

BEFORE THE INDUSTRIAL COMMISSION
OF THE STATE OF NORTH DAKOTA

CASE NO. 21016
ORDER NO. 23322

IN THE MATTER OF A HEARING CALLED ON A MOTION OF THE COMMISSION TO CONSIDER THE APPLICATION OF FIDELITY EXPLORATION & PRODUCTION CO. FOR AN ORDER ALLOWING THE PRODUCTION FROM THE DOLORIS #14-23H WELL AND THE ALLAN #14-23H WELL, LOCATED IN SECTION 14, T.140N., R.97W., DICKINSON FIELD, STARK COUNTY, ND, TO BE PRODUCED INTO THE DOLORIS CENTRAL TANK BATTERY OR PRODUCTION FACILITY LOCATED IN SECTION 14, T.140N., R.97W., STARK COUNTY, ND, AS AN EXCEPTION TO THE PROVISIONS OF NDAC § 43-02-03-48, PURSUANT TO NDAC § 43-02-03-48.1, AND SUCH OTHER RELIEF AS IS APPROPRIATE.

ORDER OF THE COMMISSION

THE COMMISSION FINDS:

- (1) This cause came on for hearing at 9:00 a.m. on the 26th day of September, 2013.
- (2) Pursuant to North Dakota Administrative Code (NDAC) Section 43-02-03-88.1, the Director is authorized to sign, on behalf of the Commission, orders relating to, inter alia, commingling of production from two or more wells in a central tank battery under NDAC Section 43-02-03-48.1.
- (3) Fidelity Exploration & Production Company (Fidelity) is the operator of the following wells in the Dickinson Field, Stark County, North Dakota:

<u>File No.</u>	<u>Well Name & No.</u>	<u>Location</u>
24989	Allan 14-23H	NWNE Section 14-T140N-R97W
24990	Doloris 14-23H	NWNE Section 14-T140N-R97W

- (4) Fidelity requests permission to commingle the production from the wells listed in paragraph (3) in the Doloris Central Tank Battery (CTB No. 224989-01) located in the NW/4 NE/4 of Section 14, Township 140 North, Range 97 West, Stark County, North Dakota, pursuant

to NDAC Section 43-02-03-48.1. There are no wells currently authorized to be commingled in the Doloris Central Tank Battery.

(5) Fidelity submitted a Sundry Notice and attachments for approval pursuant to NDAC Section 43-02-03-88.1 and NDAC Section 43-02-03-48.1.

(6) Ownership between the wells listed in paragraph (3) above is diverse.

(7) Fidelity will allocate production measured at the central production facility to the various wells on the basis of production tests utilizing the facilities at the central production facility. The production from each well will be separately measured each month and applicant believes that such allocation will result in a reasonably accurate determination of production from each well.

(8) NDAC Section 43-02-03-48 states: "Oil production may not be transported from a well premises or central production facility until its volume has been determined through the use of properly calibrated meter measurements or tank measurements. All meter and tank measurements and volume determinations must conform to American petroleum institute standards and be corrected to a base temperature of sixty degrees Fahrenheit [15.56 degrees Celsius]."

(9) Allowing such commingling will reduce the expenditure of funds on surface facilities and enhance the economics of production, thereby preventing economic waste and promoting the greatest ultimate recovery of oil and gas from the Dickinson Field. Utilization of central production facilities will minimize surface disturbance and promote both full utilization of the surface and enhance the aesthetic values resulting from fewer production facilities.

(10) Fidelity will construct and operate the central production facility in such a manner that allows for reasonably accurate allocation of production to each respective party.

(11) The proposed process, measurement, and allocation will result in a reasonably accurate determination of production.

(12) There were no objections to this application.

(13) The granting of this application will prevent waste and protect correlative rights.

IT IS THEREFORE ORDERED:

(1) Fidelity Exploration & Production Company is hereby permitted to commingle production from the wells listed in paragraph (3) of the above findings into the Doloris Central Tank Battery (CTB No. 224989-01) located in the NW/4 NE/4 of Section 14, Township 140 North, Range 97 West, Stark County, North Dakota, pursuant to NDAC Section 43-02-03-48.1.

(2) Allocation tests shall be performed monthly.

(3) The following wells are authorized to be commingled in the Doloris Central Tank Battery:

<u>File No.</u>	<u>Well Name & No.</u>	<u>Location</u>	<u>Order No.</u>
24989	Allan 14-23H	NWNE Section 14-T140N-R97W	23322
24990	Doloris 14-23H	NWNE Section 14-T140N-R97W	23322

(4) The permission granted herein is conditioned upon Fidelity receiving approval of the Sundry Notice and attachments submitted and complying with all provisions dictated by the Director for permission to commingle production from the wells listed in paragraph (3) above into the Doloris Central Tank Battery.

(5) Fidelity shall use the following procedures for allocating production to each well commingled in the Doloris Central Tank Battery:

- (a) Each well shall be tested a minimum of three consecutive days per month.
- (b) The exact producing time, between the opening and closing inventory, shall be considered when determining the average well test rate for each well.
- (c) Each well's tests shall be averaged for the month.
- (d) Downtime shall be monitored to determine the exact total number of producing hours for each well.
- (e) A monthly production volume shall be calculated for each well as follows:

$$\text{Calculated oil volume} = (\text{Average well test oil rate}) * (\text{Number of producing hours}).$$

$$\text{Calculated gas volume} = (\text{Average well test gas rate}) * (\text{Number of producing hours}).$$

$$\text{Calculated water volume} = (\text{Average well test water rate}) * (\text{Number of producing hours}).$$
- (f) The calculated monthly production volumes shall be totaled for all the wells producing into the central production facility to determine the total calculated monthly volumes for the central production facility.
- (g) A correction factor shall be calculated by dividing the total actual monthly production volumes for the central production facility by the total calculated monthly production volumes for the central production facility.
- (h) Each well's allocated production shall then be calculated by multiplying its individual calculated oil, gas, and water volumes by the correction factor calculated in step (g).

(6) If gas is sold from the central production facility, the gas volumes must be accurately allocated back to the individual wells.

(7) The Director is hereby authorized to issue an administrative order modifying any provision of this order in order to prevent waste or protect correlative rights or to modify any procedures for testing or allocation of production herein approved if it can be demonstrated to his satisfaction that a reasonably accurate allocation of production to each separate well producing into the central production facility will be obtained.

(8) Additional wells may only be added to the central production facility by order of the Commission after due notice and hearing.

(9) The results of each well's test and other data needed to determine the allocation for each well shall be filed with the Director at the same time monthly oil production reports are filed.

(10) Fidelity shall notify the Director in writing upon commencement of commingling production from the subject wells into the central production facility.

(11) Authorization to commingle is transferable only with approval of the Director.

(12) The Director is hereby authorized to rescind this order if Fidelity, its assigns or successors, fails to comply with any of the above provisions.

(13) This order shall remain in full force and effect until further order of the Commission.

Dated this 12th day of February, 2014.

BEFORE THE INDUSTRIAL COMMISSION
OF THE STATE OF NORTH DAKOTA

CASE NO. 2196

Application of Fidelity Exploration & Production Company for an order allowing the production from the Doloris 14-23H well and the Allan 14-23H well, located in Section 14, Township 140 North, Range 97 West, Dickinson Field, Stark County, ND, to be produced into the Doloris Central Tank Battery or production facility located in Sec. 14-T140N-R97W, Stark County, ND, as an exception to the provisions of N.D. Admin. Code § 43-02-03-48 pursuant to 43-02-03-48.1, and such further and additional relief.

APPLICATION OF FIDELITY EXPLORATION & PRODUCTION COMPANY

Fidelity Exploration & Production Company ("Fidelity"), for its application respectfully shows the North Dakota Industrial Commission ("Commission") as follows:

1.

That Fidelity is the owner of an interest in the oil and gas leasehold estate in and under the Section 14, Township 140 North, Range 97 West (the "Subject Lands").

2.

That the Subject Lands are currently within an area defined by the Commission as the field boundaries for the Dickinson-Bakken Pool.

3.

That Fidelity is the operator of the following wells which will be drilled and completed to the Dickinson-Bakken Pool:

Doloris 14-23H well, located in the NW/4NE/4 of Section 14-T140N-R97W
Allan 14-23H well, located in the NW/4NE/4 of Section 14-T140N-R97W

the "Subject Wells".

4.

That Fidelity is desirous to produce the Subject Wells into a central tank battery or production facility and commingle the production as an exception to the provisions of Section 43-02-03-48 of the North Dakota Administrative Code.

5.

That if Fidelity's application is granted, Fidelity proposes that production be allocated on the basis of production tests on an individual basis as approved by the Commission.

6.

That granting Fidelity the authority to produce the Subject Wells into a central tank battery or production facility will reduce the number of LACT units required. Each well will produce into a unique tank battery. Oil from each battery will be metered upstream prior to reaching the LACT header that services the two well set.

7.

That granting Fidelity the authority to produce the Subject Wells into a central bank battery or production facility and allocating production based on well tests will prevent waste and protect correlative rights.

8.

That Fidelity therefore requests that the Commission enter an order allowing the production from the Doloris 14-23H well and the Allan 14-23H well, located in Section 14, Township 140

North, Range 97 West, Dickinson Field, Stark County, ND, to be produced into the Doloris Central Tank Battery or production facility located in Sec. 14-T140N-R97W, Stark County, ND, as an exception to the provisions of N.D. Admin. Code § 43-02-03-48 pursuant to 43-02-03-48.1, and such further and additional relief.

WHEREFORE, Fidelity requests the following:

- (a) That this matter be set for the regularly scheduled September 2013 hearings of the Commission;
- (b) That pursuant to Section 43-02-03-88.2 of the North Dakota Administrative Code, Fidelity's witnesses in this matter be allowed to participate by telephonic means; and
- (c) That thereafter the Commission issue an order granting the relief requested and such other and further relief as the Commission may deem appropriate.
