

ENBRIDGE PIPELINES (NORTH DAKOTA) LLC
PROCEEDING WITH INCREASED PHASE 6 EXPANSION CAPACITY
WEST OF BEAVER LODGE STATION

In response to recent increases in receipts at its Alexander and Trenton stations, growing production in this area, and the significant interest expressed by customers desiring the ability to access to the firm pipeline capacity being considered at Beaver Lodge Station, Enbridge Pipelines (North Dakota) LLC, ("EPND"), will now be proceeding with the previously deferred Phase 6 Expansion work west of Beaver Lodge Station. New pumping upgrades will increase capacity out of our Alex and Trenton stations from 93,000 bpd to an estimated 127,000 bpd. The work will be completed in 2011, with capital costs and rates consistent with original estimates provided in the Phase 6 Expansion Offer of Settlement.

EPND's Phase 6 West of Beaver Lodge Expansion Project

Enbridge has recently completed Non-Binding Expressions of Interest for development of additional pipeline capacity with priority transportation service from Beaver Lodge Station into Berthold, North Dakota (the "Phase 7 Expansion Project") and from Berthold, North Dakota into Cromer, Manitoba (the "Bakken Pipeline Expansion Project" or "BPEP"). A Binding Open Season is scheduled for 2Q 2010. Please contact either Drew Armstrong (403) 231-3904 or Kelly Wilkins (701) 857-0840 for additional information.

Yours truly,

Mike Moeller

Manager, Enbridge Pipelines (North Dakota) LLC
