Log Tops of North Dakota on CD-ROM

Selected log tops were picked using all available logs in the files of the Oil and Gas Division. Tops used are those generally recognized, but some interpretations may vary and some are difficult to pick with consistency across the state. The general rule was to omit tops unless we were relatively confident of the pick. Computer entries have not been checked for errors.

The tops are in Microsoft Excel 95/5.0-Excel97 format.
