Surface Geology
Fargo North Quadrangle, North Dakota

Fred J. Anderson
2005

EXPLANATION

QUATERNARY SYSTEM

HOLOCENE

Pic
Leaf litter, natural and artificial.
Vegetation growing on and around the Pic.
Fording through the Pic.

GOODE FORMATION

Red River alluvium

WELLborings data

SEDIMENTARY

Red River alluvium

THE EECKA GROUP

CUTBANK EROSION BRENNA FORMATION

UNSTEADY SOILS BANK failure

Other Features

Water

Road cuts

Buildings

Geologic Symbols

Kerneer contact between two geologic units
Score of contact between two geologic units
