

Public Fossil Dig - Dickinson Area

-We say "area" because we will be starting and ending the day in Bismarck, but traveling to sites near Dickinson. Depending on the weather, and the concentration of fossils at different locations, our destinations may shift. We will be concentrating on a 30-40 million year old mammal site (saber-toothed cats, rhinos, tortoises, tiny deer and horses, etc.). If the weather doesn't cooperate, we will have spaces for people to work in our paleontology lab in Bismarck.

-When: June 26nd - 30th, 2017

-Where: Near Dickinson, ND. Daily trips to the fossil sites will originate from Bismarck, where we will meet at the Heritage Center. We can also meet diggers in Dickinson on the way to the fossil sites. If we are unable to dig due to poor weather conditions, we will work in the Paleontology Lab in Bismarck.

-Cost: \$10 per person. Participants must be at least 12 years old. Individuals under 18 years of age must have an accompanying adult. Lodging (if needed), meals, and transportation to the fossil sites are the responsibility of the participants. Maximum of 10 participants per day. All tools needed for the day will be provided.
