 North Range 88 West**

S1/2SE1/4 of Section 27

The facilities erected hereunder shall remain the property of the Cooperative. Cooperative shall have the right to inspect, rebuild, remove, repair, improve and make such changes, alterations, substitutions and additions in and to its facilities as Cooperative may from time to time deem advisable, including the right to increase or decrease the size or capacity of its system, together with necessary accessories and appurtenances; the right to increase or decrease the size of the facilities and equipment situated upon the premises; the right to permit or otherwise agree to the joint use or occupancy of the overhead lines or the trench and related underground facilities by other persons, associations or corporations; and the right to at any time use the property described above to extend lines and facilities to serve the property of persons other than the Owner.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches, or lines of the Owner, caused by the Cooperative in the installation, repair maintenance, reconstruction or removal of said electrical properties and appurtenances, shall be promptly repaired, replaced or paid for by the Cooperative, provided a claim therefore is presented to the Cooperative at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Cooperative and the Owner shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

Cooperative shall at all times have the right to keep the easement clear of all buildings, structures or other obstructions, trees, shrubbery, undergrowth and roots.

Owner, his successors and assigns, may use the land within the easement for any purpose not inconsistent with the rights granted, provided such use does not interfere with or endanger the Cooperative's facilities or the rights granted under this easement.

For the purpose of constructing, inspecting, maintaining or operating its facilities, Cooperative shall have the right of ingress to and egress from the easement over the lands of Owner adjacent to the easement and lying between public or private roads and the easement, such right to be exercised in such manner as shall occasion the least practicable damage and inconvenience to Owner.

Owner covenants that he is seized of and has the right to convey the said easement, rights and privileges; that Cooperative shall have quiet and peaceable possession, use and enjoyment of the aforesaid easement, rights and privileges, and that Owner shall execute such further assurances thereof as may be requested by the Cooperative.

RIGHT-OF-WAY EASEMENT

Location Number

(1)

TO YTHUOD

KNOW ALL MEN BY THESE PRESENTS, that the undersigned Norman Smith *Angie Marie* for a good and valuable consideration, the receipt whereof is hereby acknowledged, does hereby grant unto the *Oliver-Mercer Electric Cooperative, Inc.* a corporation, whose post office address is Hazen, N. Dak. North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the county of *Oliver*, State of North Dakota and more particularly described as follows:

NW 1/4

*Sec. 22, T22N, R42W, S21, P42-87*

*County of Oliver, State of North Dakota*

*Sub. Sec. 15, T22N, R42W*

and to place, construct, operate, repair, maintain, relocate and replace thereon and in or upon all streets, roads or highways abutting said lands an electric transmission or distribution line or system, and to cut and trim trees and shrubbery to the extent necessary to keep them clear of said electric line or system and to cut down from time to time all dead, weak, leaning or dangerous trees that are tall enough to strike the wires in falling.

In granting this easement it is understood that at pole locations, only a single pole and arrangement will be used, and that the location of the pole will be such as to form the least possible interference to farm operations, so long as it does not materially increase the cost of construction.

The undersigned covenants that he is the owner of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

It is further understood that, whenever necessary, words in this instrument in the singular shall be construed to read in the plural and that words used in the masculine gender shall be construed to read in the feminine.

IN WITNESS WHEREOF, the undersigned has set his hand and seal this 26th day of June, 1946

# RIGHT-OF-WAY EASEMENT

Faye Swenson (hereinafter called the "Grantor") (unmarried) (husband and wife) for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Roughrider Electric Cooperative, Inc. (hereinafter called "Grantee") whose post office address is Hazen, North Dakota 58545, and to its successors or assigns, an easement for 99 years, situated in the County of Oliver, State of North Dakota, and more particularly described as follows:

TOWNSHIP 142 NORTH, RANGE 87 WEST  
Section 21 NE 1/4

To construct, reconstruct, relocate, rephase, remove, repair, operate and maintain on or under the above described lands, and/or in, upon or under all streets, roads or highways abutting said lands, an electric distribution line or system; to cut, trim eradicate and control the growth by chemical means, machinery or otherwise, or trees and shrubbery located within -15- feet of the center of said line system, or that may interfere with or threaten to endanger the operation and maintenance of said line system (indicating any control of the growth of other vegetation in the right-of-way which may incidentally and necessarily result from the means of control employed); and to license, permit or otherwise agree to the joint use or occupancy of the line or system by any other person, association or corporation, for electrification or communication purposes.

The undersigned Grantor agrees that all poles, wires, cables and other facilities including any main service entrance equipment installed on or below the above described lands at the Grantee's expense shall remain the property of Grantee, removable at its option upon termination of service to or on said lands.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches or lines of the Grantor, caused by the Grantee in the installation, repair, maintenance, reconstruction or removal of said electric properties and appurtenances, shall be promptly repaired, replaced or paid for by the Grantee, provided a claim therefore is presented to the Grantee at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Grantor and Grantee shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

The undersigned Grantor covenants and agrees that no barrier of trees, shrubs, etc., and no structure or building shall be placed over underground conduits and electric lines and no construction shall be maintained or placed beneath over-the-ground electric lines and associated structures without the express written consent of the Grantee.

This Easement also includes a right-of-access to and from said real estate and Grantee's right-of-way for the purpose of connecting or reconnecting any part of the Grantee's system to or from said property with said system or to or from any other property on or coming on said system.

This Easement includes such additional rights of use and occupancy as shall be necessary for the use, maintenance, and operation of Grantee's system on said right-of-way, including but not limited to, anchors, guy wires, supporting poles or structures and the like as they were originally constructed or may thereafter be constructed.

The overall operating height of vehicles and equipment known to cultivate or traverse lands within the easement is less than \_\_\_\_\_ feet.

Dated this 1 day of July, 2008.

***West River Telecommunications Right-of-Way Easement***

We the undersigned, (whether one or more) ***Donna M. Smith***, Grantor(s), do hereby grant and convey unto ***West River Telecommunications Cooperative***, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O. Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, repair, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, and other appurtenances, upon, over and under the land which the undersigned owns or in which the undersigned has any interest in the County of ***Oliver***, State of ***North Dakota***, and more particularly described as follows:

*W sec*  
NE/4 Sec. 22 T142N R87W
*E sec*  
NW/4 Sec. 21 T142N R87W

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots, brush and other obstructions from the surface and subsurface of said strip of land. The boundary of said strip shall be a line parallel to and 10 feet either side of the first cable laid on the land of the undersigned. The undersigned for Grantor(s), their heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described land, shall remain the property of the Cooperative, removable at the option of the Cooperative. The undersigned agrees to this easement with the understanding the Grantor(s), their heirs, executors, administrators, successors, and assigns, may continue to have access to and use of the easement area in any manner consistent with the rights herein granted to the Cooperative, and that the Cooperative will restore the said strip to as near as reasonable to the pre-constructed condition, and that the Cooperative will erect no buildings on said strip.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

**PIPELINE EASEMENT**

North Dakota State Water Commission  
County of Oliver  
Parcels H-OL-141

OFFICE OF COUNTY RECORDER  
STATE OF NORTH DAKOTA  
COUNTY OF OLIVER  
Filed for record this 16 day  
of Sept A.D. 2011  
at 11:59 o'clock A M.,  
and recorded as document No. 56785  
in book FF of Map page 619-621  
H. Walker  
County Recorder Deputy 16

**ALL PERSONS TAKE NOTICE:**

That the undersigned, Jule Silbernagel and Faye Swenson, as tenants in common, called the Grantor, being the owner of, or having an interest in, land situated in the County of Oliver, State of North Dakota, more fully described below, in consideration of One and No/100 Dollars (\$1.00) and other valuable consideration, does hereby grant, convey, and warrant to the State of North Dakota, acting by and through the North Dakota State Water Commission, a state agency and public corporation, with its principal office at 900 East Boulevard Ave., Bismarck, North Dakota 58505, called the Grantee, and to its successors and assigns, the right, privilege, and easement to construct, maintain, operate, inspect, repair, alter, replace, change the size of or remove a pipeline, and appurtenances thereto, for the transportation of water under, across, and through:

**Parcel H-OL-141**

A 40 foot wide strip of land 20 feet wide on each side of the pipeline centerline lying within the SE1/4 Section 15, Township 142 North, Range 87 West of the 5th P.M.

Said tract contains 2.42 acres, more or less.

**Temporary Construction Easement**

An additional 20 feet of temporary right-of-way lying adjacent to the above described tract for a total construction easement width of 60 feet.

Said tract contains 1.21 acres, more or less.

together with the right to utilize additional land for a period up to three years from the date of this easement, adjacent to the above described tract, for purposes of temporary working space during initial construction of the pipeline, and the right of ingress to and egress from said strip of land across the adjacent lands of the Grantor, for the purposes specified above at the will of the Grantee.

**THE GRANTOR AND THE GRANTEE FURTHER AGREE:**

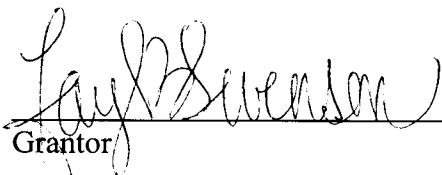

- 1. Use of right-of-way by Grantor.** Grantor reserves the right to use the surface of the easement strip provided, however, that Grantor, without prior approval of Grantee, shall neither construct nor permit to be constructed any building, structure, or other improvement upon the easement strip which would interfere with Grantee's exercise of the rights conveyed by this pipeline easement, including access to the easement strip.
- 2. Appurtenances.** The Grantee shall have the right to install and construct necessary appurtenances upon the surface of the easement strip. Prior to construction, the Grantee will notify the Grantor of the approximate location of such appurtenances if any, to be located on the easement strip, and shall pay to the Grantor the sum of \$500 for each appurtenance located at a distance of more than 5 feet from a field boundary or fence line. Such payments shall be paid prior to construction.
- 3. Damages.** The Grantee will pay to Grantor or Grantor's tenants, as their respective interests may appear, for damages caused by the operations or activities of the Grantee; provided, however, that the Grantee shall have the right, without liability for damages, to clear, and keep cleared, all trees, brush, and other obstructions from the easement strip that may, in the Grantee's judgment, interfere with the rights and privileges of the Grantee under this pipeline easement.

If the amount of any damage which Grantor may sustain as a result of Grantee's exercise of rights hereunder cannot be mutually agreed upon, such damages shall be ascertained and

determined by three (3) disinterested person; one to be appointed by the Grantor, one by Grantee, and a third by the two so appointed, and the award of such three persons shall be final and conclusive.

4. **Restoration of surface.** The Grantee will restore the surface of the construction area to its original contour as nearly as practicable.
5. **Topsoil segregation.** When excavating the pipeline trench with a backhoe/trackhoe, the Grantee will remove the topsoil separately during the construction of the pipeline for the full width of the pipe trench to a depth of twelve (12) inches or the actual topsoil depth, whichever is less, and to be replaced at the top of the backfill over the pipe trench.
6. **Assignment and covenant by parties.** The rights of either party may be assigned in whole or in part. The terms and provisions of this easement shall constitute covenants running with the land and shall be binding upon, and inure to the benefit of, the parties hereto, their successors, assigns, personal representatives, and heirs.
7. **Grantor's title.** Grantor warrants that he is the owner of, or has an interest in, the land described in this easement, and that he has full right and authority to enter into and deliver this easement. This instrument may be executed in counterparts and each counterpart shall constitute a separate agreement between the parties thereto. Any payments pursuant to this pipeline easement shall be in proportion to the Grantor's interest in the undivided fee simple estate.
8. **Entire agreement.** This instrument contains the entire agreement of the parties and there are no other, or different, agreements or understandings between the Grantor and the Grantee, or its agents. The Grantor, in executing this pipeline easement, has not relied upon any promises, inducements, or representatives of the Grantee, or its agents, except as are set forth herein.
9. **Term of easement.** The term of this easement shall be as long as it is needed by the Grantee, or its assigns, and until a release of this easement is recorded, but shall not exceed ninety-nine (99) years pursuant to NDCC §47-05-02.1.
10. **Tenants.** The Grantor represents that the land described in this easement is (not rented) (rented to) John Smith.

Dated this 21<sup>st</sup> day of February, 20 11.

RIGHT OF WAY EASEMENT

THIS AGREEMENT made and entered into this 11<sup>th</sup> day of AUGUST, 2014, between Faye Swenson, hereinafter called "Owner" (whether one or more) and **ROUGH RIDER ELECTRIC COOPERATIVE, INC.**, whose post office address is 800 Highway Drive, Hazen, North Dakota 58545-4737, hereinafter called "COOPERATIVE".

WITNESSETH that for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Owner grants unto Cooperative, its successors and assigns, for a term of 99 years from the date hereof, an easement to construct, reconstruct, operate and maintain an electric distribution system, overhead, underground or both including all poles, guys, anchors wires, surface terminals, and all accessories and appurtenances necessary or desirable in connection therewith, under, over, upon and across lands of Owner and/or in or upon all streets, roads or highways abutting said lands situated in Oliver County, North Dakota, and more particularly described as follows, to-wit:

A strip of land 20 feet in width, the same being 10 feet on each side of a centerline described as follows.

TOWNSHIP 142 NORTH, RANGE 87 WEST  
Section 15

The facilities erected hereunder shall remain the property of the Cooperative. Cooperative shall have the right to inspect, rebuild, remove, repair, improve and make such changes, alterations, substitutions and additions in and to its facilities as Cooperative may from time to time deem advisable, including the right to increase or decrease the size or capacity of its system, together with necessary accessories and appurtenances; the right to increase or decrease the size of the facilities and equipment situated upon the premises; the right to permit or otherwise agree to the joint use or occupancy of the overhead lines or the trench and related underground facilities by other persons, associations or corporations; and the right to at any time use the property described above to extend lines and facilities to serve the property of persons other than the Owner.

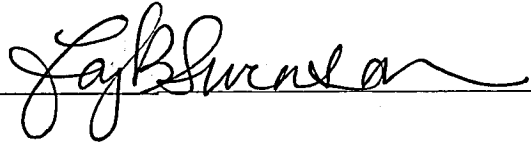

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches, or lines of the Owner, caused by the Cooperative in the installation, repair maintenance, reconstruction or removal of said electrical properties and appurtenances, shall be promptly repaired, replaced or paid for by the Cooperative, provided a claim therefore is presented to the Cooperative at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Cooperative and the Owner shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

Cooperative shall at all times have the right to keep the easement clear of all buildings, structures or other obstructions, trees, shrubbery, undergrowth and roots.

Owner, his successors and assigns, may use the land within the easement for any purpose not inconsistent with the rights granted, provided such use does not interfere with or endanger the Cooperative's facilities or the rights granted under this easement.

For the purpose of constructing, inspecting, maintaining or operating its facilities, Cooperative shall have the right of ingress to and egress from the easement over the lands of Owner adjacent to the easement and lying between public or private roads and the easement, such right to be exercised in such manner as shall occasion the least practicable damage and inconvenience to Owner.

Owner covenants that he is seized of and has the right to convey the said easement, rights and privileges; that Cooperative shall have quiet and peaceable possession, use and enjoyment of the aforesaid easement, rights and privileges, and that Owner shall execute such further assurances thereof as may be requested by the Cooperative.

## BACKGROUND AND STANDARDS

### I. Summary of Claims

[¶1] N.D.C.C. §§ 38-22-10<sup>1</sup> and 38-25-08<sup>2</sup> authorize developers to inject carbon dioxide and natural gas into a nonconsenting landowners' pore space without just compensation. This constitutes an unconstitutional taking without just compensation under art. 1, § 16 of the Constitution of North Dakota and of the United States Constitution, Amendment V (as applied to the state of North Dakota through Amendment XIV), and are a violation of procedural and substantive due process under art. 1, § 12 of the Constitution of North Dakota and of the United States Constitution, Amendment V as applied by Amendment XIV. These provisions also specifically violate the guarantee of a jury trial and the right to just compensation *before* a taking under art. 1, § 16 of the Constitution of North Dakota.

[¶2] N.D.C.C. § 38-22-03(7)<sup>3</sup> is an unconstitutional delegation of legislative power under N.D. Const. Art. IV, § 13 and *State v. Riggin*, 2021 ND 87, 959 N.W.2d 855.

---

<sup>1</sup> "If a storage operator does not obtain the consent of all persons who own the storage reservoir's pore space, the commission may require that the pore space owned by nonconsenting owners be included in a storage facility and subject to geologic storage."

<sup>2</sup> "If a storage operator does not obtain the consent of all persons owning a pore space and of mineral interest owners when required by this chapter, the commission may require the interest owned by the nonconsenting owners be included in an approved storage facility and subject to geologic storage if the minimum percentage of consent is obtained as specified in this chapter. Any pore space owner who does not have responsibility over the construction, management, supervision, or control of the storage facility operations is not liable for money damages for personal or other property damages proximately caused by the operations."

<sup>3</sup> Providing authority to the NDIC "[t]o grant, for good cause, exceptions to this chapter's requirements and implementing rules."

[¶3] Sections 32-15-06<sup>4</sup> and 24-05-09<sup>5</sup> authorize entities who *may* have authority<sup>6</sup> to condemn to physically access private property to conduct surveys, take soil samples, and conduct other activities on the property. *See generally Cass Cnty. Joint Water Res. Dist. v. Brakke* (In re 2015 Application for Permit to Enter Land for Surveys & Examination Associated with a Proposed N.D. Diversion & Associated Structures), 2016 ND 165, 883 N.W.2d 844. These are unconstitutional authorizations of physical invasions without just compensation in violation of art. 1, § 16 of the Constitution of North Dakota and of the United States Constitution, Amendment V (as applied through Amendment XIV).

## **II. Summary Judgment is Appropriate and this Court May Rule as a Matter of Law that the Challenged Statutes are Unconstitutional.**

[¶4] In *Sorum v. State*, 2020 ND 175, 947 N.W.2d 382, the North Dakota Supreme Court stated:

Whether a statute is unconstitutional is a question of law, which is fully reviewable on appeal. *Teigen v. State*, 2008 ND 88, ¶ 7, 749 N.W.2d 505 (*citing Best Products Co., Inc. v. Spaeth*, 461 N.W.2d 91, 96 (N.D. 1990)) ... .

---

<sup>4</sup> “In all cases when land is required for public use, the person or corporation, or the person's or corporation's agents, in charge of such use may survey and locate the same, but it must be located in the manner which will be compatible with the greatest public benefit and the least private injury and subject to the provisions of section 32-15-21. Whoever is in charge of such public use may enter upon the land and make examinations, surveys, and maps thereof, and such entry constitutes no claim for relief in favor of the owner of the land except for injuries resulting from negligence, wantonness, or malice.”

<sup>5</sup> “The board of county commissioners of any county of the state, by resolution or order, as part of the cost of constructing, reconstructing, widening, altering, changing, locating, relocating, aligning, realigning, or maintaining, any highway in said county, may purchase, acquire, take over, or, subject to section 32-15-01, condemn, under the right and power of eminent domain, for such county, any and all lands which it deems necessary for the present use, either temporary or permanent, and to provide adequate drainage in the improvement, constructing, reconstructing, widening, altering, changing, locating, relocating, aligning, realigning, or maintaining of any highways in said county, and by the same means it may acquire said lands notwithstanding the fact that the title thereto is vested in the state or any of its subdivisions. Whenever the board of county commissioners determines, by resolution or order, that the public necessity requires the taking of land as aforesaid, it shall cause said lands to be surveyed and described and a plat thereof prepared and recorded in the office of the recorder of the county wherein the same is located. The board of county commissioners, or its duly authorized agents and employees, may enter upon any land for the purpose of making such survey, examination, or test, but in case of damages to the premises the board of county commissioners forthwith shall pay to the owner of said premises the amount of such damages.”

<sup>6</sup> N.D.C.C. § 32-15-06 provides authority to any entity merely in the “category of persons entitled to seek eminent domain.” *Square Butte Elec. Coop. v. Dohn*, 219 N.W.2d 877, 883 (N.D. 1974).

A constitution must be construed in the light of contemporaneous history—of conditions existing at and prior to its adoption. By no other mode of construction can the intent of its framers be determined and their purpose given force and effect. *Hagerty*, 1998 ND 122, ¶ 17, 580 N.W.2d 139 (*quoting Ex parte Corliss*, 16 N.D. 470, 481, 114 N.W. 962, 967 (1907)) ... . A facial challenge is purely a question of law because the violation, if any, occurs at the point of enactment by virtue of the Legislative Assembly enacting a law prohibited by the constitution. *Id.* A violation that occurs at the time of enactment does not depend on any facts or circumstances arising later.

*Sorum*, 2020 ND, at ¶ 19 (internal quotes omitted).

[¶5] “No consideration of circumstances is necessary to resolve a facial challenge because the claim is that upon enactment, the legislation has an immediate unconstitutional legal effect.” *Nw. Landowners Ass’n v. State*, 2022 ND 150, ¶ 14, 978 N.W.2d 679, 688. “In *Sorum*, we held that if legislation requires an unconstitutional act (a prohibited gift in that case), the statute does not avoid a facial challenge ‘merely because the statute includes constitutional applications along with potentially unconstitutional applications.’” *Id.*

[¶6] As such, pursuant to Rule 56 of the North Dakota Rules of Civil Procedure, “no genuine issue as to any material fact [exists and Landowners are] entitled to judgment as a matter of law.”

### **III. Northwest Landowners Association Has Standing to Litigate this Case.**

[¶7] “Because courts do not render advisory opinions or decide purely abstract questions, parties seeking relief from a court must demonstrate they have standing by alleging such a personal stake in the outcome of a controversy to justify the court's exercise of remedial powers on their behalf.”

*Dakota Res. Council v. Stark Cty. Bd. of Cty. Comm’rs*, 2012 ND 114, ¶ 5, 817 N.W.2d 373, 375.

[A] nonprofit organization that has not suffered an injury itself can sue as the representative of its members if: (a) its members would otherwise have standing to sue in their own right; (b) the interests it seeks to protect are germane to the organization; and (c) neither the claim asserted nor the relief requested requires the participation of individual members in the lawsuit. In addition, a nonprofit membership corporation has standing to seek judicial review on behalf of its members, of governmental or municipal regulations directly affecting such members.

*Id.* at ¶ 6; *see also, Students for Fair Admissions, Inc. v. President & Fellows of Harvard College*, 600 U.S. 181 (2023).

[¶8] NWLA has devoted significant resources to identify and counteract the deprivation of civil rights and the unconstitutional attack on private property rights that is inherent in the statutory provisions being challenged here. NWLA has been engaged with its legal counsel for years at the legislative session trying to defend private property rights, and it has expended most of the money, time, and resources it has ever held in this defense. *See* Exhibit D, attached to the Decl. of Derrick Braaten. It has held conferences and community meetings, disseminated data and information, paid to compile expensive and lengthy reports, organized members, commented on agency rulemaking, lobbied at the legislature, and generally spent its entire existence fighting for the farmers and ranchers, and other private property owners of North Dakota. *Id.*

[¶9] Members Kurt and FayE Swenson are ND taxpayers and trustees of The Swenson Living Trust (the “Trust”), which has real property located within the sequestration zones proposed by Summit. Summit has sent maps showing the Trust’s property will be impacted by amalgamation. The real property is legally described as follows:

- a. W1/2NE1/4 of Section 14, T142N, R88W in Mercer County, ND;
- b. SE1/4 of Section 27, T143N, R88W in Mercer County, ND;
- c. Outlot B, E1/2 of NW1/4 of Section 7, T142N, R88W in Oliver County, ND.

*See* Exhibit B, attached to the Decl. of Derrick Braaten.

[¶10] Mike Dresser is a ND taxpayer and member of NWLA who owns real property affected by a storage facility operated by Minnkota Power Cooperative, Inc. The property owned by Mr. Dresser is located in Section 35, Township 142 North, Range 84 West in Oliver County, ND. Mr. Dresser’s property has been “amalgamated” or taken by government fiat in the following NDIC

cases: 29029, 29030, 29031, 29032, 29033, and 29034. *See* Exhibit A, attached to the Decl. of Derrick Braaten.

[¶11] Sandra Short is a ND taxpayer and member of NWLA and has been impacted by the unconstitutional provisions to N.D.C.C § 32-15-06 or N.D.C.C § 24-05-09. Ms. Short's property that has been impacted is located at Lot 8, NW1/4SW1/4 of Section 22, Township 143, Range 102 in Billings County, ND and N1/2 and S1/2 less 17.26 ARW of Section 34, Township 143, Range 102 in Billings County, ND. *See* Exhibit C, attached to the Decl. of Derrick Braaten.

[¶12] On December 22, 2023, the above members were added as plaintiffs in their individual capacity to also assert taxpayer standing to challenge the pertinent statutes. Index #114. "[A]ny state taxpayer has standing to challenge a statute on the basis state funds are being unlawfully dissipated." *Billey v. N.D. Stockmen's Ass'n*, 1998 ND 120, ¶ 7, 579 N.W.2d 171.

## ARGUMENT

### **IV. This Court Should Grant Summary Judgment to Plaintiffs and Declare that the Challenged Statutes are Unconstitutional and Void.**

[¶13] In this case,

The Association's complaint [seeks a declaration that numerous statutes are] unconstitutional and should be declared void, therefore making [sic] a facial challenge rather than an as-applied challenge. "A claim that a statute on its face violates the constitution is a claim that the Legislative Assembly exceeded a constitutional limitation in enacting it, and the practical result of a judgment declaring a statute unconstitutional is to treat it 'as if it never were enacted.'" *Sorum v. State*, 2020 ND 175, ¶ 21, 947 N.W.2d 382 (citing *Hoff v. Berg*, 1999 ND 115, ¶ 19, 595 N.W.2d 285).

*Nw. Landowners Ass'n v. State*, 2022 ND 150, ¶ 12, 978 N.W.2d 679.

[¶14] As in the prior takings litigation brought by Northwest Landowners Association, "[t]o resolve the claim, we need only interpret the enacted language of [the challenged statutes] and the

relevant constitutional provisions to determine whether there is a conflict. ... *Sorum* provides the correct framework for this facial challenge.” *Id.* at ¶ 15.

[¶15] This action relates to the prior ruling of this Court and the ruling of the Supreme Court of North Dakota in *Nw. Landowners Ass'n v. State*, 2022 ND 150, 978 N.W.2d 679 striking down Senate Bill 2344 (2019). This action also relates to the ruling of the United States Supreme Court quoted therein, *Cedar Point Nursery v. Hassid*, 141 S. Ct. 2063 (2021), wherein the Court stated that “a physical appropriation is a taking whether it is permanent or temporary. Our cases establish that ‘compensation is mandated when a leasehold is taken and the government occupies property for its own purposes, even though that use is temporary.’” *Cedar Point Nursery v. Hassid*, 141 S. Ct. 2063, 2074 (2021).

[¶16] In *Nw. Landowners Ass'n v. State* the Supreme Court of North Dakota struck down parts of Senate Bill 2344 (2019), which authorized access to a landowner’s pore space by third parties without just compensation in violation of the state and federal constitutions.

[¶17] Senate Bill 2344 (2019) deprived private landowners of their property and of any remedies for temporary and permanent physical occupations of their property, effectively displacing their possession of this private property and handing it over to select private entities for private economic purposes.

[¶18] This Court struck down the law enacted by Senate Bill 2344 (2019) on January 21, 2021 in Case Number 05-2019-CV-00085 stating: “The provisions of SB 2344, both individually and taken together, prohibit landowners from obtaining any compensation for any oil and gas operators’ use of their pore space estate, whether reasonable or unreasonable, whether at large or small volumes, whether at a large financial detriment or small financial detriment. These provisions act as an absolute bar to not just money damages, but to all other meaningful remedies,

including trespass, nuisance or other torts. The three provisions at issue here, enacted or amended within SB 2344, render pore space worthless in every instance of its application, and it is unconstitutional on its face.”

[¶19] On August 4, 2022, the Supreme Court of North Dakota affirmed, stating: “Senate Bill 2344 constitutes a per se taking. It allows third-party oil and gas operators to physically invade a landowner’s property by injecting substances into the landowner’s pore space. As demonstrated in *Arkansas Game & Fish Comm’n v. United States*, 568 U.S. 23, 34, 133 S. Ct. 511, 184 L. Ed. 2d 417 (2012), physical invasion by water, even for a limited duration, results in a per se taking. Furthermore, because S.B. 2344 permits oil and gas operators to use pore space to temporarily or permanently store or dispose of gases and wastes, the bill authorizes an occupation of the landowners’ property. Similar to the unconstitutional regulation in *Cedar Point Nursey*, S.B. 2344 grants oil and gas operators a right of access to the landowners’ private property. Further, as in *Loretto*, 458 U.S. at 436, S.B. 2344 restricts landowners from having any control over the ‘timing, extent, or nature of the invasion.’” *Nw. Landowners Ass’n v. State*, 2022 ND 150, ¶ 26, 978 N.W.2d 679.

**A. The “amalgamation” of property rights for carbon dioxide sequestration is unconstitutional.**

[¶20] North Dakota Century Code Chapter 38-22 provides authority and procedures for the North Dakota Industrial Commission to authorize the geologic sequestration of carbon dioxide. N.D.C.C. § 38-22-10 is unconstitutional on its face.

[¶21] N.D.C.C. § 38-22-10 provides:

**38-22-10. Amalgamating property interests.**

If a storage operator does not obtain the consent of all persons who own the storage reservoir's pore space, the commission may require that the pore space owned by nonconsenting owners be included in a storage facility and

subject to geologic storage.

[¶22] N.D.C.C. § 38-22-02 defines “storage facility” as “...the reservoir, underground equipment, and surface facilities and equipment used or proposed to be used in a geologic storage operation... .”

[¶23] N.D.C.C. § 38-22-02 defines “geologic storage” as “...the permanent or short-term underground storage of carbon dioxide in a storage reservoir.”

[¶24] N.D.C.C. § 38-22-02(6) defines “reservoir” to mean “a subsurface sedimentary stratum, formation, aquifer, cavity, or void, whether natural or artificially created, including oil and gas reservoirs, saline formations, and coal seams suitable for or capable of being made suitable for injecting and storing carbon dioxide.”

[¶25] N.D.C.C. § 38-22-08(14) provides that “[b]efore issuing a permit, the commission shall find... [t]hat all nonconsenting pore space owners are or will be equitably compensated.”

[¶26] The Constitution of North Dakota, Article 1, section 16 states: “Private property shall not be taken or damaged for public use without just compensation having been first made to, or paid into court for the owner... . Compensation shall be ascertained by a jury, unless a jury be waived.”

[¶27] N.D.C.C. § 38-22-10 authorizes the North Dakota Industrial Commission to “allow[] third-party ... operators to physically invade a landowner’s property by injecting substances into the landowner’s pore space” which is precisely what the Supreme Court of North Dakota ruled is a *per se* taking because it constitutes a physical invasion of the landowners’ property. *Nw. Landowners Ass’n v. State*, 2022 ND 150, ¶ 26, 978 N.W.2d 679. “As demonstrated in *Arkansas Game & Fish Comm’n v. United States*, 568 U.S. 23, 34, 133 S. Ct. 511, 184 L. Ed. 2d 417 (2012), physical invasion by water, even for a limited duration, results in a *per se* taking.” *Id.* So does invasion by carbon dioxide.

[¶28] Although N.D.C.C. § 38-22-08(14) requires the commission to find that all nonconsenting pore space owners are or will be equitably compensated, this finding is not a suitable replacement for just compensation and the safeguards guaranteed by the Constitution of North Dakota and Chapter 32-15.

[¶29] The Constitution requires that just compensation be paid before any taking of private property, and a determination and payment of just compensation, not equitable compensation, is constitutionally required before this taking can occur. N.D. Const. Art. I, § 16 (“...without just compensation having been first made to, or paid into court for the owner...”). A landowner must also be given a jury trial for this determination unless it is waived. *Id.* (“Compensation shall be ascertained by a jury, unless a jury be waived.”).

[¶30] In addition to being an unconstitutional taking of private property, N.D.C.C. § 38-22-10 allows the North Dakota Industrial Commission to take private property by fiat without any of the constitutional or statutory safeguards in Article 1, Section 16 of the ND Constitution or Chapter 32-15 of the Century Code. This blatant attempt to bypass constitutional and other safeguards for private property is arbitrary and violates both substantive and procedural due process requirements.

When reviewing substantive due process arguments not involving fundamental rights, we look to see if the State acts in an arbitrary or unreasonable manner in exercising its police power. . . . To declare a statute unconstitutional on substantive due process grounds, it must appear that the Legislature had no power to act in the particular matter or, having power to act, that such power was exercised in an arbitrary, unreasonable, or discriminatory manner and that the method adopted had no reasonable relation to attaining the desired result.

*Ennis v. City of Ray*, 1999 ND 104, ¶ 18, 595 N.W.2d 305, 311 (internal quotes omitted).

[¶31] “Due process requires that administrative proceedings conform with ‘[b]asic notions of fundamental fairness.’ *Morrell v. N.D. Dep’t of Transp.*, 1999 ND 140, ¶ 9, 598 N.W.2d 111. ‘[D]ue process is flexible and must be analyzed on a case-by-case basis, balancing the competing

interests and assessing whether the basic due process requirement of fairness has been satisfied.”  
*Black Hills Trucking Inc. v. N.D. Indus. Comm'n*, 2017 ND 284, ¶ 30, 904 N.W.2d 326, 335.

[¶32] Intentionally bypassing the safeguards of the North Dakota Constitution and Chapter 32-15 and allowing the NDIC to take private property by fiat through administrative proceedings without payment of just compensation determined by a jury violates notions of fundamental fairness and is arbitrary and unreasonable and violative of both substantive and procedural due process under the North Dakota and United States Constitutions. The Legislative Assembly cannot bypass the due process afforded by Article 1, Section 16 of the North Dakota Constitution by authorizing an administrative process that skirts its safeguards. “[I]t is settled law that the government cannot do indirectly what it is barred from doing directly when constitutional rights are implicated.” *Patrolmens Benevolent Assn of the City of N.Y., Inc. v. City of N.Y.*, 2004 U.S. Dist. LEXIS 18172, at \*40-41 (S.D.N.Y. Aug. 19, 2004) (citing *Rutan v. Republican Party of Illinois*, 497 U.S. 62, 77-78, 111 L. Ed. 2d 52, 110 S. Ct. 2729 (1990)).

**B. The “amalgamation” of property rights for oil and gas storage is unconstitutional.**

[¶33] North Dakota Century Code Chapter 38-25 provides authority and procedures for the North Dakota Industrial Commission to authorize the geologic storage of oil and gas. N.D.C.C. § 38-25-08 is unconstitutional on its face.

[¶34] N.D.C.C. § 38-25-08 provides in part:

**Amalgamating property interests.**

If a storage operator does not obtain the consent of all persons owning pore space and of mineral interest owners when required by this chapter, the commission may require the interest owned by the nonconsenting owners be included in an approved storage facility and subject to geologic storage if the minimum percentage of consent is obtained as specified in this chapter.

[¶35] N.D.C.C. § 38-25-01 defines “storage facility” as “the reservoir, salt cavern, underground equipment, and surface facilities and equipment used or proposed to be used in an underground storage operation.”

[¶36] N.D.C.C. § 38-25-01 defines “geologic storage” as “the underground storage of oil or gas in a storage reservoir or salt cavern.”

[¶37] N.D.C.C. § 38-25-01(8) defines “reservoir” as “a subsurface sedimentary stratum, formation, aquifer, or void, whether natural or artificially created, including oil and gas reservoirs and saline formations suitable for or capable of being made suitable for injecting, storing, and withdrawing oil or gas....”

[¶38] N.D.C.C. §§ 38-25-05(18), 38-25-06(15), and 38-25-07(16) all generally state that the commission must find that all nonconsenting owners are or will be equitably compensated before issuing a permit.

[¶39] N.D.C.C. § 38-25-08 authorizes the North Dakota Industrial Commission to “allow[] third-party ... operators to physically invade a landowner’s property by injecting substances into the landowner’s pore space” which is precisely what the Supreme Court of North Dakota ruled is a *per se* taking because it constitutes a physical invasion of the landowners’ property. *Nw. Landowners Ass’n v. State*, 2022 ND 150, ¶ 26, 978 N.W.2d 679. “As demonstrated in *Arkansas Game & Fish Comm’n v. United States*, 568 U.S. 23, 34, 133 S. Ct. 511, 184 L. Ed. 2d 417 (2012), physical invasion by water, even for a limited duration, results in a *per se* taking.” *Id.* So does invasion by natural gas.

[¶40] The Constitution requires that just compensation be paid before any taking of private property, and a determination and payment of just compensation, not equitable compensation, is constitutionally required before this taking can occur. N.D. Const. Art. I, § 16 (“...without just

compensation having been first made to, or paid into court for the owner...”). A landowner must also be given a jury trial for this determination unless it is waived. *Id.* (“Compensation shall be ascertained by a jury, unless a jury be waived.”).

[¶41] Chapter 38-25 also violates safeguards of procedural and substantive due process as explained with respect to Chapter 38-22 above.

**C. N.D.C.C. § 38-22-03(7) is an unconstitutional delegation of legislative authority to the North Dakota Industrial Commission that violates the principle of separation of powers.**

[¶42] N.D.C.C. § 38-22-03(7) states that the North Dakota Industrial Commission has authority to “grant, for good cause, exceptions to this chapter’s requirements and implementing rules.” The reference to “this chapter’s requirements” is to the entirety of Chapter 38-22.

[¶43] This is an unconstitutional delegation of legislative power to the North Dakota Industrial Commission by the Legislative Assembly. Pursuant to Article IV, section 13 of the Constitution of North Dakota, “[n]o law may be enacted except by a bill passed by both houses....”

[¶44] Granting the commission the authority to suspend the operation of any provision of Chapter 38-22 allows the commission to essentially rewrite, ignore, or selectively apply the law in any situation based on its own determination of whether “good cause” exists. This is a delegation of a non-delegable legislative power and even if it was a delegable power, it contains no reasonable guidelines for implementation. Delegating the legislative authority to suspend the entirety of this “chapter’s requirements” to an executive agency is unconstitutional on its face.

"Except as otherwise provided in the constitution, the Legislature may not delegate legislative powers to others . . . ." *Kelsh v. Jaeger*, 2002 ND 53, ¶ 21, 641 N.W.2d 100. "However, the Legislature may delegate powers which are not exclusively legislative and which the Legislature cannot conveniently do because of the detailed nature." *Stutsman Cty. v. State Historical Soc’y of N.D.*, 371 N.W.2d 321, 327 (N.D. 1985)

When determining whether there has been a proper delegation of power from the legislature to the executive branch, this Court has recognized that the "distinction between a delegable and non-delegable power was whether the power granted gives the authority to make a law or whether that power pertains only to the execution of a law which was enacted by the Legislature." *Stutsman Cty.*, 371 N.W.2d at 327 (citing *Ralston Purina Co. v. Hagemeister*, 188 N.W.2d 405 (N.D. 1971)).

*State v. Riggin*, 2021 ND 87, ¶¶ 28-29, 959 N.W.2d 855.

[¶45] The Court has upheld delegations only when there are “reasonable guidelines for how the delegated power is to be implemented.” *Id.* at ¶ 30.

[¶46] The delegation of the power in N.D.C.C. § 38-22-03(7) to grant exceptions to any provisions of an entire chapter of the Century Code does not comply with the requirements set forth in *State v. Riggin*, 2021 ND 87, 959 N.W.2d 855. For that reason it violates the principle of separation of powers and is unconstitutional. It should be struck down.

**D. Pre-condemnation survey authorizations cannot limit entitlement to just compensation assessed and paid prior to a physical invasion.**

[¶47] N.D.C.C. § 32-15-06 provides:

**32-15-06. Entry for making surveys.**

In all cases when land is required for public use, the person or corporation, or the person's or corporation's agents, in charge of such use may survey and locate the same, but it must be located in the manner which will be compatible with the greatest public benefit and the least private injury and subject to the provisions of section 32-15-21. Whoever is in charge of such public use may enter upon the land and make examinations, surveys, and maps thereof, and such entry constitutes no claim for relief in favor of the owner of the land except for injuries resulting from negligence, wantonness, or malice.

[¶48] The last sentence of N.D.C.C. § 32-15-06 authorizes a physical invasion which the Supreme Court of North Dakota has ruled is a *per se* taking, and by its own language it prohibits just compensation. “It allows third-part[ies] ... to physically invade a landowner’s property .... Similar to the unconstitutional regulation in *Cedar Point Nursey*, [this statute grants] a right of

access to the landowners' private property. Further, as in *Loretto*, 458 U.S. at 436, [this statute] restricts landowners from having any control over the 'timing, extent, or nature of the invasion.'"

*Nw. Landowners Ass'n v. State*, 2022 ND 150, ¶ 26, 978 N.W.2d 679.

[¶49] The last sentence of N.D.C.C. § 32-15-06 violates the Constitution of North Dakota, Article 1, Section 16 and Amendment V of the United States Constitution as applied to the states through Amendment XIV.

[¶50] N.D.C.C. § 24-05-09 provides:

**24-05-09. Purchase or condemnation of right of way.**

The board of county commissioners of any county of the state, by resolution or order, as part of the cost of constructing, reconstructing, widening, altering, changing, locating, relocating, aligning, realigning, or maintaining, any highway in said county, may purchase, acquire, take over, or, subject to section 32-15-01, condemn, under the right and power of eminent domain, for such county, any and all lands which it deems necessary for the present use, either temporary or permanent, and to provide adequate drainage in the improvement, constructing, reconstructing, widening, altering, changing, locating, relocating, aligning, realigning, or maintaining of any highways in said county, and by the same means it may acquire said lands notwithstanding the fact that the title thereto is vested in the state or any of its subdivisions. Whenever the board of county commissioners determines, by resolution or order, that the public necessity requires the taking of land as aforesaid, it shall cause said lands to be surveyed and described and a plat thereof prepared and recorded in the office of the recorder of the county wherein the same is located. The board of county commissioners, or its duly authorized agents and employees, may enter upon any land for the purpose of making such survey, examination, or test, but in case of damages to the premises the board of county commissioners forthwith shall pay to the owner of said premises the amount of such damages.

[¶51] The last sentence of Section 24-05-09 provides for damages, but authorizes a physical invasion which the Supreme Court of North Dakota has ruled is a *per se* taking, and by its own language it unconstitutionally deprives landowners of their right to *just compensation*. "It allows third-part[ies] ... to physically invade a landowner's property .... Similar to the unconstitutional regulation in *Cedar Point Nursey*, [this statute grants] a right of access to the landowners' private

property. Further, as in *Loretto*, 458 U.S. at 436, [this statute] restricts landowners from having any control over the ‘timing, extent, or nature of the invasion.’” *Nw. Landowners Ass’n v. State*, 2022 ND 150, ¶ 26, 978 N.W.2d 679.

[¶52] The Constitution requires that just compensation be paid before any taking of private property, and a determination and payment of *just compensation* is constitutionally required before this taking can occur. And it is a taking that may result in damages, and art. 1, sec. 16 of the ND Constitution protects against and provides just compensation for property when it is *both* “taken or damaged.” art. 1, sec. 16, ND Const. (emphasis added). Just compensation is not limited to “damages” or claims for “negligence, wantonness, or malice” as these statutes are limited. A landowner must also be given a jury trial for the determination of just compensation unless it is waived, and the just compensation must be for property “taken or damaged.” *Id.*

[¶53] For these reasons the last sentences of both N.D.C.C. §§ 32-15-06 and 24-05-09 are unconstitutional and should be struck down.

## CONCLUSION

[¶54] It is likely this Court will hear numerous arguments from intervenors and the state of North Dakota about opportunities for economic development and the prosperity of North Dakota’s energy industry. Landowners ask only that this Court interpret and apply the law as written in the Century Code and the constitutions. Policy matters are for the legislature to address *within the bounds* of the constitutions. There are paths forward for industry and for development, beginning with the recognition that taking private property for a public use might be allowed, but it must be done openly and by the courts, and never by fiat of the executive. Such power in the hands of the executive is dangerous, and more importantly, it is unconstitutional since we left behind the days of kings.

DATED this 12<sup>th</sup> day of April, 2024.

**DECLARATION OF ATTORNEY  
DERRICK BRAATEN**

[¶1] I am legal counsel for Plaintiff, Northwest Landowners Association (“NWLA”) and make  
this declaration based on personal knowledge.

[¶2] Attached hereto as Exhibit A is a true and correct copy of documents sent to Mike Dresser from Minnkota Power Cooperative with bates numbers NWLA SUPP-001-040.

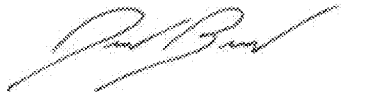

[¶3] Attached hereto as Exhibit B is a true and correct copy of deeds for the property owned by The Swenson Living Trust with bates numbers NWLA SUPP-041-047.

[¶4] Attached hereto as Exhibit C is a true and correct copy of email correspondence and letters sent regarding surveying the property owned by Sandra Short.

[¶5] Attached hereto as Exhibit D is a true and correct copy of NWLA's Fourth Supplemental Responses to State Defendants' First Interrogatories and Request for Production of Documents to Plaintiff. NWLA has served approximately 4.6 gb of documents upon the parties with its responses to discovery.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 12<sup>th</sup> day of April, 2024 at Bismarck, North Dakota, United States.

October 12, 2023

Micheal Dresser  
2435 Concho Loop  
New Braunfels, TX 78130

Subject: Project Tundra

Dear Mr. Dresser,

Thank you for your support of Minnkota Power Cooperative, Inc. (Minnkota) in our pursuance of Project Tundra, a bold initiative to capture and inject Carbon Dioxide from our Milton R. Young electrical generation facility located in Oliver County, North Dakota. On January 21, 2022, the North Dakota Industrial Commission issued Order No. 31584 in Case No. 29030 approving the amalgamation of the pore space in the Minnkota Center MRYS Broom Creek Storage Facility #1 and Minnkota Center MRYS Deadwood Storage Facility #1 in Oliver County, North Dakota (the "Storage Facility"). The effective date of amalgamation is 7:00 a.m. on February 1, 2022. A copy of Order No. 31584 and Order No. 31587 (together referred to as the "Order") are enclosed herewith.

The Order incorporates by reference that certain Geologic Storage Agreement for the Broom Creek Formation (the "Storage Agreement") which governs certain operations within the Storage Facility. A copy of the Storage Agreement is also enclosed herewith. As set forth in Section 3.1 of the Storage Agreement, "[a]ny Pore Space Owner in the Storage Facility who owns a Pore Space Interest in the Storage Reservoir that is not leased for the purposes of this [Storage Agreement] and during the term hereof, shall be treated as if it were subject to the Surface Use and Pore Space Lease attached hereto as Exhibit 'D'." Our records indicate that you have not executed a lease covering your pore space interests located within the Storage Facility.

Minnkota Power Cooperative ("Minnkota"), as the initial operator of the Storage Facility, is in the process of exercising its option to lease certain pore space interests within the Storage Facility. Since Minnkota has not obtained an option to lease your pore space interests, such interests must be treated as though subject to the Surface Use and Pore Space Lease attached.

Accordingly, please find enclosed herewith a Pore Space Lease and Lease Payment Calculation along with a check in the amount of \$4000.00 which covers the Initial Term Payment under Section 5(a) of the Lease. Upon commencement of Operations and during the Operational Term (as such terms are defined in the Lease), Minnkota shall pay you an annual royalty equal to the greater of \$100.00 or your proportionate share of fifty cents (\$0.50) per metric ton of carbon dioxide injected into the Storage Facility in accordance with Section 5(b) of the Lease. In the event any Facilities (as such term is defined in the Lease) are constructed or installed on your property, Minnkota shall pay you an Occupancy Fee in accordance with Section 5(c) of the Lease.

Enclosed are the Lease Payment Calculation document, Pore Space Lease documents and a W9 form for tax purposes.

Should you have any immediate questions or concerns, please contact me by phone or text at 218-230-4971 or by email at [cbeckel@minnkota.com](mailto:cbeckel@minnkota.com).

Sincerely,

A handwritten signature in black ink, appearing to read "C. Beckel".

# PROJECT TUNDRA

## Landowner FAQs

For more information,  
visit [ProjectTundraND.com](http://ProjectTundraND.com)

### What is Project Tundra?

Project Tundra is a bold initiative to retrofit the Milton R. Young Station with carbon dioxide (CO<sub>2</sub>) capture technology. More than 90% of the CO<sub>2</sub> emissions from the Young Station's Unit 2 generator would be captured and safely stored more than a mile underground. North Dakota's geology is ideal for permanent CO<sub>2</sub> storage and if Project Tundra moves forward, the state would be a world leader in the development of next-generation energy technologies.

### Are regulations in place for CO<sub>2</sub> storage?

Yes, strict state and federal regulations are in place for CO<sub>2</sub> storage. The regulatory framework covers carbon capture and transport, storage property rights, and long-term monitoring of the stored CO<sub>2</sub>. A wide array of monitoring technologies will be used to track CO<sub>2</sub> movement in the subsurface, including down-hole and surface CO<sub>2</sub> sensors.

### Is there enough space to store CO<sub>2</sub>?

Yes, even at the most conservative estimates, scientists and geologists believe the available storage capacity far exceeds what is needed to store the predicted amount of CO<sub>2</sub>.

### Can CO<sub>2</sub> storage cause earthquakes?

North Dakota's stable geology makes the likelihood of earthquakes very remote. CO<sub>2</sub> storage projects around the world have not reported significant changes in seismic activity. Advanced seismic testing has not shown earthquake-related risks.

### Can CO<sub>2</sub> leak out of the storage zone?

There is very high confidence that all stored CO<sub>2</sub> will remain permanently trapped in the selected storage zones. The CO<sub>2</sub> will be stored more than a mile underground in the same deep rock layers that currently hold water that is saltier than that in the ocean. The saltwater already in the storage site has stayed in place for millions of years and is held there by several layers of sealing rock called cap rocks.

### Will CO<sub>2</sub> storage affect my drinking water?

No, fresh water aquifers are located nearly a mile from targeted CO<sub>2</sub> storage zones. Thick, dense layers of cap rock separate the CO<sub>2</sub> from the fresh water aquifers and prevent it from leaking.

## Has testing been conducted on CO<sub>2</sub> storage?

There are multiple active commercial CO<sub>2</sub> storage projects around the world that have proven the effectiveness and safety of the technology. Testing has been conducted at the proposed site for CO<sub>2</sub> storage near the Milton R. Young Station. The testing included drilling, sampling and data collection, as well as geophysical survey work using seismic technology.

## Will storing CO<sub>2</sub> prevent me from harvesting other minerals, such as oil?

No, the CO<sub>2</sub> injected for dedicated permanent storage goes into layers that do not contain harvestable minerals, such as oil, and do not commingle with oil-bearing layers. Established state regulations provide for oil/mineral exploration near a dedicated permanent storage zone while keeping the CO<sub>2</sub> securely in place.

## How do you measure the amount of CO<sub>2</sub> injected?

Both the state of North Dakota and the Environmental Protection Agency (EPA) require an annual reporting of CO<sub>2</sub> injected for permanent storage (called monitoring, reporting and verification or MRV). Gauges at the well (called flowmeters) measure the amount of CO<sub>2</sub> being injected. Calculations translate the gauge data in metric tons of CO<sub>2</sub> for reporting.

## What happens to the CO<sub>2</sub> when it is injected into the storage zone?

CO<sub>2</sub> is injected as a dense fluid that slowly spreads out from the injection point (see figure). Since the space between the rock grains is already filled with water, the injected CO<sub>2</sub> encounters resistance to flow. Once injection stops, outward flow of CO<sub>2</sub> slows as the pressure from the injection dissipates. Eventually, the CO<sub>2</sub> combines with elements of water and forms solids that become part of the rock. Several deep subsurface monitoring techniques will track the CO<sub>2</sub> to determine where it goes. A nearby monitoring well will test for signs of approaching CO<sub>2</sub>.

**CO<sub>2</sub> Storage Zone.** CO<sub>2</sub> is injected at two points, shown in red. It floats up and is pushed away from the injection point, becoming less concentrated as it spreads. Lavender shows the outer boundary of the CO<sub>2</sub>.

*Simplified surface terms (modified from DMR) regarding ND permit requirements (Connors and others, 2020)*

## DURING THE CO<sub>2</sub> INJECTION PHASE:

## AFTER THE CO<sub>2</sub> INJECTION PHASE HAS ENDED:

### DEEP UNDERGROUND MONITORING

Monitor to ensure that the CO<sub>2</sub> remains securely stored in the storage zone

### AT/NEAR SURFACE MONITORING

Monitor environmental conditions to assure no effects from CCUS

BEFORE THE INDUSTRIAL COMMISSION  
OF THE STATE OF NORTH DAKOTA

CASE NO. 29033  
ORDER NO. 31587

IN THE MATTER OF A HEARING CALLED ON  
A MOTION OF THE COMMISSION TO  
CONSIDER THE APPLICATION OF MINNKOTA  
POWER COOPERATIVE, INC. TO CONSIDER  
THE AMALGAMATION OF THE STORAGE  
RESERVOIR PORE SPACE, IN WHICH THE  
COMMISSION MAY REQUIRE THAT THE  
PORE SPACE OWNED BY NONCONSENTING  
OWNERS BE INCLUDED IN THE GEOLOGIC  
STORAGE FACILITY AND SUBJECT TO  
GEOLOGIC STORAGE, AS REQUIRED TO  
OPERATE THE MINNKOTA POWER  
COOPERATIVE, INC. STORAGE FACILITY  
LOCATED IN SECTIONS 35 AND 36, T.142N.,  
R.84W., SECTIONS 19, 20, 21, 22, 26, 27, 28, 29,  
30, 31, 32, 33, 34 AND 35, T.142N., R.83W.,  
SECTIONS 1, 2, 12 AND 13, T.141N., R.84W.,  
SECTIONS 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 14, 15,  
16, 17, 18, 19, 20 AND 21, T.141N., R.83W.,  
OLIVER COUNTY, ND IN THE DEADWOOD  
FORMATION, PURSUANT TO NDCC SECTION  
38-22-10.

ORDER OF THE COMMISSION

THE COMMISSION FINDS:

- (1) This cause came on for hearing at 9:00 a.m. on the 2nd day of November, 2021.
- (2) Case No. 29033 is an application by Minnkota Power Cooperative, Inc. (Minnkota) for an order of the Commission determining the amalgamation of storage reservoir pore space, pursuant to a Geologic Storage Agreement for use of pore space falling within portions of Sections 35 and 36, Township 142 North, Range 84 West, Sections 19, 20, 21, 22, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 142 North, Range 83 West, Sections 1, 2, 12, and 13, Township 141 North, Range 84 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 14, 15, 16, 17, 18, 19, 20, and 21, Township 141 North, Range 83 West, Oliver County, North Dakota in the Deadwood Formation, has been signed, ratified, or approved by owners of interest owning at least sixty percent of the pore space interest within said lands, pursuant to North Dakota Century Code (NDCC) 38-22-10.
- (3) Case Nos. 29029, 29030, 29031, 29032, 29033, and 29034 were combined for the purposes of hearing.

(4) Case No. 29029, also on today's docket, is an application by Minnkota for an order authorizing geologic storage of carbon dioxide from the Milton R. Young Station in the amalgamated pore space of the Broom Creek Formation in portions of Sections 35 and 36, Township 142 North, Range 84 West, Sections 19, 20, 21, 22, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 142 North, Range 83 West, Sections 1, 2, 12, and 13, Township 141 North, Range 84 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 14, 15, 16, 17, 18, 19, 20, and 21, Township 141 North, Range 83 West, Oliver County, North Dakota, pursuant to North Dakota Administrative Code (NDAC) Chapter 43-05-01.

(5) Case No. 29030, also on today's docket, is an application filed with the Commission by Minnkota for an order of the Commission determining the amalgamation of storage reservoir pore space, pursuant to a Geologic Storage Agreement for use of pore space falling within portions of Sections 35 and 36, Township 142 North, Range 84 West, Sections 19, 20, 21, 22, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 142 North, Range 83 West, Sections 1, 2, 12, and 13, Township 141 North, Range 84 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 14, 15, 16, 17, 18, 19, 20, and 21, Township 141 North, Range 83 West, Oliver County, North Dakota in the Broom Creek Formation, has been signed, ratified, or approved by owners of interest owning at least sixty percent of the pore space interest within said lands pursuant to NDCC 38-22-10.

(6) Case No. 29031, also on today's docket, is a motion of the Commission to determine the amount of financial responsibility for the geologic storage of carbon dioxide from the Milton R. Young Station located in portions of Sections 35 and 36, Township 142 North, Range 84 West, Sections 19, 20, 21, 22, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 142 North, Range 83 West, Sections 1, 2, 12, and 13, Township 141 North, Range 84 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 14, 15, 16, 17, 18, 19, 20, and 21, Township 141 North, Range 83 West, Oliver County, North Dakota in the Broom Creek Formation, pursuant to NDAC Section 43-05-01-09.1.

(7) Case No. 29032, also on today's docket, is an application by Minnkota for an order authorizing geologic storage of carbon dioxide from the Milton R. Young Station in the amalgamated pore space of the Deadwood Formation in portions of Sections 35 and 36, Township 142 North, Range 84 West, Sections 19, 20, 21, 22, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 142 North, Range 83 West, Sections 1, 2, 12, and 13, Township 141 North, Range 84 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 14, 15, 16, 17, 18, 19, 20, and 21, Township 141 North, Range 83 West, Oliver County, North Dakota, pursuant to NDAC Chapter 43-05-01.

(8) Case No. 29034, also on today's docket, is a motion of the Commission to determine the amount of financial responsibility for the geologic storage of carbon dioxide from the Milton R. Young Station located in portions of Sections 35 and 36, Township 142 North, Range 84 West, Sections 19, 20, 21, 22, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 142 North, Range 83 West, Sections 1, 2, 12, and 13, Township 141 North, Range 84 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 14, 15, 16, 17, 18, 19, 20, and 21, Township 141 North, Range 83 West, Oliver County, North Dakota in the Deadwood Formation, pursuant to NDAC Section 43-05-01-09.1.

(9) The record in these matters was left open to receive additional information from Minnkota. Such information was received on November 16, December 8 and December 10, 2021, and the record was closed.

(10) Pursuant to NDCC Section 38-22-06 and NDAC Section 43-05-01-08: The notice of filing of the application and petition and the time and place of hearing thereof was given, and that at least 45 days prior to the hearing, Minnkota, as the applicant, did give notice of the time and place of said hearing and the Commission has accepted the notice as adequate, and that the applicant did, at least 45 days prior to the hearing, file with the Commission engineering, geological and other technical exhibits to be used and which were used at said hearing, and that the notice so given did specify that such material was filed with the Commission; that due public notice having been given, as required by law, the Commission has jurisdiction of this cause and the subject matter.

(11) The Commission gave at least a thirty-day public notice and comment period for the draft storage facility permit and issued all notices using methods required to all entities under NDCC Section 38-22-06 and NDAC Section 43-05-01-08. Publication was made September 29, 2021, and the comment period for written comments ended at 5:00 PM CDT November 1, 2021. The hearing was open to the public to appear and provide comments.

(12) Order No. 31586 entered in Case No. 29032 created the Minnkota Center MRYS Deadwood Storage Facility #1.

(13) The plan for amalgamation proposed by Minnkota includes a Geologic Storage Agreement for the Deadwood Formation for certain lands in Oliver County, North Dakota.

(14) The area proposed to be included within the amalgamation area of the storage facility is as follows:

TOWNSHIP 142 NORTH, RANGE 84 WEST

THE S/2 SE/4 OF SECTION 35, AND THE S/2 OF SECTION 36,

TOWNSHIP 142 NORTH, RANGE 83 WEST

ALL OF SECTIONS 28, 29, 31, 32, 33 AND 34, THE SE/4 SE/4 OF SECTION 19, THE SE/4 AND S/2 SW/4 OF SECTION 20, THE S/2 AND S/2 N/2 OF SECTION 21, THE SW/4 NW/4, W/2 SW/4, AND SE/4 SW/4 OF SECTION 22, THE SW/4 AND SW/4 SE/4 OF SECTION 26, THE W/2, SE/4, AND W/2 NE/4 OF SECTION 27, THE E/2, E/2 SW/4, AND SE/4 NW/4 OF SECTION 30, AND THE W/2, NE/4, AND W/2 SE/4 OF SECTION 35,

TOWNSHIP 141 NORTH, RANGE 84 WEST

ALL OF SECTIONS 1 AND 12, THE E/2, E/2 SW/4, AND E/2 E/2 NW/4 OF SECTION 2, AND THE NE/4, E/2 NW/4, AND NE/4 SE/4 OF SECTION 13,

TOWNSHIP 141 NORTH, RANGE 83 WEST

ALL OF SECTIONS 2, 3, 4, 5, 6, 7, 8, 9, 10, 16, 17 AND 18, THE W/2 SW/4 OF SECTION 1, THE W/2, NE/4, W/2 SE/4, AND NE/4 SE/4 OF SECTION 11, THE W/2 NW/4, NE/4 NW/4, AND NW/4 SW/4 OF SECTION 12, THE N/2 NW/4, SE/4 NW/4, NW/4 NE/4, W/2 SW/4 NW/4, AND NE/4 SW/4 NW/4 OF SECTION 14, THE N/2 N/2, SE/4 NE/4, AND SW/4 NW/4 OF SECTION 15, THE N/2 N/2, SE/4 NW/4, AND SE/4 NE/4 OF SECTION 19, THE N/2 OF SECTION 20, AND THE W/2, W/2 NE/4, AND NW/4 SE/4 OF SECTION 21.

(15) Minnkota is proposing a one-phase formula for the calculation of tract participation, allocating 100% to surface acres.

“Surface acres” means the number of acres within each respective tract.

(16) Pursuant to NDCC Section 47-31-03, title to pore space in all strata underlying surface lands and waters is vested in the owner of the overlying surface estate.

No pore space has been leased out by pore space owners prior to this agreement. Minnkota did not find instances of pore space being severed from the surface estate that was allowed prior to April 9, 2009.

(17) A one-phase formula based on surface acres will fairly compensate owners farther away from the injection well that will eventually have pore space occupied by carbon dioxide. Minnkota testified to a lack of history matched data for carbon dioxide saturation rates in the Deadwood Formation for a pore volume allocation methodology that would fairly apportion use of pore space. Minnkota owns the pore space where the injection wells are to be located. Minnkota indicates that the majority of carbon dioxide stored will remain in close proximity to the well bores for an extensive period of time, making Minnkota the primary beneficiary of a pore volume formula. Computational modeling performed by Minnkota and the Commission supports Minnkota’s assessment.

The Commission believes capillary trapping, relative permeability hysteresis, and a lack of local area history matching data from injection of carbon dioxide into the saline Deadwood Formation reservoir provides reasonable doubt for the utility of a pore volume formula. The Commission believes the 100% weighting on surface acreage is acceptable and that the one-phase formula is protective of correlative rights and should not be modified.

(18) Minnkota delineated the tracts to be utilized through computational modeling based on site characterization as required by NDAC Section 43-05-01-05.1. The data acquired during site characterization as well as the reservoir model and all inputs were provided to the Commission. The Commission evaluated the storage reservoir utilizing data acquired during site characterization and other publicly available data before performing computational simulation. The Commission concludes that Minnkota’s inclusion of pore space that will be affected by the project has been adequately delineated.

Minnkota proposes amalgamating the same reservoir pore space for the Deadwood reservoir as proposed in Case No. 29030 for the Broom Creek reservoir. A total of 4 million metric tons per year for 15 years, followed by 3.5 million metric tons per year for the final 5 years are planned to

be injected into the Deadwood and Broom Creek reservoirs. Simulation inputs considered a maximum injection of 4 million metric tons per year for 15 years and 3.5 million metric tons for the final 5 years into the Broom Creek, and 1.17 million metric tons per year into the Deadwood for the life of the storage facility. Simulation outputs for the Deadwood utilize less pore space than the Broom Creek and fall within the same defined storage facility boundary. There is significant overlap in surface ownership if the Deadwood were to be fully utilized. There is the potential that the Deadwood will be utilized to a lesser extent than proposed or not at all, making an alternate land proposal from the Broom Creek not feasible at this time. This finding is to be re-evaluated at the 5-year review.

(19) The Geologic Storage Agreement contains fair, reasonable, and equitable provisions for:

- (a) The amalgamation of pore space interests for the storage of carbon dioxide within said pore spaces of the storage reservoir.
- (b) The division of interest or formula for the apportionment and allocation of carbon dioxide to be stored.
- (c) The measurement of quantity of carbon dioxide injected into the pore spaces underlying the delineated storage facility.
- (d) The enlargement or reduction of the delineation of pore space utilized for geologic storage of carbon dioxide which may be warranted by review pursuant to NDAC Section 43-05-01-05.1(4).
- (e) The time when the Geologic Storage Agreement shall become effective.
- (f) The time when, conditions under, and the method by which the Geologic Storage Agreement shall be or may be terminated and its affairs wound up.

(20) Such amalgamation of the storage reservoir's pore space and the Geologic Storage Agreement are in the public interest, and require procedures that promote, in a manner fair to all interested, cooperative management, thereby ensuring the maximum use of natural resources, and that said Geologic Storage Agreement, as contained therein, appears to conform and comply with the provisions and requirements of NDCC Section 38-22-08.

(21) NDCC Section 38-22-10 provides that the Commission may require that the pore space owned by nonconsenting owners be included in a storage facility and subject to geological storage, if a storage operator does not obtain the consent of all persons who own the storage reservoir's pore space.

(22) Pursuant to NDAC Section 43-05-01-08(2)(e), the required notice given by Minnkota included a statement that amalgamation of the storage reservoir's pore space is required to operate the storage facility, that the Commission may require that the pore space owned by nonconsenting owners be included in the storage facility and subject to geologic storage, and that the amalgamation of pore space will be considered at the hearing.

(23) The approval of this application is in the public interest by promoting the policy stated in NDCC Section 38-22-01.

IT IS THEREFORE ORDERED:

(1) The amalgamation of pore space in the Minnkota Center MRYS Deadwood Storage Facility #1 in Oliver County, North Dakota, is hereby approved.

(2) The Geologic Storage Agreement for the Deadwood Formation is hereby incorporated in this order by reference, and shall apply to the same extent and with the same force and effect as if actually set forth herein; that said Geologic Storage Agreement for the amalgamated pore space therein is approved, all to the same extent and with the same force and effect as if set forth herein in its entirety; that if said Geologic Storage Agreement does not in all respects conform to and comply with the provisions and requirements under NDCC Chapter 38-22, the statute shall prevail.

(3) The amalgamated pore space is hereby defined as the following described tracts of land in Oliver County, North Dakota:

TOWNSHIP 142 NORTH, RANGE 84 WEST

THE S/2 SE/4 OF SECTION 35, AND THE S/2 OF SECTION 36,

TOWNSHIP 142 NORTH, RANGE 83 WEST

ALL OF SECTIONS 28, 29, 31, 32, 33 AND 34, THE SE/4 SE/4 OF SECTION 19, THE SE/4 AND S/2 SW/4 OF SECTION 20, THE S/2 AND S/2 N/2 OF SECTION 21, THE SW/4 NW/4, W/2 SW/4, AND SE/4 SW/4 OF SECTION 22, THE SW/4 AND SW/4 SE/4 OF SECTION 26, THE W/2, SE/4, AND W/2 NE/4 OF SECTION 27, THE E/2, E/2 SW/4, AND SE/4 NW/4 OF SECTION 30, AND THE W/2, NE/4, AND W/2 SE/4 OF SECTION 35,

TOWNSHIP 141 NORTH, RANGE 84 WEST

ALL OF SECTIONS 1 AND 12, THE E/2, E/2 SW/4, AND E/2 E/2 NW/4 OF SECTION 2, AND THE NE/4, E/2 NW/4, AND NE/4 SE/4 OF SECTION 13,

TOWNSHIP 141 NORTH, RANGE 83 WEST

ALL OF SECTIONS 2, 3, 4, 5, 6, 7, 8, 9, 10, 16, 17 AND 18, THE W/2 SW/4 OF SECTION 1, THE W/2, NE/4, W/2 SE/4, AND NE/4 SE/4 OF SECTION 11, THE W/2 NW/4, NE/4 NW/4, AND NW/4 SW/4 OF SECTION 12, THE N/2 NW/4, SE/4 NW/4, NW/4 NE/4, W/2 SW/4 NW/4, AND NE/4 SW/4 NW/4 OF SECTION 14, THE N/2 N/2, SE/4 NE/4, AND SW/4 NW/4 OF SECTION 15, THE N/2 N/2, SE/4 NW/4, AND SE/4 NE/4 OF SECTION 19, THE N/2 OF SECTION 20, AND THE W/2, W/2 NE/4, AND NW/4 SE/4 OF SECTION 21.

(4) The storage reservoir containing the amalgamated pore space is hereby defined as the stratigraphic interval from below the top of the Icebox Formation, found at a depth of 9,161 feet below the Kelly Bushing, to above the base of the Deadwood B Member, found at a depth of 9,655 feet below the Kelly Bushing, as identified by the Array Induction Gamma log run in the J-ROC1 #1 well (File No. 37672), located in the SW/4 NW/4 of Section 4, Township 141 North, Range 83 West, Oliver County, North Dakota.

(5) The injection of carbon dioxide into the amalgamated pore space by the operator for the purpose of storage of carbon dioxide is authorized through the proposed McCall #1 well, to be located 1,978 feet from the north line and 257 feet from the west line of Section 4, Township 141 North, Range 83 West, Oliver County, North Dakota; provided, however, that prior to the commencement of such injection the operator shall obtain such permits as are required under NDAC Chapter 43-05-01.

(6) The termination of the amalgamation of lands hereinbefore described in paragraph (3) above shall be as prescribed in the Geologic Storage Agreement or at project completion as provided by NDCC Section 38-22-17; and that notwithstanding any provisions to the contrary, in the event that the operator fails to commence or ceases storage operations, the Commission, upon its own motion, after notice and hearing, may consider rescinding this order, or any portion thereof, so that this order of amalgamation will terminate and cease to exist.

(7) The effective date of the amalgamation of pore space in the lands hereinbefore described in paragraph (3) above shall be at 7:00 a.m. on the first day of February, 2021.

(8) No well, other than those proposed in Order No. 31586, shall be hereafter drilled and completed in or injected into in the amalgamated pore space, as defined herein, without order of the Commission after due notice and hearing.

(9) This order shall be reviewed when a review of Order No. 31586 is conducted.

(10) This order shall cover all of the amalgamated pore space, as defined herein, and continues in full force and effect until further order of the Commission.

Dated this 21st day of January, 2022.

INDUSTRIAL COMMISSION  
STATE OF NORTH DAKOTA

/s/ Doug Burgum, Governor

/s/ Wayne Stenehjem, Attorney General

/s/ Doug Goehring, Agriculture Commissioner

## **EXHIBIT D**

**Surface Use And Pore Space Lease  
Attached to and made part of the Storage Agreement  
Tundra Deadwood  
Oliver County, North Dakota**

### **SURFACE USE AND PORE SPACE LEASE**

THIS SURFACE USE AND PORE SPACE LEASE ("**Lease**") is made, entered into, and effective as of the \_\_\_\_\_ day of \_\_\_\_\_, 2023 ("**Effective Date**") by and between \_\_\_\_\_, whose address is \_\_\_\_\_ (whether one or more, "**Lessor**"), and Minnkota Power Cooperative, Inc., a Minnesota cooperative association, whose address is \_\_\_\_\_ (whether one or more, "**Lessee**"). Lessor and Lessee are sometimes referred to in this Lease individually as a "**Party**" and collectively as the "**Parties**."

**1. DEFINITIONS.** The following terms shall have the following meanings in this Lease:

"**Carbon Dioxide**" means carbon dioxide in gaseous, liquid, or supercritical fluid state together with incidental associated substances derived from the source materials, capture process and any substances added or used to enable or improve the injection process.

"**Commencement of Operations**" means the date on which Carbon Dioxide is first injected into a Reservoir for commercial operations under this Lease, provided that the performance of test injections and related activities shall not be deemed Commencement of Operations.

"**Commission**" means the North Dakota Industrial Commission.

"**Completion Notice**" means a certificate of project completion issued to Lessee by the Commission pursuant to Chapter 38-22 of the North Dakota Century Code.

"**Environmental Attributes**" means any and all credits, benefits, emissions reductions, offsets, and allowances, howsoever entitled, attributable to the Operations, including any avoided emissions and the reporting rights related to these avoided emissions, such as 26 U.S.C. §45Q Tax Credits.

"**Environmental Incentives**" means any and all credits, rebates, subsidies, payments or other incentives that relate to the use of technology incorporated into the Operations, environmental benefits of Operations, or other similar programs available from any regulated entity or any Governmental Authority.

"**Facilities**" means all facilities, structures, improvements, fixtures, equipment, and any other personal property at any time acquired or constructed by or for Lessee that are necessary or desirable in connection with any use of Reservoirs and their Formations or Operations, including without limitation wells, pipelines, roads, utilities, metering or monitoring equipment, and buildings.

"**Financing Parties**" means person or persons providing construction or permanent financing to Lessee in connection with construction, ownership, operation and maintenance of Facilities or Operations, including financial institutions, leasing companies, institutions, tax equity partners, joint venture partners and/or private lenders.

"**Formation**" means the geological formation of which any Reservoir is a part.

"**Hazardous Substance**" means any chemical, waste or other substances, expressly excluding Carbon Dioxide and Non-Native Carbon Dioxide, (a) which now or hereafter becomes defined as or included in the definition of "hazardous substances," "hazardous wastes," "hazardous materials," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollutions," "pollutants," "regulated substances," or words of similar import under any law pertaining

to environment, health, safety or welfare, (b) which is declared to be hazardous, toxic or polluting by any Governmental Authority, (c) exposure to which now or hereafter prohibited, limited or regulated by any Governmental Authority, (d) the storage, use, handling, disposal or release of which is restricted or regulated by any Governmental Authority, or (e) for which remediation or cleanup is required by any Governmental Authority.

**"Leased Premises"** means the surface and subsurface of the land, excluding mineral rights, described in Exhibit A of this Lease.

**"Native Oil and Gas"** means all oil, natural gas, and other hydrocarbons present in and under the Leased Premises and not injected by Lessor, Lessee or any third party.

**"Non-Native Carbon Dioxide"** means Carbon Dioxide that is not naturally occurring in the Reservoir together with incidental associated substances, fluids, minerals, oil, and gas, excluding that which, independent of Operations, originates from an accumulation meeting the definition of a Pool. All Non-Native Carbon Dioxide will be considered personal property of the Lessee and its successor and assigns under this Agreement.

**"Operating Year"** means the calendar year or portion of the calendar year following Commencement of Operations during which Operations occur.

**"Operations"** means the transportation and injection of Carbon Dioxide into a Reservoir after Commencement of Operations, and any withdrawal of this Carbon Dioxide, as well as the withdrawal of Non-Native Carbon Dioxide, for sale or disposal in accordance with applicable law.

**"Option Money"** means 20 percent of the Initial Term Payment (as such term is defined in that certain Option to Lease between Lessor and Lessee with respect to the Leased Premises).

**"Pool"** means an underground Reservoir containing a common accumulation of Native Oil and Gas that is economically recoverable. A zone of a structure that is completely separated from any other zone in the same structure is a Pool.

**"Pore Space"** means a cavity or void, whether natural or artificially created, in a Reservoir.

**"Related Person"** means any member, partner, principal, officer, director, shareholder, predecessor-in-interest, successor-in-interest, employee, agent, heir, representative, contractor, lessee, sublessee, licensee, invitee, permittee of a Party, Financing Parties or any other person or entity that has obtained or in future obtains rights or interests from, under or through a Party (excluding the other Party itself).

**"Reservoir"** means any subsurface stratum, sand, formation, aquifer, cavity or void, whether natural or artificially created, wholly or partially within the Leased Premises, suitable for the storage or sequestration of carbon dioxide or other gaseous substances.

**"Storage Fee"** means Lessor's proportionate share of [fifty and 0/100<sup>th</sup>] cents (\$0.[50]) per metric ton of Carbon Dioxide ("Storage Rate") as determined by the Lessee's last meter before injection as part of Operations. The Storage Rate was determined based on an agreed commercial value of the lease of the Leased Premises as of the Effective Date. If there is a subsequent change in the commercial value of the lease of the Leased Premises because of a change in Applicable Law resulting in a change in, or Lessee's qualification for, the \$85 per metric ton IRC section 45Q tax credit (including for inflation adjustments or changes in Applicable Law), the Storage Rate shall be proportionately changed based on the ratio of the Storage Rate on the Effective Date (\$0.[50]) and \$85. (effective as of the effective date of the change in the IRC section 45Q tax credit amount) The Storage Fee shall be: (i) calculated separately for each Amalgamated Unit as created and established by the Commission that includes any portion of the Leased Premises; (ii) limited to the Carbon Dioxide injected in said Amalgamated Unit in the immediately preceding Operating Year; and (iii) based on the Lessor's proportionate per net acre share of said unit. For avoidance of doubt, the Lessor shall receive a separate Storage Fee for each Amalgamated Unit created and established by the Commission that includes any portion of the Leased Premises on a net acre basis within the Lessor's interest being the numerator and the acres in the Amalgamated Unit being the denominator.

**"Tax Credits"** means any and all (a) investment tax credits, (b) production tax credits, (c) credits

under 26 U.S.C. §45Q credits, and (d) similar tax credits or grants under federal, state or local law relating to construction, ownership or Operations

**2. LEASE RIGHTS.** In consideration of the compensation, covenants, agreements, and conditions set forth in this Lease, Lessor grants, demises, leases and lets to Lessee the exclusive right to use all Pore Space, Reservoirs and their Formations in the Leased Premises for any purpose not previously granted or reserved by an instrument of record related to the capture, injection, storage, sequestration, sale, withdrawal or disposal of Carbon Dioxide, Non-Native Carbon Dioxide and incidental associated substances, fluids, and minerals, provided that Lessee shall have no right to use potable water from within the Leased Premises in Operations; together with the following exclusive rights:

(a) to use the Leased Premises for developing, constructing, installing, improving, maintaining, replacing, repowering, relocating, removing, abandoning in place, expanding, and operating Facilities;

(b) to lay, maintain, replace, repair, and remove roads on the Leased Premises to allow Lessee, in its sole discretion, to exercise its rights under this Lease; and

(c) to enter upon and use the Leased Premises for the purposes of conducting:

(i) any investigations, studies, surveys, and tests, including without limitation drilling and installing test wells and monitoring wells, seismic testing, and other activities as Lessee deems necessary or desirable to determine the suitability of the Leased Premises for Operations,

(ii) any inspections and monitoring of Reservoirs and Carbon Dioxide as Lessee or any governmental authority deems necessary or desirable during the term of this Lease, and

(iii) any maintenance to the Facilities that Lessee or any governmental authority deems necessary or as required by applicable law.

Lessor also hereby grants and conveys unto Lessee all other and further easements across, over, under and above the Leased Premises as reasonably necessary to provide access to and services reasonably required for Lessee's performance under the Lease. The easements granted hereunder shall run with and burden the Leased Premises for the term of this Lease. Notwithstanding the surface easements granted herein, Lessee shall provide notice to Lessor prior to accessing the surface of the Property, and if such activity requires permit then prior notice shall be in form and not be less than that required by law or rule.

Lessee may exercise its rights under this Lease in conjunction with related operations on other properties near the Leased Premises. Lessee shall have no obligation, express or implied, to begin, prosecute or continue storage operations in, upon or under the Leased Premises, or to store and/or sell or use all or any portion of the gaseous substances stored thereon. The timing, nature, manner and extent of Lessee's operations, if any, under this Lease shall be at the sole discretion of Lessee. All obligations of Lessee are expressed herein, and there shall be no covenants implied under this Lease, it being agreed that all amounts paid hereunder constitute full and adequate consideration for this Lease.

**3. INITIAL TERM.** This Lease shall commence on the Effective Date and shall continue for an initial term of twenty (20) years ("Initial Term") unless sooner terminated in accordance with the terms of this Lease. Lessee may, but is not obligated to, extend the Initial Term for up to four successive five-year periods (each individually an "Extension Period") by paying Lessor \$25.00 per net acre in the Leased Premises per five-year Extension Period (the "Renewal Payment") on or prior to the last day of the Initial Term or expiring five-year Extension Period, as applicable. The Initial Term together with any Extension Periods exercised by Lessee are referred to as the "Primary Term." Beginning in the 19th year of the Initial Term, and each successive Extension Period thereafter, the Renewal Payment in this Section 3 shall each be adjusted for inflation as follows:  $\text{Renewal Payment} = (\text{existing Renewal Payment}) \times (\text{the applicable Cumulative CPI Percentage increase, expressed as a percentage, since the last adjustment, if any}) + (\text{existing Renewal Payment})$ . For illustration only, the CPI in 2023 will be compared to the CPI in 2042 and the amount for the five year Extension Period commencing 2043 through 2048 shall be increased by the percentage difference determined as

follows: Cumulative CPI Percentage = (CPI for 2042 - CPI for 2023) / (CPI for 2023) x (100). Further, for the second Extension Period for years 2049 through 2054, the CPI in 2042 will be compared to the CPI in 2048 and the amount for years 2049 through 2054 will be increased by the percentage difference, determined as follows: Cumulative CPI percentage = (CPI for 2048 - CPI for 2042) / (CPI for 2042) x (100), and so on.

For purposes of this Section 3, CPI means Consumer Price Index published by the Bureau of Labor Statistics of the United States Department of Labor for Urban Wage Earners and Clerical Workers (CPI-W) for the Midwest Region, all items, not seasonally adjusted, reference base period of 1982-84= 100. In the event the Consumer Price Index is converted to a different standard reference base or otherwise revised, the determination of Renewal Payment will be made with the use of such conversion factor, formula or table for converting the Consumer Price Index as may be published by the Bureau of Labor Statistics. If the Consumer Price Index ceases to be published and there is no successor thereto, such other index as Lessor and Lessee may agree upon will be substituted for the Consumer Price Index.

**4. OPERATIONAL TERM.** Upon Commencement of Operations at any time during the Primary Term, this Lease shall continue for so long as any portion of the Leased Premises or Lessee's Facilities are subject to a permit issued by the Commission or under the ownership or control of the State of North Dakota ("Operational Term"); *provided, however*, that all of Lessee's obligations under this Lease shall terminate upon issuance of a Completion Notice, except for payment of the Final Royalty Payment (as applicable), and Final Occupancy Fee (as applicable). If Commencement of Operations does not occur during the Primary Term, this Lease shall terminate, and Lessee shall execute a document evidencing termination of this Lease in recordable form and shall record it in the official records of the county in which the Leased Premises is located.

**5. COMPENSATION.**

(a) **Initial Term Payment.** Lessee shall pay to Lessor the greater of \$50.00 per net acre in the Leased Premises ("Initial Term Payment") or a one-time flat \$500.00 payment, the receipt and sufficiency of which are hereby acknowledged.

(b) **Royalty.** During the Operational Term, Lessee shall annually on or before May 31<sup>st</sup> pay to Lessor a royalty for the portions of the Leased Premises in an Amalgamated Unit, equal to the greater of a flat \$100.00 payment or the Storage Fee(s) for the immediately preceding Operating Year. During the Operational Term, in addition to the forgoing royalty payment, Lessee shall annually on or before May 31<sup>st</sup> pay to the Lessor a \$5.00 per acre payment for portions of the Leased Premises not in an Amalgamated Unit. For the Operating Year in which Lessee provides Lessor with a Completion Notice, Lessee shall pay a pro rata share of the Storage Fee(s) ("Final Royalty Payment"), as applicable, and said payment shall be made within sixty days after the date the Completion Notice was issued.

(c) **Occupancy Fee.** Within sixty days of the anniversary of the Effective Date after which any Facilities are installed or used, Lessee shall pay Lessor, as applicable, a one-time fee of (i) \$3,000.00 per net surface acre of the Leased Premises occupied by Facilities (excluding pipelines), and (ii) \$1.50 for each linear foot of pipeline in place on the Leased Premises. For the year in which Lessee provides Lessor with a Completion Notice, Lessee shall pay any fees owed pursuant to this provision ("Final Occupancy Fee") within sixty days after the date the Completion Notice was issued.

Lessor and Lessee agree that the Lease shall continue as specified herein even in the absence of Operations and the payment of royalties.

**6. AMALGAMATION.** (a) Lessee, in its sole discretion, shall have the right and power, at any time (including both before and after Commencement of Operations), to pool, unitize, or amalgamate any Reservoir or portion of a Reservoir with any other lands or interests into which that Reservoir extends and document such unit in accordance with applicable law or agency order ("Amalgamated Unit" or "Amalgamated Units"). Amalgamated Units shall be of such shape and dimensions as Lessee may elect and as are approved by the Commission. Amalgamated Units may include, but are not required to include, land upon which injection or extraction wells have been completed or upon which the injection and/or withdrawal of Carbon Dioxide and Non-Native Carbon Dioxide has commenced prior to the effective date

of amalgamation. In exercising its amalgamation rights under this Lease and if required by law, Lessee shall record or cause to be recorded a copy of the Commission's amalgamation order or other notice thereof in the county in which the Amalgamated Unit. Amalgamating in one or more instances shall, if approved by the Commission, not exhaust the rights of Lessee to amalgamate Reservoirs or portions of Reservoirs into other Amalgamated Units, and Lessee shall have the recurring right to revise any Amalgamated Unit formed under this Lease by expansion or contraction or both. Lessee may dissolve any Amalgamated Unit at any time and document such dissolution by recording an instrument in accordance with applicable law or agency order. Lessee shall have the right to negotiate, on behalf of and as agent for Lessor, any unit agreements and operating agreements with respect to the operation of any Amalgamated Units formed under this Lease.

(b) The injection and/or withdrawal of Carbon Dioxide and Non-Native Carbon Dioxide into a Reservoir from any property within a Amalgamated Unit that includes the Leased Premises shall be treated as if Operations were occurring on the Leased Premises, except that the royalty payable to Lessor under Section 5(b) of this Lease shall be Lessor's per net acre proportionate share of the total Storage Fee for the preceding Operating year's injection of Carbon Dioxide into the Amalgamated Unit.

**7. ENVIRONMENTAL INCENTIVES.** Unless otherwise specified, Lessee is the owner of all Environmental Attributes and Environmental Incentives and is entitled to the benefit of all Tax Credits or any other attributes of ownership of the Facilities and Operations. Lessor shall cooperate with Lessee in obtaining, securing and transferring all Environmental Attributes and Environmental Incentives and the benefit of all Tax Credits. Lessor shall not be obligated to incur any out-of-pocket costs or expenses in connection with such actions unless reimbursed by Lessee. If any Environmental Incentives are paid directly to Lessor, Lessor shall immediately pay such amounts over to Lessee.

**8. SURRENDER OF LEASED PREMISES.** Lessee shall have the unilateral right at any time and from time to time to execute and deliver to Lessor a written notice of surrender and/or release covering all or any part of the Leased Premises for which the subsurface pore space is not being utilized for storage as set forth herein, and upon delivery of such surrender and/or release to Lessor this Lease shall terminate as to such lands, and Lessee shall be released from all further obligations and duties as to the lands so surrendered and/or released, including, without limitation, any obligation to make payments provided for herein, except obligations accrued as of the date of the surrender and/or release.

**9. FACILITIES.**

- (a) Lessee shall in good faith consult with Lessor regarding the location of any Facilities to be constructed on the Leased Premises. The location of the Facilities shall be within the sole discretion of Lessee with consent of the Lessor, not to be unreasonably withheld. The withholding of such consent by the Lessor regarding the location of the Facilities shall be deemed "unreasonable" if the proposed location of the Facility is located more than 500 feet from any currently occupied dwelling or currently used building existing on the Leased Premises as of the Effective Date. Lessee may erect fences around all or part of any above-ground Facilities (excluding roads) to separate Facilities from adjacent Lessor-controlled lands, and shall do so if Lessor so requests. Lessee shall maintain and repair at its expense any roads it constructs on the Leased Premises in reasonably safe and usable condition.
- (b) Lessor and Lessee agree that all Facilities and property of whatever kind and nature constructed, placed or affixed on the rights-of-way, easements, patented or leased lands as part of Lessee's Operations, as against all parties and persons whomsoever (including without limitation any party acquiring interest in the rights-of-way, easements, patented or leased lands or any interest in or lien, claim or encumbrance against any of such Facilities), shall be deemed to be and remain the property of the Lessee, and shall not be considered to be fixtures or a part of the Leased Premises. Lessor waives, to the fullest extent permitted by applicable law, any and all rights it may have under the laws of the State of North Dakota, arising under this Lease, by statute or otherwise to any lien upon, or any right to distress or attachment upon, or any other interest in, any item constituting the Facilities or any other equipment or improvements constructed or acquired by or for Lessee and located on the leased Premises or within any easement area. Each Lessor and

Lessee agree that the Lessee (or the designated assignee of Lessee or Financing Parties) is the tax owner of any such Facilities, structures, improvements, equipment and property of whatever kind and nature and all tax filings and reports will be filed in a manner consistent with this Lease. Facilities shall at all times retain the legal status of personal property as defined under Article 9 of the Uniform Commercial Code. If there is any mortgage or fixture filing against the Premises which could reasonably be construed as prospectively attaching to the Facilities as a fixture of the Premises, Lessor shall provide a disclaimer or release from such lienholder. Lessor, as fee owner, consents to the filing of a disclaimer of the Facilities as a fixture of the Premises in the Oliver County Recorder's Office, or where real estate records of Oliver County are customarily filed.

**10. SURFACE DAMAGE COMPENSATION ACT.** The compensation contemplated and paid to Lessor hereunder is compensation for, among other things, damages sustained by Lessor for the lost use of and access to Lessor's land, pore space (to the extent required under North Dakota law), and any other damages which are contemplated under Ch. 38-11.1 of the North Dakota Century Code (to the extent applicable).

**11. MINERALS, OIL AND GAS.** This Lease is not intended to grant or convey, nor does it grant or convey, any right to or obligation for Lessee to explore for or produce minerals, including Native Oil and Gas, that may exist on the Leased Premises. Lessee shall not engage in any activity or permit its Related Persons to engage in any activity that unreasonably interferes with the Lessor's or third party's (or parties') rights to the granted, leased, or reserved mineral interests. If Lessor owns hydrocarbon mineral interests in the Leased Premises and Lessee should inadvertently discover a Pool in conjunction with its efforts to explore for and develop a Reservoir for Operations, Lessee shall inform Lessor within 60 days of discovery. If Lessee determines that it will not use in conjunction with Operations a well that has encountered a Pool within the Leased Premises, Lessor shall have the option but not the obligation to buy such well at cost, provided Lessor has the ability and assumes all permits and risks and liabilities which are associated with the ownership and operation of an oil, gas or mineral well.

**12. FORCE MAJEURE.** Should Lessee be prevented from complying with any express or implied covenant of this Lease, from utilizing the Leased Premises for underground storage purposes by reason of scarcity of or an inability to obtain or to use equipment or material failure or breakdown of equipment, or by operation of force majeure (including, but not limited to, riot, insurrection, war (declared or not), mobilization, explosion, labor dispute, fire, flood, earthquake, storm, lightning, tsunami, backwater caused by flood, vandalism, act of the public enemy, terrorism, epidemic, pandemic (including COVID-19), civil disturbances, strike, labor disturbances, work slowdown or stoppage, blockades, sabotage, labor or material shortage, national emergency, and the amendment, adoption or repeal of or other change in, or the interpretation or application of, any applicable laws, orders, rules or regulations of governmental authority), then while so prevented, Lessee's obligation to comply with such covenant shall be suspended and this Lease shall be extended while and so long as Lessee is prevented by any such cause from utilizing the property for underground storage purposes and the time while Lessee is so prevented shall not be counted against Lessee, anything in this Lease to the contrary notwithstanding.

**13. DEFAULT/TERMINATION.** Lessor may not terminate the Lease for any reason whatsoever unless a Default Event has occurred and is continuing consistent with the terms of this Section 13. Any Party that fails to perform its responsibilities as listed below shall be deemed to be the "Defaulting Party," the other Party shall be deemed to be the "Non-Defaulting Party," and each event of default shall be a "Default Event." A Default Event is: (a) failure of a Party to pay any amount due and payable under this Lease, other than an amount that is subject to a good faith dispute, within thirty (30) days following receipt of written notice from Non-Defaulting Party of such failure to pay; or (b) a material violation or default of any terms of this Lease by a Party, provided the Non-Defaulting Party provides written notice of violation or default and Defaulting Party fails to substantially cure the violation or default within sixty (60) days after receipt of said notice to cure such violations or defaults. Parties acknowledge that in connection with any construction or long-term financing or other credit support provided to Lessee or its affiliates by Financing Parties, that such Financing Parties may act to cure a continuing Default Event and Lessor agrees to accept performance from any such Financing Parties so long as such Financing Parties perform in accordance with the terms of this Lease. If Lessee, its affiliates or Financing Parties, fail to substantially cure such Default Event within the applicable cure period, Lessor may terminate the Lease.

Lessee may terminate the lease with thirty (30) days written notice to Lessor. Upon termination of this Lease, Lessee shall have one hundred eighty (180) days to remove, plug, and/or abandon in place all Facilities of Lessee located on the Leased Premises in accordance with applicable permit requirements or other applicable statutes, rules or regulations.

**14. ASSIGNMENT.** (a) Lessor shall not sell, transfer, assign or encumber the Facilities or any part of Operations, Lessee's title or Lessee's rights under this Lease. (b) Lessee has the right to sell, assign, mortgage, pledge, transfer, use as collateral, or otherwise collaterally assign or convey all or any of its rights under this Lease, including, without limitation, an assignment by Lessee to Financing Parties. (c) In the event Lessee assigns its rights under this Lease, Lessee shall be relieved of all obligations with respect to the assigned portion arising after the date of assignment so long as notice of such assignment is provided to Lessor, and provided that Lessee shall not be relieved from any obligation in respect of any payment or other obligations that have not been satisfied or performed prior to such date of assignment. (d) This Lease shall be binding on and inure to the benefit of the successors and assignees. The assigning Party shall provide written notice of any assignment within sixty (60) days after such assignment has become effective; provided, however, that an assigning Party's failure to deliver written notice of assignment within such 60-day period shall not be deemed a breach of this Lease unless such failure is willful and intentional. Further, no change or division in Lessor's ownership of or interest in the Leased Premises or royalties shall enlarge the obligations or diminish the rights of Lessee or be binding on Lessee until after Lessee has been furnished with a written assignment or a true copy of the assignment with evidence that same has been recorded with the Oliver County Recorder's Office.

**15. FINANCING.** (a) Lessor acknowledges that Lessee may obtain tax equity, construction, long-term financing and other credit support from one or more Financing Parties and that Lessee intends to enter into various agreements and execute various documents relating to such financing, which documents may, among other things, assign this Lease and any related easements to a Financing Party, grant a sublease in the Leased Premises and a lease of the Facilities from such Financing Party to Lessee, grant the Financing Parties a sublease or other real property interest in Lessee's interests in and to the Leased Premises, grant a first priority security interest in Lessee's interest in the Facilities and/or this Lease and Lessee's other interests in and to the Leased Premises, including, but not limited to, any easements, rights of way or similar interests (such documents, "Financing Documents"). Lessor acknowledges notice of the foregoing and consents to the foregoing actions and Financing Documents described above.

(b) Lessor agrees, to execute, and agrees to cause any and all of Lessor's lenders to execute, such commercially reasonable subordination agreements, non-disturbance agreements, forbearance agreements, consents, estoppels, modifications of this Lease and other acknowledgements of the foregoing as Lessee or the Financing Parties may reasonably request (collectively, "Lessor Financing Consent Instruments"). Lessor acknowledges and agrees that (i) Lessee's ability to obtain financing for the construction and operation of the Facilities is dependent upon the prompt cooperation of Lessor and its lenders as contemplated by this Section 15; (ii) if Lessee is unable to close on the financing for the Facilities, the construction of the Facilities and the Commencement of Operations will not likely occur; and (iii) it is in the best interest of both Lessee and Lessor for Lessee to obtain financing from the Financing Parties as contemplated by this Section 15. Therefore, Lessor agrees to act promptly, reasonably and in good faith in connection with any request for approval and execution of all Lessor Financing Consent Instruments. The Lessor shall also reasonably cooperate with the Lessee or the Financing Party in the making of any filings required by such requesting party for regulatory compliance or in accordance with applicable laws and in the operation and maintenance of the Facilities, all solely at the expense of the Lessee.

(c) As a precondition to exercising any rights or remedies as a result of any default or alleged default by Lessee under this Lease, Lessor shall deliver a duplicate copy of the applicable notice of default to each Financing Parties concurrently with delivery of such notice to Lessee, specifying in detail the alleged default and the required remedy, provided Lessor was given notice of such Financing Parties and if no such notice of default is required to be delivered to Lessee under this Lease, Lessor may not terminate this Lease unless Lessor has delivered a notice of default to each Financing Party specifying in detail the alleged default or breach and permitting each Financing Party the opportunity to cure as provided in this Section 15(c). Each Financing Party shall have the same period after receipt of a notice of default to

remedy default, or cause the same to be remedied, as is given to Lessee after Lessee's receipt of a notice of default under this Lease, plus, in each instance, the following additional time periods: (i) ten (10) Business Days in the event of any monetary default; and (ii) sixty (60) days in the event of any non-monetary default; provided, however, that (A) such sixty (60)-day period shall be extended for an additional sixty (60) days to enable such Financing Party to complete such cure, including the time required for such Financing Party to obtain possession of the Facilities (including possession by a receiver), institute foreclosure proceedings or otherwise perfect its right to effect such cure and (B) such Financing Party shall not be required to cure those defaults which are not reasonably susceptible of being cured or performed. Lessor shall accept such performance by or at the instance of a Financing Party as if the performance had been made by Lessee.

(d) If any Lessee Default Event cannot be cured without obtaining possession of all or part of the Facilities and/or the leasehold interest created by the Lease (the "Leasehold Estate"), then any such Lessee Default Event shall nonetheless be deemed remedied if: (i) within sixty (60) days after receiving the notice of default, a Financing Party acquires possession thereof, or commences appropriate judicial or non-judicial proceedings to obtain the same; (ii) such Financing Party is prosecuting any such proceedings to completion with commercially reasonable diligence; and (iii) after gaining possession thereof, such Financing Party performs all other obligations as and when the same are due in accordance with the terms of the Lease. If a Financing Party is prohibited by any process or injunction issued by any court or by reason of any action of any court having jurisdiction over any bankruptcy or insolvency proceeding involving Lessee from commencing or prosecuting the proceedings described above, then the sixty (60)-day period specified above for commencing such proceedings shall be extended for the period of such prohibition.

(e) Financing Parties shall have no obligation or liability to the Lessor for performance of the Lessee's obligations under the Lease prior to the time the Financing Party acquires title to the Leasehold Estate. A Financing Party shall be required to perform the obligations of the Lessee under this Lease only for and during the period the Financing Party directly holds such Leasehold Estate. Any assignment pursuant to this Section 15 shall release the assignor from obligations accruing under this Lease after the date the liability is assumed by the assignee.

(f) Each Financing Party shall have the absolute right to do one, some or all of the following things: (i) assign the rights, mortgage or pledge held by Financing Party (the "Financing Party's Lien"); (ii) enforce the Financing Party's Lien; (iii) acquire title (whether by foreclosure, assignment in lieu of foreclosure or other means) to the Leasehold Estate; (iv) take possession of and operate the Facilities or any portion thereof and perform any obligations to be performed by Lessee under the Lease, or cause a receiver to be appointed to do so; (v) assign or transfer the Leasehold Estate to a third party; or (vi) exercise any rights of Lessee under this Lease. Lessor's consent shall not be required for any of the foregoing; and, upon acquisition of the Leasehold Estate by a Financing Party or any other third party who acquires the same from or on behalf of the Financing Party or any purchaser who purchases at a foreclosure sale, Lessor shall recognize the Financing Party or such other party (as the case may be) as Lessee's proper successor, and this Lease shall remain in full force and effect.

(g) If this Lease is terminated for any reason whatsoever, including a termination by Lessor on account of a Lessee Default Event, or if this Lease is rejected by a trustee of Lessee in a bankruptcy or reorganization proceeding or by Lessee as a debtor-in-possession (whether or not such rejection shall be deemed to terminate this Lease), if requested by Financing Party, Lessor shall execute a new lease (the "New Lease") for the Leased Premises with the Financing Parties (or their designee(s), if applicable) as Lessee, within thirty (30) days following the date of such request. The New Lease shall be on substantially the same terms and conditions as are in this Lease (except for any requirements or conditions satisfied by Lessee prior to the termination or rejection). Upon execution of the New Lease by Lessor, Financing Parties (or their designee, if applicable) shall pay to Lessor any and all sums owing by Lessee under this Lease that are unpaid and that would, at the time of the execution of the New Lease, be due and payable under this Lease if this Lease had not been terminated or rejected. The provisions of this Section 15(g) shall survive any termination of this Lease prior to the expiration of the Term, and any rejection of this Lease in any bankruptcy or reorganization proceeding.

(h) Lessor consents to each Financing Party's security interest, if any, in the Facilities and waives all right of levy for rent and all claims and demands of every kind against the Facilities, such waiver to

continue so long as any sum remains owing from Lessee to any Financing Parties. Lessor agrees that the Facilities shall not be subject to distraint or execution by, or to any claim of, Lessor.

(i) Notwithstanding Lessor's obligations and consents under this Section 15 Lessor shall not be obligated to execute any mortgage or grant of security interest in Lessor's interest in and to the Leased Premises for the benefit of Lessee.

**16. INDEMNIFICATION; WAIVER.** (a) Each Party shall indemnify, defend, and hold harmless the other Party and its Related Persons from and against any and all third-party suits, claims, or damages suffered or incurred by the indemnified Party and its Related Persons arising out of physical damage to property and physical injuries to any person, including death, caused by the indemnifying Party or its Related Persons except to the extent such claims arise out of the negligence or willful misconduct of the indemnified Party or its Related Persons. (b) Each Party shall indemnify, defend and hold harmless the other Party and its Related Persons from and against all suits, claims, or damages suffered or incurred by the indemnified Party and its Related Persons arising out of or relating to the existence at, on, above, below or near the Leased Premises of any Hazardous Substance, except to the extent deposited, spilled or otherwise caused by the indemnified Party or any of its contractors or agents, provided that Lessee shall not be obligated to indemnify Lessor with respect to any Hazardous Substance on the Leased Premises prior to the Effective Date.

**17. INSURANCE.** Lessee shall, at its sole cost and expense, keep and maintain in force commercial general liability insurance including broad form property damage liability, personal injury liability, and contractual liability coverage, on an "occurrence" basis, with a combined single limit, which may be effected by primary and excess coverage, of not less than Five Million Dollars (\$5,000,000.00) during the primary term, except that such limit in the Primary Term shall be instead not less than One Million Dollars (\$1,000,000.00) until such time as Lessee commences physical testing of any injection wells or other similar commercial activities, with such commercially reasonable deductibles as Lessee, in its discretion, may deem appropriate. Lessor shall be named as an additional insured in such policy but only to the extent of the liabilities specifically assumed by the Lessee under this Lease. The policy shall contain provisions by which the insurer waives any right of subrogation it may have against Lessor and shall be endorsed to provide that the insurer shall give Lessor thirty days written notice before any material modification or termination of coverage. Upon Lessor's request, Lessee shall promptly deliver certificates of such insurance to Lessor.

**18. MISCELLANEOUS.**

(a) **Confidentiality.** Lessor shall maintain in the strictest confidence, and shall require each of Lessor's Related Persons to hold and maintain in the strictest confidence, for the benefit of Lessee, all information pertaining to the compensation paid under this Lease, any information regarding Lessee and its business, operations on the Leased Premises or on any other lands, the capacity and suitability of the Reservoir, and any other information that is deemed proprietary or that Lessee requests or identifies to be held confidential, in each such case whether disclosed by Lessee or discovered by Lessor.

(b) **Liens.** (i) Lessee shall protect the Leased Premises from liens of every character arising from its activities on the Leased Premises, provided that Lessee may, at any time and without the consent of Lessor, encumber, hypothecate, mortgage, pledge, or collaterally assign (including by mortgage, deed of trust or personal property security instrument) all or any portion of Lessee's right, title or interest under this Lease (but not Lessor's right, title or interest in the Leased Premises), as security for the repayment of any indebtedness and/or the performance of any obligation. (ii) Lessor shall not directly or indirectly cause, create, incur, assume or allow to exist any mortgage, pledge, lien, charge, security interest, encumbrance or other claim of any nature on or with respect to the Facilities, Operations or any interest therein. Lessor shall immediately notify Lessee in writing of the existence of any such mortgage, pledge, lien, charge, security interest, encumbrance or other claim, shall promptly cause the same to be discharged and released of record without cost to Lessee, and shall indemnify the Lessee against all costs and expenses (including reasonable attorneys' fees) incurred in discharging and releasing any such mortgage, pledge, lien, charge, security interest, encumbrance or other claim.

(c) **Warranty of Title.** Lessor represents and warrants to Lessee that Lessor is the owner in fee of the surface and subsurface pore space of the Leased Premises. Lessor hereby warrants and agrees to

defend title to the Leased Premises and Lessor hereby agrees that Lessee, at its option, shall have the right to discharge any tax, mortgage, or other lien upon the Leased Premises, and in the event Lessee does so, Lessee shall be subrogated to such lien with the right to enforce the same and apply annual rental payments or any other such payments due to Lessor toward satisfying the same. At any time on or after the Effective Date, Lessee may obtain for itself and/or any Financing Party, at Lessee's expense, a policy of title insurance in a form and with exceptions acceptable to Lessee and/or such Financing Party in its sole discretion (the "Title Policies"). Lessor agrees to cooperate fully and promptly with Lessee in its efforts to obtain the Title Policies, and Lessor shall take such actions as Lessee or any Financing Party may reasonably request in connection therewith.

(d) **Conduct of Operations.** Each Party shall, at its expense, use best efforts to comply (and cause its Related Persons to comply) in all material respects with all laws applicable to its (or their) activities on the Leased Premises, provided that each Party shall have the right, in its sole discretion, to contest, by appropriate legal proceedings, the validity or applicability of any law, and the other Party shall cooperate in every reasonable way in such contest, at no out-of-pocket expense to the cooperating Party. During the Primary Term, Lessee, its agents, affiliates, servants, employees, nominees and licensees shall be entitled to: (i) apply for and obtain any necessary permits, approvals and other governmental authorizations (collectively called "Governmental Authorizations") required for the development, construction, operation and maintenance of the Project and Lessor agrees to co-operate, execute, obtain or join with Lessee in any applications or proceedings relating to the Governmental Authorizations upon Lessee's written request and at Lessee's direction, cost and expense; and (ii) apply for any approvals and permits and any zoning amendment of any area of the Leased Premises required in connection with the Project, and Lessor agrees to co-operate, execute, obtain or join with Lessee in any applications or proceedings relating to such approvals, permits and zoning amendments upon Lessee's written request and at Lessee's direction, cost and expense.

(e) **Title to Carbon Dioxide.** As between Lessor and Lessee, all right, title, interest and ownership to all Carbon Dioxide injected into any Reservoir shall belong to Lessee, as measured by corresponding Storage Fee payment to Lessor.

(f) **Hazardous Substances.** Lessee shall have no liability for any regulated hazardous substances located on the Leased Premises prior to the Effective Date or placed in, on or within the Leased Premises by Lessor or any of its Related Persons on or after the Effective Date, and nothing in this Lease shall be construed to impose upon Lessee any obligation for the removal of such regulated hazardous substances.

(g) **Interference.** Lessee shall peaceably and quietly have, hold and enjoy the Leased Premises against any person claiming by, through or under the Lessor and without disturbance by the Lessor, unless Lessee is found in default of the terms of this Lease and such default is continuing. Lessor shall not unreasonably interfere with Lessee's access to or maintenance of the Facilities or associated use of Leased Premises under this Lease; endanger the safety of Lessor, Lessee, the general public, private or personal property, or the Facilities; or install or maintain or permit to be installed or maintained vegetation, undergrowth, trees (including overhanging limbs and foliage and any trees standing which are substantially likely to fall), buildings, structures, installations, and any other obstructions which unreasonably interfere to Lessee access or use of the Facilities, Formations or Lessee's use of the Leased Premises under this Lease. Lessor shall not engage in any activity or permit its Related Persons to engage in any activity that might damage or undermine the physical integrity of any Formation or interfere with Lessee's use of the Leased Premises under this Lease, provided however that it is understood by Lessee that Lessor has no right to permit or to prohibit the exercise of any mineral rights not owned by Lessor at the time of entering into the Option to Lease between Lessor and Lessee with respect to the Leased Premises. Neither Lessee nor its agents will engage in any activity that damages existing oil, gas and other mineral exploration and development activities occurring on the Leased Premises without first obtaining permission from the relevant mineral rights holder.

(h) **Reservations.** Lessor reserves the right to sell, lease, or otherwise dispose of any interest in the Leased Premises subject to the rights granted in this Lease and agrees that sales, leases, or other dispositions of any interest or estate in the Leased Premises shall be expressly made subject to the terms of this Lease and shall not unreasonably interfere with Lessee's rights under this Lease.

(i) **Taxes.** Lessor shall pay for all real estate taxes and other assessments levied upon the Leased

Premises. Lessee shall pay any taxes, assessments, fines, fees, and other charges levied by any governmental authority against its Facilities on the Leased Premises. The Parties agree to cooperate fully to obtain any available tax refunds or abatements with respect to the Leased Premises. Lessee shall have the right to pay all taxes, assessments and other fees on behalf of Lessor and to deduct the amount so paid from other payments due to Lessor hereunder.

(j) **Amendments.** Lessee reserves the right to revise this Lease to remedy any mistakes, including correcting the names of the Parties, the legal description of the Leased Premises, or otherwise. In the event that any amendment alters the bonus and royalty payable under Section 5(a)-(b) of this Lease, the Lessee shall pay the Lessor the amount owed under the Lease as amended. Any amendments must be in writing and signed by both parties.

(k) **Remedies.** Notwithstanding anything to the contrary in this Lease, neither Party shall be liable to the other for any indirect, special, punitive, incidental or exemplary damages, whether foreseeable or not and whether arising out of or in connection with this Lease, by statute, in contract, tort, including negligence, strict liability or otherwise, and all such damages are expressly disclaimed.. This provision does not limit Lessee's obligation to indemnify Lessor for third-party suits, claims, or damages under Section 16 of this Lease.

(l) **Financial Responsibility.** Lessee will comply with all applicable law regarding financial responsibility for Carbon Dioxide storage, and will post bonds or other financial guarantees as required by the government entities.

(m) **Attorneys' Fees.** If any suit or action is filed or arbitration commenced by either Party against the other Party to enforce this Lease or otherwise with respect to the subject matter of this Lease, the prevailing party shall be entitled to recover reasonable costs and attorneys' fees incurred in investigation of related matters and in preparation for and prosecution of such suit, action, or arbitration as fixed by the arbitrator or court, and if any appeal or other form of review is taken from the decision of the arbitrator or any court, reasonable costs and attorneys' fees as fixed by the court.

(n) **Representations and Warranties.** Lessor represents and warrants to Lessee the following as of the Effective Date and covenants that throughout the Term: (i) Lessor has the full right, power and authority to grant rights, interests and license as contained in this Lease. Such grant of the right, interests and license does not violate any law, ordinance, rule or other governmental restriction applicable to the Lessor or the Leased Premises and is not inconsistent with and will not result in a breach or default under any agreement by which the Lessor is bound or that affects the Leased Premises. (ii) Neither the execution and delivery of this Lease by Lessor nor the performance by Lessor of any of its obligations under this Lease conflicts with or will result in a breach or default under any agreement or obligation to which Lessor is a party or by which Lessor or the Leased Premises is bound. (iii) All information provided by Lessor to Lessee, as it pertains to the Leased Premises' physical condition, along with Lessor's rights, interests and use of the Leased Premises, is accurate in all material respects. (iv) Lessor has no actual or constructive notice or knowledge of Hazardous Substances at, on, above, below or near the Leased Premises. (v) Each of the undersigned represents and warrants that they have the authority to execute this Lease on behalf of the Party for which they are signing.

(o) **Severability.** Should any provision of this Lease be held, in a final and unappealable decision by a court of competent jurisdiction, to be either invalid, void or unenforceable, the remaining provisions of this Lease shall remain in full force and effect, unimpaired by the holding. If the easements or other rights under this Lease are found to be in excess of the longest duration permitted by applicable law, the term of such easements or other rights shall instead expire on the latest date permitted by applicable law.

(p) **Memorandum of Lease.** This Lease shall not be recorded in the real property records. Lessee shall cause a memorandum of this Lease to be recorded in the real property records of the county in which the Leased Premises is situated. A recorded copy of said memorandum shall be furnished to Lessor within thirty (30) days of recording.

(q) **Notices.** All notices required to be given under this Lease shall be in writing, and shall be deemed to have been given upon (a) personal delivery, (b) one (1) Business Day after being deposited with FedEx or another reliable overnight courier service, with receipt acknowledgment requested, or (c) upon receipt or refused delivery deposited in the United States mail, registered or certified mail, postage prepaid, return

receipt required, and addressed to the respective Party at the addresses set forth at the beginning of this Lease, or to such other address as either Party shall from time to time designate in writing to the other Party.

(r) **No Waiver.** The failure of either Party to insist in any one or more instances upon strict performance of any of the provisions of this Lease or to take advantage of any of its rights hereunder shall not be construed as a waiver of any such provision or the relinquishment of any such rights, but the same shall continue and remain in full force and effect.

(s) **Estoppels.** Either party hereto (the "Receiving Party"), without charge, at any time and from time to time, within ten (10) Business Days after receipt of a written request by the other party hereto (the "Requesting Party"), shall deliver a written statement, duly executed, certifying to such Requesting Party, or any other person, firm or entity specified by such Requesting Party: (i) that this Lease is unmodified and in full force and effect, or if there has been any modification, that the same is in full force and effect as so modified and identifying the particulars of such modification; (ii) whether or not, to the knowledge of the Receiving Party, there are then existing any offsets or defenses in favor of such Receiving Party against enforcement of any of the terms, covenants and conditions of this Lease and, if so, specifying the particulars of same and also whether or not, to the knowledge of such Receiving Party, the Requesting Party has observed and performed all of the terms, covenants and conditions on its part to be observed and performed, and if not, specifying the particulars of same; and (iii) such other information as may be reasonably requested by the Requesting Party. Any written instrument given hereunder may be relied upon by the recipient.

(t) **Counterparts.** This Lease may be executed in any number of counterparts, each of which, when executed and delivered, shall be an original, but all of which shall collectively constitute one and the same instrument.

(u) **Governing Law.** This Lease shall be governed, interpreted, and enforced in accordance with the laws of the state of North Dakota.

(v) **Further Action.** Each Party will execute and deliver all documents, provide all information, and take or forbear from all actions as may be necessary or appropriate to achieve the purposes of this Lease, including without limitation executing a memorandum of easement and all documents required to obtain any necessary government approvals.

(w) **Entire Agreement.** This Lease, into which the attached Exhibit A is incorporated by reference, contains the entire agreement of the Parties. There are no other conditions, agreements, representations, warranties, or understandings, express or implied.

*[Remainder of page intentionally left blank. Signature page follows.]*

IN WITNESS OF THE ABOVE, Lessor and Lessee have caused this Lease to be executed and delivered by their duly authorized representatives as of the Effective Date.

**Exhibit A**

**LEGAL DESCRIPTION OF THE PROPERTY**

The Leased Premises consists of the lands located in Oliver County, North Dakota that are owned by the Lessor and generally described as follows:

For purposes of calculating the royalty payable under Section 5(b) of this Lease, the Parties stipulate that the Leased Premises consists of \_\_\_\_\_ acres.

## SURFACE USE AND PORE SPACE LEASE

THIS SURFACE USE AND PORE SPACE LEASE ("**Lease**") is made, entered into, and effective as of the \_\_\_\_\_ day of \_\_\_\_\_, 2023 ("**Effective Date**") by and Michael Dresser whose address 2435 Concho Loop, New Braunfels, TX 78130 (whether one or more, "**Lessor**"), and Minnkota Power Cooperative, Inc., a Minnesota cooperative association, whose address is 5301 32<sup>nd</sup> Ave S, Grand Forks, ND 58201 (whether one or more, "**Lessee**"). Lessor and Lessee are sometimes referred to in this Lease individually as a "**Party**" and collectively as the "**Parties**."

1. **DEFINITIONS.** The following terms shall have the following meanings in this Lease:

**"Carbon Dioxide"** means carbon dioxide in gaseous, liquid, or supercritical fluid state together with incidental associated substances derived from the source materials, capture process and any substances added or used to enable or improve the injection process.

**"Commencement of Operations"** means the date on which Carbon Dioxide is first injected into a Reservoir for commercial operations under this Lease, provided that the performance of test injections and related activities shall not be deemed Commencement of Operations.

**"Commission"** means the North Dakota Industrial Commission.

**"Completion Notice"** means a certificate of project completion issued to Lessee by the Commission pursuant to Chapter 38-22 of the North Dakota Century Code.

**"Environmental Attributes"** means any and all credits, benefits, emissions reductions, offsets, and allowances, howsoever entitled, attributable to the Operations, including any avoided emissions and the reporting rights related to these avoided emissions, such as 26 U.S.C. §45Q Tax Credits.

**"Environmental Incentives"** means any and all credits, rebates, subsidies, payments or other incentives that relate to the use of technology incorporated into the Operations, environmental benefits of Operations, or other similar programs available from any regulated entity or any Governmental Authority.

**"Facilities"** means all facilities, structures, improvements, fixtures, equipment, and any other personal property at any time acquired or constructed by or for Lessee that are necessary or desirable in connection with any use of Reservoirs and their Formations or Operations, including without limitation wells, pipelines, roads, utilities, metering or monitoring equipment, and buildings.

**"Financing Parties"** means person or persons providing construction or permanent financing to Lessee in connection with construction, ownership, operation and maintenance of Facilities or Operations, including financial institutions, leasing companies, institutions, tax equity partners, joint venture partners and/or private lenders.

**"Formation"** means the geological formation of which any Reservoir is a part.

**"Hazardous Substance"** means any chemical, waste or other substances, expressly excluding Carbon Dioxide and Non-Native Carbon Dioxide, (a) which now or hereafter becomes defined as or included in the definition of "hazardous substances," "hazardous wastes," "hazardous materials," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollutions," "pollutants," "regulated substances," or words of similar import under any law pertaining to environment, health, safety or welfare, (b) which is declared to be hazardous, toxic or polluting by any Governmental Authority, (c) exposure to which now or hereafter prohibited, limited or regulated by any Governmental Authority, (d) the storage, use, handling, disposal or release of which is restricted or regulated by any Governmental Authority, or (e) for which remediation or cleanup is required by any Governmental Authority.

**"Leased Premises"** means the surface and subsurface of the land, excluding mineral rights, described in Exhibit A of this Lease.

**"Native Oil and Gas"** means all oil, natural gas, and other hydrocarbons present in and under the Leased Premises and not injected by Lessor, Lessee or any third party.

**"Non-Native Carbon Dioxide"** means Carbon Dioxide that is not naturally occurring in the

Reservoir together with incidental associated substances, fluids, minerals, oil, and gas, excluding that which, independent of Operations, originates from an accumulation meeting the definition of a Pool. All Non-Native Carbon Dioxide will be considered personal property of the Lessee and its successor and assigns under this Agreement.

**"Operating Year"** means the calendar year or portion of the calendar year following Commencement of Operations during which Operations occur.

**"Operations"** means the transportation and injection of Carbon Dioxide into a Reservoir after Commencement of Operations, and any withdrawal of this Carbon Dioxide, as well as the withdrawal of Non-Native Carbon Dioxide, for sale or disposal in accordance with applicable law.

**"Option Money"** means 20 percent of the Initial Term Payment (as such term is defined in that certain Option to Lease between Lessor and Lessee with respect to the Leased Premises).

**"Pool"** means an underground Reservoir containing a common accumulation of Native Oil and Gas that is economically recoverable. A zone of a structure that is completely separated from any other zone in the same structure is a Pool.

**"Pore Space"** means a cavity or void, whether natural or artificially created, in a Reservoir.

**"Related Person"** means any member, partner, principal, officer, director, shareholder, predecessor-in-interest, successor-in-interest, employee, agent, heir, representative, contractor, lessee, sublessee, licensee, invitee, permittee of a Party, Financing Parties or any other person or entity that has obtained or in future obtains rights or interests from, under or through a Party (excluding the other Party itself).

**"Reservoir"** means any subsurface stratum, sand, formation, aquifer, cavity or void, whether natural or artificially created, wholly or partially within the Leased Premises, suitable for the storage or sequestration of carbon dioxide or other gaseous substances.

**"Storage Fee"** means Lessor's proportionate share of [fifty and 0/100<sup>th</sup>] cents (\$0.[50]) per metric ton of Carbon Dioxide ("Storage Rate") as determined by the Lessee's last meter before injection as part of Operations. The Storage Rate was determined based on an agreed commercial value of the lease of the Leased Premises as of the Effective Date. If there is a subsequent change in the commercial value of the lease of the Leased Premises because of a change in Applicable Law resulting in a change in, or Lessee's qualification for, the \$85 per metric ton IRC section 45Q tax credit (including for inflation adjustments or changes in Applicable Law), the Storage Rate shall be proportionately changed based on the ratio of the Storage Rate on the Effective Date (\$0.[50]) and \$85. (effective as of the effective date of the change in the IRC section 45Q tax credit amount) The Storage Fee shall be: (i) calculated separately for each Amalgamated Unit as created and established by the Commission that includes any portion of the Leased Premises; (ii) limited to the Carbon Dioxide injected in said Amalgamated Unit in the immediately preceding Operating Year; and (iii) based on the Lessor's proportionate per net acre share of said unit. For avoidance of doubt, the Lessor shall receive a separate Storage Fee for each Amalgamated Unit created and established by the Commission that includes any portion of the Leased Premises on a net acre basis within the Lessor's interest being the numerator and the acres in the Amalgamated Unit being the denominator.

**"Tax Credits"** means any and all (a) investment tax credits, (b) production tax credits, (c) credits under 26 U.S.C. §45Q credits, and (d) similar tax credits or grants under federal, state or local law relating to construction, ownership or Operations

**2. LEASE RIGHTS.** In consideration of the compensation, covenants, agreements, and conditions set forth in this Lease, Lessor grants, demises, leases and lets to Lessee the exclusive right to use all Pore Space, Reservoirs and their Formations in the Leased Premises for any purpose not previously granted or reserved by an instrument of record related to the capture, injection, storage, sequestration, sale, withdrawal or disposal of Carbon Dioxide, Non-Native Carbon Dioxide and incidental associated substances, fluids, and minerals, provided that Lessee shall have no right to use potable water from within the Leased Premises in Operations; together with the following exclusive rights:

(a) to use the Leased Premises for developing, constructing, installing, improving,

maintaining, replacing, repowering, relocating, removing, abandoning in place, expanding, and operating Facilities;

(b) to lay, maintain, replace, repair, and remove roads on the Leased Premises to allow Lessee, in its sole discretion, to exercise its rights under this Lease; and

(c) to enter upon and use the Leased Premises for the purposes of conducting:

(i) any investigations, studies, surveys, and tests, including without limitation drilling and installing test wells and monitoring wells, seismic testing, and other activities as Lessee deems necessary or desirable to determine the suitability of the Leased Premises for Operations,

(ii) any inspections and monitoring of Reservoirs and Carbon Dioxide as Lessee or any governmental authority deems necessary or desirable during the term of this Lease, and

(iii) any maintenance to the Facilities that Lessee or any governmental authority deems necessary or as required by applicable law.

Lessor also hereby grants and conveys unto Lessee all other and further easements across, over, under and above the Leased Premises as reasonably necessary to provide access to and services reasonably required for Lessee's performance under the Lease. The easements granted hereunder shall run with and burden the Leased Premises for the term of this Lease. Notwithstanding the surface easements granted herein, Lessee shall provide notice to Lessor prior to accessing the surface of the Property, and if such activity requires permit then prior notice shall be in form and not be less than that required by law or rule.

Lessee may exercise its rights under this Lease in conjunction with related operations on other properties near the Leased Premises. Lessee shall have no obligation, express or implied, to begin, prosecute or continue storage operations in, upon or under the Leased Premises, or to store and/or sell or use all or any portion of the gaseous substances stored thereon. The timing, nature, manner and extent of Lessee's operations, if any, under this Lease shall be at the sole discretion of Lessee. All obligations of Lessee are expressed herein, and there shall be no covenants implied under this Lease, it being agreed that all amounts paid hereunder constitute full and adequate consideration for this Lease.

**3. INITIAL TERM.** This Lease shall commence on the Effective Date and shall continue for an initial term of twenty (20) years ("Initial Term") unless sooner terminated in accordance with the terms of this Lease. Lessee may, but is not obligated to, extend the Initial Term for up to four successive five-year periods (each individually an "Extension Period") by paying Lessor \$25.00 per net acre in the Leased Premises per five-year Extension Period (the "Renewal Payment") on or prior to the last day of the Initial Term or expiring five-year Extension Period, as applicable. The Initial Term together with any Extension Periods exercised by Lessee are referred to as the "Primary Term." Beginning in the 19th year of the Initial Term, and each successive Extension Period thereafter, the Renewal Payment in this Section 3 shall each be adjusted for inflation as follows:  $\text{Renewal Payment} = (\text{existing Renewal Payment}) \times (\text{the applicable Cumulative CPI Percentage increase, expressed as a percentage, since the last adjustment, if any}) + (\text{existing Renewal Payment})$ . For illustration only, the CPI in 2023 will be compared to the CPI in 2042 and the amount for the five year Extension Period commencing 2043 through 2048 shall be increased by the percentage difference determined as follows:  $\text{Cumulative CPI Percentage} = (\text{CPI for 2042} - \text{CPI for 2023}) / (\text{CPI for 2023}) \times (100)$ . Further, for the second Extension Period for years 2049 through 2054, the CPI in 2042 will be compared to the CPI in 2048 and the amount for years 2049 through 2054 will be increased by the percentage difference, determined as follows:  $\text{Cumulative CPI percentage} = (\text{CPI for 2048} - \text{CPI for 2042}) / (\text{CPI for 2042}) \times (100)$ , and so on.

For purposes of this Section 3, CPI means Consumer Price Index published by the Bureau of Labor Statistics of the United States Department of Labor for Urban Wage Earners and Clerical Workers (CPI-W) for the Midwest Region, all items, not seasonally adjusted, reference base period of 1982-84= 100. In the event the Consumer Price Index is converted to a different standard reference base or otherwise revised, the determination of Renewal Payment will be made with the use of such

conversion factor, formula or table for converting the Consumer Price Index as may be published by the Bureau of Labor Statistics. If the Consumer Price Index ceases to be published and there is no successor thereto, such other index as Lessor and Lessee may agree upon will be substituted for the Consumer Price Index.

**4. OPERATIONAL TERM.** Upon Commencement of Operations at any time during the Primary Term, this Lease shall continue for so long as any portion of the Leased Premises or Lessee's Facilities are subject to a permit issued by the Commission or under the ownership or control of the State of North Dakota ("Operational Term"); *provided, however*, that all of Lessee's obligations under this Lease shall terminate upon issuance of a Completion Notice, except for payment of the Final Royalty Payment (as applicable), and Final Occupancy Fee (as applicable). If Commencement of Operations does not occur during the Primary Term, this Lease shall terminate, and Lessee shall execute a document evidencing termination of this Lease in recordable form and shall record it in the official records of the county in which the Leased Premises is located.

**5. COMPENSATION.**

(a) **Initial Term Payment.** Lessee shall pay to Lessor the greater of \$50.00 per net acre in the Leased Premises ("Initial Term Payment") or a one-time flat \$500.00 payment, the receipt and sufficiency of which are hereby acknowledged.

(b) **Royalty.** During the Operational Term, Lessee shall annually on or before May 31<sup>st</sup> pay to Lessor a royalty for the portions of the Leased Premises in an Amalgamated Unit, equal to the greater of a flat \$100.00 payment or the Storage Fee(s) for the immediately preceding Operating Year. During the Operational Term, in addition to the forgoing royalty payment, Lessee shall annually on or before May 31<sup>st</sup> pay to the Lessor a \$5.00 per acre payment for portions of the Leased Premises not in an Amalgamated Unit. For the Operating Year in which Lessee provides Lessor with a Completion Notice, Lessee shall pay a pro rata share of the Storage Fee(s) ("Final Royalty Payment"), as applicable, and said payment shall be made within sixty days after the date the Completion Notice was issued.

(c) **Occupancy Fee.** Within sixty days of the anniversary of the Effective Date after which any Facilities are installed or used, Lessee shall pay Lessor, as applicable, a one-time fee of (i) \$3,000.00 per net surface acre of the Leased Premises occupied by Facilities (excluding pipelines), and (ii) \$1.50 for each linear foot of pipeline in place on the Leased Premises. For the year in which Lessee provides Lessor with a Completion Notice, Lessee shall pay any fees owed pursuant to this provision ("Final Occupancy Fee") within sixty days after the date the Completion Notice was issued.

Lessor and Lessee agree that the Lease shall continue as specified herein even in the absence of Operations and the payment of royalties.

**6. AMALGAMATION.** (a) Lessee, in its sole discretion, shall have the right and power, at any time (including both before and after Commencement of Operations), to pool, unitize, or amalgamate any Reservoir or portion of a Reservoir with any other lands or interests into which that Reservoir extends and document such unit in accordance with applicable law or agency order ("Amalgamated Unit" or "Amalgamated Units"). Amalgamated Units shall be of such shape and dimensions as Lessee may elect and as are approved by the Commission. Amalgamated Units may include, but are not required to include, land upon which injection or extraction wells have been completed or upon which the injection and/or withdrawal of Carbon Dioxide and Non-Native Carbon Dioxide has commenced prior to the effective date of amalgamation. In exercising its amalgamation rights under this Lease and if required by law, Lessee shall record or cause to be recorded a copy of the Commission's amalgamation order or other notice thereof in the county in which the Amalgamated Unit. Amalgamating in one or more instances shall, if approved by the Commission, not exhaust the rights of Lessee to amalgamate Reservoirs or portions of Reservoirs into other Amalgamated Units, and Lessee shall have the recurring right to revise any Amalgamated Unit formed under this Lease by expansion or contraction or both. Lessee may dissolve any Amalgamated Unit at any time and document such dissolution by recording an instrument in accordance with applicable law or agency order. Lessee shall have the right to negotiate, on behalf of and as agent for Lessor, any unit agreements and operating agreements with respect to the operation of any Amalgamated Units formed under this Lease.

(b) The injection and/or withdrawal of Carbon Dioxide and Non-Native Carbon Dioxide into a Reservoir from any property within a Amalgamated Unit that includes the Leased Premises shall be treated as if Operations were occurring on the Leased Premises, except that the royalty payable to Lessor under Section 5(b) of this Lease shall be Lessor's per net acre proportionate share of the total Storage Fee for the preceding Operating year's injection of Carbon Dioxide into the Amalgamated Unit.

**7. ENVIRONMENTAL INCENTIVES.** Unless otherwise specified, Lessee is the owner of all Environmental Attributes and Environmental Incentives and is entitled to the benefit of all Tax Credits or any other attributes of ownership of the Facilities and Operations. Lessor shall cooperate with Lessee in obtaining, securing and transferring all Environmental Attributes and Environmental Incentives and the benefit of all Tax Credits. Lessor shall not be obligated to incur any out-of-pocket costs or expenses in connection with such actions unless reimbursed by Lessee. If any Environmental Incentives are paid directly to Lessor, Lessor shall immediately pay such amounts over to Lessee.

**8. SURRENDER OF LEASED PREMISES.** Lessee shall have the unilateral right at any time and from time to time to execute and deliver to Lessor a written notice of surrender and/or release covering all or any part of the Leased Premises for which the subsurface pore space is not being utilized for storage as set forth herein, and upon delivery of such surrender and/or release to Lessor this Lease shall terminate as to such lands, and Lessee shall be released from all further obligations and duties as to the lands so surrendered and/or released, including, without limitation, any obligation to make payments provided for herein, except obligations accrued as of the date of the surrender and/or release.

**9. FACILITIES.**

- (a) Lessee shall in good faith consult with Lessor regarding the location of any Facilities to be constructed on the Leased Premises. The location of the Facilities shall be within the sole discretion of Lessee with consent of the Lessor, not to be unreasonably withheld. The withholding of such consent by the Lessor regarding the location of the Facilities shall be deemed "unreasonable" if the proposed location of the Facility is located more than 500 feet from any currently occupied dwelling or currently used building existing on the Leased Premises as of the Effective Date. Lessee may erect fences around all or part of any above-ground Facilities (excluding roads) to separate Facilities from adjacent Lessor-controlled lands, and shall do so if Lessor so requests. Lessee shall maintain and repair at its expense any roads it constructs on the Leased Premises in reasonably safe and usable condition.
- (b) Lessor and Lessee agree that all Facilities and property of whatever kind and nature constructed, placed or affixed on the rights-of-way, easements, patented or leased lands as part of Lessee's Operations, as against all parties and persons whomsoever (including without limitation any party acquiring interest in the rights-of-way, easements, patented or leased lands or any interest in or lien, claim or encumbrance against any of such Facilities), shall be deemed to be and remain the property of the Lessee, and shall not be considered to be fixtures or a part of the Leased Premises. Lessor waives, to the fullest extent permitted by applicable law, any and all rights it may have under the laws of the State of North Dakota, arising under this Lease, by statute or otherwise to any lien upon, or any right to distress or attachment upon, or any other interest in, any item constituting the Facilities or any other equipment or improvements constructed or acquired by or for Lessee and located on the leased Premises or within any easement area. Each Lessor and Lessee agree that the Lessee (or the designated assignee of Lessee or Financing Parties) is the tax owner of any such Facilities, structures, improvements, equipment and property of whatever kind and nature and all tax filings and reports will be filed in a manner consistent with this Lease. Facilities shall at all times retain the legal status of personal property as defined under Article 9 of the Uniform Commercial Code. If there is any mortgage or fixture filing against the Premises which could reasonably be construed as prospectively attaching to the Facilities as a fixture of the Premises, Lessor shall provide a disclaimer or release from such lienholder. Lessor, as fee owner, consents to the filing of a disclaimer of the Facilities as a fixture of the Premises in the Oliver County Recorder's Office, or where real estate records of Oliver County are customarily filed.

**10. SURFACE DAMAGE COMPENSATION ACT.** The compensation contemplated and paid to Lessor hereunder is compensation for, among other things, damages sustained by Lessor for the lost use of and access to Lessor's land, pore space (to the extent required under North Dakota law), and any other damages which are contemplated under Ch. 38-11.1 of the North Dakota Century Code (to the extent applicable).

**11. MINERALS, OIL AND GAS.** This Lease is not intended to grant or convey, nor does it grant or convey, any right to or obligation for Lessee to explore for or produce minerals, including Native Oil and Gas, that may exist on the Leased Premises. Lessee shall not engage in any activity or permit its Related Persons to engage in any activity that unreasonably interferes with the Lessor's or third party's (or parties') rights to the granted, leased, or reserved mineral interests. If Lessor owns hydrocarbon mineral interests in the Leased Premises and Lessee should inadvertently discover a Pool in conjunction with its efforts to explore for and develop a Reservoir for Operations, Lessee shall inform Lessor within 60 days of discovery. If Lessee determines that it will not use in conjunction with Operations a well that has encountered a Pool within the Leased Premises, Lessor shall have the option but not the obligation to buy such well at cost, provided Lessor has the ability and assumes all permits and risks and liabilities which are associated with the ownership and operation of an oil, gas or mineral well.

**12. FORCE MAJEURE.** Should Lessee be prevented from complying with any express or implied covenant of this Lease, from utilizing the Leased Premises for underground storage purposes by reason of scarcity of or an inability to obtain or to use equipment or material failure or breakdown of equipment, or by operation of force majeure (including, but not limited to, riot, insurrection, war (declared or not), mobilization, explosion, labor dispute, fire, flood, earthquake, storm, lightning, tsunami, backwater caused by flood, vandalism, act of the public enemy, terrorism, epidemic, pandemic (including COVID-19), civil disturbances, strike, labor disturbances, work slowdown or stoppage, blockades, sabotage, labor or material shortage, national emergency, and the amendment, adoption or repeal of or other change in, or the interpretation or application of, any applicable laws, orders, rules or regulations of governmental authority), then while so prevented, Lessee's obligation to comply with such covenant shall be suspended and this Lease shall be extended while and so long as Lessee is prevented by any such cause from utilizing the property for underground storage purposes and the time while Lessee is so prevented shall not be counted against Lessee, anything in this Lease to the contrary notwithstanding.

**13. DEFAULT/TERMINATION.** Lessor may not terminate the Lease for any reason whatsoever unless a Default Event has occurred and is continuing consistent with the terms of this Section 13. Any Party that fails to perform its responsibilities as listed below shall be deemed to be the "Defaulting Party," the other Party shall be deemed to be the "Non-Defaulting Party," and each event of default shall be a "Default Event." A Default Event is: (a) failure of a Party to pay any amount due and payable under this Lease, other than an amount that is subject to a good faith dispute, within thirty (30) days following receipt of written notice from Non-Defaulting Party of such failure to pay; or (b) a material violation or default of any terms of this Lease by a Party, provided the Non-Defaulting Party provides written notice of violation or default and Defaulting Party fails to substantially cure the violation or default within sixty (60) days after receipt of said notice to cure such violations or defaults. Parties acknowledge that in connection with any construction or long-term financing or other credit support provided to Lessee or its affiliates by Financing Parties, that such Financing Parties may act to cure a continuing Default Event and Lessor agrees to accept performance from any such Financing Parties so long as such Financing Parties perform in accordance with the terms of this Lease. If Lessee, its affiliates or Financing Parties, fail to substantially cure such Default Event within the applicable cure period, Lessor may terminate the Lease. Lessee may terminate the lease with thirty (30) days written notice to Lessor. Upon termination of this Lease, Lessee shall have one hundred eighty (180) days to remove, plug, and/or abandon in place all Facilities of Lessee located on the Leased Premises in accordance with applicable permit requirements or other applicable statutes, rules or regulations.

**14. ASSIGNMENT.** (a) Lessor shall not sell, transfer, assign or encumber the Facilities or any part of Operations, Lessee's title or Lessee's rights under this Lease. (b) Lessee has the right to sell, assign, mortgage, pledge, transfer, use as collateral, or otherwise collaterally assign or convey all or any of its rights under this Lease, including, without limitation, an assignment by Lessee to Financing Parties. (c) In the event Lessee assigns its rights under this Lease, Lessee shall be relieved of all obligations with respect to the assigned portion arising after the date of assignment so long as notice

of such assignment is provided to Lessor, and provided that Lessee shall not be relieved from any obligation in respect of any payment or other obligations that have not been satisfied or performed prior to such date of assignment. (d) This Lease shall be binding on and inure to the benefit of the successors and assignees. The assigning Party shall provide written notice of any assignment within sixty (60) days after such assignment has become effective; provided, however, that an assigning Party's failure to deliver written notice of assignment within such 60-day period shall not be deemed a breach of this Lease unless such failure is willful and intentional. Further, no change or division in Lessor's ownership of or interest in the Leased Premises or royalties shall enlarge the obligations or diminish the rights of Lessee or be binding on Lessee until after Lessee has been furnished with a written assignment or a true copy of the assignment with evidence that same has been recorded with the Oliver County Recorder's Office.

**15. FINANCING.** (a) Lessor acknowledges that Lessee may obtain tax equity, construction, long-term financing and other credit support from one or more Financing Parties and that Lessee intends to enter into various agreements and execute various documents relating to such financing, which documents may, among other things, assign this Lease and any related easements to a Financing Party, grant a sublease in the Leased Premises and a lease of the Facilities from such Financing Party to Lessee, grant the Financing Parties a sublease or other real property interest in Lessee's interests in and to the Leased Premises, grant a first priority security interest in Lessee's interest in the Facilities and/or this Lease and Lessee's other interests in and to the Leased Premises, including, but not limited to, any easements, rights of way or similar interests (such documents, "Financing Documents"). Lessor acknowledges notice of the foregoing and consents to the foregoing actions and Financing Documents described above.

(b) Lessor agrees, to execute, and agrees to cause any and all of Lessor's lenders to execute, such commercially reasonable subordination agreements, non-disturbance agreements, forbearance agreements, consents, estoppels, modifications of this Lease and other acknowledgements of the foregoing as Lessee or the Financing Parties may reasonably request (collectively, "Lessor Financing Consent Instruments"). Lessor acknowledges and agrees that (i) Lessee's ability to obtain financing for the construction and operation of the Facilities is dependent upon the prompt cooperation of Lessor and its lenders as contemplated by this Section 15; (ii) if Lessee is unable to close on the financing for the Facilities, the construction of the Facilities and the Commencement of Operations will not likely occur; and (iii) it is in the best interest of both Lessee and Lessor for Lessee to obtain financing from the Financing Parties as contemplated by this Section 15. Therefore, Lessor agrees to act promptly, reasonably and in good faith in connection with any request for approval and execution of all Lessor Financing Consent Instruments. The Lessor shall also reasonably cooperate with the Lessee or the Financing Party in the making of any filings required by such requesting party for regulatory compliance or in accordance with applicable laws and in the operation and maintenance of the Facilities, all solely at the expense of the Lessee.

(c) As a precondition to exercising any rights or remedies as a result of any default or alleged default by Lessee under this Lease, Lessor shall deliver a duplicate copy of the applicable notice of default to each Financing Parties concurrently with delivery of such notice to Lessee, specifying in detail the alleged default and the required remedy, provided Lessor was given notice of such Financing Parties and if no such notice of default is required to be delivered to Lessee under this Lease, Lessor may not terminate this Lease unless Lessor has delivered a notice of default to each Financing Party specifying in detail the alleged default or breach and permitting each Financing Party the opportunity to cure as provided in this Section 15(c). Each Financing Party shall have the same period after receipt of a notice of default to remedy default, or cause the same to be remedied, as is given to Lessee after Lessee's receipt of a notice of default under this Lease, plus, in each instance, the following additional time periods: (i) ten (10) Business Days in the event of any monetary default; and (ii) sixty (60) days in the event of any non-monetary default; provided, however, that (A) such sixty (60)-day period shall be extended for an additional sixty 60 days to enable such Financing Party to complete such cure, including the time required for such Financing Party to obtain possession of the Facilities (including possession by a receiver), institute foreclosure proceedings or otherwise perfect its right to effect such cure and (B) such Financing Party shall not be required to cure those defaults which are not reasonably susceptible of being cured or performed. Lessor shall accept such performance by or at the instance of a Financing Party as if the performance had been made by Lessee.

(d) If any Lessee Default Event cannot be cured without obtaining possession of all or part of the Facilities and/or the leasehold interest created by the Lease (the "Leasehold Estate"), then any such Lessee Default Event shall nonetheless be deemed remedied if: (i) within sixty (60) days after receiving the notice of default, a Financing Party acquires possession thereof, or commences appropriate judicial or non-judicial proceedings to obtain the same; (ii) such Financing Party is prosecuting any such proceedings to completion with commercially reasonable diligence; and (iii) after gaining possession thereof, such Financing Party performs all other obligations as and when the same are due in accordance with the terms of the Lease. If a Financing Party is prohibited by any process or injunction issued by any court or by reason of any action of any court having jurisdiction over any bankruptcy or insolvency proceeding involving Lessee from commencing or prosecuting the proceedings described above, then the sixty (60)-day period specified above for commencing such proceedings shall be extended for the period of such prohibition.

(e) Financing Parties shall have no obligation or liability to the Lessor for performance of the Lessee's obligations under the Lease prior to the time the Financing Party acquires title to the Leasehold Estate. A Financing Party shall be required to perform the obligations of the Lessee under this Lease only for and during the period the Financing Party directly holds such Leasehold Estate. Any assignment pursuant to this Section 15 shall release the assignor from obligations accruing under this Lease after the date the liability is assumed by the assignee.

(f) Each Financing Party shall have the absolute right to do one, some or all of the following things: (i) assign the rights, mortgage or pledge held by Financing Party (the "Financing Party's Lien"); (ii) enforce the Financing Party's Lien; (iii) acquire title (whether by foreclosure, assignment in lieu of foreclosure or other means) to the Leasehold Estate; (iv) take possession of and operate the Facilities or any portion thereof and perform any obligations to be performed by Lessee under the Lease, or cause a receiver to be appointed to do so; (v) assign or transfer the Leasehold Estate to a third party; or (vi) exercise any rights of Lessee under this Lease. Lessor's consent shall not be required for any of the foregoing; and, upon acquisition of the Leasehold Estate by a Financing Party or any other third party who acquires the same from or on behalf of the Financing Party or any purchaser who purchases at a foreclosure sale, Lessor shall recognize the Financing Party or such other party (as the case may be) as Lessee's proper successor, and this Lease shall remain in full force and effect.

(g) If this Lease is terminated for any reason whatsoever, including a termination by Lessor on account of a Lessee Default Event, or if this Lease is rejected by a trustee of Lessee in a bankruptcy or reorganization proceeding or by Lessee as a debtor-in-possession (whether or not such rejection shall be deemed to terminate this Lease), if requested by Financing Party, Lessor shall execute a new lease (the "New Lease") for the Leased Premises with the Financing Parties (or their designee(s), if applicable) as Lessee, within thirty (30) days following the date of such request. The New Lease shall be on substantially the same terms and conditions as are in this Lease (except for any requirements or conditions satisfied by Lessee prior to the termination or rejection). Upon execution of the New Lease by Lessor, Financing Parties (or their designee, if applicable) shall pay to Lessor any and all sums owing by Lessee under this Lease that are unpaid and that would, at the time of the execution of the New Lease, be due and payable under this Lease if this Lease had not been terminated or rejected. The provisions of this Section 15(g) shall survive any termination of this Lease prior to the expiration of the Term, and any rejection of this Lease in any bankruptcy or reorganization proceeding.

(h) Lessor consents to each Financing Party's security interest, if any, in the Facilities and waives all right of levy for rent and all claims and demands of every kind against the Facilities, such waiver to continue so long as any sum remains owing from Lessee to any Financing Parties. Lessor agrees that the Facilities shall not be subject to distraint or execution by, or to any claim of, Lessor.

(i) Notwithstanding Lessor's obligations and consents under this Section 15 Lessor shall not be obligated to execute any mortgage or grant of security interest in Lessor's interest in and to the Leased Premises for the benefit of Lessee.

**16. INDEMNIFICATION; WAIVER.** (a) Each Party shall indemnify, defend, and hold harmless the other Party and its Related Persons from and against any and all third-party suits, claims, or damages suffered or incurred by the indemnified Party and its Related Persons arising out of

physical damage to property and physical injuries to any person, including death, caused by the indemnifying Party or its Related Persons except to the extent such claims arise out of the negligence or willful misconduct of the indemnified Party or its Related Persons. (b) Each Party shall indemnify, defend and hold harmless the other Party and its Related Persons from and against all suits, claims, or damages suffered or incurred by the indemnified Party and its Related Persons arising out of or relating to the existence at, on, above, below or near the Leased Premises of any Hazardous Substance, except to the extent deposited, spilled or otherwise caused by the indemnified Party or any of its contractors or agents, provided that Lessee shall not be obligated to indemnify Lessor with respect to any Hazardous Substance on the Leased Premises prior to the Effective Date.

**17. INSURANCE.** Lessee shall, at its sole cost and expense, keep and maintain in force commercial general liability insurance including broad form property damage liability, personal injury liability, and contractual liability coverage, on an "occurrence" basis, with a combined single limit, which may be effected by primary and excess coverage, of not less than Five Million Dollars (\$5,000,000.00) during the primary term, except that such limit in the Primary Term shall be instead not less than One Million Dollars (\$1,000,000.00) until such time as Lessee commences physical testing of any injection wells or other similar commercial activities, with such commercially reasonable deductibles as Lessee, in its discretion, may deem appropriate. Lessor shall be named as an additional insured in such policy but only to the extent of the liabilities specifically assumed by the Lessee under this Lease. The policy shall contain provisions by which the insurer waives any right of subrogation it may have against Lessor and shall be endorsed to provide that the insurer shall give Lessor thirty days written notice before any material modification or termination of coverage. Upon Lessor's request, Lessee shall promptly deliver certificates of such insurance to Lessor.

#### **18. MISCELLANEOUS.**

(a) **Confidentiality.** Lessor shall maintain in the strictest confidence, and shall require each of Lessor's Related Persons to hold and maintain in the strictest confidence, for the benefit of Lessee, all information pertaining to the compensation paid under this Lease, any information regarding Lessee and its business, operations on the Leased Premises or on any other lands, the capacity and suitability of the Reservoir, and any other information that is deemed proprietary or that Lessee requests or identifies to be held confidential, in each such case whether disclosed by Lessee or discovered by Lessor.

(b) **Liens.** (i) Lessee shall protect the Leased Premises from liens of every character arising from its activities on the Leased Premises, provided that Lessee may, at any time and without the consent of Lessor, encumber, hypothecate, mortgage, pledge, or collaterally assign (including by mortgage, deed of trust or personal property security instrument) all or any portion of Lessee's right, title or interest under this Lease (but not Lessor's right, title or interest in the Leased Premises), as security for the repayment of any indebtedness and/or the performance of any obligation. (ii) Lessor shall not directly or indirectly cause, create, incur, assume or allow to exist any mortgage, pledge, lien, charge, security interest, encumbrance or other claim of any nature on or with respect to the Facilities, Operations or any interest therein. Lessor shall immediately notify Lessee in writing of the existence of any such mortgage, pledge, lien, charge, security interest, encumbrance or other claim, shall promptly cause the same to be discharged and released of record without cost to Lessee, and shall indemnify the Lessee against all costs and expenses (including reasonable attorneys' fees) incurred in discharging and releasing any such mortgage, pledge, lien, charge, security interest, encumbrance or other claim.

(c) **Warranty of Title.** Lessor represents and warrants to Lessee that Lessor is the owner in fee of the surface and subsurface pore space of the Leased Premises. Lessor hereby warrants and agrees to defend title to the Leased Premises and Lessor hereby agrees that Lessee, at its option, shall have the right to discharge any tax, mortgage, or other lien upon the Leased Premises, and in the event Lessee does so, Lessee shall be subrogated to such lien with the right to enforce the same and apply annual rental payments or any other such payments due to Lessor toward satisfying the same. At any time on or after the Effective Date, Lessee may obtain for itself and/or any Financing Party, at Lessee's expense, a policy of title insurance in a form and with exceptions acceptable to Lessee and/or such Financing Party in its sole discretion (the "Title Policies"). Lessor agrees to cooperate fully and promptly with Lessee in its efforts to obtain the Title Policies, and Lessor shall take such actions as Lessee or any Financing Party may reasonably request in connection therewith.

(d) **Conduct of Operations.** Each Party shall, at its expense, use best efforts to comply (and cause its Related Persons to comply) in all material respects with all laws applicable to its (or their) activities on the Leased Premises, provided that each Party shall have the right, in its sole discretion, to contest, by appropriate legal proceedings, the validity or applicability of any law, and the other Party shall cooperate in every reasonable way in such contest, at no out-of-pocket expense to the cooperating Party. During the Primary Term, Lessee, its agents, affiliates, servants, employees, nominees and licensees shall be entitled to: (i) apply for and obtain any necessary permits, approvals and other governmental authorizations (collectively called "Governmental Authorizations") required for the development, construction, operation and maintenance of the Project and Lessor agrees to co-operate, execute, obtain or join with Lessee in any applications or proceedings relating to the Governmental Authorizations upon Lessee's written request and at Lessee's direction, cost and expense; and (ii) apply for any approvals and permits and any zoning amendment of any area of the Leased Premises required in connection with the Project, and Lessor agrees to co-operate, execute, obtain or join with Lessee in any applications or proceedings relating to such approvals, permits and zoning amendments upon Lessee's written request and at Lessee's direction, cost and expense.

(e) **Title to Carbon Dioxide.** As between Lessor and Lessee, all right, title, interest and ownership to all Carbon Dioxide injected into any Reservoir shall belong to Lessee, as measured by corresponding Storage Fee payment to Lessor.

(f) **Hazardous Substances.** Lessee shall have no liability for any regulated hazardous substances located on the Leased Premises prior to the Effective Date or placed in, on or within the Leased Premises by Lessor or any of its Related Persons on or after the Effective Date, and nothing in this Lease shall be construed to impose upon Lessee any obligation for the removal of such regulated hazardous substances.

(g) **Interference.** Lessee shall peaceably and quietly have, hold and enjoy the Leased Premises against any person claiming by, through or under the Lessor and without disturbance by the Lessor, unless Lessee is found in default of the terms of this Lease and such default is continuing. Lessor shall not unreasonably interfere with Lessee's access to or maintenance of the Facilities or associated use of Leased Premises under this Lease; endanger the safety of Lessor, Lessee, the general public, private or personal property, or the Facilities; or install or maintain or permit to be installed or maintained vegetation, undergrowth, trees (including overhanging limbs and foliage and any trees standing which are substantially likely to fall), buildings, structures, installations, and any other obstructions which unreasonably interfere to Lessee access or use of the Facilities, Formations or Lessee's use of the Leased Premises under this Lease. Lessor shall not engage in any activity or permit its Related Persons to engage in any activity that might damage or undermine the physical integrity of any Formation or interfere with Lessee's use of the Leased Premises under this Lease, provided however that it is understood by Lessee that Lessor has no right to permit or to prohibit the exercise of any mineral rights not owned by Lessor at the time of entering into the Option to Lease between Lessor and Lessee with respect to the Leased Premises. Neither Lessee nor its agents will engage in any activity that damages existing oil, gas and other mineral exploration and development activities occurring on the Leased Premises without first obtaining permission from the relevant mineral rights holder.

(h) **Reservations.** Lessor reserves the right to sell, lease, or otherwise dispose of any interest in the Leased Premises subject to the rights granted in this Lease and agrees that sales, leases, or other dispositions of any interest or estate in the Leased Premises shall be expressly made subject to the terms of this Lease and shall not unreasonably interfere with Lessee's rights under this Lease.

(i) **Taxes.** Lessor shall pay for all real estate taxes and other assessments levied upon the Leased Premises. Lessee shall pay any taxes, assessments, fines, fees, and other charges levied by any governmental authority against its Facilities on the Leased Premises. The Parties agree to cooperate fully to obtain any available tax refunds or abatement with respect to the Leased Premises. Lessee shall have the right to pay all taxes, assessments and other fees on behalf of Lessor and to deduct the amount so paid from other payments due to Lessor hereunder.

(j) **Amendments.** Lessee reserves the right to revise this Lease to remedy any mistakes, including correcting the names of the Parties, the legal description of the Leased Premises, or otherwise. In the event that any amendment alters the bonus and royalty payable under Section 5(a)-(b) of this Lease, the Lessee shall pay the Lessor the amount owed under the Lease as amended. Any amendments must be in writing

and signed by both parties.

(k) **Remedies.** Notwithstanding anything to the contrary in this Lease, neither Party shall be liable to the other for any indirect, special, punitive, incidental or exemplary damages, whether foreseeable or not and whether arising out of or in connection with this Lease, by statute, in contract, tort, including negligence, strict liability or otherwise, and all such damages are expressly disclaimed.. This provision does not limit Lessee's obligation to indemnify Lessor for third-party suits, claims, or damages under Section 16 of this Lease.

(l) **Financial Responsibility.** Lessee will comply with all applicable law regarding financial responsibility for Carbon Dioxide storage, and will post bonds or other financial guarantees as required by the government entities.

(m) **Attorneys' Fees.** If any suit or action is filed or arbitration commenced by either Party against the other Party to enforce this Lease or otherwise with respect to the subject matter of this Lease, the prevailing party shall be entitled to recover reasonable costs and attorneys' fees incurred in investigation of related matters and in preparation for and prosecution of such suit, action, or arbitration as fixed by the arbitrator or court, and if any appeal or other form of review is taken from the decision of the arbitrator or any court, reasonable costs and attorneys' fees as fixed by the court.

(n) **Representations and Warranties.** Lessor represents and warrants to Lessee the following as of the Effective Date and covenants that throughout the Term: (i) Lessor has the full right, power and authority to grant rights, interests and license as contained in this Lease. Such grant of the right, interests and license does not violate any law, ordinance, rule or other governmental restriction applicable to the Lessor or the Leased Premises and is not inconsistent with and will not result in a breach or default under any agreement by which the Lessor is bound or that affects the Leased Premises. (ii) Neither the execution and delivery of this Lease by Lessor nor the performance by Lessor of any of its obligations under this Lease conflicts with or will result in a breach or default under any agreement or obligation to which Lessor is a party or by which Lessor or the Leased Premises is bound. (iii) All information provided by Lessor to Lessee, as it pertains to the Leased Premises' physical condition, along with Lessor's rights, interests and use of the Leased Premises, is accurate in all material respects. (iv) Lessor has no actual or constructive notice or knowledge of Hazardous Substances at, on, above, below or near the Leased Premises. (v) Each of the undersigned represents and warrants that they have the authority to execute this Lease on behalf of the Party for which they are signing.

(o) **Severability.** Should any provision of this Lease be held, in a final and unappealable decision by a court of competent jurisdiction, to be either invalid, void or unenforceable, the remaining provisions of this Lease shall remain in full force and effect, unimpaired by the holding. If the easements or other rights under this Lease are found to be in excess of the longest duration permitted by applicable law, the term of such easements or other rights shall instead expire on the latest date permitted by applicable law.

(p) **Memorandum of Lease.** This Lease shall not be recorded in the real property records. Lessee shall cause a memorandum of this Lease to be recorded in the real property records of the county in which the Leased Premises is situated. A recorded copy of said memorandum shall be furnished to Lessor within thirty (30) days of recording.

(q) **Notices.** All notices required to be given under this Lease shall be in writing, and shall be deemed to have been given upon (a) personal delivery, (b) one (1) Business Day after being deposited with FedEx or another reliable overnight courier service, with receipt acknowledgment requested, or (c) upon receipt or refused delivery deposited in the United States mail, registered or certified mail, postage prepaid, return receipt required, and addressed to the respective Party at the addresses set forth at the beginning of this Lease, or to such other address as either Party shall from time to time designate in writing to the other Party.

(r) **No Waiver.** The failure of either Party to insist in any one or more instances upon strict performance of any of the provisions of this Lease or to take advantage of any of its rights hereunder shall not be construed as a waiver of any such provision or the relinquishment of any such rights, but the same shall continue and remain in full force and effect.

(s) **Estoppels.** Either party hereto (the "Receiving Party"), without charge, at any time and from time to time, within ten (10) Business Days after receipt of a written request by the other party hereto (the

"Requesting Party"), shall deliver a written statement, duly executed, certifying to such Requesting Party, or any other person, firm or entity specified by such Requesting Party: (i) that this Lease is unmodified and in full force and effect, or if there has been any modification, that the same is in full force and effect as so modified and identifying the particulars of such modification; (ii) whether or not, to the knowledge of the Receiving Party, there are then existing any offsets or defenses in favor of such Receiving Party against enforcement of any of the terms, covenants and conditions of this Lease and, if so, specifying the particulars of same and also whether or not, to the knowledge of such Receiving Party, the Requesting Party has observed and performed all of the terms, covenants and conditions on its part to be observed and performed, and if not, specifying the particulars of same; and (iii) such other information as may be reasonably requested by the Requesting Party. Any written instrument given hereunder may be relied upon by the recipient.

(t) **Counterparts.** This Lease may be executed in any number of counterparts, each of which, when executed and delivered, shall be an original, but all of which shall collectively constitute one and the same instrument.

(u) **Governing Law.** This Lease shall be governed, interpreted, and enforced in accordance with the laws of the state of North Dakota.

(v) **Further Action.** Each Party will execute and deliver all documents, provide all information, and take or forbear from all actions as may be necessary or appropriate to achieve the purposes of this Lease, including without limitation executing a memorandum of easement and all documents required to obtain any necessary government approvals.

(w) **Entire Agreement.** This Lease, into which the attached **Exhibit A** is incorporated by reference, contains the entire agreement of the Parties. There are no other conditions, agreements, representations, warranties, or understandings, express or implied.

*[Remainder of page intentionally left blank. Signature page follows.]*

IN WITNESS OF THE ABOVE, Lessor and Lessee have caused this Lease to be executed and delivered by their duly authorized representatives as of the Effective Date.

## WARRANTY DEED

THIS INDENTURE, made this 16<sup>th</sup> day of June, 2023, between **JOHNELL J. KUSLER and GEOFFREY E. TAYLOR**, wife and husband, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116 AND **MILDA L. HEDBLOM, a/k/a MILDA K. HEDBLOM and EDWIN FOGELMAN**, wife and husband, whose post office address is 1801 Summit Avenue, St. Paul, Minnesota 55105, Grantors; and **KURT M. SWENSON and FAYE B. SWENSON Trustees of the Swenson Living Trust dated May 19, 2023**, whose post office address is 5774 21<sup>st</sup> Street SW, Beulah, North Dakota 58523, Grantees.

WITNESSETH, for and in consideration of the sum of One Hundred Eighty-Four Thousand Four Hundred and Eighty-Six Dollars (\$184,486.00), Grantors do hereby GRANT to said Grantees all of the following real property lying and being in the County of Oliver, and State of North Dakota and described as follows, to-wit:

**Outlot "B" located in the East Half (E½) of the Northwest Quarter (NW¼) of Section Seven (7), Township One Hundred Forty-Two (142) North, Range Eighty-Seven (87) West of the 5<sup>th</sup> P.M., Oliver County, North Dakota LESS Lot One (1) of said Outlot "B".**

The above legal description was obtained from a previously recorded instrument.

The Grantors except and reserve unto themselves all of the oil, gas, coal, and all other minerals presently owned by them and located in and under the above described real property, together with the right of ingress and egress at all times for the purpose of mining, drilling, exploring, operating and developing said lands for oil, gas, coal, and all other minerals containing fissionable materials, and all other minerals, and storing, handling, transporting and marketing the same therefrom with the right to remove from said land all of the Grantees' property and improvements.

And the said Grantors, for themselves, their successors and assigns, do covenant with the

**To:** Derrick Braaten  
**Cc:** McCrum, Timothy; Weir, Pat  
**Subject:** Contractor access for survey work on K-1 Alternative parcels

[Warning: External Sender]

Mr. Braaten,

As you know, I work with Billings County as local counsel on the Short's NEPA litigation and have otherwise worked with Billings County as special counsel for many years. Per your request of Tim McCrum last Wednesday, you asked that all right-of-way communications from KLJ to you clients should be transmitted solely through you. As such, I write to confirm that KLJ will have consultants on the Short parcels tomorrow in order to conduct the surveying identified in the attached March 12, 2020 letter. They may continue day to day if the work is not complete tomorrow. This plan was discussed yesterday during the status conference with the Federal Magistrate Judge, but I wanted to reiterate it in writing for everyone's confirmation. This type of pre-condemnation access is allowed by state law without an access agreement and without payment pursuant to NDCC 32-15-06 so long as the contractors conduct themselves in a manner that creates the least possible private injury and so long as they repair any damage that may be occasioned. No damage is expected, but the contractors will repair any damage caused.

If you have any questions or comments, please do not hesitate to contact me.

Tami Norgard

Ms. Norgard:

I disagree with your legal conclusions. Mr. Short is, however, communicating to the tenants that they should not obstruct surveyor access in the next week. This should not be construed as a waiver or acquiescence.

**Subject:** Short v. Billings County

[Warning: External Sender]

Hi Derrick and JJ,

I tried to call your office today, but it appears your office is closed, so I will initiate this discussion by email. Per the KLJ letter dated March 12 to Shorts, the discussion in Federal Court on Tuesday and my confirming email yesterday, KLJ has surveyors on the Short property today to conduct the survey work indicated in the March 12 letter. Apparently, they

were stopped by the Short's tenants today, who threatened to call the Sheriff if KLJ steps foot off public roadways. Clearly the survey work will require them to step off the roadways, starting tomorrow. We are arming the Sheriff with appropriate information to respond to any tenant complaints. That said, you indicated that you wanted all landowner communication to be run through you, so I'm asking if you will please reach out to the Shorts' and their tenants and advise that KLJ has the right to survey the property, pursuant to NDCC 32-15-06.

**32-15-06. Entry for making surveys.**

In all cases when land is required for public use, the person or corporation, or the person's or corporation's agents, in charge of such use may survey and locate the same, but it must be located in the manner which will be compatible with the greatest public benefit and the least private injury and subject to the provisions of section 32-15-21. Whoever is in charge of such public use may enter upon the land and make examinations, surveys, and maps thereof, and such entry constitutes no claim for relief in favor of the owner of the land except for injuries resulting from negligence, wantonness, or malice.

KLJ has approximately 3-5 days of survey work on the property. I hope a discussion with the Sheriff isn't necessary. Please call me on my cell phone if you have questions or comments 218-790-1437.

Thank you,

Tami Norgard

Re: Research and Survey

Dear Sandra Short:

The purpose of this letter is a follow up to the letter mailed & dated March 12, 2020 and to notify you that crews have begun and will continue to be working in the area.

Contractors will conduct various survey activities that are necessary for us to complete the project, pursuant to the authority granted to the County pursuant to North Dakota Century Code 32-15-06 and 24-05-09. The surveys would generally consist of the following:

- Topographic Survey—A survey crew measuring the location and elevation of landforms and various features such as utility lines (above and below ground), property, and building corners.
- Soil Survey— A geotechnical engineering firm will be taking soil borings in order to analysis the soil at vary depths. To complete this operation a drilling truck will be used.

Be advised that the consultants will make every effort to cause no damage to your property. They want to complete the survey work now, while the ground is frozen, to cause the least private injury possible. If there is any damage occasioned by the access, Billings County will make sure the repairs are completed or injury remedied.

If you have questions or concerns regarding any of the information listed above, please contact KLJ Agent, Denese McLeish, at (701)355-8741 or email [denese.mcleish@kljeng.com](mailto:denese.mcleish@kljeng.com).

Sincerely,

A handwritten signature in cursive script that reads 'Denese McLeish'.

STATE OF NORTH DAKOTA

DISTRICT COURT

COUNTY OF BOTTINEAU

NORTHEAST JUDICIAL DISTRICT

Northwest Landowners Association,  
  
Plaintiff,

v.

State of North Dakota, North Dakota Industrial  
Commission, Hon. Douglas Burgum in his  
official capacity as Governor of the State of  
North Dakota and as the Chairman and a  
member of the North Dakota Industrial  
Commission, and Hon. Drew Wrigley in his  
official capacity as Attorney General of North  
Dakota and as a member of the North Dakota  
Industrial Commission, and Hon. Doug  
Goehring in his official capacity as Agriculture  
Commissioner of North Dakota and as a  
member of the North Dakota Industrial  
Commission,

Defendants.

Case No. 05-2023-CV-00065

**PLAINTIFF NORTHWEST LANDOWNERS ASSOCIATION'S FOURTH  
SUPPLEMENTAL ANSWERS AND RESPONSES TO STATE DEFENDANTS' FIRST  
INTERROGATORIES AND REQUEST FOR PRODUCTION OF DOCUMENTS TO  
PLAINTIFF**

**TO: STATE DEFENDANTS AND THEIR ATTORNEYS OF RECORD:**

**INTERROGATORIES**

**Interrogatory No. 1:** Identify the name and title or position of each person who  
participated in preparing the answers to these interrogatories.

**ANSWER:** Troy Coons, President; Bob Grant, Treasurer. Legal counsel and staff also

assisted with these answers and responses.

**Interrogatory No. 2:** Identify the name, current address, contact information, and title or position of each person you will be calling, or anticipate that you may be calling, as a non-expert witness at trial or for any other proceedings in this litigation. For each person so identified, also state the anticipated substance of the person's testimony.

**OBJECTION:** Plaintiffs object to this interrogatory as calling for attorney work product and premature disclosure of witnesses. This interrogatory is also objected to because it exceeds the scope of discoverable information pursuant to N.D.R.Civ.P. with respect to its demand for identification of witnesses "for any other proceedings in this litigation." Witnesses will be disclosed according to this Court's scheduling order.

**Interrogatory No. 3:** Identify each document, communication, or tangible thing that you will or might use as an exhibit at trial or for any other proceedings in this litigation. For each document, communication, or tangible thing so identified, state:

- (1) the name, address, and contact information of the individuals who have custody of each original document, communication, or tangible thing;
- (2) the name, address, and contact information of the individuals involved in creating or acquiring each document, communication, or tangible thing.

**OBJECTION:** Plaintiffs object to this interrogatory as calling for attorney work product and premature disclosure of exhibits. This interrogatory is also objected to because it exceeds the scope of discoverable information pursuant to N.D.R.Civ.P. with respect to its demand for identification of exhibits "for any other proceedings in this litigation." Exhibits will be disclosed according to this Court's scheduling order.

**Interrogatory No. 4:** Identify the name, current address, contact information, and title or position of each expert witness you anticipate calling at trial or for any other proceedings in this litigation, to include any experts whom you expect to submit an expert report in this litigation. With respect to each person so identified, state:

- (1) The professional qualifications of the expert witness;
- (2) The subject matter on which the expert witness is expected to testify;
- (3) The substance of the facts and opinions to which the expert witness is expected to testify; and
- (4) A summary of the grounds for each opinion to be expressed by the expert witness.

**OBJECTION:** Plaintiff objects to this interrogatory to the extent it requests information exceeding the requirements of N.D.R.Civ.P. 26 and this Court's scheduling order, and specifically the demand to identify witnesses who may be called "for any other proceedings in this litigation."

**ANSWER:** At this time Plaintiff does not anticipate calling expert witnesses at trial except as necessary for rebuttal.

**Interrogatory No. 5:** Pertaining to the claims in your Complaint challenging N.D.C.C. § 38-22-10 (relating to the Industrial Commission's authority to amalgamate property interests for pore space storage of carbon dioxide), identify:

- a. The name, address, and contact information for each member of your organization that you claim owns real property where the pore space is or will be subject to an amalgamation order pursuant to N.D.C.C. § 38-22-10, as well as the date when that individual became a member of your organization;
- b. For each member of your organization so identified, further provide:

- (i) the legal description(s) of the member's real property(ies) that you claim is or will be affected by an amalgamation order;
- (ii) the date(s) when the member was presented with a voluntary lease, easement, or other contract for the storage of carbon dioxide in the pore space of the affected real property(ies);
- (iii) the date(s) when the member accepted or rejected any such voluntary lease, easement, or contract for the storage of carbon dioxide in the pore space of the affected real property(ies);
- (iv) the date(s) of the order(s) (or other directive(s), however styled) from the Industrial Commission subjecting the member's affected real property(ies) to amalgamation for the storage of carbon dioxide without the member's consent;
- (v) the date(s) when the member's affected real property interests became or will become subject to amalgamation for the storage of carbon dioxide without the member's consent;
- (vi) the compensation or payments that the member has received, is receiving, or will receive for the storage of carbon dioxide in the affected real property(ies);
- (vii) how, if at all, the member is currently using the pore space of the affected real property(ies) or intends to use the pore space of the affected real property(ies); and
- (viii) a brief description of the member's basis for opposing the storage of carbon dioxide in the affected real property(ies), and any additional information you believe would assist State Defendants in identifying and validating the member's claim of possessing affected real property(ies).

- c. If you claim that you—as an organization—possess any real property(ies) that have been or will be subject to an amalgamation order pursuant to N.D.C.C. 38-22-10, provide the same information requested in the preceding subsection.

**OBJECTION:** Plaintiffs object to this interrogatory as irrelevant and not reasonably calculated to lead to discoverable evidence, and as overly burdensome and not reasonably proportional to the needs of this matter. Additionally, the State of ND has indicated that it intends to attempt to depose the members of NWLA who are listed in these interrogatories. These interrogatories and the State's intended depositions are unreasonable and unnecessary and NWLA will seek a protective order to prevent the taking of such depositions.

Further, subsections b (ii), (iii), (vi), (vii), and (viii) are improper and irrelevant on their face and appear to be interposed for the purpose of harassing NWLA and its members. The other parts of this interrogatory appear intended to obtain information regarding NWLA's standing to bring this lawsuit, although they are also unreasonably invasive and at times overly broad.

The United States Supreme Court and the Supreme Court of North Dakota recognize associational standing when, as in the case at bar, the plaintiff organization is seeking injunctive relief. *Hunt v. Washington State Apple Adver. Comm'n*, 432 U.S. 333 (1977); *First Intern. Bank v. Peterson*, 797 N.W.2d 316, 2011 ND 87. An organization may have associational standing and may sue on its members' behalf, where: "(a) [at least some of] its members would otherwise have standing to sue in their own right; (b) the interests it seeks to protect are germane to the organization; and (c) neither the claim asserted nor the relief requested requires the participation of individual members in the lawsuit." *Nodak Mut. Ins.*, 2004 ND 60, ¶ 14, 676 N.W.2d 752; *see also Hunt*, 432 U.S. at 343. NWLA meets the requirements for associational standing. NWLA's members include many landowners in the oil patch and the area where numerous carbon dioxide

sequestration projects have been permitted or planned, and who own pore space impacted by the unconstitutional provisions in N.D.C.C. ch. 38-22 and chapter 38-25. The interests that NWLA seeks to protect are germane to its purpose of protecting landowners and maintaining a balance in resource development and property rights of individuals. The constitutional claims asserted by NWLA and the injunctive relief requested by NWLA do not require individualized proof from its members and their participation in the lawsuit is not otherwise required. This interrogatory is a tactic being utilized to engage NWLA in a discovery dispute such that the State Defendants can then claim that the individualized proof of members and their participation is required in the lawsuit, and the fact that they have disclosed information in response is evidence of this. Although NWLA will provide some limited information in support of its associational standing, the invasive attempts to depose NWLA members and make its standing a focal point for this litigation is inappropriate and NWLA objects to these transparent attempts to create an issue where none exists, and by providing limited relevant information as it agreed to do in informal conversations with the State Defendants it is not conceding that this discovery is appropriate and objects to the same.

Significantly, NWLA has direct standing to assert the claims in its Complaint. One way for an organization to show direct organizational standing is to show that it has devoted significant resources to identify and counteract the deprivation of civil rights and the unconstitutional attack on private property rights that is inherent in the statutory provisions being challenged here. NWLA has been engaged with its legal counsel for years at the legislative session trying to defend private property rights, and it has expended most of the money, time, and resources it has ever held in this defense. The laws here being challenged undermine not only the very basis of and sanctity of private property rights in North Dakota, but strike at the heart of NWLA's existence as an organization because without private property to defend, NWLA loses its reason to exist. "Such

concrete and demonstrable injury to the organization's activities -- with the consequent drain on the organization's resources -- constitutes far more than simply a setback to the organization's abstract social interests." *Havens Realty Corp. v. Coleman*, 455 U.S. 363, 379, 102 S. Ct. 1114, 1124 (1982). In general, NWLA exists as an organization to defend landowners' property rights. When the government takes those property rights away, there is nothing for an organization like NWLA left to protect.

**ANSWER:** Notwithstanding the objections above and without conceding these objections, NWLA answers as follows.

NWLA's members include many landowners in the oil patch where gas storage projects are most likely to occur (see <https://www.ndlegis.gov/sites/default/files/resource/67-2021/library/sb2065.pdf>) and the area where numerous carbon dioxide sequestration projects have been permitted or planned, and who own pore space impacted by the unconstitutional provisions in N.D.C.C. ch. 38-22 and chapter 38-25. The interests that NWLA seeks to protect are germane to its purpose of protecting landowners and maintaining a balance in resource development and property rights of individuals.

NWLA has devoted significant resources to identify and counteract the deprivation of civil rights and the unconstitutional attack on private property rights that is inherent in the statutory provisions being challenged here. NWLA has been engaged with its legal counsel for years at the legislative session trying to defend private property rights, and it has expended most of the money, time, and resources it has ever held in this defense. It has held conferences and community meetings, disseminated data and information, paid to compile expensive and lengthy reports, organized members, commented on agency rulemaking, lobbied at the legislature, and generally spent its entire existence fighting for the farmers and ranchers, and other private property owners

of North Dakota. NWLA stands behind the landowners of North Dakota, and stands up for them, and the laws here being challenged undermine not only the very basis of and sanctity of private property rights in North Dakota, but strike at the heart of NWLA's existence as an organization because without private property to defend, NWLA loses its reason to exist. "Such concrete and demonstrable injury to the organization's activities -- with the consequent drain on the organization's resources -- constitutes far more than simply a setback to the organization's abstract social interests." *Havens Realty Corp. v. Coleman*, 455 U.S. 363, 379, 102 S. Ct. 1114, 1124 (1982).

NWLA also has members who are directly impacted by the challenged laws.

**FOURTH SUPPLEMENTAL ANSWER:**

Surveys were sent to all members on November 14, 2023. As of January 8, 2024, we received 103 responses back from the surveys. The answers were as follows:

9 members answered "yes" to the question: have you ever been involved in eminent domain or a condemnation proceeding?

26 members answered "yes" to the question: "Have had ever had anyone threaten to use eminent domain against you?"

73 members have had requests/demands for access to conduct surveys on their land.

12 members have had someone threaten to do surveys over their objection or they have used eminent domain or condemnation to do surveys.

14 members have had someone ask them about leasing or giving an easement or other agreement for pore space for carbon sequestration or gas storage or something similar.

4 members have leased their pore space or signed any other agreement for use of pore space.

See bates stamped documents labeled NWLA SUPP-048-152. These documents have been redacted to protect the members' identity.

**Interrogatory No. 6:** Pertaining to the claims in your Complaint challenging N.D.C.C. § 38-25-08 (relating to the Industrial Commission's authority to amalgamate property interests for pore space storage of oil and gas), identify:

- a. The name, address, and contact information for each member of your organization that you claim owns real property where the pore space is or will be subject to an amalgamation order pursuant to N.D.C.C. § 38-25-08, as well as the date when that individual became a member of your organization;
- b. For each member or your organization so identified, further provide:
  - (i) the legal description(s) of the member's real property(ies) that you claim is or will be affected by an amalgamation order;
  - (ii) the date(s) when the member was presented with a voluntary lease, easement, or other contract for the storage of oil and/or gas in the pore space of the affected real property(ies);
  - (iii) the date(s) when the member accepted or rejected any such voluntary lease, easement, or contract for the storage of oil and/or gas in the pore space of the affected real property(ies);

(iv) the date(s) of the order(s) (or other directive(s), however styled) from the Industrial Commission subjecting the member's affected real property(ies) to amalgamation for the storage of oil and/or gas without the member's consent;

(v) the date(s) when the member's affected real property interests became or will become subject to amalgamation for the storage of oil and/or gas without the members' consent;

(vi) the compensation or payments that the member has received, is receiving, or will receive for the storage of oil and/or gas in the affected real property(ies);

(vii) how, if at all, the member is currently using the pore space of the affected real property(ies) or intends to use the pore space of the affected real property(ies); and

(viii) a brief description of the member's basis for opposing the storage of oil and/or gas in the affected real property(ies), and any additional information you believe would assist State Defendants in identifying and validating the member's claim of possessing affected real property.

- c. If you claim that you—as an organization—possess any real property(ies) that have been or will be subject to an amalgamation order pursuant to N.D.C.C. 38-25-08, provide the same information requested in the preceding subsection.

**OBJECTION:** Plaintiffs object to this interrogatory as irrelevant and not reasonably calculated to lead to discoverable evidence, and as overly burdensome and not reasonably proportional to the needs of this matter. Additionally, the State of ND has indicated that it intends to attempt to depose the members of NWLA who are listed in these interrogatories. These interrogatories and the State's intended depositions are unreasonable and unnecessary and NWLA will seek a protective order to prevent the taking of such depositions.

Further, subsections b (ii), (iii), (vi), (vii), and (viii) are improper and irrelevant on their face and appear to be interposed for the purpose of harassing NWLA and its members. The other parts of this interrogatory appear intended to obtain information regarding NWLA's standing to bring this lawsuit, although they are also unreasonably invasive and at times overly broad.

The United States Supreme Court and the Supreme Court of North Dakota recognize associational standing when, as in the case at bar, the plaintiff organization is seeking injunctive relief. *Hunt v. Washington State Apple Adver. Comm'n*, 432 U.S. 333 (1977); *First Intern. Bank v. Peterson*, 797 N.W.2d 316, 2011 ND 87. An organization may have associational standing and may sue on its members' behalf, where: "(a) [at least some of] its members would otherwise have standing to sue in their own right; (b) the interests it seeks to protect are germane to the organization; and (c) neither the claim asserted nor the relief requested requires the participation of individual members in the lawsuit." *Nodak Mut. Ins.*, 2004 ND 60, ¶ 14, 676 N.W.2d 752; *see also Hunt*, 432 U.S. at 343. NWLA meets the requirements for associational standing. NWLA's members include many landowners in who own property impacted by the unconstitutional provisions in N.D.C.C. ch. 38-22 and chapter 38-25. The interests that NWLA seeks to protect are germane to its purpose of protecting landowners and maintaining a balance in resource development and property rights of individuals. The constitutional claims asserted by NWLA and the injunctive relief requested by NWLA do not require individualized proof from its members and their participation in the lawsuit is not otherwise required. This interrogatory is a tactic being utilized to engage NWLA in a discovery dispute such that the State Defendants can then claim that the individualized proof of members and their participation is required in the lawsuit, and the fact that they have disclosed information in response is evidence of this. Although NWLA will provide some limited information in support of its associational standing, the invasive attempts to depose

NWLA members and make its standing a focal point for this litigation is inappropriate and NWLA objects to these transparent attempts to create an issue where none exists, and by providing limited relevant information as it agreed to do in informal conversations with the State Defendants it is not conceding that this discovery is appropriate and objects to the same.

Significantly, NWLA has direct standing to assert the claims in its Complaint. One way for an organization to show direct organizational standing is to show that it has devoted significant resources to identify and counteract the deprivation of civil rights and the unconstitutional attack on private property rights that is inherent in the statutory provisions being challenged here. NWLA has been engaged with its legal counsel for years at the legislative session trying to defend private property rights, and it has expended most of the money, time, and resources it has ever held in this defense. The laws here being challenged undermine not only the very basis of and sanctity of private property rights in North Dakota, but strike at the heart of NWLA's existence as an organization because without private property to defend, NWLA loses its reason to exist. "Such concrete and demonstrable injury to the organization's activities -- with the consequent drain on the organization's resources -- constitutes far more than simply a setback to the organization's abstract social interests." *Havens Realty Corp. v. Coleman*, 455 U.S. 363, 379, 102 S. Ct. 1114, 1124 (1982). In general, NWLA exists as an organization to defend landowners' property rights. When the government takes those property rights away, there is nothing for an organization like NWLA left to protect.

**ANSWER:** Notwithstanding the objections above and without conceding these objections, NWLA answers as follows.

NWLA's members include many landowners in the oil patch where gas storage projects are most likely to occur (*see* <https://www.ndlegis.gov/sites/default/files/resource/67->

[2021/library/sb2065.pdf](#)) and the area where numerous carbon dioxide sequestration projects have been permitted or planned, and who own pore space impacted by the unconstitutional provisions in N.D.C.C. ch. 38-22 and chapter 38-25. The interests that NWLA seeks to protect are germane to its purpose of protecting landowners and maintaining a balance in resource development and property rights of individuals.

NWLA has devoted significant resources to identify and counteract the deprivation of civil rights and the unconstitutional attack on private property rights that is inherent in the statutory provisions being challenged here. NWLA has been engaged with its legal counsel for years at the legislative session trying to defend private property rights, and it has expended most of the money, time, and resources it has ever held in this defense. It has held conferences and community meetings, disseminated data and information, paid to compile expensive and lengthy reports, organized members, commented on agency rulemaking, lobbied at the legislature, and generally spent its entire existence fighting for the farmers and ranchers, and other private property owners of North Dakota. NWLA stands behind the landowners of North Dakota, and stands up for them, and the laws here being challenged undermine not only the very basis of and sanctity of private property rights in North Dakota, but strike at the heart of NWLA's existence as an organization because without private property to defend, NWLA loses its reason to exist. "Such concrete and demonstrable injury to the organization's activities -- with the consequent drain on the organization's resources -- constitutes far more than simply a setback to the organization's abstract social interests." *Havens Realty Corp. v. Coleman*, 455 U.S. 363, 379, 102 S. Ct. 1114, 1124 (1982).

**FOURTH SUPPLEMENTAL ANSWER:**

Surveys were sent to all members on November 14, 2023. As of January 8, 2024, we received 103 responses back from the surveys. The answers were as follows:

9 members answered “yes” to the question: have you ever been involved in eminent domain or a condemnation proceeding?

26 members answered “yes” to the question: “Have had ever had anyone threaten to use eminent domain against you?”

73 members have had requests/demands for access to conduct surveys on their land.

12 members have had someone threaten to do surveys over their objection or they have used eminent domain or condemnation to do surveys.

14 members have had someone ask them about leasing or giving an easement or other agreement for pore space for carbon sequestration or gas storage or something similar.

4 members have leased their pore space or signed any other agreement for use of pore space.

See bates stamped documents labeled NWLA SUPP-048-152. These documents have been redacted to protect the members’ identity.

**Interrogatory No. 7:** Pertaining to the claims in your Complaint challenging N.D.C.C. § 32-15-06 (relating to public use entry for surveys) and N.D.C.C. § 24-05-09 (relating to public use entry for roadway surveys by boards of county commissioners), identify:

- a. The names, addresses, and contact information for each member of your organization that you claim has been or will be affected by an entry for purposes of conducting a

survey or examination under either N.D.C.C. § 32-15-06 or N.D.C.C. § 24-05-09, as well as the date when that individual became a member of your organization;

b. For each member or your organization so identified, further provide:

(i) the legal description(s) of the member's real property(ies) that you claim was or will be affected by an entry for survey or examination;

(ii) the date(s) when the affected real property(ies) was or will be affected by an entry for survey or examination;

(iii) information sufficient to identify, if any, the litigation, complaints, or other public grievances the member has made or is involved in concerning any such entries for survey or examination of the affected real property(ies); and

(iv) a brief description of any such entries for survey or examination of the affected real property(ies), to include the alleged duration, impacts, and reasons for entry, and any additional information you believe would assist State Defendants in identifying and validating the member's claim of possessing affected real property.

c. If you claim that you—as an organization—possess any real property(ies) that has been or will be affected by an entry for surveys or examination under N.D.C.C. § 32-15-06 and/or N.D.C.C. § 24-05-09, provide the same information requested in the preceding subsection.

**OBJECTION:** Plaintiffs object to this interrogatory as irrelevant and not reasonably calculated to lead to discoverable evidence, and as overly burdensome and not reasonably proportional to the needs of this matter. Additionally, the State of ND has indicated that it intends to attempt to depose the members of NWLA who are listed in these interrogatories. These

interrogatories and the State's intended depositions are unreasonable and unnecessary and NWLA will seek a protective order to prevent the taking of such depositions.

Further, subsection b (iii) is improper and irrelevant on its face and appears to be interposed for the purpose of harassing NWLA and its members. The other parts of this interrogatory appear intended to obtain information regarding NWLA's standing to bring this lawsuit, although they are also unreasonably invasive and at times overly broad.

The United States Supreme Court and the Supreme Court of North Dakota recognize associational standing when, as in the case at bar, the plaintiff organization is seeking injunctive relief. *Hunt v. Washington State Apple Adver. Comm'n*, 432 U.S. 333 (1977); *First Intern. Bank v. Peterson*, 797 N.W.2d 316, 2011 ND 87. An organization may have associational standing and may sue on its members' behalf, where: "(a) [at least some of] its members would otherwise have standing to sue in their own right; (b) the interests it seeks to protect are germane to the organization; and (c) neither the claim asserted nor the relief requested requires the participation of individual members in the lawsuit." *Nodak Mut. Ins.*, 2004 ND 60, ¶ 14, 676 N.W.2d 752; *see also Hunt*, 432 U.S. at 343. NWLA meets the requirements for associational standing. NWLA's members include many landowners in who own property impacted by the unconstitutional provisions in N.D.C.C. § 32-15-06 and N.D.C.C. § 24-05-09. The interests that NWLA seeks to protect are germane to its purpose of protecting landowners and maintaining a balance in resource development and property rights of individuals. The constitutional claims asserted by NWLA and the injunctive relief requested by NWLA do not require individualized proof from its members and their participation in the lawsuit is not otherwise required. This interrogatory is a tactic being utilized to engage NWLA in a discovery dispute such that the State Defendants can then claim that the individualized proof of members and their participation is required in the lawsuit, and the fact

that they have disclosed information in response is evidence of this. Although NWLA will provide some limited information in support of its associational standing, the invasive attempts to depose NWLA members and make its standing a focal point for this litigation is inappropriate and NWLA objects to these transparent attempts to create an issue where none exists, and by providing limited relevant information as it agreed to do in informal conversations with the State Defendants it is not conceding that this discovery is appropriate and objects to the same.

Significantly, NWLA has direct standing to assert the claims in its Complaint. One way for an organization to show direct organizational standing is to show that it has devoted significant resources to identify and counteract the deprivation of civil rights and the unconstitutional attack on private property rights that is inherent in the statutory provisions being challenged here. NWLA has been engaged with its legal counsel for years at the legislative session trying to defend private property rights, and it has expended most of the money, time, and resources it has ever held in this defense. The laws here being challenged undermine not only the very basis of and sanctity of private property rights in North Dakota, but strike at the heart of NWLA's existence as an organization because without private property to defend, NWLA loses its reason to exist. "Such concrete and demonstrable injury to the organization's activities -- with the consequent drain on the organization's resources -- constitutes far more than simply a setback to the organization's abstract social interests." *Havens Realty Corp. v. Coleman*, 455 U.S. 363, 379, 102 S. Ct. 1114, 1124 (1982). In general, NWLA exists as an organization to defend landowners' property rights. When the government takes those property rights away, there is nothing for an organization like NWLA left to protect.

**ANSWER:** Notwithstanding the objections above and without conceding these objections, NWLA answers as follows.

NWLA's members include many landowners who own property impacted by the unconstitutional provisions in N.D.C.C. § 32-15-06 or N.D.C.C. § 24-05-09. The interests that NWLA seeks to protect are germane to its purpose of protecting landowners and maintaining a balance in resource development and property rights of individuals.

NWLA has devoted significant resources to identify and counteract the deprivation of civil rights and the unconstitutional attack on private property rights that is inherent in the statutory provisions being challenged here. NWLA has been engaged with its legal counsel for years at the legislative session trying to defend private property rights, and it has expended most of the money, time, and resources it has ever held in this defense. It has held conferences and community meetings, disseminated data and information, paid to compile expensive and lengthy reports, organized members, commented on agency rulemaking, lobbied at the legislature, and generally spent its entire existence fighting for the farmers and ranchers, and other private property owners of North Dakota. NWLA stands behind the landowners of North Dakota, and stands up for them, and the laws here being challenged undermine not only the very basis of and sanctity of private property rights in North Dakota, but strike at the heart of NWLA's existence as an organization because without private property to defend, NWLA loses its reason to exist. "Such concrete and demonstrable injury to the organization's activities -- with the consequent drain on the organization's resources -- constitutes far more than simply a setback to the organization's abstract social interests." *Havens Realty Corp. v. Coleman*, 455 U.S. 363, 379, 102 S. Ct. 1114, 1124 (1982).

NWLA also has members who are directly impacted by the challenged laws.

804 W. Merle Hibbs Blvd  
Marshalltown, IA 50158  
April 27, 2022
- b. (i) See attached documents in subfolder "Short", specifically pg. 2 of "Billings County Little Mo-Survey letter follow up-Sandra Short", pg. 2 of "Billings County Little Mo-Survey letter follow up-Sarah Short Sarbacker", generally "Little Mo-Survey follow up letters", pg. 2 of "Little Mo-Survey letter follow up-Johnson Family". Lot 8, NW¼SW¼ of Section 22, Township 143, Range 102, ID #: 27 0000 01220 000; N½ and S½ less 17.26 ARW of Section 34, Township 143, Range 102, ID #: 27 0000 01231 001 & 27 0000 01231 000, Billings County.  
(ii) See attached documents in subfolder "Short".  
(iii) See attached documents in subfolder "Short". Sandra Short is not involved in any legal challenges for entry for surveys and examination under the challenged statutes.  
(iv) See attached documents in subfolder "Short".

**SECOND SUPPLEMENTAL ANSWER:**

Surveys were sent to all members on November 14, 2023. As of January 8, 2024 we received 103 responses back from the surveys. The answers were as follows:

9 members answered "yes" to the question: have you ever been involved in eminent domain or a condemnation proceeding?

26 members answered "yes" to the question: "Have had ever had anyone threaten to use eminent domain against you?"

73 members have had requests/demands for access to conduct surveys on their land.

12 members have had someone threaten to do surveys over their objection or they have used eminent domain or condemnation to do surveys.

14 members have had someone ask them about leasing or giving an easement or other agreement for pore space for carbon sequestration or gas storage or something similar.

4 members have leased their pore space or signed any other agreement for use of pore space.

See bates stamped documents labeled NWLA SUPP-048-152. These documents have been redacted to protect the members' identity.

**Interrogatory No. 8.** Pertaining to the claims in your Complaint challenging N.D.C.C. § 38-22-03(7) (relating to the Industrial Commission's ability to grant exceptions to certain requirements and implementing rules), identify:

- a. The orders(s) (or other directive(s), however styled) from the Industrial Commission which have granted an exception under N.D.C.C. § 38-22-03(7) that you are challenging in this litigation;
- b. The name, address, and contact information for each member of your organization that you claim has been or will be injured by an exception granted under N.D.C.C. § 38-22-03(7), as well as the date when that individual became a member of your organization;
- c. For each member or your organization so identified, further provide:
  - (i) the exception(s) that you claim has caused or will cause injury to that member;
  - (ii) the legal description(s) of the member's property interest(s) that you claim is or will be affected by the granting of the exception(s);
  - (iii) the date(s) when the affected property interest(s) was or will be affected by the granting of the exception(s); and
  - (iv) a brief description of the injury(ies) allegedly suffered by the member as a result of the granting of the exception(s), and any additional information you believe would assist State Defendants in identifying and validating the member's claim of possessing affected property or other interests.
- d. If you claim that you—as an organization—possess any property interests that are or will be injured by any exception(s) granted under N.D.C.C. § 38-22-03(7), provide the same information requested in the preceding subsection.

**ANSWER:** See objections and answers to Interrogatory Nos. 5, 6, and 7.

**SUPPLEMENTAL ANSWER:** Without limiting the generality of the foregoing, see attached documents in subfolder “Dresser”, specifically pg. 1509 of the pdf labeled “C29032”, and pgs. 1-24 of the pdf labeled “C29032”. Additionally, Mike Dresser and Kurt Swenson and any member owning pore space (which is all members as property ownership is required for members) are injured by this provision because it allows the NDIC to suspend the law arbitrarily at its whim at any time, making any rights or safeguards provided by the challenged statutes transitory and amorphous.

**Interrogatory No. 9.** If you contend any of the claims asserted in your Complaint are judicially cognizable without your organization (or a bona fide member thereof) having directly suffered an actual or threatened injury to its real property or other property interests, identify the factual basis for any such contention.

**OBJECTION:** Plaintiffs object to this interrogatory as it calls for attorney work product and legal conclusions and is an overly broad and inappropriate contention interrogatory.

**SUPPLEMENTAL ANSWER:** Notwithstanding the objections above and without conceding these objections, NWLA answers as follows: See Complaint filed in the above-captioned matter. This legal challenge is not an as-applied challenge, it is a facial challenge to the constitutionality of the pertinent statutes and for that reason, this interrogatory is not asking for facts, it is asking for attorney work product and legal theories and is inappropriate. Because the statutes at issue are unconstitutional on their face as a matter of law, this inquiry for the “factual basis” of any such contention is artifice. As indicated in response to other interrogatories, NWLA has suffered significant injury because it has expended the majority of its time and resources in the last six years arguing, lobbying, educating, and working on issues related to these challenged statutes and related property rights issues. Because the State of North Dakota, through the Attorney

General, has chosen to attack the standing of NWLA and its members rather than focus on the actual constitutional issues in dispute, NWLA will also move to join additional members as real parties in interest with taxpayer standing in the near future.

**Interrogatory No. 10.** If you contend that you are a trade or professional association with standing to bring this action under N.D.C.C. § 32-23-11, identify the factual bases for such contention, including the identity and contact information for any member of your organization licensed and regulated by state or federal agencies.

**ANSWER:** N/A

**Interrogatory No. 11.** If you contend that Governor Doug Burgum, Attorney General Drew Wrigley, and Agricultural Commissioner Doug Goehring are necessary parties to this action, identify the factual basis for any such contention.

**OBECTION:** This interrogatory calls for attorney work product and is an overly broad and inappropriate contention interrogatory. These executive branch officials are named in their official capacity and are the three members of the North Dakota Industrial Commission which takes private property through the guise of “amalgamation.” Governor Burgum and Attorney General Drew Wrigley are responsible for implementing and enforcing the laws being challenged as well as prosecuting and participating in numerous takings of private property rights pursuant to the challenged laws. Governor Burgum and Attorney General Wrigley are also defending the pre-condemnation survey laws rather than the constitutions in an action currently before the North Dakota Supreme Court. This legal response is not a waiver of the objection nor should it be construed as a factual response from NWLA.

**Interrogatory No. 12.** If you contend you are entitled to any damages or monetary payment from the State Defendants through this litigation (other than claims you may make for

attorneys' fees and costs), identify the factual basis for any such contention and the monetary sum you are, or will be, seeking.

**RESPONSE:** N/A.

### **REQUESTS FOR PRODUCTION**

**Request for Production No. 1:** All documents and communications that provide the basis for, are referenced by, or are identified in your answers to the above Interrogatories.

**RESPONSE:** See attached documents.

**Request for Production No. 2:** All documents, communications, and tangible things that you will or might introduce as evidence at trial or for any other proceeding in this litigation.

**OBJECTION:** This Request for Production calls for attorney work product and premature disclosure of trial exhibits and does not comport with this Court's scheduling order. Trial exhibits will be identified in accordance with this Court's scheduling order and not in response to this Request.

**RESPONSE:** Without waiving the foregoing objection, see response to Request for Production No. 1.

**Request for Production No. 3:** With respect to each expert witness you anticipate calling at trial or for any other proceedings in this litigation, documents sufficient for identifying the grounds for any opinion expressed, or expected to be expressed, by the expert witness, and documents sufficient for identifying the substance of the facts and opinions to which the expert witness will or might testify.

**OBJECTION:** This Request for Production calls for attorney work product and premature disclosure of trial exhibits and does not comport with this Court's scheduling order. Trial exhibits will be identified in accordance with this Court's scheduling order and not in

response to this Request. This Request for Production is also objected to because it calls for identification and disclosure of any exhibits that may be used “for any other proceedings in this litigation” which is a demand in excess of the requirements of N.D.R.Civ.P. 26 and other rules and is inappropriate.

**RESPONSE:** Without waiving the foregoing objection, see response to Request for Production No. 1.

**AS TO ANSWERS:**

I verify under penalty of perjury that the foregoing answers to interrogatories are true and correct based on the information available to and in the possession of Northwest Landowners Association.

Signed on the 1/08/2024 day of January, 2024, at Donnybrook, North Dakota, United States of America.

## TABLE OF CONTENTS

ARGUMENT .....	3
I. Landowners’ claims are properly brought as a facial challenge because the laws cannot be validly applied under any set of circumstances, and the claims are not barred by any statute of limitation. ....	3
II. Landowners do not lack standing for any of their claims. ....	6
A. Landowners have standing to challenge N.D.C.C. § 38-25-08. ....	6
B. Landowners have standing to challenge N.D.C.C. § 38-22-03(7). ....	7
C. Northwest Landowners Association has standing in its own right pursuant to <i>Havens Realty</i> . ....	8
D. The individual members of NWLA who asserted the claims in their own right have taxpayer standing. ....	8
III. The doctrine of correlative rights does not apply to the amalgamation statutes, and regardless its application in this context proves that the challenged laws are unconstitutional takings. ....	9
IV. The Landowners’ due process claims are not derivative and are independent claims. ....	19
V. There is no requirement to exhaust administrative remedies and obtain an order from the NDIC amalgamating property rights. ....	22
VI. The <i>United States v. Causby</i> case and the nuisance-law interference theory was already argued to the North Dakota Supreme Court and the argument was rejected. ....	23
VII. The precondemnation survey laws authorize physical invasions in violation of <i>Cedar Point Nursery v. Hassid</i> . ....	25
VIII. The hyperbolic claims made by defendants are not new and are not a reasonable basis for the Court’s decision. ....	30
CONCLUSION .....	31

[¶1] Plaintiffs Northwest Landowners Association, Mike Dresser, Sandra Short, the Swenson Living Trust, (“Landowners”) submit their response to the Motions for Summary Judgment filed by Minnkota (Index #152), Basin Electric Cooperative and Dakota Gasification (Index #163), Summit (Index #179), and State of North Dakota (Index #183).

### **ARGUMENT**

**I. Landowners’ claims are properly brought as a facial challenge because the laws cannot be validly applied under any set of circumstances, and the claims are not barred by any statute of limitation.**

[¶2] The State quotes the *Sorum* case with respect to the standard for a facial challenges. Index #184, ¶ 41. The standard from *Sorum* was discussed in *Northwest Landowners Ass’n v. State*, 2022 ND 150 ¶ 14, 978 N.W.2d 679. The Court explained:

No consideration of circumstances is necessary to resolve a facial challenge because the claim is that upon enactment, the legislation has an immediate unconstitutional legal effect. In *Sorum*, we held that if legislation requires an unconstitutional act (a prohibited gift in that case), the statute does not avoid a facial challenge "merely because the statute includes constitutional applications along with potentially unconstitutional applications." 2020 ND 175, ¶¶ 22-24, 947 N.W.2d 382.

*Id.*

[¶3] Here, the legislation has an unconstitutional legal effect because in no circumstances is the due process required by Article I, § 16 of the ND Constitution provided by the amalgamation statutes and the authorization for physical invasions in the form of amalgamation and precondemnation surveys is similarly unconstitutional in every legal application. The “no set of circumstances” test referenced in *Larimore Pub. Sch. Dist. No. 44 v. Aamodt*, 2018 ND 71, ¶ 37, 908 N.W.2d 442 and *United States v. Salerno*, 481 U.S. 739, 745, 107 S. Ct. 2095, 2100 (1987) has been given negative treatment in recent years. *See Nw. Landowners Ass’n v. State*, 2022 ND 150, ¶ 14, 978 N.W.2d 679. But the issue is with treating the “under no set of circumstances” standard as a threshold for a facial challenge in all instances. It is not.

[¶4] But it is instructive in some as a matter of logic. The courts abandoned the standard because it is not a *necessary condition* for there to be no set of circumstances under which a law can be constitutionally applied in order for it to be facially unconstitutional, as the ND Court said in *Nw. Landowners Ass’n. Id.* But, it is a *sufficient condition* for a facial challenge if it can be shown that there is no set of circumstances under which the law can be applied constitutionally. And that is the case here, as explained in the Landowners’ opening brief, and as further explained here, both because the challenged amalgamation and precondemnation survey laws are takings, and also because they violate procedural and substantive due process on their face. *See* Art. I, § 16, Constitution of North Dakota. The NDIC has no authority to require determination of just compensation, and definitely cannot require it be decided by a jury. It can only take the property rights required for the permit in violation of the constitution, and because that is all it can do, the amalgamation statutes can be challenged facially. Similarly, the precondemnation survey laws authorize a physical invasion while simultaneously prohibiting payment of just compensation or its determination by a jury before the taking, so a facial challenge is proper.

[¶5] The State’s argument that a statute of limitations applies to this action is incorrect. It cites to *Hager v. City of Devils Lake*, 2009 ND 180, ¶ 34, 773 N.W.2d 420, which involved a claim for compensation for a taking in an inverse condemnation case and based on a theory of implied contract for the promise to pay for the taking, and is therefore inapposite. Similarly the other case cited by the State is *Asociación de Suscripción Conjunta del Seguro de Responsabilidad Obligatorio v. Juarbe-Jiménez*, 659 F.3d 42, 50 (1st Cir. 2011). This case was an action under a federal enabling statute to recover for a violation of constitutional rights and to which a specific statute of limitations applied, and which does not cover the range of claims here. *Id.*

[¶6] More importantly, the claims in this action are that the challenged laws violate the Constitution of North Dakota and the Constitution of the United States of America. This action and the claims asserted are therefore based on “the principle, supposed to be essential to all written constitutions, that a law repugnant to the constitution is void; and that courts, as well as other departments, are bound by that instrument.” *Marbury v. Madison*, 5 U.S. (1 Cranch) 137, 180 (1803). The judicial branch of our government has both the ever-present jurisdiction and duty to interpret the law and enforce the Constitution.

[¶7] A statute of limitations does not bar the judiciary from declaring a law void that is repugnant to the Constitution. *Id.* The North Dakota Supreme Court discussed the North Dakota corollary of the principles first espoused in *Marbury v. Madison* in *State v. First State Bank* and its discussion provides a helpful reminder of the important principles guiding the Court in this action:

Before entering into a discussion of the questions raised by the appellant, we deem it proper and desirable to consider some of the fundamental rules which must guide us in determining them. We are asked to declare a legislative enactment void. The judicial power thus invoked is one of the highest which the people by the Constitution have conferred upon this court, and imposes upon the judges responsibility and duty as grave and solemn as the power is high. The duty imposed is the very source of the power granted. For in establishing government, both in state and nation, the people adopted written constitutions, which it was agreed should constitute the supreme law....

\*\*\*

The Constitution emanates from the people, and is the supreme law. It creates all the departments of government, and is the charter of their authority. This applies as well to the legislative as to the judicial department. ‘**The powers of the legislature are defined and limited; and that those limits may not be mistaken or forgotten the Constitution was written.**’ *Ibid.* The legislature was created by the Constitution and vested with power to enact laws conformable to the provisions of the Constitution... .

*State v. First State Bank*, 52 N.D. 231, 242-44, 202 N.W. 391, 395-96 (1924) (emphasis added).

[¶8] When a challenge is leveled that the Legislative Assembly violated the Constitution in enacting laws, and when a Court is convinced this is the case, it has its own Constitutional obligation to defend the Constitution. *See Bd. of Trs. v. N.D. Legislative Assembly*, 2023 ND 185, ¶¶ 89-91, 996 N.W.2d 873 (explaining that granting a stay is not possible if the effect would be to allow a constitutional law to remain enforceable because the law requires it be treated as *void ab initio*). A statute of limitations is impotent to shield an unconstitutional law from the supreme power of the Constitution and the Judicial Branch’s mandate to protect the sanctity of that Constitution.

## **II. Landowners do not lack standing for any of their claims.**

[¶9] The State does not challenge Landowners’ standing with respect to N.D.C.C. § 38-22-10, 32-15-06, and 24-05-09. The State does dispute that Landowners’ have standing with respect to N.D.C.C. § 38-25-08 and 38-22-03(7), either through members or through direct organizational or taxpayer standing.

### **A. Landowners have standing to challenge N.D.C.C. § 38-25-08.**

[¶10] Landowners recognize that the NDIC has not held any permit proceedings pursuant to N.D.C.C. ch. 38-25. But their members are also well aware of the comments from the North Dakota Petroleum Council during the legislative hearings regarding SB 2065 (2021), which created Chapter 38-25.<sup>1</sup> The Petroleum Council’s general counsel and director of government affairs explained the purpose of Chapter 38-25 as follows:

[T]he regulatory framework in this bill allows the NDIC to properly standardize and control temporary underground injection of associated natural gas, providing oil and gas producers another option by which to avoid flaring. This option is of particular use in instances where a producing unit is considered “stranded” due to geographic challenges in gas gathering pipeline construction. A producer is much more likely to consider and develop stranded areas of the Bakken if the added challenge of meeting gas capture goals may be accomplished by injecting the

---

<sup>1</sup> [https://ndlegis.gov/research-center/history?session\\_id=34270&bill\\_number=2065](https://ndlegis.gov/research-center/history?session_id=34270&bill_number=2065)

produced natural gas underground and temporarily storing it until gas gathering infrastructure is in place. Such a gas capture option provides an added opportunity for gas midstream companies to invest beyond the over-\$20 billion they have already invested in the state and continue development of the gathering lines and other infrastructure necessary to successfully gather, transport, and process North Dakota's abundant natural gas resource.

Testimony of Brady Pelton, Senate Bill 2065, Senate Energy and Natural Resources Committee (January 8, 2021).<sup>2</sup> The Landowners' membership spans the oil patch, and those landowners may not like the sound of "develop[ing] stranded areas of the Bakken" or additional gathering lines and infrastructure, in addition to the prospect that their pore space will be taken from them in order to do it all. While it true that involvement in permit proceedings for gas storage would easily qualify an individual for standing, that is not the only set of circumstances that establishes standing. Here, given that the nature of the action is a facial challenge to the constitutional validity of statutes that are directly targeted at the Landowners' property, it is evident that Landowners are the most appropriate party with standing to challenge and strike down these laws.

**B. Landowners have standing to challenge N.D.C.C. § 38-22-03(7).**

[¶11] The State concedes that the Landowners have standing to challenge N.D.C.C. § 38-22-10, but not N.D.C.C. § 38-22-03(7). Index #184, ¶ 52 n.5, 58-62. But the fact that the NDIC has not granted an exception under this standard is not the test of whether Landowners have standing. The State says the landowner members have not been impacted by an exception granted, but this fails to acknowledge that the mere existence of this provision causes harm to the landowners. At any time an exception could be granted to any requirement anywhere in Chapter 38-22 simply because two of three of the Governor, Attorney General, and Agriculture Commissioner decide good cause exists. As explained in Landowners' opening brief, it is an unconstitutional delegation. The

---

<sup>2</sup> [https://ndlegis.gov/research-center/history?session\\_id=34270&bill\\_number=2065](https://ndlegis.gov/research-center/history?session_id=34270&bill_number=2065) (page 8 of .pdf file).

potential for nullification of any and all requirements of Chapter 38-22 causes concrete damage to members of Northwest Landowners and is sufficient for purposes of standing.

**C. Northwest Landowners Association has standing in its own right pursuant to *Havens Realty*.**

[¶12] In response to discovery, the Landowners explained the basis for the organization's direct standing: "NWLA stands behind the landowners of North Dakota, and stands up for them, and the laws here being challenged undermine not only the very basis of and sanctity of private property rights in North Dakota, but strike at the heart of NWLA's existence as an organization because without private property to defend, NWLA loses its reason to exist." Index #199, p.8. "Such concrete and demonstrable injury to the organization's activities - with the consequent drain on the organization's resources - constitutes far more than simply a setback to the organization's abstract social interests." *Havens Realty Corp. v. Coleman*, 455 U.S. 363, 379, 102 S. Ct. 1114, 1124 (1982). It is not simply a matter of a special-interest organization diverting funds to lobbying efforts on a bill – it is a matter of a small and scrappy organization of volunteer farmers and ranchers standing up for years to very powerful interests to protect the People and the Land.

**D. The individual members of NWLA who asserted the claims in their own right have taxpayer standing.**

[¶13] For the members of NWLA whose pore space is being amalgamated, they will eventually be directly reliant on the public fisc for any claims. Specifically, pursuant to N.D.C.C. § 38-22-17(6), after the storage facility is closed "[t]itle to the storage facility and to the stored carbon dioxide transfers, without payment of any compensation, to the state." This provision means that when the State issues a certificate of project completion, the State steps into the shoes of any property rights held by the operator, such as becoming the lessee of pore space leases. At that time, "[t]he storage operator and all persons who generated any injected carbon dioxide are released from all regulatory requirements associated with the storage facility." N.D.C.C. § 38-22-17(6).

Further, “[a]ny bonds posted by the storage operator must be released.” *Id.* As such, it is not only as landowners that the individuals in the complaint object to the taking of their property for the storage facility, it is also as taxpayers who will ultimately be liable for the facility as both lessor and taxpayer to the State government and thereby also his own lessee.

[¶14] As explained below, one landowner is actually subject to a lease imposed against his will, and he will later be forced to look to the State and the public fisc as his lessee. That is a unique and direct relationship with the public fisc that is not generalized to taxpayers and is sufficient to support taxpayer standing.

**III. The doctrine of correlative rights does not apply to the amalgamation statutes, and regardless its application in this context proves that the challenged laws are unconstitutional takings.**

[¶15] The State and others argue that the doctrine of correlative rights is applicable to the use of pore space for carbon sequestration. *See, e.g.*, Index #184, at ¶¶ 85-133. But there is no precedent for this sea change in the law and indeed the State cites no standard for its application of oil and gas law to pore space rights. It argues that the policy statements for both activities are “remarkably similar” *Id.*, ¶86, and then frames the issue with a question: “The question then is whether the State's ability to amalgamate pore space interests is analogous to the forced pooling of oil and gas interests.” *Id.*, at ¶ 95. But whether the State’s “ability” is “analogous” is not a proper standard by which to assess this issue, and applying an entire body of highly technical law to an entirely new field of activities is not something to be done simply because an executive agency’s “ability” to do it is “analogous.” The State later frames it as “the question of whether pore space amalgamation is *similar* to oil and gas pooling.” *Id.*, ¶ 97. Again, this is not a proper standard to begin with, as will be discussed in more detail below.

[¶16] Putting aside the improper standard, the State goes on to explain that both oil and gas development and carbon sequestration are important. *Id.*, ¶98. So are property rights, the

protection of which are enshrined in the Constitution of North Dakota in literally the very first sentence: All individuals are by nature equally free and independent and have certain inalienable rights, among which are those of ... acquiring, possessing and protecting property....” N.D. Const. Art. I, § 1.

[¶17] The State then explains that “both exist as underground reservoirs that do not cleanly correspond with surface boundaries and are likely to have shared ownership by multiple individuals.” Index #184, ¶ 98. This much is true, but the argument is ultimately specious. If the State is arguing that the courts should adopt the principles of oil and gas law related to correlative rights and force-pooling and spacing, it needs to take the entire corpus of law, not simply the authority it believes allows it to take property from its citizens. Owen Anderson, a supporter of CCUS as a tool to combat climate change, claims that the correlative rights doctrine should apply because pore space owners cannot fence each other out. *Id.*, ¶ 99. What is left out is that Professor Anderson’s comment refers to two sides of the coin and the State is only acknowledging one of them. As Professor Anderson goes on to say, “the correlative-rights doctrine recognizes that each pore-space owner must have a fair opportunity to use a fair and common share of the pore space.” *Id.* This is presumably the State’s argument for why it can amalgamate pore space for a CCUS project. But it forgets to complete the application of the doctrine to the pore space owners who did not participate. In the oil and gas setting, it is necessary to treat them in a very specific way to respect and protect their property rights, and if this is not done it is nonetheless a taking. They must be afforded their full share of the revenue from development of the resource. The State’s own cases provide this authority.

[¶18] In *Slawson v. North Dakota Indus. Comm’n*, 339 N.W.2d 772 (ND 1983), the ND Court affirmed rulings from the district court and the ND Industrial Commission ordering, as part of a

force-pooling application, “[t]hat any unleased interests within the spacing unit shall be treated as cost free royalty interests as to 1/8 thereof and as working interests as to the remaining 7/8 of the unleased interest.” *Slawson*, 339 N.W.2d at 773. Not only did the NDIC have authority to order this, but the Court ruled it was required as a consequent of the property ownership itself. *Id. et seq.*<sup>3</sup> The Court also discussed *why* the NDIC had this authority, first explaining that “The purposes of pooling are to prevent the physical and economic waste that accompany the drilling of unnecessary wells and to protect the correlative rights of landowners over a reservoir.” *Id.* at 774.

[¶19] The Court also explained:

There appear to be two aspects of the doctrine of correlative rights: (1) as a corollary of the rule of capture, each person has a right to produce oil from his land and capture such oil or gas as may be produced from his well, and (2) a right of the land owner to be protected against damage to a common source of supply and a right to a fair and equitable **share** of the source of supply.

*Id.* at 774, n.1 (emphasis added). The language of N.D.C.C. § 38-22-08(14) requiring “equitable compensation” echoes this but does not require it explicitly. The State concedes that the nonconsenting owners must receive “their equitable portion of the revenues” and “their equitable portion of the proceeds” from the Class VI well but the State has failed to understand the import of this requirement.<sup>4</sup> If the courts agree to its proposal to treat pore space owners as mineral

---

<sup>3</sup> And before the State jumps to conclude that this is inapplicable because the royalty discussed in *Slawson* was a consequent of *mineral* ownership and not pore space ownership, then it is either an argument that the doctrine of correlative rights does not apply or an admission that thus far the State has only applied it half-way (as a way to take, but not as it was intended, as a way to protect the full interest of the owner). The doctrine protects either completely or not at all, for that is the very nature of *correlative* rights.

<sup>4</sup> The State’s representations to this Court that nonconsenting owners must receive “their equitable portion of the revenues” is true and as will be explained is ultimately irrelevant because oil and gas law does not apply. But if it did, it should be noted that the State is agreeing to this legal principle before this Court while doing something different in practice. For example, NWLA member Mike Dresser had his property “amalgamated” by Intervenor Minnkota. The NDIC incorporated Minnkota’s “Geologic Storage Agreement” directly into its order. Index #28, pp. 5-6. That Agreement then states that “Any Pore Space Owner in the Storage Facility who owns a Pore Space Interest in the Storage Reservoir that is not leased for the purposes of this Agreement and during the term hereof, shall be treated as if it were subject to the Pore Space Lease attached hereto as Exhibit ‘D’.” Exhibit 1 to Declaration of Derrick Braaten, Section 3.1, p. 5, bates no. 00939. That lease at Exhibit D only provides the following compensation: “During the Operational Term, Lessee shall annually on or before May 31<sup>st</sup> pay to Lessor a royalty equal to the greater of a flat

owners, then it must do so as the law has always required. Correlative rights, by definition, go both ways – the nonconsent landowners have correlative rights too. And those rights would entitle them to their proportionate share of all revenue for the Class VI well injecting the CO2 just as they share in all revenue from an oil well.

[¶20] The issue was best summed up by another case cited by the State, *Texaco, Inc. v. Indus. Comm'n*, 448 N.W.2d 621, 624 n.4 (N.D. 1989)

At the moment production commences, resulting pressure differentials in the common source of supply portend, in greater or less degree, drainage from all parts of the unit toward the producing unit well. This drainage is occurring from areas where oil and gas lessees are prohibited from doing anything to protect their leased premises from drainage. With the purpose of § 87.1 [Oklahoma's spacing unit statute] to prevent the drilling of unnecessary wells before it, the Commission will not, except in extreme cases, make an exception to the rule that permits one producing well only on each spacing (drilling) unit. To impose this denial without granting the right to participate in production of the unit well, as of the time the non-drilling owners were prohibited from drilling, **is the taking by the State of their property without due process in violation of the Fourteenth Amendment to the Constitution of the United States.**

*Texaco, Inc. v. Indus. Comm'n*, 448 N.W.2d 621, 624 n.4 (N.D. 1989) (emphasis added). The same principle regarding pressure differentials applies to injection wells and saturated reservoirs in reverse with CO2 sequestration.

---

\$100.00 payment or the Storage Fee(s) for the immediately preceding Operating Year.” *Id.*, p. 4 of Lease at Exhibit D, bates no. 00966. The “Storage Fee” is defined as “Lessor's proportionate share of **sixteen cents (\$0.16) per metric ton** of Carbon Dioxide ("Storage Rate") as determined by the Lessee's last meter before injection as part of Operations....The Storage Fee shall be: (i) calculated separately for each amalgamated area as created and established by the Commission that includes any portion of the Leased Premises; (ii) limited to the Carbon Dioxide injected in said amalgamated area in the immediately preceding Operating Year; and (iii) based on the Lessor's proportionate per net acre share of said unit.” *Id.*, p. 2 of Lease at Exhibit D, bates no. 00964. An operator cannot arbitrarily determine that the proportionate share is further reduced to an arbitrary amount it decides unilaterally – as explained above, that is not how even oil and gas law works and is a taking. But this is being pointed out because it appears the State agrees with the legal principle that the proportionate share is required to be provided to the landowner, but is saying something else to the landowners out of the other side of its mouth. The proportionate share is the constitutionally required allocation to the nonconsenting owner, otherwise the very basis for the exercise of the police power through the conservation laws is undermined. That proportionate share is the proportionate share, not the proportionate share of “sixteen cents” as arbitrarily decided by the developer.

[¶21] In *Slawson*, the Court not only stated that the nonconsenting landowner must receive their equitable share of all production or profits, but must *also* receive a portion of that share *cost free*, meaning that there must be an amount paid to the mineral owner that is equal to their proportionate share of 7/8 of net revenues and 1/8 of gross revenues *Slawson*, 339 N.W.2d at 777.

For conditions of a pooling order to be "just and reasonable," the order must afford an unleased mineral owner all that he is entitled to because of his ownership of the minerals. One of the things to which an owner of minerals is entitled is a cost free portion of production. Any share less than that to which a mineral owner is entitled because of his ownership of minerals is not "just and equitable." We conclude that § 38-08-08(1), N.D.C.C., provides the Commission with authority to treat unleased mineral interests as cost free interests as to a portion thereof when entering a compulsory pooling order.

*Id.* (emphasis added). So too if the State would like to apply these principles to the owners of the pore space, that does not get the State around the problem of taking private property without due process and just compensation. It simply walks the State right back into the same problem, unless the courts construe "equitable compensation" to require the proportionate share (property in the storage facility divided by property owned) of all proceeds from the storage facility and Class VI well for every nonconsenting landowner.

[¶22] The North Dakota Supreme Court explained: "We agree with the Nebraska Supreme Court's rationale that unless the Commission can issue pooling orders retroactive to the date of first operations, an adjoining landowner may not receive his just and equitable share in a pool, thereby confiscating his property without due process." *Texaco, Inc. v. Indus. Comm'n*, 448 N.W.2d 621, 624 (N.D. 1989). Unless the nonconsenting landowners receive their equitable share of revenue for the storage facility, the amalgamation statutes confiscate their property without due process. So the doctrine of correlative rights does not get the State around the fact that it is taking private property without due process and just compensation (among a myriad of other specific due process issues such as a lack of jury trial guaranteed by Art. I, §16 of the ND Constitution).

[¶23] Minnkota cites to Professor Righetti in its brief, but fails to understand her point: “Correlative rights refers to the notion that each property owner in a common pool or source of supply has the opportunity to use his or her just and equitable share of that property.” Index #153, ¶ 44 (quoting Righetti, 47 Env’tl. L. Rep. News & Analysis at 10421-22) (emphasis added)]. This refers to both the property owner developing his property, and the property owner who does not consent. The nonconsenting property owner receives his or her “just and equitable share of that property” meaning the proportionate share by property of all revenue generated from development of the resource. For Mike Dresser, for example, it is 0.1639142% of the total revenue according to Minnkota’s records. *See* Affidavit of Shannon Mikula, Index # 154, ¶ 10. That is also what Professor Righetti meant when she said that correlative rights ensures each owner receives “his or her just and equitable share of that property.”

[¶24] The failure to apply principles of oil and gas law in a manner that avoids constitutional due process and takings violations does not end with the failure to recognize the property rights involved and require payment of a proportionate share of proceeds. As explained the State fails first to recognize that correlative rights are also held by the nonconsenting landowners, and they must be paid their equitable share of proceeds which is their *proportionate* share, not merely “compensation.”

[¶25] But the principles of oil and gas law such as the doctrine of correlative rights do not apply because as indicated earlier, it is not merely an issue of whether oil and gas development and carbon sequestration are “similar.” There are twin purposes for pooling that underpin and justify the authority itself.

[¶26] “The purposes of pooling are to prevent the physical and economic waste that accompany the drilling of unnecessary wells **and** to protect the correlative rights of landowners over a

reservoir.” *Slawson* at 774 (emphasis added). It is important to first note that the underlying and implicit assumption here is that drilling unnecessary wells causes physical and economic waste, and it does so by depressurizing the reservoir such that less oil and gas can be produced.

[¶27] For example, in *Syverson v. N.D. State Indus. Comm'n*, 111 N.W.2d 128, 131 (N.D. 1961), the Court explained the circumstances of the case, but also the underlying reason that conservation programs are allowed to force-pool or force-unitize property.

The Tioga-Madison oil field has been in production since the beginning of oil production in North Dakota, in 1951. In 1957, the twenty-three operators in that field determined that the field had been substantially drilled out and that a program of pressure maintenance, by injection of water, was the proper and necessary method of maintaining the field pressure in order to secure the greatest ultimate recovery of oil therefrom.

[¶28] Drilling unnecessary wells is also a problem for pressure maintenance, and was a particular problem when oil development commenced and the rule of capture allowed property owners to compete to pump oil out of the ground based on that rule. It was this situation that led to pictures of oil derricks almost stacked on top of each other and the end result was depressurization of the reservoir in a profoundly inefficient manner that reduced the overall recovery of oil. “The rule of capture ownership regime creates two major problems: []overdrilling, []and premature dissipation of natural reservoir energy.” 1 Bruce M. Kramer & Patrick H. Martin, *The Law of Pooling and Unitization* 1-3 (3d ed.), Scope and § 2.01.

[¶29] As was recognized in *Syverson*, the point of the conservation programs is that “more oil and gas would ultimately be recovered.” *Syverson*, 111 N.W.2d 128, 133 (N.D. 1961). In the *Syverson* case “the appellants themselves [agreed that the conservation program] will substantially increase the amount of oil and gas recovered from the field.” *Id.* This is not a surprise or a secondary benefit. It is the entire point and purpose, and the very reason that the conservation programs are not obvious takings of private property. True it is that a mineral owner in a force-

pooling situation might have a stream of revenue reduced from his lease based on the dilution effect of a spacing unit larger than his property. But this is not a *taking* because the overall effect of the conservation program is to produce *more oil* – so it cannot be a *taking*, it is quite literally a *giving*. The landowner must wait longer to get his equitable share of the oil, but the doctrine of correlative rights ensures that he receives his *full share* of the oil in the reservoir, or in the context of CCUS, it would simply be the revenue for injection of the CO<sub>2</sub> such as the 45Q credits that are the revenue stream for some commercial CCUS projects. And because the doctrine of correlative rights *requires* that the nonconsenting landowner get his full share of oil and because at the same time the overall amount of oil is being increased, it cannot be a taking as a matter of math. But the key is that this is *why* the conservation laws allow force pooling as an exercise of the State’s police power – these things *must be true*. The State continues to argue for an expansive scope to its police power while continuing to forget that even the police power is subject to the Constitution.

[¶30] More importantly, when the State argues for application of the doctrine of correlative rights, it fails to understand that this doctrine is applied first to ensure the landowner gets his equitable (i.e. proportionate) share, and second, that it is applied to *increase the recovery of a resource*, namely oil and gas. And it is *because* the conservation laws *increase the recovery* of the shared resource and ensure a *proportionate share* to each owner that they were not struck down as takings. These things are not true of using pore space for carbon sequestration. No greater amount of pore space is created.

[¶31] In reality, the pore space being used for a storage facility is subject to a set of laws that ensure it will never again be monetized for any such purposes, thus taking away the landowner’s right to *any future development* of their pore space resource. For example, it is apparent that by requiring a finding that “carbon dioxide will not escape from the storage reservoir” it would not

be possible for a landowner to later develop their own sequestration project in their own pore space. N.D.C.C. § 38-22-08(8). Similarly, the closure requirements and requirements to prove the stability of the plume foreclose any corollary development by the landowner of their own pore space. *See* N.D.C.C. § 38-22-17. The State of North Dakota is dictating to landowners that they must use their property for storage of carbon dioxide because that is what the State has decided is an important policy. But that policy choice cannot override the constitutional protections for private property and the requirement that the State cannot take property without due process and payment of just compensation. And even if the courts were to start applying the doctrine of correlative rights, it does not get the State around the requirement to then provide those nonconsenting landowners what the doctrine requires, which is their entire proportionate share of the revenue from the development of *their* resource.

[¶32] The State unfairly presumes a bizarre motivation from the Landowners when it states: “And if Plaintiffs are successful in killing the implementation of CCS, the effects will extend far beyond the majority of owners denied the ability to profit from their pore space.” Index #184, ¶ 32. Why a group of North Dakota farmers and ranchers would have any interest in “killing the implementation of CCS” is a mystery. It is also histrionic.

[¶33] Just a couple hundred miles west of Bismarck near the border of North Dakota and Montana, there is a natural gas storage facility operated by WBI Energy in Fallon County, Montana. *WBI Energy Transmission, Inc. v. Subsurface Easements for the Storage of Nat. Gas*, No. CV 18-88-BLG-SPW-TJC, 2020 U.S. Dist. LEXIS 144001, at \*1 (D. Mont. July 6, 2020).

The Baker Storage Field is located in Fallon County, Montana, and has been continuously operated as a federally certified natural gas storage field since the 1940's. The Federal Power Commission, the predecessor to the Federal Energy Regulatory Commission ("FERC"), originally certified the Baker Storage Field and determined that its operation was a matter of public convenience and necessity in 1946. In 1985, the FERC issued WBI a Certificate of Public Convenience and

Necessity to operate the natural gas facilities at the Baker Storage Field. At that time, WBI obtained rights to operate the Baker Storage Field from the fee and mineral rights owners of the properties included in the storage field.

In 2011, however, the Montana Supreme Court held that the surface owner owns the pore space and rights to subsurface storage of natural gas. *See Burlington Res. Oil & Gas Co. v. Lang and Sons Inc.*, 2011 MT 199, 361 Mont. 407, 259 P.3d 766 (Mont. 2011). Due to the change in the law, WBI began working to acquire subsurface storage easements from the surface owners of the properties in the Baker Storage Field. WBI reports that it was able to acquire 99% of the easements by agreement. For the remaining properties, WBI filed this action to condemn the natural gas storage easements.

*Id.*

[¶34] The State’s argument that providing due process and just compensation before taking private property is “killing the implementation of CCS” is unsupported and there are examples that prove this literally within eyesight of North Dakota’s border. First off, faced with the need to secure the rights for its facility, WBI acquired 99% of them through voluntary agreements. It then brought a condemnation action and condemned the remainder for nominal compensation. *Id.* While Landowners obviously do not agree that nominal compensation is just compensation, the court in the WBI case was clear that it was awarding nominal damages because “the landowners have failed to produce any evidence of the amount of just compensation due.” *Id.* (emphasis added).

[¶35] Ultimately the argument made by the State and other intervenors is that the doctrine of correlative rights applies because sequestration of CO<sub>2</sub> into pore space is “similar to” production of oil and gas. But the reality is that while certain aspects of this resource are similar to oil and gas development, such as the reservoir dynamics, certain more important aspects are different, such as the reality that force-pooling pore space does not create *more* pore space. When the principles of conservation law are applied piecemeal to carbon sequestration as the State tries to do here, a taking occurs because the assumption that underpins all conservation laws is that they result in

production of *more* of the resource and that every owner gets their proportionate share of the resource. The application of these laws to the development and use of pore space is different and no more pore space is created – it is simply that the owner of the pore space has his pore space used by force (which is the real goal of the State).

[¶36] But the fact that it is unconstitutional to “amalgamate” pore space as that term is used in the challenged laws, or that the doctrine of correlative rights does not apply, does not at all mean the carbon capture and sequestration cannot move forward. To the extent that responsible operators obtain 99% of the property rights by negotiation, they should be applauded. If they bring a condemnation action, with all of the constitutional guarantees that entails and obtain the rights to the remainder of the property through eminent domain, that is how the system works in the United States of America. The Landowners, to be sure, are no fans of the power and process of eminent domain. That process literally takes away what defines their very being. They should be hostile to it. But that process is the one that our Constitution allows when our government takes our property from us, and that process is the only one that our Constitution allows.

#### **IV. The Landowners’ due process claims are not derivative and are independent claims.**

[¶37] The State argues that “Plaintiffs’ Due Process claims are entirely derivative of their Takings claims and otherwise undeveloped....” Index #184, ¶ 142. Landowners disagree. For example, the North Dakota Constitution requires payment of just compensation *before* a taking occurs, and it also requires that just compensation be decided by a jury. Constitution of ND, Art. I, § 16. The failure of the amalgamation statute to provide for these rights is not merely part of the takings claims here – it is also a separate due process claim for failure to provide the literal due process required by the North Dakota Constitution. Art. I, § 16 (“Private property shall not be taken or damaged for public use without just compensation having been **first** made to, or paid into court for the owner....”; “Compensation shall be ascertained by a jury, unless a jury be waived.”).

[¶38] Where fundamental rights or interests are involved, a state regulation limiting these fundamental rights can be justified only by a compelling state interest and legislative enactments must be narrowly drawn to express only the legitimate state interests at stake. Therefore, state limitations on a fundamental right such as the right of privacy are permissible only if they survive strict constitutional scrutiny.” *Hoff v. Berg*, 1999 ND 115, ¶ 13, 595 N.W.2d 285, 290. The rights at issue here are unquestionably fundamental, being some of the first listed in our Constitution. N.D. Const. Art. I, § 1 (“All individuals are by nature equally free and independent and have certain inalienable rights, among which are those of ... **acquiring, possessing and protecting property**....”).

Substantive due process analysis requires a close correspondence between legislation and the goals it advances. *See Law v. Maercklein*, 292 N.W.2d 86, 91 (N.D. 1980). This Court may declare a statute unconstitutional on substantive due process grounds if “the Legislature had no power to act in the particular matter or, having power to act, [] such power was exercised in an arbitrary, unreasonable, or discriminatory manner and [] the method adopted has no reasonable relation to attaining the desired result.

*Hoff v. Berg*, 1999 ND 115, ¶ 14.

[¶39] As to procedural due process, the standard is usually a flexible one, but here the standard is unnecessary given that the procedural due process of which the Landowners are being deprived is literally specified in the North Dakota Constitution.

[¶40] The North Dakota Court in *Bigelow v. Draper*, 6 N.D. 152, 166, 69 N.W. 570, 574 (1896) discussed the clear constitutional requirement for a jury on just compensation as opposed to any requirement for a jury for questions of constitutional necessity or public use which are for the court:

As the issues in such proceedings were not wont to be tried by a jury, as, with the exception of the matter of compensation, there is no constitutional right to such a mode of trial, we cannot infer from the mere fact that the proceeding in this state is to assume the form of a civil action that a jury trial of the whole case was designed.

Such radical change in the manner of settling the controverted points in such a proceeding must not be built up on a mere inference in the face of an implication so strong as to be practically equivalent to an express declaration that no other question except that of compensation should be submitted to a jury.

*Id.* (emphasis added).

[¶41] The Court explained, however, that “[t]he constitution requires this question of compensation to be left to a jury. Const. § 14. Section 5955 of the Rev. Codes, declares, in the language of the constitution, that ‘compensation shall in all cases be ascertained by a jury unless a jury is waived.’ In the absence of the provision contained in § 14, a jury trial in such cases could not be demanded as a constitutional right. *Bigelow*, 6 N.D. 152, 164-65, 69 N.W. 570, 573 (1896) (emphasis added).

[¶42] Thus the North Dakota Court has already explained that absent an explicit requirement in the North Dakota Constitution there would not be a right to a jury on general due process grounds, but in the case of the North Dakota Constitution the right to a jury on compensation is explicit and unquestionable. Summit makes an argument that no jury is required based on its reading of *Martin v. Tyler*, 4 N.D. 278, 60 N.W. 392 (1894). Index #180, ¶¶32-38. It is simply wrong and a jury is a constitutional requirement as was recognized in *Bigelow* in 1896 and recently when the North Dakota Court said “Article I, § 16, N.D. Const., states ‘[p]rivate property shall not be taken or damaged for public use without just compensation having been first made to, or paid into court for the owner.’ A jury decides the amount of compensation due for the taking, unless a jury is waived.” *Sauvageau v. Bailey*, 2022 ND 86, ¶ 9, 973 N.W.2d 207. Elsewhere the ND Court has said clearly that “[t]he determination of what constitutes just compensation is a question for the jury to resolve, unless the right to a jury is waived” and cited directly to Section 16 (formerly 14) of the North Dakota Constitution for the proposition. *Hultberg v. Hjelle*, 286 N.W.2d 448, 451 (N.D. 1979).

[¶43] The amalgamation statutes, however, provide for the taking of private property in violation of these procedural due process rights, and this is a violation of both the substantive and procedural due process rights that the Landowners have in their fundamental right to own and protect their property. The Landowners are also entitled to have just compensation (not “equitable compensation” as determined by an executive tribunal (NDIC) consisting of the Governor, Attorney General, and Agriculture Commissioner), and they are entitled to have a jury determine this before their property is taken. Because the amalgamation statutes violate these rights to procedural and substantive due process, they should be struck down on grounds of due process in addition to and independent from the takings claims.

**V. There is no requirement to exhaust administrative remedies and obtain an order from the NDIC amalgamating property rights.**

[¶44] This is a facial challenge because there are no constitutional applications of the amalgamation statutes. In every instance, the application of the statute results in an unconstitutional taking because the entire intent, purpose, and effect of the law is to subject property to geologic storage if the landowner does not consent. N.D.C.C. § 38-22-10, § 38-25-08. As explained above, it is unconstitutional to do so without following the constitutional requirements for due process and just compensation found in Article 1, Section 16 of the North Dakota Constitution. Because that section also requires things like just compensation to be determined by a jury, the challenge to these laws is also not merely based on the fact that they constitute a taking, but also that they deny the due process that is required by the North Dakota and federal Constitutions by failing to afford the bare process required by the North Dakota Constitution itself. They further deny the right to just compensation and require only that the NDIC find that pore space owners will be “equitably compensated,” a term that is unconstitutional unless

is means just compensation, but was clearly written to mean the equitable or proportionate share of oil production, or for sequestration, revenue from 45Q credits.

[¶45] Regardless, the constitutional challenge mounted is based on both takings claims and due process claims. It is a facial challenge and with respect to the amalgamation laws, the claim is that they are unconstitutional takings because in every instance of their application they result in an unconstitutional taking and violate the due process protections of Article I, Section 16 of the ND Constitution. In such a situation, it is not necessary to obtain an order from the agency or to exhaust administrative remedies, and the challenge is appropriately brought as a facial challenge. *See Larimore Pub. Sch. Dist. No. 44 v. Aamodt*, 2018 ND 71, ¶ 37, 908 N.W.2d 442 and *United States v. Salerno*, 481 U.S. 739, 745, 107 S. Ct. 2095, 2100 (1987). The agency is without even the authority or jurisdiction to provide a jury trial, for example, so because exhaustion would be futile in all instances it is not required nor does it promote the goal of judicial efficiency, which is the basis for the doctrine. *See, e.g., Tracy v. Cent. Cass Pub. Sch. Dist.*, 1998 ND 12, ¶ 13, 574 N.W.2d 781, 783 (noting exhaustion is required “[u]nless exhaustion would be futile ... .”) (emphasis added).

**VI. The *United States v. Causby* case and the nuisance-law interference theory was already argued to the North Dakota Supreme Court and the argument was rejected.**

[¶46] Summit argues that “[t]he issue that Summit is raising in the case at hand (*i.e.*, whether *Causby* or *Loretto* is the proper standard for assessing whether a government-authorized invasion of non-surface property constitutes a taking) was neither considered nor decided by the *Northwest Landowners* Court. *Causby* was not even cited in the Court's opinion. Moreover, the parties in that case never argued that the Court should apply a standard other than *Loretto*.” State brief, Index #184, ¶ 23. These statements are false.

[¶47] The North Dakota Supreme Court’s docket can be accessed to view the briefs filed in that case, and Continental clearly made an almost identical argument to the Court in the prior *Northwest Landowners* case regarding the application of the *Causby* case. See Appellant Brief of Continental Resources, ¶ 50, ND Supreme Court Case Number 20210148.<sup>5</sup> Indeed, the argument was made in almost the exact same way with almost the exact same block quote. *Id.*<sup>6</sup> The North Dakota Petroleum Council also made a similar argument in the prior *Northwest Landowners* case:

In *Chance v. BP Chemicals, Inc.*, the Ohio Supreme Court reviewed a claim that BP Chemicals trespassed on the plaintiff’s land when legally injected fluids laterally migrated into the plaintiff’s subsurface. 670 N.E.2d 985, 986. The court reasoned that “[j]ust as a property owner must accept some limitations on the ownership rights extending above the surface of the property, there are also limitations on property owners’ subsurface rights.” *Id.* at 992. Surface owners’ “subsurface rights in their properties include the right to exclude invasions of the subsurface property that actually interfere with [landowners’] reasonable and foreseeable use of the subsurface.” *Id.* (emphasis added). The *Chance* holding strikes the proper balance between protecting a landowner’s interests and supporting oil and gas development for the public interest.

See Brief of Amicus ND Petroleum Council, ¶ 13, ND Supreme Court Case Number 20210148.<sup>7</sup>

---

<sup>5</sup> <https://portal.ctrack.ndcourts.gov/portal/court/68f021c4-6a44-4735-9a76-5360b2e8af13/case/07cf5497-116b-44c0-a6df-b08abf9d07f7>

<sup>6</sup> Continental argued: “From the standpoint of the statutory phrase ‘everything permanently situated beneath or above it,’ N.D.C.C. § 47-01-12, the use of pore space is the same as the use of airspace. Yet in 1923 the Legislative Assembly declared the surface owner’s right to the air above was subject to the “right of flight.” N.D.C.C. §§ 2-03-03, -04 (recognizing North Dakota landowners own space above the land “subject to the right of flight”). The United States Supreme Court later adopted the same view. See *United States v. Causby*, 328 U.S. 256, 260-61 (1946). In *Causby*, the Court considered whether use of the airspace declared by Congress to be a public domain and in accordance with the applicable statutes and regulations could constitute a taking. *Id.* at 260-67. In beginning its analysis, the Court noted:

It is ancient doctrine that a common law ownership of the land extended to the periphery of the universe—*Cujus est solum ejus est usque ad coelum*. But that doctrine has no place in the modern world. The air is a public highway, as Congress had declared. Were that not true, every transcontinental flight would subject the operator to countless trespass suits. *Common sense revolts at the idea.*

*Id.* 260-61 (emphasis added).

<sup>7</sup> <https://portal.ctrack.ndcourts.gov/portal/court/68f021c4-6a44-4735-9a76-5360b2e8af13/case/07cf5497-116b-44c0-a6df-b08abf9d07f7>.

[¶48] Contrary to Summit’s claim that the North Dakota Supreme Court did not hear or decide the issue, it had precisely the same arguments about the *Causby* case and limitations on subsurface rights before it in the prior case, and it squarely responded to the *Causby* argument as follows:

Senate Bill 2344 constitutes a per se taking. It allows third-party oil and gas operators to physically invade a landowner's property by injecting substances into the landowner's pore space. As demonstrated in *Arkansas Game & Fish Comm'n v. United States*, 568 U.S. 23, 34, 133 S. Ct. 511, 184 L. Ed. 2d 417 (2012), physical invasion by water, even for a limited duration, results in a per se taking. Furthermore, because S.B. 2344 permits oil and gas operators to use pore space to temporarily or permanently store or dispose of gases and wastes, the bill authorizes an occupation of the landowners' property. Similar to the unconstitutional regulation in *Cedar Point Nursery*, S.B. 2344 grants oil and gas operators a right of access to the landowners' private property. Further, as in *Loretto*, 458 U.S. at 436, S.B. 2344 restricts landowners from having any control over the "timing, extent, or nature of the invasion." As amended, the statutes would allow anyone conducting operations under Chapter 38-08 to inject waste into a surface owner's pore space without the surface owner's consent. See N.D.C.C. § 47-31-09(1) (stating that "[i]njection . . . of substances into pore space . . . is not unlawful and, by itself, does not constitute trespass"). Allowing such usage takes away one of the most treasured property rights because it takes away landowners' right to exclude oil and gas operators from trespassing and disposing waste into their pore space.

*Nw. Landowners Ass'n v. State*, 2022 ND 150, ¶ 26, 978 N.W.2d 679.

[¶49] Indeed, the Court reiterated: “Furthermore, although the use of pore space may not seriously interfere with a landowner's use of the rest of his land because the pore space is deep beneath the surface, *Loretto* held that compensation is required for physical invasions even if the owner suffers only a ‘minimal economic impact.’”

[¶50] Summit’s claim that its *Causby* argument was not specifically and squarely rejected by the North Dakota Supreme Court is demonstrably false.

## **VII. The precondemnation survey laws authorize physical invasions in violation of *Cedar Point Nursery v. Hassid*.**

[¶51] The background principles that are inherent limitations on title and the right to exclude were listed in the United Supreme Court’s decision in *Cedar Point Nursery v. Hassid*, 141 S. Ct.

2063, 2079-80 (2021). The lists from both the Court and the dissent did not include the survey statutes claimed by the State to be such a principle. *Id.*

[¶52] In the United States Supreme Court’s discussion of background limitations on a landowner’s title, it was simply recognizing that if a limitation inheres in property title itself, it cannot be said to be a taking when the state enforces that limitation. *Cedar Point Nursery v. Hassid*, 141 S. Ct. 2063, 2079 (2021). The U.S. Supreme Court was not “carving out exceptions” to allow unconstitutional takings, as presumed by the State and the court in *Klemic v. Dominion Transmission, Inc.*, 138 F. Supp. 3d 673 (W.D. Va. 2015) and *Charlottesville Div. v. Dominion Transmission, Inc.*, 138 F. Supp. 3d 673 (W.D. Va. 2015). The Court, as even Justice Breyer recognized in his dissent, was merely reasserting the principle recognized in *Lucas* that “the government can, without paying compensation, impose a limitation on land that ‘inhere[s] in the title itself, in the restrictions that background principles of the State’s law of property and nuisance already place upon land ownership.’” *Cedar Point Nursery v. Hassid*, 141 S. Ct. 2063, 2088 (2021) (emphasis added). Justice Breyer asks a couple of rhetorical questions in his dissent: “Do only those exceptions that existed in, say, 1789 count? Should courts apply those privileges as they existed at that time, when there were no union organizers?” *Id.* at 2089. The obvious answer based on any reasonable reading of the majority opinion is YES and YES. *Id.*

[¶53] A District Court in Virginia ruled on a case prior to the *Cedar Point* decision and got it wrong. For example, the Virginia court states that there are “common-law privileges to enter private property without trespass liability” as found in some statutes, and proceeds to quote this as an exception to liability for an unconstitutional taking. *Charlottesville Div.*, 138 F. Supp. 3d 673, 688 (W.D. Va. 2015). This statement fundamentally conflates trespass law and takings law. Of course a statute may relieve trespass liability when it provides an “authorization” because the tort

of trespass is an “unauthorized” entry. But whether that is true is irrelevant to whether it is an unconstitutional taking of a private property right, and is also irrelevant to whether such a statute is a limitation that *inheres* in the landowner’s *title*. If it does, then it cannot be “taken” by a physical invasion because it was never a consequent of the right to exclude in the first place. The language of N.D.C.C. § 32-15-06 that limits just compensation (“...and such entry constitutes no claim for relief in favor of the owner of the land except for injuries resulting from negligence, wantonness, or malice), cannot reasonably be said to *inhere* in any title – it is simply a misstatement of law that violates the state and federal constitutions and must be struck down as unconstitutional on its face.

Government-authorized physical invasions of property constitute the "clearest sort of taking" and therefore are a per se taking. *Cedar Point Nursery v. Hassid*, 141 S. Ct. 2063, 2071, 210 L. Ed. 2d 369 (2021). "[A]n owner suffers a special kind of injury when a *stranger* directly invades and occupies the owner's property." *Loretto*, 458 U.S. at 436. A physical invasion "is qualitatively more severe than a regulation of the *use* of property . . . since the owner may have no control over the timing, extent, or nature of the invasion." *Id.* Further, regardless of whether the physical occupation is permanent or temporary, just compensation is required. *Cedar Point Nursery*, 141 S. Ct. at 2074. Even if the physical invasion has only minimal economic impact on the owner, compensation is required because when there is a physical occupation of property, it effectively destroys the owner's rights to possess, use, and dispose of the property. *Loretto*, 458 U.S. at 435-36; *Cass Co. Joint Water Res. Dist. v. Aaland*, 2021 ND 57, ¶¶ 13-14, 956 N.W.2d 395. Further, because government-authorized physical invasions take away the landowner's right to exclude—"one of the most treasured" rights of property ownership—they are a per se taking.

*Nw. Landowners Ass'n*, 2022 ND 150, ¶ 25, 978 N.W.2d 679, 691 (emphasis added).

[¶54] In *Jacobsen v. Superior Court of Sonoma*, 192 Cal. 319, 320, 219 P. 986, 987 (1923), the California Supreme Court considered the same statutory language at issue here, and also specific language that had been added to the California constitution which rendered its statute unconstitutional in most regards and also made its takings provision almost identical to North Dakota’s:

At the time the present constitution was adopted (in 1879), the law as declared by the supreme court was as follows: The possession and use in terms authorized by

the statute, before compensation had been made and while the proceeding was pending, is a taking within the meaning of the constitution, but the requirement of the former constitution, which only provided that private property should not be taken for public use without just compensation, was satisfied by a provision which insured the payment on reasonable terms as to delay and difficulty in the enforcement of the right. Viewed in the light of these facts, the change made in the language by the new constitution becomes significant. The following italicized words were added, and no other change was made in the general provision: 'Private property shall not be taken *or damaged* for public use without just compensation *having been first made to or paid into court for the owner*.'

*Id.*, 192 Cal. at 327 (emphasis in original).

[¶55] This language is significant because it also appears verbatim in the North Dakota constitution's takings clause. This Court recognized as much recently when it wrote: "The North Dakota Constitution provides overlapping and broader protection against government interference with property rights [than the federal constitution]: Private property shall not be taken *or damaged* for public use without just compensation having been *first made to, or paid into court for the owner*." *Northwest Landowners Ass'n v. State*, 2022 ND 150, ¶ 16 (quoting N.D. Const. art. I, § 16) (emphasis added).

[¶56] Additionally, the North Dakota constitution requires that just compensation be determined by a jury unless waived by the landowner. ND Const. Art I, § 16. The only exception to this is for the State itself and its political subdivisions, who could utilize quick take procedures in order to effectuate immediate possession subject to appeal on all grounds, and potential reconveyance along with just compensation for the temporary taking if the taking was found to be unconstitutional or unjustified. *Id.* The California Supreme Court agreed with this. *Jacobsen*, 192 Cal. At 331, 219 P. 986 ("The only means by which [the government] can acquire such property without the owner's consent is through the exercise of the right of eminent domain."). And as in California, if the State itself or its political subdivisions seek to acquire survey access in an

expedited manner, it can be done through the quick take procedures allowed by the Constitution and other state law, but not through N.D.C.C. § 32-15-06.

[¶57] Defendants argue that it is impractical as a policy matter to strike down the precondemnation survey statutes because they are relied upon by condemnors to obtain access for surveying activities prior to a project and there will be dire consequences if they cannot. *See, e.g.* Basin Brief, Index #164, ¶ 35 (“If the Survey Statute was held unconstitutional, Basin Electric’s ability to provide reliable electricity to its members and to support the reliability of the electrical grid would be seriously impaired.”); State brief, Index #184, ¶ 21 (“Plaintiffs’ sweeping argument to the contrary would, if taken on its face, destabilize other areas of State law.”). As with the amalgamation statutes and the histrionics about having to use condemnation, there are clear legal paths forward if the government needs to conduct surveys that do not involve unconstitutional takings.

[¶58] As one example, on September 27, 2019, in response to concerns over illegal immigration, the United States government filed *United States v. 117.543 Acres of Land*, 504 F. Supp. 3d 595 (S.D. Tex. 2020). In this case it sought a temporary “easement ‘to conduct surveying, testing, and other investigatory work needed to plan the proposed construction of roads, fencing, vehicle barriers, security lighting, cameras, sensors, and related structures designed to help secure the United States/Mexico border within the State of Texas.’” *Id.*, 504 F. Supp. 3d 595, 599 (S.D. Tex. 2020). Given the pressing nature of the concerns the government was trying to address, it is hard to square the defendants’ claims that government cannot function without invading private property for precondemnation surveys. If the United States government can respect private property rights even while attempting to address a situation it considers to be an emergency of national consequence, so too can the executive branch of the state of North Dakota. The state of

North Dakota also allows “quick take” actions to be filed by the state and its subdivisions and local governments, meaning that it can obtain almost immediate access for this type of survey when necessary.

**VIII. The hyperbolic claims made by defendants are not new and are not a reasonable basis for the Court’s decision.**

[¶59] Throughout the briefing, defendants make hyperbolic claims about the potential effects and impacts of striking down the challenged laws as unconstitutional. These same claims were made in *NWLA I*, and the energy industry yet survives, and the lights in North Dakota have not gone out.

[¶60] For example, in *NWLA I*, the State warned:

\*\*\*

If this court adopts or accepts the NWLA interpretation of S.B.2344, the court will indirectly, or directly, limit the Industrial Commission's statutory and regulatory authority, and reject the Court's longstanding precedent relative to property rights and mineral development in North Dakota. Such a result would upend mineral development in North Dakota.

\*\*\*

(See 05-2019-CV-00085, Index #58: State's Motion for Judgment on the Pleadings, at ¶ 2) (emphasis added).

[¶61] The State later doubled down on its dire warning in *NWLA I*, claiming:

If this Court adopts or accepts NWLA's invitation to read the laws within S.B.2344 in isolation, the Court will significantly impact and upend longstanding precedent relative to mineral rights and development in North Dakota and the Industrial Commission's powers to regulate oil and gas development. The Court will transform the surface estate into the dominant estate.

(*Id.*, Index #115: State's Response to Motion for Summary Judgment and Cross-Motion for Summary Judgment, at ¶ 4) (emphasis added).

[¶62] Continental later told the Supreme Court that this Court’s ruling in *NWLA I*, “...places North Dakota in the position, unwittingly, of having seized through the Pore Space Statute potentially tens of billions of dollars of the rights of mineral owners and given them to surface

owners without compensation or public purpose.” See Supreme Court No. 20210148, filed November 8, 2021: Appellant Continental Resources, Inc.’s Opening Brief & Addendum, ¶ 81.

[¶63] Of course none of this hand waving amounted to anything and the Court should also ignore the current hyperbolic threats from defendants. There are paths for industry to take that are within the bounds of the Constitutions. Responsible developers like WBI have shown that when landowners are treated fairly it is possible to reach agreements with almost all of them, and if there is that 1% that does not agree, there is a process for taking private property through eminent domain that does not run afoul of the myriad constitutional violations that the so-called “amalgamation” statutes create. See *WBI Energy Transmission, Inc. v. Subsurface Easements for the Storage of Nat. Gas*, No. CV 18-88-BLG-SPW-TJC, 2020 U.S. Dist. LEXIS 144001, at \*1 (D. Mont. July 6, 2020). Similarly, even the United States government does not appear to have trouble addressing what it considers national emergencies within the bounds of the Constitution and eminent domain law when it needs to conduct surveys prior to condemnation for an actual project. See *United States v. 117.543 Acres of Land*, 504 F. Supp. 3d 595 (S.D. Tex. 2020).

### **CONCLUSION**

[¶64] Alexander Hamilton once discussed the important role of the judiciary in the American form of government:

By a limited Constitution, I understand one which contains certain specified exceptions to the legislative authority; such, for instance, as that it shall pass no bills of attainder, no ex-post-facto laws, and the like. Limitations of this kind can be preserved in practice no other way than through the medium of courts of justice, whose duty it must be to declare all acts contrary to the manifest tenor of the Constitution void. Without this, all the reservations of particular rights or privileges would amount to nothing.

Alexander Hamilton, Federalist No. 78, (The Judiciary Department, McLEAN'S Edition, New York).<sup>8</sup>

[¶65] “No legislative act, therefore, contrary to the Constitution, can be valid. To deny this, would be to affirm, that the deputy is greater than his principal; that the servant is above his master; that the representatives of the people are superior to the people themselves; that men acting by virtue of powers, may do not only what their powers do not authorize, but what they forbid.” *Id.*

[¶66] “The powers of the legislature are defined and limited; and that those limits may not be mistaken or forgotten the Constitution was written.’ The legislature was created by the Constitution and vested with power to enact laws conformable to the provisions of the Constitution... .” *State v. First State Bank*, 52 N.D. 231, 242-44, 202 N.W. 391 (ND 1924).

[¶67] Landowners respectfully request that this Court strike down the challenged laws as unconstitutional and prohibit their implementation and enforcement.

Dated: May 13, 2024.

Respectfully submitted,

/s/ Derrick Braaten

Case No. 05-2023-CV-00065

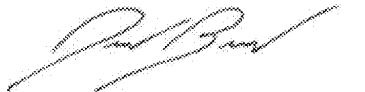

**DECLARATION OF ATTORNEY  
DERRICK BRAATEN**

[¶1] I am legal counsel for Plaintiffs, Northwest Landowners Association, Mike Dresser, Sandra Short, and the Swenson Living Trust, and make this declaration based on personal knowledge.

[¶2] Attached hereto as Exhibit 1 is a true and correct copy of the Geologic Storage Agreement incorporated in NDIC Order No. 31584 (Index # 28) by reference in paragraph 2 of pp. 5-6. Minnkota Power Cooperative produced this Agreement with bates numbers Minnkota 00935-00976 in response to North Dakota Farm Bureau's Requests for Production of Documents. The property of Mike Dresser is listed on the page bates stamped as Minnkota 00953 and the Surface Use And Pore Space Lease, "Attached to and made part of the Storage Agreement" as Exhibit D, begins at bates stamp Minnkota 00963.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 13<sup>th</sup> day of May, 2024 at Bismarck, North Dakota, United States.

---

Derrick Braaten

**STORAGE AGREEMENT  
TUNDRA BROOM CREEK – SECURE GEOLOGIC STORAGE  
OLIVER COUNTY, NORTH DAKOTA**

**STORAGE AGREEMENT  
TUNDRA BROOM CREEK – SECURE GEOLOGIC STORAGE  
OLIVER COUNTY, NORTH DAKOTA**

**THIS AGREEMENT** (“Agreement”) is entered into as of the 1st day of November 1, 2021, by the parties who have signed the original of this instrument, a counterpart thereof, ratification and joinder or other instrument agreeing to become a Party hereto.

**RECITALS:**

A. It is in the public interest to promote the geologic storage of carbon dioxide in a manner which will benefit the state and the global environment by reducing greenhouse gas emissions and in a manner which will help ensure the viability of the state's coal and power industries, to the economic benefit of North Dakota and its citizens;

B. To further geologic storage of carbon dioxide, a potentially valuable commodity, may allow for its ready availability if needed for commercial, industrial, or other uses, including enhanced recovery of oil, gas, and other minerals; and

C. For geologic storage, however, to be practical and effective requires cooperative use of surface and subsurface property interests and the collaboration of property owners, which may require procedures that promote, in a manner fair to all interests, cooperative management, thereby ensuring the maximum use of natural resources.

**AGREEMENT:**

It is agreed as follows:

**ARTICLE 1  
DEFINITIONS**

As used in this Agreement:

1.1 **Carbon Dioxide** means carbon dioxide in gaseous, liquid, or supercritical fluid state together with incidental associated substances derived from the source materials, capture process and any substances added or used to enable or improve the injection process.

1.2 **Commission** means the North Dakota Industrial Commission.

1.3 **Effective Date** is the time and date this Agreement becomes effective as provided in Article 14.

1.4 **Facility Area** is the land described by Tracts in Exhibit “B” and shown on Exhibit “A” containing 18903.211 acres, more or less.

1.5 **Party** is any individual, corporation, limited liability company, partnership, association, receiver, trustee, curator, executor, administrator, guardian, tutor, fiduciary, or other representative of any kind, any department, agency, or instrumentality of the state, or any governmental subdivision thereof, or any other entity capable of holding an interest in the Storage Reservoir.

1.6 **Pore Space** means a cavity or void, whether natural or artificially created, in any subsurface stratum.

1.7 **Pore Space Interest** is a right to or interest in the Pore Space in any Tract within the boundaries of the Facility Area.

1.8 **Pore Space Owner** is a Party hereto who owns Pore Space Interest.

1.9 **Storage Equipment** is any personal property, lease and well equipment, plants and other facilities and equipment for use in Storage Operations.

1.10 **Storage Expense** is all costs, expense or indebtedness incurred by the Storage Operator pursuant to this Agreement for or on account of Storage Operations.

1.11 **Storage Reservoir** consists of the Pore Space and confining subsurface strata underlying the Facility Area described as the Opeche-Picard (Upper Confining Zone), Broom Creek (Storage Reservoir/Injection Zone), and Amsden (Lower Confining Zone) Formation(s) and which are defined as identified by the well logging suite performed at two stratigraphic wells, the J-LOC1 well (File No. 37380) and the J-ROC1 1 well (File No. 37672). The log suites included caliper, gamma ray (GR), density, porosity (neutron, density), dipole sonic, resistivity, spectral GR, a combinable magnetic resonance (CMR), and fracture finder log. Further, the logs were used to pick formation top depths and interpret lithology, petrophysical properties, and time-to-depth shifting of seismic data obtained from two 3D seismic surveys covering an area totaling 18.5 miles in and around the J-ROC1 1 (located in Section 4, Township 141 North, Range 83 West) and the J-LOC 1 (located in Section 27, Township 142 North, Range 84 West) stratigraphic wells located in Oliver County, North Dakota. Formation top depths were picked from the top of the Pierre Formation to the top of the Precambrian. These logs and data which encompass the stratigraphic interval from an average depth of 4,650 feet to an average depth of 5,450 feet within the limits of the Facility Area.

1.12 **Storage Facility** is the unitized or amalgamated Storage Reservoir created pursuant to an order of the Commission.

1.13 **Storage Facility Participation** is the percentage shown on Exhibit "C" for allocating payments for use of the Pore Space under each Tract identified in Exhibit "B".

1.14 **Storage Operations** are all operations conducted by the Storage Operator pursuant to this Agreement or otherwise authorized by any lease covering any Pore Space Interest.

1.15 **Storage Operator** is the person or entity named in Section 4.1 of this Agreement.

1.16 **Storage Rights** are the rights to explore, develop, and operate lands within the Facility Area for the storage of Storage Substances.

1.17 **Storage Substances** are Carbon Dioxide and incidental associated substances, fluids, and minerals.

1.18 **Tract** is the land described as such and given a Tract number in Exhibit "B."

## ARTICLE 2 EXHIBITS

2.1 **Exhibits**. The following exhibits, which are attached hereto, are incorporated herein by reference:

2.1.1 Exhibit "A" is a map that shows the boundary lines of the Tundra Broom Creek Facility Area and the tracts therein;

2.1.2 Exhibit "B" is a schedule that describes the acres of each Tract in the Tundra Broom Creek Facility Area;

2.1.3 Exhibit "C" is a schedule that shows the Storage Facility Participation of each Tract; and

2.1.4 Exhibit "D" is a form of Surface Use and Pore Space Lease.

2.2 **Reference to Exhibits**. When reference is made to an exhibit, it is to the exhibit as originally attached or, if revised, to the last revision.

2.3 **Exhibits Considered Correct**. Exhibits "A," "B," "C" and "D" shall be considered to be correct until revised as herein provided.

2.4 **Correcting Errors**. The shapes and descriptions of the respective Tracts have been established by using the best information available. If it subsequently appears that any Tract, mechanical miscalculation or clerical error has been made, Storage Operator, with the approval of Pore Space Owners whose interest is affected, shall correct the mistake by revising the exhibits to conform to the facts. The revision shall not include any re-evaluation of engineering or geological interpretations used in determining Storage Facility Participation. Each such revision of an exhibit made prior to thirty (30) days after the Effective Date shall be effective as of the Effective Date. Each such revision thereafter made shall be effective at 7:00 a.m. on the first day of the calendar month next following the filing for record of the revised exhibit or on such other date as may be determined by Storage Operator and set forth in the revised exhibit.

2.5 **Filing Revised Exhibits**. If an exhibit is revised, Storage Operator shall execute an appropriate instrument with the revised exhibit attached and file the same for record in the county or counties in which this Agreement or memorandum of the same is recorded and shall also file the amended changes with the Commission.

### ARTICLE 3 CREATION AND EFFECT OF STORAGE FACILITY

3.1 **Unleased Pore Space Interests.** Any Pore Space Owner in the Storage Facility who owns a Pore Space Interest in the Storage Reservoir that is not leased for the purposes of this Agreement and during the term hereof, shall be treated as if it were subject to the Surface Use and Pore Space Lease attached hereto as Exhibit "D".

3.2 **Amalgamation of Pore Space.** All Pore Space Interests in and to the Tracts are hereby amalgamated and combined insofar as the respective Pore Space Interests pertain to the Storage Reservoir, so that Storage Operations may be conducted with respect to said Storage Reservoir as if all of the Pore Space Interests in the Facility Area had been included in a single lease executed by all Pore Space Owners, as lessors, in favor of Storage Operator, as lessee and as if the lease contained all of the provisions of this Agreement.

3.3 **Amendment of Leases and Other Agreements.** The provisions of the various leases, agreements, or other instruments pertaining to the respective Tracts or the storage of the Storage Substances therein, including the Surface Use and Pore Space Lease attached hereto as Exhibit "D", are amended to the extent necessary to make them conform to the provisions of this Agreement, but otherwise shall remain in effect.

3.4 **Continuation of Leases and Term Interests.** Injection in to any part of the Storage Reservoir, or other Storage Operations, shall be considered as injection in to or upon each Tract within said Storage Reservoir, and such injection or operations shall continue in effect as to each lease as to all lands and formations covered thereby just as if such operations were conducted on and as if a well were injecting in each Tract within said Storage Reservoir.

3.5 **Titles Unaffected by Storage.** Nothing herein shall be construed to result in the transfer of title of the Pore Space Interest of any Party hereto to any other Party or to Storage Operator.

3.6 **Injection Rights.** Storage Operator is hereby granted the right to inject into the Storage Reservoir any Storage Substances in whatever amounts Storage Operator may deem expedient for Storage Operations, together with the right to drill, use, and maintain injection wells in the Facility Area, and to use for injection purposes.

3.7 **Transfer of Storage Substances from Storage Facility.** Storage Operator may transfer from the Storage Facility any Storage Substances, in whatever amounts Storage Operator may deem expedient for Storage Operations, to any other reservoir, subsurface stratum or formation permitted by the Commission for the storage of carbon dioxide under Chapter 38-22 of the North Dakota Century Code. The transfer of such Storage Substances out of the Storage Facility shall be disregarded for the purposes of calculating the royalty under any lease covering a Pore Space Interest (including Exhibit "D") and shall not affect the allocation of Storage Substances injected into the Storage Facility through the surface of the Facility Area in accordance with Article 6 of this Agreement.

3.8 **Receipt of Storage Substances.** Storage Operator may accept and receive into the Storage Facility any Storage Substances, in whatever amounts Storage Operator may deem expedient for Storage Operations, being stored in any other reservoir, subsurface stratum or formation permitted by the Commission for the storage of carbon dioxide under Chapter 38-22 of the North Dakota Century Code. The receipt of such Storage Substances into the Storage Facility shall be disregarded for the purposes of calculating the royalty under any lease covering a Pore Space Interest (including Exhibit "D") and shall not affect the allocation of Storage Substances injected into the Storage Facility through the surface of the Facility Area in accordance with Article 6 of this Agreement.

3.9 **Cooperative Agreements.** Storage Operator may enter into cooperative agreements with respect to lands adjacent to the Facility Area for the purpose of coordinating Storage Operations. Such cooperative agreements may include, but shall not be limited to, agreements regarding the transfer and receipt of Storage Substances pursuant to Sections 3.7 and 3.8 of this Agreement.

3.10 **Border Agreements.** Storage Operator may enter into an agreement or agreements with owners of adjacent lands with respect to operations which may enhance the injection of the Storage Substances in the Storage Reservoir in the Facility Area or which may otherwise be necessary for the conduct of Storage Operations.

#### ARTICLE 4 STORAGE OPERATIONS

4.1 **Storage Operator.** Minnkota Power Cooperative, Inc. is hereby designated as the initial Storage Operator. Storage Operator shall have the exclusive right to conduct Storage Operations, which shall conform to the provisions of this Agreement and any lease covering a Pore Space Interest. If there is any conflict between such agreements, this Agreement shall govern.

4.2 **Successor Operators.** The initial Storage Operator and any subsequent operator may, at any time, transfer operatorship of the Storage Facility with and upon the approval of the Commission.

4.3 **Method of Operation.** Storage Operator shall engage in Storage Operations with diligence and in accordance with good engineering and injection practices.

4.4 **Change of Method of Operation.** As permitted by the Commission nothing herein shall prevent Storage Operator from discontinuing or changing in whole or in part any method of operation which, in its opinion, is no longer in accord with good engineering or injection practices. Other methods of operation may be conducted or changes may be made by Storage Operator from time to time if determined by it to be feasible, necessary or desirable to increase the injection or storage of Storage Substances.

## ARTICLE 5 TRACT PARTICIPATIONS

5.1 **Tract Participations.** The Storage Facility Participation of each Tract is shown in Exhibit "C." The Storage Facility Participation of each Tract shall be based 100% upon the ratio of surface acres in each Tract to the total surface acres for all Tracts within the Facility Area.

5.2 **Relative Storage Facility Participations.** If the Facility Area is enlarged or reduced, the revised Storage Facility Participation of the Tracts remaining in the Facility Area and which were within the Facility Area prior to the enlargement or reduction shall remain in the same ratio to one another.

## ARTICLE 6 ALLOCATION OF STORAGE SUBSTANCES

6.1 **Allocation of Tracts.** All Storage Substances injected shall be allocated to the several Tracts in accordance with the respective Storage Facility Participation effective during the period that the Storage Substances are injected. The amount of Storage Substances allocated to each tract, regardless of whether the amount is more or less than the actual injection of Storage Substances from the well or wells, if any, on such Tract, shall be deemed for all purposes to have been injected into such Tract. Storage Substances transferred or received pursuant to Sections 3.7 and 3.8 of this Agreement shall be disregarded for the purposes of this Section 6.1.

6.2 **Distribution within Tracts.** The Storage Substances injected and allocated to each Tract shall be distributed among, or accounted for to, the Pore Space Owners who own a Pore Space Interest in such Tract in accordance with the Pore Space Owners' Storage Facility Participation effective during the period that the Storage Substances were injected. If any Pore Space Interest in a Tract hereafter becomes divided and owned in severalty as to different parts of the Tract, the owners of the divided interests, in the absence of an agreement providing for a different division, shall be compensated for the storage of the Storage Substances in proportion to the surface acreage of their respective parts of the Tract. Storage Substances transferred or received pursuant to Sections 3.7 and 3.8 of this Agreement shall be disregarded for the purposes of this Section 6.2.

## ARTICLE 7 TITLES

7.1 **Warranty and Indemnity.** Each Pore Space Owner who, by acceptance of revenue for the injection of Storage Substances into the Storage Reservoir, shall be deemed to have warranted title to its Pore Space Interest, and, upon receipt of the proceeds thereof to the credit of such interest, shall indemnify and hold harmless the Storage Operator and other Parties from any loss due to failure, in whole or in part, of its title to any such interest.

7.2 **Injection When Title Is in Dispute.** If the title or right of any Pore Space Owner claiming the right to receive all or any portion of the proceeds for the storage of any Storage Substances allocated to a Tract is in dispute, Storage Operator shall require that the Pore Space Owner to whom the proceeds thereof are paid furnish security for the proper accounting thereof to the rightful Pore Space Owner if the title or right of such Pore Space Owner fails in whole or in part.

7.3 **Payments of Taxes to Protect Title.** The owner of surface rights to lands within the Facility Area is responsible for the payment of any *ad valorem* taxes on all such rights, interests or property, unless such owner and the Storage Operator otherwise agree. If any *ad valorem* taxes are not paid by or for such owner when due, Storage Operator may at any time prior to tax sale or expiration of period of redemption after tax sale, pay the tax, redeem such rights, interests or property, and discharge the tax lien. Storage Operator shall, if possible, withhold from any proceeds derived from the storage of Storage Substances otherwise due any Pore Space Owner who is a delinquent taxpayer an amount sufficient to defray the costs of such payment or redemption, such withholding to be credited to the Storage Operator. Such withholding shall be without prejudice to any other remedy available to Storage Operator.

7.4 **Pore Space Interest Titles.** If title to a Pore Space Interest fails, but the tract to which it relates is not removed from the Facility Area, the Party whose title failed shall not be entitled to share under this Agreement with respect to that interest.

## ARTICLE 8 EASEMENTS OR USE OF SURFACE

8.1 **Grant of Easement.** Storage Operator shall have the right to use as much of the surface of the land within the Facility Area as may be reasonably necessary for Storage Operations and the injection of Storage Substances.

8.2 **Use of Water.** Storage Operator shall have and is hereby granted free use of water from the Facility Area for Storage Operations, except water from any well, lake, pond or irrigation ditch of a Pore Space Owner; notwithstanding the foregoing, Storage Operator may access any well, lake, or pond as provided in Exhibit "D".

8.3 **Surface Damages.** Storage Owner shall pay surface owners for damage to growing crops, timber, fences, improvements and structures located on the Facility Area that result from Storage Operations.

8.4 **Surface and Sub-Surface Operating Rights.** Except to the extent modified in this Agreement, Storage Operator shall have the same rights to use the surface and sub-surface and use of water and any other rights granted to Storage Operator in any lease covering Pore Space Interests. Except to the extent expanded by this Agreement or the extent that such rights are common to the effected leases, the rights granted by a lease may be exercised only on the land covered by that lease. Storage Operator will to the extent possible minimize surface impacts.

## ARTICLE 9 ENLARGEMENT OF STORAGE FACILITY

9.1 **Enlargement of Storage Facility.** The Storage Facility may be enlarged from time to time to include acreage and formations reasonably proven to be geologically capable of storing Storage Substances. Any expansion must be approved in accordance with the rules and regulations of the Commission.

9.2 **Determination of Tract Participation.** Storage Operator, subject to Section 5.2, shall determine the Storage Facility Participation of each Tract within the Storage Facility as enlarged, and shall revise Exhibits "A", "B" and "C" accordingly and in accordance with the rules, regulations and orders of the Commission.

9.3 **Effective Date.** The effective date of any enlargement of the Storage Facility shall be effective as determined by the Commission.

## **ARTICLE 10 TRANSFER OF TITLE PARTITION**

10.1 **Transfer of Title.** Any conveyance of all or part of any interest owned by any Party hereto with respect to any Tract shall be made expressly subject to this Agreement. No change of title shall be binding upon Storage Operator, or any Party hereto other than the Party so transferring, until 7:00 a.m. on the first day of the calendar month following thirty (30) days from the date of receipt by Storage Operator of a photocopy, or a certified copy, of the recorded or filed instrument evidencing such a change in ownership.

10.2 **Waiver of Rights to Partition.** Each Party hereto agrees that, during the existence of this Agreement, it will not resort to any action to partition any Tract or parcel within the Facility Area or the facilities used in the development or operation thereof, and to that extent waives the benefits or laws authorizing such partition.

## **ARTICLE 11 RELATIONSHIP OF PARTIES**

11.1 **No Partnership.** The duties, obligations and liabilities arising hereunder shall be several and not joint or collective. This Agreement is not intended to create, and shall not be construed to create, an association or trust, or to impose a partnership duty, obligation or liability with regard to any one or more of the Parties hereto. Each Party hereto shall be individually responsible for its own obligations as herein provided.

11.2 **No Joint Marketing.** This Agreement is not intended to provide, and shall not be construed to provide, directly or indirectly, for any joint marketing of Storage Substances.

11.3 **Pore Space Owners Free of Costs.** This Agreement is not intended to impose, and shall not be construed to impose, upon any Pore Space Owner any obligation to pay any Storage Expense unless such Pore Space Owner is otherwise so obligated.

11.4 **Information to Pore Space Owners.** Each Pore Space Owner shall be entitled to all information in possession of Storage Operator to which such Pore Space Owner is entitled by an existing lease or a lease imposed by this Agreement.

## ARTICLE 12 LAWS AND REGULATIONS

12.1 **Laws and Regulations.** This Agreement shall be subject to all applicable federal, state and municipal laws, rules, regulations and orders.

## ARTICLE 13 FORCE MAJEURE

13.1 **Force Majeure.** All obligations imposed by this Agreement on each Party, except for the payment of money, shall be suspended while compliance is prevented, in whole or in part, by a labor dispute, fire, war, civil disturbance, or act of God; by federal, state or municipal laws; by any rule, regulation or order of a governmental agency; by inability to secure materials; or by any other cause or causes, whether similar or dissimilar, beyond reasonable control of the Party. No Party shall be required against his will to adjust or settle any labor dispute. Neither this Agreement nor any lease or other instrument subject hereto shall be terminated by reason of suspension of Storage Operations due to any one or more of the causes set forth in this Article.

## ARTICLE 14 EFFECTIVE DATE

14.1 **Effective Date.** This Agreement shall become effective as determined by the Commission.

14.2 **Ipso Facto Termination.** If the requirements of Section 14.1 are not accomplished on or before April 1, 2022 this Agreement shall *ipso facto* terminate on that date (hereinafter called "termination date") and thereafter be of no further effect, unless prior thereto Pore Space Owners owning a combined Storage Facility Participation of at least thirty percent (30%) of the Facility Area have become Parties to this Agreement and have decided to extend the termination date for a period not to exceed six (6) months. If the termination date is so extended and the requirements of Section 14.1 are not accomplished on or before the extended termination date this Agreement shall *ipso facto* terminate on the extended termination date and thereafter be of no further effect.

14.3 **Certificate of Effectiveness.** Storage Operator shall file for record in the county or counties in which the land affected is located a certificate stating the Effective Date of this Agreement.

## ARTICLE 15 TERM

15.1 **Term.** Unless sooner terminated in the manner hereinafter provided or by order of the Commission, this Agreement shall remain in full force and effect until the Commission has issued a certificate of project completion with respect to the Storage Facility in accordance with § 38-22-17 of the North Dakota Century Code.

15.2 **Termination by Storage Operator.** This Agreement may be terminated at any time by the Storage Operator with the approval of the Commission.

15.3 **Effect of Termination.** Upon termination of this Agreement all Storage Operations shall cease. Each lease and other agreement covering Pore Space within the Facility Area shall remain in force for ninety (90) days after the date on which this Agreement terminates, and for such further period as is provided by Exhibit "C" or other agreement.

15.4 **Salvaging Equipment Upon Termination.** If not otherwise granted by Exhibit "C" or other instruments affecting each Tract, Pore Space Owners hereby grant Storage Operator a period of six (6) months after the date of termination of this Agreement within which to salvage and remove Storage Equipment.

15.5 **Certificate of Termination.** Upon termination of this Agreement, Storage Operator shall file for record in the county or counties in which the land affected is located a certificate that this Agreement has terminated, stating its termination date.

## ARTICLE 16 APPROVAL

16.1 **Original, Counterpart or Other Instrument.** A Pore Space Owner may approve this Agreement by signing the original of this instrument, a counterpart thereof, ratification or joinder or other instrument approving this instrument hereto. The signing of any such instrument shall have the same effect as if all Parties had signed the same instrument.

16.2 **Joinder in Dual Capacity.** Execution as herein provided by any Party as either a Pore Space Owner or the Storage Operator shall commit all interests owned or controlled by such Party and any additional interest thereafter acquired in the Facility Area.

16.3 **Approval by the North Dakota Industrial Commission.** Notwithstanding anything in this Article to the contrary, all Tracts within the Facility Area shall be deemed to be qualified for participation if this Agreement is duly approved by order of the Commission.

## ARTICLE 17 GENERAL

17.1 **Amendments Affecting Pore Space Owners.** Amendments hereto relating wholly to Pore Space Owners may be made with approval by the Commission.

17.4 **Construction.** This agreement shall be construed according to the laws of the State of North Dakota.

**ARTICLE 18**  
**SUCCESSORS AND ASSIGNS**

18.1 **Successors and Assigns.** This Agreement shall extend to, be binding upon, and inure to the benefit of the Parties hereto and their respective heirs, devisees, legal representatives, successors and assigns and shall constitute a covenant running with the lands, leases and interests covered hereby.

## EXHIBIT D

Surface Use And Pore Space Lease  
Attached to and made part of the Storage Agreement  
Tundra Broom Creek  
Oliver County, North Dakota

### **SURFACE USE AND PORE SPACE LEASE**

THIS SURFACE USE AND PORE SPACE LEASE ("**Lease**") is made, entered into, and effective as of the \_\_\_\_\_ day of \_\_\_\_\_, 2020 ("**Effective Date**") by and between \_\_\_\_\_, whose address is \_\_\_\_\_ (whether one or more, "**Lessor**"), and Minnkota Power Cooperative, Inc., a Minnesota cooperative association, whose address is \_\_\_\_\_ (whether one or more, "**Lessee**"). Lessor and Lessee are sometimes referred to in this Lease individually as a "**Party**" and collectively as the "**Parties**."

**1. DEFINITIONS.** The following terms shall have the following meanings in this Lease:

**"Carbon Dioxide"** means carbon dioxide in gaseous, liquid, or supercritical fluid state together with incidental associated substances derived from the source materials, capture process and any substances added or used to enable or improve the injection process.

**"Commencement of Operations"** means the date on which Carbon Dioxide is first injected into a Reservoir for commercial operations under this Lease, provided that the performance of test injections and related activities shall not be deemed Commencement of Operations.

**"Commission"** means the North Dakota Industrial Commission.

**"Completion Notice"** means a certificate of project completion issued to Lessee by the Commission pursuant to Chapter 38-22 of the North Dakota Century Code.

**"Environmental Attributes"** means any and all credits, benefits, emissions reductions, offsets, and allowances, howsoever entitled, attributable to the Operations, including any avoided emissions and the reporting rights related to these avoided emissions, such as 26 U.S.C. §45Q Tax Credits.

**"Environmental Incentives"** means any and all credits, rebates, subsidies, payments or other incentives that relate to the use of technology incorporated into the Operations, environmental benefits of Operations, or other similar programs available from any regulated entity or any Governmental Authority.

**"Facilities"** means all facilities, structures, improvements, fixtures, equipment, and any other personal property at any time acquired or constructed by or for Lessee that are necessary or desirable in connection with any use of Reservoirs and their Formations or Operations, including without limitation wells, pipelines, roads, utilities, metering or monitoring equipment, and buildings.

**"Financing Parties"** means person or persons providing construction or permanent financing to Lessee in connection with construction, ownership, operation and maintenance of Facilities or Operations, including financial institutions, leasing companies, institutions, tax equity partners, joint venture partners and/or private lenders.

**"Formation"** means the geological formation of which any Reservoir is a part.

**"Hazardous Substance"** means any chemical, waste or other substances, expressly excluding Carbon Dioxide and Non-Native Carbon Dioxide, (a) which now or hereafter becomes defined as or included in the definition of "hazardous substances," "hazardous wastes," "hazardous materials," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollutants," "pollutants," "regulated substances," or words of similar import under any law

pertaining to environment, health, safety or welfare, (b) which is declared to be hazardous, toxic or polluting by any Governmental Authority, (c) exposure to which now or hereafter prohibited, limited or regulated by any Governmental Authority, (d) the storage, use, handling, disposal or release of which is restricted or regulated by any Governmental Authority, or (e) for which remediation or cleanup is required by any Governmental Authority.

**"Leased Premises"** means the surface and subsurface of the land, excluding mineral rights, described in Exhibit A of this Lease.

**"Native Oil and Gas"** means all oil, natural gas, and other hydrocarbons present in and under the Leased Premises and not injected by Lessor, Lessee or any third party.

**"Non-Native Carbon Dioxide"** means Carbon Dioxide that is not naturally occurring in the Reservoir together with incidental associated substances, fluids, minerals, oil, and gas, excluding that which, independent of Operations, originates from an accumulation meeting the definition of a Pool. All Non-Native Carbon Dioxide will be considered personal property of the Lessee and its successor and assigns under this Agreement.

**"Operating Year"** means the calendar year or portion of the calendar year following Commencement of Operations during which Operations occur.

**"Operations"** means the transportation and injection of Carbon Dioxide into a Reservoir after Commencement of Operations, and any withdrawal of this Carbon Dioxide, as well as the withdrawal of Non-Native Carbon Dioxide, for sale or disposal in accordance with applicable law.

**"Option Money"** means 20 percent of the Initial Term Payment (as such term is defined in that certain Option to Lease between Lessor and Lessee with respect to the Leased Premises).

**"Pool"** means an underground Reservoir containing a common accumulation of Native Oil and Gas that is economically recoverable. A zone of a structure that is completely separated from any other zone in the same structure is a Pool.

**"Pore Space"** means a cavity or void, whether natural or artificially created, in a Reservoir.

**"Related Person"** means any member, partner, principal, officer, director, shareholder, predecessor-in-interest, successor-in-interest, employee, agent, heir, representative, contractor, lessee, sublessee, licensee, invitee, permittee of a Party, Financing Parties or any other person or entity that has obtained or in future obtains rights or interests from, under or through a Party (excluding the other Party itself).

**"Reservoir"** means any subsurface stratum, sand, formation, aquifer, cavity or void, whether natural or artificially created, wholly or partially within the Leased Premises, suitable for the storage or sequestration of carbon dioxide or other gaseous substances.

**"Storage Fee"** means Lessor's proportionate share of sixteen cents (\$0.16) per metric ton of Carbon Dioxide ("Storage Rate") as determined by the Lessee's last meter before injection as part of Operations. For injection periods after 2026, the Storage Rate shall be adjusted to an amount equal to the product of sixteen cents (\$0.16) and the inflation adjustment factor for such calendar year. The inflation adjustment factor shall be determined in the same manner as provided in 26 U.S.C. §45Q(f)(7)(B), substituting "2026" for "2008". The Storage Fee shall be: (i) calculated separately for each amalgamated area as created and established by the Commission that includes any portion of the Leased Premises; (ii) limited to the Carbon Dioxide injected in said amalgamated area in the immediately preceding Operating Year; and (iii) based on the Lessor's proportionate per net acre share of said unit. For avoidance of doubt, the Lessor shall receive a separate Storage Fee for each amalgamated area created and established by the Commission that includes any portion of the Leased Premises on a net acre basis within the Lessor's interest being the numerator and the acres in the amalgamated area being the denominator.

**"Tax Credits"** means any and all (a) investment tax credits, (b) production tax credits, (c)

credits under 26 U.S.C. §45Q credits, and (d) similar tax credits or grants under federal, state or local law relating to construction, ownership or Operations

**2. LEASE RIGHTS.** In consideration of the compensation, covenants, agreements, and conditions set forth in this Lease, Lessor grants, demises, leases and lets to Lessee the exclusive right to use all Pore Space, Reservoirs and their Formations in the Leased Premises for any purpose not previously granted or reserved by an instrument of record related to the capture, injection, storage, sequestration, sale, withdrawal or disposal of Carbon Dioxide, Non-Native Carbon Dioxide and incidental associated substances, fluids, and minerals, provided that Lessee shall have no right to use potable water from within the Leased Premises in Operations; together with the following exclusive rights:

- (a) to use the Leased Premises for developing, constructing, installing, improving, maintaining, replacing, repowering, relocating, removing, abandoning in place, expanding, and operating Facilities;

- (b) to lay, maintain, replace, repair, and remove roads on the Leased Premises to allow Lessee, in its sole discretion, to exercise its rights under this Lease; and

- (c) to enter upon and use the Leased Premises for the purposes of conducting:

- (i) any investigations, studies, surveys, and tests, including without limitation drilling and installing test wells and monitoring wells, seismic testing, and other activities as Lessee deems necessary or desirable to determine the suitability of the Leased Premises for Operations,

- (ii) any inspections and monitoring of Reservoirs and Carbon Dioxide as Lessee or any governmental authority deems necessary or desirable during the term of this Lease, and

- (iii) any maintenance to the Facilities that Lessee or any governmental authority deems necessary or as required by applicable law.

Lessor also hereby grants and conveys unto Lessee all other and further easements across, over, under and above the Leased Premises as reasonably necessary to provide access to and services reasonably required for Lessee's performance under the Lease. The easements granted hereunder shall run with and burden the Leased Premises for the term of this Lease. Notwithstanding the surface easements granted herein, Lessee shall provide notice to Lessor prior to accessing the surface of the Property, and if such activity requires permit then prior notice shall be in form and not be less than that required by law or rule.

Lessee may exercise its rights under this Lease in conjunction with related operations on other properties near the Leased Premises. Lessee shall have no obligation, express or implied, to begin, prosecute or continue storage operations in, upon or under the Leased Premises, or to store and/or sell or use all or any portion of the gaseous substances stored thereon. The timing, nature, manner and extent of Lessee's operations, if any, under this Lease shall be at the sole discretion of Lessee. All obligations of Lessee are expressed herein, and there shall be no covenants implied under this Lease, it being agreed that all amounts paid hereunder constitute full and adequate consideration for this Lease.

**3. INITIAL TERM.** This Lease shall commence on the Effective Date and shall continue for an initial term of twenty (20) years ("Initial Term") unless sooner terminated in accordance with the terms of this Lease. Lessee may, but is not obligated to, extend the Initial Term for up to four successive five-year periods by paying Lessor \$25.00 per net acre in the Leased Premises per five-year extension on or prior to the last day of the Initial Term or expiring five-year extension period. The Initial Term together with any extensions are referred to as the "Primary Term."

**4. OPERATIONAL TERM.** Upon Commencement of Operations at any time during the Primary Term, this Lease shall continue for so long as any portion of the Leased Premises or

Lessee's Facilities are subject to a permit issued by the Commission or under the ownership or control of the State of North Dakota ("Operational Term"); *provided, however*, that all of Lessee's obligations under this Lease shall terminate upon issuance of a Completion Notice, except for payment of the Final Royalty Payment (as applicable), and Final Occupancy Fee (as applicable). If Commencement of Operations does not occur during the Primary Term, this Lease shall terminate, and Lessee shall execute a document evidencing termination of this Lease in recordable form and shall record it in the official records of the county in which the Leased Premises is located.

#### **5. COMPENSATION.**

(a) **Initial Term Payment.** Lessee shall pay to Lessor the greater of \$50.00 per net acre in the Leased Premises ("Initial Term Payment") or a one-time flat \$500.00 payment, the receipt and sufficiency of which are hereby acknowledged.

(b) **Royalty.** During the Operational Term, Lessee shall annually on or before May 31<sup>st</sup> pay to Lessor a royalty equal to the greater of a flat \$100.00 payment or the Storage Fee(s) for the immediately preceding Operating Year. For the Operating Year in which Lessee provides Lessor with a Completion Notice, Lessee shall pay a pro rata share of the Storage Fee(s) ("Final Royalty Payment"), as applicable, and said payment shall be made within sixty days after the date the Completion Notice was issued.

(c) **Occupancy Fee.** Within sixty days of the anniversary of the Effective Date after which any Facilities are installed or used, Lessee shall pay Lessor, as applicable, a one-time fee of (i) \$3,000.00 per net surface acre of the Leased Premises occupied by Facilities (excluding pipelines), and (ii) \$1.50 for each linear foot of pipeline in place on the Leased Premises. For the year in which Lessee provides Lessor with a Completion Notice, Lessee shall pay any fees owed pursuant to this provision ("Final Occupancy Fee") within sixty days after the date the Completion Notice was issued.

Lessor and Lessee agree that the Lease shall continue as specified herein even in the absence of Operations and the payment of royalties.

**6. AMALGAMATION.** (a) Lessee, in its sole discretion, shall have the right and power, at any time (including both before and after Commencement of Operations), to pool, unitize, or amalgamate any Reservoir or portion of a Reservoir with any other lands or interests into which that Reservoir extends and document such unit in accordance with applicable law or agency order. Amalgamated units shall be of such shape and dimensions as Lessee may elect and as are approved by the Commission. Amalgamated areas may include, but are not required to include, land upon which injection or extraction wells have been completed or upon which the injection and/or withdrawal of Carbon Dioxide and Non-Native Carbon Dioxide has commenced prior to the effective date of amalgamation. In exercising its amalgamation rights under this Lease and if required by law, Lessee shall record or cause to be recorded a copy of the Commission's amalgamation order or other notice thereof in the county in which the amalgamated unit. Amalgamating in one or more instances shall, if approved by the Commission, not exhaust the rights of Lessee to amalgamate Reservoirs or portions of Reservoirs into other amalgamation areas, and Lessee shall have the recurring right to revise any amalgamated area formed under this Lease by expansion or contraction or both. Lessee may dissolve any amalgamated area at any time and document such dissolution by recording an instrument in accordance with applicable law or agency order. Lessee shall have the right to negotiate, on behalf of and as agent for Lessor, any unit agreements and operating agreements with respect to the operation of any amalgamated areas formed under this Lease.

(b) The injection and/or withdrawal of Carbon Dioxide and Non-Native Carbon Dioxide into a Reservoir from any property within a amalgamated area that includes the Leased Premises shall be treated as if Operations were occurring on the Leased Premises, except that the royalty payable to Lessor under Section 5(b) of this Lease shall be Lessor's per net acre proportionate share of the total Storage Fee for the preceding Operating year's injection of Carbon Dioxide into the amalgamated area.

**7. ENVIRONMENTAL INCENTIVES.** Unless otherwise specified, Lessee is the owner of all

Environmental Attributes and Environmental Incentives and is entitled to the benefit of all Tax Credits or any other attributes of ownership of the Facilities and Operations. Lessor shall cooperate with Lessee in obtaining, securing and transferring all Environmental Attributes and Environmental Incentives and the benefit of all Tax Credits. Lessor shall not be obligated to incur any out-of-pocket costs or expenses in connection with such actions unless reimbursed by Lessee. If any Environmental Incentives are paid directly to Lessor, Lessor shall immediately pay such amounts over to Lessee.

**8. SURRENDER OF LEASED PREMISES.** Lessee shall have the unilateral right at any time and from time to time to execute and deliver to Lessor a written notice of surrender and/or release covering all or any part of the Leased Premises for which the subsurface pore space is not being utilized for storage as set forth herein, and upon delivery of such surrender and/or release to Lessor this Lease shall terminate as to such lands, and Lessee shall be released from all further obligations and duties as to the lands so surrendered and/or released, including, without limitation, any obligation to make payments provided for herein, except obligations accrued as of the date of the surrender and/or release.

**9. FACILITIES.**

- (a) Lessee shall in good faith consult with Lessor regarding the location of the Facilities, selection of the Facilities location shall be within the discretion of the Lessee with consent of the Lessor, not to be unreasonably withheld. The withholding of such consent by the Lessor regarding the location of the Facilities shall be deemed "unreasonable" if the proposed location of the Facility is located more than 500 feet from any occupied dwellings or currently used buildings existing on the Leased Premises as of the Effective Date. Notwithstanding the foregoing, in no event shall Facilities be located within 500 feet of any currently occupied dwelling or currently used building existing on the Leased Premises as of the Effective Date without Lessor's express consent. Lessee may erect fences around all or part of any aboveground Facilities (excluding roads) to separate Facilities from adjacent Lessor-controlled lands, and shall do so if Lessor so requests. Lessee shall maintain and repair at its expense any roads it constructs on the Leased Premises in reasonably safe and usable condition.
- (b) Lessor and Lessee agree that all Facilities and property of whatever kind and nature constructed, placed or affixed on the rights-of-way, easements, patented or leased lands as part of Lessee's Operations, as against all parties and persons whomsoever (including without limitation any party acquiring interest in the rights-of-way, easements, patented or leased lands or any interest in or lien, claim or encumbrance against any of such Facilities), shall be deemed to be and remain the property of the Lessee, and shall not be considered to be fixtures or a part of the Leased Premises. Lessor waives, to the fullest extent permitted by applicable law, any and all rights it may have under the laws of the State of North Dakota, arising under this Lease, by statute or otherwise to any lien upon, or any right to distress or attachment upon, or any other interest in, any item constituting the Facilities or any other equipment or improvements constructed or acquired by or for Lessee and located on the leased Premises or within any easement area. Each Lessor and Lessee agree that the Lessee (or the designated assignee of Lessee or Financing Parties) is the tax owner of any such Facilities, structures, improvements, equipment and property of whatever kind and nature and all tax filings and reports will be filed in a manner consistent with this Lease. Facilities shall at all times retain the legal status of personal property as defined under Article 9 of the Uniform Commercial Code. If there is any mortgage or fixture filing against the Premises which could reasonably be construed as prospectively attaching to the Facilities as a fixture of the Premises, Lessor shall provide a disclaimer or release from such lienholder. Lessor, as fee owner, consents to the filing of a disclaimer of the Facilities as a fixture of the Premises in the Oliver County Recorder's Office, or where real estate records of Oliver County are customarily filed.

**10. SURFACE DAMAGE COMPENSATION ACT.** The compensation contemplated and paid to Lessor hereunder is compensation for, among other things, damages sustained by Lessor for the lost use of and access to Lessor's land, pore space (to the extent required under North Dakota law), and any other damages which are contemplated under Ch. 38-11.1 of the North Dakota Century Code (to the extent applicable).

**11. MINERALS, OIL AND GAS.** This Lease is not intended to grant or convey, nor does it grant or convey, any right to or obligation for Lessee to explore for or produce minerals, including Native Oil and Gas, that may exist on the Leased Premises. Lessee shall not engage in any activity or permit its Related Persons to engage in any activity that unreasonably interferes with the Lessor's or third party's (or parties') rights to the granted, leased, or reserved mineral interests. If Lessor owns hydrocarbon mineral interests in the Leased Premises and Lessee should inadvertently discover a Pool in conjunction with its efforts to explore for and develop a Reservoir for Operations, Lessee shall inform Lessor within 60 days of discovery. If Lessee determines that it will not use in conjunction with Operations a well that has encountered a Pool within the Leased Premises, Lessor shall have the option but not the obligation to buy such well at cost, provided Lessor has the ability and assumes all permits and risks and liabilities which are associated with the ownership and operation of an oil, gas or mineral well.

**12. FORCE MAJEURE.** Should Lessee be prevented from complying with any express or implied covenant of this Lease, from utilizing the Leased Premises for underground storage purposes by reason of scarcity of or an inability to obtain or to use equipment or material failure or breakdown of equipment, or by operation of force majeure (including, but not limited to, riot, insurrection, war (declared or not), mobilization, explosion, labor dispute, fire, flood, earthquake, storm, lightning, tsunami, backwater caused by flood, vandalism, act of the public enemy, terrorism, epidemic, pandemic (including COVID-19), civil disturbances, strike, labor disturbances, work slowdown or stoppage, blockades, sabotage, labor or material shortage, national emergency, and the amendment, adoption or repeal of or other change in, or the interpretation or application of, any applicable laws, orders, rules or regulations of governmental authority), then while so prevented, Lessee's obligation to comply with such covenant shall be suspended and this Lease shall be extended while and so long as Lessee is prevented by any such cause from utilizing the property for underground storage purposes and the time while Lessee is so prevented shall not be counted against Lessee, anything in this Lease to the contrary notwithstanding.

**13. DEFAULT/TERMINATION.** Lessor may not terminate the Lease for any reason whatsoever unless a Default Event has occurred and is continuing consistent with the terms of this Section 13. Any Party that fails to perform its responsibilities as listed below shall be deemed to be the "Defaulting Party," the other Party shall be deemed to be the "Non-Defaulting Party," and each event of default shall be a "Default Event." A Default Event is: (a) failure of a Party to pay any amount due and payable under this Lease, other than an amount that is subject to a good faith dispute, within thirty (30) days following receipt of written notice from Non-Defaulting Party of such failure to pay; or (b) a material violation or default of any terms of this Lease by a Party, provided the Non-Defaulting Party provides written notice of violation or default and Defaulting Party fails to substantially cure the violation or default within sixty (60) days after receipt of said notice to cure such violations or defaults. Parties acknowledge that in connection with any construction or long-term financing or other credit support provided to Lessee or its affiliates by Financing Parties, that such Financing Parties may act to cure a continuing Default Event and Lessor agrees to accept performance from any such Financing Parties so long as such Financing Parties perform in accordance with the terms of this Lease. If Lessee, its affiliates or Financing Parties, fail to substantially cure such Default Event within the applicable cure period, Lessor may terminate the Lease. Lessee may terminate the lease with thirty (30) days written notice to Lessor. Upon termination of this Lease, Lessee shall have one hundred eighty (180) days to remove, plug, and/or abandon in place all Facilities of Lessee located on the Leased Premises in accordance with applicable permit requirements or other applicable statutes, rules or regulations.

**14. ASSIGNMENT.** (a) Lessor shall not sell, transfer, assign or encumber the Facilities or any part of Operations, Lessee's title or Lessee's rights under this Lease. (b) Lessee has the right to sell,

assign, mortgage, pledge, transfer, use as collateral, or otherwise collaterally assign or convey all or any of its rights under this Lease, including, without limitation, an assignment by Lessee to Financing Parties. (c) In the event Lessee assigns its rights under this Lease, Lessee shall be relieved of all obligations with respect to the assigned portion arising after the date of assignment so long as notice of such assignment is provided to Lessor, and provided that Lessee shall not be relieved from any obligation in respect of any payment or other obligations that have not been satisfied or performed prior to such date of assignment. (d) This Lease shall be binding on and inure to the benefit of the successors and assignees. The assigning Party shall provide written notice of any assignment within sixty (60) days after such assignment has become effective; provided, however, that an assigning Party's failure to deliver written notice of assignment within such 60-day period shall not be deemed a breach of this Lease unless such failure is willful and intentional. Further, no change or division in Lessor's ownership of or interest in the Leased Premises or royalties shall enlarge the obligations or diminish the rights of Lessee or be binding on Lessee until after Lessee has been furnished with a written assignment or a true copy of the assignment with evidence that same has been recorded with the Oliver County Recorder's Office.

**15. FINANCING.** (a) Lessor acknowledges that Lessee may obtain tax equity, construction, long-term financing and other credit support from one or more Financing Parties and that Lessee intends to enter into various agreements and execute various documents relating to such financing, which documents may, among other things, assign this Lease and any related easements to a Financing Party, grant a sublease in the Leased Premises and a lease of the Facilities from such Financing Party to Lessee, grant the Financing Parties a sublease or other real property interest in Lessee's interests in and to the Leased Premises, grant a first priority security interest in Lessee's interest in the Facilities and/or this Lease and Lessee's other interests in and to the Leased Premises, including, but not limited to, any easements, rights of way or similar interests (such documents, "Financing Documents"). Lessor acknowledges notice of the foregoing and consents to the foregoing actions and Financing Documents described above.

(b) Lessor agrees, to execute, and agrees to cause any and all of Lessor's lenders to execute, such commercially reasonable subordination agreements, non-disturbance agreements, forbearance agreements, consents, estoppels, modifications of this Lease and other acknowledgements of the foregoing as Lessee or the Financing Parties may reasonably request (collectively, "Lessor Financing Consent Instruments"). Lessor acknowledges and agrees that (i) Lessee's ability to obtain financing for the construction and operation of the Facilities is dependent upon the prompt cooperation of Lessor and its lenders as contemplated by this Section 15; (ii) if Lessee is unable to close on the financing for the Facilities, the construction of the Facilities and the Commencement of Operations will not likely occur; and (iii) it is in the best interest of both Lessee and Lessor for Lessee to obtain financing from the Financing Parties as contemplated by this Section 15. Therefore, Lessor agrees to act promptly, reasonably and in good faith in connection with any request for approval and execution of all Lessor Financing Consent Instruments. The Lessor shall also reasonably cooperate with the Lessee or the Financing Party in the making of any filings required by such requesting party for regulatory compliance or in accordance with applicable laws and in the operation and maintenance of the Facilities, all solely at the expense of the Lessee.

(c) As a precondition to exercising any rights or remedies as a result of any default or alleged default by Lessee under this Lease, Lessor shall deliver a duplicate copy of the applicable notice of default to each Financing Parties concurrently with delivery of such notice to Lessee, specifying in detail the alleged default and the required remedy, provided Lessor was given notice of such Financing Parties and if no such notice of default is required to be delivered to Lessee under this Lease, Lessor may not terminate this Lease unless Lessor has delivered a notice of default to each Financing Party specifying in detail the alleged default or breach and permitting each Financing Party the opportunity to cure as provided in this Section 15(c). Each Financing Party shall have the same period after receipt of a notice of default to remedy default, or cause the same to be remedied, as is given to Lessee after Lessee's receipt of a notice

of default under this Lease, plus, in each instance, the following additional time periods: (i) ten (10) Business Days in the event of any monetary default; and (ii) sixty (60) days in the event of any non-monetary default; provided, however, that (A) such sixty (60)-day period shall be extended for an additional sixty (60) days to enable such Financing Party to complete such cure, including the time required for such Financing Party to obtain possession of the Facilities (including possession by a receiver), institute foreclosure proceedings or otherwise perfect its right to effect such cure and (B) such Financing Party shall not be required to cure those defaults which are not reasonably susceptible of being cured or performed. Lessor shall accept such performance by or at the instance of a Financing Party as if the performance had been made by Lessee.

(d) If any Lessee Default Event cannot be cured without obtaining possession of all or part of the Facilities and/or the leasehold interest created by the Lease (the "Leasehold Estate"), then any such Lessee Default Event shall nonetheless be deemed remedied if: (i) within sixty (60) days after receiving the notice of default, a Financing Party acquires possession thereof, or commences appropriate judicial or non-judicial proceedings to obtain the same; (ii) such Financing Party is prosecuting any such proceedings to completion with commercially reasonable diligence; and (iii) after gaining possession thereof, such Financing Party performs all other obligations as and when the same are due in accordance with the terms of the Lease. If a Financing Party is prohibited by any process or injunction issued by any court or by reason of any action of any court having jurisdiction over any bankruptcy or insolvency proceeding involving Lessee from commencing or prosecuting the proceedings described above, then the sixty (60)-day period specified above for commencing such proceedings shall be extended for the period of such prohibition.

(e) Financing Parties shall have no obligation or liability to the Lessor for performance of the Lessee's obligations under the Lease prior to the time the Financing Party acquires title to the Leasehold Estate. A Financing Party shall be required to perform the obligations of the Lessee under this Lease only for and during the period the Financing Party directly holds such Leasehold Estate. Any assignment pursuant to this Section 15 shall release the assignor from obligations accruing under this Lease after the date the liability is assumed by the assignee.

(f) Each Financing Party shall have the absolute right to do one, some or all of the following things: (i) assign the rights, mortgage or pledge held by Financing Party (the "Financing Party's Lien"); (ii) enforce the Financing Party's Lien; (iii) acquire title (whether by foreclosure, assignment in lieu of foreclosure or other means) to the Leasehold Estate; (iv) take possession of and operate the Facilities or any portion thereof and perform any obligations to be performed by Lessee under the Lease, or cause a receiver to be appointed to do so; (v) assign or transfer the Leasehold Estate to a third party; or (vi) exercise any rights of Lessee under this Lease. Lessor's consent shall not be required for any of the foregoing; and, upon acquisition of the Leasehold Estate by a Financing Party or any other third party who acquires the same from or on behalf of the Financing Party or any purchaser who purchases at a foreclosure sale, Lessor shall recognize the Financing Party or such other party (as the case may be) as Lessee's proper successor, and this Lease shall remain in full force and effect.

(g) If this Lease is terminated for any reason whatsoever, including a termination by Lessor on account of a Lessee Default Event, or if this Lease is rejected by a trustee of Lessee in a bankruptcy or reorganization proceeding or by Lessee as a debtor-in-possession (whether or not such rejection shall be deemed to terminate this Lease), if requested by Financing Party, Lessor shall execute a new lease (the "New Lease") for the Leased Premises with the Financing Parties (or their designee(s), if applicable) as Lessee, within thirty (30) days following the date of such request. The New Lease shall be on substantially the same terms and conditions as are in this Lease (except for any requirements or conditions satisfied by Lessee prior to the termination or rejection). Upon execution of the New Lease by Lessor, Financing Parties (or their designee, if applicable) shall pay to Lessor any and all sums owing by Lessee under this Lease that are unpaid and that would, at the time of the execution of the New Lease, be due and payable under this Lease if this Lease had not been terminated or rejected. The provisions of this Section 15(g) shall survive any termination of this Lease prior to the expiration of the Term, and any

rejection of this Lease in any bankruptcy or reorganization proceeding.

(h) Lessor consents to each Financing Party's security interest, if any, in the Facilities and waives all right of levy for rent and all claims and demands of every kind against the Facilities, such waiver to continue so long as any sum remains owing from Lessee to any Financing Parties. Lessor agrees that the Facilities shall not be subject to distraint or execution by, or to any claim of, Lessor.

**16. INDEMNIFICATION; WAIVER.** (a) Each Party shall indemnify, defend, and hold harmless the other Party and its Related Persons from and against any and all third-party suits, claims, or damages suffered or incurred by the indemnified Party and its Related Persons arising out of physical damage to property and physical injuries to any person, including death, caused by the indemnifying Party or its Related Persons except to the extent such claims arise out of the negligence or willful misconduct of the indemnified Party or its Related Persons. (b) Each Party shall indemnify, defend and hold harmless the other Party and its Related Persons from and against all suits, claims, or damages suffered or incurred by the indemnified Party and its Related Persons arising out of or relating to the existence at, on, above, below or near the Leased Premises of any Hazardous Substance, except to the extent deposited, spilled or otherwise caused by the indemnified Party or any of its contractors or agents, provided that Lessee shall not be obligated to indemnify Lessor with respect to any Hazardous Substance on the Leased Premises prior to the Effective Date.

**17. INSURANCE.** Lessee shall, at its sole cost and expense, keep and maintain in force commercial general liability insurance including broad form property damage liability, personal injury liability, and contractual liability coverage, on an "occurrence" basis, with a combined single limit, which may be effected by primary and excess coverage, of not less than Five Million Dollars (\$5,000,000.00) during the primary term, except that such limit in the Primary Term shall be instead not less than One Million Dollars (\$1,000,000.00) until such time as Lessee commences physical testing of any injection wells or other similar commercial activities, with such commercially reasonable deductibles as Lessee, in its discretion, may deem appropriate. Lessor shall be named as an additional insured in such policy but only to the extent of the liabilities specifically assumed by the Lessee under this Lease. The policy shall contain provisions by which the insurer waives any right of subrogation it may have against Lessor and shall be endorsed to provide that the insurer shall give Lessor thirty days written notice before any material modification or termination of coverage. Upon Lessor's request, Lessee shall promptly deliver certificates of such insurance to Lessor.

#### **18. MISCELLANEOUS.**

(a) **Confidentiality.** Lessor shall maintain in the strictest confidence, and shall require each of Lessor's Related Persons to hold and maintain in the strictest confidence, for the benefit of Lessee, all information pertaining to the compensation paid under this Lease, any information regarding Lessee and its business, operations on the Leased Premises or on any other lands, the capacity and suitability of the Reservoir, and any other information that is deemed proprietary or that Lessee requests or identifies to be held confidential, in each such case whether disclosed by Lessee or discovered by Lessor.

(b) **Liens.** (i) Lessee shall protect the Leased Premises from liens of every character arising from its activities on the Leased Premises, provided that Lessee may, at any time and without the consent of Lessor, encumber, hypothecate, mortgage, pledge, or collaterally assign (including by mortgage, deed of trust or personal property security instrument) all or any portion of Lessee's right, title or interest under this Lease (but not Lessor's right, title or interest in the Leased Premises), as security for the repayment of any indebtedness and/or the performance of any obligation. (ii) Lessor shall not directly or indirectly cause, create, incur, assume or allow to exist any mortgage, pledge, lien, charge, security interest, encumbrance or other claim of any nature on or with respect to the Facilities, Operations or any interest therein. Lessor shall immediately notify Lessee in writing of the existence of any such mortgage, pledge, lien, charge, security interest, encumbrance or other claim, shall promptly cause the same to be discharged and released of record without cost to Lessee, and shall indemnify the Lessee against all costs and expenses (including reasonable attorneys' fees) incurred in discharging and releasing any such

mortgage, pledge, lien, charge, security interest, encumbrance or other claim.

(c) **Warranty of Title.** Lessor represents and warrants to Lessee that Lessor is the owner in fee of the surface and subsurface pore space of the Leased Premises. Lessor hereby warrants and agrees to defend title to the Leased Premises and Lessor hereby agrees that Lessee, at its option, shall have the right to discharge any tax, mortgage, or other lien upon the Leased Premises, and in the event Lessee does so, Lessee shall be subrogated to such lien with the right to enforce the same and apply annual rental payments or any other such payments due to Lessor toward satisfying the same. At any time on or after the Effective Date, Lessee may obtain for itself and/or any Financing Party, at Lessee's expense, a policy of title insurance in a form and with exceptions acceptable to Lessee and/or such Financing Party in its sole discretion (the "Title Policies"). Lessor agrees to cooperate fully and promptly with Lessee in its efforts to obtain the Title Policies, and Lessor shall take such actions as Lessee or any Financing Party may reasonably request in connection therewith.

(d) **Conduct of Operations.** Each Party shall, at its expense, use best efforts to comply (and cause its Related Persons to comply) in all material respects with all laws applicable to its (or their) activities on the Leased Premises, provided that each Party shall have the right, in its sole discretion, to contest, by appropriate legal proceedings, the validity or applicability of any law, and the other Party shall cooperate in every reasonable way in such contest, at no out-of-pocket expense to the cooperating Party. During the Primary Term, Lessee, its agents, affiliates, servants, employees, nominees and licensees shall be entitled to: (i) apply for and obtain any necessary permits, approvals and other governmental authorizations (collectively called "Governmental Authorizations") required for the development, construction, operation and maintenance of the Project and Lessor agrees to co-operate, execute, obtain or join with Lessee in any applications or proceedings relating to the Governmental Authorizations upon Lessee's written request and at Lessee's direction, cost and expense; and (ii) apply for any approvals and permits and any zoning amendment of any area of the Leased Premises required in connection with the Project, and Lessor agrees to co-operate, execute, obtain or join with Lessee in any applications or proceedings relating to such approvals, permits and zoning amendments upon Lessee's written request and at Lessee's direction, cost and expense.

(e) **Title to Carbon Dioxide.** As between Lessor and Lessee, all right, title, interest and ownership to all Carbon Dioxide injected into any Reservoir shall belong to Lessee, as measured by corresponding Storage Fee payment to Lessor.

(f) **Hazardous Substances.** Lessee shall have no liability for any regulated hazardous substances located on the Leased Premises prior to the Effective Date or placed in, on or within the Leased Premises by Lessor or any of its Related Persons on or after the Effective Date, and nothing in this Lease shall be construed to impose upon Lessee any obligation for the removal of such regulated hazardous substances.

(g) **Interference.** Lessee shall peaceably and quietly have, hold and enjoy the Leased Premises against any person claiming by, through or under the Lessor and without disturbance by the Lessor, unless Lessee is found in default of the terms of this Lease and such default is continuing. Lessor shall not unreasonably interfere with Lessee's access to or maintenance of the Facilities or associated use of Leased Premises under this Lease; endanger the safety of Lessor, Lessee, the general public, private or personal property, or the Facilities; or install or maintain or permit to be installed or maintained vegetation, undergrowth, trees (including overhanging limbs and foliage and any trees standing which are substantially likely to fall), buildings, structures, installations, and any other obstructions which unreasonably interfere to Lessee access or use of the Facilities, Formations or Lessee's use of the Leased Premises under this Lease. Lessor shall not engage in any activity or permit its Related Persons to engage in any activity that might damage or undermine the physical integrity of any Formation or interfere with Lessee's use of the Leased Premises under this Lease, provided however that it is understood by Lessee that Lessor has no right to permit or to prohibit the exercise of any mineral rights not owned by Lessor at the time of entering into the Option to Lease between Lessor and Lessee with respect to the Leased Premises. Neither Lessee nor its agents will engage in any activity that damages existing oil, gas and

other mineral exploration and development activities occurring on the Leased Premises without first obtaining permission from the relevant mineral rights holder.

(h) **Reservations.** Lessor reserves the right to sell, lease, or otherwise dispose of any interest in the Leased Premises subject to the rights granted in this Lease and agrees that sales, leases, or other dispositions of any interest or estate in the Leased Premises shall be expressly made subject to the terms of this Lease and shall not unreasonably interfere with Lessee's rights under this Lease.

(i) **Taxes.** Lessor shall pay for all real estate taxes and other assessments levied upon the Leased Premises. Lessee shall pay any taxes, assessments, fines, fees, and other charges levied by any governmental authority against its Facilities on the Leased Premises. The Parties agree to cooperate fully to obtain any available tax refunds or abatement with respect to the Leased Premises. Lessee shall have the right to pay all taxes, assessments and other fees on behalf of Lessor and to deduct the amount so paid from other payments due to Lessor hereunder.

(j) **Amendments.** Lessee reserves the right to revise this Lease to remedy any mistakes, including correcting the names of the Parties, the legal description of the Leased Premises, or otherwise. In the event that any amendment alters the bonus and royalty payable under Section 5(a)-(b) of this Lease, the Lessee shall pay the Lessor the amount owed under the Lease as amended. Any amendments must be in writing and signed by both parties.

(k) **Remedies.** Notwithstanding anything to the contrary in this Lease, neither Party shall be liable to the other for any indirect, special, punitive, incidental or exemplary damages, whether foreseeable or not and whether arising out of or in connection with this Lease, by statute, in contract, tort, including negligence, strict liability or otherwise, and all such damages are expressly disclaimed. This provision does not limit Lessee's obligation to indemnify Lessor for third-party suits, claims, or damages under Section 16 of this Lease.

(l) **Financial Responsibility.** Lessee will comply with all applicable law regarding financial responsibility for Carbon Dioxide storage, and will post bonds or other financial guarantees as required by the government entities.

(m) **Attorneys' Fees.** If any suit or action is filed or arbitration commenced by either Party against the other Party to enforce this Lease or otherwise with respect to the subject matter of this Lease, the prevailing party shall be entitled to recover reasonable costs and attorneys' fees incurred in investigation of related matters and in preparation for and prosecution of such suit, action, or arbitration as fixed by the arbitrator or court, and if any appeal or other form of review is taken from the decision of the arbitrator or any court, reasonable costs and attorneys' fees as fixed by the court.

(n) **Representations and Warranties.** Lessor represents and warrants to Lessee the following as of the Effective Date and covenants that throughout the Term: (i) Lessor has the full right, power and authority to grant rights, interests and license as contained in this Lease. Such grant of the right, interests and license does not violate any law, ordinance, rule or other governmental restriction applicable to the Lessor or the Leased Premises and is not inconsistent with and will not result in a breach or default under any agreement by which the Lessor is bound or that affects the Leased Premises. (ii) Neither the execution and delivery of this Lease by Lessor nor the performance by Lessor of any of its obligations under this Lease conflicts with or will result in a breach or default under any agreement or obligation to which Lessor is a party or by which Lessor or the Leased Premises is bound. (iii) All information provided by Lessor to Lessee, as it pertains to the Leased Premises' physical condition, along with Lessor's rights, interests and use of the Leased Premises, is accurate in all material respects. (iv) Lessor has no actual or constructive notice or knowledge of Hazardous Substances at, on, above, below or near the Leased Premises. (v) Each of the undersigned represents and warrants that they have the authority to execute this Lease on behalf of the Party for which they are signing.

(o) **Severability.** Should any provision of this Lease be held, in a final and unappealable decision by a court of competent jurisdiction, to be either invalid, void or unenforceable, the remaining provisions

of this Lease shall remain in full force and effect, unimpaired by the holding. If the easements or other rights under this Lease are found to be in excess of the longest duration permitted by applicable law, the term of such easements or other rights shall instead expire on the latest date permitted by applicable law.

(p) **Memorandum of Lease.** This Lease shall not be recorded in the real property records. Lessee shall cause a memorandum of this Lease to be recorded in the real property records of the county in which the Leased Premises is situated. A recorded copy of said memorandum shall be furnished to Lessor within thirty (30) days of recording.

(q) **Notices.** All notices required to be given under this Lease shall be in writing, and shall be deemed to have been given upon (a) personal delivery, (b) one (1) Business Day after being deposited with FedEx or another reliable overnight courier service, with receipt acknowledgment requested, or (c) upon receipt or refused delivery deposited in the United States mail, registered or certified mail, postage prepaid, return receipt required, and addressed to the respective Party at the addresses set forth at the beginning of this Lease, or to such other address as either Party shall from time to time designate in writing to the other Party.

(r) **No Waiver.** The failure of either Party to insist in any one or more instances upon strict performance of any of the provisions of this Lease or to take advantage of any of its rights hereunder shall not be construed as a waiver of any such provision or the relinquishment of any such rights, but the same shall continue and remain in full force and effect.

(s) **Estoppels.** Either party hereto (the "Receiving Party"), without charge, at any time and from time to time, within ten (10) Business Days after receipt of a written request by the other party hereto (the "Requesting Party"), shall deliver a written statement, duly executed, certifying to such Requesting Party, or any other person, firm or entity specified by such Requesting Party: (i) that this Lease is unmodified and in full force and effect, or if there has been any modification, that the same is in full force and effect as so modified and identifying the particulars of such modification; (ii) whether or not, to the knowledge of the Receiving Party, there are then existing any offsets or defenses in favor of such Receiving Party against enforcement of any of the terms, covenants and conditions of this Lease and, if so, specifying the particulars of same and also whether or not, to the knowledge of such Receiving Party, the Requesting Party has observed and performed all of the terms, covenants and conditions on its part to be observed and performed, and if not, specifying the particulars of same; and (iii) such other information as may be reasonably requested by the Requesting Party. Any written instrument given hereunder may be relied upon by the recipient.

(t) **Counterparts.** This Lease may be executed in any number of counterparts, each of which, when executed and delivered, shall be an original, but all of which shall collectively constitute one and the same instrument.

(u) **Governing Law.** This Lease shall be governed, interpreted, and enforced in accordance with the laws of the state of North Dakota.

(v) **Further Action.** Each Party will execute and deliver all documents, provide all information, and take or forbear from all actions as may be necessary or appropriate to achieve the purposes of this Lease, including without limitation executing a memorandum of easement and all documents required to obtain any necessary government approvals.

(w) **Entire Agreement.** This Lease, into which the attached **Exhibit A** is incorporated by reference, contains the entire agreement of the Parties. There are no other conditions, agreements, representations, warranties, or understandings, express or implied.

*[Remainder of page intentionally left blank. Signature page follows.]*

IN WITNESS OF THE ABOVE, Lessor and Lessee have caused this Lease to be executed and delivered by their duly authorized representatives as of the Effective Date.

GASIFICATION COMPANY, SUMMIT,  
AND STATE OF NORTH DAKOTA**

[¶1] Plaintiffs Northwest Landowners Association, Mike Dresser, Sandra Short, and the Swenson Living Trust, (“Landowners”) submit their reply to the Responses to Motions for Summary Judgment filed by Minnkota (Index #214), Basin Electric Cooperative and Dakota Gasification (Index #206), Summit (Index #218), and State of North Dakota (Index #216).

### **ARGUMENT**

#### **I. The doctrine of correlative rights cannot be applied piecemeal and is not appropriately applied to pore space because no more pore space is being produced.**

[¶2] The State and other defendants continue to argue for application of the doctrine of correlative rights but only in one direction, which defies the very definition of correlative rights. Further, the State’s and others’ attempts to adopt aspects of oil and gas conservation laws piecemeal is dangerous and wrong, and most importantly, does not avoid a constitutional violation here. While some of this ground has been covered, it appears a brief background on the conservation laws on which the State and others rely is necessary.

[¶3] These principles developed over time to address practical problems with oil and gas development, so they must be understood against the backdrop of historic oil and gas development in the United States.

By most standards, the development of the American oil and gas industry is a recent phenomenon. Although oil and gas was known to exist through natural seepage as early as the seventeenth century, the modern oil and gas industry only dates back to the landmark well drilled by Colonel E.L. Drake near Titusville, Pennsylvania, in June 1859. Following the Drake well, discoveries and production expanded throughout the Appalachian Mountain region and into areas of Texas, Oklahoma, and California.

Even though this was a neophyte industry, state and local governments were quick to follow up discoveries in their states by enacting regulatory measures largely designed to conserve oil and gas resources and deal with the drilling of hundreds of wells within a comparatively short period of time. The next key date in the development of oil and gas in the United States was the drilling of the Lucas Spindletop discovery well in October 1900. The discovery was significant both for the size of the field and for the use of newly developed drilling equipment and

techniques designed to probe deeper into the earth's surface than had previously been possible.

The golden age of oil started in the 1920s when new reservoirs were discovered throughout the United States and new uses were developed for crude oil and its refined products. Further state and federal governmental involvement in the oil and gas industry was triggered by the discovery of the massive East Texas field in 1930. The enormity of the reservoir combined with the depressed economic conditions of the 1930s to cause a severe drop in the price of oil. Another factor exacerbating the industry's problems was the highly fractionalized oil and gas ownership patterns in the East Texas field.

Since the East Texas discovery, both the private and public sectors have been concerned with the **dual issues** of the conservation of oil and gas (more narrowly referred to as the prevention of waste) and the protection of correlative rights. The **twin goals** of achieving both conservation and the protection of correlative rights have been difficult to attain. In many instances achieving one goal has meant sacrificing the other. Individuals and corporations representing the interests of the producers and consumers of oil and gas have at different times focused their attention on competing objectives. As a result, many different approaches or avenues have been attempted as both the public and private sectors sought to achieve these sometime conflicting goals of conservation and protection of correlative rights.

1 Williams and Meyers, The Law of Pooling and Unitization, 3rd Edition § 1.01 (emphasis added).

[¶4] “The law of conservation regulation can only be understood by looking at the common-law doctrine of the rule of capture that was universally adopted by the states to define the ownership of oil and gas.” 1 Williams and Meyers, The Law of Pooling and Unitization, 3rd Edition Ch. 2 (2019).

The rule of capture provides that the owner of a tract of land acquires title to the oil and gas that is produced from wells drilled on the tract even if it can be shown that the oil or gas migrated from adjoining lands. A corollary to the rule of capture is the offset well or self-help protection rule whereby each owner can protect the oil and gas from being captured by drilling wells to prevent the migration of the hydrocarbons to adjacent wells. The concept of correlative rights in the common source of supply is also analyzed as it came to allow one owner over a common source to protect its interest against another owner who negligently injured the common source.

*Id.*

The reason why pooling and unitization have been effective in conserving oil and gas and protecting correlative rights is directly related to how oil and gas are produced. There are three major sources for the natural energy needed to propel hydrocarbons from their natural state into the well bore. They are dissolved-gas drive, gas-cap drive, and water drive. Gas serves two functions in the production of oil. In the first place, when it is dissolved in the oil, it decreases the viscosity and surface tension of the oil, which thus permits the oil to flow more easily through rock. In addition, gas tends to expand, which forces the oil to the bore of the well because the bore is the point of lowest pressure. In both dissolved-gas-drive and gas-cap-drive fields, it is the pressure caused by the presence of the gas that produces the oil. As more gas is produced in the wellbore, less oil is recovered. Without conservation techniques, dissolved-gas-drive fields will only produce approximately 10 percent to 30 percent of the oil in place, while gas-drive fields are only slightly more naturally efficient, producing only 25 percent to 50 percent of the oil in place.

Water-drive fields are the most naturally efficient of the three. Since water is more viscous than gas, the capillary drive of the reservoir washes the oil from the sands. Thus, if properly drilled, water-drive fields may produce 75 percent of the oil in place without having to resort to artificial means to provide the needed reservoir energy.

*Id.* at §1.02. “The concept of correlative rights in the common source of supply is also analyzed as it came to allow one owner over a common source to protect its interest against another owner who negligently injured the common source.” 1 The Law of Pooling and Unitization, 3rd Edition ch. 2. [¶5] The rule of capture essentially treated natural resources such as oil the same as the law treated wild animals; if a wild animal left your neighbor’s property and entered your own property, you had a right to capture that animal. Similarly, if your oil well happened to pump oil that flowed beneath your property from your neighbor’s property, you had a right to capture that oil. If your neighbor wanted to protect himself from having his oil drained by your well, his remedy was to drill his own well, and generally he would drill just off the property line so as to capture as much of that common source as possible. Of course, this incentivized the first landowner to drill an additional offset well in order to capture more of the oil, which in turn incentivized the neighbor to do the same again, and so the development went before regulation. The resulting chaotic

development is best described by old pictures of oil derricks practically stacked on top of each other.

(Picture taken from Wikimedia Commons, available at [https://commons.wikimedia.org/wiki/File:Spindletop\\_Oil\\_Field\\_1.jpg](https://commons.wikimedia.org/wiki/File:Spindletop_Oil_Field_1.jpg)).

[¶6] This also led to premature dissipation of the natural reservoir energy. 1 Williams and Meyers, *The Law of Pooling and Unitization*, 3rd Edition Ch. 2 (2019). Generally speaking, the rule of capture led to significant economic waste, inefficient development, and due to reservoir mechanics, even waste of the oil itself. It was in response to this that oil and gas conservation laws were passed to facilitate creation of spacing units, pooling, and unitization, but most important, to facilitate recovery of *more oil* from the reservoirs, and in keeping with correlative rights, ensure that each owner of the common resource received their equitable *share* of the resource (not an arbitrary royalty in a lease imposed as a form of indentured servitude on the landowner, as the NDIC is doing now).

[¶7] Defendants also rely on arguments and caselaw related to the police power of the state, and the public policy justifications for pooling and unitization to support their arguments in support of the validity of the amalgamation laws. The legal and policy arguments supporting the use of the police power for the “dual purpose” of preventing waste and protecting correlative rights in the

context of pooling and unitization are strong; but they do not apply to the purpose and effect of the amalgamation laws that take pore space. The frameworks for forced pooling and forced unitization also provide significant due process protections for the rights of property owners; something that is again entirely lacking in the amalgamation laws.

[¶8] The editors of *Williams and Meyers* explain correlative rights as follows:

As an often-stated goal of state conservation statutes, the protection of correlative rights has played an important role in conservation agency practice and judicial review of agency action. For example, the Kansas Supreme Court described how the protection of correlative rights legislative objective affects agency action as follows:

Along with the prevention of waste, the KCC [Kansas Corporation Commission] is directed to prevent the unfair or inequitable taking of natural gas from a common source of supply. This concept of equitable recovery of a common pool is known as correlative rights. Correlative rights means that each owner or producer in a common source of supply is privileged to produce that source only in a manner or amount that will not (a) injure the reservoir to the detriment of others, (b) taken an undue proportion of the obtainable oil or gas, or (c) cause undue drainage between developed leases.

1 *Williams and Meyers, The Law of Pooling and Unitization*, 3rd Edition § 2.02 (2019).

[¶9] “The rule of capture ownership regime creates two major problems: overdrilling, and premature dissipation of natural reservoir energy. Conservation regulation arose as a response to these two problems. Eventually the concept of correlative rights, giving each owner over a common source of supply a fair opportunity to produce, without waste, its just and equitable share of the reservoir was developed.” 1 *The Law of Pooling and Unitization*, 3rd Edition, ch. 2 (emphasis added).

[¶10] An opinion from the Supreme Court of the United States, *Ohio Oil Co. v. State of Indiana*, explains the nature of correlative rights as they relate to state regulation and exercise of the police power. 177 U.S. 190 (1900). While the opinion and issues in that case related to venting of natural gas while producing oil from a common source, the discussion nonetheless illustrates well the

competing interests that justify use of the police power through conservation statutes that allow force-pooling and force-unitization. It is also significant for its commentary on what the police power does *not* allow. While defendants also cite to this case, they miss the important points:

[A]s to gas and oil the surface proprietors within the gas field all have the right to reduce to possession the gas and oil beneath. They could not be absolutely deprived of this right which belongs to them without a taking of private property. But there is a coequal right in them all to take from a common source of supply the two substances which in the nature of things are united, though separate. It follows from the essence of their right and from the situation of the things as to which it can be exerted, that the use by one of his power to seek to convert a part of the common fund to actual possession may result in an undue proportion being attributed to one of the possessors of the right to the detriment of the others, or by waste by one or more to the annihilation of the rights of the remainder. Hence it is that the legislative power, from the peculiar nature of the right and the objects upon which it is to be exerted, can be manifested for the purpose of protecting all the collective owners, by securing a just distribution, to arise from the enjoyment, by them, of their privilege to reduce to possession, and to reach the like end by preventing waste. This necessarily implied legislative authority is borne out by the analogy suggested by things *feroe naturae*, which it is unquestioned the legislature has the authority to forbid all from taking, in order to protect them from undue destruction, so that the right of the common owners, the public, to reduce to possession, may be ultimately efficaciously enjoyed. Viewed, then, as a statute to protect or to prevent the waste of the common property of the surface owners, the law of the state of Indiana which is here attacked because it is asserted that it divested private property without due compensation, in substance, is a statute protecting private property and preventing it from being taken by one of the common owners without regard to the enjoyment of the others.

*Ohio Oil Co. v. State of Indiana*, 177 U.S. 190, 209–10 (1900) (emphasis added).

[¶11] This commentary makes clear that the police power is used in the context of force-pooling and force-unitization to ensure an equitable allocation of this common resource and protect it from waste or wanton destruction (as in the *Indiana* case where the operator was simply venting gas it had no desire to capture and thereby depressurizing the reservoir and wasting a resource that had value to other owners of that same resource – a very different situation than seen here with CO2 sequestration and amalgamation of pore space, but such detail is lost in the defendants’ arguments).

[¶12] These equitable purposes are reflected in North Dakota’s law regarding force-pooling interests, “[e]ach such pooling order must be made after notice and hearing, and must be upon terms and conditions that are just and reasonable, and that afford to the owner of each tract or interest in the spacing unit the opportunity to **recover or receive, without unnecessary expense, that owner’s just and equitable share.**” N.D.C.C. § 38-08-08 (emphasis added). It is the ownership interest in the spacing unit which determines that equitable share, and it is not diminished to a negligible royalty in a lease imposed as an indentured servitude on the landowner by the NDIC as with the amalgamation laws.

[¶13] The Supreme Court of North Dakota has recognized that preventing waste and protecting correlative rights is often a balancing act, but the failure to protect a landowner’s correlative rights by ensuring the full just and equitable share will result in a taking.

[W]aste prevention measures restrict the right to produce and share in production from one’s property under the rule of capture; unless the state affords some compensation or protection to the rights restricted, the state will be taking property without due process of law. If the state does not protect correlative rights, then it must allow the drilling and production practices that will result in waste.

*Hanson v. Industrial Comm’n of N. Dakota*, 466 N.W.2d 587, 594 (N.D. 1991) (citing 1 B. Kramer & P. Martin, *The Law of Pooling and Unitization* § 5.01[1] (3rd ed. 1990) (emphasis added)).

[¶14] It is only through striking a balance that protects correlative rights that the police power can justify adjusting the rights of co-owners in a common source of supply. The protection for the rights restricted is set out in statute and requires a just and equitable share. N.D.C.C. § 38-08-08. Indeed, the North Dakota Supreme Court has gone a step further and ruled that the mineral interest itself includes the inherent right to a cost-free interest and therefore that also is required when force pooling occurs or it will be an unconstitutional taking.

[¶15] In *Slawson*, the Court noted that part of the mineral estate includes the landowner's royalty. 339 N.W.2d 772, 777. In order to protect the correlative rights of the mineral owner, the Commission ordered that a portion of the force-pooled owner's interest be paid as a cost-free royalty to reflect that the mineral interest inherently includes a royalty. *Id.* The Court approved, and indeed, noted that "[f]or conditions of a pooling order to be 'just and reasonable,' the order must afford an unleased mineral owner all that he is entitled to because of his ownership of the minerals. One of the things to which an owner of minerals is entitled is a cost-free portion of production. Any share less than that to which a mineral owner is entitled because of his ownership of minerals is not 'just and equitable.'" *Id.* Indeed, the Court explained:

If the statutes were construed to require that all of the production attributable to the interests of an owner of unleased minerals be subject to appropriation by the operator until the operator has recovered all of his costs, the owner of unleased minerals would be deprived of the equal protection of the laws in that he would not be guaranteed of receiving anything for production attributable to his interest while a royalty owner under a lease would be guaranteed to receive payment for production attributable to his interest.

*Id.* at 778.

[¶16] While Defendants make repeated reference to the fact that the police power has in the past justified adjustment of private property rights and trespass claims, they fail to acknowledge the limited context in which this occurred, and the special emphasis that the law has always placed on *protecting* the landowner's correlative rights. The manner in which defendants propose to apply over a century of oil and gas law to pore space takings is ill-considered and standardless (apparently because injecting CO<sub>2</sub> into pore space in deep reservoirs and producing oil from deep reservoirs is "similar" in some ways).<sup>1</sup> More importantly, the fundamental bases that justify the

---

<sup>1</sup> Minnkota's discussion of the *Fisher* and *Mosser* cases is confused. The undersigned handled both the prior *NWLA* case and the *Fisher* case. Judge Miller's orders in *Fisher* speak for themselves, but numerous of Minnkota's arguments on this line of cases are simply wrong. For example, Chapter 38-11.1 does indeed

use of conservation laws for oil and gas development, and specifically the use of force pooling and unitization, simply do not exist for CO2 sequestration and therefore the entire argument made by defendants about correlative rights is inapposite and unavailing and does not save the amalgamation statutes from this constitutional challenge.

## **II. A facial challenge is the appropriate mechanism for addressing the challenged statutes.**

[¶17] In *NWLA I* the North Dakota Supreme Court rejected the defendants’ construction of the “no set of circumstances” test from *Salerno* and *Larimore*. *Nw. Landowners Ass’n v. State*, 2022 ND 150, ¶ 13, 978 N.W.2d 679 (citing appellant argument and *Larimore Pub. Sch. Dist. No. 44 v. Aamodt*, 2018 ND 71, ¶ 38, 908 N.W.2d 442 and *United States v. Salerno*, 481 U.S. 739, 745, 107 S. Ct. 2095 (1987)). Although the construction of the “no set of circumstances” test argued previously by defendants in *NWLA I* has fallen into disfavor, the purpose and utility of the test was recently described by the 11th Circuit in an opinion on a 1<sup>st</sup> Amendment case:

Next, the City's claim that the Club needs to show that the law is invalid in all circumstances misstates the law governing facial challenges. It is true that when a plaintiff raises a facial challenge to a statute, she generally "must establish that no set of circumstances exists under which the [law] would be valid." *United States v.*

---

refer to just compensation: “Owners of the surface estate and other persons should be justly compensated for injury to their persons or property and interference with the use of their property occasioned by oil and gas development.” N.D.C.C. § 38-11.1-01(3). This is actually totally irrelevant, however, because Chapter 38-11.1 does not authorize the uses for which it requires compensation and does not effectuate any taking, and the compensation required is divorced from the granting of the rights for the use itself. Those cases address issues with the split estate when the rights for those uses have been previously granted by lease or granted by the courts through the implied easement. On the other hand, it is literally illegal to even sever pore space. N.D.C.C. § 47-31-05. The compensation for those rights in that context pursuant to special statute is not analogous to just compensation for the taking that is amalgamation. None of Minnkota’s discussion of *Mosser* and *Fisher* is relevant, helpful, or instructive and covers ground thoroughly briefed in *NWLA I* and irrelevant here. What is relevant, however, is the Eighth Circuit’s recent discussion of the physical impact of injections, when it said last week that “Under North Dakota law, the Fishers are entitled to compensation for lost use of their pore space. Continental has pumped 448,805 barrels of saltwater into the Fishers’ pore space. That water took up space, at least for some time. Even if the water eventually migrated into other areas of the Lodgepole, the jury still could have found that the Fishers had lost use of their pore space temporarily.” *Cont’l Res., Inc. v. Fisher*, No. 23-1147, 2024 U.S. App. LEXIS 12525, at \*11 (8th Cir. May 24, 2024). In other words, even the Eighth Circuit agrees that injecting substances into pore space results in the landowner losing access to their pore space – and it is therefore a physical invasion of the pore space.

*Salerno*, 481 U.S. 739, 745, 107 S. Ct. 2095, 95 L. Ed. 2d 697 (1987) (emphasis added). "[T]his rule, known as 'the *Salerno* rule,' has been subject to a heated debate in the Supreme Court, where it has not been consistently followed." *United States v. Frandsen*, 212 F.3d 1231, 1235 n.3 (11th Cir. 2000) (collecting *cases* from the Supreme Court). The City seems to interpret *Salerno* to require that the Club prove that there is no hypothetical situation in which the Ordinance could be validly applied. Because the Club's performers are purportedly employees, and not independent contractors, under the IRCA, the City reasons that the Club's federal preemption claim fails.

We are not persuaded. Even applying *Salerno's* no-set-of-circumstances test here, the question that *Salerno* requires us to answer [\*\*49] is whether the statute fails the relevant constitutional test (in this case, the standard for federal conflict preemption discussed above). As the Tenth Circuit explained in *Doe v. City of Albuquerque*, when it rejected a similar construction of the *Salerno* standard, **"*Salerno* is correctly understood not as a separate test applicable to facial challenges, but a description of the outcome of a facial challenge in which a statute fails to satisfy the appropriate constitutional framework."** 667 F.3d 1111, 1123 (10th Cir. 2012); *see also United States v. Supreme Court*, 839 F.3d 888, 917 (10th Cir. 2016) (applying the same *Doe* construction of the *Salerno* standard to a facial federal preemption challenge).

*Club Madonna Inc. v. City of Miami Beach*, 42 F.4th 1231, 1256 (11th Cir. 2022) (emphasis added).

[¶18] Understood in this context, the standard illustrates why the amalgamation statutes must fall under a facial challenge rather than an as-applied challenge. Defendants make numerous arguments to the effect that, because the amalgamation statutes do not effectuate a taking upon enactment, they are not susceptible to a facial challenge and must be challenged through an order from the NDIC actually amalgamating private property. This is incorrect.

[¶19] Any order from the NDIC that applies the language of N.D.C.C. § 38-22-10 will be unconstitutional because *it must be*. That section states: "If a storage operator does not obtain the consent of all persons who own the storage reservoir's pore space, the commission may require that the pore space owned by nonconsenting owners be included in a storage facility and subject to geologic storage." N.D.C.C. § 38-22-10; *see also* N.D.C.C. § 38-25-08. The only thing the

NDIC can do to apply this language is order that all “nonconsenting owners be included in a storage facility and subject to geologic storage.” And the moment it does, it has violated the North Dakota and United States Constitutions in several ways.

[¶20] It has taken that nonconsenting landowner’s pore space and given the use of it to a third party for their carbon dioxide sequestration business. N.D.C.C. § 38-22-10; *see also* N.D.C.C. § 38-25-08 (natural gas storage). That landowner no longer has the right or ability to choose whether this company is the right company, or this project is the right project, or this time is the right time – those decisions are all swept away along with the landowners’ right to exclude when any order under the amalgamation laws is issued. “In *Sorum*, [the Court] held that if legislation requires an unconstitutional act (a prohibited gift in that case), the statute does not avoid a facial challenge ‘merely because the statute includes constitutional applications along with potentially unconstitutional applications.’” *Nw. Landowners Ass’n v. State*, 2022 ND 150, ¶ 14, 978 N.W.2d 679. Here, the only thing the NDIC can do to put N.D.C.C. §§ 38-22-10 & 38-25-08 into effect is require the unconstitutional act of taking the right to exclude away from private property owners without payment of just compensation, without just compensation being made *before* the taking as required by Art. I, §16 of the ND Constitution, without determination of the just compensation by a jury, as required by Art. I, §16, and without the other due process afforded by the ND Constitution and a judicial proceeding under Chapter 32-15 of the Century Code.

[¶21] The procedural and due process violations here are also uniquely inherent in the text of Art. I, §16 because that constitutional provision several specific procedural and substantive requirements for due process that must be afforded to any owner before a taking occurs (just compensation determined and paid *before* a taking, no increase to tax base as public benefit, etc.). Chapter 32-15 is the chapter of the Century Code that sets out the additional requirements for the

use of eminent domain, and this chapter again sets the baseline for due process – and therefore any taking that fails to follow the requirements of Art. I, §16 and Chapter 32-15 (except the quick-take actions specifically excluded by the Constitution and Century Code) is *per se* violative of due process.<sup>2</sup> These violations all exist at all times that N.D.C.C. § 38-22-10 or N.D.C.C. § 38-25-08 are effectuated. They are susceptible to attack by facial challenge and should be struck down.

### **III. By definition there are no administrative remedies to exhaust in a facial challenge.**

[¶22] To recap, NWLA argues that § 38-22-10 and § 38-25-08 are unconstitutional because they allow operators to physically invade the pore space owned by nonconsenting landowners; that equitable compensation under § 38-22-08(14) does not comport with the prescription in the constitution requiring just compensation and just compensation must be determined by a jury before a taking to comport with due process; that § 38-22-03(7) is an unconstitutional delegation of legislative power; and that § 32-15-06 and § 24-05-09 constitute an unconstitutional taking because they allow entry and limit compensation to something less than just compensation in violation of Art. I, § 16.

[¶23] Administrative agencies have adjudicatory and rulemaking functions. For a court to have jurisdiction over issues within the province of an agency, one must either exhaust administrative remedies or the challenge must be exempt from this requirement. “Whether the exhaustion of remedies requirement applies in each case depends on a mixed bundle of considerations, including,

---

<sup>2</sup> Cf. *City of W. Fargo v. McAllister*, 2022 ND 94, ¶ 8, 974 N.W.2d 393, 397. The ND Court there explained that “Section 40-22-05, N.D.C.C., provides an **exception** to eminent domain proceedings under N.D.C.C. ch. 32-15, *i.e.*, a quick-take procedure, when the interest sought for an improvement authorized under N.D.C.C. ch. 40-22 is a ‘right of way...’”. *Id.* (emphasis added). The Court also explained in that case that despite the authorization for the use of quick take in Art. I, § 16, it has recognized that the provision is not self-effectuating and requires a statutory authorization in each instance. *Id.* Given these holdings, it is elementary that takings in North Dakota require a separate statutory special proceeding that complies with the North Dakota Constitution, or must comply with Chapter 32-15.

but not limited to, expertise of administrative bodies, statutory interpretation, pure questions of law, constitutional issues, discretionary authority of the courts, primary, concurrent, or exclusive jurisdiction, inadequacies of administrative bodies, etc.” *Garaas as Co-Trustees of Barbara Susan Garaas Family Trust v. Petro-Hunt, L.L.C.*, 2024 ND 34, ¶ 11 (quoting *Vogel v. Marathon Oil Co.*, 2016 ND 104, ¶ 6, 879 N.W.2d 471) (emphasis added).

[¶24] Though the exhaustion requirement sometimes applies to matters within the jurisdiction of the Industrial Commission, *Garaas*, ¶ 13, the requirement “has several well-recognized exceptions, including when a legal question simply involves statutory interpretation and does not need the exercise of an agency’s expertise in making factual decisions.” *Garaas*, ¶ 12. This exception applies here because NWLA is making facial constitutional challenges to the statutes at issue. Just as the courts have a “primary role in statutory construction,” *Medcenter One, Inc. v. North Dakota State Bd. Of Pharmacy*, 1997 ND 54, ¶ 6 (quoting the district court) (cleaned up), the courts also have the primary role in determining the constitutionality of a statute. *Marbury v. Madison*, 5 U.S. 137, 177 (“It is emphatically the province and duty of the judicial department to say what the law is.”).

[¶25] That the district court rather than the agency is the proper arbiter of the constitutionality of the statutes at issue is made clear by the fact that none of the virtues of the exhaustion of remedies doctrine apply here. For example, the agency’s technical substantive expertise in oil and gas production will not be an asset in construing the Takings Clause, the non-delegation doctrine, the due process clause, or any of the other issues in this case because they are all based in constitutional law—issues that the courts are uniquely equipped to decide. Relatedly, since no factual determinations are necessary here because this facial challenge is based on the pertinent laws and constitutional provisions *on their face*, an administrative record would be of no value to the Court

in deciding whether the statutes are constitutional *on their face*. The Court will be looking to the statutes, the constitution, and case law in rendering its decision.

[¶26] Cases in which the Court found that it did not have jurisdiction because of a failure to exhaust administrative remedies are easily distinguished. In *Garaas*, the Court held that the doctrine applied, but there, the primary issue was the proper royalty interest owed to the plaintiffs based on how to allocate royalties between overlapping spacing units created by the Commission's orders—and whether the appropriate allocation there was .00007757 or .0005819. Here, unlike in *Garaas*, no such factual determinations or calculations are at issue, of consequence, or helpful to the analysis of the claims at issue.

[¶27] As in *Medcenter*, “[s]ince this case is nothing more than” a determination of the constitutionality of certain statutes, “the exhaustion of administrative remedies doctrine has no application...” *Medcenter One, Inc.*, 1997 ND 54, ¶ 6.

### **CONCLUSION**

[¶28] The State and others attempt to apply a piecemeal version of the doctrine of correlative rights, and with the clear goal of justifying the State's attempt to take pore space rights and give them to third parties. It is a wrong-headed sea change in the law that is unnecessary. Just over the border in Montana and elsewhere, CCUS and gas storage are conducted already within the confines of the constitutions. There are paths forward using eminent domain that for constitutional takings of private property and afford the due process explicitly requires by Article I, Section 16 of the North Dakota Constitution. The other challenged laws are also unconstitutional as argued, but there too, with the precondemnation survey laws, even the United States government has no issue finding ways to conduct such surveys using the power of eminent domain *within the confines of the Constitution*. That is all the landowners ask when they ask this Court to strike down the laws challenged here.

Dated: May 28, 2024.

Good morning,  
Please find attached two files describing my opposition to Summit Carbon Solutions Storage #1, LLC's and SCSS #2, LLC's proposal to sequester carbon within North Dakota's land.  
I appreciate your team's attention to this matter. Please include my opposition to the count on this matter.  
Respectfully,  
Meda Schultz

**Ref: Summit Carbon Solutions Storage #1, LLC, Case #30869-30872 – (Against)**

Via email: slforsberg@nd.gov

M. Chairman and Members of the Committee:

I write today in opposition to the approval of the application for permit before you from Summit Carbon Solutions Storage #1, LLC (Summit).

My name is Meda J. Schultz, and I am a mineral owner in the property detailed in Summit's application for permit. Approval of this project will have a direct negative impact on the value of my property, making future exploration and development of those mineral interests more difficult, costly, and very possibly unfeasible. Furthermore, by allowing this project to proceed as described, the affected surface- and mineral-owners involved may incur additional risk associated with any related consequences of carbon sequestration, and/or dispersions or other incidents, either planned or unplanned.

If allowed to proceed as proposed, Summit would be allowed to declare without challenge that minerals do not exist in the pore space and/or are of such little value as to not warrant compensation. This provides an opportunity, and in fact encourages, Summit to do just that, thereby taking property without just compensation to the surface- and mineral-owner.

This proposal establishes a condition in direct opposition to North Dakota 47-31-08, which states, ["In the relationship between a severed mineral owner and a pore space estate, this chapter does not change or alter the common law as of April 9, 2009, as it relates to the rights belonging to, or the dominance of, the mineral estate."](#)

As of this writing I know of no agreement in existence, past or present, allowing for extraction of the minerals detailed in my deed without my prior agreement and without equitable compensation. Therefore, I retain those minerals and the pore space in which they are contained. North Dakota law requiring compensation to the surface owner for the voided pore space below it does not preclude compensation to the mineral owner for the assets represented by that ownership.

To move forward, Summit Carbon Solutions must first be required to negotiate with me, a mineral-owner, a fair price for the severance and/or use of my property and any consequential impacts to my interest. Granting a permit without required, negotiated, compensation allows Summit Carbon solutions to **TAKE** my and others' property without just compensation, an outcome that is not in the North Dakota public's best interest.

I say **NO**. I call on you to **DENY** this permit.

Re: Summit Carbon Solutions Storage #1, LLC – (Against)

Case Nos. 30869-30872

Chairman and Members of the Committee:

I write today in opposition to the approval of the application for permit before you from Summit Carbon Solutions Storage #1, LLC.

My name is Eric R. Schultz, and I am a mineral owner of the property detailed in Summit Carbon Solutions (Summit) application for permit. Approval of this project will have a direct negative impact on the value of my property. Making future exploration and development of those mineral interests more difficult, costly, and very likely unfeasible.

Further, the information available from Summit Carbon is quite opaque and nonspecific. I have concerns about the safety of this proposal. I am unable to find dispersion models in the event of a leak, etc. There is limited information regarding liability and damages if this situation were to arise. Also, I believe it to be prudent to establish a long-term account and/or insurance coverage, from a reputable company like *Lloyds of London*, which would be maintained for the distant future if there is an incident to protect the owners from liability and damage claims futuristically.

If allowed to proceed as proposed, Summit would be permitted to declare without challenge that minerals do not exist in the pore space and/or are of such little value as to not warrant compensation. This provides an opportunity, and in fact, encourages Summit to do just that, thereby taking property without just compensation to the surface and mineral owner.

This proposal establishes a condition in direct opposition to North Dakota 47-31-08, which states, “[In the relationship between a severed mineral owner and a pore space estate, this chapter does not change or alter the common law as of April 9, 2009, as it relates to the rights belonging to, or the dominance of, the mineral estate.](#)”

As of this writing I know of no agreement in existence, past or present, allowing for extraction of the minerals detailed in my deed without my prior agreement and without equitable compensation. Therefore, I retain those minerals and the pore space in which they are contained. North Dakota law requiring compensation to the surface owner for the voided pore space below it does not preclude compensation to the mineral owner for the assets represented by that ownership.

To move forward, Summit Carbon Solutions must first be required to negotiate with me, a mineral owner, a fair price for the severance and/or use of my property and any consequential impacts to my interest. Granting a permit without the required, negotiated, compensation allows Summit Carbon solutions to **TAKE** my and others' property without just compensation, an outcome that is not in the North Dakota public's best interest.

I say **NO**.

I call on you to **DENY** this permit.

Respectfully,

Eric R. Schultz

To: ND State Industrial Commission,

This is regarding *the large-scale Carbon Capture and Storage project across the Midwest, with injection wells located in the Mercer and Oliver County, ND regions*. The Commission will be meeting on June 11-12, 2024, to consider the *Class VI Storage Facility Permits* including the amalgamation of pore space. Attached please find my comments regarding the permit application and draft submitted by Summit Carbon Solutions.

Re: Summit Carbon Solutions Storage #1, LLC – (Against)

Case Nos. 30869-30872

Chairman and Members of the Committee:

I write today in opposition to the approval of the application for permit before you from Summit Carbon Solutions Storage #1, LLC.

My name is Brenda L. Lipp, and I am a mineral owner of the property detailed in Summit Carbon Solutions (Summit) application for permit. Approval of this project will have a direct negative impact on the value of my property. Making future exploration and development of those mineral interests more difficult, costly, and very likely unfeasible.

Further, the information available from Summit Carbon is quite opaque and nonspecific. I have concerns about the safety of this proposal. I am unable to find dispersion models in the event of a leak, etc. There is limited information regarding liability and damages if this situation were to arise. Also, I believe it to be prudent to establish a long-term account and/or insurance coverage, from a reputable company like *Lloyds of London*, which would be maintained for the distant future if there is an incident to protect the owners from liability and damage claims futuristically.

If allowed to proceed as proposed, Summit would be permitted to declare without challenge that minerals do not exist in the pore space and/or are of such little value as to not warrant compensation. This provides an opportunity, and in fact, encourages Summit to do just that, thereby taking property without just compensation to the surface and mineral owner.

This proposal establishes a condition in direct opposition to North Dakota 47-31-08, which states, [“In the relationship between a severed mineral owner and a pore space estate, this chapter does not change or alter the common law as of April 9, 2009, as it relates to the rights belonging to, or the dominance of, the mineral estate.”](#)

As of this writing I know of no agreement in existence, past or present, allowing for extraction of the minerals detailed in my deed without my prior agreement and without equitable compensation. Therefore, I retain those minerals and the pore space in which they are contained. North Dakota law requiring compensation to the surface owner for the voided pore space below it does not preclude compensation to the mineral owner for the assets represented by that ownership.

To move forward, Summit Carbon Solutions must first be required to negotiate with me, a mineral owner, a fair price for the severance and/or use of my property and any consequential impacts to my interest. Granting a permit without the required, negotiated, compensation allows Summit Carbon solutions to **TAKE** my and others' property without just compensation, an outcome that is not in the North Dakota public's best interest.

I say **NO**.

I call on you to **DENY** this permit.

Respectfully,

Brenda L. Lipp

Re: Summit Carbon Solutions Storage #1, LLC – (Against)

Mr. Chairman and Members of the Committee:

I write today in opposition to the approval of the application for permit before you from Summit Carbon Solutions Storage #1, LLC.

My name is Mark Schultz, and I am a mineral owner in the property detailed in Summit Carbon Solutions (Summit) application for permit. Approval of this project will have a direct negative impact on the value of my property. Making future exploration and development of those mineral interests more difficult, costly, and very likely unfeasible.

If allowed to proceed as proposed, Summit would be permitted to declare without challenge that minerals do not exist in the pore space and/or are of such little value as to not warrant compensation. This provides an opportunity, and in fact encourages, Summit to do just that, thereby taking property without just compensation to the surface and mineral owner.

This proposal establishes a condition in direct opposition to North Dakota 47-31-08, which states, "In the relationship between a severed mineral owner and a pore space estate, this chapter does not change or alter the common law as of April 9, 2009, as it relates to the rights belonging to, or the dominance of, the mineral estate."

As of this writing I know of no agreement in existence, past or present, allowing for extraction of the minerals detailed in my deed without my prior agreement and without equitable compensation. Therefore, I retain those minerals and the pore space in which they are contained. North Dakota law requiring compensation to the surface owner for the voided pore space below it does not preclude compensation to the mineral owner for the assets represented by that ownership.

To move forward, Summit Carbon Solutions must first be required to negotiate with me, a mineral owner, a fair price for the severance and/or use of my property and any consequential impacts to my interest. Granting a permit without required, negotiated, compensation allows Summit Carbon solutions to **TAKE** my and others' property without just compensation, an outcome that is not in the North Dakota public's best interest.

I say **NO**. I call on you to **NOT** grant this permit.

Respectfully,

  
Mark Schultz

BEFORE THE INDUSTRIAL COMMISSION  
OF THE STATE OF NORTH DAKOTA

CASE NOS. 30869–30880

In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15,

16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18,

19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage

facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections

6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31 , 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver county, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

#### **ORDER ON REQUEST FOR TELEPHONIC TESTIMONY**

---

[¶ 1] The Swenson Living Trust, Paul and Christy Metz, Michael and Bonnie Haupt, John Jochim, Gary and Cassie Smith, Michael Bauman, JoLene Rust, Glenn and Lisa Gerving, Kirk and Linda Maize and Allen Maize, Kevin and Kimberly Kraft, and Charmayne Liebelt (collectively “Intervenors”) filed a Request for Telephonic Testimony for their experts, Shane Bofto, Paul Button, P. Ted Doughty, and Christopher Stockness on June 4, 2024.

[¶ 2] On June 7, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC and Summit Carbon Storage #3, LLC (“Applicants”), filed a Request to Participate by Telephonic Means.

[¶ 3] The Intervenors’ Request for Telephonic Testimony is hereby **GRANTED**.

[¶ 4] The Applicants’ Request to Participate by Telephonic Means is hereby **GRANTED**.

Dated this 7<sup>th</sup> day of June, 2024.

BEFORE THE INDUSTRIAL COMMISSION  
OF THE STATE OF NORTH DAKOTA

CASE NOS. 30869–30880

In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15,

16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18,

19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage

facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections

6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31 , 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver county, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

**ORDER ON MOTION FOR EXPEDITED DISCOVERY AND  
MOTION FOR CONTINUANCE OF HEARING**

---

**MOTION TO CONTINUE HEARING**

[¶ 1] On February 6, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit carbon Storage #3, LLC (collectively, “Summit”), filed with the North Dakota Industrial Commission (“Commission”) applications for permits for carbon dioxide storage facilities.

[¶ 2] On April 18, 2024, the Swenson Trust (“Trust”) filed its Petition to Intervene with the North Dakota Industrial Commission (“Commission”). *See* Petitions to Intervene.

[¶ 3] On April 25, 2024, the Trust filed a Motion to Continue Hearing and Request for Scheduling Conference. *See* Brief in Support of Motion to Continue Hearing and Request for Scheduling Conference.

[¶ 4] Summit filed its Response to Motion to Continue Hearing and Request for Scheduling Conference on April 25, 2024, in opposition to the request. *See* Response to Motion to Continue Hearing and Request for Scheduling Conference.

[¶ 5] The Trust offered conclusory statements regarding its need for discovery in support of its motion.

[¶ 6] Summit responded stating it will be prejudiced by continuing the hearing given all of the significant, unrecoverable costs that will be incurred should a new hearing be ordered. *Id.* at ¶ 23.

[¶ 7] Furthermore, the Trust did not contact Summit for the purpose of obtaining a stipulated agreement before seeking a continuance as required by N.D. Admin. Code § 98-02-03-07. *Id.* at ¶ 19.

[¶ 8] The Trust's Motion to Continue Hearing is hereby **DENIED**.

[¶ 9] The Request for a Scheduling Conference is hereby **DENIED**.

#### **MOTION FOR EXPEDITED DISCOVERY**

[¶ 10] After the Trust filed its' Petition to Intervene, it served several discovery requests upon Summit on May 2, 2024, May 6, 2024, and May 10, 2024. The Trust subsequently filed a Motion for Expedited Discovery with the Commission on May 16, 2024. *See* Motion to Expedite Discovery.

[¶ 11] Summit filed a Response to Motion to Expedite Discovery on May 28, 2024, indicating the amount of information being requested by the Trust was a large volume and would not be feasible. *See* Second Declaration of Jeff Skarre. *See* Response to Motion to Expedite Discovery.

[¶ 12] At the time of filing the Trust's Motion to Expedite Discovery, the Commission had not ruled on the Trust's Petition to Intervene. Due to the volume indicated by Skaare, it would not be possible for Summit to comply with such an order and the burden would be significant to Summit.

[¶ 13] For the foregoing reasons, the Trust's Motion to Expedite Discovery is hereby **DENIED**.

Dated this 7<sup>th</sup> day of June, 2024.

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19,

20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5,

6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek

Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142

North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

## DECLARATION OF KURT SWENSON

---

[¶1] I, Kurt Swenson, as trustee of The Swenson Living Trust, declare, on behalf of the Trust and based on personal knowledge, as follows :

[¶2] I have ownership interest in the following properties that lie within the boundaries of the proposed BK Fischer Storage Facility.

- Township 142 North, Range 87 West  
Section 7: Outlot B in E1/2 NW1/4 LESS Lot One  
Oliver County, ND
- Township 142 North, Range 88 West  
Section 14: W1/2 NE1/4  
Mercer County, ND
- Township 143 North, Range 88 West  
Section 27: S1/2 SE1/4  
Mercer County, ND

[¶3] To the best of my knowledge, the properties listed in ¶ 2 above are encumbered by the following easements:

- Section 7:
  - i. Southwest Water Authority Easement executed by James Kusler, Johnell Kusler, and Milda Hedblom dated February 3, 2014 (90188/90189/90190).
  - ii. Trent T. Martin Easement (Water Well and Tank) executed by Johnell Kusler (PR), et al. and dated May 31, 2022 (97087).
  - iii. Trent T. Martin Easement (Corrected Reciprocal Access) executed by Johnell Kusler (PR), et al. and dated May 31, 2022 (97731).
- Section 14:
  - i. Oliver-Mercer Electric Coop Easement executed by John Scheidt and dated April 22, 1949 (209412).
  - ii. Oliver-Mercer Electric Coop Easement executed by Gladys Scheidt and dated July 3, 1990 (209427).
  - iii. West River Telecommunications Coop Easement executed by Gladys Scheidt and dated June 29, 1993 (153687).

- Section 27:
  - i. Oliver-Mercer Electric Coop Easement executed by Leland Erickson and dated November 6, 1974 (208123).
  - ii. Southwest Water Authority Easement executed by James Kusler and dated February 3, 2014 (211517).
  - iii. Roughrider Electric Coop, Inc. Right of Way Easement executed by James Kusler and dated June 19, 2014 (206136).
  - iv. Southwest Water Authority Easement executed by James Kusler, dated May 22, 2015 (207510).

[¶4] I have ownership interest in the following properties that lie within the boundaries of the

Review Area of the proposed BK Fischer Storage Facility:

- Township 142 North, Range 87 West  
Section 9: SW1/4  
Oliver County, ND
- Township 142 North, Range 87 West  
Section 21: W1/2  
Oliver County, ND
- Township 143 North, Range 88 West  
Section 27: N1/2 SE1/4  
Mercer County, ND

[¶5] To the best of my knowledge, the properties listed in ¶ 4 above are encumbered by the following easements:

- Section 21:
  - i. Oliver-Mercer Electric Coop. Easement executed by Norman Smith and dated June 6, 1946 (91055).
- Section 27:
  - i. Oliver-Mercer Electric Coop Easement executed by Leland Erickson and dated November 6, 1974 (208123).
  - ii. Southwest Water Authority Easement executed by James Kusler and dated February 3, 2014 (211517).
  - iii. Southwest Water Authority Easement executed by James Kusler and dated May 22, 2015 (207510).

[¶6] I have ownership interest in the following properties that lie between, and will be impacted by, the proposed Storage Facilities:

- Township 142 North, Range 87 West  
Section 21: E1/2  
Oliver County, ND
- Township 142 North, Range 87 West  
Section 22: NW1/4  
Oliver County, ND

[¶7] To the best of my knowledge, the property listed in ¶ 6 above are encumbered by the following easements:

- Section 21:
  - i. Roughrider Electric Coop, Inc. Easement executed by Faye Swenson and dated July 1, 2008 (88076).
  - ii. Southwest Water Authority Easement executed by Kurt Swenson, et ux. and dated April 2, 2015 (89860).
  - iii. West River Telecommunications Cooperative Right-of-Way Easement executed by Donna M. Smith and dated November 18, 2015 (92299).
- Section 22:
  - i. West River Telecommunications Cooperative Right-of-Way Easement executed by Donna M. Smith and dated November 18, 2015 (92299).

[¶8] I have ownership interest in the following property that lies within the boundaries of the Review Area of the proposed KJ Hintz Storage Facility:

- Township 142 North, Range 87 West  
Section 15: SE1/4  
Oliver County, ND

[¶9] To the best of my knowledge, the property listed in ¶ 8 above is encumbered by the following easements:

- Section 15:
  - i. Oliver-Mercer Electric Coop. Easement executed by Ralph Smith and dated June 6, 1946 (91055).
  - ii. Oliver-Mercer Electric Coop. Easement executed by Ralph E. Smith and dated November 20, 1975 (90409).
  - iii. North Dakota State Water Commission Pipeline Easement executed by Jule Silbernagel, et al. and dated February 21, 2011 (86785).
  - iv. Roughrider Electric Coop, Inc. Easement executed by Faye Swenson and dated August 11, 2014 (90519).

[¶10] Attached are the deeds which I believe indicate my ownership in each of the properties listed above.

[¶11] Attached are the easements currently encumbering these properties based on the information I have.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 23<sup>RD</sup> day of MAY, 2024 at BEULAH ND, United States.

## **WARRANTY DEED**

THIS INDENTURE, made this 16<sup>th</sup> day of June, 2023, between **JOHNELL J. KUSLER and GEOFFREY E. TAYLOR**, wife and husband, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116 AND **MILDA L. HEDBLUM, a/k/a MILDA K. HEDBLUM and EDWIN FOGELMAN, wife and husband**, whose post office address is 1801 Summit Avenue, St. Paul, Minnesota 55105, Grantors; and **KURT M. SWENSON and FAYE B. SWENSON Trustees of the Swenson Living Trust dated May 19, 2023**, whose post office address is 5774 21<sup>st</sup> Street SW, Beulah, North Dakota 58523, Grantees.

WITNESSETH, for and in consideration of the sum of One Hundred Eighty-Four Thousand Four Hundred and Eighty-Six Dollars (\$184,486.00), Grantors do hereby GRANT to said Grantees all of the following real property lying and being in the County of Oliver, and State of North Dakota and described as follows, to-wit:

**Outlot "B" located in the East Half (E½) of the Northwest Quarter (NW¼) of Section Seven (7), Township One Hundred Forty-Two (142) North, Range Eighty-Seven (87) West of the 5<sup>th</sup> P.M., Oliver County, North Dakota LESS Lot One (1) of said Outlot "B".**

The above legal description was obtained from a previously recorded instrument.

The Grantors except and reserve unto themselves all of the oil, gas, coal, and all other minerals presently owned by them and located in and under the above described real property, together with the right of ingress and egress at all times for the purpose of mining, drilling, exploring, operating and developing said lands for oil, gas, coal, and all other minerals containing fissionable materials, and all other minerals, and storing, handling, transporting and marketing the same therefrom with the right to remove from said land all of the Grantees' property and improvements.

And the said Grantors, for themselves, their successors and assigns, do covenant with the

**WARRANTY DEED**

THIS INDENTURE, made this 19<sup>th</sup> day of MAY, 2022<sup>3</sup>, between  
Kurt M. Swenson and FayE B. Swenson, a married couple, GRANTORS; and Kurt M. Swenson  
and FayE B. Swenson, Trustees of the Swenson Living Trust, dated MAY 19  
2023, and any amendments thereto, 5774 21<sup>st</sup> Street SW, Beulah, North Dakota 58523,  
GRANTEES.

WITNESSETH, that the Grantors, for and in consideration of the sum of Ten Dollars  
(\$10.00) and other valuable considerations paid by the Grantees, the receipt of which is hereby  
acknowledged, do by these presents, GRANT, CONVEY AND WARRANT unto the Grantees  
all of their right, title, and interest in the following described real property, situated in the County  
of Mercer, State of North Dakota, described as follows, to-wit:

**Southeast Quarter (SE¼) of Section Twenty-Seven (27), Township One  
Hundred Forty-Three (143) North, Range Eighty-Eight (88) West of the Fifth  
Principal Meridian, Mercer County, North Dakota.**

Grantors covenant that they are well seized in fee of the premises, which they have the  
right to sell and convey, and which are free from encumbrances except those of record. Further,  
the Grantors covenant that they will warrant and defend the premises in the quiet and peaceable  
possession of the Grantees.

IN WITNESS WHEREOF, the Grantors have set their hands the day and year first above  
written.

### RIGHT-OF-WAY EASEMENT

#### ALL PERSONS TAKE NOTICE:

In consideration of one dollar (\$1.00) and other good and valuable consideration JAMES O KUSLER 5968 19TH STREET SW BEULAH, ND 58523 hereinafter referred to as Grantor, does hereby grant, bargain, sell, transfer and convey to the Southwest Water Authority, hereinafter referred to as the Grantee, its successor and assigns, a perpetual easement with right to erect, construct, install and lay, and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines, connections, valves and all other appurtenant facilities used in connection with the construction, operation and maintenance of the Southwest Pipeline Project, over, above, across and through the land of the Grantor, situated in Oliver County, State of North Dakota, said land being described as follows: NW1/4 SECTION 7 TOWNSHIP 142 RANGE 87 (the tract that contains 1.33 acres, more or less), together with the right of ingress and egress over the adjacent lands of the Grantor, successors and assigns for the purposes of this easement.

1. The permanent easement will be thirty (30) feet in width, fifteen (15) feet on each side of the center line of the pipeline as constructed, with an additional ten (10) feet of temporary right-of-way for a total construction easement width of forty (40) feet, twenty (20) feet on each side of the center line.
2. The Grantee covenants to maintain the easement in good repair so that no unreasonable damage will result from its use to the adjacent land of the Grantor, successors and assigns. The Grantor will receive compensation for damages to growing crops caused by the construction or operation. The Grantor will report any damages within three (3) years of the construction of the project.

The grant and other provisions of this easement shall constitute a covenant running with the land for the benefit of the Grantee, its successors and assigns.

IN WITNESS WHEREOF, the Grantor has executed this instrument this 3 day of February, 2014.

## WATER WELL AND WATER TANK EASEMENT

THIS INDENTURE, made and entered into this 31<sup>st</sup> day of May, 2022, by and between **JOHNELL J. KUSLER**, as personal representative of the Estate of **James O. Kusler**, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116, **JOHNELL J. KUSLER**, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116, AND **MILDA L. HEDBLUM**, a/k/a **MILDA K. HEDBLUM**, whose post office address is 1801 Summit Avenue, St. Paul, Minnesota 55105, hereafter "**Party of the First Part**"; and **TRENT T. MARTIN and DAWN MARTIN**, husband and wife, whose post office address is 1943 62<sup>ND</sup> Avenue SW, Beulah, North Dakota 58523, hereafter "**Party of the Second Part**".

WITNESSETH, that the Party of the First Part owns the following described parcel of land located in Oliver County, North Dakota, to-wit:

See Exhibit A attached hereto and incorporated herein by reference.

That the Party of the Second Part owns the following described parcel of land located in Oliver County, North Dakota, to-wit:

See Exhibit B attached hereto and incorporated herein by reference.

SOLEM LAW OFFICE  
109 CENTRAL AVENUE S  
P.O. BOX 249  
BEULAH, ND 58523  
PH. (701) 873-5555  
FAX (701) 873-4958  
e-mail: beulaw@westriv.com

That the said Party of the Second Part for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged by the Party of the Second Part, does by these presents grant and convey until the Party of the First Part for their use and benefit upon the parcel of land identified and described in Exhibit A attached hereto and incorporated herein by reference, a Water Well and Water Tank Easement allowing the Party of the First Part, their successors and assigns, access to and use of existing water wells and water tanks located upon the above described parcel of land owned by the Party of the Second Part and described in Exhibit B, attached hereto and incorporated herein by reference. The Party of the First Part may, in the future, add one additional waterline from the existing water wells located on the Party of the Second Part's property described in Exhibit B, which said waterline may extend onto the Party of the First Part's property described in Exhibit A. The Party of the First Part, and their successors and assigns, may use this one future additional waterline for livestock purposes only and this waterline may not be used to service a residence or be sold to another party to be used to service a residence.

This Easement shall be binding and obligatory upon the heirs, administrators, personal representatives, survivors, and assigns of the parties hereto, and this easement shall continue for a term of ninety-nine (99) years or for such longer period of time as may be allowed by state law. It is further understood that the Party of the First Part shall be under no obligation to maintain any existing water wells and water tanks owned by the Party of the Second Party. Any new additional waterline to be established as herein provided by the Party

of the First Part shall be established at their sole expense and maintained solely by the Party of the First Part.

IN WITNESS WHEREOF, the said parties hereto set their hands and seals the day and year first above written.

WITNESS, The hands of the parties of the first part:

## **CORRECTED** **RECIPROCAL ACCESS EASEMENT**

THIS INDENTURE, made and entered into this 31<sup>st</sup> day of May, 2022, by and between **JOHNELL J. KUSLER, as personal representative of the Estate of James O. Kusler**, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116, **JOHNELL J. KUSLER**, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116, AND **MILDA L. HEDBLOM, a/k/a MILDA K. HEDBLOM**, whose post office address is 1801 Summit Avenue, St. Paul, Minnesota 55105, hereafter "Party of the First Part"; and **TRENT T. MARTIN and DAWN MARTIN**, husband and wife, whose post office address is 1943 62<sup>ND</sup> Avenue SW, Beulah, North Dakota 58523, hereafter "Party of the Second Part".

WITNESSETH, that the said Party of the First Part and the said Party of the Second Part, for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged by each party, due by these presents grant and convey unto each other, their heirs, successors, and assigns for their use a Reciprocal Access Easement for purposes of ingress and egress allowing each party, their heirs, successors, and assigns to cross the land of each other specifically identified herein on

existing roads and trails.

The Party of the First Part owns the following described parcel of land located in Oliver County, North Dakota, to-wit:

See Exhibit A attached hereto and incorporated herein by reference.

The Party of the Second Part owns the following described parcel of land located in Oliver County, North Dakota, to-wit:

See Exhibit B attached hereto and incorporated herein by reference.

It is understood that this Reciprocal Access Agreement is being granted by the parties herein to each other for ingress and egress access purposes allowing each party to cross the land of the other to access their own parcels and that this Reciprocal Access Easement shall be binding and obligatory upon the heirs, administrators, personal representatives, survivors, and assigns of the parties hereto, and shall continue for a term of ninety-nine (99) years or for such longer time as may be allowed by state law. It is further understood that neither party is obligated to the other to maintain the trails and roads located upon the parcels described herein.

IN WITNESS WHEREOF, the said parties have hereunto set their hands and seals the day and year first above written.

WITNESS, the hands of the Parties of the First Part:

## RIGHT OF WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that we the undersigned, (Whether one or more) John Scheidt and Gladys M. Scheidt (joint tenants, and not as tenants in common, with full rights of survivorship) (unmarried) (husband and wife), for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver-Mercer Electric Corporation, Inc. a cooperative corporation, (hereinafter called the "Cooperative"), whose post office address is Hazen, North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the County of Mercer, State of North Dakota, and more particularly described as follows:

A tract of land approximately \_\_\_\_\_ acres in area, located \_\_\_\_\_ miles in a \_\_\_\_\_ direction from the town of \_\_\_\_\_, and further described as being in common tenancy in SE 1/4 Section 12, Township 142 Range 88 joint tenancy in SW 1/4 Section 12, Township 142 Range 88 and NE 1/4 Section 14, Township 142 Range 88

and to construct, operate and maintain on the above described lands, and/or in or upon all streets, roads or highways abutting said lands, an electric transmission or distribution line or system, and to cut and trim trees and shrubbery that may interfere with or threaten to endanger the operation and maintenance of said line or system.

The undersigned agree that all poles, wires, and other facilities, including any main service entrance equipment, installed on the above-described lands at the Cooperative's expense shall remain the property of the Cooperative, removable at the option of the Cooperative, upon termination of service to or on said lands.

The undersigned covenant that they are the owners of the above-described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

IN WITNESS WHEREOF, the undersigned have set their hands and seals,

this 22 day of April, 1949.

Signed, sealed and delivered in the presence of

Les Gatz

John Scheidt (L.S.)  
Gladys M. Scheidt (L.S.)

(1)  
STATE OF NORTH DAKOTA

# RIGHT-OF-WAY EASEMENT

Gladys Sched

(hereinafter called the "Grantor")

(unmarried) (husband and wife) for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver-Mercer Electric Cooperative, Inc., (hereinafter called "Grantee") whose post office address is Hazen, North Dakota, 58545, and to its successors or assigns, an easement for 99 years, situated in the County of Mercer, State of North Dakota, and more particularly described as follows:

TWN 142 Rge 88  
SEC 14 NE1/4

to construct, reconstruct, relocate, rephase, remove, repair, operate and maintain on or under the above described lands, and/or in, upon or under all streets, roads or highways abutting said lands, an electric distribution line or system; to cut, trim eradicate and control the growth by chemical means, machinery or otherwise, of trees and shrubbery located within 15 feet of the center of line of said line system, or that may interfere with or threaten to endanger the operation and maintenance of said line or system (indicating any control of the growth of other vegetation in the right-of-way which may incidentally and necessarily result from the means of control employed); and to license, permit or otherwise agree to the joint use or occupancy of the line or system by any other person, association or corporation, for electrification or communication purposes.

The undersigned Grantor agrees that all poles, wires, cables and other facilities including any main service entrance equipment installed on or below the above described lands at the Grantee's expense shall remain the property of Grantee, removable at its option upon termination of service to or on said lands.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches or lines of the Grantor, caused by the Grantee in the installation, repair, maintenance, reconstruction or removal of said electric properties and appurtenances, shall be promptly repaired, replaced or paid for by the Grantee, provided a claim therefore is presented to the Grantee at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, then the Grantor and Grantee shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

The undersigned Grantor covenants and agrees that no barrier of trees, shrubs, etc., and no structure or building shall be placed over underground conduits and electric lines and no construction shall be maintained or placed beneath over-the-ground electric lines and associated structures without the express written consent of the Grantee.

This Easement also includes a right-of-access to and from said real estate and Grantee's right-of-way for the purpose of connecting or reconnecting any part of the Grantee's system to or from said property with said system or to or from any other property on or coming on said system.

This Easement includes such additional rights of use and occupancy as shall be necessary for the use, maintenance, and operation of Grantee's system on said right-of-way, including but not limited to, anchors, guy wires, supporting poles or structures and the like as they were originally constructed or may thereafter be constructed.

The overall operating height of vehicles and equipment known to cultivate or traverse lands within the easement is less than \_\_\_\_\_ feet.

Dated this 3rd day of July, 19 90.

### West River Telephone Right-of-Way Easement

KNOW ALL MEN BY THESE PRESENT, that we the undersigned, (whether one or more) *Gladys M Scheidt*, Grantor(s), do hereby grant and convey unto *West River Telecommunications Cooperative*, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, reconstruct, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, surface testing terminals, repeaters, repeater housings and markers, and other appurtenances, upon and over the land which the undersigned owns or in which the undersigned has any interest in the County of *Mercer*, State of *North Dakota*, and more particularly described as follows:

*S/2SE/4 2 142 88*

*NE/4 14 142 88*

*This easement is to cover this line only. Any additional future new lines will require a new easement.*

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots brush and other obstructions from the surface and subsurface of said strip of land and within seven feet thereof. The boundary of said strip shall be a line parallel to and 25 feet either side of the first cable laid, which cable shall have its location indicated by surface markers set at intervals on the land of the undersigned or on adjacent lands. The undersigned for himself, his heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described premises at the Cooperative's expense, shall remain the property of the Cooperative, removable at the option of the Cooperative.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

Access is hereby granted for a state or federal historical survey of the cable route, should one be required, unless checked. Access denied ☐

RIGHT OF WAY EASEMENT

THIS AGREEMENT made and entered into this 19<sup>th</sup> day of June, 2014, between James Kusler, hereinafter called "Owner" (whether one or more) and **ROUGH RIDER ELECTRIC COOPERATIVE, INC.**, whose post office address is 800 Highway Drive, Hazen, North Dakota 58545-4737, hereinafter called "COOPERATIVE".

WITNESSETH that for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Owner grants unto Cooperative, its successors and assigns, for a term of 99 years from the date hereof, an easement to construct, reconstruct, operate and maintain an electric distribution system, overhead, underground or both including all poles, guys, anchors wires, surface terminals, and all accessories and appurtenances necessary or desirable in connection therewith, under, over, upon and across lands of Owner and/or in or upon all streets, roads or highways abutting said lands situated in Mercer County, North Dakota, and more particularly described as follows, to-wit:

A strip of land 20 feet in width, the same being 10 feet on each side of a centerline described as follows.

**Township 143 North Range 88 West**

**S1/2SE1/4 of Section 27**

The facilities erected hereunder shall remain the property of the Cooperative. Cooperative shall have the right to inspect, rebuild, remove, repair, improve and make such changes, alterations, substitutions and additions in and to its facilities as Cooperative may from time to time deem advisable, including the right to increase or decrease the size or capacity of its system, together with necessary accessories and appurtenances; the right to increase or decrease the size of the facilities and equipment situated upon the premises; the right to permit or otherwise agree to the joint use or occupancy of the overhead lines or the trench and related underground facilities by other persons, associations or corporations; and the right to at any time use the property described above to extend lines and facilities to serve the property of persons other than the Owner.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches, or lines of the Owner, caused by the Cooperative in the installation, repair maintenance, reconstruction or removal of said electrical properties and appurtenances, shall be promptly repaired, replaced or paid for by the Cooperative, provided a claim therefore is presented to the Cooperative at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Cooperative and the Owner shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

Cooperative shall at all times have the right to keep the easement clear of all buildings, structures or other obstructions, trees, shrubbery, undergrowth and roots.

Owner, his successors and assigns, may use the land within the easement for any purpose not inconsistent with the rights granted, provided such use does not interfere with or endanger the Cooperative's facilities or the rights granted under this easement.

For the purpose of constructing, inspecting, maintaining or operating its facilities, Cooperative shall have the right of ingress to and egress from the easement over the lands of Owner adjacent to the easement and lying between public or private roads and the easement, such right to be exercised in such manner as shall occasion the least practicable damage and inconvenience to Owner.

Owner covenants that he is seized of and has the right to convey the said easement, rights and privileges; that Cooperative shall have quiet and peaceable possession, use and enjoyment of the aforesaid easement, rights and privileges, and that Owner shall execute such further assurances thereof as may be requested by the Cooperative.

Faye Swenson (hereinafter called the "Grantor") (unmarried) (husband and wife) for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Roughrider Electric Cooperative, Inc. (hereinafter called "Grantee") whose post office address is Hazen, North Dakota 58545, and to its successors or assigns, an easement for 99 years, situated in the County of Oliver, State of North Dakota, and more particularly described as follows:

TOWNSHIP 142 NORTH, RANGE 87 WEST  
Section 21 NE 1/4

To construct, reconstruct, relocate, rephase, remove, repair, operate and maintain on or under the above described lands, and/or in, upon or under all streets, roads or highways abutting said lands, an electric distribution line or system; to cut, trim eradicate and control the growth by chemical means, machinery or otherwise, or trees and shrubbery located within -15- feet of the center of said line system, or that may interfere with or threaten to endanger the operation and maintenance of said line system (indicating any control of the growth of other vegetation in the right-of-way which may incidentally and necessarily result from the means of control employed); and to license, permit or otherwise agree to the joint use or occupancy of the line or system by any other person, association or corporation, for electrification or communication purposes.

The undersigned Grantor agrees that all poles, wires, cables and other facilities including any main service entrance equipment installed on or below the above described lands at the Grantee's expense shall remain the property of Grantee, removable at its option upon termination of service to or on said lands.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches or lines of the Grantor, caused by the Grantee in the installation, repair, maintenance, reconstruction or removal of said electric properties and appurtenances, shall be promptly repaired, replaced or paid for by the Grantee, provided a claim therefore is presented to the Grantee at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Grantor and Grantee shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

The undersigned Grantor covenants and agrees that no barrier of trees, shrubs, etc., and no structure or building shall be placed over underground conduits and electric lines and no construction shall be maintained or placed beneath over-the-ground electric lines and associated structures without the express written consent of the Grantee.

This Easement also includes a right-of-access to and from said real estate and Grantee's right-of-way for the purpose of connecting or reconnecting any part of the Grantee's system to or from said property with said system or to or from any other property on or coming on said system.

This Easement includes such additional rights of use and occupancy as shall be necessary for the use, maintenance, and operation of Grantee's system on said right-of-way, including but not limited to, anchors, guy wires, supporting poles or structures and the like as they were originally constructed or may thereafter be constructed.

The overall operating height of vehicles and equipment known to cultivate or traverse lands within the easement is less than \_\_\_\_\_ feet.

Dated this 1 day of July, 2008.

## RIGHT-OF-WAY EASEMENT

### ALL PERSONS TAKE NOTICE:

In consideration of one dollar (\$1.00) and other good and valuable consideration KURT & FAYE SWENSON 5774 21<sup>ST</sup> STREET SW BEULAH, ND 58523 hereinafter referred to as Grantor, does hereby grant, bargain, sell, transfer and convey to the Southwest Water Authority, hereinafter referred to as the Grantee, its successor and assigns, a perpetual easement with right to erect, construct, install and lay, and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines, connections, valves and all other appurtenant facilities used in connection with the construction, operation and maintenance of the Southwest Pipeline Project, over, above, across and through the land of the Grantor, situated in Oliver County, State of North Dakota, said land being described as follows: NE1/4 SECTION 21 TOWNSHIP 142 RANGE 87 (the tract that contains 2.32 acres, more or less), together with the right of ingress and egress over the adjacent lands of the Grantor, successors and assigns for the purposes of this easement.

1. The permanent easement will be thirty (30) feet in width, fifteen (15) feet on each side of the center line of the pipeline as constructed, with an additional ten (10) feet of temporary right-of-way for a total construction easement width of forty (40) feet, twenty (20) feet on each side of the center line.
2. The Grantee covenants to maintain the easement in good repair so that no unreasonable damage will result from its use to the adjacent land of the Grantor, successors and assigns. The Grantor will receive compensation for damages to growing crops caused by the construction or operation. The Grantor will report any damages within three (3) years of the construction of the project.

The grant and other provisions of this easement shall constitute a covenant running with the land for the benefit of the Grantee, its successors and assigns.

IN WITNESS WHEREOF, the Grantor has executed this instrument this 2 day of April, 2015.

***West River Telecommunications Right-of-Way Easement***

We the undersigned, (whether one or more) ***Donna M. Smith***, Grantor(s), do hereby grant and convey unto ***West River Telecommunications Cooperative***, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O. Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, repair, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, and other appurtenances, upon, over and under the land which the undersigned owns or in which the undersigned has any interest in the County of ***Oliver***, State of ***North Dakota***, and more particularly described as follows:

*W sec*  
NE/4 Sec. 22 T142N R87W
*E sec*  
NW/4 Sec. 21 T142N R87W

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots, brush and other obstructions from the surface and subsurface of said strip of land. The boundary of said strip shall be a line parallel to and 10 feet either side of the first cable laid on the land of the undersigned. The undersigned for Grantor(s), their heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described land, shall remain the property of the Cooperative, removable at the option of the Cooperative. The undersigned agrees to this easement with the understanding the Grantor(s), their heirs, executors, administrators, successors, and assigns, may continue to have access to and use of the easement area in any manner consistent with the rights herein granted to the Cooperative, and that the Cooperative will restore the said strip to as near as reasonable to the pre-constructed condition, and that the Cooperative will erect no buildings on said strip.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

RIGHT-OF-WAY EASEMENT

Location Number

(1)

TO YTHUOD

KNOW ALL MEN BY THESE PRESENTS, that the undersigned Norman Smith *Angie Marie* for a good and valuable consideration, the receipt whereof is hereby acknowledged, does hereby grant unto the *Oliver-Mercer Electric Cooperative, Inc.* a corporation, whose post office address is Hazen, N. Dak. North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the county of *Oliver*, State of North Dakota and more particularly described as follows:

NW 1/4

~~Sec. 22, T2S, R2E, N42-87~~

~~Sec. 15, T2S, R2E, N42-87~~

and to place, construct, operate, repair, maintain, relocate and replace thereon and in or upon all streets, roads or highways abutting said lands an electric transmission or distribution line or system, and to cut and trim trees and shrubbery to the extent necessary to keep them clear of said electric line or system and to cut down from time to time all dead, weak, leaning or dangerous trees that are tall enough to strike the wires in falling.

In granting this easement it is understood that at pole locations, only a single pole and arrangement will be used, and that the location of the pole will be such as to form the least possible interference to farm operations, so long as it does not materially increase the cost of construction.

The undersigned covenants that he is the owner of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

It is further understood that, whenever necessary, words in this instrument in the singular shall be construed to read in the plural and that words used in the masculine gender shall be construed to read in the feminine.

IN WITNESS WHEREOF, the undersigned has set his hand and seal this 26th day of June, 1946

Signed, sealed and delivered in the presence of:

RIGHT-OF-WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that we the undersigned, (whether one or more)

Ralph E. Smith  
(unmarried) (husband and wife) for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver-Mercer Electric Cooperative, Inc. a cooperative corporation (hereinafter called the "Cooperative") whose post office address is Hazen, North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the County of Oliver, State of North Dakota, and more particularly described as follows:

South ½ Section 15 Township 142N Range 87W

and to construct, operate and maintain an electric transmission and/or distribution line or system on or under the above-described lands and/or in, upon or under all streets, roads or highways abutting said lands; to inspect and make such repairs, changes, alterations, improvements, removals from, substitutions and additions to its facilities as Cooperative may from time to time deem advisable, including, by way of example and not by way of limitation, the right to increase or decrease the number of conduits, wires, cables, handholes, manholes, connection boxes, transformers and transformer enclosures; to cut, trim and control the growth by chemical means, machinery or otherwise of trees and shrubbery located within 100 feet of the center line of said line or system, or that may interfere with or threaten to endanger the operation and maintenance of said line or system (including any control of the growth of other vegetation in the right-of-way which may incidentally and necessarily result from the means of control employed); to keep the easement clear of all buildings, structures or other obstructions; and to license, permit or otherwise agree to the joint use or occupancy of the lines, system or, if any of said system is placed underground, of the trench and related underground facilities, by any other person, association or corporation.

The undersigned agree that all poles, wires and other facilities including any main service entrance equipment, installed in, upon or under the above-described lands at the Cooperative's expense shall remain the property of the Cooperative, removable at the option of the Cooperative.

The undersigned covenant that they are the owners of the above-described lands.

IN WITNESS WHEREOF, the undersigned have set their hands and seals this 20th day of November, 1975.

## PIPELINE EASEMENT

North Dakota State Water Commission  
County of Oliver  
Parcels H-OL-141

OFFICE OF COUNTY RECORDER  
STATE OF NORTH DAKOTA  
COUNTY OF OLIVER  
Filed for record this 16 day  
of Sept A.D. 2011  
at 11:59 o'clock A M.,  
and recorded as document No. 56785  
in book FF of Map page 619-621  
H. Walker  
County Recorder Deputy 16

### **ALL PERSONS TAKE NOTICE:**

That the undersigned, Jule Silbernagel and Faye Swenson, as tenants in common, called the Grantor, being the owner of, or having an interest in, land situated in the County of Oliver, State of North Dakota, more fully described below, in consideration of One and No/100 Dollars (\$1.00) and other valuable consideration, does hereby grant, convey, and warrant to the State of North Dakota, acting by and through the North Dakota State Water Commission, a state agency and public corporation, with its principal office at 900 East Boulevard Ave., Bismarck, North Dakota 58505, called the Grantee, and to its successors and assigns, the right, privilege, and easement to construct, maintain, operate, inspect, repair, alter, replace, change the size of or remove a pipeline, and appurtenances thereto, for the transportation of water under, across, and through:

#### Parcel H-OL-141

A 40 foot wide strip of land 20 feet wide on each side of the pipeline centerline lying within the SE1/4 Section 15, Township 142 North, Range 87 West of the 5th P.M.

Said tract contains 2.42 acres, more or less.

#### Temporary Construction Easement

An additional 20 feet of temporary right-of-way lying adjacent to the above described tract for a total construction easement width of 60 feet.

Said tract contains 1.21 acres, more or less.

together with the right to utilize additional land for a period up to three years from the date of this easement, adjacent to the above described tract, for purposes of temporary working space during initial construction of the pipeline, and the right of ingress to and egress from said strip of land across the adjacent lands of the Grantor, for the purposes specified above at the will of the Grantee.

### **THE GRANTOR AND THE GRANTEE FURTHER AGREE:**

- Use of right-of-way by Grantor.** Grantor reserves the right to use the surface of the easement strip provided, however, that Grantor, without prior approval of Grantee, shall neither construct nor permit to be constructed any building, structure, or other improvement upon the easement strip which would interfere with Grantee's exercise of the rights conveyed by this pipeline easement, including access to the easement strip.
- Appurtenances.** The Grantee shall have the right to install and construct necessary appurtenances upon the surface of the easement strip. Prior to construction, the Grantee will notify the Grantor of the approximate location of such appurtenances if any, to be located on the easement strip, and shall pay to the Grantor the sum of \$500 for each appurtenance located at a distance of more than 5 feet from a field boundary or fence line. Such payments shall be paid prior to construction.
- Damages.** The Grantee will pay to Grantor or Grantor's tenants, as their respective interests may appear, for damages caused by the operations or activities of the Grantee; provided, however, that the Grantee shall have the right, without liability for damages, to clear, and keep cleared, all trees, brush, and other obstructions from the easement strip that may, in the Grantee's judgment, interfere with the rights and privileges of the Grantee under this pipeline easement.

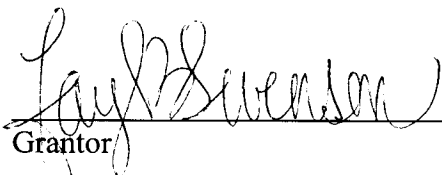

If the amount of any damage which Grantor may sustain as a result of Grantee's exercise of rights hereunder cannot be mutually agreed upon, such damages shall be ascertained and

determined by three (3) disinterested person; one to be appointed by the Grantor, one by Grantee, and a third by the two so appointed, and the award of such three persons shall be final and conclusive.

4. **Restoration of surface.** The Grantee will restore the surface of the construction area to its original contour as nearly as practicable.
5. **Topsoil segregation.** When excavating the pipeline trench with a backhoe/trackhoe, the Grantee will remove the topsoil separately during the construction of the pipeline for the full width of the pipe trench to a depth of twelve (12) inches or the actual topsoil depth, whichever is less, and to be replaced at the top of the backfill over the pipe trench.
6. **Assignment and covenant by parties.** The rights of either party may be assigned in whole or in part. The terms and provisions of this easement shall constitute covenants running with the land and shall be binding upon, and inure to the benefit of, the parties hereto, their successors, assigns, personal representatives, and heirs.
7. **Grantor's title.** Grantor warrants that he is the owner of, or has an interest in, the land described in this easement, and that he has full right and authority to enter into and deliver this easement. This instrument may be executed in counterparts and each counterpart shall constitute a separate agreement between the parties thereto. Any payments pursuant to this pipeline easement shall be in proportion to the Grantor's interest in the undivided fee simple estate.
8. **Entire agreement.** This instrument contains the entire agreement of the parties and there are no other, or different, agreements or understandings between the Grantor and the Grantee, or its agents. The Grantor, in executing this pipeline easement, has not relied upon any promises, inducements, or representatives of the Grantee, or its agents, except as are set forth herein.
9. **Term of easement.** The term of this easement shall be as long as it is needed by the Grantee, or its assigns, and until a release of this easement is recorded, but shall not exceed ninety-nine (99) years pursuant to NDCC §47-05-02.1.
10. **Tenants.** The Grantor represents that the land described in this easement is (not rented) (rented to) John Smith.

Dated this 21<sup>st</sup> day of February, 20 11.

### ALL PERSONS TAKE NOTICE:

In consideration of one dollar (\$1.00) and other good and valuable consideration MILDA K. HEDBLOM 1801 SUMMIT AVENUE ST. PAUL, MN 55105 hereinafter referred to as Grantor, does hereby grant, bargain, sell, transfer and convey to the Southwest Water Authority, hereinafter referred to as the Grantee, its successor and assigns, a perpetual easement with right to erect, construct, install and lay, and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines, connections, valves and all other appurtenant facilities used in connection with the construction, operation and maintenance of the Southwest Pipeline Project, over, above, across and through the land of the Grantor, situated in Oliver County, State of North Dakota, said land being described as follows: NW1/4 SECTION 7 TOWNSHIP 142 RANGE 87 (the tract that contains 1.59 acres, more or less), together with the right of ingress and egress over the adjacent lands of the Grantor, successors and assigns for the purposes of this easement.

1. The permanent easement will be thirty (30) feet in width, fifteen (15) feet on each side of the center line of the pipeline as constructed, with an additional ten (10) feet of temporary right-of-way for a total construction easement width of forty (40) feet, twenty (20) feet on each side of the center line.
2. The Grantee covenants to maintain the easement in good repair so that no unreasonable damage will result from its use to the adjacent land of the Grantor, successors and assigns. The Grantor will receive compensation for damages to growing crops caused by the construction or operation. The Grantor will report any damages within three (3) years of the construction of the project.

The grant and other provisions of this easement shall constitute a covenant running with the land for the benefit of the Grantee, its successors and assigns.

IN WITNESS WHEREOF, the Grantor has executed this instrument this 23 day of May, 2015.

## WATER WELL AND WATER TANK EASEMENT

THIS INDENTURE, made and entered into this 31<sup>st</sup> day of May, 2022, by and between **JOHNELL J. KUSLER**, as personal representative of the Estate of **James O. Kusler**, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116, **JOHNELL J. KUSLER**, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116, AND **MILDA L. HEDBLOM, a/k/a MILDA K. HEDBLOM**, whose post office address is 1801 Summit Avenue, St. Paul, Minnesota 55105, hereafter "**Party of the First Part**"; and **TRENT T. MARTIN and DAWN MARTIN**, husband and wife, whose post office address is 1943 62<sup>ND</sup> Avenue SW, Beulah, North Dakota 58523, hereafter "**Party of the Second Part**".

WITNESSETH, that the Party of the First Part owns the following described parcel of land located in Oliver County, North Dakota, to-wit:

See Exhibit A attached hereto and incorporated herein by reference.

That the Party of the Second Part owns the following described parcel of land located in Oliver County, North Dakota, to-wit:

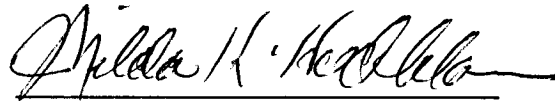

See Exhibit B attached hereto and incorporated herein by reference.

SOLEM LAW OFFICE

That the said Party of the Second Part for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged by the Party of the Second Part, does by these presents grant and convey until the Party of the First Part for their use and benefit upon the parcel of land identified and described in Exhibit A attached hereto and incorporated herein by reference, a Water Well and Water Tank Easement allowing the Party of the First Part, their successors and assigns, access to and use of existing water wells and water tanks located upon the above described parcel of land owned by the Party of the Second Part and described in Exhibit B, attached hereto and incorporated herein by reference. The Party of the First Part may, in the future, add one additional waterline from the existing water wells located on the Party of the Second Part's property described in Exhibit B, which said waterline may extend onto the Party of the First Part's property described in Exhibit A. The Party of the First Part, and their successors and assigns, may use this one future additional waterline for livestock purposes only and this waterline may not be used to service a residence or be sold to another party to be used to service a residence.

This Easement shall be binding and obligatory upon the heirs, administrators, personal representatives, survivors, and assigns of the parties hereto, and this easement shall continue for a term of ninety-nine (99) years or for such longer period of time as may be allowed by state law. It is further understood that the Party of the First Part shall be under no obligation to maintain any existing water wells and water tanks owned by the Party of the Second Party. Any new additional waterline to be established as herein provided by the Party

## **CORRECTED** **RECIPROCAL ACCESS EASEMENT**

THIS INDENTURE, made and entered into this 31<sup>st</sup> day of May, 2022, by and between **JOHNELL J. KUSLER, as personal representative of the Estate of James O. Kusler**, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116, **JOHNELL J. KUSLER**, whose post office address is 1884 Hillcrest Avenue, St. Paul, Minnesota 55116, AND **MILDA L. HEDBLOM, a/k/a MILDA K. HEDBLOM**, whose post office address is 1801 Summit Avenue, St. Paul, Minnesota 55105, hereafter "Party of the First Part"; and **TRENT T. MARTIN and DAWN MARTIN**, husband and wife, whose post office address is 1943 62<sup>ND</sup> Avenue SW, Beulah, North Dakota 58523, hereafter "Party of the Second Part".

WITNESSETH, that the said Party of the First Part and the said Party of the Second Part, for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged by each party, due by these presents grant and convey unto each other, their heirs, successors, and assigns for their use a Reciprocal Access Easement for purposes of ingress and egress allowing each party, their heirs, successors, and assigns to cross the land of each other specifically identified herein on

existing roads and trails.

The Party of the First Part owns the following described parcel of land located in Oliver County, North Dakota, to-wit:

See Exhibit A attached hereto and incorporated herein by reference.

The Party of the Second Part owns the following described parcel of land located in Oliver County, North Dakota, to-wit:

See Exhibit B attached hereto and incorporated herein by reference.

It is understood that this Reciprocal Access Agreement is being granted by the parties herein to each other for ingress and egress access purposes allowing each party to cross the land of the other to access their own parcels and that this Reciprocal Access Easement shall be binding and obligatory upon the heirs, administrators, personal representatives, survivors, and assigns of the parties hereto, and shall continue for a term of ninety-nine (99) years or for such longer time as may be allowed by state law. It is further understood that neither party is obligated to the other to maintain the trails and roads located upon the parcels described herein.

IN WITNESS WHEREOF, the said parties have hereunto set their hands and seals the day and year first above written.

WITNESS, the hands of the Parties of the First Part:

SHEET 4 OF 4

## RIGHT OF WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that we the undersigned, (Whether one or more) John Scheidt and Gladys M. Scheidt (joint tenants, and not as tenants in common, with full rights of survivorship) (unmarried) (husband and wife), for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver-Mercer Electric Corporation, Inc. a cooperative corporation, (hereinafter called the "Cooperative"), whose post office address is Hazen, North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the County of Mercer, State of North Dakota, and more particularly described as follows:

A tract of land approximately \_\_\_\_\_ acres in area, located \_\_\_\_\_ miles in a \_\_\_\_\_ direction from the town of \_\_\_\_\_, and further described as being in common tenancy in SE 1/4 Section 12, Township 142 Range 88 joint tenancy in SW 1/4 Section 12, Township 142 Range 88 and NE 1/4 Section 14, Township 142 Range 88

and to construct, operate and maintain on the above described lands, and/or in or upon all streets, roads or highways abutting said lands, an electric transmission or distribution line or system, and to cut and trim trees and shrubbery that may interfere with or threaten to endanger the operation and maintenance of said line or system.

The undersigned agree that all poles, wires, and other facilities, including any main service entrance equipment, installed on the above-described lands at the Cooperative's expense shall remain the property of the Cooperative, removable at the option of the Cooperative, upon termination of service to or on said lands.

The undersigned covenant that they are the owners of the above-described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

IN WITNESS WHEREOF, the undersigned have set their hands and seals,

this 22 day of April, 1949.

Signed, sealed and delivered in the presence of

Les Gatz

John Scheidt (L.S.)

# RIGHT-OF-WAY EASEMENT

Gladys Sched

(hereinafter called the "Grantor")

(unmarried) (husband and wife) for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver-Mercer Electric Cooperative, Inc., (hereinafter called "Grantee") whose post office address is Hazen, North Dakota, 58545, and to its successors or assigns, an easement for 99 years, situated in the County of Mercer, State of North Dakota, and more particularly described as follows:

TWN 142 Rge 88  
SEC 14 NE1/4

to construct, reconstruct, relocate, rephase, remove, repair, operate and maintain on or under the above described lands, and/or in, upon or under all streets, roads or highways abutting said lands, an electric distribution line or system; to cut, trim eradicate and control the growth by chemical means, machinery or otherwise, of trees and shrubbery located within 15 feet of the center of line of said line system, or that may interfere with or threaten to endanger the operation and maintenance of said line or system (indicating any control of the growth of other vegetation in the right-of-way which may incidentally and necessarily result from the means of control employed); and to license, permit or otherwise agree to the joint use or occupancy of the line or system by any other person, association or corporation, for electrification or communication purposes.

The undersigned Grantor agrees that all poles, wires, cables and other facilities including any main service entrance equipment installed on or below the above described lands at the Grantee's expense shall remain the property of Grantee, removable at its option upon termination of service to or on said lands.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches or lines of the Grantor, caused by the Grantee in the installation, repair, maintenance, reconstruction or removal of said electric properties and appurtenances, shall be promptly repaired, replaced or paid for by the Grantee, provided a claim therefore is presented to the Grantee at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, then the Grantor and Grantee shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

The undersigned Grantor covenants and agrees that no barrier of trees, shrubs, etc., and no structure or building shall be placed over underground conduits and electric lines and no construction shall be maintained or placed beneath over-the-ground electric lines and associated structures without the express written consent of the Grantee.

This Easement also includes a right-of-access to and from said real estate and Grantee's right-of-way for the purpose of connecting or reconnecting any part of the Grantee's system to or from said property with said system or to or from any other property on or coming on said system.

This Easement includes such additional rights of use and occupancy as shall be necessary for the use, maintenance, and operation of Grantee's system on said right-of-way, including but not limited to, anchors, guy wires, supporting poles or structures and the like as they were originally constructed or may thereafter be constructed.

The overall operating height of vehicles and equipment known to cultivate or traverse lands within the easement is less than \_\_\_\_\_ feet.

Dated this 3rd day of July, 19 90.

### West River Telephone Right-of-Way Easement

KNOW ALL MEN BY THESE PRESENT, that we the undersigned, (whether one or more) *Gladys M Scheidt*, Grantor(s), do hereby grant and convey unto *West River Telecommunications Cooperative*, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, reconstruct, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, surface testing terminals, repeaters, repeater housings and markers, and other appurtenances, upon and over the land which the undersigned owns or in which the undersigned has any interest in the County of *Mercer*, State of *North Dakota*, and more particularly described as follows:

*S/2SE/4 2 142 88*

*NE/4 14 142 88*

*This easement is to cover this line only. Any additional future new lines will require a new easement.*

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots brush and other obstructions from the surface and subsurface of said strip of land and within seven feet thereof. The boundary of said strip shall be a line parallel to and 25 feet either side of the first cable laid, which cable shall have its location indicated by surface markers set at intervals on the land of the undersigned or on adjacent lands. The undersigned for himself, his heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described premises at the Cooperative's expense, shall remain the property of the Cooperative, removable at the option of the Cooperative.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

Access is hereby granted for a state or federal historical survey of the cable route, should one be required, unless checked. Access denied ☐

RIGHT OF WAY EASEMENT

THIS AGREEMENT made and entered into this 19<sup>th</sup> day of June, 2014, between James Kusler, hereinafter called "Owner" (whether one or more) and **ROUGH RIDER ELECTRIC COOPERATIVE, INC.**, whose post office address is 800 Highway Drive, Hazen, North Dakota 58545-4737, hereinafter called "COOPERATIVE".

WITNESSETH that for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Owner grants unto Cooperative, its successors and assigns, for a term of 99 years from the date hereof, an easement to construct, reconstruct, operate and maintain an electric distribution system, overhead, underground or both including all poles, guys, anchors wires, surface terminals, and all accessories and appurtenances necessary or desirable in connection therewith, under, over, upon and across lands of Owner and/or in or upon all streets, roads or highways abutting said lands situated in Mercer County, North Dakota, and more particularly described as follows, to-wit:

A strip of land 20 feet in width, the same being 10 feet on each side of a centerline described as follows.

**Township 143 North Range 88 West**

S1/2SE1/4 of Section 27

The facilities erected hereunder shall remain the property of the Cooperative. Cooperative shall have the right to inspect, rebuild, remove, repair, improve and make such changes, alterations, substitutions and additions in and to its facilities as Cooperative may from time to time deem advisable, including the right to increase or decrease the size or capacity of its system, together with necessary accessories and appurtenances; the right to increase or decrease the size of the facilities and equipment situated upon the premises; the right to permit or otherwise agree to the joint use or occupancy of the overhead lines or the trench and related underground facilities by other persons, associations or corporations; and the right to at any time use the property described above to extend lines and facilities to serve the property of persons other than the Owner.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches, or lines of the Owner, caused by the Cooperative in the installation, repair maintenance, reconstruction or removal of said electrical properties and appurtenances, shall be promptly repaired, replaced or paid for by the Cooperative, provided a claim therefore is presented to the Cooperative at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Cooperative and the Owner shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

Cooperative shall at all times have the right to keep the easement clear of all buildings, structures or other obstructions, trees, shrubbery, undergrowth and roots.

Owner, his successors and assigns, may use the land within the easement for any purpose not inconsistent with the rights granted, provided such use does not interfere with or endanger the Cooperative's facilities or the rights granted under this easement.

For the purpose of constructing, inspecting, maintaining or operating its facilities, Cooperative shall have the right of ingress to and egress from the easement over the lands of Owner adjacent to the easement and lying between public or private roads and the easement, such right to be exercised in such manner as shall occasion the least practicable damage and inconvenience to Owner.

Owner covenants that he is seized of and has the right to convey the said easement, rights and privileges; that Cooperative shall have quiet and peaceable possession, use and enjoyment of the aforesaid easement, rights and privileges, and that Owner shall execute such further assurances thereof as may be requested by the Cooperative.

TO YTHUOD

KNOW ALL MEN BY THESE PRESENTS, that the undersigned, Norman Smith, for a good and valuable consideration, the receipt whereof is hereby acknowledged, does hereby grant unto the Oliver-Mercer Electric Cooperative, Inc., a corporation, whose post office address is Hazen, N. Dak., North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the county of Oliver, State of North Dakota and more particularly described as follows:

NW 1/4

Sec. 22, T22N, R42W, S21, P42-87

County of Oliver, State of North Dakota

and Sec. 15, T22N, R42W

and to place, construct, operate, repair, maintain, relocate and replace thereon and in or upon all streets, roads or highways abutting said lands an electric transmission or distribution line or system, and to cut and trim trees and shrubbery to the extent necessary to keep them clear of said electric line or system and to cut down from time to time all dead, weak, leaning or dangerous trees that are tall enough to strike the wires in falling.

In granting this easement it is understood that at pole locations, only a single pole and arrangement will be used, and that the location of the pole will be such as to form the least possible interference to farm operations, so long as it does not materially increase the cost of construction.

The undersigned covenants that he is the owner of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

It is further understood that, whenever necessary, words in this instrument in the singular shall be construed to read in the plural and that words used in the masculine gender shall be construed to read in the feminine.

IN WITNESS WHEREOF, the undersigned has set his hand and seal this 26th day of June, 1946

# RIGHT-OF-WAY EASEMENT

Faye Swenson (hereinafter called the "Grantor") (unmarried) (husband and wife) for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Roughrider Electric Cooperative, Inc. (hereinafter called "Grantee") whose post office address is Hazen, North Dakota 58545, and to its successors or assigns, an easement for 99 years, situated in the County of Oliver, State of North Dakota, and more particularly described as follows:

TOWNSHIP 142 NORTH, RANGE 87 WEST  
Section 21 NE 1/4

To construct, reconstruct, relocate, rephase, remove, repair, operate and maintain on or under the above described lands, and/or in, upon or under all streets, roads or highways abutting said lands, an electric distribution line or system; to cut, trim eradicate and control the growth by chemical means, machinery or otherwise, or trees and shrubbery located within -15- feet of the center of said line system, or that may interfere with or threaten to endanger the operation and maintenance of said line system (indicating any control of the growth of other vegetation in the right-of-way which may incidentally and necessarily result from the means of control employed); and to license, permit or otherwise agree to the joint use or occupancy of the line or system by any other person, association or corporation, for electrification or communication purposes.

The undersigned Grantor agrees that all poles, wires, cables and other facilities including any main service entrance equipment installed on or below the above described lands at the Grantee's expense shall remain the property of Grantee, removable at its option upon termination of service to or on said lands.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches or lines of the Grantor, caused by the Grantee in the installation, repair, maintenance, reconstruction or removal of said electric properties and appurtenances, shall be promptly repaired, replaced or paid for by the Grantee, provided a claim therefore is presented to the Grantee at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Grantor and Grantee shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

The undersigned Grantor covenants and agrees that no barrier of trees, shrubs, etc., and no structure or building shall be placed over underground conduits and electric lines and no construction shall be maintained or placed beneath over-the-ground electric lines and associated structures without the express written consent of the Grantee.

This Easement also includes a right-of-access to and from said real estate and Grantee's right-of-way for the purpose of connecting or reconnecting any part of the Grantee's system to or from said property with said system or to or from any other property on or coming on said system.

This Easement includes such additional rights of use and occupancy as shall be necessary for the use, maintenance, and operation of Grantee's system on said right-of-way, including but not limited to, anchors, guy wires, supporting poles or structures and the like as they were originally constructed or may thereafter be constructed.

The overall operating height of vehicles and equipment known to cultivate or traverse lands within the easement is less than \_\_\_\_\_ feet.

Dated this 1 day of July, 2008.

Faye Swenson

## RIGHT-OF-WAY EASEMENT

### ALL PERSONS TAKE NOTICE:

In consideration of one dollar (\$1.00) and other good and valuable consideration KURT & FAYE SWENSON 5774 21<sup>ST</sup> STREET SW BEULAH, ND 58523 hereinafter referred to as Grantor, does hereby grant, bargain, sell, transfer and convey to the Southwest Water Authority, hereinafter referred to as the Grantee, its successor and assigns, a perpetual easement with right to erect, construct, install and lay, and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines, connections, valves and all other appurtenant facilities used in connection with the construction, operation and maintenance of the Southwest Pipeline Project, over, above, across and through the land of the Grantor, situated in Oliver County, State of North Dakota, said land being described as follows: NE1/4 SECTION 21 TOWNSHIP 142 RANGE 87 (the tract that contains 2.32 acres, more or less), together with the right of ingress and egress over the adjacent lands of the Grantor, successors and assigns for the purposes of this easement.

1. The permanent easement will be thirty (30) feet in width, fifteen (15) feet on each side of the center line of the pipeline as constructed, with an additional ten (10) feet of temporary right-of-way for a total construction easement width of forty (40) feet, twenty (20) feet on each side of the center line.
2. The Grantee covenants to maintain the easement in good repair so that no unreasonable damage will result from its use to the adjacent land of the Grantor, successors and assigns. The Grantor will receive compensation for damages to growing crops caused by the construction or operation. The Grantor will report any damages within three (3) years of the construction of the project.

The grant and other provisions of this easement shall constitute a covenant running with the land for the benefit of the Grantee, its successors and assigns.

IN WITNESS WHEREOF, the Grantor has executed this instrument this 2 day of April, 2015.

***West River Telecommunications Right-of-Way Easement***

We the undersigned, (whether one or more) ***Donna M. Smith***, Grantor(s), do hereby grant and convey unto ***West River Telecommunications Cooperative***, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O. Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, repair, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, and other appurtenances, upon, over and under the land which the undersigned owns or in which the undersigned has any interest in the County of ***Oliver***, State of ***North Dakota***, and more particularly described as follows:

*W sec*  
NE/4 Sec. 22 T142N R87W
*E sec*  
NW/4 Sec. 21 T142N R87W

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots, brush and other obstructions from the surface and subsurface of said strip of land. The boundary of said strip shall be a line parallel to and 10 feet either side of the first cable laid on the land of the undersigned. The undersigned for Grantor(s), their heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described land, shall remain the property of the Cooperative, removable at the option of the Cooperative. The undersigned agrees to this easement with the understanding the Grantor(s), their heirs, executors, administrators, successors, and assigns, may continue to have access to and use of the easement area in any manner consistent with the rights herein granted to the Cooperative, and that the Cooperative will restore the said strip to as near as reasonable to the pre-constructed condition, and that the Cooperative will erect no buildings on said strip.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

RIGHT-OF-WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that we the undersigned, (whether one or more)

Ralph E. Smith  
(unmarried) (husband and wife) for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver-Mercer Electric Cooperative, Inc. a cooperative corporation (hereinafter called the "Cooperative") whose post office address is Hazen, North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the County of Oliver, State of North Dakota, and more particularly described as follows:

South ½ Section 15 Township 142N Range 87W

and to construct, operate and maintain an electric transmission and/or distribution line or system on or under the above-described lands and/or in, upon or under all streets, roads or highways abutting said lands; to inspect and make such repairs, changes, alterations, improvements, removals from, substitutions and additions to its facilities as Cooperative may from time to time deem advisable, including, by way of example and not by way of limitation, the right to increase or decrease the number of conduits, wires, cables, handholes, manholes, connection boxes, transformers and transformer enclosures; to cut, trim and control the growth by chemical means, machinery or otherwise of trees and shrubbery located within 100 feet of the center line of said line or system, or that may interfere with or threaten to endanger the operation and maintenance of said line or system (including any control of the growth of other vegetation in the right-of-way which may incidentally and necessarily result from the means of control employed); to keep the easement clear of all buildings, structures or other obstructions; and to license, permit or otherwise agree to the joint use or occupancy of the lines, system or, if any of said system is placed underground, of the trench and related underground facilities, by any other person, association or corporation.

The undersigned agree that all poles, wires and other facilities including any main service entrance equipment, installed in, upon or under the above-described lands at the Cooperative's expense shall remain the property of the Cooperative, removable at the option of the Cooperative.

The undersigned covenant that they are the owners of the above-described lands.

IN WITNESS WHEREOF, the undersigned have set their hands and seals this 20th day of November, 1975.

### **ALL PERSONS TAKE NOTICE:**

That the undersigned, Jule Silbernagel and Faye Swenson, as tenants in common, called the Grantor, being the owner of, or having an interest in, land situated in the County of Oliver, State of North Dakota, more fully described below, in consideration of One and No/100 Dollars (\$1.00) and other valuable consideration, does hereby grant, convey, and warrant to the State of North Dakota, acting by and through the North Dakota State Water Commission, a state agency and public corporation, with its principal office at 900 East Boulevard Ave., Bismarck, North Dakota 58505, called the Grantee, and to its successors and assigns, the right, privilege, and easement to construct, maintain, operate, inspect, repair, alter, replace, change the size of or remove a pipeline, and appurtenances thereto, for the transportation of water under, across, and through:

#### Parcel H-OL-141

A 40 foot wide strip of land 20 feet wide on each side of the pipeline centerline lying within the SE1/4 Section 15, Township 142 North, Range 87 West of the 5th P.M.

Said tract contains 2.42 acres, more or less.

#### Temporary Construction Easement

An additional 20 feet of temporary right-of-way lying adjacent to the above described tract for a total construction easement width of 60 feet.

Said tract contains 1.21 acres, more or less.

together with the right to utilize additional land for a period up to three years from the date of this easement, adjacent to the above described tract, for purposes of temporary working space during initial construction of the pipeline, and the right of ingress to and egress from said strip of land across the adjacent lands of the Grantor, for the purposes specified above at the will of the Grantee.

### **THE GRANTOR AND THE GRANTEE FURTHER AGREE:**

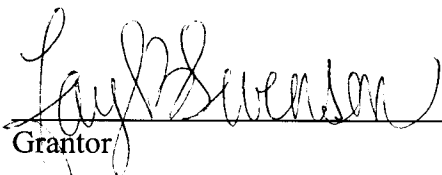

- Use of right-of-way by Grantor.** Grantor reserves the right to use the surface of the easement strip provided, however, that Grantor, without prior approval of Grantee, shall neither construct nor permit to be constructed any building, structure, or other improvement upon the easement strip which would interfere with Grantee's exercise of the rights conveyed by this pipeline easement, including access to the easement strip.
- Appurtenances.** The Grantee shall have the right to install and construct necessary appurtenances upon the surface of the easement strip. Prior to construction, the Grantee will notify the Grantor of the approximate location of such appurtenances if any, to be located on the easement strip, and shall pay to the Grantor the sum of \$500 for each appurtenance located at a distance of more than 5 feet from a field boundary or fence line. Such payments shall be paid prior to construction.
- Damages.** The Grantee will pay to Grantor or Grantor's tenants, as their respective interests may appear, for damages caused by the operations or activities of the Grantee; provided, however, that the Grantee shall have the right, without liability for damages, to clear, and keep cleared, all trees, brush, and other obstructions from the easement strip that may, in the Grantee's judgment, interfere with the rights and privileges of the Grantee under this pipeline easement.

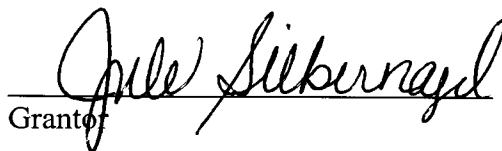

If the amount of any damage which Grantor may sustain as a result of Grantee's exercise of rights hereunder cannot be mutually agreed upon, such damages shall be ascertained and

determined by three (3) disinterested person; one to be appointed by the Grantor, one by Grantee, and a third by the two so appointed, and the award of such three persons shall be final and conclusive.

4. **Restoration of surface.** The Grantee will restore the surface of the construction area to its original contour as nearly as practicable.
5. **Topsoil segregation.** When excavating the pipeline trench with a backhoe/trackhoe, the Grantee will remove the topsoil separately during the construction of the pipeline for the full width of the pipe trench to a depth of twelve (12) inches or the actual topsoil depth, whichever is less, and to be replaced at the top of the backfill over the pipe trench.
6. **Assignment and covenant by parties.** The rights of either party may be assigned in whole or in part. The terms and provisions of this easement shall constitute covenants running with the land and shall be binding upon, and inure to the benefit of, the parties hereto, their successors, assigns, personal representatives, and heirs.
7. **Grantor's title.** Grantor warrants that he is the owner of, or has an interest in, the land described in this easement, and that he has full right and authority to enter into and deliver this easement. This instrument may be executed in counterparts and each counterpart shall constitute a separate agreement between the parties thereto. Any payments pursuant to this pipeline easement shall be in proportion to the Grantor's interest in the undivided fee simple estate.
8. **Entire agreement.** This instrument contains the entire agreement of the parties and there are no other, or different, agreements or understandings between the Grantor and the Grantee, or its agents. The Grantor, in executing this pipeline easement, has not relied upon any promises, inducements, or representatives of the Grantee, or its agents, except as are set forth herein.
9. **Term of easement.** The term of this easement shall be as long as it is needed by the Grantee, or its assigns, and until a release of this easement is recorded, but shall not exceed ninety-nine (99) years pursuant to NDCC §47-05-02.1.
10. **Tenants.** The Grantor represents that the land described in this easement is (not rented) (rented to) John Smith.

Dated this 21<sup>st</sup> day of February, 20 11.

My Commission expires:

RIGHT OF WAY EASEMENT

THIS AGREEMENT made and entered into this 11<sup>th</sup> day of AUGUST, 2014, between Faye Swenson, hereinafter called "Owner" (whether one or more) and **ROUGH RIDER ELECTRIC COOPERATIVE, INC.**, whose post office address is 800 Highway Drive, Hazen, North Dakota 58545-4737, hereinafter called "COOPERATIVE".

WITNESSETH that for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Owner grants unto Cooperative, its successors and assigns, for a term of 99 years from the date hereof, an easement to construct, reconstruct, operate and maintain an electric distribution system, overhead, underground or both including all poles, guys, anchors wires, surface terminals, and all accessories and appurtenances necessary or desirable in connection therewith, under, over, upon and across lands of Owner and/or in or upon all streets, roads or highways abutting said lands situated in Oliver County, North Dakota, and more particularly described as follows, to-wit:

A strip of land 20 feet in width, the same being 10 feet on each side of a centerline described as follows.

TOWNSHIP 142 NORTH, RANGE 87 WEST  
Section 15

The facilities erected hereunder shall remain the property of the Cooperative. Cooperative shall have the right to inspect, rebuild, remove, repair, improve and make such changes, alterations, substitutions and additions in and to its facilities as Cooperative may from time to time deem advisable, including the right to increase or decrease the size or capacity of its system, together with necessary accessories and appurtenances; the right to increase or decrease the size of the facilities and equipment situated upon the premises; the right to permit or otherwise agree to the joint use or occupancy of the overhead lines or the trench and related underground facilities by other persons, associations or corporations; and the right to at any time use the property described above to extend lines and facilities to serve the property of persons other than the Owner.

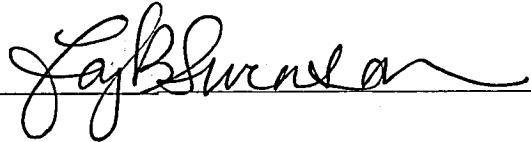

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches, or lines of the Owner, caused by the Cooperative in the installation, repair maintenance, reconstruction or removal of said electrical properties and appurtenances, shall be promptly repaired, replaced or paid for by the Cooperative, provided a claim therefore is presented to the Cooperative at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Cooperative and the Owner shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

Cooperative shall at all times have the right to keep the easement clear of all buildings, structures or other obstructions, trees, shrubbery, undergrowth and roots.

Owner, his successors and assigns, may use the land within the easement for any purpose not inconsistent with the rights granted, provided such use does not interfere with or endanger the Cooperative's facilities or the rights granted under this easement.

For the purpose of constructing, inspecting, maintaining or operating its facilities, Cooperative shall have the right of ingress to and egress from the easement over the lands of Owner adjacent to the easement and lying between public or private roads and the easement, such right to be exercised in such manner as shall occasion the least practicable damage and inconvenience to Owner.

Owner covenants that he is seized of and has the right to convey the said easement, rights and privileges; that Cooperative shall have quiet and peaceable possession, use and enjoyment of the aforesaid easement, rights and privileges, and that Owner shall execute such further assurances thereof as may be requested by the Cooperative.

## DECLARATION OF MICHAEL BAUMAN

---

[¶1] I, Michael Bauman, declare the following based on personal knowledge:

[¶2] I have ownership interest in the following property that lies within the boundaries of the BK Fischer Storage Facility.

- Township 142 North, Range 88 West  
Section 24: SW1/4, less a 20-acre parcel & ROW  
Mercer County, ND

[¶3] To the best of my knowledge, the property listed in ¶ 2 above is encumbered by the following easements:

- Oliver-Mercer Electric Cooperative, Inc. Right-of-Way Easement executed by John Jochim on June 25, 1980 (209443).
- West River Telephone Right-of-Way Easement executed by John B. Jochim on April 13, 1993 (153703).
- ND Water State Water Commission Pipeline Easement executed by Rick and Valerie Bauman on August 19, 2010 (195749).
- Southwest Water Authority Right-of-Way Easement executed by Michael Bauman on October 16, 2014 (206892).

[¶4] Attached is the deed which I believe indicates my ownership in the property listed above.

[¶5] Attached are the easements currently encumbering these properties based on the information I have.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 30 day of May, 2024 at Beulah, ND, United States.

  
Mike Bauman (May 30, 2024 14:29 EDT)

Michael Bauman

WARRANTY DEED

This deed is made by **Rick Bauman and Valerie K. Bauman**, husband and wife, Grantors, to **Michael P. Bauman**, Grantee, whose post office address is 572 Oemler Loop, Savanna, GA 31410.

For valuable consideration, Grantors' grant and convey to Grantee the following real property (the premises) located in Mercer County, North Dakota:

Township 142 North, Range 88 West

Section 24: SW¼ less a 20 acre parcel described as follows:

Commencing at the NE corner of SW¼, thence West along the North boundary of the SW¼ a distance of 950 feet; thence South in a line parallel to the East boundary of the SW¼ a distance of 915 feet; thence East in a line parallel to the North boundary of the SW¼ a distance of 950 feet to the East boundary of the SW¼; thence North along the East boundary of the SW¼ to the point of beginning.

The legal description was obtained from ☒ a previously recorded instrument ☐ or prepared by Jeffrey T. Landon of Lange & Donovan, PLLP, PO Box 488, Hazen, ND 58545.

Grantor covenants that they are well seized in fee of the premises, which he has the right to sell and convey, and which are free from encumbrances except those of record. Further, they covenant that they will warrant and defend the premises in the quiet and peaceable possession of the Grantee.

Dated this 9<sup>th</sup> day of May, 2011.

GRANTOR:

Rick Bauman

RIGHT-OF-WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that we the undersigned, (whether one or more)

JOHN JOCHIM

(unmarried) (husband and wife) for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto the Oliver-Mercer Electric Cooperative, Inc., a cooperative corporation (hereinafter called the "Cooperative") whose post office address is Hazen, North Dakota 58545, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the County of Mercer, State of North Dakota, and more particularly described as follows:

Right-of-way \_\_\_\_\_ feet Township 142 Range 88 Section W 1/2 OF NW 1/4 OF 24  
 Right-of-way \_\_\_\_\_ feet Township \_\_\_\_\_ Range \_\_\_\_\_ Section W 1/2 OF SW 1/4 OF 13  
W 1/2 OF W 1/2 OF 24  
N 1/2 OF SW 1/4 OF 24

and to construct, operate, maintain and move or relocate on the above-described lands and/or in or upon all streets, roads or highways abutting said lands, an electric transmission line or system, and to cut and trim trees and shrubbery that may interfere with or threaten to endanger the operation and maintenance of said line or system. The easement shall include only that part of the above described land located within 15 feet on each side of the proposed line.

The undersigned agree that all poles, wires and other facilities, installed on the above described lands at the Cooperative's expense shall remain the property of the Cooperative, removable at the option of the Cooperative.

The Cooperative agrees to pay a reasonable sum for any damage caused to crops or fences by the construction, operation, maintenance, or repair of said line or system. The overall operating height of vehicles and equipment known to cultivate or traverse lands within the easement, is less than fourteen (14) feet, unless otherwise noted below.

IN WITNESS WHEREOF, the undersigned have set their hands and seals this 25 day of June, 1980.

# West River Telephone Right-of-Way Easement

KNOW ALL MEN BY THESE PRESENT, that we the undersigned, (whether one or more) John B Jochim, Grantor(s), do hereby grant and convey unto West River Telecommunications Cooperative, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, reconstruct, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, surface testing terminals, repeaters, repeater housings and markers, and other appurtenances, upon and over the land which the undersigned owns or in which the undersigned has any interest in the County of Mercer, State of North Dakota, and more particularly described as follows:

W/2 24 142 88

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots brush and other obstructions from the surface and subsurface of said strip of land and within seven feet thereof. The boundary of said strip shall be a line parallel to and 25 feet either side of the first cable laid, which cable shall have its location indicated by surface markers set at intervals on the land of the undersigned or on adjacent lands. The undersigned for himself, his heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described premises at the Cooperative's expense, shall remain the property of the Cooperative, removable at the option of the Cooperative.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

Access is hereby granted for a state or federal historical survey of the cable route, should one be required, unless checked. Access denied ☐

IN WITNESS WHEREOF, this instrument has been executed by the undersigned this the 13 day of April, 1993.

## **PIPELINE EASEMENT**

North Dakota State Water Commission  
County of Mercer  
Parcel H-MER-131

### **ALL PERSONS TAKE NOTICE:**

That the undersigned, Rick Bauman and Valerie K. Bauman, whether one or more, called the Grantor, being the owner of, or having an interest in, land situated in the County of Mercer, State of North Dakota, more fully described below, in consideration of One and No/100 Dollars (\$1.00) and other valuable consideration, does hereby grant, convey, and warrant to the State of North Dakota, acting by and through the North Dakota State Water Commission, a state agency and public corporation, with its principal office at 900 East Boulevard Ave., Bismarck, North Dakota 58505, called the Grantee, and to its successors and assigns, the right, privilege, and easement to construct, maintain, operate, inspect, repair, alter, replace, change the size of or remove a pipeline, and appurtenances thereto, for the transportation of water under, across, and through:

#### **Parcel H-MER-131**

A 40 foot wide strip of land 20 feet wide on each side of the pipeline centerline lying within the W1/2 SW1/4 and S1/2 SW1/4 all in Section 24, Township 142 North, Range 88 West of the 5th P.M.

Said tract contains 4.84 acres, more or less.

#### **Temporary Construction Easement**

An additional 20 feet of temporary right-of-way lying adjacent to the above described tract for a total construction easement width of 60 feet.

Said tract contains 2.42 acres, more or less.

together with the right to utilize additional land for a period up to three years from the date of this easement, adjacent to the above described tract, for purposes of temporary working space during initial construction of the pipeline, and the right of ingress to and egress from said strip of land across the adjacent lands of the Grantor, for the purposes specified above at the will of the Grantee.

### **THE GRANTOR AND THE GRANTEE FURTHER AGREE:**

- 1. Use of right-of-way by Grantor.** Grantor reserves the right to use the surface of the easement strip provided, however, that Grantor, without prior approval of Grantee, shall neither construct nor permit to be constructed any building, structure, or other improvement upon the easement strip which would interfere with Grantee's exercise of the rights conveyed by this pipeline easement, including access to the easement strip.
- 2. Appurtenances.** The Grantee shall have the right to install and construct necessary appurtenances upon the surface of the easement strip. Prior to construction, the Grantee will notify the Grantor of the approximate location of such appurtenances if any, to be located on the easement strip, and shall pay to the Grantor the sum of \$500 for each appurtenance located at a distance of more than 5 feet from a field boundary or fence line. Such payments shall be paid prior to construction.
- 3. Damages.** The Grantee will pay to Grantor or Grantor's tenants, as their respective interests may appear, for damages caused by the operations or activities of the Grantee; provided, however, that the Grantee shall have the right, without liability for damages, to clear, and keep cleared, all trees, brush, and other obstructions from the easement strip that may, in the Grantee's judgment, interfere with the rights and privileges of the Grantee under this pipeline easement.

If the amount of any damage which Grantor may sustain as a result of Grantee's exercise of rights hereunder cannot be mutually agreed upon, such damages shall be ascertained and determined by three (3) disinterested person; one to be appointed by the Grantor, one by Grantee, and a third by the two so appointed, and the award of such three persons shall be final and conclusive.

4. **Restoration of surface.** The Grantee will restore the surface of the construction area to its original contour as nearly as practicable.
5. **Topsoil segregation.** When excavating the pipeline trench with a backhoe/trackhoe, the Grantee will remove the topsoil separately during the construction of the pipeline for the full width of the pipe trench to a depth of twelve (12) inches or the actual topsoil depth, whichever is less, and to be replaced at the top of the backfill over the pipe trench.
6. **Assignment and covenant by parties.** The rights of either party may be assigned in whole or in part. The terms and provisions of this easement shall constitute covenants running with the land and shall be binding upon, and inure to the benefit of, the parties hereto, their successors, assigns, personal representatives, and heirs.
7. **Grantor's title.** Grantor warrants that he is the owner of, or has an interest in, the land described in this easement, and that he has full right and authority to enter into and deliver this easement. This instrument may be executed in counterparts and each counterpart shall constitute a separate agreement between the parties thereto. Any payments pursuant to this pipeline easement shall be in proportion to the Grantor's interest in the undivided fee simple estate.
8. **Entire agreement.** This instrument contains the entire agreement of the parties and there are no other, or different, agreements or understandings between the Grantor and the Grantee, or its agents. The Grantor, in executing this pipeline easement, has not relied upon any promises, inducements, or representatives of the Grantee, or its agents, except as are set forth herein.
9. **Term of easement.** The term of this easement shall be as long as it is needed by the Grantee, or its assigns, and until a release of this easement is recorded, but shall not exceed ninety-nine (99) years pursuant to NDCC §47-05-02.1.
10. **Tenants.** The Grantor represents that the land described in this easement is (not rented) (rented to) NO.

Dated this 19th day of August, 2010.

**RIGHT-OF-WAY EASEMENT**

**ALL PERSONS TAKE NOTICE:**

In consideration of one dollar (\$1.00) and other good and valuable consideration **MICHAEL P. BAUMAN 4717 S 197TH E AVE BROKEN ARROW, OK 74014** hereinafter referred to as Grantor, does hereby grant, bargain, sell, transfer and convey to the Southwest Water Authority, hereinafter referred to as the Grantee, its successor and assigns, a perpetual easement with right to erect, construct, install and lay, and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines, connections, valves and all other appurtenant facilities used in connection with the construction, operation and maintenance of the Southwest Pipeline Project, over above, across and through the land of the Grantor, situated in **MERCER** County, State of North Dakota, and said land as identified in Exhibit A described as follows: **SW1/4 SW1/4 SW1/4 SW1/4 & E1/2 E1/2 E1/2 SW1/4 SECTION 24 TOWNSHIP 142 RANGE 88 (the tract that contains 1.24 acres, more or less).**

1. The permanent easement will be thirty (30) feet in width, fifteen (15) feet on each side of the center line of the pipeline as constructed, with an additional ten (10) feet of temporary right-of-way for a total construction easement width of forty (40) feet, twenty (20) feet on each side of the center line.

2. The Grantee covenants to maintain the easement in good repair so that no unreasonable damage will result from its use to the adjacent land of the Grantor, successors and assigns. The Grantor will receive compensation for damages to growing crops caused by the construction or operation. The Grantor will report any damages within three (3) years of the construction of the project.

The grant and other provisions of this easement shall constitute a covenant running with the land for the benefit of the Grantee, its successors and assigns.

IN WITNESS WHEREOF, the Grantor has executed this instrument this 16<sup>th</sup> day of October, 20 14

## DECLARATION OF GLENN GERVING

---

[¶1] I, Glenn Gerving, declare the following statements based on personal knowledge:

[¶2] I have ownership interest in the following properties that lie within the boundaries of the proposed TB Leingang Storage Facility.

- Township 141 North, Range 88 West  
Section 13: South fifty-four (54) acres of the South Half of the South Half (S1/2 S1/2)  
Mercer County, ND
- Township 141 North, Range 88 West  
Section 24: S1/2 SW1/4; S1/2 SW1/4 NW1/4  
Mercer County, ND

[¶3] To the best of my knowledge, the properties listed in ¶ 2 above are encumbered by the following easements:

- Section 13:
  - i. Southwest Water Authority Right-of-Way Easement executed by Dean and Tania Gerving on June 22, 2015 (207742).
- Section 24:
  - i. Southwest Water Authority Right-of-Way Easement executed by Glenn and Lisa Gerving on May 8, 2015 (207178).

[¶4] I have ownership interest in the following properties that lie within the boundaries of the Review Area of the proposed TB Leingang Storage Facility:

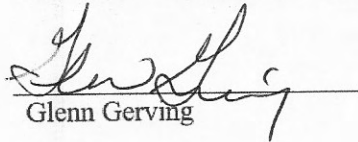

- Township 142 North, Range 87 West  
Section 34: E1/2 SE1/4  
Oliver County, ND
- Township 142 North, Range 87 West  
Section 35: S1/2 SW1/4  
Oliver County, ND

[¶5] Attached are the deeds which I believe indicate my ownership in each of the properties listed above.

[¶6] Attached are the easements currently encumbering these properties based on the information I have.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 30 day of May, 2024 at Glen Ullin, ND, United States.

  
Glenn Gervin

\*\*\*\*\*  
QUIT CLAIM DEED  
\*\*\*\*\*

THIS INDENTURE made this 24 day of October, 2018, between Dean Gerving, 2506 LaCorte Place, Bismarck, ND 58503, formerly of 607 9<sup>th</sup> Avenue SW, Mandan, ND 58554, Grantor; and Glenn Gerving, P.O. Box 607, Glen Ullin, ND 58631-0607, Grantee;

For and in consideration of One Dollar and other good and valuable consideration, Grantor does hereby QUIT CLAIM to Grantee, an undivided one-half (1/2) interest in all those tracts or parcels of land lying and being in the County of Mercer, and State of North Dakota, and described as follows, to wit:

The South fifty-three (53) acres of the South Half of the South Half (S1/2S1/2) of Section Thirteen (13), in Township One Hundred Forty-One (141) North, Range Eighty-Eight (88) West of the Fifth Principal Meridian, LESS a tract of land deeded to the State of North Dakota for the use of the State Highway Deptment described as follows:

All that portion of the South fifty-four (54) acres of the South Half of the South Half (S 1/2 S 1/2) of Section Thirteen (13), Township One Hundred Forty-One (141) North, Range Eighty-Eight (88) West, lying within a strip of land 100.00 feet wide, located on the Easterly side of and measured at right angles to the following described highway center line, as surveyed and staked: Beginning at a point 154.58 feet East of the Southwest corner of said Section Thirteen (13), thence from a tangent bearing North 0.09' West running along a 0.30' curve to the left 446.7 feet, more or less, until said stip crosses the North Line of said South 54 acres, also including all that portion lying Westerly of the above described strip except all that portion lying within 33 feet of the section line, tract contains 1.92 acres, more or less.

The North one hundred six (106) acres of the South Half of the South Half (S 1/2 S 1/2) of Section Thirteen (13) in Township One Hundred

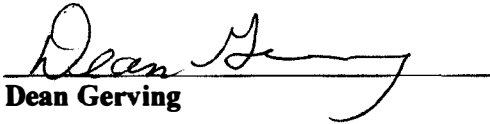

Quit Claim Deed Dean Gerving to Glenn Gerving, Page -2-

Forty-One (41) North, Range Eighty-Eight (88) West of the Fifth Principal Meridian in Mercer County, North Dakota, subject to all conveyances of record and to all existing easements and rights-of-way.

The South fifty-three (53) acres of the North one hundred six (106) acres of the South Half (S 1/2) and the South fifty-four (54) acres of the North Half of the South Half (N 1/2 S 1/2) of Section Thirteen (13), in Township One Hundred Forty-one (141) North, Range Eighty-Eight (88) West of the Fifth Principal Meridian in Mercer County, North Dakota, subject to all conveyances of record and to all existing easements and rights-of-way.

These descriptions were obtained from a previously recorded instrument, namely that Warranty Deed dated March 12, 2007, recorded as Document No. 184674.

WITNESS, The hand of the Grantor:

  
Dean Gerving

STATE OF NORTH DAKOTA )

COUNTY OF Morton ) ss.

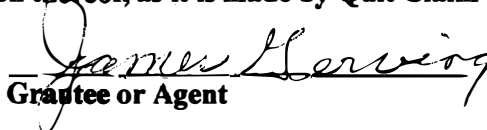

On this 17<sup>th</sup> day of December, 2018, before me personally appeared Dean Gerving, a single person, known to me to be the same person described in and who executed the within and foregoing instrument, and acknowledged to me that he executed the same.

  
Notary Public  
State of North Dakota  
My Commission Expires: July 28, 2021

I hereby certify that the transaction which is the subject matter of this conveyance is exempt from a statement of full consideration thereof, as it is made by Quit Claim Deed.

WARRANTY DEED

THIS INDENTURE, Made this 14<sup>th</sup> day of May, 2006, between Glenn Gerving and Lisa Gerving, husband and wife and Dean Gerving and Tania Gerving, husband and wife, grantor, whether one or more, and Glenn Gerving and Lisa Gerving, husband and wife, grantees, whose post office address is P.O. Box 607, Glen Ullin, ND 58631-0607.

WITNESSETH, For and in consideration of the sum of one dollar (\$1.00) and other good and valuable consideration in money or monies worth - - - - - Dollars, grantor does hereby GRANT to the grantees, as joint tenants and not as tenants in common, all of the following real property lying and being in the County of Mercer and State of North Dakota, and described as follows, to-wit:

1. N $\frac{1}{2}$ NE $\frac{1}{4}$  of Sec. 13, Twp. 145N, Rng. 89W
2. S $\frac{1}{2}$ SW $\frac{1}{4}$  of Sec. 24, Twp. 141N, Rng. 88W
3. S $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$  of Sec. 24, Twp. 141N, Rng. 88W

And the said grantor for himself, his heirs, executors and administrators, does covenant with the grantees that he is well seized in fee of the land and premises aforesaid and has good right to sell and convey the same in manner and form aforesaid; that the same are free from all incumbrances, except installments of special assessments or assessments for special improvements which have not been certified to the County Auditor for collection, easements, rights of ways, zoning ordinances and amendments, EPA issues, mineral reservations, mineral leases and mineral deeds and any limitations of record, and the above granted lands and premises in the quiet and

peaceable possession of said grantees, against all persons lawfully claiming or to claim the whole or any part thereof, the said grantor will warrant and defend.

**ALL PERSONS TAKE NOTICE:**

In consideration of one dollar (\$1.00) and other good and valuable consideration **GLENN & LISA GERVING PO BOX 607 GLEN ULLIN, ND 58631** hereinafter referred to as Grantor, does hereby grant, bargain, sell, transfer and convey to the Southwest Water Authority, hereinafter referred to as the Grantee, its successor and assigns, a perpetual easement with right to erect, construct, install and lay, and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines, connections, valves and all other appurtenant facilities used in connection with the construction, operation and maintenance of the Southwest Pipeline Project, over, above, across and through the land of the Grantor, situated in **Mercer** County, State of North Dakota, said land being described as follows: **S1/2 SW1/4 LESS R/W & S1/2 SW1/4 NW1/4 LESS R/W SECTION 24 TOWNSHIP 141 RANGE 88** (the tract that contains **4.04** acres, more or less), together with the right of ingress and egress over the adjacent lands of the Grantor, successors and assigns for the purposes of this easement.

1. The permanent easement will be thirty (30) feet in width, fifteen (15) feet on each side of the center line of the pipeline as constructed, with an additional ten (10) feet of temporary right-of-way for a total construction easement width of forty (40) feet, twenty (20) feet on each side of the center line.
2. The Grantee covenants to maintain the easement in good repair so that no unreasonable damage will result from its use to the adjacent land of the Grantor, successors and assigns. The Grantor will receive compensation for damages to growing crops caused by the construction or operation. The Grantor will report any damages within three (3) years of the construction of the project.

The grant and other provisions of this easement shall constitute a covenant running with the land for the benefit of the Grantee, its successors and assigns.

IN WITNESS WHEREOF, the Grantor has executed this instrument this 8TH day of MAY, 2015.

## TRUSTEE'S WARRANTY DEED

**M159382**

**THIS INDENTURE** Made this 15<sup>th</sup> day of December, 2021,  
 between **Darren D. Senger and Francis M. Senger, Successor Trustees**  
**of the Senger Family Joint Asset Trust dated June 26, 2009, and any**  
**amendments thereto**, grantors, whether one or more, to **Glenn Gerving**  
**and Lisa Gerving**, grantees, whose post office address is \_\_\_\_\_  
Po Box 607 Glen Ullin ND 58631.

**WITNESSETH** for and in consideration of the sum of \$10.00 and more  
 consideration, grantors do hereby GRANT to the grantees, as joint tenants  
 and not as tenants in common, all of the following real property lying and  
 being in the County of Oliver, State of North Dakota, and described as  
 follows, to-wit:

The E $\frac{1}{2}$ SE $\frac{1}{4}$  of Section 34, and the S $\frac{1}{2}$ SW $\frac{1}{4}$  of Section 35, all in Township  
 142 North, Range 87 West of the 5<sup>th</sup> P.M., Oliver County, North Dakota.

Reserving unto the Grantors 100% of whatever mineral interests (rights  
 and royalties) currently owned by the Grantors or determined at a later  
 date, including but not limited to oil, coal, gas, uranium and hydrocarbons  
 owned as of record today.

Subject to easements, rights of way, restrictions and mineral severances  
 and reservations of record.

I certify that the full consideration paid for the property described in this  
 deed is \$ 432,000.00.

Date: 12-15-21 (Sgd.): Glenn Gerving  
 Grantee or Agent

And the said grantors for themselves, their heirs, executors and  
 administrators, do covenant with the grantees that they are well seized in  
 fee of the land and premises aforesaid and have good right to sell and  
 convey the same in manner and form aforesaid; that the same are free  
 from encumbrances, except installments of special assessments or  
 assessments for special improvements which have not been certified to the  
 County Auditor for collection, and the above granted lands and premises in  
 the quiet and peaceable possession of said grantees, against all persons  
 lawfully claiming or to claim the whole or any part thereof, the said grantors  
 will warrant and defend.

## DECLARATION OF MICHAEL & BONNIE HAUPT

---

[¶1] We, Michael and Bonnie Haupt, declare the following based on personal knowledge:

[¶2] We have ownership interest in the following properties that lie within the boundaries of the Review Area of the proposed TB Leingang Storage Facility.

- Township 141 North, Range 88 West  
Section 27: SW1/4  
Mercer County, ND
- Township 141 North, Range 88 West  
Section 35: SE1/4  
Mercer County, ND

[¶3] To the best of our knowledge, the properties listed in ¶ 2 above are encumbered by the following easements:

- Section 27:
  - i. Oliver-Mercer Electric Cooperative, Inc. Right-of-Way Easement executed by John and Frances Bechhold on March 23, 1945.
  - ii. Glen Ullin Energy Center, LLC Wind Project Easement Agreement executed by Michael and Bonnie Haupt effective as of July 10, 2018
- Section 35:
  - i. Mercer Co. Indenture executed by Michael and Elizabeth Bode on October 12, 1933.
  - ii. State of North Dakota Indenture executed by Michael and Elizabeth Bode on July 14, 1959.
  - iii. West River Telecommunications Right-of-Way Easement executed by Milton Flemmer on April 29, 1996.
  - iv. Southwest Water Authority Potable Water Easement executed by Michael and Bonnie Haupt on July 14, 2015.
  - v. Oliver-Mercer Electric Cooperative, Inc. Right-of-Way Easement executed by Michael and Elizabeth Bode in July, 1949.

- vi. Northwest Bell Telephone Company Right-of-Way Easement executed by Milton Flemmer on July 11, 1969.
- vii. Dakota Access, LLC Easement Agreement executed by Bonnie and Michael Haupt on March 4, 2016.

[¶4] Attached are the deeds which we believe indicate our ownership in each of the properties listed above.

[¶5] Attached are the easements currently encumbering these properties based on the information we have.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 3 day of June, 2024 at Bismarck, ND, United States.

RIGHT-OF-WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that the undersigned John Beechhold

and Frances Beechhold, his wife for a good and valuable consideration, the receipt whereof is hereby acknowledged, does hereby grant unto the

Oliver-Mercer Electric Cooperative, Inc.

a corporation, whose post office address is Hazen, N. Dak. North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the county of Mercer, State of North Dakota and more partic-

ularly described as follows:

NE $\frac{1}{4}$ , S $\frac{1}{2}$ , of Sec. 27; NW $\frac{1}{4}$ , NE $\frac{1}{4}$ SW $\frac{1}{4}$  of Sec 34, all in Twp 141 Rgs 88.

and to place, construct, operate, repair, maintain, relocate and replace thereon and in or upon all streets, roads or highways abutting said lands an electric transmission or distribution line or system, and to cut and trim trees and shrubbery to the extent necessary to keep them clear of said electric line or system and to cut down from time to time all dead, weak, leaning or dangerous trees that are tall enough to strike the wires in falling.

In granting this easement it is understood that at pole locations, only a single pole and arrangement will be used; and that the location of the pole will be such as to form the least possible interference to farm operations, so long as it does not materially increase the cost of construction.

The undersigned covenants that he is the owner of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

none

It is further understood that, whenever necessary, words in this instrument in the singular shall be construed to read in the plural and that words used in the masculine gender shall be construed to read in the feminine.

IN WITNESS WHEREOF, the undersigned have set their hand and seals this 23rd day of March, 1945.

Signed, sealed and delivered in the presence of:

John Beechhold

**MEMORANDUM OF WIND PROJECT OPTION AGREEMENT**

THIS MEMORANDUM OF WIND PROJECT OPTION AGREEMENT (this "Memorandum") is made, dated and effective as of July 10, 2018 (the "Effective Date"), between Michael Haupt and Bonnie Haupt, husband and wife ("Owner"), and Glen Ullin Energy Center, LLC, a Delaware limited liability company ("Grantee"), in light of the following facts and circumstances:

**RECITALS:**

WHEREAS, Owner and Grantee have entered a Wind Project Option Agreement dated as of the Effective Date with respect to property more specifically described herein for wind energy purposes (as it may be hereinafter amended, restated or supplemented from time to time, the "Option Agreement"); and

WHEREAS, Owner and Grantee desire to set forth certain terms and conditions of the Option Agreement in a manner suitable for recording in the Public Records of Mercer County, North Dakota, in order to provide record notice of the Option Agreement and Grantee's rights in and to the land subject to the Option Agreement, as provided herein.

NOW, THEREFORE, in consideration of mutual covenants contained in the Option Agreement and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree and stipulate as follows:

1. Terms of Option Agreement Incorporated. All of the terms, conditions, provisions and covenants of the Option Agreement are hereby incorporated into this Memorandum by

reference as though fully set forth herein, and the Option Agreement and this Memorandum shall be deemed to constitute a single instrument or document. Should there be any inconsistency between the terms of this Memorandum and the Option Agreement, the terms of the Option Agreement shall prevail.

2. Description of Property. The land subject to the Option Agreement is described on Exhibit A attached hereto, and by this reference made a part hereof (the "Property").

3. Grant of Option. Owner grants and conveys and warrants to Grantee an option for an easement for the purposes described in the Option Agreement and, if exercised the Wind Project Easement Agreement ("Easement Agreement") attached to the Option Agreement.

4. Term of Option Agreement. The term of the Option Agreement shall be Five (5) years (the "Option Term"), unless earlier terminated by Grantee. Grantee may terminate this Option at any time upon thirty (30) days' written notice to Owner.

5. Names and Addresses of Parties. The names and addresses of the parties to the Option Agreement are as follows:

OWNER:

Michael & Bonnie Haupt  
5631 Apple Creek Drive  
Bismarck, ND 58504

GRANTEE:

Glen Ullin Energy Center, LLC  
30 W. Superior St.  
Duluth, MN 55802

6. Successors and Assigns. The terms of this Memorandum and the Option Agreement are covenants running with the land and inure to the benefit of, and are binding upon, the parties and their respective successors and assigns, including all subsequent owners of all or any portion of the Property. References to Owner and Grantee include their respective successors and assigns. References to the Option Agreement includes any amendments thereto.

7. Miscellaneous. This Memorandum is executed for the purpose of recording in the Public Records of Mercer County, North Dakota, in order to provide public record notice of the Option Agreement. The entire Option Agreement is hereby incorporated into this Memorandum by reference. Notwithstanding anything to the contrary contained herein, the provisions of this Memorandum do not in any way alter, amend, supplement, change or affect the terms, covenants or conditions of the Option Agreement, all of which terms, covenants and conditions shall remain in full force and effect. In the event of any conflict between the terms of this Memorandum and the Option Agreement, the terms of the Option Agreement shall prevail. This instrument may for convenience be executed in any number of original counterparts, each of which shall be an original and all of which taken together shall constitute one instrument.

IN WITNESS WHEREOF, Owner and Grantee, acting through its duly authorized representative, have made and entered into this Memorandum as of the Effective Date.

# West River Telecommunications Right-of-Way Easement

In Computer [ ]

WRT# [ ]

County# [ ]

W.O.# 96-111

We the undersigned, (whether one or more) **Milton H Flemmer**, Grantor(s), do hereby grant and convey unto **West River Telecommunications Cooperative**, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O. Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, repair, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, and other appurtenances, upon, over and under the land which the undersigned owns or in which the undersigned has any interest in the County of **Mercer**, State of **North Dakota**, and more particularly described as follows:

## E/2 of Section 35, Township 141, Range 88 Less ND Highway ROW

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots brush and other obstructions from the surface and subsurface of said strip of land. The boundary of said strip shall be a line parallel to and 25 feet either side of the first cable laid on the land of the undersigned or on adjacent lands. The undersigned for himself, his heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described premises at the Cooperative's expense, shall remain the property of the Cooperative, removable at the option of the Cooperative. The undersigned agrees to this easement with the understanding the Grantor, his heirs, executors, administrators, successors, and assigns, may continue to have access to and use of the easement area in any manner consistent with the rights herein granted to the Cooperative, and that the Cooperative will restore the said strip to as near as reasonable to the pre-plowed condition, and that the Cooperative will erect no buildings on said strip.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

Access is hereby granted for a state or federal historical survey of the cable route, should one be required, unless checked. Access denied ☐

IN WITNESS WHEREOF, this instrument has been executed by the undersigned this the 29 day of April, 1996.

Commencing at the Southeast Section corner of said Section 35; thence N88°59'43"W along the south section line of said Section 35, a distance of 1519.95 feet to the Point of Beginning; thence N00°22'55"E, a distance of 883.28 feet; thence N10°54'15"E, a distance of 49.62 feet; thence N19°34'06"E, a distance of 93.19 feet; thence N12°28'11"E, a distance of 50.86 feet; thence N26°53'07"W, a distance of 84.38 feet; thence N12°42'49"W, a distance of 55.64 feet; thence N00°07'44"W, a distance of 121.45 feet; thence N00°41'06"E, a distance of 1318.50 feet to the east/west quarter line of said Section 35 and thus terminating, said ending point being located N89°00'25"W along said quarter line, a distance of 1542.10 feet from the East Quarter Corner of said Section 35. The centerline is 2,656.92 feet or 161.03 rods long, and the easement area contains 2.01 acres, more or less. The easement area is further described and illustrated in Exhibits "A1-A2" which are attached to and are a part of this easement.

1. The Potable Water Pipeline shall be built only on the centerline as described above. GRANTEE may also temporarily use an additional 17.0 feet of right-of-way on the working side of the Potable Water Pipeline as a construction right-of-way. This construction right-of-way shall be subject to the topsoil reservation and reclamation provisions of this easement and must be abandoned upon the completion of construction and reclamation.
2. The top of the Potable Water Pipeline must be buried at least 72 inches below the ground's surface.
3. GRANTEE may install the following described appurtenance(s) upon the surface or at a depth less than 72 inches; (NA). For this/these additional appurtenance(s), GRANTEE has paid (NA) as further consideration. GRANTEE shall, when necessary, protect all above-ground appurtenances with a fence adequate to prevent livestock access and shall paint all above ground structures, except wire fences, anchors, guy wires, steel towers, and wood poles, with earth tone colors.
4. If construction of the Potable Water Pipeline within the easement area, is not completed within two (2) years after GRANTOR signs this easement, this easement automatically terminates.
5. For the initial construction of the Potable Water Pipeline, GRANTEE shall pay for labor and new materials for any fences or other improvements owned by the GRANTOR, that are moved or damaged by construction, operation, maintenance, or removal of the Potable Water Pipeline, and shall notify the surface GRANTOR of the construction schedule at least one week before construction within the easement area.
6. GRANTEE, or its agent, shall have a legible copy of this easement with them on-site for reference during construction, operation, maintenance or reclamation and shall present the copy upon GRANTOR's request.
7. This easement is subject to all of the GRANTOR's existing rights and privileges.
8. If, prior to or during construction, archeological or paleontological items are discovered or such items are disturbed, GRANTEE shall cease construction activities immediately. GRANTEE shall then promptly notify GRANTOR and must not resume construction until written approval is given by GRANTOR.

9. GRANTEE shall, prior to construction, maintenance or removal, reserve the top 12 inches of soil from areas subject to topsoil and subsoil mixing. The reserved soil must be stockpiled to minimize wind and water erosion. Upon completion of construction, maintenance, or removal, GRANTEE shall promptly reclaim the disturbed area. The disturbed area must be re-contoured to conform to the adjacent natural topography, rocks exposed by excavation must be hauled off the property or piled on one common pile within the easement area. The reserved soil must be evenly re-spread over the disturbed area, and the entire disturbed area must be re-vegetated with a mixture of native perennial grasses on the native grassland and alfalfa on the hayland, as shown in Exhibit "B". Reclamation is not complete until the activities described in this section are complete and the GRANTOR has approved completion in writing to GRANTEE.
10. GRANTEE shall implement reasonable measures to prevent accelerated erosion. If an erosion problem develops, GRANTEE shall promptly take the necessary actions to correct it and shall repair any erosion damage.
11. GRANTEE shall not discharge oil, gas liquids, salt water, or any other hazardous liquids or toxic substances onto the right-of-way or land adjacent to the right-of-way. All discharges of oil, gas liquids, salt water, or other hazardous liquids or toxic substances shall be stopped as soon as possible after discovery and acted upon immediately to halt movement of such discharges. Any such discharges shall be reported immediately to the GRANTOR. The GRANTEE shall then restore the affected area as closely as possible to its original condition.
12. GRANTEE shall control all noxious weeds in the easement area.
13. GRANTEE may cut or trim trees and shrubs, but only to the extent they interfere with or endanger the construction, operation, maintenance, or removal of the Potable Water Pipeline.
14. GRANTEE shall maintain the natural water flow and drainage.
15. GRANTEE shall take necessary precautions to prevent fires. In the event of a fire caused by the GRANTEE or its agent, GRANTEE shall compensate the GRANTOR and GRANTOR's surface lessee(s) for any losses due to the fire.
16. GRANTEE shall conduct all activities associated with the Potable Water Pipeline in a manner that avoids the degradation of air, land, and water quality and that protects the area's visual resources.
17. GRANTOR reserves the right to use the easement area and to allow others to use the easement area for purposes compatible with GRANTEE's use. If someone other than GRANTOR uses the easement area in a manner inconsistent with GRANTEE's use, GRANTOR is not liable or responsible.
18. Through this easement, GRANTEE is not acquiring any subsurface mineral interest. If any subsurface mineral interest is excluded from mining or development because of the presence of this easement or the Potable Water Pipeline, or if the location of the easement or Potable Water Pipeline interferes with the mining or development of subsurface mineral interests outside of the easement area, GRANTOR will give GRANTEE at least sixty days' written notice of the conflict between this easement and GRANTOR's right to mine and develop subsurface interests. At the end of the sixty-day period, GRANTEE must either pay GRANTOR the amount of lost royalties for the damages suffered because of GRANTOR's inability to mine or develop subsurface mineral interests, or GRANTEE must agree to relocate the easement and the Potable Water Pipeline. If GRANTEE selects relocation, this easement will be revised to describe the easement's new location and GRANTEE will move all structures and other physical features of the easement to the new location. Relocation does not entitle GRANTOR to additional compensation, but GRANTEE must bear all relocation costs. GRANTEE must promptly complete relocation.
19. Any fixtures, structures, installations or facilities constructed or installed by GRANTEE, are the property of GRANTEE and may be removed by GRANTEE at any time.

**EASEMENT: Potable Water Pipeline**

Page 3

20. GRANTEE shall remove all improvements from the easement area if the easement is abandoned or terminated, unless authorized to do otherwise in writing by GRANTOR.
21. This easement shall be a covenant running with the land and shall be binding on the heirs, successors, agents, and assigns of the parties.
22. This easement is subject to all existing easements and does not supersede any rights previously granted.
23. GRANTOR neither warrants nor agrees to defend title to the easement area.

Dated this 14<sup>th</sup> day of July, 2015, at Bismarck, North Dakota.

**Native Grass Seeding Specifications**

<u>Species</u>	<u>lbs.</u> <u>PLS*/acre</u>
Western wheatgrass	8
Slender wheatgrass	5
Green needlegrass	4
Side-oats grama	<u>2</u>
	19

\*PLS - Pure Live Seed (based on 50 PLS/sq. feet)

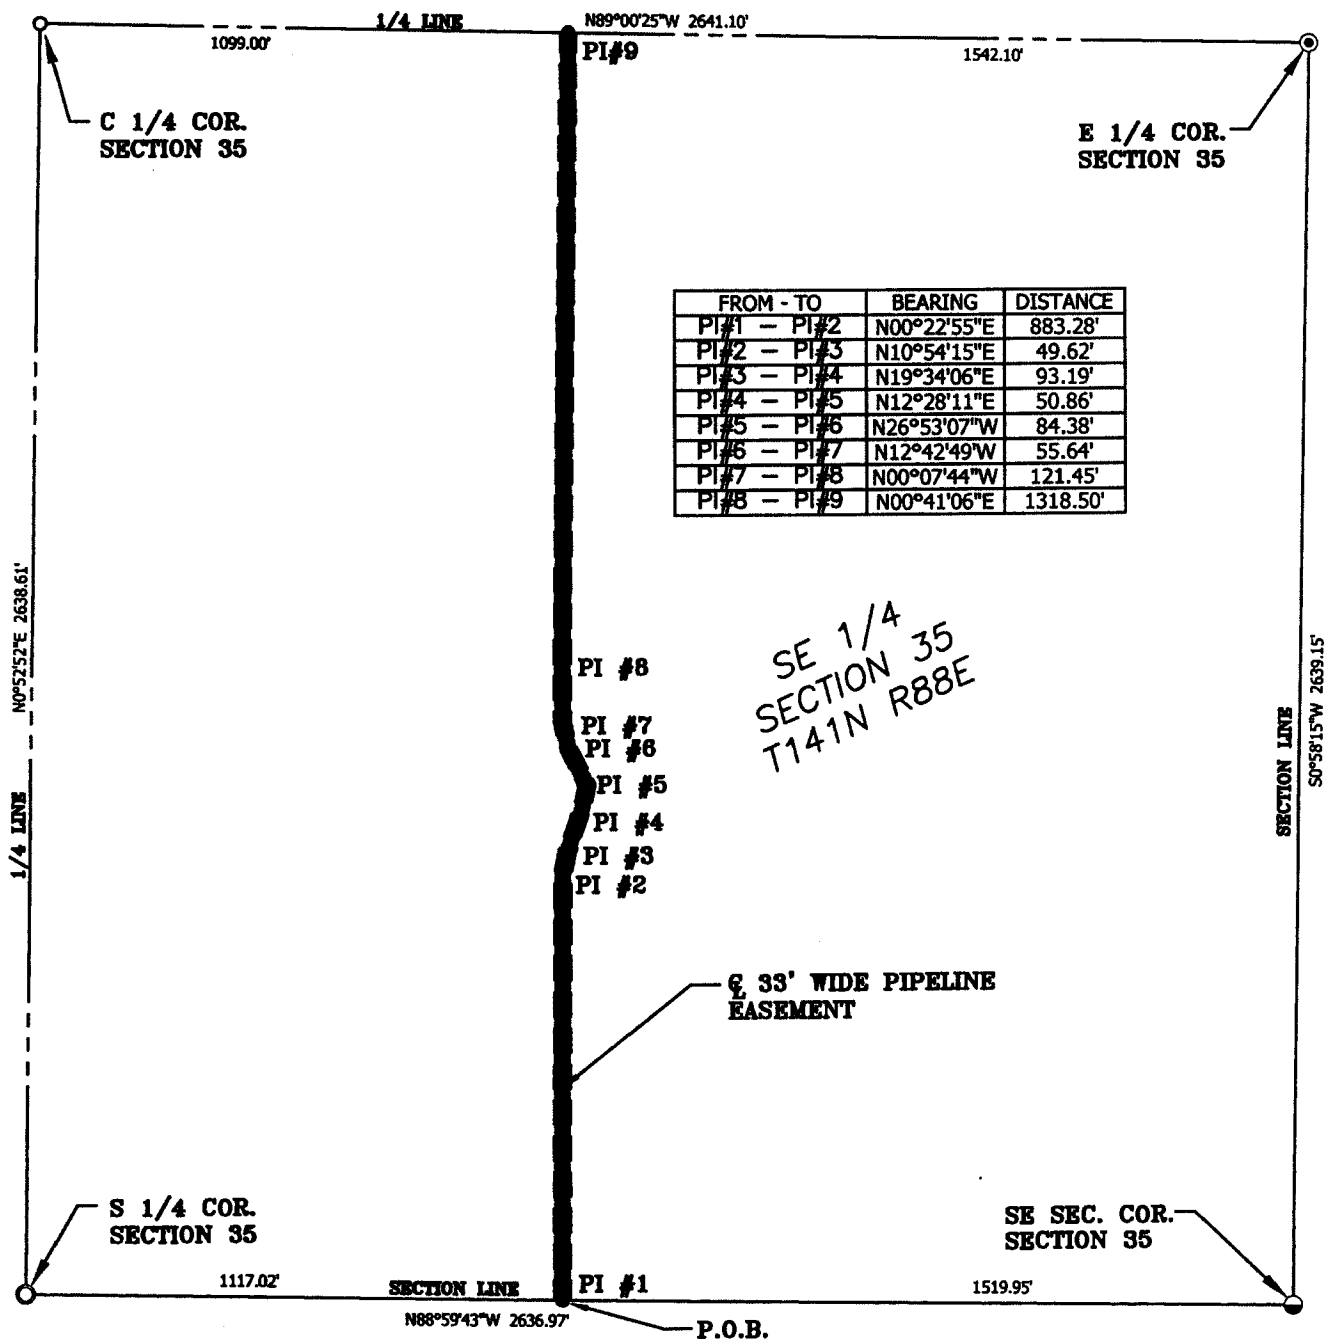

1. The seed bed should be firmly packed (footprints left in the soil should be less than 1/2 inch deep).
2. An early spring seeding (before May 24th) is preferred. A dormant fall seeding (after October 20th) is acceptable.
3. A cover crop of oats at 10 lbs. PLS/acre must be seeded on the disturbed area.
4. A drill designed specifically for native grass seeding will give the best seeding results. The seed should be planted at a depth of 1/2 to 1 inch. Precaution must be taken not to plant the seed too deeply in the soil or poor germination will result.
5. On areas where equipment cannot be used, broadcast seed and rake or drag to cover seed. Where seed is broadcast, double the seeding rate.
6. Use only North Dakota certified seed.

**Caution:** Be sure to clean out the drill before seeding to avoid any contamination with smooth brome grass or crested wheatgrass that may remain in the drill from previous use on private land. These are invasive grasses in native prairie and are not allowed on school trust lands. Contamination with or use of crested wheatgrass or smooth brome will result in the applicant being required to spray out the grass and reseed with the above native grass seed mixture. Sweet clover and alfalfa are also not allowed – only the above native grass seed mixture may be used for revegetation on school trust land.

**Alfalfa-Hayland Seeding: Rate 8 lbs. PLS per Acre**

SURVEYOR'S CERTIFICATE

I, Bruce P. Zelmer, a Professional Land Surveyor in and for the State of North Dakota, do hereby certify that at the request of the Michael Haupt, did complete a survey for the purpose of establishing the permanent pipeline easement located in Southeast Quarter (SE 1/4) of Section 35, Township 141 North, Range 88 West of the 5th P.M., Mercer County, North Dakota, said easement being comprised of a strip of land 33 feet in width, lying 16.5 feet on each side of the following described centerline:

**LEGAL DESCRIPTION OF PERMANENT EASEMENT:** Commencing at the Southeast Section corner of said Section 35; thence N88°59'43"W along the south section line of said Section 35, a distance of 1519.95 feet to the Point of Beginning; thence N00°22'55"E, a distance of 883.28 feet; thence N10°54'15"E, a distance of 49.62 feet; thence N19°34'06"E, a distance of 93.19 feet; thence N12°28'11"E, a distance of 50.86 feet; thence N26°53'07"W, a distance of 84.38 feet; thence N12°42'49"W, a distance of 55.64 feet; thence N00°07'44"W, a distance of 121.45 feet; thence N00°41'06"E, a distance of 1318.50 feet to the east/west quarter line of said Section 35 and thus terminating, said ending point being located N89°00'25"W along said quarter line, a distance of 1542.10 feet from the East Quarter Corner of said Section 35 and containing 2.01 acres, more or less.

This Certificate is to the best of my knowledge and belief a true description of said survey. I hereby certify that I have executed this document this 11<sup>th</sup> day of JANUARY, 2017.

## RIGHT OF WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that we the undersigned, (Whether one or more) Mike Bode & Elizabeth Bode

~~(underrise)~~ (husband and wife), for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver Mercer Electric Cooperative, Inc., a cooperative corporation (hereinafter called the "Cooperative"), whose post office address is Wahpeton, North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the County of McRae, State of North Dakota, and more particularly described as follows:

A tract of land approximately ----- acres in area, located

----- miles in a ----- direction from the

town of -----, and further described as

being in the

EA Section 36 Township 14N Range 2E

----- Section ----- Township ----- Range -----

----- Section ----- Township ----- Range -----

----- Section ----- Township ----- Range -----

and to contract, operate and maintain on the above described lands, and/or in or upon all streets, roads or highways abutting said lands, an electric transmission or distribution line or system, and to cut and trim trees and shrubbery that may interfere with or threaten to endanger the operation and maintenance of said line or system.

The undersigned agree that all poles, wires, and other facilities, including any main service entrance equipment, installed on the above-described lands at the Cooperative's expense shall remain the property of the Cooperative, removable at the option of the Cooperative, upon the termination of service to or on said lands.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

IN WITNESS WHEREOF, the undersigned have set their hands and seals this

RIGHT OF WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that for and in consideration of a good and valuable consideration, the receipt whereof is hereby acknowledged, Milton D. Plummer and \_\_\_\_\_, his wife, for themselves, their heirs and assigns, hereby grant to Northwestern Bell Telephone Company, a corporation, and its successors and assigns, a perpetual easement and right of way to construct, operate, maintain, replace and enlarge buried or underground telephone and communications lines, cables, wires and conduits, manholes, drains and splicing boxes, surface testing terminals, markers and other appurtenances under, through, across and upon the following described property in the County of Mercer and State of W.D., to wit:

E/2 Sec. 35 T-141N R88W.

consisting of that strip of land one foot wider (6 inches on each side) than that amount of land required by the telephone cable and its associated plant which the Telephone Company shall bury or place underground in or on the real property described above, in, along or near the following route across the property described above:

communication line to be buried in a north to south.  
direction adjacent to and west of Hwy.

together with the right of ingress and egress for the purpose of exercising the rights herein granted and the right to clear and keep cleared all trees, roots, branches and other obstructions within seven feet of any telephone plant placed in or on this right of way.

The undersigned, for themselves, their heirs and assigns, hereby covenant that they have good and lawful right to grant this easement and right of way and that no structure shall be erected or permitted on or over the telephone plant to be put in or on the property described above.

WITNESS their hands and seal this 11 day of July, 1969.

## EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated the 4 day of March, 2016, is between **Bonnie Haupt and Michael Haupt, her husband, as joint tenants with right of survivorship, and not as tenants in common**, whose mailing address is 531 Apple Creek Drive, Bismarck, ND 58504, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC, whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee").

For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby sells and conveys unto Grantee:

- (i) a ninety-nine year fifty foot (50') wide non-exclusive pipeline easement ("Pipeline Easement"), as more particularly described below,
- (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and
- (iii) an easement for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement") as specifically indicated on the attached Exhibit A.

The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements" or "right-of-way") are being sold and conveyed from Grantor to Grantee for the purposes of constructing, maintaining, repairing, and removing at will one steel crude oil transmission pipeline not to exceed thirty inches (30") in diameter, which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 147.88 acres of land, more or less, being all of the SE¼ of Section 35, Township 141 North, Range 88 West, Mercer County, North Dakota, more particularly described in Warranty Deed dated May 19, 1998 from Milton Flemmer, a/k/a Milton H. Flemmer and Anita Flemmer, a/k/a Anita B. Flemmer, husband and wife, to Bonnie Haupt and Michael Haupt, her husband, as joint tenants with right of survivorship, and not as tenants in common, recorded under Document No. 165421, Deed Records, Mercer County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is an image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet (100') in width exclusive of the Pipeline Easement, and any additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will:

- (i) show the definite location of the installed pipeline as determined by an as-built survey, and
- (ii) provide the legal description of the definite location of the Pipeline Easement and the Access Easement based on a public land survey corner as defined by N.D.C.C. § 47-20.1-02(7).

Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

Except for pipeline markers and cathodic protection test leads, all other pipeline fittings, cathodic protection equipment, pig launchers and traps, and any other equipment, facilities, or appurtenances that are located above-ground must be consented to in writing by the Grantor. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when practicable to do so.

The rights of the parties to this Easement shall be subject to the following terms and conditions:

## **SECTION 1. GENERAL**

1.1 Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet (50') in width. Generally, the boundary of the pipeline easement will be located within twenty-five feet (25') of the pipeline centerline as it is approximately shown in Exhibit A, unless otherwise agreed to in writing by Grantor which, such agreement will not be unreasonably withheld.

1.2 The Temporary Construction Easement or workspace will be used to construct the single pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area, subject to the limitations on above-ground appurtenances and facilities indicated above. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement on Grantor's property, except that if Grantee has conducted any operations or construction which have disturbed the surface of Grantor's land, then Grantee will remain obligated to fulfill all reclamation and remediation as described herein, and will remain liable for damages and indemnification as described herein and will have access to and the ability to reclaim and remediate any such disturbance until such time as the land is reclaimed or remediated. The Grantee will notify the Grantor of the date construction will begin in writing 30 days prior to the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the end of the eighteen (18) month period, then the Temporary Construction Easement shall immediately terminate.

1.3 Grantee's Easement is subject to Grantor's existing rights and privileges. Grantor reserves the right to use and enjoy Grantee's Right-of-Way and to allow Grantor's invitees, employees, and agents to use any part of it so long as such use does not unreasonably interfere with Grantee's rights as specified in this Easement. Subject to those rights, Grantee shall allow any surface use of the Right-of-Way by the Grantor(s), their permittees, and lessees so long as such use does not interfere with Grantee's rights and no permanent or temporary structure(s), above or below ground are located within 25 feet of the pipeline centerline. Grantor may use the Right-of-Way for any and all purposes not inconsistent with the purposes set forth in this Easement. Without limiting the foregoing, Grantor's uses may include but shall not be limited to using the Right-of-Way for agricultural and open spaces. Grantor is permitted, after review by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Right-of-Way which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install water, sewer, gas, electric, cable TV, telephone or other utility lines across the Right-of-Way at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing's, including depth separation limits of at least 24-inches and other protective requirements as established by statute, regulation or industry best practice are met by Grantor. The use of the Right-of-Way by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Right-of-Way. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed. Grantor may not use any part of the Right-of-Way if such use may damage, destroy, injure, and/or interfere with the Grantee's use of the Right-of-Way for the purposes for which the permanent easement is being sought by Grantee. Grantor is not permitted to conduct any of the following activities on the Right-of-Way without the written permission of Grantee: (1) construct any temporary or permanent building or site improvements; (2) drill or operate any well; (3) remove soil or change the grade or slope;

(4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which this Easement is being acquired may be placed, erected, installed or permitted upon the Right-of-Way without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall be eliminated within thirty days of receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere with the purposes for which the Easement is conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Right-of-Way, may be removed by Grantee without liability to Grantor for damages if Grantee first gives written notice to Grantor and Grantor does not remove the improvement within thirty days.

1.4 If Grantee has not commenced construction of its pipeline on this easement within two (2) years of receipt of all permits necessary for construction of the pipeline in North Dakota, then the easement will become void.

1.5 Prior to construction of the pipeline, Grantee shall contact Grantor to review the timing of construction and discuss site-specific issues and implementation of mitigation and rehabilitation measures in accordance with this Pipeline Easement. Grantee shall review the location of any above-ground structures, other than pipeline markers and cathodic protection test leads, that will be located on the premises and to which Grantor has consented prior to installing such above-ground structures.

1.6 The Easement Agreement may not be recorded without the written consent of both Grantor and Grantee. Grantor and Grantee agree to execute a memorandum version of the Easement Agreement, to be prepared by Grantee, which shall include a plat depicting the location of the Right-of Way and shall be recorded immediately upon execution.

## **SECTION 2. WEED CONTROL**

2.1 Prior to construction activities, Grantee will document, to the best of its ability and as reasonably able to depending upon time of year of construction and assuming the plants germinate and grow during the year of construction, all noxious and invasive weeds along the pipeline or access road easements including those identified by the North Dakota Department of Agriculture, and county and city weed boards, including the following: Russian knapweed (*Acroptilon repens*), absinth wormwood (*Artemisia absinthium*), musk thistle (*Carduus nutans*), diffuse knapweed (*Centaurea diffusa*), yellow toadflax (*Linaria vulgaris*), spotted knapweed (*Centaurea maculosa*), Canada thistle (*Cirsium arvense*), leafy spurge (*Euphorbia esula*), dalmatian toadflax (*Linaria dalmatica*), purple loosestrife (*Lythrum salicaria*), and saltcedar (*Tamarix chinensis*), black henbane (*Hyoscyamus niger*), common burdock (*Arctium minus*), houndstongue (*Hieracium cynoglossoides*), halogeton (*Halogeton glomeratus*), baby's breath (*Gypsophila paniculata*), common tansy (*Tanacetum vulgare*), houndstongue (*Hieracium cynoglossoides*), cheatgrass (*Bromus tectorum*), and Japanese brome (*Bromus japonicas*). Grantee does not warrant or guarantee its documentation will be an all-inclusive list or identification of all noxious and invasive weeds that could be located within the pipeline and road easements.

2.2 Grantee will be liable for the introduction of any noxious or invasive weeds caused by Grantee onto Grantor's property and will indemnify Grantor for any violations, enforcement actions, and mitigation requirements imposed by any entity under N.D.C.C. ch. 4.1-47.

2.3 Grantee shall control, to the best of its ability, all noxious weeds resulting from Grantee's activities in the easement areas, and will take steps to control the introduction and spread of weeds, including but not limited to the following:

- a. The equipment will be inspected by Grantee or its contractor to verify that it is adequately clean of soil and debris capable of transporting weed propagules prior to commencing work on the project.

- b. Areas of noxious and invasive weed infestation along the right-of-way or in other construction areas will be marked by Grantee with staking, flagging, and/or signs prior to clearing activities. To the extent reasonably practicable, all viable propagules (roots, seed, and stems) from noxious and invasive weeds will be destroyed by herbicide application or physical destruction prior to the construction activity.
- c. Cleared vegetation and segregated topsoil from areas of weed infestation will be placed adjacent to the areas from which they were removed.
- d. Signs will be posted to identify the stockpiles or reaches of stockpiles containing noxious weed material or material from the species listed in Section 2.1. During reclamation, the materials will be returned to the areas from which they were obtained.
- e. Materials used for erosion control (e.g., hay bales or straw mulch) will be certified as weed-free.

2.4 Prior to re-seeding, Grantee will control all weeds in the right-of-way by cultivation, disking or herbicide applications. After seeding is completed, Grantee will monitor for and maintain the rights-of-way to control any identified noxious or invasive weeds resulting from Grantee's activities prior to seed maturation for a minimum of two (2) years following construction activities, unless otherwise agreed to by Grantor.

### **SECTION 3. SOIL RESERVATION**

3.1 All topsoil in pasture land, range land, grassland, and crop land will be stripped to the first layer of color change as determined by a qualified individual and segregated from subsoils (except as indicated in subsection b below).

- a. Except as stated in section 3.1(b), all topsoil will be stripped to the first layer of color change as determined by a qualified individual, and color change is to be understood in the context of the Munsell soil color chart colors.
- b. For the specific locations where the first color change of soil is less than 8-inches and as agreed to by Grantor and Grantee in writing and prior to construction commencement, Grantee agrees to strip topsoil and subsoil together to a depth of eight inches (8") and to segregate and preserve this topsoil and subsoil together. Mixing of subsoil with topsoil will be allowed only for the soil types specified in section 3.1(b)(i-v), and only as specified in this section, unless otherwise agreed to in writing by Grantor. If the soil types listed in this section are present on Grantor's land, Grantee will conduct a pre-construction meeting or phone call with Grantor to determine whether topsoil and subsoil should be mixed as indicated above.
  - i. Dunn County Saline Mapping Units
    - 1) E0454B – Daglum-Rhoades complex, 0 to 6 percent slopes
    - 2) E0502A – Vanda silty clay, 0 to 2 percent slopes
    - 3) E0515B – Rhoades-Daglum complex, 0 to 6 percent slopes
    - 4) E0557B – Dogtooth-Janesburg silt loams, saline, 0 to 6 percent slopes
    - 5) E-559B – Dogtooth-Janesburg silt loams, 0 to 6 percent slopes
    - 6) E0561D – Dogtooth-Janesburg complex, 6 to 15 percent slopes
    - 7) E0563B – Janesburg-Dogtooth silt loams, 0 to 2 percent slopes
    - 8) E0701F – Dogtooth-Janesburg-Cabba complex, 0 to 3 percent slopes
    - 9) E0727A – Barkof-Janesburg complex, 0 to 3 percent slopes
    - 10) E0727B – Barkoff-Janesburg complex, 0 to 3 percent slopes

- 11) E-0727C – Barkoff-Janesburg complex 6 to 9 percent slopes
- 12) E1009A – Moreau-Barkoff silty clays, 0 to 3 percent slopes
- 13) E1009B – Moreau-Barkoff silty clays, 3 to 6 percent slopes
- 14) E1009C – Moreau-Barkoff silty clays, 6 to 9 percent slopes
- 15) E3021F – Dogtooth-Janesburg-Brandenburg complex, 9 to 35 percent slopes
- 16) E3247 – Lambert-Vanda high precipitation-Rhoades, barren complex, 0 to 9 percent slopes
- 17) E4005A – Harriet loam, 0 to 2 percent slopes, occasionally flooded
- 18) E4180A – Korell-Daglum-Fluvaquents complex, channeled, 0 to 2 percent slopes, frequently flooded
- 19) E4279A – Heil silty clay loam, 0 to 1 percent slopes
- 20) E4767A – Regan silt loam, saline, 0 to 2 percent slopes, occasionally flooded
- 21) L0502A – Vanda silty clay loam, 0 to 2 percent slopes
- 22) L0516B – Gerda-Maltese complex, 0 to 6 percent slopes
- 23) L0935B – Abor silty clay, 3 to 6 percent slopes
- 24) L0937C Abor-Yawdim silty clays, 6 to 9 percent slopes
- 25) L2307F – Rhame-Bullock-Kremlin complex, 9 to 35 percent slopes
- 26) L2311E – Scairt-Maltese-Boxwell complex, 2 to 25 percent slopes
- 27) L2313D – Boxwell-Scairt-Maltese complex, 6 to 15 percent slopes
- 28) L4009A – Harriet loam, low precipitation, 0 to 2 percent slopes, occasionally flooded

ii. McKenzie County Saline Mapping Units

- 1) E0447B – Daglum-Belfield complex, 0 to 6 percent slopes
- 2) E0454B – Daglum-Rhoades complex, 0 to 6 percent slopes
- 3) E0515B – Rhoades-Daglum complex, 0 to 6 percent slopes
- 4) E0559B – Dogtooth-Janesburg silt loams, 0 to 6 percent slopes
- 5) E0561D – Dogtooth-Janesburg complex, 6 to 15 percent slopes
- 6) E0563B – Janesburg-Dogtooth silt loams, 0 to 6 percent slopes
- 7) E0617B – Belfield-Salvage-Daglum complex, 2 to 6 percent slopes
- 8) E0701F – Dogtooth-Janesburg-Cabba complex, 6 to 35 percent slopes
- 9) E1228B – Desert-Janesburg-Ekalaka complex, 0 to 6 percent slopes
- 10) E3013D – Bradenburg-Searing-Dogtooth complex, 6 to 15 percent slopes (only Dogtooth Saline)
- 11) E3013F – Bradenburg-Cabba-Dogtooth complex, 15 to 70 percent slopes (only Dogtooth Saline)
- 12) E3247C – Lambert-Vada, high precipitation-Rhoades, barren complex, 0 to 9 percent slopes (only Vanda Saline)
- 13) E4005A – Harriet loam, 0 to 2 percent slopes, occasionally flooded
- 14) E4729A – Heil silty clay loam, 0 to 1 percent slopes
- 15) E4767A – Regan silt loam, saline, 0 to 2 percent slopes, occasionally flooded
- 16) L2311E – Scairt-Maltese-Boxwell complex, 2 to 25 percent slopes
- 17) L2313D – Boxwell-Scairt-Maltese complex, 6 to 15 percent slopes (only Scairt Saline)

- 18) L3015D – Gerda-Kirby complex, 2 to 15 percent slopes
- 19) L3247C – Patent, occasionally flooded-Vanda-Gerda, barren complex, 0 to 9 percent slopes
- 20) L3251B – Kremlin-Ethridge-Gerda complex 0 to 6 percent slopes (only Gerda Saline)
- 21) L4009A – Harriet loam, low precipitation, 0 to 2 percent slopes, occasionally flooded

iii. Mercer County Saline Mapping Units

- 1) E0415A – Belfield-Daglum complex, 0 to 2 percent slopes
- 2) E0454B – Daglum-Rhoades complex, 0 to 6 percent slopes
- 3) E0454C – Daglum-Rhoades complex, 6 to 9 percent slopes
- 4) E0515B – Rhoades-Daglum complex, 0 to 6 percent slopes
- 5) E0515C – Rhoades-Daglum complex, 6 to 9 percent slopes
- 6) E0617B – Belfield-Salvage-Daglum complex, 2 to 6 percent slopes
- 7) E0701F – Dogtooth-Janesburg-Cabba complex, 6 to 35 percent slopes
- 8) E3247C – Lambert-Vanda, high precipitation-Rhoades, barren complex, 0 to 9 percent slopes
- 9) E4005A – Harriet loam, 0 to 2 percent slopes, occasionally flooded
- 10) E4101A – Belfield-Korell loams, 0 to 2 percent slopes, rarely flooded
- 11) E4181A – Korell-Rhoades-Daglum complex, 0 to 2 percent slopes, rarely flooded (only Rhoades-Daglum Saline)
- 12) E4729A – Heil silty clay loam, 0 to 1 percent slopes

iv. Morton County Saline Mapping Units

- 1) E0415A – Belfield-Daglum complex, 0 to 2 percent slopes
- 2) E0454B – Daglum-Rhoades complex, 0 to 6 percent slopes
- 3) E0454C – Daglum-Rhoades complex, 6 to 9 percent slopes
- 4) E0457C – Rhoades-Daglum-Ekalaka fine sandy loams, 0 to 9 percent slopes
- 5) E0515B – Rhoades-Daglum complex, 0 to 6 percent slopes
- 6) E0541C – Rhoades-Rhoades, barren-Daglum complex, 0 to 9 percent slopes
- 7) E0559B – Dogtooth-Janesburg silt loams, 0 to 6 percent slopes
- 8) E0701F – Dogtooth-Janesburg-Cabba complex, 6 to 35 percent slopes
- 9) E1227B – Desert-Ekalaka-Telfer complex, 0 to 6 percent slopes
- 10) E1239B – Ekalaka-Lakota fine sandy loams, 0 to 6 percent slopes
- 11) E1243C – Lakota-Ekalaka-Sham, high precipitation, gullied, occasionally flooded complex, 0 to 9 percent slopes
- 12) E1263D – Evridge-Whitebird fine sandy loams, 6 to 15 percent slopes
- 13) E4005A – Harriet loam, 0 to 2 percent slopes, occasionally flooded
- 14) E4181A – Korell-Rhoades-Daglum complex, 0 to 2 percent slopes, rarely flooded (only Rhoades-Daglum Saline)
- 15) E4729A – Heil silty clay loam, 0 to 1 percent slopes

v. Williams County Saline Mapping Units

- 1) 1871 – Vallery loam, saline, 0 to 1 percent slopes
- 2) 2270 – Harriet and Stirum soils, 0 to 2 percent slopes
- 3) 2345 – Daglum-Rhoades complex, 0 to 6 percent slopes

- 4) C23A – Vallers, saline-Parnell complex, 0 to 1 percent slopes
  - 5) C75A – Vallers loam, saline, 0 to 1 percent slopes
  - 6) C526B – Daglum-Rhoades silt loams, 2 to 6 percent slopes
  - 7) C580A – Harriet-Regan-Stirum complex, 0 to 2 percent slopes, occasionally flooded
  - 8) E4005A – Harriet loam, 0 to 2 percent slopes, occasionally flooded
- c. No subsoil will be placed on top of topsoil except as necessary for stripping and mixing of the soils listed in subsection b above.
  - d. Soils in mapping units identified by the NRCS Web Soil Survey as containing saline, sodic, or saline/sodic series components will not be mixed with non-saline, non-sodic, or non-saline/sodic series components.

#### **SECTION 4. RESTORATION, REVEGETATION, AND EROSION CONTROL**

4.1 Reseeding and stand establishment for native prairie will be considered successful when the following criteria are met:

- a. All construction easement areas have been restored to a minimum of 70 percent cover as compared to similarly situated and undisturbed adjacent land. The percent cover will be determined utilizing standard vegetation sampling techniques.

4.2 If these criteria are not met within five years of the date of reseeded, Grantor may give notice to Grantee that success has not been achieved and Grantor and Grantee will work cooperatively together to develop an alternate reseeding plan, of which Grantee will be responsible for any reasonable expenses incurred therefor. At any time when Grantee believes it has met the above-described criteria, it will notify Grantor and Grantor will have Grantor's third party inspectors verify Grantee's compliance.

4.3 For any permanent herbaceous plantings (hay land, pasture land, and native prairie), Grantor's property will be seeded in strict compliance with the specifications contained in the NRCS Herbaceous Vegetation Establishment Guide ("Guide") available at [http://efotg.sc.egov.usda.gov/references/public/ND/Herbaceous\\_Veg\\_Est\\_Guide.pdf](http://efotg.sc.egov.usda.gov/references/public/ND/Herbaceous_Veg_Est_Guide.pdf) (last updated April, 2015). Any areas where soil reclamation is not completed such that Grantee is able to comply with the planting deadlines contained in the Guide, Grantee will have erosion control measures applied as specified in Section 4.6 and will have an annual cover crop planted so that proper seeding can take place in the spring of the following year. The cover crop will be drilled cross-wise or zig-zag on the slopes. The cover crop seed mix shall be as follows:

- a. June: Two bushels of spring small grains per acre.
- b. July and August: Thirty pounds of Sudan grass per acre.
- c. September and October: Two bushels of winter wheat or winter rye per acre.

4.4 Soil productivity levels will be measured with reference to re-vegetation success. Re-vegetation on hay land, pasture land, and native prairie shall be considered successful if the density and cover of non-nuisance, desirable plant species is equal to or greater than similarly situated and undisturbed adjacent land. On cropland, re-vegetation shall be considered successful if crop yields are equal to adjacent undisturbed portions of the same field. On hay land, the land will be re-vegetated with similar vegetation as compared to the undisturbed land within the same hay field, which could include an adapted variety of alfalfa at the rate of 5.5 PLS lb./acre, and a cover crop such as oats will be used as necessary to establish the alfalfa on the hay land, or as otherwise agreed to by Grantor. On native prairie, the land will be re-vegetated pursuant to the specifications contained in the Guide hereto with the seed mix specified in Section 9.5 of the Dakota Access, LLC Environmental Construction Plan unless a different, reasonable seed mix is attached hereto as an addendum.

4.5 Grantee will remove stones measuring 3 inches in diameter and larger from the top twelve (12) inches of topsoil. Said stones will be removed from the Premises entirely or moved to a location on the Premises consented to by Grantor in writing.

4.6 Erosion will be controlled according to a Storm Water Pollution Prevention Plan in its final approved form as filed with or approved by the North Dakota Public Service Commission. Following soil replacement, slopes having a length and steepness of slope (LS) factor of 1.0 or greater, as defined by NRCS, or a slope of 5% or greater, will have a blanket mulch, erosion nets or erosion control blankets, and straw wattles applied following soil reclamation. Slopes that are to be planted to permanent vegetative cover with an LS factor of 1.0 or higher that will not be seeded to grass/forbs within 30 days after soil replacement or that are not seeded to grass/forbs before June 1 (unless a different date is agreed to in writing by Grantor), will have a straw mulch cover of two tons per acre applied and anchored according to NRCS specifications for the Mulching-484 conservation practice found in Section IV of the NRCS Field Office Technical Guide (<http://efotg.sc.egov.usda.gov/>), followed by planting of temporary cover crops as listed in section 4.3. If detrimental erosion is occurring or likely to occur on the Premises, Grantee agrees to consult in good faith with Grantor or Grantor's inspector or other agent to address and mitigate the erosion.

## **SECTION 5. SOIL COMPACTION**

5.1 Grantee will test for and mitigate compaction. The Grantee will test topsoil and subsoil for compaction at regular intervals in lands disturbed by construction activities. The Grantee will conduct tests on the same soil type under similar moisture conditions in undisturbed and adjacent areas to approximate preconstruction conditions. The Grantee will use penetrometers or other appropriate devices to conduct tests. If compaction has a deleterious impact on productivity or revegetation success, Grantee will plow compacted areas in dry conditions with a paraplow or other deep tillage implement to achieve compaction equal to that on adjacent undisturbed lands. Grantee will plow the subsoil in dry conditions before replacing the segregated topsoil.

## **SECTION 6. CONSTRUCTION REQUIREMENTS**

6.1 Temporary Fencing. In areas where temporary fencing is necessary to keep livestock out of the easement areas (*i.e.* non-cultivated pasture land), Grantee shall install temporary fencing around the total easement areas (temporary, additional, and permanent) before commencement of construction, which fences shall remain until the entire easement area has been reclaimed. At the conclusion of reclamation activities, temporary fencing shall become the property of Grantor. Before construction of any fence by Grantee, Grantee will consult with Grantor as to the location of the fence and any gates along the easement areas. If Grantor chooses, Grantor may notify Grantee in writing that Grantor will install this fencing, and provide an estimate for one of the types of fences described below. Grantee will reimburse Grantor for the cost of the estimate, unless Grantee believes the estimate is unreasonable, in which case Grantee will obtain a reasonable estimate and reimburse that amount to Grantor.

- a. Unless otherwise agreed to in writing by Grantor and as long as Grantor supplies power to the fence, any fence installed by Grantee under this section will be reasonably similar to the two-wire power fence described in the NRCS spec sheet, which requires use of smooth, single-strand, 12.5 gauge high-tensile strength (170,000 psi, minimum), type III galvanized or better wire and a top wire (hot wire) at least 26 inches above ground line and the bottom wire (ground wire) 8 to 12 inches below the top wire. The bottom (ground) wire will be connected either directly to the negative side of the energizer or to the same grounding rod(s) as the energizer. In situations where the earth provides an adequate ground to complete the circuit, both wires may be energized. Tension on each wire shall be sufficient to maintain proper wire spacing between line posts. In-line strainers will be installed on each wire to maintain correct tension on each wire between all brace corners and gate assemblies. Tension springs may be used on each wire to maintain proper tension. In the absence of power, Grantee shall install a basic three strand barbed-wire fence using typical industry practices.

12 1/2 gauge red-brand barbed wire  
Minimum 5 1/2 foot steel t-post

6.2 Open Trench. Except where Grantee has installed temporary fencing, Grantee will limit the amount of time any trench is open on Grantor's property to twenty one (21) days from the time the trench is opened. Grantee is strictly liable for any cattle or other livestock killed or injured as a result of an open trench on the Subject Property.

6.3 Cover of Pipeline. Grantee shall install the pipeline with a minimum of forty-eight inches (48") of cover from the top of the pipe.

6.4 Integrity of Land and Services. Grantee shall unless otherwise negotiated with Grantor and agreed to in writing:

- a. Provide reasonable passage and land access for agricultural equipment during construction and servicing of the pipeline, and in no case shall Grantee entirely prevent access to any parcel of Grantor's land as a result of Grantee's construction activities;
- b. Supply temporary service in the event water or utility lines are interrupted and provide said temporary service before planned interruption or immediately after any interruption if the interruption is unplanned;
- c. Provide confirmation to Grantor that Grantee has contacted North Dakota One Call prior to any trenching activities;
- d. Install temporary gates at fence crossings at Grantor's reasonable request;
- e. Immediately provide temporary water to livestock where temporary fencing has removed livestock from their normal water supply;
- f. Immediately repair or replace any fences damaged by Grantee;
- g. Grantee agrees to provide training to its staff and contractors on the content of this Easement Agreement sufficient to ensure that Grantee's staff and contractors are aware of the provisions of the Easement Agreement as necessary for Grantee to fully comply with the Easement Agreement. Grantee will ensure that, to the extent necessary for Grantee to comply with this Easement Agreement, it will make its staff and contractors aware of the terms of the Easement Agreement.

## **SECTION 7. DRAINAGE AND SURFACE CONTOUR**

7.1 Grantee shall restore soils to pre-construction grade as reasonably practicable. Without limiting the foregoing statement, Grantee will ensure no ruts or ridges greater than four inches deep or high remain after post-construction grading.

7.2 Grantee shall repair and restore all surface drainage system functionality to pre-construction condition. Grantee shall cooperate with Grantor to accommodate planned surface drainage systems to the extent that plans are affected by the existence of Grantee's pipeline. Final contours of reconstructed surface drainage systems will be replaced so as to result in the same drainage slope and profile as existed prior to disturbance. Soil settling may occur for an extended period of time after disturbance within reconstructed surface drainage systems. All soil settling in the reconstructed drainage-way will be repaired so that no water will be backed up or retained in the drainage.

7.3 Grantee will excavate the trench so that the pipeline may be laid over or under drain tile with a minimum clearance of 12 inches. If drain tiles are cut during trenching, Grantee will: identify the location of the damaged tile at the trench and at both sides of the construction right-of-way; install a temporary flume to maintain drainage; cap the ends to prevent clogging drains with dirt or debris and; keep plugs in place until the damaged tile is repaired.

7.4 Before backfilling, Grantee will determine whether any drain tiles crossed during trenching were damaged during construction. Grantee will use a sewer rod or pipe snake to probe open ends of tiles and will repair any damaged tiles by inserting a competent support

around the tile to prevent settling. If damage is extensive, broken tile will be removed and replaced with new tile. Drain tiles damaged during construction must be repaired to their pre-construction condition. Grantee will backfill around drain tiles in lifts and compact each lift.

## **SECTION 8. WATER WELLS AND SURFACE WATERS**

8.1 In the event blasting is required, Grantee shall conduct pre-construction and post-construction certified water quality testing and yield testing and/or sampling of any water well registered with the North Dakota State Engineer or any other water well within 300 feet of the construction right-of-way. Regardless of blasting, Grantee will also conduct certified water quality and reasonable water quantity testing on any other surface waters such as dugouts, ponds, and creeks identified by Grantor and located within 150 feet of the construction right-of-way. Grantee shall analyze any damaged well or water supply system or surface water and perform necessary repairs and/or modifications to return it to its former capacity and quality. In the event that a private well or water supply system or surface water is damaged beyond repair due to Grantee's activities, Grantee will provide a temporary water source and will also replace the well or water source with one of equal or greater quality and quantity (and flow rate). The results of water quality and yield test reports shall be provided to Grantor free of charge. Grantee will also be responsible for any damage to groundwater caused by its operations.

## **SECTION 9. INDEMNIFICATION**

9.1 Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury or property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees. Grantee will hold Grantor harmless from any claim or liability or loss caused by trespassers or other third parties who are not the agents or invitees of Grantor. GRANTEE SHALL ALSO INDEMNIFY, DEFEND AND HOLD HARMLESS GRANTOR, GRANTOR'S HEIRS, SUCCESSORS, ASSIGNS, TRANSFEREES, EMPLOYEES, AGENTS, LESSEES, CONTRACTORS, SUBCONTRACTORS, AS WELL AS TRUSTEES, BENEFICIARIES, RELATIVES, PARTNERS, OFFICERS, DIRECTORS AND RELATED OR AFFILIATED ENTITIES FROM AND AGAINST ANY LOSS, LIABILITY, COST, EXPENSE OR CLAIM ARISING FROM THE INCURRING OF COSTS OF REQUIRED REPAIRS, CLEAN UP, OR DETOXIFICATION AND REMOVAL UNDER ANY HAZARDOUS MATERIAL LAW WHICH MAY RESULT FROM GRANTEE'S ACTS OR OMISSIONS ON GRANTOR'S LANDS, OR GRANTOR'S OPERATIONS THEREON. SPECIFICALLY EXCLUDED FROM THE FOREGOING INDEMNITIES IS ANY CLAIM FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES UNLESS CAUSED BY GRANTEE'S GROSS NEGLIGENCE, OR ANY CLAIM FOR THE DISCOVERY OF ADVERSE ENVIRONMENTAL CONDITIONS NOT CAUSED BY GRANTEE. IT IS FURTHER EXPRESSLY AGREED AND UNDERSTOOD THAT THE ABOVE INDEMNITY IS NOT INTENDED TO PROTECT GRANTOR FROM GRANTOR'S OWN NEGLIGENCE OR WILLFUL MISCONDUCT. THE OBLIGATIONS OF GRANTEE HEREUNDER SHALL SURVIVE THE TERMINATION OF THE PIPELINE RIGHT-OF-WAY FOR A PERIOD OF TIME EQUAL TO THE STATUTE OF LIMITATIONS APPLICABLE TO THE RESPECTIVE OBLIGATION.

9.2 Grantee will prevent the filing of Construction Liens, Well and Pipeline Construction Liens, and all other liens resulting from its activities on the lands described above. If any liens are filed on the above-described lands because of Grantee's activities, Grantee shall, at its own expense, bond around the lien or provide other security which provides clear title to Grantor within 30 days of recordation of any lien.

## **SECTION 10. SUBSURFACE AND MINERAL INTERESTS**

10.1 Grantor reserves all subsurface and surface aggregate or mineral interests. These interests include, but are not limited to, oil, gas, coal, pore space, cement materials, potash, sodium sulfate, sand and gravel, scoria, road material, building stone, chemical substances, metallic ores, uranium ores, or colloidal or other clays that are on and under the Right-of-Way; provided,

however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Right-of-Way, but it will be permitted to extract the oil and other minerals from and under the Right-of-Way by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Right-of-Way for the purposes for which the permanent easement is being sought by Grantee.

10.2 Grantee acknowledges that Grantor intends to conduct gravel mining activities adjacent to the Pipeline Easement, and that coal mining might be conducted in the future. Grantee agrees that Grantor may complete its mining activities on all of Grantor's property excluding the area at and from the boundaries of the Pipeline Easement; provided, however, in connection with mining activities on lands adjacent to the Pipeline Easement, Grantor shall maintain a 3:1 slope for thirty-five feet (35') from the boundary lines of the Pipeline Easement, as measured horizontally from the boundary lines of the Pipeline Easement. Upon the commencement of gravel or coal mining up to the thirty-five foot (35') setback from the boundary lines of the Pipeline Easement, Grantee shall pay Grantor for the reasonable prevailing value of the gravel or coal reserves minus the cost of mining the gravel. If a coal reserve is stranded and becomes uneconomical to mine because of the pipeline, Grantee will pay for all of the uneconomical coal minus the cost of mining the coal. Grantor shall have no liability to Grantee for damage to or interference with the pipeline and other facilities of Grantee within the Pipeline Easement, or for disruption of services provided by Grantee with respect to loss of lateral support for the pipeline, if Grantor excavates to and maintains a 3:1 slope over the thirty-five (35) foot area adjacent to the boundaries of the Pipeline Easement. If, prior to commencing mining activities in an area or areas adjacent to the Pipeline Easement, Grantor and Grantee, determine, due to soil stability or otherwise, that it may be desirable to maintain a sloped buffer zone greater than thirty-five feet (35') from the boundary lines of the Pipeline Easement, Grantor shall provide Grantee with written evidence of Grantor's calculation of the amount of recoverable reserves. Within thirty (30) days of receipt of such written evidence, Grantee shall pay to Grantor an additional amount for the minable reserves over the thirty-five (35') mining set back equal to the reasonable prevailing value of the gravel or coal reserves less the costs of mining the reserves that will be rendered un-minable as a result of the expanded, sloped buffer zone, and in that event, Grantor shall maintain an expanded sloped buffer zone for such distance and at such slope as Grantor and Grantee may agree. If Grantee elects not to pay Grantor for the additional value of the gravel or coal reserves that would be rendered un-minable as a result of the expanded, sloped buffer zone, then Grantor shall be obligated to maintain only a 3:1 sloped buffer zone over the thirty-five (35) foot area adjacent to the boundary lines of the Pipeline Easement and Grantor shall have no liability to Grantee for damage to or interference with the pipeline and other facilities of Grantee within the Pipeline Easement, or for disruption of services provided by Grantee with respect to loss of lateral support for the facilities, if Grantor excavates to and maintains a 3:1 slope over the thirty-five (35) foot area adjacent to the boundaries of the Pipeline Easement. In the alternative, Grantor can request that Grantee remove and relocate the pipeline at Grantor's sole cost and expense, to a location on the lands that has been mined and reclaimed. If Grantee elects to remove and relocate the pipeline, Grantee shall not be required to do so until Grantee has received permission and all consents and permissions to abandon the old pipeline and construct the new pipeline. Grantor shall grant Grantee a new easement and Grantee shall pay the entire actual cost and expense of the removal and relocation, including but not limited to the cost to Grantee of permits, materials, installation, surveying, inspection, x-ray, environmental studies, regulatory filings, attorneys' fees, and other expenses or overhead that may be required.

## **SECTION 11. GENERAL ENVIRONMENTAL PROTECTIONS**

11.1 Grantee shall not discharge oil, gas liquids, salt water, or any other hazardous liquids or toxic substances (including substances with toxic characteristics even if such substances are excluded from the definition of hazardous waste under federal statutes) onto the Right-of-Way or on land adjacent to the Right-of-Way. Grantee shall act immediately to halt movement of all discharges of oil, gas liquids, salt water, or other hazardous liquids or toxic substances after discovery. Grantee shall report any and all discharges of oil, gas liquids, salt water, or other hazardous liquids or toxic substances immediately to the Grantor and to the appropriate regulatory agencies and shall restore the affected area as closely as possible to its original condition.

11.2 Grantee shall take necessary precautions to prevent fires. Grantee will provide local fire departments with reasonable information and maps of temporary access roads along the Right-of-Way to facilitate access in the event of an emergency. In the event a fire is caused by Grantee, Grantee shall compensate the Grantor, or its lessees for all losses including forage, crop, buildings, animals, and any other losses.

11.3 Grantee may cut, trim or remove trees, brush and shrubs to keep the Right-of-Way clear of all obstructions that may, injure, endanger or interfere with the construction, operation or maintenance of the pipeline. Grantee shall consult with Grantor prior to cutting or trimming any trees, brush or shrubs located in the Temporary Construction Easement to determine if any reasonable alternatives exist. In non-cultivated uplands, the entire permanent easement may be maintained by the Grantee in an herbaceous state. In wetlands, a corridor centered on the pipeline and up to 30 feet wide may be maintained by the Grantee in a herbaceous state. In addition, trees within 15 feet of the pipeline centerline in wetlands that are greater than 15 feet in height may be selectively cut and removed. Should it be necessary to remove a tree or shrub off the right-of-way in order for Grantee to construct the pipeline, at the request of Grantor, Grantee will plant or compensate landowner to plant replacement trees on a 2:1 ratio in areas outside the Right-of-Way reasonably satisfactory to Grantor in accordance with the State of North Dakota's Tree and Shrub Mitigation Specifications.

## **SECTION 12. NO WARRANTY**

12.1 Grantor neither warrants nor agrees to defend title to the Right-of-Way, and disclaims any warranty against encumbrances. Grantor asserts, however, that to the best of Grantor's knowledge, Grantor is unaware of any title defects or adverse claims against Grantor's property interest. Grantor further agrees to notify Grantee in writing within thirty (30) days if Grantor learns of any title defects or adverse claims to the Right-of-Way within the term of the Easement Agreement.

## **SECTION 13. DAMAGES**

13.1 Grantee agrees to pay for damage to crops, pasture, timber, livestock, fences, drain tiles, water supply pipelines, or any other structures, utilities, and improvements that may result from Grantee's exercise of its rights under this Agreement. In lieu of paying for the cost of repairing damaged improvements, Grantee shall have the right to repair such damage caused by Grantee. The amount to be paid for damage to crops and other improvements and/or the repairs requested to be performed by Grantee shall be mutually agreed upon by Grantor and Grantee based on current market rates. If Grantor and Grantee cannot mutually agree on damage compensation, then Grantor reserves any rights associated with seeking proper compensation, including legal action.

13.2 Grantor and Grantee shall negotiate in good faith when determining damages not already paid for in advance. Grantee specifically agrees that, if soil productivity or re-vegetation has not been achieved as required by Section 4 of this Agreement by the expiration of any negotiated period of advance damages then Grantor shall be entitled to additional damage payments for each subsequent year, made on an annual basis, until soil productivity is restored or re-vegetation is successful. If advance damages are agreed upon, they will be indicated on the attached Exhibit B.

## **SECTION 14. COMPENSATION**

14.1 In consideration for this easement, Grantee will pay to Grantor an amount per rod as specified on Exhibit B.

14.2 Any payment to be made to Grantor under this Agreement may be made or mailed to Grantor at the address shown above, or to \_\_\_\_\_, at this address \_\_\_\_\_, who is hereby appointed agent and authorized to receive and receipt for same, and who is also appointed the true and lawful attorney in fact for the undersigned. The agency and power of attorney granted by Grantor to its agent hereunder shall not be deemed revoked until written notice from Grantor has been received by Grantee.

## **SECTION 15. EXECUTION REQUIRED**

15.1 The Easement Agreement shall be valid and enforceable upon execution by Grantor and Grantee, and may be executed in counterparts, each of which shall be considered an original for all purposes, but all of which together constitute one and the same instrument.

## **SECTION 16. CORPORATE SUCCESSION**

16.1 All the terms and provisions of the Easement Agreement shall be binding upon, shall inure to the benefit of and shall be enforceable by the respective representatives, successors and assigns of the Parties.

## **SECTION 17. ASSIGNMENT**

17.1 This Easement shall inure to and be applicable to Grantor and Grantee and their respective heirs, representatives, successors and assigns. Except for any assignment to Grantee's parent, subsidiary or affiliated entities, Grantee shall not assign this Easement to any other party without the prior written consent of Grantor, with Grantor's consent not to be unreasonably withheld, provided, however, that in the event of any assignment by Grantee or any successive Grantee, the assignor shall remain fully responsible for all obligations, responsibilities and liabilities of Grantee under this Easement (including, but not limited to, requirements as to indemnity and insurance).

## **SECTION 18. COMPLIANCE**

18.1 In addition to any requirements contained in this Easement, Grantee shall comply with the construction procedures and mitigation measures described in its application and supplements (including responses to staff data requests) to the North Dakota Public Service Commission for its permit in Docket No. PU-14-842, and as identified in the pertinent Environmental Plan, and any final Order of the North Dakota Public Service Commission.

## **SECTION 19. COVENANTS RUNNING WITH THE LAND**

19.1 By signing this Agreement and accepting the payment and other consideration described in this Agreement, Grantor shall be deemed to have agreed to be bound by the covenants applicable to Grantee hereunder, and the easement and related rights granted to Grantee herein create easements and covenants running with Grantor's land.

## **SECTION 20. MISCELLANEOUS**

20.1 Grantor acknowledges that Grantee has made no representations, promises, agreements, guarantees, or inducements to Grantor that are not expressly set forth in this Agreement and any simultaneously executed agreements, and that this Agreement is intended to reflect the entire agreement between the parties. The easement and related rights granted in this Agreement may be assigned, from time to time, in whole, by Grantee, and shall apply to each of the Pipeline Facilities installed by Grantee. This Agreement shall be governed by the law of the State in which the land is situated. Grantor's spouse, if not a titleholder, executes this Agreement for the purpose of subordinating all spousal rights to the easement and related rights granted to Grantee in this Agreement. No guns or firearms will be allowed in the Premises by Grantee or its agents or employees, and Grantee will not remove any cultural artifacts without Grantor's consent. Words and phrases herein shall be construed as in the singular or plural number, and as masculine, feminine or neuter gender according to the context. From and after the transfer by any Grantee to a successor Grantee, Grantor shall look solely to the successor Grantee in connection with matters arising after the date of the transfer. If any provision of this Agreement is adjudicated as being unenforceable, the balance of this Agreement shall remain in full force and effect.

## **SECTION 21. ARMS-LENGTH NEGOTIATION**

21.1 The Easement Agreement has been prepared by the joint efforts of Grantor and Grantee and shall be considered the product of collective, arms-length negotiation.

## **SECTION 22. CONFLICT WITH LAWS OR REGULATIONS**

22.1 If Grantee is unable, in whole or in part, by reason of any law, regulation, or order enacted or issued by any state or federal agency or court to carry out any of its obligations under this agreement, then such obligation, or any part thereof, shall be suspended.

## **SECTION 23. INSURANCE**

23.1 Grantee shall maintain in effect at all times comprehensive general liability insurance covering operations on the property of Grantor in an amount not less than Five Million Dollars (\$5,000,000) per occurrence and Ten Million Dollars (\$10,000,000) in the aggregate and provide Grantor reasonable evidence of the maintenance of such insurance.

## **SECTION 24. ABANDONMENT OF PIPELINE**

24.1 Grantee agrees that commencing five (5) years following the installation of the pipeline, in the event of the complete non-use of said pipeline by Grantee, its successors or assigns, for a continuous period of two (2) consecutive years this Easement and right of way shall be considered abandoned and Grantee shall furnish at its expense, upon receipt of written request from Grantor, a release of the Easement and right of way, in which event Grantee shall have the right to abandon the pipeline in place or remove said pipeline. "Use" of the pipeline as defined herein shall be defined as being the time period in which Grantee, or its assigns, carries the pipeline on its books. Upon final abandonment of said pipelines, Grantee shall comply with any rule or regulation concerning the condition the pipeline including, but not limited to (i) remediating any contaminants related to the pipeline according to all federal, state, county, township, or other applicable ordinances, rules, and regulations, (ii) removing all liquids from the pipeline, (iii) pipeline shall be severed at the ends and capped to seal the entire pipeline, (iv) all above ground pipeline related appurtenances will be removed from the property, and (v) restore the surface to its original condition as near as practical according to the requirements herein. Grantee shall remain responsible for any hazardous or dangerous condition resulting from the pipeline if it is abandoned in place. If Grantor needs abandoned pipeline removed in order to allow or accommodate full use and enjoyment of property, such as for construction of buildings, then upon Grantor's request, Grantee shall remove at minimum the portion of pipeline impacting such use and enjoyment. Any such removal requests must be made within 2 years of such pipeline abandonment.

## MEMORANDUM OF EASEMENT AGREEMENT

THIS MEMORANDUM OF EASEMENT AGREEMENT is to provide notice of that certain EASEMENT AGREEMENT ("Easement") dated 4 March, 2016, by and between Bonnie Haupt and Michael Haupt, her husband, as joint tenants with right of survivorship, and not as tenants in common, whose mailing address is 531 Apple Creek Drive, Bismarck, ND 58504, (hereinafter referred to as "Grantor," whether one or more), and Dakota Access, LLC, whose address is 1300 Main Street, Houston, Texas 77002 (hereinafter referred to as "Grantee").

### PLEASE TAKE NOTICE AS FOLLOWS:

1. Capitalized terms contained herein and not otherwise defined herein shall have the meanings given to such terms in the Easement Agreement.

2. The Easement Agreement grants to Grantee a Right-of-Way for the purposes constructing, maintaining, repairing, and removing at will one steel crude oil transmission pipeline not to exceed thirty inches (30") in diameter together with all fittings, cathodic protection equipment, pipeline markers, and all other equipment, facilities, and appurtenances used or useful in connection with the foregoing pipeline (collectively "Pipeline Facilities"), along routes convenient for Grantee's operations, on, over, under, across and/or through certain land in the following tracts ("the Premises") located in Mercer County, State of North Dakota:

Township 141 North, Range 88 West  
Section 35: SE¼

("Subject Lands") and more specifically described or depicted on the plat or survey attached as Exhibit A to this Memorandum of Easement Agreement.

3. The Easement Agreement grants to Grantee a 99-year easement for the Right-of-Way described and depicted in Exhibit A, as well as the right to use, on a temporary basis, workspace adjacent to the Right-of-Way so as to allow Grantee to exercise any of the rights granted to Grantee in the Easement Agreement.

4. This Memorandum of Easement Agreement is placed of record in the county in which the Subject Lands are located for the purpose of placing all persons on notice of the existence of the Easement Agreement.

5. An executed copy of the Easement Agreement with all exhibits attached is on file in the office of the Grantee at the above-referenced address.

6. The terms and conditions of the Easement Agreement are incorporated by reference into this Memorandum of Easement Agreement as if fully set forth herein.

7. This Memorandum of Easement Agreement is executed by Grantee as of the date of the acknowledgment of the signature below, but is effective for all purposes as of the date of the Easement Agreement.

**In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND.**

**In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

**In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.**

**In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31 , 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31 , 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver county, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

---

## DECLARATION OF JOHN M. JOCHIM

---

[¶1] I, John M. Jochim, declare the following based on personal knowledge:

[¶2] I have ownership interest in the following property that lies within the boundaries of the proposed BK Fischer Storage Facility.

- Township 142 North, Range 88 West  
Section 24: NW1/4  
Mercer County, ND

[¶3] The property listed in ¶ 2 above is encumbered by the following easements:

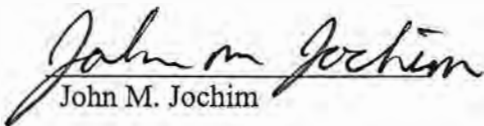

- Oliver Mercer Electric Cooperative Right-of-Way Easement executed by John Jochim on June 25, 1980 (209443).
- West River Telephone Right-of-Way Easement executed by John B. Jochim on April 13, 1993 (153703)
- West River Telecommunications Right-of-Way Easement executed by John M. Jochim on May 29, 2009 (191999).
- ND State Water Commission Pipeline Easement executed by John M. Jochim on July 1, 2010 (195955).

[¶4] Attached are the deeds which I believe indicate my ownership in each of the properties listed above.

[¶5] Attached are the easements currently encumbering these properties based on the information I have.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 23 day of may, 2024 at West Fargo, ND, United States.

  
John M. Jochim

## WARRANTY DEED

THIS INDENTURE, made this 30 day of Apr., 2001, between **John Jochim a/k/a John B. Jochim and Violet Jochim**, husband and wife, grantor, whether one or more, and **John M. Jochim**, grantee, whose post office address is 371 6<sup>th</sup> Ave. North. Castleton, ND 58012.

WITNESSETH, for and in consideration of the sum of Ten Dollars and other valuable consideration, grantor does hereby GRANT to the grantee, all of the following real property lying and being in the County of MERCER and State of North Dakota, and described as follows, to-wit:

**TOWNSHIP 142 NORTH, RANGE 88 WEST**  
**Section 24: NW/4**

Subject to prior mineral reservations and conveyances and reserving to grantor,  
John B. Jochim, a life estate in the premises conveyed,

And the said grantor for himself, his heirs, executors and administrators, does covenant with the grantee that he is well seized in fee of the land and premises aforesaid and has good right to sell and convey the same in manner and form aforesaid; that the same are free from all encumbrances, except installments of special assessments or assessments for special improvements which have not been certified to the County Auditor for collection; and the above granted lands and premises in the quiet and peaceable possession of said grantees, against all persons lawfully claiming or to claim the whole or any part thereof, the said grantor will warrant and defend.

**WITNESS, the hand of the grantor:**

John Jochim  
John Jochim

Violet Jochim

I certify that the requirement for a report or statement of full consideration paid does not apply because this deed is for one of the transactions exempted by Subdivision "c" of Section 6 of Section 11-18-02.2 NDCC.

Signed: [Signature]

### ***West River Telecommunications Right-of-Way Easement***

We the undersigned, (whether one or more) **John M. Jochim**, Grantor(s), do hereby grant and convey unto **West River Telecommunications Cooperative**, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O. Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, repair, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, and other appurtenances, upon, over and under the land which the undersigned owns or in which the undersigned has any interest in the County of **Mercer**, State of **North Dakota**, and more particularly described as follows:

#### ***NW/4NW/4 Sec. 24 T142N R88W***

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots, brush and other obstructions from the surface and subsurface of said strip of land. The boundary of said strip shall be a line parallel to and 10 feet either side of the first cable laid on the land of the undersigned. The undersigned for Grantor(s), their heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described land, shall remain the property of the Cooperative, removable at the option of the Cooperative. The undersigned agrees to this easement with the understanding the Grantor(s), their heirs, executors, administrators, successors, and assigns, may continue to have access to and use of the easement area in any manner consistent with the rights herein granted to the Cooperative, and that the Cooperative will restore the said strip to as near as reasonable to the pre-constructed condition, and that the Cooperative will erect no buildings on said strip.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

Access is hereby granted for a state or federal historical survey of the cable route, should one be required, unless checked. Access denied ☐

# West River Telephone Right-of-Way Easement

KNOW ALL MEN BY THESE PRESENT, that we the undersigned, (whether one or more) John B Jochim, Grantor(s), do hereby grant and convey unto West River Telecommunications Cooperative, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, reconstruct, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, surface testing terminals, repeaters, repeater housings and markers, and other appurtenances, upon and over the land which the undersigned owns or in which the undersigned has any interest in the County of Mercer, State of North Dakota, and more particularly described as follows:

W/2 24 142 88

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots brush and other obstructions from the surface and subsurface of said strip of land and within seven feet thereof. The boundary of said strip shall be a line parallel to and 25 feet either side of the first cable laid, which cable shall have its location indicated by surface markers set at intervals on the land of the undersigned or on adjacent lands. The undersigned for himself, his heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described premises at the Cooperative's expense, shall remain the property of the Cooperative, removable at the option of the Cooperative.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

Access is hereby granted for a state or federal historical survey of the cable route, should one be required, unless checked. Access denied ☐

## PIPELINE EASEMENT

North Dakota State Water Commission  
County of Mercer  
Parcel H-MER-130

### ALL PERSONS TAKE NOTICE:

That the undersigned, John Jochim, whether one or more, called the Grantor, being the owner of, or having an interest in, land situated in the County of Mercer, State of North Dakota, more fully described below, in consideration of One and No/100 Dollars (\$1.00) and other valuable consideration, does hereby grant, convey, and warrant to the State of North Dakota, acting by and through the North Dakota State Water Commission, a state agency and public corporation, with its principal office at 900 East Boulevard Ave., Bismarck, North Dakota 58505, called the Grantee, and to its successors and assigns, the right, privilege, and easement to construct, maintain, operate, inspect, repair, alter, replace, change the size of or remove a pipeline, and appurtenances thereto, for the transportation of water under, across, and through:

Parcel H-MER-130

A 40 foot wide strip of land 20 feet wide on each side of the pipeline centerline lying within the W1/2 NW1/4 Section 24, Township 142 North, Range 88 West of the 5th P.M.

Said tract contains 2.42 acres, more or less.

Temporary Construction Easement

An additional 20 feet of temporary right-of-way lying adjacent to the above described tract for a total construction easement width of 60 feet.

Said tract contains 1.21 acres, more or less.

together with the right to utilize additional land for a period up to three years from the date of this easement, adjacent to the above described tract, for purposes of temporary working space during initial construction of the pipeline, and the right of ingress to and egress from said strip of land across the adjacent lands of the Grantor, for the purposes specified above at the will of the Grantee.

### THE GRANTOR AND THE GRANTEE FURTHER AGREE:

1. **Use of right-of-way by Grantor.** Grantor reserves the right to use the surface of the easement strip provided, however, that Grantor, without prior approval of Grantee, shall neither construct nor permit to be constructed any building, structure, or other improvement upon the easement strip which would interfere with Grantee's exercise of the rights conveyed by this pipeline easement, including access to the easement strip.
2. **Appurtenances.** The Grantee shall have the right to install and construct necessary appurtenances upon the surface of the easement strip. Prior to construction, the Grantee will notify the Grantor of the approximate location of such appurtenances if any, to be located on the easement strip, and shall pay to the Grantor the sum of \$500 for each appurtenance located at a distance of more than 5 feet from a field boundary or fence line. Such payments shall be paid prior to construction.
3. **Damages.** The Grantee will pay to Grantor or Grantor's tenants, as their respective interests may appear, for damages caused by the operations or activities of the Grantee; provided, however, that the Grantee shall have the right, without liability for damages, to clear, and keep cleared, all trees, brush, and other obstructions from the easement strip that may, in the Grantee's judgment, interfere with the rights and privileges of the Grantee under this pipeline easement.

If the amount of any damage which Grantor may sustain as a result of Grantee's exercise of rights hereunder cannot be mutually agreed upon, such damages shall be ascertained and determined by three (3) disinterested person; one to be appointed by the Grantor, one by

4. **Restoration of surface.** The Grantee will restore the surface of the construction area to its original contour as nearly as practicable.
5. **Topsoil segregation.** When excavating the pipeline trench with a backhoe/trackhoe, the Grantee will remove the topsoil separately during the construction of the pipeline for the full width of the pipe trench to a depth of twelve (12) inches or the actual topsoil depth, whichever is less, and to be replaced at the top of the backfill over the pipe trench.
6. **Assignment and covenant by parties.** The rights of either party may be assigned in whole or in part. The terms and provisions of this easement shall constitute covenants running with the land and shall be binding upon, and inure to the benefit of, the parties hereto, their successors, assigns, personal representatives, and heirs.
7. **Grantor's title.** Grantor warrants that he is the owner of, or has an interest in, the land described in this easement, and that he has full right and authority to enter into and deliver this easement. This instrument may be executed in counterparts and each counterpart shall constitute a separate agreement between the parties thereto. Any payments pursuant to this pipeline easement shall be in proportion to the Grantor's interest in the undivided fee simple estate.
8. **Entire agreement.** This instrument contains the entire agreement of the parties and there are no other, or different, agreements or understandings between the Grantor and the Grantee, or its agents. The Grantor, in executing this pipeline easement, has not relied upon any promises, inducements, or representatives of the Grantee, or its agents, except as are set forth herein.
9. **Term of easement.** The term of this easement shall be as long as it is needed by the Grantee, or its assigns, and until a release of this easement is recorded, but shall not exceed ninety-nine (99) years pursuant to NDCC §47-05-02.1.
10. **Tenants.** The Grantor represents that the land described in this easement is (not rented) (rented to) \_\_\_\_\_

## DECLARATION OF KEVIN KRAFT

---

[¶1] I, Kevin Kraft, declare the following based on personal knowledge:

[¶2] I have ownership interest in the following properties that lie within the boundaries of the Review Area of the proposed TB Leingang Storage Facility.

- Township 142 North, Range 87 West  
Section 27: A tract of land located in the S1/2  
Oliver County, ND

more particularly described as follows:

Commencing at the Southeast corner of said Section 27; thence N 89°59'36" W a distance of 2070.02 feet to the point of beginning; thence continuing N 89° 59'36" W a distance of 824.50 feet; thence N 0°40'27" E a distance of 2642.32 feet to the mid-section line; thence along the mid-section line S 89°54'53" E a distance of 824.50 feet; thence S 0°40'27" W a distance of 2641.19 feet to the point of beginning. Said tract contains 50.00 acres more or less.

- Township 142 North, Range 87 West  
Section 27: SE1/4 LESS AND EXCEPT a tract of land previously conveyed  
Oliver County, ND

[¶3] To the best of my knowledge, the properties listed in ¶ 2 above are encumbered by the following easements:

- Oliver Mercer Electric Cooperative Right-of-Way Easement executed by Mike and Mary Keller on April 9, 1949.
- Roughrider Electric Cooperative, Inc. Right of Way Easement executed by Kevin Kraft on February 24, 2016.
- Greg Skalsky Right-of-Way Easement granted by Kevin Kraft on July 29, 2022.
- Southwest Water Authority Right-of-Way Easement executed by Kevin Kraft on February 6, 2014.

[¶4] Attached are the deeds which I believe indicate my ownership in each of the properties listed above.

[¶5] Attached are the easements currently encumbering these properties based on the information I have.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 24 day of May, 2024 at Beulah, ND, United States.

Kevin Kraft  
Kevin Kraft

WARRANTY DEED

THIS INDENTURE, Made this 28<sup>th</sup> day of September, 2001, between **JOSEPH A. KELLER and ELAINE M. KELLER**, husband and wife, whose post office address is P.O. Box 542, Beulah, North Dakota 58523, Grantors, and **KEVIN KRAFT**, a single person, whose post office address is 5651 23<sup>rd</sup> Street SW, Beulah, North Dakota 58523, Grantee.

WITNESSETH, For and in consideration of the sum of Sixty-Nine Thousand Nine Hundred Dollars (\$69,900.00) And Other Good and Valuable Consideration, Grantors do hereby GRANT to the Grantee, all of the following real property lying and being in the County of Oliver and State of North Dakota, and described as follows, to-wit:

**A tract of land located in the South Half (S1/2), Section Twenty-Seven (27), Township One Hundred Forty-Two (142) North, Range Eighty-Seven (87) West, Fifth Principle Meridian, Oliver County, North Dakota and more particularly described as follows:**

Commencing at the Southeast corner of Section 27 thence N 89°59'36"W a distance of 2070.02 feet to the Point of beginning; thence continuing N 89°59'36"W a distance of 824.50 feet; thence N 0°40'27"E a distance of 2642.32 feet to the mid-section line; thence along the mid-section line S 89°54'53"E a distance of 824.50 feet; thence S 0°40'27"W a distance of 2641.19 feet to the Point of Beginning.

Said tract contains 50.00 acres more or less.

The above legal description was obtained from a plat drawn by Roy Jensen, a North Dakota Registered Land Surveyor - LS. 4654.

And the said Grantors, for themselves, their heirs, executors and administrators, does covenant with the Grantee that they are well seized in fee of the land and premises aforesaid and has good right to sell and convey the same in manner and form aforesaid; that

the same are free from all encumbrances, except installments of special assessments or assessments for special improvements which have not been certified to the County Auditor for collection, and easements of record, if any, and the above granted lands and premises in the quiet and peaceable possession of said Grantee, against all persons lawfully claiming or to claim the whole or any part thereof, the said Grantors will warrant and defend.

WITNESS, The hand of the Grantors:

I (We), the Grantor in this Deed, do hereby certify that the amount shown as consideration above is the full consideration paid for the property conveyed.

## WARRANTY DEED

THIS INDENTURE, made this 13<sup>th</sup> day of August, 2013, between **Joseph A. Keller and Elaine M. Keller**, husband and wife, Grantors, and **Kevin Kraft**, whose address is 5651 23<sup>rd</sup> Street SW, Beulah, ND 58523, Grantee.

WITNESSETH, for and in consideration of the sum of Ten and no/100 and other good and valuable consideration (\$10.00 & OGVC), Grantors do hereby grant to the Grantee all of the following real property lying and being in the County of **OLIVER**, State of North Dakota, and described as follows, to-wit:

The Southeast Quarter (SE¼) of Section Twenty-Seven (27), Township One Hundred Forty-Two (142), Range Eighty-Seven (87), Oliver County, North Dakota, LESS AND EXCEPT a tract of land previously conveyed, described as follows:

A tract of land located in the South Half (S½) of Section Twenty-Seven (27), Township One Hundred Forty-Two (142) North, Range Eighty-Seven (87) West of the Fifth Principal Meridian, Oliver County, North Dakota, and more particularly described as follows:

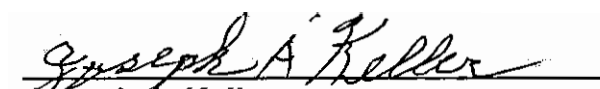

Commencing at the Southeast corner of said Section 27; thence N 89°59'36" W a distance of 2070.02 feet to the point of beginning; thence continuing N 89°59'36" W a distance of 824.50 feet; thence N 0°40'27" E a distance of 2642.32 feet to the mid-section line; thence along the mid-section line S 89°54'53" E a distance of 824.50 feet; thence S 0°40'27" W a distance of 2641.19 feet to the point of beginning.  
Said tract contains 50.00 acres more or less.

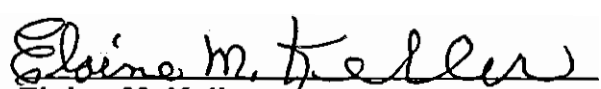

The above description taken from a previously recorded instrument.

Grantors hereby reserve to themselves as joint tenants Ninety percent (90%) of all minerals presently owned by them. It is the intention of Grantors to convey to Grantee Ten percent (10%) of all minerals presently owned by Grantors.

And the said Grantors for themselves, their heirs, executors and administrators, do covenant with the Grantee that they are well seized in fee of the land and premises aforesaid and have a good right to sell and convey the same in manner and form aforesaid; that the same are free from all encumbrances, except installments of special assessments or assessments for special improvements which have not been certified to the County Auditor for collection and the above granted lands and premises in the quiet and peaceable possession of said Grantee, against all persons lawfully claiming or to claim the whole or any part thereof, the said Grantors will warrant and defend.

WITNESS, the hand of the Grantors:

RIGHT OF WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that we the undersigned, (Whether one or more) Mike Keller Mary Keller (unmarried) (husband and wife), for a good and valuable consideration, the receipt thereof is hereby acknowledged, do hereby grant unto Oliver-Mercer Electric Cooperative, Inc. a cooperative corporation, (hereinafter called the "Cooperative"), whose post office address is Hazen, North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the County of Oliver, State of North Dakota, and more particularly described as follows:

A tract of land approximately \_\_\_\_\_ acres in area, located \_\_\_\_\_ miles in a \_\_\_\_\_ direction from the town of \_\_\_\_\_, and further described as being in NE $\frac{1}{4}$ , SW $\frac{1}{4}$  and NW $\frac{1}{4}$  Section 26, Township 142 Range 87 ✓ NE $\frac{1}{4}$  and S $\frac{1}{2}$  Section 27, Township 142 Range 87 \_\_\_\_\_ Section \_\_\_\_\_, Township \_\_\_\_\_ Range \_\_\_\_\_

and to contract, operate and maintain on the above described lands, and/or in or upon all streets, roads or highways abutting said lands, an electric transmission or distribution line or system, and to cut and trim trees and shrubbery that may interfere with or threaten to endanger the operation and maintenance of said line or system.

The undersigned agree that all poles, wires, and other facilities, including any main service entrance equipment, installed on the above-described lands at the Cooperative's expense shall remain the property of the Cooperative, removable at the option of the Cooperative, upon termination of service to or on said lands.

The undersigned covenant that they are the owners of the above-described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

IN WITNESS WHEREOF, the undersigned have set their hands and seals this 9 day of April, 1949.

Mike Keller (L.S.)

## RIGHT OF WAY EASEMENT

THIS AGREEMENT made and entered into this 24<sup>th</sup> day of February, 20 16, between Kevin Kraft of 5651 23<sup>rd</sup> St SW, Beulah, ND 58523, hereinafter called "Owner" (whether one or more) and ROUGHRIDER ELECTRIC COOPERATIVE, INC., whose post office address is 800 Highway Drive, Hazen, North Dakota 58545-4737, hereinafter called "COOPERATIVE".

WITNESSETH that for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Owner grants unto Cooperative, its successors and assigns, for a term of 99 years from the date hereof, an easement to construct, reconstruct, operate and maintain an electric distribution system, overhead, underground or both including all poles, guys, anchors wires, surface terminals, and all accessories and appurtenances necessary or desirable in connection therewith, under, over, upon and across lands of Owner and/or in or upon all streets, roads or highways abutting said lands situated in Oliver County, North Dakota, and more particularly described as follows, to-wit:

A parcel of land in the S1/2 of Section 27, Township 142 North, Range 87 West of the Fifth Principal Meridian, 20 feet in width, 10 feet on each side of a centerline described as follows:

Beginning at the east line of the southeast quarter of Section 27, Township 142 North, Range 87 West, at a point which bears N0°56'07"E a distance of 37.91 feet from the southeast corner of Section 27, Township 142N, Range 87W; thence N89°07'40"W a distance of 2894.69 feet more or less; to the POINT OF TERMINATION at a point which bears N89°58'50"E a distance of 2377.36 feet from the southwest corner of Section 27, Township 142N, Range 87W.

In Section 27, Township 142 North, Range 87 West of the Fifth Principal Meridian described as follows:

The facilities erected hereunder shall remain the property of the Cooperative. Cooperative shall have the right to inspect, rebuild, remove, repair, improve and make such changes, alterations, substitutions and additions in and to its facilities as Cooperative may from time to time deem advisable, including the right to increase or decrease the size or capacity of its system, together with necessary accessories and appurtenances; the right to increase or decrease the size of the facilities and equipment situated upon the premises; the right to permit or otherwise agree to the joint use or occupancy of the overhead lines or the trench and related underground facilities by other persons, associations or corporations; and the right to at any time use the property described above to extend lines and facilities to serve the property of persons other than the Owner.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches, or lines of the Owner, caused by the Cooperative in the installation, repair maintenance, reconstruction or removal of said electrical properties and appurtenances, shall be promptly repaired, replaced or paid for by the Cooperative, provided a claim therefore is presented to the Cooperative at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Cooperative and the Owner shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

Cooperative shall at all times have the right to keep the easement clear of all buildings, structures or other obstructions, trees, shrubbery, undergrowth and roots.

Owner, his successors and assigns, may use the land within the easement for any purpose not inconsistent with the rights granted, provided such use does not interfere with or endanger the Cooperative's facilities or the rights granted under this easement.

For the purpose of constructing, inspecting, maintaining or operating its facilities, Cooperative shall have the right of ingress to and egress from the easement over the lands of Owner adjacent to the easement and lying between public or private roads and the easement, such right to be exercised in such manner as shall occasion the least practicable damage and inconvenience to Owner.

Owner covenants that he is seized of and has the right to convey the said easement, rights and privileges; that Cooperative shall have quiet and peaceable possession, use and enjoyment of the aforesaid easement, rights and privileges, and that Owner shall execute such further assurances thereof as may be requested by the Cooperative.

## DECLARATION OF CHARMAYNE LIEBELT

---

[¶1] I, Charmayne Liebelt, declare the following based on personal knowledge:

[¶2] I have ownership interest in the following property that lies within the boundaries of the proposed KJ Hintz Storage Facility.

- Township 143 North, Range 86 West  
Section 32: S1/2 SW1/4  
Oliver County, ND

[¶3] Attached are the deeds which I believe indicate my ownership in the property listed above.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 3 day of June, 2024 at Aberdeen, SD, United States.

## DECLARATION OF KIRK MAIZE

---

[¶1] I, Kirk Maize, declare the following statements based on personal knowledge:

[¶2] I have ownership interest in the following property that lies within the boundaries of the proposed TB Leingang Storage Facility.

- Township 141 North, Range 87 West  
Section 20: S1/2 SE1/4  
Oliver County, ND

[¶3] To the best of my knowledge, the property listed in ¶ 2 above is encumbered by the following easements:

- Minnesota Power Wind Project Easement Agreement executed by Kirk and Linda Maize on September 30, 2013 (88510).
- Southwest Water Authority Right-of-Way Easement executed by Kirk and Linda Maize on November 7, 2014 (89766).
- West River Telecommunications Right-of-Way Easement executed by Kirk and Linda Maize on May 2, 2017 (93550).

[¶4] Attached are the deeds which I believe indicate my ownership in the property listed above.

[¶5] Attached are the easements currently encumbering the property based on the information I have.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 4<sup>th</sup> day of June, 2024 at Boulah, ND, United States.

  
Kirk Maize

WARRANTY DEED

THIS INDENTURE, Made this 11th day of February, 1992, between ROWENE J. SKALSKY, Personal Representative of the Estate of John Rausch, Deceased, Grantor, whether one or more, and KIRK E. MAIZE and LINDA MAIZE, husband and wife, Grantee, whether one or more, whose post office address is Beulah, North Dakota 58523.

WITNESSETH, For and in consideration of the sum of One Dollar (\$1.00), and other good and valuable consideration, Grantor does hereby GRANT to the Grantee, as joint tenants and not as tenants in common, all of the following real property lying and being in the County of Oliver, State of North Dakota, and described as follows, to-wit:

The South Half of the Southeast Quarter (S $\frac{1}{2}$ SE $\frac{1}{4}$ ) of Section Twenty (20), Township One Hundred Forty-One (141) North, Range Eighty-Seven (87) West of the Fifth Principal Meridian.

EXCEPTING AND RESERVING unto the Estate of John Rausch, Deceased, all right, title and interest in and to any interest now owned by the decedent in and to all of the oil, gas, coal and other minerals, of any nature whatsoever, which may be found on or underlying said lands, together with the right of ingress and egress at all times for the purpose of mining, drilling, exploring, operating and developing said lands for said minerals and storing, handling, transporting and marketing the same therefrom;

FURTHER SUBJECT to all prior valid mineral reservations, conveyances, easements and leases now of record.

This deed is in fulfillment of a Contract for Deed dated February 17, 1984.

And the Grantor, as Personal Representative of the Estate of John Rausch, Deceased, does covenant with the Grantee that said decedent and said estate are well seized in fee of the land and premises aforesaid and have good right to sell and convey the same in manner and form aforesaid; that the same are free from all encumbrances, except installments of special assessments or assessments for special improvements which have not been certified to the County Treasurer for collection, and the above granted lands and premises in the quiet and peaceable possession of the Grantee, against all persons lawfully claiming or to claim the whole or any part thereof, the Grantor will warrant and defend.

WITNESS, the hand of the Grantor:

DULUTH, MN 55802

### MEMORANDUM OF EASEMENTS

This Memorandum of Easements evidences a Wind Project Easement Agreement dated Sept. 30, 2013 by and between **Kirk E. Maize and Linda Maize, husband and wife** (“Owner”), as owner(s) of the real property described on attached **Exhibit A** (“Owner’s Property”) and Minnesota Power a division of ALLETE, Inc., a Minnesota corporation (“Minnesota Power” or “Developer”) (the “Easement Agreement”). Capitalized terms used herein are given the same meaning as in the Easement Agreement.

The Easement Agreement provides, among other things, that for and in consideration of the payments therein provided for, and upon the terms, conditions, covenants, and provisions set forth at length therein, that Owner grants to Minnesota Power the following irrevocable and exclusive easements, covering all or portions of the Owner’s Property, in connection with the development, construction, and operation of a wind energy project (individually each an “Easement” and collectively the “Easements”):

1. Turbine Site Easement
2. Access Easement
3. Collection Easement
4. Construction Easement
5. Wind Non-Obstruction Easement
6. Noise Easement
7. Overhang Easement
8. Met Tower Site Easement
9. Met Tower Access Easement

Attached as **Exhibit B** is a preliminary Easement Plan showing the approximate planned location of all Wind Project Improvements and Easements located on the Owner's Property. Within 180 days after completion of construction, Developer will deliver a final as-built Easement Plan to Owner showing the exact locations of all Wind Project Improvements as constructed on Owner's Property and all Easements. Such as-built Easement Plan (Exhibit C) will replace the attached Exhibit B and Developer may record Exhibit C in the public records.

The Easements are granted subject to Owner's retained right to use the affected portions of the Owner's Property for agricultural purposes that do not interfere with the Easements or the other rights granted to Developer in the Easement Agreement.

The Easement Agreement also provides as follows:

"Owner grants Developer an irrevocable, exclusive easement for the right and privilege to use, maintain and capture the free and unobstructed flow of wind currents over and across the Owner's Property."

And

"Owner shall not engage in any activity on Owner's Property that might interfere with wind speed or wind direction over any portion of the Wind Project; cause a decrease in the output or efficiency of any Turbine or accuracy of any meteorological equipment; or otherwise interfere with Developer's operation of the Wind Project or exercise of any rights or the Easements granted in this Agreement"

Unless earlier terminated as provided therein, the Easement Agreement runs through November 30, 2064.

The Easements and any rights or obligations in the Easement Agreement run with the Owner's Property affected and are binding on, and inure to the benefit of, Owner and Developer and their respective mortgagees, successors and assigns, heirs, personal representatives, tenants, or persons claiming through them

Reference is hereby made to the Easement Agreement as to all remaining terms thereof. This Memorandum of Easements is prepared, signed, and acknowledged solely for recording purposes and does not modify, increase, decrease, or in any other way affect the rights, duties, and obligations of Owner or Minnesota Power under the Easement Agreement.

IN WITNESS WHEREOF, the parties hereto have executed this Memorandum of Easements effective the date set forth above:

RIGHT-OF-WAY EASEMENT

ALL PERSONS TAKE NOTICE:

In consideration of one dollar (\$1.00) and other good and valuable consideration KIRK MAIZE 5851 28TH STREET SW BEULAH, ND 58523 hereinafter referred to as Grantor, does hereby grant, bargain, sell, transfer and convey to the Southwest Water Authority, hereinafter referred to as the Grantee, its successor and assigns, a perpetual easement with right to erect, construct, install and lay, and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines, connections, valves and all other appurtenant facilities used in connection with the construction, operation and maintenance of the Southwest Pipeline Project, over, above, across and through the land of the Grantor, situated in Oliver County, State of North Dakota, said land being described as follows: S1/2 SE1/4 SECTION 20 TOWNSHIP 141 RANGE 87 (the tract that contains 3.72 acres, more or less), together with the right of ingress and egress over the adjacent lands of the Grantor, successors and assigns for the purposes of this easement.

- 1. The permanent easement will be thirty (30) feet in width, fifteen (15) feet on each side of the center line of the pipeline as constructed, with an additional ten (10) feet of temporary right-of-way for a total construction easement width of forty (40) feet, twenty (20) feet on each side of the center line.
- 2. The Grantee covenants to maintain the easement in good repair so that no unreasonable damage will result from its use to the adjacent land of the Grantor, successors and assigns. The Grantor will receive compensation for damages to growing crops caused by the construction or operation. The Grantor will report any damages within three (3) years of the construction of the project.

The grant and other provisions of this easement shall constitute a covenant running with the land for the benefit of the Grantee, its successors and assigns.

IN WITNESS WHEREOF, the Grantor has executed this instrument this 7th day of November, 2014.

***West River Telecommunications Right-of-Way Easement***

We the undersigned, (whether one or more) ***Kirk Maize and Linda Maize***, Grantor(s), do hereby grant and convey unto ***West River Telecommunications Cooperative***, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O. Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, repair, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, and other appurtenances, upon, over and under the land which the undersigned owns or in which the undersigned has any interest in the County of ***Oliver***, State of ***North Dakota***, and more particularly described as follows:

***SE/4 Sec. 20 T141N R87W***

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots, brush and other obstructions from the surface and subsurface of said strip of land. The boundary of said strip shall be a line parallel to and 10 feet either side of the first cable laid on the land of the undersigned. The undersigned for Grantor(s), their heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described land, shall remain the property of the Cooperative, removable at the option of the Cooperative. The undersigned agrees to this easement with the understanding the Grantor(s), their heirs, executors, administrators, successors, and assigns, may continue to have access to and use of the easement area in any manner consistent with the rights herein granted to the Cooperative, and that the Cooperative will restore the said strip to as near as reasonable to the pre-constructed condition, and that the Cooperative will erect no buildings on said strip.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

## DECLARATION OF CHRISTY METZ

---

[¶1] I, Christy Metz, declare the following based on personal knowledge:

[¶2] I have ownership interest in the following property that lies within the boundaries of the TB Leingang Storage Facility.

- Township 141 North, Range 87 West  
Section 4: Auditor's Lot 1, parcel in N1/2 SE1/4  
Oliver County, ND

[¶3] The property listed in ¶ 2 above is encumbered by the following easements:

- Oliver-Mercer Electric Cooperative, Inc. Right-of-Way Easement executed by Anna Skalsky on July 20, 1949 (91532).
- Roughrider Electric Cooperative, Inc. Right-of-Way Easement executed by Paul and Christie Metz on April 25, 2016 (92777).
- Southwest Water Authority Right-of-Way Easement.

[¶4] Attached are the deeds which I believe indicate my ownership in each of the properties listed above.

[¶5] Attached are the easements currently encumbering these properties based on the information I have.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 06 day of 03, 2024 at Beulahh, ND, United States.

Christy Metz

WARRANTY DEED

This deed is made by David L. Skalsky and Carol J. Skalsky, husband and wife, whose post office address is 7311 Badger Dr., Bismarck, ND 58503, and Leonard Hueske and Mary Hueske, husband and wife, whose post office address is P.O. Box 311, Richardton, ND 58652, **Grantors**, to Paul R. Metz and Christie E. Metz, husband and wife, as joint tenants, whose post office address is 2451 57<sup>th</sup> Ave SW, Beulah, ND 58523, **Grantees**.

For valuable consideration, Grantors grant and convey to Grantees the following real property located in Oliver County, North Dakota:

Auditor's Lot 1, a parcel of land in the N½ of the SE¼ of Section 4 Township 141 North Range 87 West of the Fifth Principal Meridian, Oliver County, North Dakota, more particularly described as follows:

Commencing at the East ¼ Corner said Section 4; thence S.00°03'34"E., 774.60', along the East Line of Said Section 4, to the Point of Beginning; thence continuing along the said East line S.00°03'34"E., 58.66'; thence N.63°25'13"W., 803.38'; thence S.01°13'58"E., 416.27'; thence S.74°08'23"W., 204.26'; thence N.61°33'16"W., 577.21'; thence N.60°45'05"W., 404.12'; thence N.01°56'26"W., 407.78'; thence N.89°47'04"E., 1045.86'; thence S.01°48'11"E., 412.49'; thence S.63°30'12"E., 805.92', to the Point of Beginning and containing 18.88 acres more or less.

Subject to prior mineral reservations and conveyances, and other limitations of record.

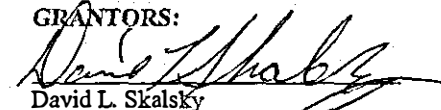

This deed is given in full satisfaction of that Contract for Deed between the parties dated December 10, 2009, recorded in Book 38 of Deeds, pages 485-493.

The legal description was obtained from a previously recorded instrument or prepared by Steven G. Podoll of Lange & Donovan, PLLP, PO Box 488, Hazen, ND 58545.

Grantors covenant that they are well seized in fee of the premises, which they have the right to sell and convey, and which are free from encumbrances except those of record, and excepting installments of special assessments or assessments for special improvements which have not been certified to the County Auditor for collection. Further, they covenant that they will warrant and defend the premises in the quiet and peaceable possession of the Grantees.

Dated this 12<sup>th</sup> day of November, 2013.

GRANTORS:

FORM LE-189 R

## RIGHT OF WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that we the undersigned, (Whether one or more) Anna Skalsky

widow (unmarried) (~~husband and wife~~),  
for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver Mercer Electric Cooperative, Inc., a cooperative corporation, (hereinafter called the "Cooperative"), whose post office address is Hazen, North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the County of Oliver, State of North Dakota, and more particularly described as follows:

A tract of land approximately \_\_\_\_\_ acres in area, located \_\_\_\_\_ miles in a \_\_\_\_\_ direction from the \_\_\_\_\_ town of \_\_\_\_\_, and further described as

being in the

SW 4 Section 3 Township 141 Range 87

SE 4 Section 4 Township 141 Range 87

\_\_\_\_\_ Section \_\_\_\_\_ Township \_\_\_\_\_ Range \_\_\_\_\_

\_\_\_\_\_ Section \_\_\_\_\_ Township \_\_\_\_\_ Range \_\_\_\_\_

and to contract, operate and maintain on the above described lands, and/or in or upon all streets, roads or highways abutting said lands, an electric transmission or distribution line or system, and to cut and trim trees and shrubbery that may interfere with or threaten to endanger the operation and maintenance of said line or system.

The undersigned agree that all poles, wires, and other facilities, including any main service entrance equipment, installed on the above described lands at the Cooperative's expense shall remain the property of the Cooperative, removable at the option of the Cooperative, upon the termination of service to or on said lands.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

IN WITNESS WHEREOF, the undersigned have set their hands and seals this

20 day of July 1949

(L.S.)

ROUGH RIDER ELECTRIC COOPERATIVE  
800 HWY DR

HAZEN, ND 58545

## RIGHT OF WAY EASEMENT

THIS AGREEMENT made and entered into this 25<sup>th</sup> day of April, 2016, between Paul Metz and Christie Metz of 2451 57<sup>th</sup> Ave SW, Beulah, ND 58523, hereinafter called "Owner" (whether one or more) and ROUGHRIDER ELECTRIC COOPERATIVE, INC., whose post office address is 800 Highway Drive, Hazen, North Dakota 58545-4737, hereinafter called "COOPERATIVE".

WITNESSETH that for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Owner grants unto Cooperative, its successors and assigns, for a term of 99 years from the date hereof, an easement to construct, reconstruct, operate and maintain an electric distribution system, overhead, underground or both including all poles, guys, anchors wires, surface terminals, and all accessories and appurtenances necessary or desirable in connection therewith, under, over, upon and across lands of Owner and/or in or upon all streets, roads or highways abutting said lands situated in Oliver County, North Dakota, and more particularly described as follows, to-wit:

A parcel of land in the SE1/4 of Section 4, Township 141 North, Range 87 West of the Fifth Principal Meridian, 20 feet in width, 10 feet on each side of a centerline described as follows:

Beginning at the north line of Lot "A" in Section 4, Township 141 North, Range 87 West at a point which bears S3°54'37"W a distance of 755.50 feet from the east quarter corner of Section 4, Township 141N, Range 87W; thence S0°49'11"W a distance of 58.39 feet more or less; to the POINT OF TERMINATION at the south line of Lot "A" in Section 4, Township 141N, Range 87W at a point which bears N0°27'54"W a distance of 1809.76 feet from the southeast corner of Section 4, Township 141N, Range 87W.

In Section 4, Township 141 North, Range 87 West of the Fifth Principal Meridian described as follows:

The facilities erected hereunder shall remain the property of the Cooperative. Cooperative shall have the right to inspect, rebuild, remove, repair, improve and make such changes, alterations, substitutions and additions in and to its facilities as Cooperative may from time to time deem advisable, including the right to increase or decrease the size or capacity of its system, together with necessary accessories and appurtenances; the right to increase or decrease the size of the facilities and equipment situated upon the premises; the right to permit or otherwise agree to the joint use or occupancy of the overhead lines or the trench and related underground facilities by other persons, associations or corporations; and the right to at any time use the property described above to extend lines and facilities to serve the property of persons other than the Owner.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches, or lines of the Owner, caused by the Cooperative in the installation, repair maintenance, reconstruction or removal of said electrical properties and appurtenances, shall be promptly repaired, replaced or paid for by the Cooperative, provided a claim therefore is presented to the Cooperative at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Cooperative and the Owner shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

Cooperative shall at all times have the right to keep the easement clear of all buildings, structures or other obstructions, trees, shrubbery, undergrowth and roots.

Owner, his successors and assigns, may use the land within the easement for any purpose not inconsistent with the rights granted, provided such use does not interfere with or endanger the Cooperative's facilities or the rights granted under this easement.

For the purpose of constructing, inspecting, maintaining or operating its facilities, Cooperative shall have the right of ingress to and egress from the easement over the lands of Owner adjacent to the easement and lying between public or private roads and the easement, such right to be exercised in such manner as shall occasion the least practicable damage and inconvenience to Owner.

**NOTICE OF RURAL WATER LINES  
AND EASEMENTS FOR RURAL WATER LINES**

Take notice that the Southwest Water Authority, with offices at 4665 2nd Street SW, West Industrial Park, Dickinson, North Dakota 58601, a political subdivision created by the North Dakota Legislature in 1991 to provide water to southwestern North Dakota, has executed water service agreements requiring water users to grant easements on lands which they own, and has obtained easements for water pipelines, and has installed water delivery facilities on certain lands in Oliver County.

Maps, easements, and water service agreements for these facilities are located at the Southwest Water Authority office and are available for inspection during normal office hours.

Said easements or facilities are located on the following described lands and are shown on the maps attached hereto.

Dated this 29<sup>th</sup> day of January, 2015.

## DECLARATION OF JOLENE RUST

---

[¶1] I, Jolene Rust, declare the following based on personal knowledge:

[¶2] I have ownership interest in the following property that lies within the boundaries of the proposed BK Fischer Storage Facility.

- Township 142 North, Range 88 West  
Section 13: SW1/4  
Mercer County, ND

[¶3] To the best of my knowledge, the property listed in ¶ 2 above is encumbered by the following easements:

- Oliver Mercer Electric Cooperative Right-of-Way Easement executed by John Jochim on June 25, 1980.
- West River Telecommunications Right-of-Way Easement executed by Jolene M. Rust on June 1, 2009.
- Roughrider Electric Cooperative, Inc. Right of Way Easement executed by Jolene Rust on June 1, 2009.
- ND State Water Commission Pipeline Easement executed by Jolene Rust on July 1, 2010.
- Southwest Water Authority Right-of-Way Easement executed by Jolene Rust on March 28, 2014.
- Badlands Cellular of North Dakota d/b/a Verizon Wireless Land Lease Agreement executed by Jolene Rust on November 14, 2008.

[¶4] Attached is the deed which I believe indicates my ownership in the property listed above.

[¶5] Attached are the easements currently encumbering that property based on the information I have.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 23 day of May, 2024 at Turtle Lake, ND, United States.

  
Jolene Rust

## WARRANTY DEED

THIS INDENTURE, made this 30 day of April, 2001, between **John Jochim a/k/a John B. Jochim and Violet Jochim**, husband and wife, grantor, whether one or more, and **Jolene M. Rust**, grantee, whose post office address is 115 W. Railroad Ave., Mercer, ND 58559.

WITNESSETH, for and in consideration of the sum of Ten Dollars and other valuable consideration, grantor does hereby GRANT to the grantee, all of the following real property lying and being in the County of MERCER and State of North Dakota, and described as follows, to-wit:

**TOWNSHIP 142 NORTH, RANGE 88 WEST**  
**Section 13: SW/4**

Subject to prior mineral reservations and conveyances and reserving to grantor,  
John B. Jochim, a life estate in the premises conveyed.

And the said grantor for himself, his heirs, executors and administrators, does covenant with the grantee that he is well seized in fee of the land and premises aforesaid and has good right to sell and convey the same in manner and form aforesaid; that the same are free from all encumbrances, except installments of special assessments or assessments for special improvements which have not been certified to the County Auditor for collection; and the above granted lands and premises in the quiet and peaceable possession of said grantees, against all persons lawfully claiming or to claim the whole or any part thereof, the said grantor will warrant and defend.

**WITNESS, the hand of the grantor:**

John 13. Joachim  
John Joachim

Violet J. Jochim  
Violet Jochim

**I certify that the requirement for a report or statement of full consideration paid does not apply because this deed is for one of the transactions exempted by Subdivision "c" of Section 6 of Section 11-18-02.2 NDCC.**

Signed: Greg Tange  
(grantee/agent)

Dated: 5-1-01

[illegible]

The foregoing instrument was acknowledged before me this 30 day of April, 2001, by John P. Jochim and Violet Jochim, husband and wife.

and to construct, operate, maintain and move or relocate on the above-described lands and/or in or upon all streets, roads or highways abutting said lands, an electric transmission line or system, and to cut and trim trees and shrubbery that may interfere with or threaten to endanger the operation and maintenance of said line or system. The easement shall include only that part of the above described land located within 15 feet on each side of the proposed line.

The undersigned agree that all poles, wires and other facilities, installed on the above described lands at the Cooperative's expense shall remain the property of the Cooperative, removable at the option of the Cooperative.

The Cooperative agrees to pay a reasonable sum for any damage caused to crops or fences by the construction, operation, maintenance, or repair of said line or system. The overall operating height of vehicles and equipment known to cultivate or traverse lands within the easement, is less than fourteen (14) feet, unless otherwise noted below.

IN WITNESS WHEREOF, the undersigned have set their hands and seals this 25 day of June, 1980.

Signed, sealed and delivered in the presence of:

***West River Telecommunications Right-of-Way Easement***

We the undersigned, (whether one or more) **Jolene M. Rust**, Grantor(s), do hereby grant and convey unto ***West River Telecommunications Cooperative***, a cooperative corporation (hereafter called the "Cooperative"), grantee, whose address is P.O. Box 467, Hazen, North Dakota, and its respective successors, assigns, lessees and agents, an easement to survey, construct, repair, operate, upgrade, maintain, relocate, replace and remove such communication systems as the grantee may from time to time require, consisting of but not limited to cables, wires, poles, splicing boxes, and other appurtenances, upon, over and under the land which the undersigned owns or in which the undersigned has any interest in the County of ***Mercer***, State of ***North Dakota***, and more particularly described as follows:

***SW/4 Sec. 13 T142N R88W***

also the right of ingress and egress over and across the lands of the undersigned for the purpose of exercising the rights herein granted; to place surface markers beyond said strip, to clear and keep clear all trees, roots, brush and other obstructions from the surface and subsurface of said strip of land. The boundary of said strip shall be a line parallel to and 10 feet either side of the first cable laid on the land of the undersigned. The undersigned for Grantor(s), their heirs, executors, administrators, successors, and assigns, hereby covenants that no structure shall be erected on said strip.

The undersigned agrees that all poles, wire and other facilities, including telephone equipment, installed on the above described land, shall remain the property of the Cooperative, removable at the option of the Cooperative. The undersigned agrees to this easement with the understanding the Grantor(s), their heirs, executors, administrators, successors, and assigns, may continue to have access to and use of the easement area in any manner consistent with the rights herein granted to the Cooperative, and that the Cooperative will restore the said strip to as near as reasonable to the pre-constructed condition, and that the Cooperative will erect no buildings on said strip.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

The term of this easement shall be for as long as needed by the grantee, and until a release of this easement is recorded, but to not extend beyond the maximum term authorized by law.

Access is hereby granted for a state or federal historical survey of the cable route, should one be required, unless checked. Access denied ☐

IN WITNESS WHEREOF, this instrument has been executed by the undersigned this the 1 day of June, 2009.

RIGHT OF WAY EASEMENT

THIS AGREEMENT made and entered into this 18<sup>th</sup> day of June, 2009, between **JOLENE RUST**, hereinafter called "Owner" (whether one or more) and **ROUGH RIDER ELECTRIC COOPERATIVE, INC.**, whose post office address is 800 Highway Drive, Hazen, North Dakota 58545-4737, hereinafter called "COOPERATIVE".

WITNESSETH that for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Owner grants unto Cooperative, its successors and assigns, for a term of 99 years from the date hereof, an easement to construct, reconstruct, operate and maintain an electric distribution system, overhead, underground or both including all poles, guys, anchors wires, surface terminals, and all accessories and appurtenances necessary or desirable in connection therewith, under, over, upon and across lands of Owner and/or in or upon all streets, roads or highways abutting said lands situated in Mercer County, North Dakota, and more particularly described as follows, to-wit:

A strip of land 20 feet in width, the same being 10 feet on each side of a centerline described as follows.

TOWNSHIP 142 NORTH, RANGE 88 WEST  
Section 13: SW/4

The facilities erected hereunder shall remain the property of the Cooperative. Cooperative shall have the right to inspect, rebuild, remove, repair, improve and make such changes, alterations, substitutions and additions in and to its facilities as Cooperative may from time to time deem advisable, including the right to increase or decrease the size or capacity of its system, together with necessary accessories and appurtenances; the right to increase or decrease the size of the facilities and equipment situated upon the premises; the right to permit or otherwise agree to the joint use or occupancy of the overhead lines or the trench and related underground facilities by other persons, associations or corporations; and the right to at any time use the property described above to extend lines and facilities to serve the property of persons other than the Owner.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches, or lines of the Owner, caused by the Cooperative in the installation, repair maintenance, reconstruction or removal of said electrical properties and appurtenances, shall be promptly repaired, replaced or paid for by the Cooperative, provided a claim therefore is presented to the Cooperative at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Cooperative and the Owner shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

Cooperative shall at all times have the right to keep the easement clear of all buildings, structures or other obstructions, trees, shrubbery, undergrowth and roots.

Owner, his successors and assigns, may use the land within the easement for any purpose not inconsistent with the rights granted, provided such use does not interfere with or endanger the Cooperative's facilities or the rights granted under this easement.

For the purpose of constructing, inspecting, maintaining or operating its facilities, Cooperative shall have the right of ingress to and egress from the easement over the lands of Owner adjacent to the easement and lying between public or private roads and the easement, such right to be exercised in such manner as shall occasion the least practicable damage and inconvenience to Owner.

Owner covenants that he is seized of and has the right to convey the said easement, rights and privileges; that Cooperative shall have quiet and peaceable possession, use and enjoyment of the aforesaid easement, rights and privileges, and that Owner shall execute such further assurances thereof as may be requested by the Cooperative.

## **PIPELINE EASEMENT**

North Dakota State Water Commission  
County of Mercer  
Parcel H-MER-129

### **ALL PERSONS TAKE NOTICE:**

That the undersigned, Jolene Rust, whether one or more, called the Grantor, being the owner of, or having an interest in, land situated in the County of Mercer, State of North Dakota, more fully described below, in consideration of One and No/100 Dollars (\$1.00) and other valuable consideration, does hereby grant, convey, and warrant to the State of North Dakota, acting by and through the North Dakota State Water Commission, a state agency and public corporation, with its principal office at 900 East Boulevard Ave., Bismarck, North Dakota 58505, called the Grantee, and to its successors and assigns, the right, privilege, and easement to construct, maintain, operate, inspect, repair, alter, replace, change the size of or remove a pipeline, and appurtenances thereto, for the transportation of water under, across, and through:

#### **Parcel H-MER-129**

A 40 foot wide strip of land 20 feet wide on each side of the pipeline centerline lying within the W1/2 SW1/4 Section 13, Township 142 North, Range 88 West of the 5th P.M.

Said tract contains 2.42 acres, more or less.

#### **Temporary Construction Easement**

An additional 20 feet of temporary right-of-way lying adjacent to the above described tract for a total construction easement width of 60 feet.

Said tract contains 1.21 acres, more or less.

together with the right to utilize additional land for a period up to three years from the date of this easement, adjacent to the above described tract, for purposes of temporary working space during initial construction of the pipeline, and the right of ingress to and egress from said strip of land across the adjacent lands of the Grantor, for the purposes specified above at the will of the Grantee.

### **THE GRANTOR AND THE GRANTEE FURTHER AGREE:**

1. **Use of right-of-way by Grantor.** Grantor reserves the right to use the surface of the easement strip provided, however, that Grantor, without prior approval of Grantee, shall neither construct nor permit to be constructed any building, structure, or other improvement upon the easement strip which would interfere with Grantee's exercise of the rights conveyed by this pipeline easement, including access to the easement strip.
2. **Appurtenances.** The Grantee shall have the right to install and construct necessary appurtenances upon the surface of the easement strip. Prior to construction, the Grantee will notify the Grantor of the approximate location of such appurtenances if any, to be located on the easement strip, and shall pay to the Grantor the sum of \$500 for each appurtenance located at a distance of more than 5 feet from a field boundary or fence line. Such payments shall be paid prior to construction.
3. **Damages.** The Grantee will pay to Grantor or Grantor's tenants, as their respective interests may appear, for damages caused by the operations or activities of the Grantee; provided, however, that the Grantee shall have the right, without liability for damages, to clear, and keep cleared, all trees, brush, and other obstructions from the easement strip that may, in the Grantee's judgment, interfere with the rights and privileges of the Grantee under this pipeline easement.

If the amount of any damage which Grantor may sustain as a result of Grantee's exercise of rights hereunder cannot be mutually agreed upon, such damages shall be ascertained and determined by three (3) disinterested person; one to be appointed by the Grantor, one by

Grantee, and a third by the two so appointed, and the award of such three persons shall be final and conclusive.

4. **Restoration of surface.** The Grantee will restore the surface of the construction area to its original contour as nearly as practicable.
5. **Topsoil segregation.** When excavating the pipeline trench with a backhoe/trackerhoe, the Grantee will remove the topsoil separately during the construction of the pipeline for the full width of the pipe trench to a depth of twelve (12) inches or the actual topsoil depth, whichever is less, and to be replaced at the top of the backfill over the pipe trench.
6. **Assignment and covenant by parties.** The rights of either party may be assigned in whole or in part. The terms and provisions of this easement shall constitute covenants running with the land and shall be binding upon, and inure to the benefit of, the parties hereto, their successors, assigns, personal representatives, and heirs.
7. **Grantor's title.** Grantor warrants that he is the owner of, or has an interest in, the land described in this easement, and that he has full right and authority to enter into and deliver this easement. This instrument may be executed in counterparts and each counterpart shall constitute a separate agreement between the parties thereto. Any payments pursuant to this pipeline easement shall be in proportion to the Grantor's interest in the undivided fee simple estate.
8. **Entire agreement.** This instrument contains the entire agreement of the parties and there are no other, or different, agreements or understandings between the Grantor and the Grantee, or its agents. The Grantor, in executing this pipeline easement, has not relied upon any promises, inducements, or representatives of the Grantee, or its agents, except as are set forth herein.
9. **Term of easement.** The term of this easement shall be as long as it is needed by the Grantee, or its assigns, and until a release of this easement is recorded, but shall not exceed ninety-nine (99) years pursuant to NDCC §47-05-02.1.
10. **Tenants.** The Grantor represents that the land described in this easement is (not rented) (rented to) Rick Bauman.

Dated this 1 day of July, 2010.

**RIGHT-OF-WAY EASEMENT**

**ALL PERSONS TAKE NOTICE:**

In consideration of one dollar (\$1.00) and other good and valuable consideration JOLENE RUST PO BOX 86 MERCER, ND 58559 hereinafter referred to as Grantor, does hereby grant, bargain, sell, transfer and convey to the Southwest Water Authority, hereinafter referred to as the Grantee, its successor and assigns, a perpetual easement with right to erect, construct, install and lay, and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines, connections, valves and all other appurtenant facilities used in connection with the construction, operation and maintenance of the Southwest Pipeline Project, over, above, across and through the land of the Grantor, situated in Mercer County, State of North Dakota, said land being described as follows: SW1/4 LESS R/W SECTION 13 TOWNSHIP 142 RANGE 88 (the tract that contains 0.18 acres, more or less), together with the right of ingress and egress over the adjacent lands of the Grantor, successors and assigns for the purposes of this easement.

1. The permanent easement will be thirty (30) feet in width, fifteen (15) feet on each side of the center line of the pipeline as constructed, with an additional ten (10) feet of temporary right-of-way for a total construction easement width of forty (40) feet, twenty (20) feet on each side of the center line.
2. The Grantee covenants to maintain the easement in good repair so that no unreasonable damage will result from its use to the adjacent land of the Grantor, successors and assigns. The Grantor will receive compensation for damages to growing crops caused by the construction or operation. The Grantor will report any damages within three (3) years of the construction of the project.

The grant and other provisions of this easement shall constitute a covenant running with the land for the benefit of the Grantee, its successors and assigns.

IN WITNESS WHEREOF, the Grantor has executed this instrument this 28 day of March, 2014.

### MEMORANDUM OF LAND LEASE AGREEMENT

THIS MEMORANDUM OF LAND LEASE AGREEMENT is made this 14<sup>th</sup> day of November, 2008, between Jolene M. Rust and Ryan J. Rust, wife and husband, with a mailing address of 115 West Railroad Street, Mercer, North Dakota 58559, hereinafter referred to as ("LESSOR"), and Badlands Cellular of North Dakota Limited Partnership d/b/a Verizon Wireless, with its address for notice located at 180 Washington Valley Road, Bedminster, New Jersey 07921, hereinafter referred to as ("LESSEE"). LESSOR and LESSEE are at times collectively referred to hereinafter as the "Parties" or individually as the "Party".

1. LESSOR and LESSEE entered into a Land Lease Agreement (the "Agreement") on Nov. 14, 2008, for an initial term of five (5) years, commencing on the Commencement Date. The Agreement shall automatically be extended for four (4) additional five (5) year terms unless LESSEE terminates it at the end of the then current term by giving LESSOR written notice of the intent to terminate at least six (6) months prior to the end of the then current term. If at the end of the fourth (4<sup>th</sup>) five (5) year extension term the Agreement has not been terminated by either Party by giving to the other written notice of an intention to terminate it at least three (3) months prior to the end of such term, the Agreement shall continue in force upon the same covenants, terms and conditions for a further term of five (5) years and for five (5) year terms thereafter until terminated by either Party by giving to the other written notice of its intention to terminate at least three (3) months prior to the end of such term.

2. Pursuant to the Agreement, LESSOR leased to LESSEE a portion of that certain parcel of property (the entirety of LESSOR's property is referred to hereinafter as the "Property") located near the intersection of Mercer County Road 34 and North Dakota Highway 49, in the City of Beulah, County of Mercer, State of North Dakota, and being legally described on Exhibit "A", together with the non-exclusive right for ingress and egress, seven (7) days a week, twenty-four (24) hours a day, on foot or motor vehicle, including trucks, and for the installation and maintenance of utility wires, poles, cables, conduits, and pipes over, under, or along a right-of-way extending from the nearest public right-of-way, North Dakota Highway 49, to the demised premises. The demised premises and right-of-way are referred to as the "Premises." In the event any public utility is unable to use the aforementioned right-of-way, LESSOR has agreed to grant an additional right-of-way either to the LESSEE or to the public utility at no cost to the LESSEE.
3. The Agreement shall commence based upon the date LESSEE commences installation of the equipment on the Premises.
4. LESSEE has the right of first refusal to purchase the Premises during the initial term and all renewal terms of the Agreement.
5. The terms, covenants and provisions of the Agreement, the terms of which are hereby incorporated by reference into this Memorandum, shall extend to and be binding upon the respective executors, administrators, heirs, successors and assigns of LESSOR and LESSEE.

IN WITNESS WHEREOF, hereunto and to a duplicate hereof, LESSOR and LESSEE have caused this Memorandum to be duly executed on the date written herein below.

## DECLARATION OF GARY A. SMITH

---

[¶1] I, Gary A. Smith, declare, based on personal knowledge, as follows:

[¶2] I have ownership interest in the following property that lies within the boundaries of the Review Area of the proposed KJ Hintz Storage Facility.

- Township 142 North, Range 87 West  
Section 15: NE1/4  
Oliver County, ND

[¶3] To the best of my knowledge, the property listed in ¶ 2 above is encumbered by the following easements:

- Oliver-Mercer Electric Cooperative, Inc. Right-of-Way Easement executed by Ralph Smith on June 6, 1946 (91050).
- Roughrider Electric Cooperative, Inc. Right-of-Way Easement executed by Faye Swenson on August 11, 2014 (90519).

[¶4] I have ownership interest in the following properties that lie within the boundaries of the Review Area of the proposed BK Fischer Storage Facility:

- Township 142 North, Range 87 West  
Section 20: NE1/4  
Oliver County, ND
- Township 142 North, Range 87 West  
Section 23: W1/2  
Oliver County, ND

[¶5] To the best of my knowledge, the properties listed in ¶ 4 above are encumbered by the following easements:

- Section 20:
  - i. Oliver-Mercer Electric Cooperative, Inc. Right-of-Way Easement executed by George Fetch and Mrs. George Fetch on October 20, 1950 (91054).
  - ii. ND State Water Commission Pipeline Easement granted by John and Jordan Smith on March 25, 2011 (86782).

- Section 23:
  - i. ND State Water Commission Pipeline Easement granted by John and Jordan Smith on April 8, 2011 (86783).
  - ii. Southwest Water Authority Right-of-Way Easement executed by Jennifer Rudolph on May 26, 2015 (90466).
  - iii. Roughrider Electric Cooperative, Inc. Right-of-Way Easement executed by Gary Smith on February 25, 2016 (92455).

[¶6] I have ownership interest in the following properties that lie between, and will be impacted by, the proposed Storage Facilities:

- Township 142 North, Range 87 West  
Section 15: NW1/4  
Oliver County, ND
- Township 142 North, Range 87 West  
Section 22: SE1/4  
Oliver County, ND
- Township 142 North, Range 87 West  
Section 22: LOT A, within the SE1/4  
Oliver County, ND

described as follows;

COMMENCING at the East Quarter Corner of Section 22;  
 THENCE S 00°00'00" W, along the east line of Section 22, a distance of 120.00',  
 to the true point of beginning;  
 THENCE S 00°00'00" W, along said line, a distance of 660.00';  
 THENCE S 90°00'00" W, a distance of 660.00';  
 THENCE N 00°00'00" E, a distance of 660.00';  
 THENCE N 90°00'00" E, a distance of 660.00', back to the point of beginning.  
 This parcel contains 10.0 acres, more or less.

[¶7] To the best of my knowledge, the properties listed in ¶ 6 above are encumbered by the following easements:

- Section 15:
  - i. Roughrider Electric Cooperative, Inc. Right-of-Way Easement executed by Faye Swenson on August 11, 2014 (90519).

- Section 22:
  - i. Oliver-Mercer Electric Cooperative, Inc. Right-of-Way Easement executed by S.H. Tjaden and Hannah Tjaden on April 23, 1945 (91056).
  - ii. Southwest Water Authority Right-of-Way Easement executed by Jennifer Rudolph on May 26, 2015 (90466).

[¶8] Attached are the deeds which I believe indicate my ownership in each of the properties listed above.

[¶9] Attached are the easements currently encumbering these properties based on the information I have.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 3 day of June, 2024 at 7:18, ND, United States.

## WARRANTY DEED

THIS INDENTURE, Made this 30<sup>th</sup> day of September, in the year of our Lord two thousand fourteen, between JOHN A. SMITH, single, whose postoffice address is 2144 56<sup>th</sup> Avenue SW, Beulah, ND 58523, party of the first part, and GARY A. SMITH, whose postoffice address is 6800 81<sup>st</sup> Street NE, Bismarck, ND 58503, and JENNIFER L. RUDOLPH, whose post office address is 5400 Kayley Drive, Bismarck, ND 58504, parties of the second part;

WITNESSETH, That the said party of the first part, for and in consideration of the sum of ONE DOLLAR AND OTHER VALUABLE CONSIDERATION to him in hand paid by said parties of the second part, the receipt whereof is hereby acknowledged, does by these presents GRANT, BARGAIN, SELL AND CONVEY unto the said party of the second part, their heirs and assigns, FOREVER, all the tract or parcel of land lying and being in the County of Oliver and State of North Dakota, and described as follows, to-wit:

All of the Grantor's interest in the following:

TOWNSHIP 142 NORTH, RANGE 87 WEST:

Section 22: SW $\frac{1}{4}$  and E $\frac{1}{2}$

Section 23: W $\frac{1}{2}$

Section 24: E $\frac{1}{2}$ SW $\frac{1}{4}$ ; W $\frac{1}{2}$ SE $\frac{1}{4}$

Subject to all existing easements and rights of way, prior mineral reservations and to all exceptions, conditions, or limitations expressed in Government Patents or in deeds of record.

GRANTOR RESERVES UNTO HIMSELF, A LIFE ESTATE IN THE ABOVE DESCRIBED PROPERTY. THIS LIFE ESTATE SHALL INCLUDE THE RIGHT TO EXECUTE MINERAL LEASES AND RECEIVE ANY ROYALTIES PRODUCED FROM THIS REAL ESTATE DURING THE LIFE OF THE GRANTOR.

TO HAVE AND TO HOLD THE SAME, Together with all the hereditaments and appurtenances thereunto belonging or in anywise appertaining, to the said parties of the second part, their heirs and assigns FOREVER. And the said JOHN A. SMITH, single, said party of the first part, for himself, his heirs and assigns, that he is well seized in fee of the land and premises aforesaid, and has good right to sell and convey the same in manner and form aforesaid; that the same are free from all incumbrances,

and the above bargained and granted land and premises in the quiet and peaceable possession of said parties of the second part, their heirs and assigns, against all persons lawfully claiming or to claim the whole or any part thereof, the said party of the first part will warrant and defend.

## WARRANTY DEED

THIS INDENTURE, Made this 30<sup>th</sup> day of September, in the year of our Lord two thousand fourteen, between JOHN A. SMITH, single, whose postoffice address is 2144 56<sup>th</sup> Avenue SW, Beulah, ND 58523, party of the first part, and GARY A. SMITH, whose postoffice address is 6800 81<sup>st</sup> Street NE, Bismarck, ND 58503, and JENNIFER L. RUDOLPH, whose post office address is 5400 Kayley Drive, Bismarck, ND 58504, parties of the second part;

WITNESSETH, That the said party of the first part, for and in consideration of the sum of ONE DOLLAR AND OTHER VALUABLE CONSIDERATION to him in hand paid by said parties of the second part, the receipt whereof is hereby acknowledged, does by these presents GRANT, BARGAIN, SELL AND CONVEY unto the said party of the second part, their heirs and assigns, FOREVER, all the tract or parcel of land lying and being in the County of Oliver and State of North Dakota, and described as follows, to-wit:

All of the Grantor's interest in the following:

TOWNSHIP 142 NORTH, RANGE 87 WEST:

Section 22: SW $\frac{1}{4}$  and E $\frac{1}{2}$

Section 23: W $\frac{1}{2}$

Section 24: E $\frac{1}{2}$ SW $\frac{1}{4}$ ; W $\frac{1}{2}$ SE $\frac{1}{4}$

Subject to all existing easements and rights of way, prior mineral reservations and to all exceptions, conditions, or limitations expressed in Government Patents or in deeds of record.

GRANTOR RESERVES UNTO HIMSELF, A LIFE ESTATE IN THE ABOVE DESCRIBED PROPERTY. THIS LIFE ESTATE SHALL INCLUDE THE RIGHT TO EXECUTE MINERAL LEASES AND RECEIVE ANY ROYALTIES PRODUCED FROM THIS REAL ESTATE DURING THE LIFE OF THE GRANTOR.

TO HAVE AND TO HOLD THE SAME, Together with all the hereditaments and appurtenances thereunto belonging or in anywise appertaining, to the said parties of the second part, their heirs and assigns FOREVER. And the said JOHN A. SMITH, single, said party of the first part, for himself, his heirs and assigns, that he is well seized in fee of the land and premises aforesaid, and has good right to sell and convey the same in manner and form aforesaid; that the same are free from all incumbrances,

and the above bargained and granted land and premises in the quiet and peaceable possession of said parties of the second part, their heirs and assigns, against all persons lawfully claiming or to claim the whole or any part thereof, the said party of the first part will warrant and defend.

RIGHT-OF-WAY EASEMENT

COUNTY OF YTMUCO

KNOW ALL MEN BY THESE PRESENTS, that the undersigned

Ralph Smith (single)

for a good and valuable consideration, the receipt whereof is hereby acknowledged, does hereby grant unto the Oliver-Mercer Electric Cooperative, Inc. a as a corporation, whose post office address is Hazen, N. Dak. North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the county of Oliver, State of North Dakota and more particularly described as follows:

Section 15, 142-87, T14S, R10E, N14W

and to place, construct, operate, repair, maintain, relocate and replace thereon and in or upon all streets, roads or highways abutting said lands an electric transmission or distribution line or system, and to cut and trim trees and shrubbery to the extent necessary to keep them clear of said electric line or system and to cut down from time to time all dead, weak, leaning or dangerous trees that are tall enough to strike the wires in falling.

In granting this easement it is understood that at pole locations, only a single pole and arrangement will be used, and that the location of the pole will be such as to form the least possible interference to farm operations, so long as it does not materially increase the cost of construction.

The undersigned covenants that he is the owner of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

It is further understood that, whenever necessary, words in this instrument in the singular shall be construed to read in the plural and that words used in the masculine gender shall be construed to read in the feminine.

IN WITNESS WHEREOF, the undersigned has set his hand and seal this 21st day of June, 1946

Signed, sealed and delivered in the presence of:

Ralph Smith

RIGHT OF WAY EASEMENT

THIS AGREEMENT made and entered into this 11<sup>th</sup> day of AUGUST, 2014, between Faye Swenson, hereinafter called "Owner" (whether one or more) and **ROUGH RIDER ELECTRIC COOPERATIVE, INC.**, whose post office address is 800 Highway Drive, Hazen, North Dakota 58545-4737, hereinafter called "COOPERATIVE".

WITNESSETH that for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Owner grants unto Cooperative, its successors and assigns, for a term of 99 years from the date hereof, an easement to construct, reconstruct, operate and maintain an electric distribution system, overhead, underground or both including all poles, guys, anchors wires, surface terminals, and all accessories and appurtenances necessary or desirable in connection therewith, under, over, upon and across lands of Owner and/or in or upon all streets, roads or highways abutting said lands situated in Oliver County, North Dakota, and more particularly described as follows, to-wit:

A strip of land 20 feet in width, the same being 10 feet on each side of a centerline described as follows.

TOWNSHIP 142 NORTH, RANGE 87 WEST  
Section 15

The facilities erected hereunder shall remain the property of the Cooperative. Cooperative shall have the right to inspect, rebuild, remove, repair, improve and make such changes, alterations, substitutions and additions in and to its facilities as Cooperative may from time to time deem advisable, including the right to increase or decrease the size or capacity of its system, together with necessary accessories and appurtenances; the right to increase or decrease the size of the facilities and equipment situated upon the premises; the right to permit or otherwise agree to the joint use or occupancy of the overhead lines or the trench and related underground facilities by other persons, associations or corporations; and the right to at any time use the property described above to extend lines and facilities to serve the property of persons other than the Owner.

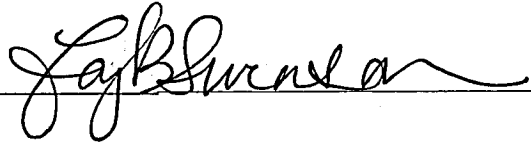

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches, or lines of the Owner, caused by the Cooperative in the installation, repair maintenance, reconstruction or removal of said electrical properties and appurtenances, shall be promptly repaired, replaced or paid for by the Cooperative, provided a claim therefore is presented to the Cooperative at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Cooperative and the Owner shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

Cooperative shall at all times have the right to keep the easement clear of all buildings, structures or other obstructions, trees, shrubbery, undergrowth and roots.

Owner, his successors and assigns, may use the land within the easement for any purpose not inconsistent with the rights granted, provided such use does not interfere with or endanger the Cooperative's facilities or the rights granted under this easement.

For the purpose of constructing, inspecting, maintaining or operating its facilities, Cooperative shall have the right of ingress to and egress from the easement over the lands of Owner adjacent to the easement and lying between public or private roads and the easement, such right to be exercised in such manner as shall occasion the least practicable damage and inconvenience to Owner.

Owner covenants that he is seized of and has the right to convey the said easement, rights and privileges; that Cooperative shall have quiet and peaceable possession, use and enjoyment of the aforesaid easement, rights and privileges, and that Owner shall execute such further assurances thereof as may be requested by the Cooperative.

RIGHT OF WAY EASEMENT

KNOW ALL MEN BY THESE PRESENTS, that we the undersigned, (Whether one or more) George Fetch and Mrs. George Fetch

(~~married~~) (husband and wife), for a good and valuable consideration, the receipt whereof is hereby acknowledged, do hereby grant unto Oliver Mercer Electric Cooperative, Inc., a cooperative corporation, (hereinafter called the "Cooperative"), whose post office address is Hazen, North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the County of Oliver, State of North Dakota, and more particularly described as follows:

A tract of land approximately \_\_\_\_\_ acres in area, located \_\_\_\_\_ miles in a \_\_\_\_\_ direction from the town of \_\_\_\_\_, and further described as being in the

NE 1/4 Section 20 Township 142 Range 82  
 \_\_\_\_\_ Section \_\_\_\_\_ Township \_\_\_\_\_ Range \_\_\_\_\_  
 \_\_\_\_\_ Section \_\_\_\_\_ Township \_\_\_\_\_ Range \_\_\_\_\_  
 \_\_\_\_\_ Section \_\_\_\_\_ Township \_\_\_\_\_ Range \_\_\_\_\_

and to contract, operate and maintain on the above described lands, and/or in or upon all streets, roads or highways abutting said lands, an electric transmission or distribution line or system, and to cut and trim trees and shrubbery that may interfere with or threaten to endanger the operation and maintenance of said line or system.

The undersigned agree that all poles, wires, and other facilities, including any main service entrance equipment, installed on the above-described lands at the Cooperative's expense shall remain the property of the Cooperative, removable at the option of the Cooperative, upon the termination of service to or on said lands.

The undersigned covenant that they are the owners of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

IN WITNESS WHEREOF, the undersigned have set their hands and seals this

20 day of Oct 1950

X George Fetch (L.S.)

## PIPELINE EASEMENT

North Dakota State Water Commission  
County of Oliver  
Parcel H-OL-138

OFFICE OF THE COUNTY RECORDER  
STATE OF NORTH DAKOTA  
COUNTY OF OLIVER  
Filed for record this 16 day  
of Sept A.D. 2011  
at 11:45 o'clock  M.,  
and recorded as document No. 86774  
in book EE of Musc page 401-603  
D. Williams  
County Recorder Deputy 16-

### **ALL PERSONS TAKE NOTICE:**

That the undersigned, Eva Dwyer, whether one or more, called the Grantor, being the owner of, or having an interest in, land situated in the County of Oliver, State of North Dakota, more fully described below, in consideration of One and No/100 Dollars (\$1.00) and other valuable consideration, does hereby grant, convey, and warrant to the State of North Dakota, acting by and through the North Dakota State Water Commission, a state agency and public corporation, with its principal office at 900 East Boulevard Ave., Bismarck, North Dakota 58505, called the Grantee, and to its successors and assigns, the right, privilege, and easement to construct, maintain, operate, inspect, repair, alter, replace, change the size of or remove a pipeline, and appurtenances thereto, for the transportation of water under, across, and through:

#### Parcel H-OL-138

A 40 foot wide strip of land 20 feet wide on each side of the pipeline centerline lying within the NE1/4 Section 20, Township 142 North, Range 87 West of the 5th P.M.

Said tract contains 2.42 acres, more or less.

#### Temporary Construction Easement

An additional 20 feet of temporary right-of-way lying adjacent to the above described tract for a total construction easement width of 60 feet.

Said tract contains 1.21 acres, more or less.

together with the right to utilize additional land for a period up to three years from the date of this easement, adjacent to the above described tract, for purposes of temporary working space during initial construction of the pipeline, and the right of ingress to and egress from said strip of land across the adjacent lands of the Grantor, for the purposes specified above at the will of the Grantee.

### **THE GRANTOR AND THE GRANTEE FURTHER AGREE:**

- Use of right-of-way by Grantor.** Grantor reserves the right to use the surface of the easement strip provided, however, that Grantor, without prior approval of Grantee, shall neither construct nor permit to be constructed any building, structure, or other improvement upon the easement strip which would interfere with Grantee's exercise of the rights conveyed by this pipeline easement, including access to the easement strip.
- Appurtenances.** The Grantee shall have the right to install and construct necessary appurtenances upon the surface of the easement strip. Prior to construction, the Grantee will notify the Grantor of the approximate location of such appurtenances if any, to be located on the easement strip, and shall pay to the Grantor the sum of \$500 for each appurtenance located at a distance of more than 5 feet from a field boundary or fence line. Such payments shall be paid prior to construction.
- Damages.** The Grantee will pay to Grantor or Grantor's tenants, as their respective interests may appear, for damages caused by the operations or activities of the Grantee; provided, however, that the Grantee shall have the right, without liability for damages, to clear, and keep cleared, all trees, brush, and other obstructions from the easement strip that may, in the Grantee's judgment, interfere with the rights and privileges of the Grantee under this pipeline easement.

If the amount of any damage which Grantor may sustain as a result of Grantee's exercise of rights hereunder cannot be mutually agreed upon, such damages shall be ascertained and

determined by three (3) disinterested person; one to be appointed by the Grantor, one by Grantee, and a third by the two so appointed, and the award of such three persons shall be final and conclusive.

4. **Restoration of surface.** The Grantee will restore the surface of the construction area to its original contour as nearly as practicable.
5. **Topsoil segregation.** When excavating the pipeline trench with a backhoe/trackhoe, the Grantee will remove the topsoil separately during the construction of the pipeline for the full width of the pipe trench to a depth of twelve (12) inches or the actual topsoil depth, whichever is less, and to be replaced at the top of the backfill over the pipe trench.
6. **Assignment and covenant by parties.** The rights of either party may be assigned in whole or in part. The terms and provisions of this easement shall constitute covenants running with the land and shall be binding upon, and inure to the benefit of, the parties hereto, their successors, assigns, personal representatives, and heirs.
7. **Grantor's title.** Grantor warrants that he is the owner of, or has an interest in, the land described in this easement, and that he has full right and authority to enter into and deliver this easement. This instrument may be executed in counterparts and each counterpart shall constitute a separate agreement between the parties thereto. Any payments pursuant to this pipeline easement shall be in proportion to the Grantor's interest in the undivided fee simple estate.
8. **Entire agreement.** This instrument contains the entire agreement of the parties and there are no other, or different, agreements or understandings between the Grantor and the Grantee, or its agents. The Grantor, in executing this pipeline easement, has not relied upon any promises, inducements, or representatives of the Grantee, or its agents, except as are set forth herein.
9. **Term of easement.** The term of this easement shall be as long as it is needed by the Grantee, or its assigns, and until a release of this easement is recorded, but shall not exceed ninety-nine (99) years pursuant to NDCC §47-05-02.1.
10. **Tenants.** The Grantor represents that the land described in this easement is (not rented) (rented to) \_\_\_\_\_.

Dated this 23<sup>rd</sup> day of May, 2011.

County Recorder Deputy 16

### **ALL PERSONS TAKE NOTICE:**

That the undersigned, John Smith and Jordan Smith, called the Grantor, being the owner of, or having an interest in, land situated in the County of Oliver, State of North Dakota, more fully described below, in consideration of One and No/100 Dollars (\$1.00) and other valuable consideration, does hereby grant, convey, and warrant to the State of North Dakota, acting by and through the North Dakota State Water Commission, a state agency and public corporation, with its principal office at 900 East Boulevard Ave., Bismarck, North Dakota 58505, called the Grantee, and to its successors and assigns, the right, privilege, and easement to construct, maintain, operate, inspect, repair, alter, replace, change the size of or remove a pipeline, and appurtenances thereto, for the transportation of water under, across, and through:

#### Parcel H-OL-138

A 40 foot wide strip of land 20 feet wide on each side of the pipeline centerline lying within the NE1/4 Section 20, Township 142 North, Range 87 West of the 5th P.M.

Said tract contains 2.42 acres, more or less.

#### Temporary Construction Easement

An additional 20 feet of temporary right-of-way lying adjacent to the above described tract for a total construction easement width of 60 feet.

Said tract contains 1.21 acres, more or less.

together with the right to utilize additional land for a period up to three years from the date of this easement, adjacent to the above described tract, for purposes of temporary working space during initial construction of the pipeline, and the right of ingress to and egress from said strip of land across the adjacent lands of the Grantor, for the purposes specified above at the will of the Grantee.

### **THE GRANTOR AND THE GRANTEE FURTHER AGREE:**

- Use of right-of-way by Grantor.** Grantor reserves the right to use the surface of the easement strip provided, however, that Grantor, without prior approval of Grantee, shall neither construct nor permit to be constructed any building, structure, or other improvement upon the easement strip which would interfere with Grantee's exercise of the rights conveyed by this pipeline easement, including access to the easement strip.
- Appurtenances.** The Grantee shall have the right to install and construct necessary appurtenances upon the surface of the easement strip. Prior to construction, the Grantee will notify the Grantor of the approximate location of such appurtenances if any, to be located on the easement strip, and shall pay to the Grantor the sum of \$500 for each appurtenance located at a distance of more than 5 feet from a field boundary or fence line. Such payments shall be paid prior to construction.
- Damages.** The Grantee will pay to Grantor or Grantor's tenants, as their respective interests may appear, for damages caused by the operations or activities of the Grantee; provided, however, that the Grantee shall have the right, without liability for damages, to clear, and keep cleared, all trees, brush, and other obstructions from the easement strip that may, in the Grantee's judgment, interfere with the rights and privileges of the Grantee under this pipeline easement.

If the amount of any damage which Grantor may sustain as a result of Grantee's exercise of rights hereunder cannot be mutually agreed upon, such damages shall be ascertained and determined by three (3) disinterested person; one to be appointed by the Grantor, one by

Grantee, and a third by the two so appointed, and the award of such three persons shall be final and conclusive.

4. **Restoration of surface.** The Grantee will restore the surface of the construction area to its original contour as nearly as practicable.
5. **Topsoil segregation.** When excavating the pipeline trench with a backhoe/trackhoe, the Grantee will remove the topsoil separately during the construction of the pipeline for the full width of the pipe trench to a depth of twelve (12) inches or the actual topsoil depth, whichever is less, and to be replaced at the top of the backfill over the pipe trench.
6. **Assignment and covenant by parties.** The rights of either party may be assigned in whole or in part. The terms and provisions of this easement shall constitute covenants running with the land and shall be binding upon, and inure to the benefit of, the parties hereto, their successors, assigns, personal representatives, and heirs.
7. **Grantor's title.** Grantor warrants that he is the owner of, or has an interest in, the land described in this easement, and that he has full right and authority to enter into and deliver this easement. This instrument may be executed in counterparts and each counterpart shall constitute a separate agreement between the parties thereto. Any payments pursuant to this pipeline easement shall be in proportion to the Grantor's interest in the undivided fee simple estate.
8. **Entire agreement.** This instrument contains the entire agreement of the parties and there are no other, or different, agreements or understandings between the Grantor and the Grantee, or its agents. The Grantor, in executing this pipeline easement, has not relied upon any promises, inducements, or representatives of the Grantee, or its agents, except as are set forth herein.
9. **Term of easement.** The term of this easement shall be as long as it is needed by the Grantee, or its assigns, and until a release of this easement is recorded, but shall not exceed ninety-nine (99) years pursuant to NDCC §47-05-02.1.
10. **Tenants.** The Grantor represents that the land described in this easement is (not rented) (rented to) Linnel & Lance Doll.

**PIPELINE EASEMENT**

North Dakota State Water Commission  
County of Oliver  
Parcels H-OL-142, H-OL-144

OFFICE OF COUNTY RECORDER  
STATE OF NORTH DAKOTA  
COUNTY OF OLIVER  
Filed for record this 16 day  
of Sept A.D. 2011  
at 11:57 o'clock A M.,  
and recorded as document No. 86783  
in book FF of Misc page 413-415  
D. Wilkins  
County Recorder Deputy 16

**ALL PERSONS TAKE NOTICE:**

That the undersigned, John Smith and Jordan Smith, whether one or more, called the Grantor, being the owner of, or having an interest in, land situated in the County of Oliver, State of North Dakota, more fully described below, in consideration of One and No/100 Dollars (\$1.00) and other valuable consideration, does hereby grant, convey, and warrant to the State of North Dakota, acting by and through the North Dakota State Water Commission, a state agency and public corporation, with its principal office at 900 East Boulevard Ave., Bismarck, North Dakota 58505, called the Grantee, and to its successors and assigns, the right, privilege, and easement to construct, maintain, operate, inspect, repair, alter, replace, change the size of or remove a pipeline, and appurtenances thereto, for the transportation of water under, across, and through:

**Parcel H-OL-142**

A 40 foot wide strip of land 20 feet wide on each side of the pipeline centerline lying within the North 200 feet of the East 200 feet of the NE1/4 Section 22, Township 142 North, Range 87 West of the 5th P.M.

Said tract contains 0.18 acres, more or less.

**Temporary Construction Easement**

An additional 20 feet of temporary right-of-way lying adjacent to the above described tract for a total construction easement width of 60 feet.

Said tract contains 0.10 acres, more or less.

**Parcel H-OL-144**

A 40 foot wide strip of land 20 feet wide on each side of the pipeline centerline lying within the NW1/4 Section 23, Township 142 North, Range 87 West of the 5th P.M.

Said tract contains 2.42 acres, more or less.

**Temporary Construction Easement**

An additional 20 feet of temporary right-of-way lying adjacent to the above described tract for a total construction easement width of 60 feet.

Said tract contains 1.21 acres, more or less.

together with the right to utilize additional land for a period up to three years from the date of this easement, adjacent to the above described tract, for purposes of temporary working space during initial construction of the pipeline, and the right of ingress to and egress from said strip of land across the adjacent lands of the Grantor, for the purposes specified above at the will of the Grantee.

**THE GRANTOR AND THE GRANTEE FURTHER AGREE:**

- Use of right-of-way by Grantor.** Grantor reserves the right to use the surface of the easement strip provided, however, that Grantor, without prior approval of Grantee, shall neither construct nor permit to be constructed any building, structure, or other improvement upon the easement strip which would interfere with Grantee's exercise of the rights conveyed by this pipeline easement, including access to the easement strip.

2. **Appurtenances.** The Grantee shall have the right to install and construct necessary appurtenances upon the surface of the easement strip. Prior to construction, the Grantee will notify the Grantor of the approximate location of such appurtenances if any, to be located on the easement strip, and shall pay to the Grantor the sum of \$500 for each appurtenance located at a distance of more than 5 feet from a field boundary or fence line. Such payments shall be paid prior to construction.
3. **Damages.** The Grantee will pay to Grantor or Grantor's tenants, as their respective interests may appear, for damages caused by the operations or activities of the Grantee; provided, however, that the Grantee shall have the right, without liability for damages, to clear, and keep cleared, all trees, brush, and other obstructions from the easement strip that may, in the Grantee's judgment, interfere with the rights and privileges of the Grantee under this pipeline easement.

If the amount of any damage which Grantor may sustain as a result of Grantee's exercise of rights hereunder cannot be mutually agreed upon, such damages shall be ascertained and determined by three (3) disinterested person; one to be appointed by the Grantor, one by Grantee, and a third by the two so appointed, and the award of such three persons shall be final and conclusive.

4. **Restoration of surface.** The Grantee will restore the surface of the construction area to its original contour as nearly as practicable.
5. **Topsoil segregation.** When excavating the pipeline trench with a backhoe/trackhoe, the Grantee will remove the topsoil separately during the construction of the pipeline for the full width of the pipe trench to a depth of twelve (12) inches or the actual topsoil depth, whichever is less, and to be replaced at the top of the backfill over the pipe trench.
6. **Assignment and covenant by parties.** The rights of either party may be assigned in whole or in part. The terms and provisions of this easement shall constitute covenants running with the land and shall be binding upon, and inure to the benefit of, the parties hereto, their successors, assigns, personal representatives, and heirs.
7. **Grantor's title.** Grantor warrants that he is the owner of, or has an interest in, the land described in this easement, and that he has full right and authority to enter into and deliver this easement. This instrument may be executed in counterparts and each counterpart shall constitute a separate agreement between the parties thereto. Any payments pursuant to this pipeline easement shall be in proportion to the Grantor's interest in the undivided fee simple estate.
8. **Entire agreement.** This instrument contains the entire agreement of the parties and there are no other, or different, agreements or understandings between the Grantor and the Grantee, or its agents. The Grantor, in executing this pipeline easement, has not relied upon any promises, inducements, or representatives of the Grantee, or its agents, except as are set forth herein.
9. **Term of easement.** The term of this easement shall be as long as it is needed by the Grantee, or its assigns, and until a release of this easement is recorded, but shall not exceed ninety-nine (99) years pursuant to NDCC §47-05-02.1.
10. **Tenants.** The Grantor represents that the land described in this easement is (not rented) (rented to) \_\_\_\_\_.

Dated this 8 day of April, 2011.

### ALL PERSONS TAKE NOTICE:

In consideration of one dollar (\$1.00) and other good and valuable consideration JORDAN B. SMITH 36497 320<sup>TH</sup> ST. BENSON, MN 56215 hereinafter referred to as Grantor, does hereby grant, bargain, sell, transfer and convey to the Southwest Water Authority, hereinafter referred to as the Grantee, its successor and assigns, a perpetual easement with right to erect, construct, install and lay, and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines, connections, valves and all other appurtenant facilities used in connection with the construction, operation and maintenance of the Southwest Pipeline Project, over, above, across and through the land of the Grantor, situated in Oliver County, State of North Dakota, said land being described as follows: SE1/4 SECTION 22 & NW1/4, SW1/4 SECTION 23 TOWNSHIP 142 RANGE 87 (the tract that contains 6.38 acres, more or less), together with the right of ingress and egress over the adjacent lands of the Grantor, successors and assigns for the purposes of this easement.

1. The permanent easement will be thirty (30) feet in width, fifteen (15) feet on each side of the center line of the pipeline as constructed, with an additional ten (10) feet of temporary right-of-way for a total construction easement width of forty (40) feet, twenty (20) feet on each side of the center line.

2. The Grantee covenants to maintain the easement in good repair so that no unreasonable damage will result from its use to the adjacent land of the Grantor, successors and assigns. The Grantor will receive compensation for damages to growing crops caused by the construction or operation. The Grantor will report any damages within three (3) years of the construction of the project.

The grant and other provisions of this easement shall constitute a covenant running with the land for the benefit of the Grantee, its successors and assigns.

IN WITNESS WHEREOF, the Grantor has executed this instrument this 29 day of May, 2015.

## RIGHT OF WAY EASEMENT

THIS AGREEMENT made and entered into this 25<sup>th</sup> day of February, 2016, between Jennifer Rudolph of 5400 Kayley Drive, Bismarck, ND 58504, hereinafter called "Owner" (whether one or more) and ROUGHRIDER ELECTRIC COOPERATIVE, INC., whose post office address is 800 Highway Drive, Hazen, North Dakota 58545-4737, hereinafter called "COOPERATIVE".

WITNESSETH that for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Owner grants unto Cooperative, its successors and assigns, for a term of 99 years from the date hereof, an easement to construct, reconstruct, operate and maintain an electric distribution system, overhead, underground or both including all poles, guys, anchors wires, surface terminals, and all accessories and appurtenances necessary or desirable in connection therewith, under, over, upon and across lands of Owner and/or in or upon all streets, roads or highways abutting said lands situated in Oliver County, North Dakota, and more particularly described as follows, to-wit:

A parcel of land in the W1/2 of Section 23, Township 142 North, Range 87 West of the Fifth Principal Meridian, 20 feet in width, 10 feet on each side of a centerline described as follows:

Beginning at the east line of the northwest corner of Section 23, Township 142 North, Range 87 West, at a point which bears S87°41'07"E a distance of 2634.65 feet from the northwest corner of Section 23, Township 142N, Range 87W; thence N89°21'16"W a distance of 2599.21 feet; thence S0°56'27"W a distance of 5192.35 feet more or less; to the POINT OF TERMINATION at the south line of the southwest quarter of Section 23, Township 142N, Range 87W, at a point which bears N1°48'17"E a distance of 2637.57 feet from the west quarter of Section 26, Township 142N, Range 87W.

In Section 23, Township 142 North, Range 87 West of the Fifth Principal Meridian described as follows:

The facilities erected hereunder shall remain the property of the Cooperative. Cooperative shall have the right to inspect, rebuild, remove, repair, improve and make such changes, alterations, substitutions and additions in and to its facilities as Cooperative may from time to time deem advisable, including the right to increase or decrease the size or capacity of its system, together with necessary accessories and appurtenances; the right to increase or decrease the size of the facilities and equipment situated upon the premises; the right to permit or otherwise agree to the joint use or occupancy of the overhead lines or the trench and related underground facilities by other persons, associations or corporations; and the right to at any time use the property described above to extend lines and facilities to serve the property of persons other than the Owner.

Any damages to the surface of the right-of-way or to crops, fences, gates, drains, ditches, or lines of the Owner, caused by the Cooperative in the installation, repair maintenance, reconstruction or removal of said electrical properties and appurtenances, shall be promptly repaired, replaced or paid for by the Cooperative, provided a claim therefore is presented to the Cooperative at its General Office within ninety (90) days after such damages occur. If the amount of said damages cannot be agreed upon, the Cooperative and the Owner shall each select an arbitrator, and these two shall select a third arbitrator, and the decision and award of the arbitrators shall be final.

Cooperative shall at all times have the right to keep the easement clear of all buildings, structures or other obstructions, trees, shrubbery, undergrowth and roots.

Owner, his successors and assigns, may use the land within the easement for any purpose not inconsistent with the rights granted, provided such use does not interfere with or endanger the Cooperative's facilities or the rights granted under this easement.

For the purpose of constructing, inspecting, maintaining or operating its facilities, Cooperative shall have the right of ingress to and egress from the easement over the lands of Owner adjacent to the easement and lying between public or private roads and the easement, such right to be exercised in such manner as shall occasion the least practicable damage and inconvenience to Owner.

Owner covenants that he is seized of and has the right to convey the said easement, rights and privileges; that Cooperative shall have quiet and peaceable possession, use and enjoyment of the aforesaid easement, rights and privileges, and that Owner shall execute such further assurances thereof as may be requested by the Cooperative.

RIGHT-OF-WAY EASEMENT TO YTHUOO

KNOW ALL MEN BY THESE PRESENTS that the undersigned and to him at

S. H. Tjaden and Hannah Tjaden (wife) for a good and valuable consid-  
eration, the receipt whereof is hereby acknowledged, does hereby grant unto the  
Oliver-Mercer Electric Cooperative, Inc. a corporation, whose post office address is Hazen, N. Dak.  
North Dakota, and to its successors or assigns, the right to enter upon the lands of the undersigned, situated in the county of  
of Oliver, State of North Dakota and more particu-

larly described as follows:

Sec. 22 Township 142-87 North Dakota

and to place, construct, operate, repair, maintain, relocate and replace thereon and in or upon all streets, roads or highways abutting said lands an electric transmission or distribution line or system, and to cut and trim trees and shrubbery to the extent necessary to keep them clear of said electric line or system and to cut down from time to time all dead, weak, leaning or dangerous trees that are tall enough to strike the wires in falling.

In granting this easement it is understood that at pole locations, only a single pole and arrangement will be used, and that the location of the pole will be such as to form the least possible interference to farm operations, so long as it does not materially increase the cost of construction.

The undersigned covenants that he is the owner of the above described lands and that the said lands are free and clear of encumbrances and liens of whatsoever character except those held by the following persons:

None

(S)  
It is further understood that, whenever necessary, words in this instrument in the singular shall be construed to read in the plural and that words used in the masculine gender shall be construed to read in the feminine.

IN WITNESS WHEREOF, the undersigned have set their hands and seals this 23rd day of April, 1945.

Signed, sealed and delivered in the presence of:

Edna Michael Hannah Tjaden

JUN 6 2024

Good Morning:

You are making a decision on Liquids, regardless of whether they are owned or operated by a pump station. **ND Oil & Gas Division**  
 Could you please explain what is the FACILITY IN THIS CASE – Summit Solutions or the place of burial of Carbon/CO2? How are reports compiled if it is the earth where Carbon/CO2 is buried? If Summit Solutions is only burying Carbon/CO2 for 10 years, does that mean the sequester of Carbon/CO2 will end in 10 years? How much capacity is available now and will the pump stations be used to send the Carbon/CO2 to places that will use it and pay for it? Who gets the payment for future use of Carbon/CO2 if it can be brought up from the earth after burying it but it is supposed to be “permanently buried”? Does the money go to the investors only? Will ND other than the land owners receive money? Other pipelines pay taxes, will Summit Solutions pay taxes on the land with the pipeline on it and/or where it is buried?

80% of the projects to have attempted to commercialize carbon capture and sequestration technology have ended in failure. Why use taxpayers-your and my- money for a technology that has such a poor track record? At this time there is no proof that carbon will stay buried. I have heard it will adhere to the wall of the cavity and never be able to be brought up.

Does it take more pressure to move Carbon/CO2 through a 24” pipe than through an 18” pipe?

One of my concerns is the FAULT lines. We have had 13 earthquakes in ND. 3 of them were in Eastern ND and the rest were along the FAULT lines in Western ND. Earthquakes are caused by the sudden slip of a fault in the upper few hundred kilometers of the earth. So far the earthquakes have been very minor. But we are burying lots of Carbon/CO2 in an area near the fault lines? St. Helena erupted because of too much Carbon/CO2 in one area and it finally heated up.

I have listed the earthquakes:

Oliver and Mercer County to Sheridan had an earthquake in the 1900's. Makoti Fault is in Dunn and Mercer counties.

Goodrich had an earthquake on 11.15.2008 with a Magnitude of 2.6 and Depth of 11.2 miles.

Grenora had an earthquake on 1.03.2009 with a Magnitude of 1.5 and Depth of 8.3 miles.

Ft. Berthold SW, Dunn County, (which is next to Mercer County) had an earthquake on 8.03.2009 with a Magnitude of 1.9 and Depth of 3.1 miles

Yellowstone and Missouri River, McKenzie County had an earthquake on 3.21.2010 with a Magnitude of 2.5 and Depth of 3.1 miles

Boxelder Creek had an earthquake on 6.14.2010 with a Magnitude of 1.4 and Depth of 3 miles

SE of Williston in Dunn County which is next to Mercer County had an earthquake 9.28.2012 with a III Intensity of 3.3 and Depth of .04 miles

**AND we are dumping Carbon/CO2 in or near these fault lines. I have drawn a fault line in the near area of where Carbon/CO2 is being buried.**

According to the newest map I just picked up, Mercer County is not very far from **Lake Sacajawea**.... Do you really believe that by burying the vast amount of Carbon/CO2 in a couple of counties that it will not meander to other areas and there is a possibility of it going north along the fault lines. Would it reach Lake Sacajawea???

The state's disposal wells inject saltwater into the Inyan Kara, which absorbs the liquid like a sponge. So we are already dumping saltwater into the earth in ND. How much can ND absorb in the earth without us getting a backlash from Mother Earth? We are messing with an order that God created. We have the best air in the USA. I know people who come back from AZ and other states just to stay in ND and breathe in our clean air. Our livestock and horses are at a premium because they say there is something different about ND's grass. The farmers are trying hard to produce more food every day. It will be a lot harder or impossible if Carbon/CO2 is buried for 10 years at the volume required by Summit Solutions.....And since Science already said Carbon/CO2 should not be buried, that we need Carbon/CO2 to live, I wonder how many children will not be born, how much less food there will be, or how many people will miss out on heart transplants, liver transplants, etc. due to the lack of Carbon for Dry Ice. Just a few examples.

You may not be on the Mineral Resource & Gas and Industrial Commission in 10 years but the decision you make regarding the burial of Carbon/CO2 will be with us for a very long time. If you vote Yes to bury it, then less food, less babies, less animals because grass will be less, etc. And now that we know investors include CHINA, Burgum and Hoeven???? Really??? More investigation of China should be done and stopped.

We are not here for ourselves as much as we are for our/your children and trying to make you realize how dangerous this pipeline of Carbon/CO2 being pressured at the width of 24 Inches because Summit Carbon Solutions wants it that huge. It is dangerous and I learned that the Military are preparing CO2 for **bombs**... Mark my words, You will be making the worst decision ever made by the Mineral Resource & Gas and the Industrial Commission if you allow this pipeline and burial of Carbon/CO2. I believe you are smart people and I want you to use some common sense.

Who will be responsible for any damage??? I do not believe Summit Carbon Solutions and investors would be doing this if they were not getting much money for the project. They may be gone in 10 years but the destruction they are bringing to ND and us being called a DUMP State does not sit well with me. Thank you for listening but I also hope you remember some of what I have shared today and look into the FACTS of burying Carbon/CO2 close to a fault line.

See the attachments for fault lines as best I can read from the Geological Survey information I looked up.

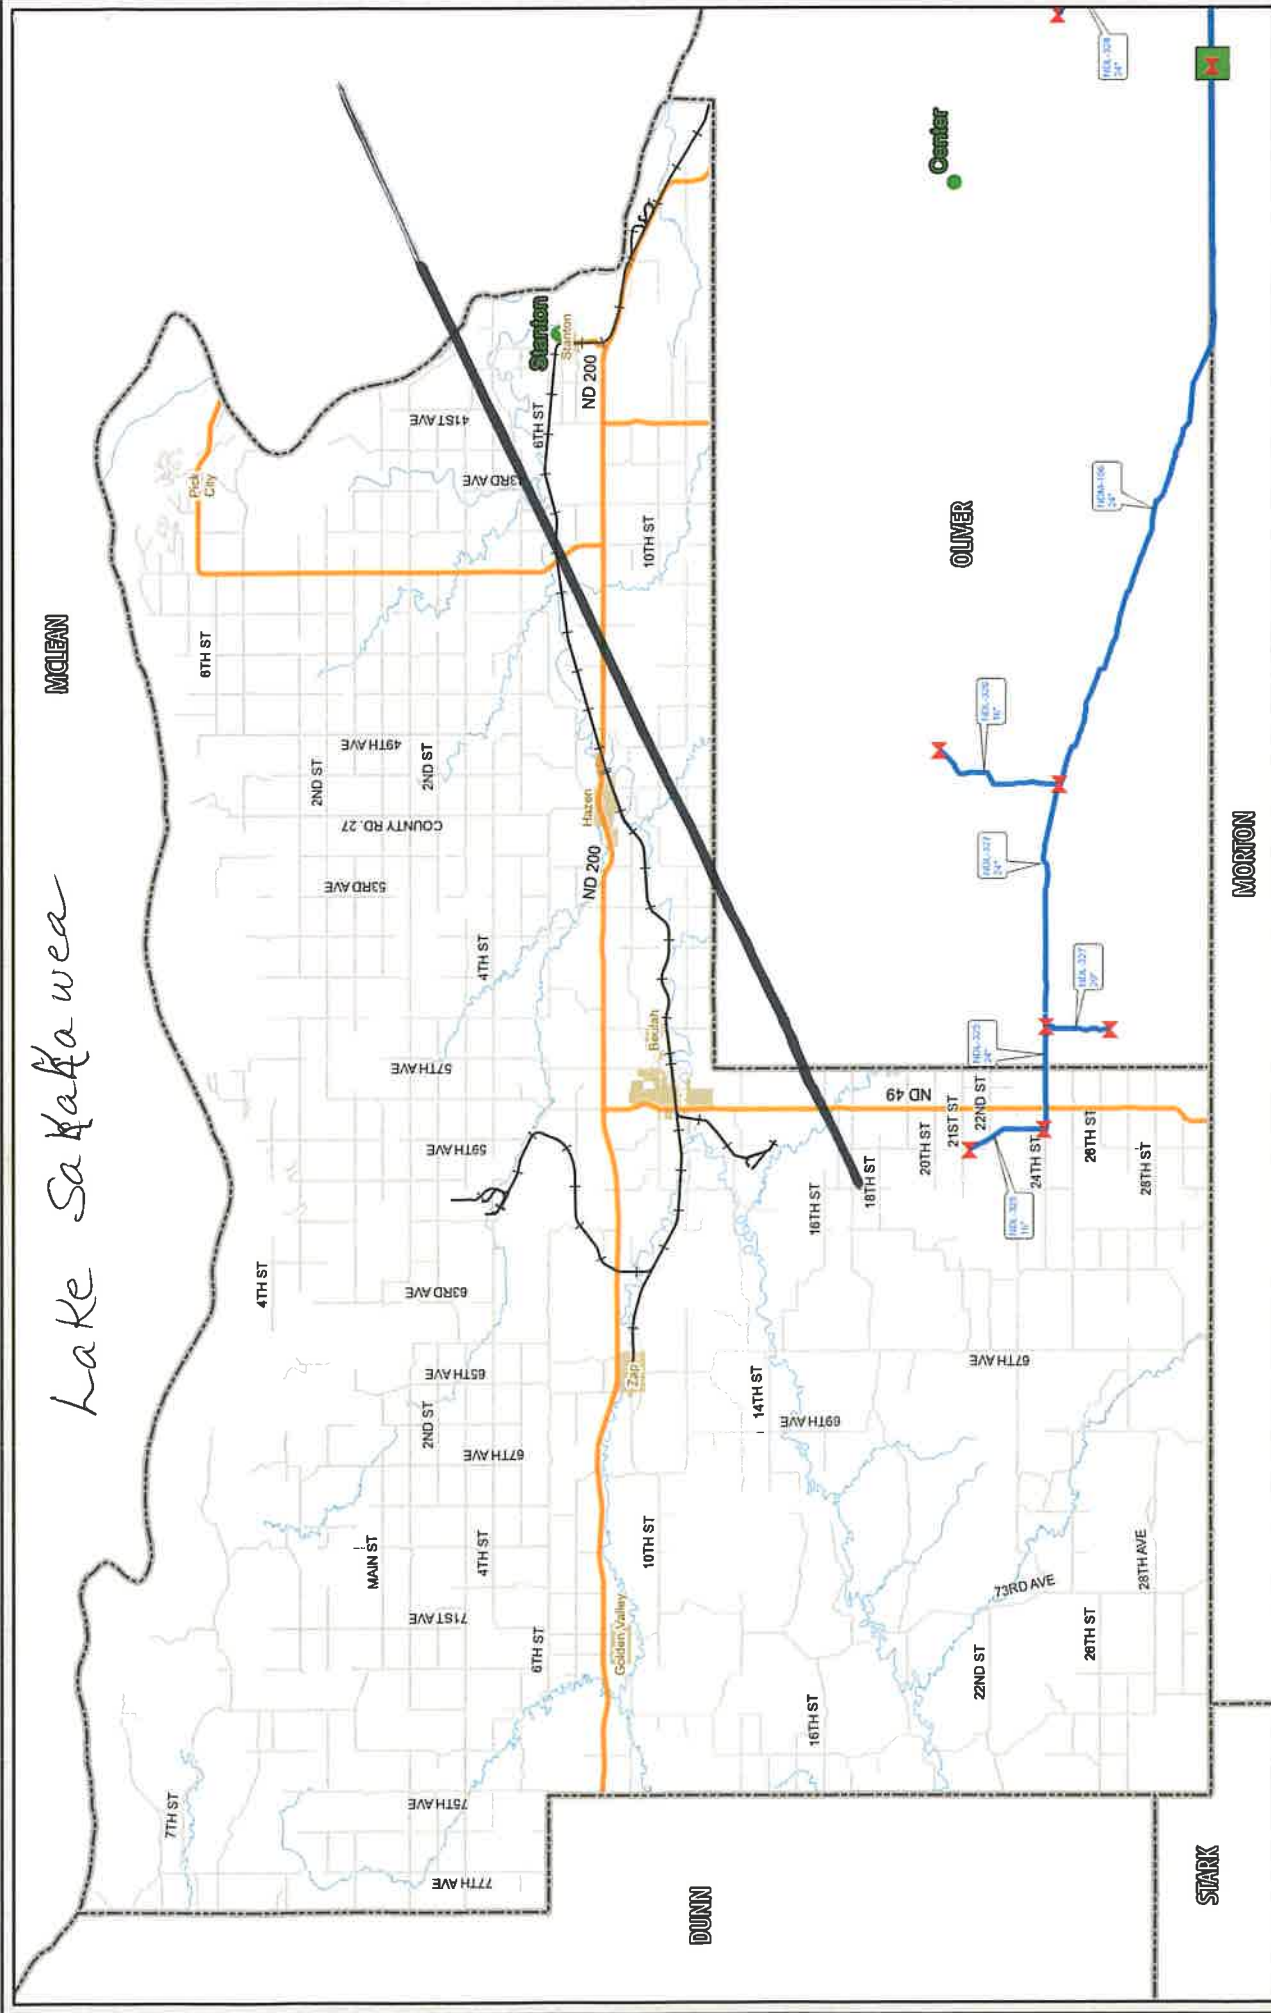

Sincerely,

Linda Hagen Mathern

Attached is the Entry of Appearance for Tom in Case Nos. 30869 through 30880:

In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND.

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline

in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND.

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142

North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver county, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

Please let me know if you need anything else. Thanks,

**BEFORE THE INDUSTRIAL COMMISSION**

**OF THE STATE OF NORTH DAKOTA**

In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND.

**CASE NO. 30869**

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

**Case No. 30870**

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North,

**Case No. 30871**

Range 87 West, Mercer, Morton, and Oliver Counties, ND,  
in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

**Case No. 30872**

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND.

**Case No. 30873**

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

**Case No. 30874**

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

**Case No. 30875**

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

**Case No. 30876**

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

**Case No. 30877**

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

**Case No. 30878**

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

**Case No. 30879**

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver county, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

**Case No. 30880**

**ENTRY OF APPEARANCE**

S. Thomas Throne, of Throne Law Office, P.C., P.O. Drawer 6590, Sheridan, WY 82801, hereby enters an appearance in the above captioned matter as counsel on behalf of Summit Carbon Storage #1, Summit Carbon Storage #2, and Summit Carbon Storage #3.

Dated this 6<sup>th</sup> day of June 2024.

Respectfully Submitted,

S. Thomas Throne, ND Bar ID# 06679  
Throne Law Office, P.C.  
P.O. Drawer 6590  
Sheridan, WY 82801

**In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND.**

**In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

**In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.**

**In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31 , 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31 , 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver county, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

**DECLARATION OF TELEPHONE COMMUNICATION OF SHANE BOFTO**

---

[¶1] I, Shane Bofto of HydroSolutions, Inc., do hereby confirm that I presented testimony under oath in North Dakota Industrial Commission Case Numbers 30869-30880, on June 11, 2024 and June 12, 2024.

[¶2] My testimony was presented by telephone from 406-591-1023, HydroSolutions, 1500 Poly Drive, Suite 103, Billings, Montana.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 5<sup>th</sup> day of June, 2024 at Billings, Montana, United States.

*Shane Bofto*

## DECLARATION OF TELEPHONE COMMUNICATION OF PAUL BUTTON

---

[¶1] I, Paul Button of Button Petroleum Management LLC, do hereby confirm that I presented testimony under oath in North Dakota Industrial Commission Case Numbers 30869-30880, on June 11, 2024 and June 12, 2024.

[¶2] My testimony was presented by telephone from 406-860-5752, Button Petroleum Management LLC, 1119 S. Ophir Street, Butte, Montana.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 4th day of June, 2024 at Butte, Montana, United States.

*Paul Button*

**DECLARATION OF TELEPHONE COMMUNICATION OF P. TED DOUGHTY**

---

[¶1] I, P. Ted Doughty of PTD Geoscience, LLC, do hereby confirm that I presented testimony under oath in North Dakota Industrial Commission Case Numbers 30869-30880, on June 11, 2024 and June 12, 2024.

[¶2] My testimony was presented by telephone from 509-638-3729, PTD Geoscience, LLC, 1427 Avenue F, Billings, Montana.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 6 day of June, 2024 at Billings, Montana, United States.

**In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND.**

**In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

**In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.**

**In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31 , 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31 , 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver county, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

## DECLARATION OF TELEPHONE COMMUNICATION OF CHRIS STOCKNESS

---

[¶1] I, Chris Stockness of Shenehon Company, do hereby confirm that I presented testimony under oath in North Dakota Industrial Commission Case Numbers 30869-30880, on June 11, 2024 and June 12, 2024.

[¶2] My testimony was presented by telephone from 612-767-9434, Shenehon Company, 88 South 10th Street, Suite 400, Minneapolis, Minnesota.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 5<sup>th</sup> day of June, 2024 at Minneapolis, Minnesota, United States.

Chris Stockness

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission

may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver

Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary

**ORDER ON PETITION TO INTERVENE FOR  
MINNKOTA POWER COOPERATIVE, INC**

---

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit carbon Storage #3, LLC (collectively, “Summit”), filed with the North Dakota

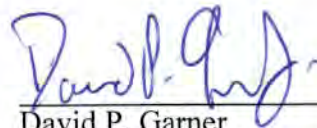

Industrial Commission (“Commission”) applications for permits for carbon dioxide storage facilities.

[¶2] On May 20, 2024, Minnkota Power Cooperative, Inc. (“Minnkota”) filed a Petition to Intervene asserting certain correlative rights may be impacted by the outcome of the proceedings in the above-described cases. Minnkota has not asserted an ownership interest in any of the subject lands. Minnkota Power Cooperative Inc.’s, Petition to Intervene, ¶ 9.

[¶3] On May 28, 2024, Summit filed a Consolidated Response to Petitions to Intervene which did not include an objection to Minnkota’s intervention. Consolidated Response to Petitions to Intervene.

[¶4] Based on the assertion of certain correlative rights by Minnkota, the Petition to Intervene is hereby **GRANTED**. The Commission notes, however, that at the hearing Minnkota must demonstrate the existence of the above-described correlative rights. If they are unable to do so, the Commission will not take the Summit Carbon Storage Facilities’ impact on Minnkota’s rights under consideration.

DATED: June 3, 2024.

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19,

20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5,

6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek

Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142

North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary

BEFORE THE NORTH DAKOTA INDUSTRIAL COMMISSION  
OF THE STATE OF NORTH DAKOTA

In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.	CASE NOS. 30869 30870 30871 30872 30873 30874 30875 30876 30877 30878 30879 30880
---	--

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission

may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver

Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

#### **ORDER ON PETITION TO INTERVENE FOR PAUL AND CHRISTY METZ**

---

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit carbon Storage #3, LLC (collectively, “Summit”), filed with the North Dakota Industrial Commission (“Commission”) applications for permits for carbon dioxide storage facilities.

[¶2] On May 15, 2024, Paul and Christy Metz (“Metz”) filed a Petition to Intervene stating they own interests in property (“Metz Lands”) legally described as follows:

- a. Auditor's Lot 1, a parcel of land in the N½ of the SE¼ of Section 4 Township 141 North Range 87 West of the Fifth Principal Meridian, Oliver County, North Dakota, more particularly described as follows:  
Commencing at the East ¼ Corner said Section 4; thence S.00°03'34"E., 774.60', along the East Line of Said Section 4, to the Point of Beginning; thence continuing along the said East line S.00°03'34"E., 58.66'; thence N.63°25'13"W., 803.38'; thence S.01°13'58"E., 416.27'; thence S.74°08'23"W., 204.26'; thence N.61°33'16"W.; 577.21'; thence N.60°45'05"W., 404.12'; thence N.01°56'26"W., 407.78'; thence N.89°47'04"E., 1045.86', thence S.01°48'11"E., 412.49'; thence S.63°30'12"E., 805.92', to the Point of Beginning and containing 18.88 acres more or less.

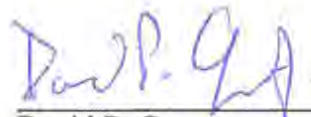

Petition to Intervene (Metz), ¶ 3.

[¶3] On May 28, 2024, Summit filed a Consolidated Response to Petitions to Intervene in which it stated, “Summit does not object to the remaining Petitioners intervention on the limited basis set forth above.” Consolidated Response to Petitions to Intervene, ¶ 22.

[¶4] Based on the Metz’s ownership of the Metz Lands, the Petition to Intervene is hereby **GRANTED** but limited to intervention in this matter as it relates to Summit Carbon Storage #1, LLC, Case Nos. 30869-30872.

[¶5] The Commission will not consider Metz’s position insofar as it falls outside of consideration of Summit Carbon Storage #1, LLC, Case Nos. 30869-30872.

DATED: May 31, 2024.

David P. Garner  
North Dakota Industrial Commission  
Hearing Officer

BEFORE THE NORTH DAKOTA INDUSTRIAL COMMISSION  
OF THE STATE OF NORTH DAKOTA

In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission

may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver

Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

#### **ORDER ON PETITION TO INTERVENE FOR MICHAEL AND BONNIE HAUPT**

---

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit carbon Storage #3, LLC (collectively, “Summit”), filed with the North Dakota Industrial Commission (“Commission”) applications for permits for carbon dioxide storage facilities.

[¶2] On May 15, 2024, Michael and Bonnie Haupt (“Haupt”) filed a Petition to Intervene stating they own interests in property (“Haupt Lands”) legally described as follows:

- a. The Southeast Quarter (SE 1/4) of Section Thirty-Five (35), Township One Hundred Forty-One (141) North, Range Eighty-Eight (88) West of the Fifth Principal Meridian, Mercer County, North Dakota.
- b. The Southwest Quarter (SW 1/4) of Section Twenty-Seven (27), Township One Hundred Forty-One (141) North, Range Eighty-Eight (88) West of the Fifth Principal Meridian, Mercer County, North Dakota.

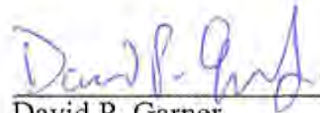

Petition to Intervene (Haupt), ¶ 3.

[¶3] On May 28, 2024, Summit filed a Consolidated Response to Petitions to Intervene in which it stated, “Summit does not object to the remaining Petitioners intervention on the limited basis set forth above.” Consolidated Response to Petitions to Intervene, ¶ 22.

[¶4] Based on the Haupt’s ownership of the Haupt Lands, the Petition to Intervene is hereby **GRANTED** but limited to intervention in this matter as it relates to Summit Carbon Storage #1, LLC, Case Nos. 30869-30872.

[¶5] The Commission will not consider Haupt’s position insofar as it falls outside of consideration of Summit Carbon Storage #1, LLC, Case Nos. 30869-30872.

DATED: May 31, 2024.

David P. Garner  
North Dakota Industrial Commission  
Hearing Officer

BEFORE THE NORTH DAKOTA INDUSTRIAL COMMISSION  
OF THE STATE OF NORTH DAKOTA

In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.	CASE NOS. 30869 30870 30871 30872 30873 30874 30875 30876 30877 30878 30879 30880
---	--

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission

may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver

Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

### **ORDER ON PETITION TO INTERVENE FOR JOHN JOCHIM**

---

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit carbon Storage #3, LLC (collectively, “Summit”), filed with the North Dakota Industrial Commission (“Commission”) applications for permits for carbon dioxide storage facilities.

[¶2] On May 15, 2024, John Jochim (“Jochim”) filed a Petition to Intervene stating he owns interests in property (“Jochim Lands”) legally described as follows:

- a. Township 142 North, Range 88 West, Mercer County, North Dakota  
Section 24: NW1/4

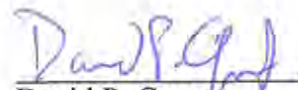

Petition to Intervene (Jochim), ¶ 3.

[¶3] On May 28, 2024, Summit filed a Consolidated Response to Petitions to Intervene in which it stated, “Summit does not object to the remaining Petitioners intervention on the limited basis set forth above.” Consolidated Response to Petitions to Intervene, ¶ 22.

[¶4] Based on Jochim’s ownership of the Bauman Lands, the Petition to Intervene is hereby **GRANTED** but limited to intervention in this matter as it relates to Summit Carbon Storage #2, LLC, Case Nos. 30873-30876.

[¶5] The Commission will not consider Jochim’s position insofar as it falls outside of consideration of Summit Carbon Storage #2, LLC, Case Nos. 30873-30876.

DATED: May 31, 2024.

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission

may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver

Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

#### **ORDER ON PETITION TO INTERVENE FOR GARY AND CASSIE SMITH**

---

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit carbon Storage #3, LLC (collectively, “Summit”), filed with the North Dakota Industrial Commission (“Commission”) applications for permits for carbon dioxide storage facilities.

[¶2] On May 16, 2024, Gary and Cassie Smith ("Smith") filed a Petition to Intervene stating they own interests in property ("Smith Lands") legally described as follows:

- a. Township 142 North, Range 87 West: Section 23: W1/2, Oliver County, North Dakota.
- b. Township 142 North, Range 87 West: Section 20: NE1/4, Oliver County, North Dakota.
- c. LOT A, within the SE¼ of Section 22, Township 142 North, Range 87 West, Oliver County, North Dakota described as follows: COMMENCING at the East Quarter Corner of Section 22; THENCE S 00°00'00" W, along the east line of Section 22, a distance of 120.00', to the true point of beginning; THENCE S 00°00'00" W, along said line, a distance of 660.00'; THENCE S 90°00'00" W, a distance of 660.00'; THENCE N 00°00'00" E, a distance of 660.00'; THENCE N 90°00'00" E, a distance of 660.00', back to the point of beginning. This parcel contains 10.0 acres, more or less.
- d. Township 142 North, Range 87 West: Section 22: SE1/4, Oliver County, North Dakota.
- e. Township 142 North, Range 87 West: Section 15: NE1/4 and NW1/4, Oliver County, North Dakota.

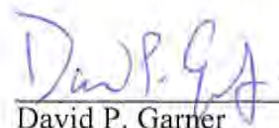

Petition to Intervene (Smith), ¶ 3.

[¶3] On May 28, 2024, Summit filed a Consolidated Response to Petitions to Intervene in which it stated, "Summit does not object to the remaining Petitioners intervention on the limited basis set forth above." Consolidated Response to Petitions to Intervene, ¶ 22.

[¶4] Based on Smith's ownership of the Smith Lands, the Petition to Intervene is hereby **GRANTED** but limited to intervention in this matter as it relates to Summit Carbon Storage #2, LLC, Case Nos. 30873-30876.

[¶5] The Commission will not consider Smith's position insofar as it falls outside of consideration of Summit Carbon Storage #2, LLC, Case Nos. 30873-30876.

DATED: May 31, 2024.

David P. Garner  
North Dakota Industrial Commission  
Hearing Officer

BEFORE THE NORTH DAKOTA INDUSTRIAL COMMISSION  
OF THE STATE OF NORTH DAKOTA

In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.	CASE NOS. 30869 30870 30871 30872 30873 30874 30875 30876 30877 30878 30879 30880
---	--

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission

may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver

Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

**ORDER ON PETITION TO INTERVENE FOR MICHAEL BAUMAN**

---

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit carbon Storage #3, LLC (collectively, “Summit”), filed with the North Dakota Industrial Commission (“Commission”) applications for permits for carbon dioxide storage facilities.

[¶2] On May 16, 2024, Michael Bauman (“Bauman”) filed a Petition to Intervene stating he owns interests in property (“Bauman Lands”) legally described as follows:

- a. Township 142 North, Range 88 West Section 24: SW¼ less a 20 acre parcel described as follows: Commencing at the NE corner of SW¼, thence West along the North boundary of the SW¼ a distance of 950 feet; thence South in a line parallel to the East boundary of the SW 1/4 a distance of 915 feet; thence East in a line parallel to the North boundary of the SW¼ a distance of 950 feet to the East boundary of the SW¼; thence North along the East boundary of the SW¼ to the point of beginning, Mercer County, North Dakota.

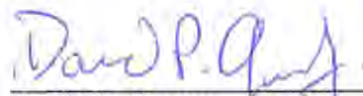

Petition to Intervene (Bauman), ¶ 3.

[¶3] On May 28, 2024, Summit filed a Consolidated Response to Petitions to Intervene in which it stated, “Summit does not object to the remaining Petitioners intervention on the limited basis set forth above.” Consolidated Response to Petitions to Intervene, ¶ 22.

[¶4] Based on the Bauman’s ownership of the Bauman Lands, the Petition to Intervene is hereby **GRANTED** but limited to intervention in this matter as it relates to Summit Carbon Storage #2, LLC, Case Nos. 30873-30876.

[¶5] The Commission will not consider Bauman’s position insofar as it falls outside of consideration of Summit Carbon Storage #2, LLC, Case Nos. 30873-30876.

DATED: May 31, 2024.

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission

may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver

Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

#### **ORDER ON PETITION TO INTERVENE FOR JOLENE RUST**

---

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit carbon Storage #3, LLC (collectively, “Summit”), filed with the North Dakota Industrial Commission (“Commission”) applications for permits for carbon dioxide storage facilities.

[¶2] On May 16, 2024, Jolene Rust (“Rust”) filed a Petition to Intervene stating she owns interests in property (“Rust Lands”) legally described as follows:

- a. Township 142 North, Range 88 West, Mercer County, North Dakota Section 13:  
SW¼

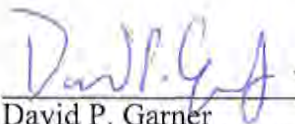

Petition to Intervene (Rust), ¶ 3.

[¶3] On May 28, 2024, Summit filed a Consolidated Response to Petitions to Intervene in which it stated, “Summit does not object to the remaining Petitioners intervention on the limited basis set forth above.” Consolidated Response to Petitions to Intervene, ¶ 22.

[¶4] Based on Rust’s ownership of the Rust Lands, the Petition to Intervene is hereby **GRANTED** but limited to intervention in this matter as it relates to Summit Carbon Storage #2, LLC, Case Nos. 30873-30876.

[¶5] The Commission will not consider Rust’s position insofar as it falls outside of consideration of Summit Carbon Storage #2, LLC, Case Nos. 30873-30876.

DATED: May 31, 2024.

David P. Garner  
North Dakota Industrial Commission  
Hearing Officer

BEFORE THE NORTH DAKOTA INDUSTRIAL COMMISSION  
OF THE STATE OF NORTH DAKOTA

In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.	CASE NOS. 30869 30870 30871 30872 30873 30874 30875 30876 30877 30878 30879 30880
---	--

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission

may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver

Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

#### **ORDER ON PETITION TO INTERVENE FOR GLENN AND LISA GERVING**

---

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit carbon Storage #3, LLC (collectively, “Summit”), filed with the North Dakota Industrial Commission (“Commission”) applications for permits for carbon dioxide storage facilities.

[¶2] On May 16, 2024, Glenn and Lisa Gerving (“Gerving”) filed a Petition to Intervene stating they own interests in property (“Gerving Lands”) legally described as follows:

- a. The South fifty-three (53) acres of the South Half of the South Half (S1/2 S1/2) of Section Thirteen (13), in Township One Hundred Forty-One (141) North, Range Eighty-Eight (88) West of the Fifth Principal Meridian, LESS a tract of land deeded to the State of North Dakota for the use of the State Highway Department described as follows: All that portion of the South fifty-four (54) acres of the South Half of the South Half (S 1/2 S 1/2) of Section Thirteen (13), Township One Hundred Forty-One (141) North, Range Eighty-Eight (88) West, lying within a strip of land 100.00 feet wide, located on the Easterly side of and measured at right angles to the following described highway center line, as surveyed and staked: Beginning at a point 154.58 feet East of the Southwest corner of said Section Thirteen (13), thence from a tangent bearing North 0.09' West running along a 0.30' curve to the left 446.7 feet, more or less, until said strip crosses the North Line of said South 54 acres, also including all that portion lying Westerly of the above described strip except all that portion lying within 33 feet of the section line, tract contains 1.92 acres, more or less, Mercer County, North Dakota.
- b. S1/2 SW1/4 of Sec. 24, Township. 141N, Range 88W, Mercer County, North Dakota.
- c. S1/2 SW1/4 NW1/4 of Sec. 24, Township 141N, Range. 88W, Mercer County, North Dakota.
- d. The E1/2 SE1/4 of Section 34 in Township 142N, Range 87W, Oliver County, North Dakota.
- e. The S1/2 SW1/4 of Section 35 in Township 142N, Range 87W, Oliver County, North Dakota.

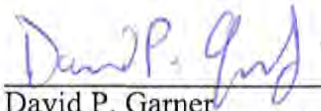

Petition to Intervene (Gerving), ¶ 3.

[¶3] On May 28, 2024, Summit filed a Consolidated Response to Petitions to Intervene in which it stated, “Summit does not object to the remaining Petitioners intervention on the limited basis set forth above.” Consolidated Response to Petitions to Intervene, ¶ 22.

[¶4] Based on the Gerving’s ownership of the Gerving Lands, the Petition to Intervene is hereby **GRANTED** but limited to intervention in this matter as it relates to Summit Carbon Storage #1, LLC, Case Nos. 30869-30872.

[¶5] The Commission will not consider Gerving’s position insofar as it falls outside of consideration of Summit Carbon Storage #1, LLC, Case Nos. 30869-30872.

DATED: May 31, 2024.

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission

may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver

Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

**ORDER ON PETITION TO INTERVENE FOR KIRK AND  
LINDA MAIZE AND ALLEN MAIZE**

---

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit carbon Storage #3, LLC (collectively, “Summit”), filed with the North Dakota

Industrial Commission (“Commission”) applications for permits for carbon dioxide storage facilities.

[¶2] On May 16, 2024, Kirk and Linda Maize and Allen Maize (collectively “Maize”) filed a Petition to Intervene stating they own interests in property (“Maize Lands”) legally described as follows:

- a. South Half (S/2) of the Southeast Quarter (SE/4) of Section 20, Township 141 North, Range 87 West of the Fifth Principal Meridian, in Oliver County, ND.

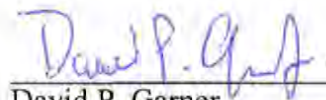

Petition to Intervene (Maize), ¶ 3.

[¶3] On May 28, 2024, Summit filed a Consolidated Response to Petitions to Intervene in which it stated, “Summit does not object to the remaining Petitioners intervention on the limited basis set forth above.” Consolidated Response to Petitions to Intervene, ¶ 22.

[¶4] Based on the Maize’s ownership of the Maize Lands, the Petition to Intervene is hereby **GRANTED** but limited to intervention in this matter as it relates to Summit Carbon Storage #1, LLC, Case Nos. 30869-30872.

[¶5] The Commission will not consider Maize’s position insofar as it falls outside of consideration of Summit Carbon Storage #1, LLC, Case Nos. 30869-30872.

DATED: May 31, 2024.

30880

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission

may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver

Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

#### **ORDER ON PETITION TO INTERVENE FOR KEVIN AND IMBERLY KRAFT**

---

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit carbon Storage #3, LLC (collectively, “Summit”), filed with the North Dakota Industrial Commission (“Commission”) applications for permits for carbon dioxide storage facilities.

[¶2] On May 22, 2024, Kevin and Kimberly Kraft (“Kraft”) filed a Petition to Intervene stating they own interests in property (“Kraft Lands”) legally described as follows:

- a. Township 142 North, Range 87 West Section 27: A tract of land located in the S1/2 Oliver County, ND more particularly described as follows:  
Commencing at the Southeast corner of said Section 27; thence N 89°59'36" W a distance of 2070.02 feet to the point of beginning; thence continuing N 89° 59'36" W a distance of 824.50 feet; thence N 0°40'27" E a distance of 2642.32 feet to the mid-section line; thence along the mid-section line S 89°54'53" E a distance of 824.50 feet; thence S 0°40'27" W a distance of 2641.19 feet to the point of beginning. Said tract contains 50.00 acres more or less.

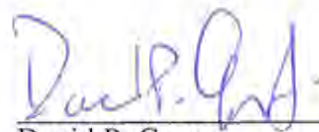

Petition to Intervene (Kraft), ¶ 3.

[¶3] On May 28, 2024, Summit filed a Consolidated Response to Petitions to Intervene in which it stated, “Summit does not object to the remaining Petitioners intervention on the limited basis set forth above.” Consolidated Response to Petitions to Intervene, ¶ 22.

[¶4] Based on the Kraft’s ownership of the Kraft Lands, the Petition to Intervene is hereby **GRANTED** but limited to whether the Kraft Lands are located within any of the lands covered by the Carbon Storage Facilities.

[¶5] The Commission will not consider the Kraft’s position insofar as it falls outside of consideration of any of the lands covered by the Carbon Storage Facilities.

DATED: May 31, 2024.

---	--

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission

may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver

Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

#### **ORDER ON PETITION TO INTERVENE FOR GARY AND CASSIE SMITH**

---

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit carbon Storage #3, LLC (collectively, “Summit”), filed with the North Dakota Industrial Commission (“Commission”) applications for permits for carbon dioxide storage facilities.

[¶2] On May 24, 2024, Charmayne Liebelt (“Liebelt”) filed a Petition to Intervene stating he owns interests in property (“Liebelt Lands”) legally described as follows:

- a. S1/2SW1/4 of Section 32, Township 143 North, Range 86 West of the Fifth Principal Meridian, in Oliver County, ND

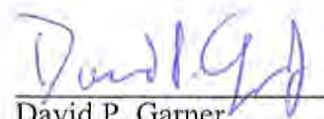

Petition to Intervene (Liebelt), ¶ 3.

[¶3] On May 28, 2024, Summit filed a Consolidated Response to Petitions to Intervene in which it stated, “Summit does not object to the remaining Petitioners intervention on the limited basis set forth above.” Consolidated Response to Petitions to Intervene, ¶ 22.

[¶4] Based on the Liebelt’s ownership of the Liebelt Lands, the Petition to Intervene is hereby **GRANTED** but limited to intervention in this matter as it relates to Summit Carbon Storage #3, LLC, Case Nos. 30877-30880.

[¶5] The Commission will not consider Liebelt’s position insofar as it falls outside of consideration of Summit Carbon Storage #3, LLC, Case Nos. 30877-30880.

DATED: May 31, 2024.

---	--

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission

may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver

Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

#### **ORDER ON PETITION TO INTERVENE FOR SWENSON TRUST**

---

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit carbon Storage #3, LLC (collectively, “Summit”), filed with the North Dakota Industrial Commission (“Commission”) applications for permits for carbon dioxide storage facilities.

[¶2] On April 18, 2024, The Swenson Living Trust (“Trust”) filed a Petition to Intervene stating the Trust owns interests in property (the “Trust Lands”) legally described as follows:

- a. W1/2 NE1/4 of Section 14, Township 142 North, Range 88 West, Mercer County, ND;
- b. SE1/4 of Section 27, Township 143 North, Range 88 West, Mercer County, ND;
- c. Outlot B, E1/2 of NW ¼ of Section 7, Township 142 North, Range 87 West, Oliver County, ND;
- d. NW1/4 of Section 22, Township 142 North, Range 87 West, Oliver County, ND;
- e. SE1/4 of Section 15, Township 142 North, Range 87 West, Oliver County, ND;
- f. Section 21, Township 142 North, Range 87 West, Oliver County, ND;

Petition to Intervene, ¶ 3.

[¶3] On May 28, 2024, Summit filed a Consolidated Response to Petitions to Intervene in which it states the Petitions to Intervene filed by the Trust in the above-captioned cases Trust owns approximately 827.17 acres in the vicinity of the proposed carbon dioxide storage facility locations referenced in the caption above, but only 359.4 acres are located within the horizontal boundaries of the storage facility proposed by Summit Carbon Storage #2, LLC and/or the one-half mile notice area surrounding the storage facility proposed by Summit Carbon Storage #2, LLC. The Trust does not own any interests within the horizontal boundaries of the storage facilities proposed by Summit Carbon Storage #1, LLC or Summit Carbon Storage #3, LLC. Consolidated Response to Petitions to Intervene, ¶3.

[¶4] Summit also argues that the Trust should not be allowed to intervene because N.D.C.C. § 28-32-01(9) defines a “party” as each "each person named or admitted as a party or properly seeking and entitled as of right to be admitted as a party" and that the trust doesn’t qualify under this definition. Summit states that the Trust is not a "person," under the Administrative Agencies Practice Act. N.D.C.C. § 28-32-01(10) defines a person as "an individual, association, partnership, corporation, limited liability company, the [North Dakota ethics commission], a state governmental agency or governmental subdivision, or an agency of such governmental

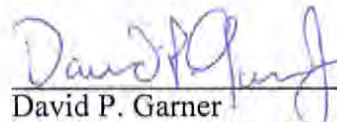

subdivision. N.D.C.C. § 38-22-03, however, states the commission has authority over all persons and property necessary to administer and enforce this chapter and its objectives.

[¶5] Based on the foregoing, the Commission will allow intervention if the intervenor demonstrates a property interest in the subject matter. As such, the Commission does not believe the Trust is precluded from intervening in this matter.

[¶6] Based on the Trusts ownership of the Trust Lands the Petition to Intervene is hereby **GRANTED** but limited to intervention in this matter as it relates to Summit Carbon Storage #2, LLC, Case Nos. 30873-30876.

[¶7] The Commission will not consider the Trusts' position insofar as it falls outside of consideration of Summit Carbon Storage #2, LLC, Case Nos. 30873-30876.

DATED: May 31, 2024.

In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation

In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19,

20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5,

6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation

In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary

In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek

Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND

In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation

In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142

North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary

**Ref: Summit Carbon Solutions Storage #1, LLC – (Against)**

Via email: slforsberg@nd.gov

M. Chairman and Members of the Committee:

I write today in opposition to the approval of the application for permit before you from Summit Carbon Solutions Storage #1, LLC.

My name is Victorie Brown, and I am a mineral owner in the property detailed in Summit Carbon Solutions (Summit) application for permit. Approval of this project will have a direct negative impact on the value of my property. Making future exploration and development of those mineral interests more difficult, costly, and very likely unfeasible.

If allowed to proceed as proposed, Summit would be permitted to declare without challenge that minerals do not exist in the pore space and/or are of such little value as to not warrant compensation. This provides an opportunity, and in fact encourages, Summit to do just that, thereby taking property without just compensation to the surface and mineral owner.

This proposal establishes a condition in direct opposition to North Dakota 47-31-08, which states, [“In the relationship between a severed mineral owner and a pore space estate, this chapter does not change or alter the common law as of April 9, 2009, as it relates to the rights belonging to, or the dominance of, the mineral estate.”](#)

As of this writing I know of no agreement in existence, past or present, allowing for extraction of the minerals detailed in my deed without my prior agreement and without equitable compensation. Therefore, I retain those minerals and the pore space in which they are contained. North Dakota law requiring compensation to the surface owner for the voided pore space below it does not preclude compensation to the mineral owner for the assets represented by that ownership.

To move forward, Summit Carbon Solutions must first be required to negotiate with me, a mineral owner, a fair price for the severance and/or use of my property and any consequential impacts to my interest. Granting a permit without required, negotiated, compensation allows Summit Carbon solutions to **TAKE** my and others' property without just compensation, an outcome that is not in the North Dakota public's best interest.

I say **NO**.

I call on you to **NOT** grant this permit.

Respectfully,

Victorie Brown

Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35 and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geological storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Brook Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of

---

---

LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

#### ORDER OF THE COMMISSION

##### THE COMMISSION FINDS:

(1) This cause is set for hearing beginning at 9:00 a.m. on Tuesday June 11, 2024, and continuing if necessary starting at 9:00 a.m. on Wednesday June 12, 2024.

(2) On May 20, 2024, the petitioner and proposed intervenor, Minnkota Power Cooperative, Inc. (“Minnkota”), made application to the Commission for an order allowing its intervention in Case Nos. 30869 – 30880.

(3) Pursuant to N.D.C.C. § 28-32-28, and as explained herein, the Commission grants Minnkota’s petition to intervene in the above-captioned proceedings to promote the interests of justice as Minnkota has demonstrated that its legal rights, duties, privileges, immunities, or other legal interests may be substantially affected by the proceedings in this matter.

(4) Specifically, Minnkota holds three geologic storage facility permits issued as the result of Orders from the Commission for the amalgamation of pore space in the Minnkota Center MRYS Broom Creek Storage Facility #1 in Oliver County, North Dakota, and the amalgamation of pore space in the Minnkota Center MRYS Deadwood Storage Facility #1 in Oliver County. Minnkota, through its subsidiary DCC West Project LLC, also holds a storage facility permit that provides redundancy and operating flexibility for Project Tundra, the “DCC West Broom Creek Storage Facility #1,” that was approved by the Commission on October 4, 2023. See Case Nos. 29029 – 29034, and 30122 – 30125.

(5) In Order No. 31584 (Case No. 29030), the Commission approved Minnkota’s application for an order determining the amalgamation of pore space within portions of Sections 35 and 36, Township 142 North, Range 84 West, Sections 19, 20, 21, 22, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 142 North, Range 83 West, Sections 1, 2, 12, and 13, Township 141 North, Range 84 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 14, 15, 16, 17, 18, 19, 20, and 21, Township 141 North, Range 83 West, Oliver County, in the Broom Creek Formation for the Minnkota Center MRYS Broom Creek Storage Facility #1, which encompasses 18,903 acres in Oliver County. Minnkota’s application to the Commission for the amalgamation of storage reservoir pore space for Broom Creek Storage Facility #1 was made pursuant to a Geologic Storage Agreement that was signed, ratified, or approved by surface owners owning at least sixty percent of the pore space interest within these lands under N.D.C.C. § 38-22-10. See Order No. 31584 at ¶ 2.

(6) In Order No. 31587 (Case No. 29033), the Commission approved Minnkota’s application for an order determining the amalgamation of pore space within portions of Sections 35 and 36, Township 142 North, Range 84 West, Sections 19, 20, 21, 22, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 142 North, Range 83 West, Sections 1, 2, 12, and 13, Township 141 North, Range 84 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 14, 15, 16, 17, 18, 19, 20, and 21, Township 141 North, Range 83 West, Oliver County, in the Deadwood Formation, for the Minnkota Center MRYS Deadwood Storage Facility #1, and while a different formation than Broom Creek, also encompasses 18,903 acres in Oliver County. Minnkota’s application to the Commission for the amalgamation of storage reservoir pore space for its Deadwood Storage Facility #1 was made pursuant to a Geologic Storage Agreement that was signed, ratified, or approved by surface owners owning at least sixty percent of the pore space interest within these lands under N.D.C.C. § 38-22-10. See Order No. 31587 at ¶ 2.

(7) In Order No. 32806 (Case No. 30122), the Commission approved Minnkota’s application for DCC West Broom Creek Storage Facility #1 for an order determining the amalgamation of pore space within portions of Township 141 North, Range 84 West, Section 2-11, 14-21, 29-32, Township 141 North, Range 85 West, Sections 1-4, 9-16, 22-27, and 36, Township 142 North, Range 84 West, Sections 19-21 and 28-34, and Township 142 North, Range

85 West, Sections 24, 25, 33, 34, 35 and 36, Oliver County, in the Broom Creek formation. This third additional storage facility will primarily serve the Milton R. Young Station. To the extent there is additional storage capacity available, Minnkota notes that it may entertain requests from third parties for storage services for the purpose of geologic sequestration of carbon dioxide. It encompasses 29,903 acres in Oliver County.

(8) The Commission's Orders for the Broom Creek and Deadwood formations, and the Minnkota Center MRYS Deadwood Storage Facility #1 and Minnkota Center MRYS Broom Creek Storage Facility #1, are part of Minnkota's Project Tundra. Project Tundra is a large-scale, capital-intensive carbon sequestration and storage project designed to capture up to four million metric tons of the carbon dioxide produced by the MRYS. Minnkota has been leading this project for the past nine years and has, along with its partners, the State of North Dakota, and the Department of Energy, devoted significant resources towards its advancement and seeing it to fruition, including investing \$90,000,000 in the project, which may be affected by these proceedings.

(9) The location of Project Tundra is immediately adjacent to the east of Summit Carbon Storage, LLC, #1, #2, and #3's proposed injection sites, and encompasses property in Township 142 North, Ranges 82, 83, and 84 West, and Township 141 North, Ranges 82, 83, and 84 West.

(10) Minnkota seeks to intervene because its interest in Project Tundra, the related permits issued by the Commission for the same, and its correlative rights in the pore space compromising Project Tundra, are the subject of and may be substantially affected by the outcome of the proceedings on Summit Carbon Storage #1, #2, and #3 LLC's applications and proposed project. Minnkota thus seeks to protect its interest and significant investments in Project Tundra as they may be impacted by Summit Carbon Storage, LLC's #1, #2, and #3 pending applications.

(11) Considering the foregoing, Minnkota has demonstrated that its legal rights, duties, privileges, immunities, and other legal interests may be substantially affected by these proceedings, and its petition to intervene is granted pursuant to N.D.C.C. § 28-32-28.

IT IS THEREFORE ORDERED:

(1) For the reasons stated herein, Minnkota's Petition to Intervene is hereby GRANTED.

Dated this \_\_\_\_ day of May, 2024.

INDUSTRIAL COMMISSION  
STATE OF NORTH DAKOTA

/s/ Doug Burgum, Governor

/s/ Drew H. Wrigley, Attorney General

/s/ Doug Goehring, Agricultural Commissioner

BEFORE THE INDUSTRIAL COMMISSION  
OF THE STATE OF NORTH DAKOTA

**In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND.**

**In re application of Summit Carbon Storage #1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North,**

Case Nos. 30869 - 30880

**DECLARATION OF SERVICE**

---

---

Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND.

In re application of Summit Carbon Storage #2, LLC to consider the amalgamation of the storage reservoir pore space, in which the

---

---

Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35 and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geological storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Brook Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of

Good afternoon,

Please find the attached documents, listed below, for filing and service with respect to the above-referenced case numbers.

1. Response to Motion to Expedite Discovery;
2. Consolidated Response to Petitions to Intervene;
3. Second Declaration of Jeff Skaare;
4. Proposed Order on Petitions to Intervene and Motion for Expedited Discovery; and
5. Certificate of Service.

Also enclosed for your convenience is a Word copy of the Proposed Order on Petitions to Intervene and Motion for Expedited Discovery.

Thanks,

**Bethany Hughes**

#### **RESPONSE TO MOTION TO EXPEDITE DISCOVERY**

[¶ 1] Applicants Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit Carbon Storage #3, LLC (collectively, “Summit”) submit this brief in response to the motion to expedite discovery filed with the North Dakota Industrial Commission (“Commission”) by the Swenson Living Trust (the “Trust”). For the reasons explained below, the Commission should deny the Trust’s motion.

## FACTS

[¶ 2] On April 18, 2024, the Trust filed a petition to intervene with the Commission. The Commission has not yet ruled on the petition. Therefore, the Trust is not yet a party to this case.

[¶ 3] Nevertheless, the Trust served Summit with a set of discovery requests on May 2, 2024, a second set of discovery requests on May 6, 2024, and a third set of discovery requests on May 10, 2024. None of these discovery requests were valid given that the Trust is not yet a party to this case. Had they been valid, Summit would have had 30 days to respond to them under the North Dakota Rules of Civil Procedure.

[¶ 4] The Trust's invalid discovery requests ask for an immense amount of information from Summit. The following are just a few examples of the types of requests for production the Trust is asking Summit to comply with:

**REQUEST NO. 4:** Please produce all the input files, field and analytical data , and the model geochemical database used to run any modelling or analysis of critical threshold pressures or areal extent of review or impact and pressure buildup, or which was used to do any kind of analysis related to EPA Method 1 or EPA Method 2 or Analytical Solution for Leakage in Multilayered Aquifers – ASLMA, or any risk-based area-of-review analysis.

**REQUEST NO. 5:** Please produce the following data and files as referenced by Summit in its application in NDIC Case No. 30873: Geophysical Logs that penetrate injection and confining zones, Seismic survey data and core sample measurements, Acoustic impedance, total porosity, effective porosity, permeability, facies, and SLB's Petrel was used to interpolate structural surfaces for zones.

**REQUEST NO. 8:** Please produce all electronic files and data provided to the North Dakota Industrial Commission or its Department of Mineral Resources or Oil and Gas Division in association with or related to the applications in NDIC Case Nos. 30869-30880. Please produce the general ledger detail (or account activity report) for the account for Drain #11 starting January 1, 2011 through present, on an annual basis (i.e. January 1,

2011 to December 31, 2011, and January 1, 2012 to December 31, 2012, etc.).

Summit estimates that it would likely have to collect, review, and produce thousands of pages of documents and dozens of gigabytes of data to comply with the Trust's discovery requests. *See* Second Declaration of Jeff Skare ("2d Skaare Decl."), ¶ 31. It would not be feasible for Summit to respond to those requests by May 29, 2024. *Id.*

[¶ 5] On May 16, 2024, the Trust filed a motion asking the Commission to order Summit to provide expedited responses to the Trust's three sets of discovery requests. The Trust desires Summit to respond to the Trust's first set of discovery requests by May 23, 2024, and to the Trust's second and third sets of discovery requests by May 29, 2024.

### **ARGUMENT**

[¶ 6] As explained more fully below, the Commission should deny the Trust's motion for at least three reasons. First, the discovery requests that the Trust served on Summit are invalid. Second, the Trust's discovery requests are incapable of being made valid. Third, the Trust's proposed expedited deadlines to respond to the Trust's discovery requests are unreasonable.

#### **I. The Trust's discovery requests are invalid.**

[¶ 7] The first and most obvious reason the Commission should deny the Trust's motion for expedited responses to the Trust's discovery requests is that the requests are invalid.

[¶ 8] The current case is an adjudicative proceeding. *See* N.D.C.C. § 28-32-33(1). "In an adjudicative proceeding, discovery may be obtained in accordance with the North Dakota Rules of Civil Procedure." N.D.C.C. § 28-32-33(1). Those rules only allow parties to serve discovery requests. *See, e.g.,* N.D.R.Civ.P. 26(b)(1)(A) ("Parties may obtain discovery ...") (emphasis added); N.D.R.Civ.P. 33(a)(1) ("A party may serve written interrogatories ...") (emphasis added); N.D.R.Civ.P. 34(a)(1) ("A party may serve ... a request ... to produce ... any designated

documents or electronically stored information ...”) (emphasis added). Although the Trust has filed a petition to intervene with the Commission, for the reasons set forth in paragraphs 12–18 of Summit’s Response to Motion to Continue Hearing and Request for Scheduling Conference, the Trust is not a party to any of the above-captioned cases.

[¶ 9] Summit has no obligation whatsoever to respond to the Trust’s discovery requests given that said requests are invalid. Because Summit does not have an obligation to provide any responses to the Trust’s discovery requests, the Commission certainly should not order Summit to provide expedited responses.

## **II. The Trust’s discovery requests are incapable of being made valid.**

[¶ 10] The second reason the Commission should deny the Trust’s motion for expedited responses to the Trust’s discovery requests is that the Trust’s discovery requests are incapable of being made valid. Again, only parties may serve discovery requests. *See* N.D.R.Civ.P. 26(b)(1)(A); N.D.R.Civ.P. 33(a)(1); N.D.R.Civ.P. 34(a)(1). And the Trust is incapable of becoming a party to this case. As a result, the Trust’s discovery requests cannot be made valid.

[¶ 11] The Trust is not a separate legal entity that is capable of being a party to a case. *See Western Life Tr. v. State*, 536 N.W.2d 709, 712 (N.D. 1995) (“A trust generally is not a separate legal entity, and cannot sue or be sued in its own name.”); *Ray Malooly Tr. v. Juhl*, 186 S.W.3d 568, 570 (Tex. 2006) (“[T]he term ‘trust’ refers not to a separate legal entity but rather to the fiduciary relationship governing the trustee with respect to the trust property.”). Even if the Trust theoretically was a separate legal entity capable of becoming a party, it is not one of the entities that the Legislature permitted to become a party to an adjudicative proceeding such as the one at hand. Only a “person” can become a party. *See* N.D.C.C. § 28-32-01(9). Unlike partnerships,

corporations, and limited liability companies, trusts are not included within the statutory definition of the word “person.” *See* N.D.C.C. § 28-32-01(10).

[¶ 12] The Trust’s discovery requests can never be made valid since the Trust can never become a party to this case. Because they cannot be made valid, the Commission should not order Summit to provide expedited responses to them.

### **III. The Trust’s proposed deadlines are unreasonable.**

[¶ 13] The third reason the Commission should deny the Trust’s motion is that the Trust’s proposed deadlines are patently unreasonable.

[¶ 14] As explained above, Summit currently has no obligation to respond to any of the Trust’s three sets of discovery requests. Summit’s obligation to respond will only arise if and when the Commission grants the Trust’s petition to intervene. And the earliest the Commission could grant the Trust’s petition is theoretically the date that this brief was filed, *i.e.*, May 28, 2024. *See* N.D.A.C. § 98-02-02-08(1).

[¶ 15] In its motion for expedited responses, the Trust is asking the Commission to order Summit to respond to the Trust’s first set of discovery requests by May 23, 2024, and the Trust’s second and third sets of discovery requests by May 29, 2024. Assuming that the Commission grants both the Trust’s motion and its petition to intervene the date that Summit files this brief, Summit will have zero days to respond to the Trust’s first set of discovery requests and one day to respond to the Trust’s second and third set of discovery requests.

[¶ 16] This amount of time is unreasonable. It is not possible for Summit to comply with the first deadline and practically impossible to comply with the second deadline. 2d Skaare Decl., ¶ 31. The Trust’s discovery requests will likely require Summit locate, review, and produce

thousands of pages of documents and dozens of gigabytes of data to comply with the Trust's discovery requests, by no later than tomorrow, May 29, 2024. *Id.*

[¶ 17] In its brief in support of its motion, the Trust claims that the Commission granting the Trust's motion would only "minimally" expedite the discovery process. The Trust explains:

Under the timeline requested by Swenson Trust, [Summit] will have twenty-one days ... in which to do so for the first set of discovery. [Summit] will have twenty-three days to respond to the second set of discovery and nineteen days to respond to the third set of discovery. Accordingly, [Summit] will still have the benefit of the majority of typical timeframe in which to respond. Because this timeline does not substantially deviate from the normal progression of discovery, this factor supports Swenson Trusts motion.

Br. Supp. Mot. Expedite Discovery, 14–15. These assertions are incorrect. Summit will not have 21 days to respond to the first set of discovery requests, 23 days to respond to the second set of discovery requests, or 19 days to respond to the third set of discovery requests. The Trust inexplicably fails to account for the fact that most, if not all, of these days will have passed in the time it will take for the Commission to rule on the Trust's motion.

[¶ 18] Again, all the discovery requests with which Summit has been served are invalid because the Trust is not yet a party to this case. Summit still does not have an obligation to respond to them. Therefore, the time that Summit has to respond to them has not yet started running. And it will only start running if and when the Commission grants the Trust's petitions to intervene. The Trust's motion, if granted, would leave Summit little or no time to respond to the Trust's discovery, and the Trust offers no compelling justification for such an absurd outcome.

### CONCLUSION

[¶ 19] For the foregoing reasons, the Commission should deny the Trust's motion to expedite discovery.

Dated this 28th day of May, 2024.

*Attorneys for Summit Carbon Storage #1, LLC*

**BEFORE THE INDUSTRIAL COMMISSION  
OF THE STATE OF NORTH DAKOTA**

**CASE NOS. 30869–30880**

**In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND**

**In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,**

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by

**nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of**

**carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

**In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.**

**In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the**

**geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver county, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

#### **CONSOLIDATED RESPONSE TO PETITIONS TO INTERVENE**

[¶ 1] Applicants Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit Carbon Storage #3, LLC (collectively, “Summit”), by and through their counsel, Lawrence Bender, Fredrikson & Byron, P.A., 304 East Front Avenue, Suite 400, Bismarck, ND 58504-5639, hereby submit this consolidated response to the petitions to intervene filed with the North Dakota Industrial Commission (“Commission”) by the Swenson Living Trust ( “Trust”), Paul and Christy Metz (“Metz”), Michael and Bonnie Haupt (“Haupt”), John Jochim (“Jochim”), Gary A. and Cassie Smith (“Smith”), Michael Bauman (“Bauman”), JoLene M. Rust (“Rust”),

Glenn and Lisa Gerving (“Gerving”), Kirk and Linda Maize and Allen Maize (“Maize”), Kevin and Kimber Kraft (“Kraft”), and Charmayne Liebelt (“Liebelt”) (collectively, “Petitioners”).

[¶ 2] For the reasons set forth herein, the Commission should deny the Trust’s petition to intervene. As for the remaining Petitioners, Summit does not object to their intervention in the above-captioned cases so long as the intervention is (1) granted to each Petitioner only for those of the above-captioned cases in which each Petitioner can demonstrate that he, she, or it owns affected acreage; and (2) granted to each Petitioner for the limited purposes specified in the petitions, namely, “responding to SCS’ Applications and participating in any oral argument or hearings on the application and . . . to be heard before the final determination.” Summit does object, however, to any attempts by the remaining Petitioners to unnecessarily burden Summit and the Commission and delay the hearing currently scheduled for the above-captioned cases on June 11th and 12th, 2024 (“Hearing”), as the Trust has done.

### **RELEVANT FACTUAL BACKGROUND**

[¶ 3] The Petitions to Intervene filed by the Trust in the above-captioned cases indicate the Trust owns approximately 827.17 acres in the vicinity of the proposed carbon dioxide storage facility locations referenced in the caption above, but only 359.4 acres are located within the horizontal boundaries of the storage facility proposed by Summit Carbon Storage #2, LLC and/or the one-half mile notice area surrounding the storage facility proposed by Summit Carbon Storage #2, LLC. Second Declaration of Jeff Skaare (“2d Skaare Decl.”), ¶¶ 2–5. The Trust does not own any interests within the horizontal boundaries of the storage facilities proposed by Summit Carbon Storage #1, LLC or Summit Carbon Storage #3, LLC. *Id.* ¶ 6.

[¶ 4] The Petitions to Intervene filed by Metz in the above-captioned cases indicate Metz owns approximately 18.88 acres located within the horizontal boundaries of the storage facility

proposed by Summit Carbon Storage #1, LLC. *Id.* ¶ 12. Metz does not own any interests within the horizontal boundaries of the storage facilities proposed by Summit Carbon Storage #2, LLC or Summit Carbon Storage #3, LLC. *Id.* ¶ 13.

[¶ 5] The Petitions to Intervene filed by Haupt in the above-captioned cases indicate Haupt owns approximately 320.00 acres in the vicinity of the proposed carbon dioxide storage facility locations referenced in the caption above, but only 160.00 acres are located within the horizontal boundaries of the storage facility proposed by Summit Carbon Storage #1, LLC and/or the one-half mile notice area surrounding the storage facility proposed by Summit Carbon Storage #1, LLC. *Id.* ¶¶ 7–8. Haupt does not own any interests within the horizontal boundaries of the storage facilities proposed by Summit Carbon Storage #2, LLC or Summit Carbon Storage #3, LLC. *Id.* ¶ 9.

[¶ 6] The Petitions to Intervene filed by Jochim in the above-captioned cases indicate Jochim owns approximately 160.00 acres located within the horizontal boundaries of the storage facility proposed by Summit Carbon Storage #2, LLC. *Id.* ¶ 10. Jochim does not own any interests within the horizontal boundaries of the storage facilities proposed by Summit Carbon Storage #1, LLC or Summit Carbon Storage #3, LLC. *Id.* ¶ 11.

[¶ 7] The Petitions to Intervene filed by Smith in the above-captioned cases indicate Smith owns approximately 360.00 acres in the vicinity of the proposed carbon dioxide storage facility locations referenced in the caption above, but only 15.00 acres are located within the horizontal boundaries of the storage facility proposed by Summit Carbon Storage #2, LLC and/or the one-half mile notice area surrounding the storage facility proposed by Summit Carbon Storage #2, LLC. *Id.* ¶¶ 23–24. Smith does not own any interests within the horizontal boundaries of the

storage facilities proposed by Summit Carbon Storage #1, LLC or Summit Carbon Storage #3, LLC. *Id.* ¶ 3.

[¶ 8] The Petitions to Intervene filed by Bauman in the above-captioned cases indicate Bauman owns approximately 140.00 acres located within the horizontal boundaries of the storage facility proposed by Summit Carbon Storage #2, LLC. *Id.* ¶ 21. Bauman does not own any interests within the horizontal boundaries of the storage facilities proposed by Summit Carbon Storage #1, LLC or Summit Carbon Storage #3, LLC. *Id.* ¶ 22.

[¶ 9] The Petitions to Intervene filed by Rust in the above-captioned cases indicate Rust owns approximately 160.00 acres located within the horizontal boundaries of the storage facility proposed by Summit Carbon Storage #2, LLC. *Id.* ¶ 19. Rust does not own any interests within the horizontal boundaries of the storage facilities proposed by Summit Carbon Storage #1, LLC or Summit Carbon Storage #3, LLC. *Id.* ¶ 20.

[¶ 10] The Petitions to Intervene filed by Gerving in the above-captioned cases indicate Gerving owns approximately 393.50 acres in the vicinity of the proposed carbon dioxide storage facility locations referenced in the caption above, but all 393.50 acres are located within the horizontal boundaries of the storage facility proposed by Summit Carbon Storage #1, LLC and/or the one-half mile notice area surrounding the storage facility proposed by Summit Carbon Storage #1, LLC. *Id.* ¶¶ 16–17. Gerving does not own any interests within the horizontal boundaries of the storage facilities proposed by Summit Carbon Storage #2, LLC or Summit Carbon Storage #3, LLC. *Id.* ¶ 18.

[¶ 11] The Petitions to Intervene filed by Maize in the above-captioned cases indicate Maize owns approximately 80.00 acres located within the horizontal boundaries of the storage facility proposed by Summit Carbon Storage #1, LLC. *Id.* ¶ 14. Maize does not own any interests

within the horizontal boundaries of the storage facilities proposed by Summit Carbon Storage #2, LLC or Summit Carbon Storage #3, LLC. *Id.* ¶ 15.

[¶ 12] The Petitions to Intervene filed by Kraft in the above-captioned cases indicate Kraft owns approximately 174.58 acres in the vicinity of the proposed carbon dioxide storage facility locations referenced in the caption above, but only none of the acreage is located within the horizontal boundaries and/or the one-half mile notice area surrounding the storage facility locations referenced in the caption above. *Id.* ¶¶ 26–27. Kraft does not own any interests within the horizontal boundaries of the storage facilities proposed by Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, or Summit Carbon Storage #3, LLC, or the one-half mile hearing notice areas surrounding such facilities. *Id.* ¶ 28.

[¶ 13] The Petitions to Intervene filed by Liebelt in the above-captioned cases indicate Liebelt owns approximately 80.00 acres located within the horizontal boundaries of the storage facility proposed by Summit Carbon Storage #3, LLC. *Id.* ¶ 29. Liebelt does not own any interests within the horizontal boundaries of the storage facilities proposed by Summit Carbon Storage #1, LLC or Summit Carbon Storage #2, LLC. *Id.* ¶ 30.

### **LEGAL STANDARD**

[¶ 14] N.D.C.C. § 28-32-28 governs intervention in administrative proceedings, and provides as follows:

An administrative agency may grant intervention in an adjudicative proceeding to promote the interests of justice if intervention will not impair the orderly and prompt conduct of the proceeding and if the petitioning intervenor demonstrates that the petitioner's legal rights, duties, privileges, immunities, or other legal interests may be substantially affected by the proceeding or that the petitioner qualifies as an intervenor under any provision of statute or rule. The agency may impose conditions and limitations upon intervention. The agency shall give reasonable notice of the intervention to all parties. An administrative agency may adopt rules relating to intervention in an adjudicative proceeding.

The Commission should not grant intervention to the Petitioners unless it finds they have met the foregoing criteria. The Commission may impose conditions and limitations upon intervention by some or all of the Petitioners as it deems appropriate.

### **ARGUMENT**

[¶ 15] As indicated above, the Trust's Petitions to Intervene should be denied. First, the motion should be denied because it is procedurally defective. Such motions can only be made by "parties," and the Trust is not a "party" as that term is defined by the Administrative Agencies Practice Act. Such motions can also only be made after the moving party has conferred with the non-moving party(s) in an attempt to obtain a stipulated continuance, which the Trust has not done in this case.

[¶ 16] Second, the motion should be denied because the Trust has not shown good cause for a continuance. The Hearing is imminent and postponing the Hearing at this time would be prejudicial to Summit. The Trust claims that it needs to conduct discovery, and that it will be unable to do so in the time remaining until the Hearing but offers no support for this claim beyond conclusory assertions. As a result, the Trust has failed to show good cause and, under N.D.A.C. § 98-02-03-07 the Commission may not approve the requested continuance.

#### **I. The Trust's Petitions to Intervene should be denied.**

[¶ 17] The Commission should deny the Trust's petitions to intervene because it cannot become a party, it does not own acreage that would be affected by all the above-captioned cases, and its purpose for intervening is to impair the orderly and prompt conduct of the proceedings in these cases.

##### **A. The Trust cannot become a party as a matter of law.**

[¶ 18] N.D.C.C. § 28-32-01(9) defines a "party" as "each person named or admitted as a party or properly seeking and entitled as of right to be admitted as a party." The Trust is not a

“person,” under the Administrative Agencies Practice Act. N.D.C.C. § 28-32-01(10) defines a person as “an individual, association, partnership, corporation, limited liability company, the [North Dakota ethics commission], a state governmental agency or governmental subdivision, or an agency of such governmental subdivision.” Trusts are not considered persons for purposes of agency proceedings, just as they are not considered persons for purposes of judicial proceedings. “A trust generally is not a separate legal entity, and cannot sue or be sued in its own name.” *Western Life Trust v. State*, 536 N.W.2d 709, 712 (N.D. 1995) (concluding that appeal by the Western Life Trust must be dismissed because the trust was “not a proper party and lacks capacity to sue”). Because the Trust is not a “person,” it cannot become a “party” by intervention or otherwise. *See* N.D.C.C. § 28-32-01(9) (defining a “party” as “each person named or admitted as a party or properly seeking and entitled as of right to be admitted as a party” (emphasis added)).

**B. The Trust only holds interests in lands comprising the storage facility at issue in NDIC Case Nos. 30873 through 30876.**

[¶ 19] In its Petitions to Intervene the Trust asserts that it holds property in the lands comprising Summit’s proposed storage facilities and, as a result, “[t]he legal rights, privileges, and other interests of the Trust will be substantially affected by the [Commission’s] findings and conclusions in [the above-captioned cases].” Summit does not dispute these assertions as to NDIC Case Nos. 30873 through 30876, and as such Summit does not dispute the Trust has demonstrated that its legal rights, duties, privileges, immunities, or other legal interests may be substantially affected by proceedings in those cases. *See* 2d Skaare Decl., ¶¶ 2–5. But the Trust does not hold any property in the lands comprising the storage facilities proposed in the other eight cases captioned above, and as such the Trust cannot demonstrate that its legal rights, duties, privileges, immunities, or other legal interests may be substantially affected by proceedings in those cases. *See id.* ¶ 6.

**C. The Trust's intervention would impair the orderly and prompt conduct of the proceedings in the above-captioned cases.**

[¶ 20] The Trust's Petitions to Intervene do not address whether the Trust's intervention would "impair the orderly and prompt conduct of the proceeding[s]." Despite not yet being granted intervention, the Trust has already filed two motions seeking to continue the hearing and to rewrite discovery deadlines, respectively. All of the Trust's efforts to date have been directed at impairing the "prompt" holding of the hearing and the "orderly" conduct of discovery, respectively. Notwithstanding the defects identified above, this alone would warrant denial of the Trust's Petitions to Intervene under N.D.C.C. § 28-32-28.

**II. Summit does not object to granting the remaining Petitioners intervention for limited purposes.**

[¶ 21] All the Petitions to Intervene filed by the Petitioners say essentially the same thing, namely that they are "for the purpose of responding to SCS' Applications and participating in any oral argument or hearings on the application and the right to be heard before the final determination as it relates to Landowners and the legality of the relief requested and which may be provided in these proceedings." Though the Trust has attempted to go well beyond this modest statement of purpose, the other Petitioners have not. So long as the remaining Petitioners do engage in the same dilatory tactics as the Trust, Summit has no objection to their intervention for the purpose of participating in the Hearing, as to those cases in which the remaining Petitioners can demonstrate they have an interest consistent with the factual background set forth above (Summit nonetheless reserves the right to object to any attempts to delay proceedings at the Hearing itself).

**CONCLUSION**

[¶ 22] For the foregoing reasons, Summit respectfully requests the Commission deny the Trust's Petitions to Intervene. Summit does not object to the remaining Petitioners intervention on the limited basis set forth above. Summit would also note that it does not object to the Trustee

of the Trust intervening on the limited basis set forth above as to the other Petitioners, in the event that the Trust's Petitions to Intervene are denied.

Dated this 28th day of May, 2024.

[illegible]

5

[¶ 1] I am Director of Land, Legal and Regulatory Affairs at Summit Carbon Solutions, LLC. The above-named applicants Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit Carbon Storage #3, LLC (collectively, “Applicants”) are wholly-owned subsidiaries of Summit Carbon Solutions LLC. In my capacity as Director of Land, Legal and Regulatory Affairs at Summit Carbon Solutions, LLC, I am familiar with and have personal knowledge of the facts set forth below.

**The Swenson Living Trust (“Trust”)**

[¶ 2] In my prior Declaration in Support, I stated that:

*“the Swenson Living Trust (“Trust”), the Trust owns approximately 676.43 acres in the vicinity of the proposed storage facility locations....”*

[¶ 3] It has come to my attention that there was an error in that calculation, and I would like to correct that error here. The appropriate statement should read:

*“the Swenson Living Trust (“Trust”), the Trust owns approximately 827.17 acres in the vicinity of the proposed storage facility locations...”.*

[¶ 4] The remainder of my statement that *“only 359.4 acres are located within the horizontal boundaries of the Summit Carbon Storage #2 storage facility or within the one-half (½) mile notice area of the Summit Carbon Storage #2 storage facility”* is correct, and I would add the following details.

[¶ 5] Of the 359.40 acre referenced above, 279.40 acres are located inside the **Summit Carbon Storage #2, LLC** storage facility boundary (“SCS2 - Unit”); 80.00 acres are located within the **Summit Carbon Storage #2, LLC** hearing notification area (“SCS2 - HNA”); and 467.77 acres are outside (“Out”) of the horizontal boundaries of **Summit Carbon Storage #2**. See Table 1 – Trust below.

<b>Legal Description</b>	<b>Interest</b>	<b>Acres</b>	<b>In SCS2 Unit</b>	<b>In- SCS2 HNA</b>	<b>Out</b>	<b>Leased</b>

**Kirk and Linda Maize and Allen Maize (“Maize”)**

[¶ 14] Maize owns approximately 80.00 acres located inside the **Summit Carbon Storage #1, LLC** storage facility boundary (“SCS1 - Unit”). See Table 5 – Metz below.

<b>Legal Description</b>	<b>Interest</b>	<b>Acres</b>	<b>In-SCS1</b>	<b>In-HNA</b>	<b>Out</b>	<b>Leased</b>
Township 141 North, Range 87 West Section 20: S½SE¼	100%	80.00	80.00	0.00	0.00	No
<b>Total Acres</b>		<b>80.00</b>	<b>80.00</b>	<b>0.00</b>	<b>0.00</b>	

*Table 5 – Maize*

[¶ 15] Maize does **not** own any interests within the horizontal boundaries of the **Summit Carbon Storage #2, LLC** or **Summit Carbon Storage #3, LLC** storage facilities, nor within the one-half (½) mile hearing notice areas of such facilities.

**Glenn and Lisa Gerving (“Gerving”)**

[¶ 16] Gerving owns approximately 393.50 acres in the vicinity of the **Summit Carbon Storage #1, LLC** storage facility boundary (“SCS1 - Unit”).

[¶ 17] Of the 393.50 acre referenced above, 233.50 acres are located inside the **Summit Carbon Storage #1, LLC** storage facility boundary (“SCS1 - Unit”); and 160.00 acres are located within the **Summit Carbon Storage #1, LLC** hearing notification area (“SCS1 - HNA”). *See* Table 6 – Gerving below.

<b>Legal Description</b>	<b>Interest</b>	<b>Acres</b>	<b>In-SCS1</b>	<b>In-SCS1 HNA</b>	<b>Out</b>	<b>Leased</b>
<u>Township 141 North, Range 88 West</u> Section 13: S½, less the North 53 acres	50%	133.50	133.50	0.00	0.00	No

<b>Total Acres</b>		<b>360.00</b>	<b>0.00</b>	<b>15.00</b>	<b>345.00</b>	

*Table 9 – Smith*

[¶ 25] Smith does **not** own any interests within the horizontal boundaries of the **Summit Carbon Storage #1, LLC** or **Summit Carbon Storage #3, LLC** storage facilities, nor within the one-half (½) mile hearing notice areas of such facilities.

**Kevin and Kimberly Kraft (“Kraft”)**

[¶ 26] Kraft owns approximately 174.58 acres in the vicinity of the **Summit Carbon Storage #1, LLC** storage facility boundary (“SCS1 - Unit”).

[¶ 27] All 174.85 acres referenced above, is outside of **all** storage facility boundaries. *See* Table 10 – Kraft below.

<b>Legal Description</b>	<b>Interest</b>	<b>Acres</b>	<b>In-Unit</b>	<b>In-HNA</b>	<b>Out</b>	<b>Leased</b>
<u>Township 142 North, Range 87 West</u> Section 27: A tract of land in the S½ more fully described in a Parcel Plat recorded January 23, 2002 as Document No. 80055 at the Oliver County, North Dakota Recorder’s Office	100%	174.58	0.00	0.00	174.58	No
<b>Total Acres</b>		<b>174.58</b>	<b>0.00</b>	<b>0.00</b>	<b>174.58</b>	

*Table 10 – Kraft*

[¶ 28] Kraft does **not** own any interests within the horizontal boundaries of the **Summit Carbon Storage #1, LLC; Summit Carbon Storage #2, LLC** or **Summit Carbon Storage #3, LLC** storage facilities, nor within the one-half (½) mile hearing notice areas of such facilities.

**Charmayne Liebelt (“Liebelt”)**

[¶ 29] Liebelt owns approximately 80.00 acres located inside the **Summit Carbon Storage #3, LLC** storage facility boundary (“SCS3 - Unit”). *See* Table 11 – Liebelt below.

<b>Legal Description</b>	<b>Interest</b>	<b>Acres</b>	<b>In-SCS3 Unit</b>	<b>In-SCS3 HNA</b>	<b>Out</b>	<b>Leased</b>
<u>Township 143 North, Range 86 West</u> Section 32: S½SW¼	100%	80.00	80.00	0.00	0.00	No
<b>Total Acres</b>		<b>80.00</b>	<b>80.00</b>	<b>0.00</b>	<b>0.00</b>	

*Table 11 – Liebelt*

[¶ 30] Liebelt does not own any interests within the horizontal boundaries of the **Summit Carbon Storage #1, LLC** or **Summit Carbon Storage #2, LLC** storage facilities, nor within the one-half (½) mile hearing notice areas of such facilities.

[¶ 31] That in order to comply with the three sets of discovery requests attached to the Trust's motion to expedite discovery, Summit would need to collect, review, and produce thousands of pages of documents and dozens of gigabytes of data. It would not be feasible for Summit to respond to the Trust's discovery request by May 29, 2024.

I declare, under penalty of perjury under the law of North Dakota, that the foregoing is true and correct.

Signed on the 28th day of May, 2024, at Bismarck, North Dakota, USA.

**BEFORE THE INDUSTRIAL COMMISSION  
OF THE STATE OF NORTH DAKOTA**

**CASE NOS. 30869–30880**

**In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND**

**In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,**

**11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND**

**In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by**

**nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of**

**carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

**In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.**

**In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the**

**geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver county, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

**ORDER ON PETITIONS TO INTERVENE  
AND MOTION FOR EXPEDITED DISCOVERY**

[¶ 1] Before the North Dakota Industrial Commission (“Commission”) are petitions to intervene filed by the Swenson Living Trust (“Trust”), Paul and Christy Metz (“Metz”), Michael and Bonnie Haupt (“Haupt”), John Jochim (“Jochim”), Gary A. and Cassie Smith (“Smith”), Michael Bauman (“Bauman”), JoLene M. Rust (“Rust”), Glenn and Lisa Gerving (“Gerving”), Kirk and Linda Maize and Allen Maize (“Maize”), Kevin and Kimber Kraft (“Kraft”), and Charmayne Liebelt (“Liebelt”) (collectively, “Petitioners”). Also before the Commission are a

motion to continue the hearing and a motion to expedite discovery filed by the Trust. Applicants Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit Carbon Storage #3, LLC (collectively, “Summit”) have filed a consolidated response to the petitions to intervene filed by the Petitioners and a response to the motion to expedite discovery filed by the Trust.

[¶ 2] Having considered the briefing and materials filed by the Petitioners and Summit, and the record in the above-captioned cases, the Commission rules as follows:

- a. The Trust’s Petitions to Intervene are DENIED. The denial of the Trust’s Petitions to Intervene does not prejudice the Trustee of the Trust from filing Petitions to Intervene hereafter, which the Commission will consider;
- b. The remaining Petitioner’s Petitions to Intervene are GRANTED for the limited purpose of “responding to SCS’ Applications and participating in any oral argument or hearings on the application and the right to be heard before the final determination as it relates to Landowners and the legality of the relief requested and which may be provided in these proceedings.” The Commission will not continue or extend the currently scheduled hearing dates or any other deadlines in the above-captioned action, nor will the Commission allow intervention to “impair the orderly and prompt conduct of the proceeding[s]”;
- c. Because the Trust’s Petitions to Intervene have been denied, the Trust’s motion to expedite discovery and motion to continue the hearing are DENIED as moot. The Commission further notes that had the Trust’s Petitions to Intervene been granted, the motion to expedite discovery and

motion to continue the hearing would still have been denied for the reasons set forth in Summit's responses thereto.

Dated this \_\_\_\_\_ day of \_\_\_\_\_, 2024.

Hearing Officer

**BEFORE THE INDUSTRIAL COMMISSION  
OF THE STATE OF NORTH DAKOTA**

**CASE NOS. 30869–30880**

**In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND**

**In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1,**

11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.

In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.

In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND

In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by

**nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of**

**carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

**In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.**

**In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the**

**geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver county, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

#### **CERTIFICATE OF SERVICE**

[¶ 1] I, the undersigned, hereby certify that a true and correct copy of the following documents:

1. Response to Motion to Expedite Discovery;
2. Consolidated Response to Petitions to Intervene;
3. Second Declaration of Jeff Skaare; and
4. Proposed Order on Petitions to Intervene and Motion for Expedited Discovery

were, on May 28, 2024, filed electronically with the North Dakota Industrial Commission and served upon the following therewith:

**In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND.**

**In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

**In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.**

**In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31 , 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31 , 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver county, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

---

**ORDER FOR CONTINUANCE OF HEARING**

---

- (1) On April 16, 2024, The Swenson Living Trust, by and through its trustees, received notice with the hearing scheduled for June 11-12, 2024.
- (2) On April 25, 2024, Swenson Trust through its trustees filed a motion to continue hearing.
- (3) On April 30, 2024, Lawrence Bender responded on behalf of Applicants Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit Carbon Storage #3, LLC (collectively, “Summit”).
- (4) Therefore, it is ORDERED that the Motion to Continue is hereby GRANTED. The hearing on June 11-12, 2024 will be rescheduled for a later date following a prehearing conference with the parties.
- (5) A prehearing and discovery conference will be scheduled sometime within the next 15 days to allow the parties to discuss the status of the electronic and written discovery exchange and the timing of the deposition, and to discuss any other matters related to the hearing. Further prehearing conferences may also be scheduled.

**In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #2, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND.**

**In re application of Summit Carbon Storage # 2, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #2, LLC storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 2, LLC to consider the application of Summit Carbon Storage #2, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Sections 27, 28, 29, 32, 33, 34, and 35, Township 143 North, Range 88 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, and 36, Township 142 North, Range 88 West, Sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 31, Township 142 North, Range 87 West, and Sections 1, 2, and 3, Township 141 North, Range 88 West, Mercer and Oliver Counties, ND, subject to the application of Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

**In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.**

**In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #3, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31 , 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31 , 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver county, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

---

**ORDER**

---

- (1) On April 18, 2024, The Swenson Living Trust, by and through its trustees, filed a petition to intervene in this matter.
- (2) On May 15, 2024, additional petitions to intervene were filed for the following landowners:
  - a. Michael and Bonnie Haupt,
  - b. John Jochim, and
  - c. Paul and Christy Metz.
- (3) On May 16, 2024 additional petitions to intervene were filed for the following landowners:
  - a. Kirk and Linda Maize and Allen Maize,
  - b. Glenn and Lisa Gerving,
  - c. JoLene Rust,
  - d. Michael Bauman, and
  - e. Gary and Cassie Smith.
- (4) On May 22, 2024 additional petitions to intervene were filed for the following landowner:
  - a. Kevin and Kimberly Kraft.
- (5) On May 24, 2024 additional petitions to intervene were filed for the following landowner:
  - a. Charmayne Liebolt<sup>1</sup>.
- (6) On April 25, 2024, Swenson Trust through its trustees filed a motion to continue hearing.
- (7) On April 30, 2024, Lawrence Bender responded on behalf of Applicants Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit Carbon Storage #3, LLC (collectively, “Summit”). In that response Mr. Bender acknowledged that “Summit does not dispute these assertions as to NDIC Case Nos. 30873 through 30876, and as such Summit does not dispute the Trust has demonstrated that its legal rights, duties, privileges, immunities, or other legal interests may be substantially affected by proceedings in those cases.” Response to Motion to Continue Hearing and Request for Scheduling Conference, ¶16.

---

<sup>1</sup> All landowners represented by Braaten Law Firm will hereafter be referred to collectively as “Landowners.”

(8) Although Applicants contend that certain of the purported intervenors do not own interests in all three storage facilities and therefore should only be entitled to intervene as of right in the one of three facilities in which it owns interests, given that the Commission has combined all of these cases for hearing and they will be heard together, and further given that at least some of the filings from Applicants indicate that pressure differentials will impact all of the purported intervenors property, it is appropriate to grant intervention for the combined proceedings for these purported intervenors.

(9) Therefore, it is ORDERED that the Petitions to Intervene for the following Landowners are hereby GRANTED:

- a. The Swenson Living Trust *by and through its trustees Kurt and FayE Swenson,*
- a. Michael and Bonnie Haupt,
- b. John Jochim,
- c. Paul and Christy Metz,
- d. Kirk and Linda Maize and Allen Maize,
- e. Glenn and Lisa Gerving,
- f. JoLene Rust,
- g. Michael Bauman,
- h. Gary and Cassie Smith,
- i. Kevin and Kimberly Kraft, and
- j. Charmayne Liebelt.

(10) Swenson Trust also issued discovery in this matter and a notice of deposition as follows:

- a. Landowners Interrogatories and Requests for Production of Documents to Applicants (Set 1); served on May 2, 2024,
- b. Landowners Interrogatories and Requests for Production of Documents to Applicants (Set 2); served on May 6, 2024,
- c. Landowners Notice of 30(b)(6) Deposition of Summit Carbon Solutions; served on May 9, 2024, and
- d. Landowners Interrogatories and Requests for Production of Documents to Applicants (Set 3); served on May 10, 2024.

(11) In order to facilitate the full review of the applications, Landowners seek to obtain the computer data and models used by Applicants to create the application materials and assess the requirements for the applications. These requests are appropriate given the guidance for such

permitting proceedings indicates that the “permit application submittal include all necessary information for the UIC Program Director to evaluate the AoR delineation results and replicate the computational modeling exercise if he or she elects to do so, as well as all model input and output data and files. This may include providing inputs for the UIC Program Director to use in their verification modeling effort.”<sup>2</sup>

(12) This same guidance “recommends that the permit application submittal include the following in support of the AoR delineation:”

- The conceptual site model and all supporting data on which the model is based, including the description of geologic stratigraphy and any relevant geologic features. See Box 3-1 of this guidance document for more information;
- Attributes of the code used to create the computational model, including the code name, name of developing organization, a full accounting of or reference to the model governing equations, scientific basis, and any simplifying assumptions;
- A description of the model domain, i.e., the model’s lateral and vertical extents, geologic layer thickness, and grid cell sizes, as presented on maps and cross-sections....<sup>3</sup>

(13) Landowners are entitled to obtain the models and model data requested in their discovery on an expedited basis. This data should be readily available to Applicants in a form that can be quickly exported and transferred electronically to Landowners.

(14) Applicants Summit Carbon Storage #1, LLC, Summit Carbon Storage #2, LLC, and Summit Carbon Storage #3, LLC are hereby ORDERED to respond to the discovery requests issued by Landowners by May 29, 2024. Applicants are also HEREBY ORDERED to prepare witnesses for and attend the deposition of the Applicants pursuant to the Notice of 30(b)(6)

---

<sup>2</sup> *UIC Program Class VI Well Area of Review Evaluation and Corrective Action Guidance*, p.48, available at <https://www.epa.gov/sites/default/files/2015-07/documents/epa816r13005.pdf>. (emphasis added).

<sup>3</sup> *Id.*

Deposition issued on May 9, 2024, and pursuant to the requirements and restrictions of N.D.R.Civ.P. 30(b)(6) specifically and the ND Rules of Civil Procedure generally. The Commission is not taking a position on admissibility or discoverability with respect to any particular items in the discovery requests or deposition notice, but cautions Applicants that the data listed above in Class VI guidance should be provided promptly to allow Landowners to run and analyze all computer models used by Applicants to generate and create the application materials.

(15) A prehearing and discovery conference will be scheduled sometime on May 30 or 31 to allow the parties to discuss the status of the electronic and written discovery exchange and the timing of the deposition, and to discuss any other matters related to the hearing. Further prehearing conferences may also be scheduled.

### **OIL AND GAS DIVISION**

**In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND**

**Case Nos. 30869  
30870  
30871  
30872**

**In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.**

---

**PETITION TO INTERVENE**

---

Pursuant to N.D.C.C. § 28-32-28, Charmayne Liebelt (“Landowner”) hereby petitions to intervene in the above-captioned proceedings. In support of this petition, Landowner states and alleges as follows:

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC (“SCS”) filed an Application for a Permit (“Application”) asking the North Dakota Industrial Commission (“NDIC”) to grant its application. *See* Case Nos. 30869, 30870, 30871, and 30872.

[¶2] Landowner has property located within the area encompassed by SCS’ Applications and it owns real property that will be impacted by SCS’s proposed sequestration as referenced in Case Nos. 30869, 30870, 30871, and 30872. Specifically, Landowner owns property that is within one of the proposed storage facilities and impacted by all of them.

[¶3] Landowner owns interests in property legally described as follows:

- a. S1/2SW1/4 of Section 32, Township 143 North, Range 86 West of the Fifth Principal Meridian, in Oliver County, ND.

[¶4] The legal rights, privileges, and other legal interests of Landowner will be substantially affected by the NDIC’s findings and conclusions in this proceeding as they relate to the Applications and other findings that will alter and take away property and other legal rights of Landowner. Landowner files this petition for the purpose of responding in opposition to the Applications.

[¶5] For these reasons Landowner petitions for leave to intervene in this proceeding for the purpose of responding to SCS’ Applications and participating in any oral argument or hearings on the application and the right to be heard before the final determination as it relates to Landowner and the legality of the relief requested and which may be provided in these proceedings.

Dated this 24<sup>th</sup> day of May, 2024.

## **NORTH DAKOTA**

### **OIL AND GAS DIVISION**

**In re application of Summit Carbon Storage #1, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND**

**Case Nos. 30869  
30870  
30871  
30872**

**In re application of Summit Carbon Storage # 1, LLC to consider the amalgamation of the storage reservoir pore space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #1, LLC storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage # 1, LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, in the Broom Creek Formation.**

**In re motion to consider establishing the field and pool limits for lands located in Sections 31, 32, 33, and 34, Township 142 North, Range 87 West, Sections 1, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 35, and 36, Township 141 North, Range 88 West, Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 141 North, Range 87 West, Sections 1, 2, 3, and 12, Township 140 North, Range 88 West and Sections 4, 5, 6, and 7, Township 140 North, Range 87 West, Mercer, Morton, and Oliver Counties, ND, subject to the application of Summit Carbon Storage #1, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation.**

---

**PETITION TO INTERVENE**

---

Pursuant to N.D.C.C. § 28-32-28, Kevin and Kimberly Kraft (“Landowners”) hereby petition to intervene in the above-captioned proceedings. In support of this petition, Landowners state and allege as follows:

[¶1] On February 6, 2024, Summit Carbon Storage #1, LLC (“SCS”) filed an Application for a Permit (“Application”) asking the North Dakota Industrial Commission (“NDIC”) to grant its application. *See* Case Nos. 30869, 30870, 30871, and 30872.

[¶2] Landowners have property located within the area encompassed by SCS’ Applications and it owns real property that will be impacted by SCS’s proposed sequestration as referenced in Case Nos. 30869, 30870, 30871, and 30872. Specifically, Landowners own property directly between the storage facilities in the area of review where pore space will be impacted and used by the proposed storage facilities despite those lands not being listed as part of the storage facilities.

[¶3] Landowners own interests in property legally described as follows:

a. Township 142 North, Range 87 West

Section 27: A tract of land located in the S1/2

Oliver County, ND

more particularly described as follows:

Commencing at the Southeast corner of said Section 27; thence N 89°59'36" W a distance of 2070.02 feet to the point of beginning; thence continuing N 89° 59'36" W a distance of 824.50 feet; thence N 0°40'27" E a distance of 2642.32 feet to the mid-section line; thence along the mid-section line S 89°54'53" E a distance of 824.50 feet; thence S 0°40'27" W a distance of 2641.19 feet to the point of beginning. Said tract contains 50.00 acres more or less.

b. Township 142 North, Range 87 West

Section 27: SE1/4 LESS AND EXCEPT a tract of land previously conveyed

Oliver County, ND

[¶4] The legal rights, privileges, and other legal interests of Landowners will be substantially affected by the NDIC's findings and conclusions in this proceeding as they relate to the Applications and other findings that will alter and take away property and other legal rights of Landowners. Landowners file this petition for the purpose of responding in opposition to the Applications.

[¶5] For these reasons Landowners petition for leave to intervene in this proceeding for the purpose of responding to SCS' Applications and participating in any oral argument or hearings on the application and the right to be heard before the final determination as it relates to Landowners and the legality of the relief requested and which may be provided in these proceedings.

Dated this 22<sup>nd</sup> day of May, 2024.

**Summit Carbon Storage #2, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.**

**In re application of Summit Carbon Storage #3, LLC requesting consideration for the geologic storage of carbon dioxide in the Broom Creek Formation from the Midwest Carbon Express Pipeline in the storage facility located in Section 26, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND.**

**In re application of Summit Carbon Storage #3, LLC to consider the amalgamation of the storage reservoir space, in which the Commission may require that the pore space owned by nonconsenting owners be included in the geologic storage, as required to operate the Summit Carbon Storage #3, LLC storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, in the Broom Creek Formation.**

**In re application of Summit Carbon Storage #3,**

---

---

LLC for an order of the Commission determining the amount of financial responsibility for the geologic storage of carbon dioxide from the Midwest Carbon Express Pipeline in the storage facility located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND in the Broom Creek Formation.

In re motion of the Commission to consider establishing the field and pool limits for lands located in Section 36, Township 143 North, Range 87 West, Sections 19, 20, 21, 28, 29, 30, 31, 32, 33, 34, 35, and 36, Township 143 North, Range 86 West, Sections 1, 2, 11, 12, 13, 14, and 24, Township 142 North, Range 87 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, and 35, Township 142 North, Range 86 West, and Sections 6, 7, 17, 18, 19, and 20, Township 142 North, Range 85 West, Oliver County, ND, subject to the application of Summit Carbon Storage #3, LLC for the geologic storage of carbon dioxide in the Broom Creek Formation, and enact such special field rules as may be necessary.

---

[¶1] Pursuant to N.D.C.C. § 28-32-28, Minnkota Power Cooperative, Inc. (“Minnkota”), hereby petitions the Commission to intervene in the above-captioned proceedings. In support of this petition, Minnkota states and avers the following as stated herein.

[¶2] Minnkota holds three geologic storage facility permits issued as the result of Orders from the Commission for the amalgamation of pore space in the Minnkota Center MRYS Broom Creek

Storage Facility #1 in Oliver County, North Dakota, and the amalgamation of pore space in the Minnkota Center MRYS Deadwood Storage Facility #1 in Oliver County. Minnkota, through its subsidiary DCC West Project LLC, also holds a storage facility permit that provides redundancy and operating flexibility for Project Tundra, the “DCC West Broom Creek Storage Facility #1,” that was approved by the Commission on October 4, 2023. See Case Nos. 29029 – 29034, and 30122 – 30125.

[¶3] In Order No. 31584 (Case No. 29030), the Commission approved Minnkota’s application for an order determining the amalgamation of pore space within portions of Sections 35 and 36, Township 142 North, Range 84 West, Sections 19, 20, 21, 22, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 142 North, Range 83 West, Sections 1, 2, 12, and 13, Township 141 North, Range 84 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 14, 15, 16, 17, 18, 19, 20, and 21, Township 141 North, Range 83 West, Oliver County, in the Broom Creek Formation for the Minnkota Center MRYS Broom Creek Storage Facility #1, and encompasses 18,903 acres in Oliver County. Minnkota’s application to the Commission for the amalgamation of storage reservoir pore space for Broom Creek Storage Facility #1 was made pursuant to a Geologic Storage Agreement that was signed, ratified, or approved by surface owners owning at least sixty percent of the pore space interest within these lands under N.D.C.C. § 38-22-10. See Order No. 31584 at ¶ 2.

[¶4] In Order No. 31587 (Case No. 29033), the Commission approved Minnkota’s application for an order determining the amalgamation of pore space within portions of Sections 35 and 36, Township 142 North, Range 84 West, Sections 19, 20, 21, 22, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, Township 142 North, Range 83 West, Sections 1, 2, 12, and 13, Township 141 North, Range 84 West, Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 14, 15, 16, 17, 18, 19, 20, and 21,

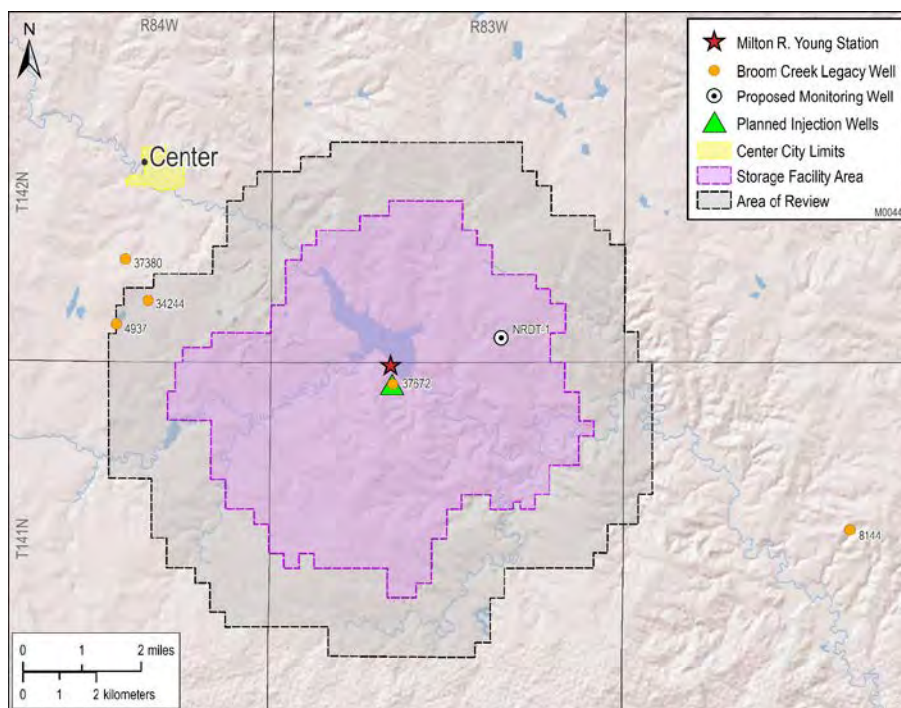

Township 141 North, Range 83 West, Oliver County, in the Deadwood Formation, for the Minnkota Center MRYS Deadwood Storage Facility #1, and while a different formation than Broom Creek, also encompasses 18,903 acres in Oliver County. Minnkota's application to the Commission for the amalgamation of storage reservoir pore space for its Deadwood Storage Facility #1 was made pursuant to a Geologic Storage Agreement that was signed, ratified, or approved by surface owners owning at least sixty percent of the pore space interest within these lands under N.D.C.C. § 38-22-10. See Order No. 31587 at ¶ 2.

[¶5] In Order No. 32806 (Case No. 30122), the Commission approved Minnkota's application for DCC West Broom Creek Storage Facility #1 for an order determining the amalgamation of pore space within portions of Township 141 North, Range 84 West, Section 2-11, 14-21, 29-32, Township 141 North, Range 85 West, Sections 1-4, 9-16, 22-27, and 36, Township 142 North, Range 84 West, Sections 19-21 and 28-34, and Township 142 North, Range 85 West, Sections 24, 25, 33, 34, 35 and 36, Oliver County, in the Broom Creek formation. This third additional storage facility will primarily serve the Milton R. Young Station. To the extent there is additional storage capacity available, Minnkota may entertain requests from third parties for storage services for the purpose of geologic sequestration of carbon dioxide. It encompasses 29,903 acres in Oliver County.

[¶6] The Commission's Orders for the Broom Creek and Deadwood formations, and the Minnkota Center MRYS Deadwood Storage Facility #1 and Minnkota Center MRYS Broom Creek Storage Facility #1, are part of Minnkota's Project Tundra. As the Commission is aware, Project Tundra is a large-scale, capital-intensive carbon sequestration and storage project designed to capture up to four million metric tons of the carbon dioxide produced by the MRYS. As the Commission also knows, Minnkota has been leading this project for the past nine years and has,

along with its partners, the State of North Dakota, and the Department of Energy, devoted significant resources towards its advancement and seeing it to fruition, including investing \$90,000,000 in the project.

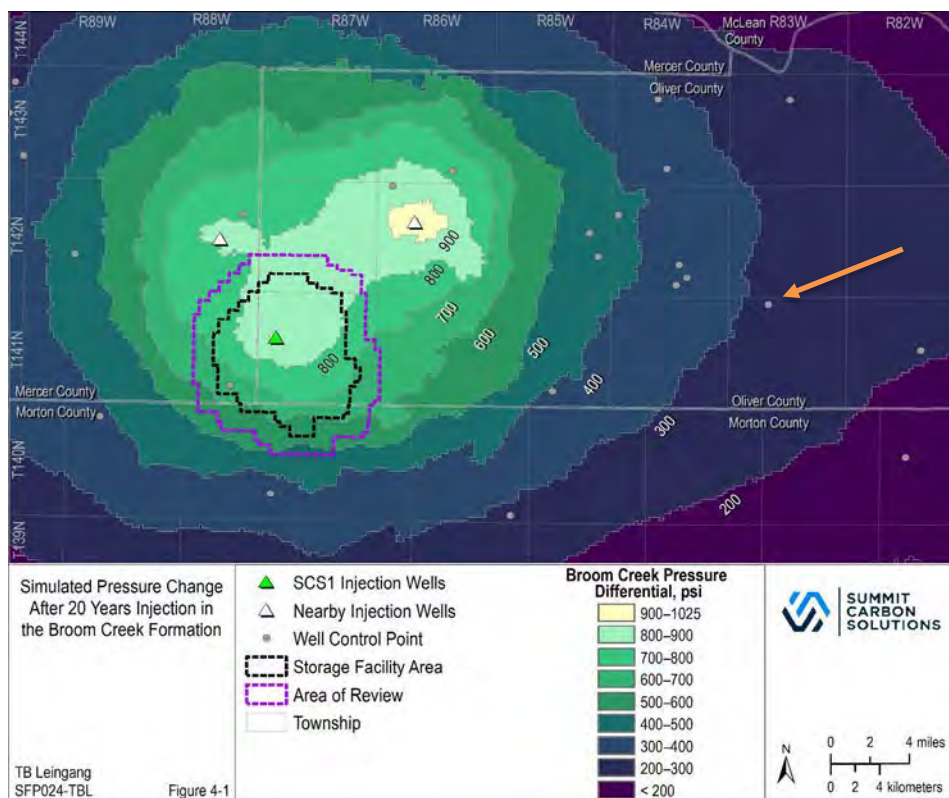

[¶7] The location of Project Tundra is immediately adjacent to the east of Summit Carbon Storage, LLC, #1, #2, and #3's proposed injection sites. The following Figure 1 is from Minnkota's application to the Commission showing its injection site, and the J-LOC 1, BNI 1, and Herbert Dresser wells. Minnkota owns the J-LOC 1 well.

This encompasses property in Township 142 North, Ranges 82, 83, and 84 West, and Township 141 North, Ranges 82, 83, and 84 West.

[¶8] Summit Carbon Storage's Figure 4-1, as identified in its applications to the Commission, while showing these three wells in Township 142, Range 84, omits Minnkota's injection site at the Milton R. Young Station (part of Project Tundra already approved by the Commission) that is next door to the injection wells proposed by Summit Carbon Storage. The J-LOC 1 and BNI 1

wells are mentioned in at least five places in Summit's Application in Case No. 30869. See p. 168, 245, 247, 252, and 538. Summit's Figure 4-1 is reproduced here:

The orange arrow, added by Minnkota for the purpose of this Petition, shows the location of Minnkota's injection well at the Milton R. Young Station in Township 141 North, Range 83 West, which has been approved by the Commission.

[¶9] Minnkota seeks to intervene because its interest in Project Tundra, the related permits issued by the Commission for the same, and its correlative rights in the pore space comprising Project Tundra, are the subject of and may be impacted by the outcome of the proceedings on Summit Carbon Storage's applications and proposed project. Minnkota thus seeks to protect its interest and significant investments in Project Tundra as they may be impacted by Summit Carbon Storage, LLC's #1, #2, and #3 pending applications.

[¶10] Minnkota further seeks to intervene because The Swenson Living Trust petitioned to intervene in these same applications on April 18, 2024. The Swenson Living Trust is a party to a lawsuit in North Dakota State District Court – *Northwest Landowners Association et al. v. State of North Dakota et al.*, Case No. 05-2023-cv-00065 – in which Minnkota is also a party. To the extent these proceedings may have any impact on that case, Minnkota seeks to intervene to ensure an accurate record as related to its interests and Project Tundra.

[¶11] Considering the foregoing, the rights, privileges, and other interests of Minnkota will be substantially affected by the Commission’s proceedings herein, and Minnkota seeks to intervene to protect its interests in Project Tundra, along with the rights secured by virtue of the Commission’s Orders issued in Case Nos. 29029 – 29034, and 30122 – 30125. Minnkota respectfully requests that the Commission grants its Petition to Intervene, and to be allowed to participate and offer testimony and evidence, as may be appropriate, and be heard before the Commission issues any Orders as to Summit Carbon Storage’s applications.

Dated this 20<sup>th</sup> day of May, 2024.
