

# GREAT PLAINS GLACIOTECTONICS

## Glaciotectonic Landforms and Structures

### Ice-shoved Hills

-  continuous hills
-  discontinuous hills
-  small discrete hill
-  area of small discrete hills

### Concealed Structures

-  continuous structure
-  discontinuous structures
-  small discrete structure

### Source Basins

-  discrete basin

UTM projection (zone 13)

200 m contour interval with 800 m index

Prepared for the Work Group on Glacial Tectonics of the International Union for Quaternary Research

Published by the North Dakota Geological Survey, Miscellaneous Map 31, 1991
