

# COME DIG WITH US IN 2011

## Crocodile fossil dig in the scenic and rugged North Dakota badlands near Medora

A 60 million year old fossil site containing crocodile, champsosaur (crocodile-like animal), turtle, and fish fossils has recently been discovered in the beautiful and rugged badlands near Medora, North Dakota. The North Dakota Geological Survey and Theodore Roosevelt Medora Foundation will co-sponsor a scientific, professionally conducted, fossil excavation at that site in August, 2011. Public participation is invited.

*Champsosaurus gigas*

**Who:** Open to anyone 12 years or older  
**When:** August 15 through August 21, 2011

**Where:** Medora, North Dakota

**Cost:** \$145 per day per person

**Family day:** August 20, 21 will be family days for children of any age accompanied by an adult: \$30 per person for morning or afternoon dig.

**\*\*\*ALL COSTS ARE NONREFUNDABLE\*\*\***
