

COME DIG WITH US IN 2012

Crocodile fossil dig in the scenic and rugged North Dakota badlands near Medora

A 60-million-year-old fossil site containing crocodile, champsosaur (crocodile-like animal), turtle, fish, and other fossils is being excavated in the beautiful and rugged badlands near Medora, North Dakota. The North Dakota Geological Survey and Theodore Roosevelt Medora Foundation will co-sponsor a scientific, professionally conducted, fossil excavation at that site in July 2012. Public participation is invited; open to anyone 12 years or older. There will be three Family Dig days available, from July 27-29th (open to anyone 6 years or older, with adult supervision).

Champsosaurus gigas

Who: Open to anyone 12 years or older

When: July 23 through July 29, 2012

Where: Medora, North Dakota

Cost: \$145 per day per person

Family day: July 27-29 will be family days for children age 6 or older, accompanied by an adult: \$30 per person for morning or afternoon dig.
